R-2515 Muroc Lake, Calif.

Boundaries. Beginning at Lat. 35°19'00" N, Long. 116°49'00" W; to Lat. 35°10'00" N, Long. 116° 49'00" W; to Lat. 35°08'50" N, Long. 116°48'40" W; to Lat. 35°06'30" N, Long. 116°58'40" W; to Lat. 34°53'30" N, Long. 117°11'50" W; to Lat. 34°50'20" N, Long. 117°32'00" W; to Lat. 34°48'30" N, Long. 117°32'00" W; to Lat. 34°48'00" N, Long. 117°35'00" W; to Lat. 34°48'00" N, Long. 118°01'00" W; to Lat. 34°49'40" N, Long. 118°05'45" W; to Lat. 35°01'00" N, Long. 118°05'45" W; to Lat. 35°27'40" N, Long. 117°26'00" W; to Lat. 35°15'56" N, Long. 117°26'00" W; to Lat. 35°15'56" N, Long. 116°55'20" W; to Lat. 35°19'00" N, Long. 116°55'20" W; to the point of beginning.
Designated altitudes. Unlimited.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Los Angeles ARTC Center.
Using agency. Commander, Edwards AFB, Calif.

R-2516 Naval Missile Facility, Point Arguello, Calif.

Boundaries: Beginning at latitude 34°59'32" N., longitude 120°41'50" W.; to latitude 34°53'30" N., longitude 120°33'20" W.; to latitude 34°50'15" N., longitude 120°31'30" W.; to latitude 34°46'15" N., longitude 120°26'40" W.; to latitude 34°39'50" N., longitude 120°31'15" W.; to latitude 34°35'00" N., longitude 120°31'40" W.; to latitude 34°34'52" N., longitude 120°42'37" W.; thence 3 nautical miles from and parallel to the shoreline to the point of beginning.
Designated altitudes: Surface to unlimited.
Time of designation: Continuous.
Using agency: Commander, Air Force Western Test Range, Vandenberg AFB, Calif.

V 38-1 JAN 73 XUM

R-2517 Naval Missile Facility, Point Arguello, Calif.

Boundaries. Beginning at latitude 34°34'52" N., longitude 120°42'37" W.; to latitude 34°35'00" N., longitude 120°31'40" W.; to latitude 34°24'45" N., longitude 120°27'20" W.; to latitude 34°24'00" N., longitude 120°30'00" W.; thence three nautical miles from and parallel to the shoreline to the point of beginning.
Designated altitudes. Surface to unlimited.
Time of designation. Continuous.
Using agency. Commander, Air Force Western Test Range, Vandenburg AFB, Calif.

R-2518 Offshore of California.

Boundaries. A circular area with a 300-yard radius centered at Lat. 33°02'04" N, Long. 118°36'47" W.
Designated altitudes. Surface to 2,000 feet MSL.
Time of designation. Sunrise to 2000 local time.
Using Agency. Officer in Charge, Fleet Air Control and Surveillance Facility, San Diego, Calif.

R-2519 Point Mugu, Calif.

Boundaries. Beginning at Lat. 34°07'00" N, Long. 119°07'00" W; to Lat. 34°04'15" N, Long. 119° 03'40" W; to Lat. 34°02'15" N, Long. 119°04'20" W; thence 3 nautical miles from and parallel to the shoreline to Lat. 34°05'30" N, Long. 119°13'00" W; to Lat. 34°05'55" N, Long. 119°11'15" W; to Lat. 34°07'08" N, Long. 119°09'32" W; to the point of beginning.
Designated altitudes. Unlimited.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Los Angeles ARTC Center.
Using agency. Commander, Pacific Missile Range, Point Mugu, Calif.

R-2520 Point Mugu, Calif.

Boundaries. Beginning at Lat. 34°08'30" N, Long. 119°06'10" W; to Lat. 34°07'00" N, Long. 119° 05'00" W; to Lat. 34°06'15" N, Long. 119°05'25" W; to Lat. 34°07'00" N, Long. 119°07'00" W; to Lat. 34°07'07" N, Long. 119°09'00" W; to Lat. 34°08'30" N, Long. 119°07'40" W; to the point of beginning.
Designated altitudes. Surface to 3,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Los Angeles ARTC Center.
Using agency. Commander, Pacific Missile Range, Point Mugu, Calif.

R-2521 Salton Sea, Calif.

Boundaries. Beginning at latitude 33°18'00" N., longitude 115°44'00" W.; to latitude 33°10'40" N., longitude 115°44'00" W.; to latitude 33°10'40" N., longitude 115°49'50" W.; to latitude 33°23'15" N., longitude 115°58'40" W.; to latitude 33°26'15" N., longitude 115°54'00" W.; to the point of beginning.
Designated altitudes: Surface to flight level 400 sunrise to sunset; surface to 4,000 feet MSL sunset to sunrise.
Time of designation: Continuous.
Controlling agency. Federal Aviation Administration, Los Angeles ARTC Center.
Using Agency. Commanding Officer, Naval Air Facility, El Centro, Calif.

R-2524 Trona, Calif.

Boundaries. Beginning at Lat. 35°47'46" N, Long. 116°55'20" W; to Lat. 35°15'56" N, Long. 116° 55'20" W; to Lat. 35°15'56" N, Long. 117°16'52" W; to Lat. 35°25'00" N, Long. 117°16'52" W; to Lat. 35°25'00" N, Long. 117°26'00" W; to Lat. 35°36'00" N, Long. 117°26'00" W; to Lat. 35°36'00" N, Long. 117°16'52" W; to Lat. 35°47'46" N, Long. 117°16'52" W; to the point of beginning.
Designated altitudes. Unlimited.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Los Angeles ARTC Center.
Using agency. Commander, Naval Ordnance Test Station, China Lake, Calif.

R-2525 Vernalis, Calif.

Boundaries. A 5-nautical mile radius circle centered at latitude 37°24'00" N., longitude 121°20'00" W.
Designated altitudes. Surface to 14,000 feet MSL.
Time of designation: Continuous.
Controlling agency. Federal Aviation Administration, Oakland ARTC Center.
Using agency. Commander, Fleet Air, Alameda, Calif.

R-2529 Fort Ord West, California

Boundaries. Beginning at latitude 36° 42' 00" N., longitude 121° 49' 45" W.; to latitude 36° 40' 45" N., longitude 121° 48' 22" W.; thence south along California State Highway No. 1 to latitude 36° 38' 05" N., longitude 121° 49' 55" W.; to latitude 36° 38' 15" N., longitude 121° 51' 45" W.; to the point of beginning.
Designated altitudes. Surface to 1,000 feet MSL.
Time of designation. Thirty minutes before sunrise to thirty minutes after sunset.
Controlling agency. Federal Aviation Administration, Monterey Approach Control.
Using agency. Commanding General, Fort Ord, California.

R-2530 Sierra Army Depot, Calif.

Boundaries. Beginning at latitude 40° 18' 21" N., longitude 120° 05' 06" W.; to latitude 40° 18' 21" N., longitude 120° 02' 51" W.; to latitude 40° 18' 06" N., longitude 120° 02' 51" W.; to latitude 40° 16' 06" N., longitude 120° 05' 06" W.; to the point of beginning.
Designated altitudes. Surface to 8,600 feet MSL.
Time of designation. 0800 to 1800 p.s.t., Monday through Friday.
Using agency. Commanding Officer, Sierra Army Depot, Herlong, California.

R-2531 Tracy, Calif.

Boundaries. Beginning at latitude 37°40'34" N., longitude 121°33'42" W.; to latitude 37°40'45" N., longitude 121°31'29" W.; to latitude 37°39'28" N., longitude 121°30'28" W.; to latitude 37°38'50" N., longitude 121°31'05" W.; to latitude 37°39'03" N., longitude 121°34'03" W.; thence to the point of beginning.
Designated altitudes. Surface to 4,000 feet MSL.
Time of designation. 1000 to 1800, local time, Monday through Friday.
Using agency. United States Atomic Energy Commission, San Francisco Operations Office.

R-2532 Blythe, Calif.
Boundaries: Beginning at latitude 33°30'30" N., longitude 115°00'00" W.; thence counterclockwise along the arc of an 18-mile radius circle centered on the Blythe, Calif., airport at latitude 33°37'15" N., longitude 114°43'00" W.; to latitude 33°23'50" N., longitude 114°53'00" W.; to latitude 33°08'45" N., longitude 114°56'40" W.; to latitude 33°22'50" N., longitude 115°09'58" W.; to latitude 33°21'40" N., longitude 115°12'00" W.; to latitude 33°24'15" N., longitude 115°17'00" W.; to latitude 33°25'50" N., longitude 115°14'30" W.; thence to point of beginning.
Time of designation. Sunrise to sunset, April 3, 1969, through April 3, 1971.
Designated altitudes: 100 feet AGL to 17,000 feet MSL.
Controlling agency: FAA, Los Angeles ARTC Center.
Using agency: MCAS, Yuma, Ariz.

R-2533 Oceanside, Calif.

Boundaries: Beginning at latitude 33°27'48" N., longitude 117°33'15" W.; thence to latitude 33°18'20" N., longitude 117°21'48" W.; thence to latitude 33°17'30" N., longitude 117°16'40" W.; thence to latitude 33°13'20" N., longitude 117°29'00" W.; thence 3 nautical miles from and parallel to the shoreline to latitude 33°22'30" N., longitude 117°39'45" W.; thence to the point of beginning, excluding that airspace within the San Mateo Point Prohibited Area P-25.
Designated altitudes: Surface to 2,000 feet MSL.
Time of designation: Continuous.
Controlling agency: FAA, El Toro RATCC.
Using agency: Commanding General, Marine Corps Base (MCB), Camp Pendleton, Calif.

R-2534A Point Arguello, Calif.

Boundaries: Beginning at latitude 34°38'35" N., longitude 120°31'20" W.; to latitude 34°35'45" N., longitude 120°28'10" W.; to latitude 34°36'20" N., longitude 120°27'20" W.; to latitude 34°30'00" N., longitude 120°15'30" W.; to latitude 34°25'10" N., longitude 120°15'30" W.; thence 3 miles from and parallel to the shoreline to latitude 34°24'40" N., longitude 120°19'10" W.; to point of beginning.
Designated altitudes: 500 feet above the surface to unlimited.
Time of designation: Continuous.
Controlling agency: FAA, ARTCC, Los Angeles, Calif.
Using agency: Commander, Air Force Western Test Range, Vandenberg AFB, Calif.

R-2534B Point Arguello, Calif.
Boundaries: Beginning at latitude 34°38'35" N., longitude 120°31'20" W.; to latitude 34°24'40" N., longitude 120°19'10" W.; to latitude 34°24'45" N., longitude 120°27'20" W.; to latitude 34°35'00" N., longitude 120°31'40" W.; to point of beginning.
Designated altitudes: 500 feet above the surface to unlimited.
Time of designation: Continuous.
Controlling agency: FAA, ARTCC, Los Angeles, Calif.
Using agency: Commander, Air Force Western Test Range, Vandenberg AFB, Calif.

V 38-1 JAN 73 XUM

§ 73.26 Colorado

R-2601A Fort Carson, Colo.

Boundaries: Beginning at latitude 38°43'38" N., longitude 104°45'50" W.; to latitude 38°40'53" N., longitude 104°45'35" W.; to latitude 38°42'04" N., longitude 104°49'34" W.; thence northeasterly along Colorado Highway No. 115 to latitude 38°43'12" N., longitude 104°49'07" W.; to latitude 38°42'58" N, longitude 104°48'30" W.; to latitude 38°43'43" N., longitude 104°46'20" W.; to the point of beginning.
Designated altitudes: Surface to 8,500 feet MSL.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Denver ARTC Center.
Using agency: Commanding General, Fort Carson, Colo.

R-2601B Fort Carson, Colo.
Boundaries: Beginning at latitude 38°40'53" N., longitude 104°45'35" W.; to latitude 38°32'06" N., longitude 104°45'00" W.; to latitude 38°32'06" N., longitude 104°49'18" W.; to latitude 38°36'20" N., longitude 104°52'00" W.; to latitude 38°39'00" N., longitude 104°52'00" W.; thence northeasterly along Colorado Highway No. 115 to latitude 38°42'04" N., longitude 104°49'34" W.; to the point of beginning.
Designated altitudes: Surface to 35,000 feet MSL.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Denver ARTC Center.
Using agency: Commanding General, Fort Carson, Colo.

R-2602 Fort Carson, Colo.
Boundaries: Beginning at latitude 38°39'00" N., longitude 104°52'00" W.; to latitude 38°36'20" N., longitude 104°52'00" W.; to latitude 38°32'06" N., longitude 104°49'18" W.; to latitude 38°32'06" N., longitude 104°45'00" W.; to latitude 38°26'10" N., longitude 104°45'00: W.; to latitude 38°26'10" N., longitude 104°57'13" W.; to latitude 38°32'38" N., longitude 104°57'13" W.; thence northeast along Colorado Highway No. 115 to point of beginning.
Designated altitudes: Surface to 35,000 feet MSL.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Denver ARTC Center.
Using Agency: Commanding General, Fort Carson, Colo.

R-2604 Platteville, Colo.
Boundaries. A circle with a 2,000-foot radius centered at latitude 40°10'48" N., longitude 104°43'30" W.
Designated altitudes. Surface to 6,000 feet MSL.
Time of designation. Continuous.
Controlling agency. FAA, Flight Service Station, Denver, Colo.
Using agency. Environmental Science Services Administration Research Laboratories, Boulder, Colo.

§ 73.27 Connecticut

§ 73.28 Delaware

§ 73.29 Florida

R-2901A Avon Park, Fla.

Boundaries. Beginning at lat. 27°35'30" N., long. 81°08'15" W.; to lat. 27°35'00" N., long. 81°09'00" W.; to lat. 27°32'40" N., long. 81°12'20" W.; to lat. 27°32'40" N., long. 81°16'50" W.; to lat. 27°32'32" N., long. 81°21'40" W.; thence northerly along Arbuckle Creek to Arbuckle Lake and along the east and north shore of Arbuckle Lake to lat. 27°43'10" N., long. 81°25'20" W.; to lat. 27°44'50" N., long. 81°25'20" W.; to lat. 27° 44'45" N., long. 81°21'25" W.; to lat. 27°44'45" N., long. 81°11'40" W.; to point of beginning.
Designated altitudes. Surface to FL 180, inclusive.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Miami ARTC Center.
Using agency. Commander, MacDill AFB, Fla.

R-2901B Avon Park, Fla.

Boundaries. Beginning at lat. 27°35'30" N., long. 81°08'15" W.; to lat. 27°35'00" N., long. 81°09'00" W.; to lat. 27°32'40" N., long. 81°12'20" W.; to lat. 27°32'40" N., long. 81°16'50" W.; to lat. 27°32'32" N., long. 81°21'40" W.; thence northerly along Arbuckle Creek to Arbuckle Lake and along the east and north shore of Arbuckle Lake to lat. 27°43'10" N., long. 81°25'20" W.; to lat. 27°44'50" N., long. 81°25'20" W.; to lat. 27° 44'45" N., long. 81°21'25" W.; to lat. 27°44'45" N., long. 81°11'40" W.; to point of beginning.
Designated altitudes. From FL 180 to FL 240.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Miami ARTC Center.
Using agency. Commander, MacDill AFB, Fla.

R-2901C Avon Park, Fla.

Boundaries. That area bounded on the east by long. 81°14'00" W., on the south by lat. 27°44'45" N., on the west by long. 81°21'00" W., and on the north by Florida State routes 60 and 630.
Designated altitudes. Surface to 4,000 feet MSL.
Time of designation. Sunrise to sunset.
Controlling agency. Federal Aviation Administration, Miami ARTC Center.
Using agency. Commander, MacDill AFB, Fla.

R-2901D Avon Park, Fla.

Boundaries. Beginning at lat. 28°00'00" N., long. 81°21'00" W.; to lat. 28°00'00" N., long. 81°14'00" W.; to lat. 27°50'00" N., long. 81°14'00" W.; to lat. 27°50'00" N., long. 81°21'00" W.; to point of beginning.
Designated altitudes. 1,000 feet MSL to 4,000 feet MSL.
Time of designation. Sunrise to sunset.
Controlling agency. Federal Aviation Administration, Miami ARTC Center.
Using agency. Commander, MacDill AFB, Fla.

R-2901E Avon Park, Fla.

Boundaries. Beginning at lat. 27°32'40" N., long. 81°15'30" W.; to lat. 27°32'40" N., long. 81°12'20" W.; to lat. 27°35'00" N., long. 81°09'00" W.; to lat. 27°29'30" N., long. 81°05'30" W.; to lat. 27°26'30" N., long. 81°12'00" W.; to point of beginning.
Designated altitudes. Surface to 4,000 feet MSL.
Time of designation. Sunrise to sunset.
Controlling agency. Federal Aviation Administration, Miami ARTC Center.
Using agency. Commander, MacDill AFB, Fla.

R-2901F Avon Park, Fla.

Boundaries. Beginning at lat. 27°26'30" N., long. 81°12'00" W.; to lat. 27°29'30" N., long. 81°05'30" W.; from lat. 27°21'00" N., long. 81°00'00" W., to lat. 27°26'30" N., long. 81°12'00" W.; to lat. 27°16'45" N., long. 81°06'00" W.; to point of beginning.
Designated altitudes. 1,000 feet MSL to 4,000 feet MSL northeast of a line extending from lat. 27°21'00" N., long. 81°00'00" W.; 1,500 feet MSL to 4,000 feet MSL southwest of above described line.
Time of designation. Sunrise to sunset.
Controlling agency. Federal Aviation Administration, Miami ARTC Center.
Using agency. Commander, MacDill AFB, Fla.

R-2901G Avon Park, Fla.

Boundaries. That area bounded on the north by lat. 27°50'00" N., on the east by long. 81°14'00" W., on the south by Florida State highways 630 and 60, and on the west by long. 81°21'00" W.
Designated altitudes. 500 feet MSL to 4,000 feet MSL.
Time of designation. Sunrise to sunset.
Controlling agency. Federal Aviation Administration, Miami ARTC Center.
Using agency. Commander, MacDill AFB, Fla.

R-2902A Cape Kennedy, Fla.
Boundaries: Beginning at latitude 28°41'40" N., longitude 80°35'00" W.; thence 3 nautical miles from and parallel to the shoreline to latitude 28°24'30" N., longitude 80°30'30" W.; to latitude 28° 24'30" N., longitude 80°41'45" W.; to latitude 28°30'30" N., longitude 80°43'30" W.; to latitude 28°37'35" N., longitude 80°46'50" W.; to latitude 28°38'00" N., longitude 80°47'02" W.; to point of beginning.
Designated altitudes. Unlimited.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Miami ARTC Center.
Using agency. Commander, Air Force Eastern Test Range, Patrick AFB, Fla.

V 38 - 1 JAN 3 73 XUM

R-2902B Cape Kennedy, Fla.
Boundaries. Beginning at latitude 28°41'40" N., longitude 80°35'00" W.; to latitude 28°38'00" N., longitude 80°47'02" W.; to latitude 28°45'00" N., longitude 80°37'50" W.; to point of beginning.
Designated altitudes. Surface to 14,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Miami ARTC Center.
Using agency. Commander, Air Force Eastern Test Range, Patrick AFB, Fla.

R-2903A Jacksonville, Fla.
Boundaries: Beginning at latitude 30°15'30" N., longitude 81°43'25" W.; clockwise along an arc of a circle 2½ nautical miles in radius centered at latitude 30°14'00" N., longitude 81°41'00" W.; to latitude 30°11'25" N., longitude 81°41'00" W.; to latitude 29°59'28" N., longitude 81°41'00" W.; to latitude 29°59'28" N., longitude 82°02'00" W.; to latitude 30°21'32" N., longitude 82°02'00" W.; to latitude 30°21'20" N., longitude 81°55'45" W.; to latitude 30°15'30" N., longitude 81°50'00" W.; to point of beginning.
Designated altitudes: Surface to and including 10,000 feet MSL.
Time of designation: Continuous.
Controlling agency. Federal Aviation Administration, Jacksonville TRACON.
Using agency: Commander, Fleet Air Jacksonville, NAS Jacksonville, Fla.

R-2903B Stevens Lake, Fla.
Boundaries: Within a 5 nautical mile radius of lat. 29°53'04" N., longitude 81°59'09" W., excluding the airspace bounded by lat. 29°53'45" N., long. 82°04'50" W.; lat. 29°52'35" N., long. 82°02'00" W.; lat. 29°50'27" N., long. 82°00'00" W.; lat. 29°48'30" N., long. 81°57'00" W.; with a southeast extension beginning at lat. 29°52'30" N., long. 81°53'30" W.; to lat. 29°49'00" N., long. 81°46'20" W.; to lat. 29°44'50" N., long. 81°49'05" W.; to lat. 29°48'30" N., long. 81°57'00" W.; counterclockwise along an arc of a circle 5 nautical miles in radius centered at lat. 29°53'04" N., long. 81°59'09" W.; to the point of beginning; and a northeast extension beginning at lat. 29°59'50" N., long. 81°57'40" W.; to lat. 29°56'45" N., long. 81°53'15" W.; to lat. 29°55'30" N., long. 81°54'10" W.; counterclockwise along an arc of a circle 5 nautical miles in radius centered at lat. 29°53'04" N., long. 81°59'09" W.; to lat. 29°58'10" N., long. 81°59'10" W.; to point of beginning.
Designated altitudes: Within the circular area, surface to FL 230; within the southeast extension, surface to 7,000 feet MSL in the area beginning at lat. 29°52'30" N., long. 81°53'30" W.; to lat. 29°51'10" N., long. 81°51'00" W.; to lat. 29°47'00" N., long. 81°53'55" W.; to lat. 29°48'30" N., long. 81°57'00" W.; counterclockwise along an arc of a circle 5 nautical miles in radius centered at lat. 29°53'04" N., long. 81°59'09" W.; to point of beginning. Surface to 5,000 feet MSL in the area beginning at lat. 29°51'10" N., long. 81°51'00" W.; to lat. 29°49'00" N., long. 81°46'20" W.; to lat. 29°44'50" N., long. 81°49'05" W.; to lat. 29°47'00" N., long. 81°53'55" W.; to lat. 29°51'10" N., long. 81°51'00" W.; within the northeast extension, surface to 7,000 feet MSL.
Time of designation: Continuous.
Controlling agency. Federal Aviation Administration, Jacksonville TRACON.
Using agency: Commander, Fleet Air Jacksonville, NAS Jacksonville, Fla.

R-2903C Putnam, Fla.

Boundaries: A circle with a 5 nautical mile radius centered at lat. 29°47'00" N., long. 81°41'00" W.
Designated altitudes. Surface to 14,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Jacksonville TRACON.
Using agency. Commander, Fleet Air Jacksonville, NAS Jacksonville, Fla.

R-2906 Rodman, Fla.
Boundaries: A circle with a 5-nautical-mile radius centered at latitude 29°29'00" N., longitude 81°46'00" W.; excluding the area east of the east bank of the St. Johns River.
Designated altitudes: Surface to 14,000 feet MSL.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Jacksonville TRACON.
Using agency: Commander, Fleet Air Jacksonville, NAS Jacksonville, Fla.

AMENDMENTS 10/12/72 37 F. R. 15985 (Changed)

R-2907 Lake George, Fla.
Subarea A
Boundaries: Beginning at latitude 29°23'00" N., longitude 81°31'10" W.; to latitude 29°12'30" N., longitude 81°30'00" W.; to latitude 29°12'30" N., longitude 81°38'30" W.; to latitude 29°15'05" N., longitude 81°40'00" W.; to latitude 29°20'30" N., longitude 81°40'00" W.; to latitude 29°23'00" N., longitude 81°40'00" W.; to latitude 29°23'00" N., longitude 81°39'10" W.; thence via a 5-nautical-mile arc centered at latitude 29°19'11" N., longitude 81°35'15" W.; to point of beginning.
Designated altitudes: Surface to FL 230.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Jacksonville TRACON.
Using agency: Commander Fleet Air Jacksonville, NAS Jacksonville, Fla.

AMENDMENTS 2/26/72 37 F. R. 4075 (Changed)
AMENDMENTS 10/12/72 37 F. R. 15985 (Changed)

Subarea B
Boundaries: Beginning at latitude 29°20'05" N., longitude 81°40'00" W.; to latitude 29°15'05" N., longitude 81°40'00" W.; to latitude 29°15'05" N., longitude 81°51'50" W.; to latitude 29°20'05" N., longitude 81°51'50" W.; to point of beginning.
Designated altitudes: Surface to 9,000 feet MSL from a line of longitude 81°40'00" W., to a line of longitude 81°42'55" W.; surface to 6,000 feet MSL from a line of longitude 81°42'55" W., to a line of longitude 81°51'50" W.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Jacksonville TRACON.
Using agency: Commander, Fleet Air Jacksonville, NAS Jacksonville, Fla.

AMENDMENTS 10/12/72 37 F. R. 15985 (Changed)

R-2908 Pensacola, Fla.

Boundaries. Bounded on the N by the Alabama-Florida shoreline; on the E by a line extending from Lat. 30°15'00" N, Long, 87°41'00" W to Lat. 30°11'20" N, Long. 87°44'15" W; on the S by a line 3 nautical miles from and parallel to the Alabama-Florida shoreline; and on the W by Long. 88°01'30" W.
Designated altitudes. Surface to 12,000 feet MSL.
Time of designation. Sunrise to sunset.
Controlling agency: Federal Aviation Administration, Pensacola RATCC.
Using agency. Chief, Naval Air Basic Training, Pensacola, Fla.

R-2909 Pensacola, Fla.

Boundaries. Bounded on the N by the Florida shoreline; on the E by Long. 86°48'00" W; on the S by a line 3 nautical miles from and parallel to the Florida shoreline; and on the W by a line extending from Lat. 30° 18'20" N, Long. 87°00'00" W to Lat. 30°21'15" N, Long. 87°00'50" W.
Designated altitudes. Surface to 12,000 feet MSL.
Time of designation. Sunrise to sunset.
Controlling agency: Federal Aviation Administration, Pensacola RATCC.
Using agency. Chief, Naval Air Basic Training, Pensacola, Fla.

R-2910 Pinecastle, Fla.

Boundaries: A circle withi a 5-nautical mile radius centered at latitude 29°06'52" N., longitude 81°42'55" W.; with a northwest extension to the circle beginning at latitude 29°07'55" N., longitude 81°48'20" W.; to latitude 29°10'00" N., longitude 81°50'35" W.; to latitude 29°14'00" N., longitude 81°45'50" W.; to latitude 29°11'50" N., longitude 81°43'00" W.; and with a southeast extension to the circle beginning at latitude 29°10'05" N., longitude 81°38'50" W.; to latitude 28°57'55" N., longitude 81°28'25" W.; to latitude 28°53'50" N., longitude 81°33'45" W.; to latitude 29°03'05" N., longitude 81°47'00" W.
Designated altitudes: Surface to FL 230 within the 5-nautical mile radius. Surface to 9,000 feet MSL within the northwest extension. Surface to 9,000 feet MSL within the southeast extension from the circle to a line from latitude 29°04'25" N., longitude 81°33'55" W.; to latitude 28°58'50" N., longitude 81°40'30" W. Surface to 6,000 feet MSL within that portion of the southeast extension that lies southeast of a line from latitude 29°04'25" N., longitude 81°33'55" W.; to latitude 28°58'50" N., longitude 81°40'30" W.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Jacksonville ARTC Center.
Using agency: Commander, Fleet Air Jacksonville, NAS Jacksonville, Fla.

AMENDMENTS 2/26/72 37 F. R. 4075 (Changed)

R-2914 Valparaiso, Fla.

Boundaries: Beginning at latitude 30°43'15" N., longitude 86°25'00" W.; to latitude 30°43'45" N., longitude 86°10'30" W.; to latitude 30°41'00" N., longitude 86°05'10" W.; to latitude 30°24'00" N., longitude 85°56'00" W.; to latitude 30°11'00" N., longitude 85°56'00" W.; thence 3 nautical miles from and parallel to the shoreline to latitude 30°15'00" N., longitude 86°06'15" W., to latitude 30°23'20" N., longitude 86°08'10" W.; to latitude 30°30'45" N., longitude 86°25'00" W.; to point of beginning, excluding that airspace 5,000 feet MSL and below within a circle with a 1¼-mile radius centered at latitude 30°34'19" N., longitude 86°12'56" W.
Designated altitudes: Surface to FL 500.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Jacksonville ARTC Center.
Using agency: Commander, Armament development and Test Center, Eglin AFB, Fla.

R-2915A Eglin AFB, Fla.

Boundaries. Beginning at latitude 30°33'40" N., longitude 86°55'00" W.; to latitude 30°38'45" N., longitude 86°55'00" W.; thence along the L and N Railroad to latitude 30°42'45" N., longitude 86°45'45" W.;to latitude 30°42'50" N., longitude 86°38'02" W.; to latitude 30°29'01" N., longitude 86°38'02" W.; to latitude 30°26'30" N., longitude 86°51'30" W.; thence along the Navarre-Milton Highway to point of beginning.
Designated altitudes. Surface to FL 500.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Jacksonville ARTC Center.
Using agency. Commander, Armament Development and Test Center (ADTC), Eglin AFB, Fla.

V 38 - 1 JAN 73 N 73 XUM

R-2915B Eglin AFB, Fla.

Boundaries. Beginning at latitude 30°29'01" N., longitude 86°38'02" W.; to latitude 30°20'50" N., longitude 86°38'50" W.; thence 3 nautical miles from and parallel to the shoreline to latitude 30°20'15" N., longitude 86°48'00"W.; to latitude 30°23'20" N., longitude 86°48'00" W.; to latitude 30°22'50" N., longitude 86°51'30" W.; to latitude 30°23'50" N., longitude 86°51'30" W.; to latitude 30°24'20" N., longitude 86°48'00" W.; to latitude 30°26'30" N., longitude 86°51'30" W.; to point of beginning.
Designated altitudes. Surface to FL 1200.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Jacksonville ARTC Center.
Using agency. Commander, Armament Development and Test Center (ADTC), Eglin AFB, Fla.

R-2916 Cudjoe Key, Fla.

Boundaries. A circular area 4 statute miles in diameter centered at latitude 24°42'01" N., longitude 81°30'30" W.
Designated altitudes. Surface to 14,000 feet MSL.
Time of designation. Continuous.
Using agency. Department of the Air Force.

R-2917 DeFuniak Springs, Fla.
Boundaries: A circle with a 1½-mile radius centered at latitude 30°34'19" N., longitude 86°12'56" W.
Designated altitude: Surface to 5,000 feet MSL.
Time of designation: Continuous.
Using agency. Commander, Armament Development and Test Center (DTC), Eglin AFB, Fla.

R-2918 Valparaiso, Fla.

Boundaries: Beginning at latitude 30°43'10" N., longitude 86°27'37" W., to latitude 30°43'15" N., longitude 86°25'00" W., to latitude 30°33'00" N., longitude 86°25'00" W., to latitude 30°33'00" N., longitude 86°25'30" W., to latitude 30°37'00" N., longitude 86°25'30" W., to latitude 30°37'00" N., longitude 86°27'37" W., to point of beginning.
Designated altitudes: Surface to FL 500.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Jacksonville ARTC Center.
Using agency: Commander, Armament Development and Test Center, Eglin AFB, Fla.

R-2919 Valparaiso, Fla.

Boundaries: Beginning at latitude 30°30'45" N., longitude 86°25'00" W.; to latitude 30°23'20" N., longitude 86°08'10" W.; to latitude 30°15'00" N., longitude 86°06'15" W.; thence 3 nautical miles from and parallel to the shoreline to latitude 30°19'45" N., longitude 86°23'45" W.; to latitude 30°25'00" N., longitude 86°22'26" W.; to latitude 30°25'00" N., longitude 86°25'00" W.; to point of beginning.
Designated altitudes: Surface to FL 500.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Jacksonville ARTC Center.
Using agency: Commander, Armament Development and Test Center, Eglin AFB, Fla.

§ 73.30 Georgia

R-3002 Fort Benning, Ga.

Boundaries. Beginning at latitude 32°30'50" N., longitude 84°52'15" W.; along the Central of Georgia Railroad to latitude 32°32'10" N., longitude 84°40'40" W.; to lat. 32°31'20" N, long. 84°40'20" W.; thence northeast along Upatoi Creek to lat. 32°31'46" N, long. 84°39'25" W; to lat. 32°18'30" N, long. 84°39'25" W; along the Central of Georgia Railroad to latitude 32°20'54" N., longitude 84°47'20" W.; to latitude 32°15'25" N., longitude 84°47'20" W.; to latitude 32°15'25" N., longitude 84°53'10" W.; along the Chattahoochee River to latitude 32°14'40" N., longitude 84°55'30" W.; to latitude 32°14'40" N., longitude 84°58'42" W.; to latitude 32°20'15" N., longitude 84°58'42" W.; along northwest side of Dixie Road to latitude 32°21'10" N., longitude 84°56'45" W.; to latitude 32°22'30" N., longitude 84°56'45" W.; along Upatoi Creek to lat. 32°24'00" N, long. 84°53'30" W; to lat. 32°29'17" N, long. 84°52'32" W; to lat. 32°29'17" N, long. 84°51'35" W; to lat. 32°30'19" N, long. 84°52'21" W; to the point of beginning.
Designated altitude. Surface to and including 14,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Atlanta ARTC Center.
Using agency. Commanding Officer, Fort Benning, Ga.

R-3003 Fort Gordon, Ga.
Boundaries. Beginning at latitude 33°23'35" N., longitude 82°08'30" W.; to latitude 33°22'15" N., longitude 82°08'18" W.; to latitude 33°21'35" N., longitude 82°09'10" W.; to latitude 33°22'15" N., longitude 82°17'00" W.; to latitude 33°25'00" N., longitude 82°12'00" W.; to point of beginning.
Designated altitude. Surface to 4,000 feet MSL.
Time of designation. 0730 to 1700 local time, Monday through Sunday and at other times when published by NOTAM 24 hours in advance.
Controlling agency. Federal Aviation Administration, Augusta, Ga., ATC Tower.
Using agency. Commanding Officer, Fort Gordon, Ga.

AMENDMENTS 4/13/72 37 F. R. 7311 (Changed)
AMENDMENTS 11/2/72 37 F. R. 23330 (Changed)

R-3004 Fort Gordon, Ga.

Boundaries. Beginning at latitude 33°21'53" N., longitude 82°12'15" W., to latitude 33°19'43" N., longitude 82°12'15" W.; to latitude 33°16'20" N., longitude 82°18'00" W.; to latitude 33°17'29" N., longitude 82°23'00" W.; to latitude 33°21'15" N., longitude 82°18'47" W.; to latitude 33°22'15" N., longitude 82°17'00" W.; to point of beginning.
Designated altitude. Surface to and including 18,000 feet MSL.
Time of designation. As published by NOTAM 24 hours in advance.
Controlling agency. Federal Aviation Administration, Jacksonville ARTC Center.
Using agency. Commanding Officer, Fort Gordon, Ga.

R-3005A Fort Stewart, Ga.
Boundaries. Beginning at latitude 32°04'40" N., longitude 81°50'00" W.; to latitude 32°07'00" N., longitude 81°43'30" W.; to latitude 32°06'15" N., longitude 81°31'30" W.; to latitude 32°05'30" N., longitude 81°31'30" W.; to latitude 32°05'15" N., longitude 81°30'00" W.; to latitude 31°56'30" N., longitude 81°30'00" W.; thence along the arc of a 5-mile circle centered at latitude 31°53'20" N., longitude 81°33'45" W.; to latitude 31°56'48" N., longitude 81°30'42" W.; thence SW along Georgia Highway 144 to latitude 31°53'11" N., longitude 81°37'51" W.; to latitude 31°51'45" N., longitude 81°38'08" W.; to latitude 31°55'30" N., longitude 81°53'00" W.; to latitude 31°57'00" N., longitude 81°53'15" W.; to latitude 31°59'45" N., longitude 81°51'06" W., to the point of beginning.
Designated altitudes. Surface to 29,000 feet MSL.
Time of designation. Continuous
Controlling agency. Federal Aviation Administration, Jacksonville ARTC Center.
Using agency. Commanding Officer, Fort Stewart, Ga.

R-3005B Fort Stewart, Ga.

Boundaries. Beginning at latitude 32°05'15" N., longitude 81°30'00" W.; to latitude 32°04'15" N., longitude 81°22'30" W.; thence along the Ogeechee River to latitude 32°00'30" N., longitude 81°19'30" W.; to latitude 31°58'45" N., longitude 81°19'45" W.; to latitude 31°56'15" N., longitude 81°23'00" W.; to latitude 31°54'03" N., longitude 81°28'45" W.; thence along the arc of a 5-statute-mile-radius circle centered at latitude 31°53'20" N., longitude 81°33'45" W.; to latitude 31°56'30" N., longitude 81°30'00" W., to the point of beginning.
Designated altitudes. Surface to 29,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Jacksonville ARTC Center.
Using agency. Commanding Officer, Fort Stewart, Ga.

R-3005C Fort Stewart, Ga.
Boundaries. Beginning at latitude 31°54'03" N., longitude 81°28'45" W.; to latitude 31°51'20" N., longitude 81°36'00" W.; to latitude 31°51'45" N., longitude 81°38'08" W.; to latitude 31°53'11" N., longitude 81°37'51" W.; thence NE along Georgia Highway 144 to latitude 31°56'48" N., longitude 81°30'42" W.; thence along the arc of a 5-mile radius circle centered at latitude 31°53'20" N., longitude 81°33'45" W., to the point of beginning.
Designated altitudes. Surface to 3,500 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Jacksonville ARTC Center.
Using agency. Commanding Officer, Fort Stewart, Ga.

V38-1 JAN 73 XUM

R-3006 Townsend, Ga.

Boundaries. Beginning at latitude 31°40'30" N., longitude 81°41'55" W.; to latitude 31°37'35" N., longitude 81°37'10" W.; thence clockwise via the arc of a circle with a 5 nautical mile radius centered at latitude 31°32'50" N., longitude 81°35'20" W.; to latitude 31°32'40" N., longitude 81°41'10" W.; to latitude 31°35'30" N., longitude 81°46'00" W.; to point of beginning.
Designated altitudes. Surface to 14,000 feet MSL within the circle with a 5 nautical mile radius centered at latitude 31°32'50" N., longitude 81°35'20" W. Surface to 9,000 feet MSL within the area beginning at latitude 31°39'20" N., longitude 81°40'00" W.; to latitude 31°37'35" N., longitude 81°37'10" W.; thence counterclockwise along the arc of the circle with a 5 nautical mile radius centered at latitude 31°32'50" N., longitude 81°35'20" W.; to latitude 31°32'40" N., longitude 81°41'10" W.; to latitude 31°34'20" N., longitude 81°44'05" W.; to point of beginning. Surface to 6,000 feet MSL within the area beginning at latitude 31°40'30" N., longitude 81°41'55" W.; to latitude 31°39'20" N., longitude 81°40'00" W.; to latitude 31°34'20" N., longitude 81°44'05" W.; to latitude 31°35'30" N., longitude 81°46'00" W.; to point of beginning.
Time of designation. 0600 to 1800 e.s.t., Monday through Friday.
Controlling agency. Federal Aviation Administration, Jacksonville ARTC Center.
Using agency. Commander, Fleet Air Jacksonville, NAS Jacksonville, Fla.

§ 73.31 Hawaii

R-3101 PMRFAC FOUR, Hawaii

SUBAREA A
Boundaries: Beginning at latitude 22°13'00" N., longitude 159°42'00" W.; thence to latitude 22°09'45" N., longitude 159°42'00" W.; thence counterclockwise along the shoreline of Kauai to latitude 22°04'36" N., longitude 159°46'20" W.; thence to latitude 22°04'25" N., longitude 159°46'06" W.; thence to latitude 22°03'55" N., longitude 159°46'29" W.; thence to latitude 22°01'45" N., longitude 159°46'53" W.; thence to latitude 22°01'07" N., longitude 159°46'20" W.; thence to latitude 22°00'55" N., longitude 159°45'53" W.; thence to latitude 21°59'52" N., longitude 159°45'14" W.; thence to latitude 21°59'35" N., longitude 159°45'55" W.; thence counterclockwise along the shoreline of Kauai to latitude 21°58'25" N., longitude 159°43'35" W.; thence to latitude 21°58'30" N., longitude 159°48'55" W.; thence clockwise along a line 3 nautical miles from the shoreline of Kauai to the point of beginning.
Designated altitudes: Surface to 5,000 feet MSL.
Time of designation: Continuous.
Controlling agency: FAA, Lihue Combined Station/Tower
Using agency: Commander, Pacific Missile Range (COMPMR).

SUBAREA B
Boundaries: Beginning at latitude 22°13'00" N., longitude 159°42'00" W.; thence to latitude 22°09'45" N., longitude 159°42'00" W.; thence counterclockwise along the shoreline of Kauai to latitude 22°04'36" N., longitude 159°46'20" W.; thence to latitude 22°04'25" N., longitude 159°46'06" W.; thence to latitude 22°03'55" N., longitude 159°46'29" W.; thence to latitude 22°01'45" N., longitude 159°46'53" W.; thence to latitude 22°01'07" N., longitude 159°46'20" W.; thence to latitude 22°00'55" N., longitude 159°45'53" W.; thence to latitude 21°59'52" N., longitude 159°45'14" W.; thence to latitude 21°59'35" N., longitude 159°45'55" W.; thence counterclockwise along the shoreline of Kauai to latitude 21°58'25" N., longitude 159°43'35" W.; thence to latitude 21°58'30" N., longitude 159°48'55" W.; thence clockwise along a line 3 nautical miles from the shoreline of Kauai to the point of beginning.
Designated altitudes: 5,000 feet MSL to unlimited.
Time of designation: Continuous.
Controlling agency: FAA, Honolulu ARTC Center.
Using agency: Commander, Pacific Missile Range (COMPMR).

R-3103 Humuula, Hawaii
Boundaries. Beginning at latitude 19°48'25" N., longitude 155°37'30" W.; thence to latitude 19°43'30" N., longitude 155°29'20" W.; thence to latitude 19°35'00" N., longitude 155°34'30" W.; thence to latitude 19°35'00" N., longitude 155°40'25" W.; thence to latitude 19°40'15" N., longitude 155°43'45" W.; thence to latitude 19°46'40" N., longitude 155°42'20" W.; to the point of beginning.
Designated altitudes. Surface to 30,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Hilo Combined Station/Tower.
Using agency. Commanding General, U. S. Army, Hawaii, Schofield Barracks, Hawaii.

R-3104A Island of Kahoolawe, Hawaii

Boundaries. Beginning at latitude 20°34'20" N., longitude 156°40'30" W.; thence clockwise 1 mile from and parallel to the shoreline to latitude 20°37'00" N., longitude 156°35'15" W.; to latitude 20°35'20" N., longitude 156°31'45" W.; thence clockwise 1 mile from and parallel to the shoreline to latitude 20°30'20" N., longitude 156°31'45" W.; to latitude 20°30'00" N., longitude 156°31'00" W.; to latitude 20°28'30" N., longitude 156°30'45" W.; thence clockwise 3 nautical miles from and parallel to the shoreline to latitude 20°35'25" N., longitude 156°43'00" W.; to the point of beginning.
Designated altitudes: Surface to 10,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Honolulu ARTC Center.
Using agency: Commander, Fleet Air Hawaii, NAS Barber's Point, Hawaii.

R-3104B Island of Kahoolawe, Hawaii
Boundaries: Beginning at latitude 20°34'20" N., longitude 156°40'30" W.; thence clockwise 1 mile from and parallel to the shoreline to latitude 20°37'00" N., longitude 156°35'15" W.; to latitude 20°35'20" N., longitude 156°31'45" W.; thence clockwise 1 mile from and parallel to the shoreline to latitude 20°30'20" N., longitude 156°31'45" W.; to latitude 20°30'00" N., longitude 156°31'00" W.; to latitude 20°28'30" N., longitude 156°30'45" W.; thence clockwise 3 nautical miles from and parallel to the shoreline to latitude 20°35'25" N., longitude 156°43'00" W.; to the point of beginning.
Designated altitudes: 10,000 feet MSL to FL 180.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Honolulu ARTC Center.
Using agency: Commander, Fleet Air Hawaii, NAS Barber's Point, Hawaii.

R-3104C Island of Kahoolawe, Hawaii
Boundaries: Beginning at latitude 20°34'20" N., longitude 156°40'30" W.; thence clockwise 1 mile from and parallel to the shoreline to latitude 20°37'00" N., longitude 156°35'15" W.; to latitude 20°35'20" N., longitude 156°31'45" W.; thence clockwise 1 mile from and parallel to the shoreline to latitude 20°30'20" N., longitude 156°31'45" W.; to latitude 20°30'00" N., longitude 156°31'00" W.; to latitude 20°28'30" N., longitude 156°30'45" W.; thence clockwise 3 nautical miles from and parallel to the shoreline to latitude 20°35'25" N., longitude 156°43'00" W.; to the point of beginning.
Designated altitudes: FL 180 to unlimited.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Honolulu ARTC Center.
Using agency: Commander, Fleet Air Hawaii, NAS Barber's Point, Hawaii.

R-3107A Kaula Rock, Hawaii

Boundaries. A circular area with a 3-nautical mile radius centered at Lat. 21°39'30" N, Long. 160°32'30" W.
Designated altitudes: Surface to FL 180
Time of designation. Continuous.
Controlling agency: Federal Aviation Administration, Honolulu ARTC Center.
Using agency. Commander, Fleet Air Hawaii, NAS Barber's Point, Hawaii.

R-3107B Kaula Rock, Hawaii

Boundaries: A circular area with a 3-nautical-mile radius centered at latitude 21°39'30" N., longitude 160°32'30" W.
Designated altitudes: FL 180 to FL 300
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Honolulu ARTC Center.
Using agency: Commander, Fleet Air Hawaii, NAS Barber's Point, Hawaii.

R-3109A Schofield-Makua, Oahu, Hawaii
Beginning at latitude 21°30'29" N., longitude 158°04'09" W.; to latitude 21°29'25" N., longitude 158°05'00" W.; to latitude 21°27'28" N., longitude 158°05'55" W.; to latitude 21°29'11" N., longitude 158°07'35" W.; to latitude 21°29'30" N., longitude 158°08'40" W.; to latitude 21°33'15" N., longitude 158°08'40" W.; to latitude 21°32'14" N., longitude 158°05'12" W.; to point of beginning.
Designated altitudes: The area southeast of a line between latitude 21°28'35" N., longitude 158°07'00" W.; and latitude 21°29'25" N., longitude 158°05'00" W.; surface to 8,000 feet MSL. The area northwest of this line, surface to 19,000 feet MSL.
Time of designation: Continuous.
Controlling agency: FAA, Honolulu Flight Service Station.
Using agency: U. S. Army, Hawaii, Schofield Barracks, Hawaii.

V 38-1 JAN 3 73 XUM

R-3109B Schofield-Makua, Oahu, Hawaii

Beginning at latitude 21°29'30" N., longitude 158°08'40" W.; to latitude 21°31'00" N., longitude 158°14'00" W.; to latitude 21°32'30" N., longitude 158°14'30" W.; to latitude 21°33'15" N., longitude 158°15'15" W.; to latitude 21°34'30" N., longitude 158°15'15" W.; to latitude 21°34'30" N., longitude 158°13'15" W.; to latitude 21°33'15" N., longitude 158°08'40" W.; to point of beginning.
Designated altitudes: Surface to 19,000 feet MSL.
Time of designation: Continuous.
Controlling agency: FAA, Honolulu Flight Service Station.
Using agency: U. S. Army, Hawaii, Schofield Barracks, Hawaii.

R-3120 PMRFAC Five, Hawaii

Boundaries: Beginning at latitude 21°58'30" N., longitude 159°48'55" W., thence to latitude 21°58'25" N., longitude 159°43'35" W., thence southeasterly along the shoreline of the Island of Kauai to latitude 21°57'45" N., longitude 159°42'00" W., thence to latitude 21°54'45" N., longitude 159°42'00" W., thence clockwise along a line 3 nautical miles from and parallel to the shoreline of the Island of Kauai to the point of beginning.
Designated altitudes: Surface to 5,000 feet MSL.
Time of designation: Continuous.
Controlling agency: FAA, Lihue Combined Station/Tower
Using agency: Commander, Pacific Missile Range (COMPMR).

§ 73.32 Idaho

R-3201 Arco, Idaho.

Boundaries. Beginning at Lat. 43°59'20" N, Long. 112°43'50" W; to Lat. 43°50'20" N, Long. 112° 30'00" W; to Lat. 43°32'00" N, Long. 112°35'00" W; to Lat. 43°27'00" N, Long. 113°03'00" W; to Lat. 43°34'30" N, Long. 113°11'50" W; to Lat. 43°48'40" N, Long. 112°49'40" W; to the point of beginning.
Designated altitudes. Surface to 10,000 feet MSL.
Time of designation. Continuous.
Using agency. Manager, Atomic Energy Commission, Idaho Falls, Idaho.

R-3202 Sailor Creek, Idaho

SUBAREA A

Boundaries: Beginning at latitude 42°48'45" N., longitude 115°38'14" W.; to latitude 42°48'45" N., longitude 115°32'41" W.; to latitude 42°40'00" N., longitude 115°32'41" W.; to latitude 42°40'00" N., longitude 115°38'14" W.; to point of beginning.
Designated altitudes: Surface to 12,000 feet MSL.
Time of designation: Sunrise to 8 hours after sunset, Monday through Friday.
Controlling agency: FAA, Salt Lake ARTC Center.
Using agency: Commander, 347th Tactical Fighter Wing, Mountain Home AFB, Idaho.

SUBAREA B

Boundaries: Beginning at latitude 42°53'00" N., longitude 115°42'20" W.; to latitude 42°53'00" N., longitude 115°24'15" W.; to latitude 42°36'00" N., longitude 115°24'15" W.; to latitude 42°36'00" N., longitude 115°42'20" W.; to point of beginning.
Designated altitudes: Surface to flight level 240.
Time of designation: Sunrise to 8 hours after sunset, Monday through Friday.
Controlling agency: FAA, Salt Lake ARTC Center.
Using agency: Commander, 347th Tactical Fighter Wing, Mountain Home AFB, Idaho.

SUBAREA C

Boundaries: Beginning at latitude 42°36'00" N., longitude 115°37'00" W.; to latitude 42°36'00" N., longitude 115°30'00" W.; to latitude 42°33'00" N., longitude 115°30'00" W.; to latitude 42°33'00" N., longitude 115°37'00" W.; to point of beginning.
Designated altitudes: Surface to 14,000 feet MSL.
Time of designation: Sunrise to 8 hours after sunset, Monday through Friday.
Controlling agency: FAA, Salt Lake City ARTC Center.
Using agency: Commander, 347th Tactical Fighter Wing, Mountain Home AFB, Idaho.

SUBAREA D

Boundaries: Beginning at latitude 42°33'00" N., longitude 115°37'00" W.; to latitude 42°33'00" N., longitude 115°30'00" W.; to latitude 42°07'00" N., longitude 115°30'00" W.; to latitude 42°07'00" N., longitude 115°37'00" W.; to point of beginning.
Designated altitudes: Surface to 11,000 feet MSL.
Time of designation: Sunrise to 8 hours after sunset, Monday through Friday.
Controlling agency: FAA, Salt Lake City ARTC Center.
Using agency: Commander, 347th Tactical Fighter Wing, Mountain Home AFB, Idaho.

AMENDMENTS 1/12/72 37 F. R. 437 (Changed)

§ 73.33 Illinois

R-3301 Havana, Ill.

Boundaries. A circular area with a 500-foot radius centered latitude 40°13;16" N., longitude 90°01'23" W.
Designated altitudes. Surface to 6,000 feet MSL.
Time of designation. Continuous.
Using agency. Director, Central Radio Propagation Laboratory, National Bureau of Standards, Boulder, Colo.
PENDING AMENDMENT
R-3301, Havana, Ill., is revoked. AMENDMENTS 2/1/73 37 F. R. 25022 (Revoked)

R-3302 Savanna, Ill.

Boundaries. A circular area with a 1,500-foot radius centered at latitude 42°13'15" N., longitude 90°21'24" W.
Designated altitudes. Surface to 2,300 feet MSL.
Time of designation. 0800 to 2200 c.s.t.
Using agency. Commanding Officer, Ordnance Depot, Savanna, Ill.

§ 73.34 Indiana

R-3401 Atterbury Reserve Forces Training Area, IN.

Boundaries. Beginning at Lat. 39°21'30" N, Long. 86°06'00" W; to Lat. 39°21'30" N, Long. 85°59'30" W; to Lat. 39°13'00" N, Long. 85°59'30" W; to Lat. 39°13'00" N, Long. 86°06'00" W; to the point of beginning.
Designated altitudes. Surface to 40,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Indianapolis ARTC Center.
Using agency. Adjutant General, State of Indiana, Indianapolis, IN.

AMENDMENTS 2/26/72 37 F. R. 4076 (Changed)

R-3403 Jefferson Proving Ground, Ind.

Boundaries. Beginning at latitude 39°02'57" N., longitude 85°27'42" W.; to latitude 39°02'00" N., longitude 85°22'00" W.; to latitude 38°56'06" N., longitude 85°22'00" W.; to latitude 38°50'35" N., longitude 85°22'50" W.; to latitude 38°50'00" N., longitude 85°24'00" W.; to latitude 38°50'00" N., longitude 85°27'42" W.; to the point of beginning.
Designated altitudes. Surface to 43,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Indianapolis ARTC Center.
Using agency. Commanding Officer, Jefferson Proving Ground, Madison, Ind.

R-3404 Crane, IN.

Boundaries. A circular area 1 nautical mile in diameter, centered on latitude 38°49'18" N., longitude 86° 50'03" W.
Designated altitudes. Surface to 1,800 feet MSL.
Time of designation. Sunrise to Sunset.
Controlling agency. Federal Aviation Administration, Terre Haute Flight Service Station.
Using agency. Commanding Officer, Naval Ammunition Depot, Crane, IN.

AMENDMENTS 7/20/72 37 F. R. 10919 (Added)

§ 73.35 Iowa

V38-1 JAN 3 73 XUM

§ 73.36 Kansas

R-3601A Brookville, Kans.
Boundaries: Beginning at latitude 38°45'20" N., longitude 97°46'00" W.; to latitude 38°39'45" N., longitude 97°46'00" W.; along the Missouri Pacific Railroad to latitude 38°38'20" N., longitude 97°47'30" W.; to latitude 38°38'20" N., longitude 97°56'00" W.; to latitude 38°45'20" N., longitude 97°56'00" W.; to point of beginning.
Designated altitudes. Surface to FL-200.
Time of designation. Sunrise to 2400 hours c.s.t., Monday through Friday; sunrise to sunset Saturday and Sunday.
Controlling agency. Federal Aviation Administration, Kansas City ARTC Center.
Using agency. Commander, 184 Tac Ftr Tng GP, Kansas ANG, McConnell AFB, Kansas.

AMENDMENTS 9/8/72 37 F. R. 18184 (Changed)

R-3601B Brookville, Kans.
Boundaries. Beginning at latitude 38°38'20" N., longitude 97°50'00" W.; to latitude 38°35'00" N., longitude 97°50'00" W.; to latitude 38°35'00" N., longitude 97°56'00" W.; to latitude 38°38'20" N., longitude 97°56'00" W.; to point of beginning.
Designated altitudes. Surface to 6,500 feet MSL.
Time of designation. Sunrise to 2400 hours c.s.t., Monday through Friday; sunrise to sunset Saturday and Sunday.
Controlling agency. Federal Aviation Administration, Kansas City ARTC Center.
Using agency. Commander, 184 Tac Ftr Tng GP, Kansas ANG, McConnell AFB, Kansas.

AMENDMENTS 9/8/72 37 F. R. 18184 (Changed)

R-3602 Manhattan, Kans.
Subarea A
Boundaries: Beginning at latitude 39°17'45" N., longitude 96°49'50" W.; thence along the southern edge of the Chicago, Rock Island and Pacific Railroad right-of-way to latitude 39°18'33" N., longitude 96°57'39" W.; thence south to the shoreline of the main body of Milford Reservoir at latitude 39°12'27" N., longitude 96°57'39" W.; thence along the shoreline of the main body of Milford Reservoir to latitude 39°10'58" N., longitude 96°55'00" W.; to latitude 39°10'38" N., longitude 96°53'13" W.; to latitude 39°08'22" N., longitude 96°53'13" W.; to latitude 39°08'22" N., longitude 96°49'52" W.; thence north along U. S. Highway No. 77 to the point of beginning.
Designated altitudes: Surface to 29,000 feet MSL.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Kansas City ARTC Center.
Using agency: Commanding General, Fort Riley, Kans.

Subarea B
Boundaries: Beginning at latitude 39°17'45" N., longitude 96°49'50" W.; thence south along U. S. Highway No. 77 to latitude 39°07'54" N., longitude 96°49'52" W.; to latitude 39°04'24" N., longitude 96°52'22" W.; to latitude 39°04'24" N., longitude 96°51'15" W.; thence clockwise along the arc of a 4 nautical mile radius circle centered on the Marshall Army Air Field RBN at latitude 39°01'34" N., longitude 96°47'40" W.; to latitude 39°05'17" N., longitude 96°45'40" W.; to latitude 39°08'20" N., longitude 96°43'00" W.; to latitude 39°09'23" N., longitude 96°43'00" W.; to latitude 39°10'43" N., longitude 96°40'55" W.; to latitude 39°12'17" N., longitude 96°40'55" W.; to latitude 39°13'00" N., longitude 96°42'35" W.; to latitude 39°13'16" N., longitude 96°42'35" W.; thence along the southerly edge of the Chicago, Rock Island and Pacific Railroad right-of-way to the point of beginning.
Designated altitudes: Surface to 29,000 feet MSL.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Kansas City ARTC Center.
Using agency: Commanding General, Fort Riley, Kans.

§ 73.37 Kentucky

R-3702 Fort Campbell, Ky.

Boundaries. Beginning at latitude 36°43'30" N., longitude 87°48'15" W.; to latitude 36°37'30" N., longitude 87°48'15" W.; to latitude 36°35'30" N., longitude 87°45'00" W.; to latitude 36°33'30" N., longitude 87°42'30" W.; to latitude 36°32'00" N., longitude 87°35'00" W.; to latitude 36°32'00" N., longitude 87°32'30" W.; to latitude 36°39'00" N., longitude 87°32'30" W.; to latitude 36°39'00" N., longitude 87°40'00" W.; to latitude 36°42'00" N., longitude 87°40'30" W.; to latitude 36°43'30" N., longitude 87°43'00" W.; to the point of beginning.
Designated altitudes. Surface to 27,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Memphis ARTC Center.
Using agency. Commanding General, Fort Campbell, Ky.

R-3703 Fort Campbell, Ky.

Boundaries. Beginning at latitude 36°39'00" N., longitude 87°32'30" W.; to latitude 36°39'15" N., longitude 87°30'12" W.; to latitude 36°39'30" N., longitude 87°29'45" W.; to latitude 36°39'30" N., longitude 87°28'33" W.; to latitude 36°37'12" N., longitude 87°28'33" W.; to latitude 36°37'12" N., longitude 87°29'50" W.; to latitude 36°34'00" N., longitude 87°29'50" W.; to latitude 36°32'00" N., longitude 87°32'30" W.; to the point of beginning.
Designated altitudes. Surface to 18,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Memphis ARTC Center.
Using agency. Commanding General, Fort Campbell, Ky.

R-3704 Fort Knox, Ky.

Boundaries. Beginning at Lat. 37°59'00" N, Long. 85°45'00" W; to Lat. 37°47'30" N, Long. 85°45'00" W; to Lat. 37°47'30" N, Long. 85°55'30" W; along U. S. Highway 31-W to Lat. 37°50'45" N, Long. 85°57'00" W; along Wilson Road to Lat. 37°55'17" N, Long. 85°56'46" W; to Lat. 37°55'17" N, Long. 85°57'16" W; to Lat. 37°56'04" N, Long. 85°57'33" W; to Lat. 37°56'23" N, Long. 85°57'00" W; along Wilson Road to Lat. 37°58'00" N, Long. 85°57'45" W; along the Illinois Central Railroad to Lat. 37°59'00" N, Long. 85°57'00" W; to Lat. 38°01'00" N, Long. 85°54'30" W; along Kentucky Route 44 to Lat. 38°00'30" N, Long. 85°52'00" W; to Lat. 37°59'00" N, Long. 85°52'00" W; to the point of beginning.
Designated altitudes: Subarea A surface to and including 10,000 feet MSL.
Subarea B from 10,000 feet MSL to 20,000 feet MSL.
Time of designation: Subarea A 0600 to 2400 e.s.t.; other times by NOTAM 24 hours in advance.
Subarea B by NOTAM 24 hours in advance.
Controlling agency. Federal Aviation Administration, Standiford Control Tower, Louisville, Ky.
Using agency. Commanding General, U. S. Army Armor Center, Fort Knox, Ky.

§ 73.38 Louisiana

R-3801A Camp Claiborne, LA.

Boundaries. Beginning at lat. 31°18'00" N., long. 92°46'30" W.; to lat. 31°13'55" N., long. 92°49'45" W.; to lat. 31°28'00" N., long. 93°15'00" W.; to lat. 31°32'30" N., long. 93°11'50" W.; to point of beginning.
Designated altitudes. 1,500 feet AGL to and including 5,000 feet MSL northwest of a line extending from lat. 31°20'50" N., long. 92°51'15" W.; to lat. 31°16'40" N., long. 92°54'30" W.; 500 feet AGL to and including 5,000 feet MSL southeast of the line extending from lat. 31°20'50" N., long. 92°51'15" W.; to lat. 31°16'40" N., long. 92°54'30" W.
Time of designation. Continuous R-3801A shall not be activated unless the Houston ARTC Center radar (Alexandria system) is operational.
Controlling agency. FAA, Houston ARTC Center.
Using agency. Commander, England, AFB, LA.

AMENDMENTS 3/30/72 37 F. R. 2837 (Added)

R-3801B Camp Claiborne, LA.

Boundaries. Beginning at lat. 31°15'15" N., long. 92°41'45" W.; to lat. 31°11'00" N., long. 92°44'40" W.; to lat. 31°13'55" N., long. 92°49'45" W.; to lat. 31°18'00" N., long. 92°46'30" W.; to point of beginning.
Designated altitudes. Surface to and including 14,000 feet MSL.
Time of designation. Continuous. R-3801B shall not be activated unless the Houston ARTC Center radar (Alexandria system) is operational.
Controlling agency. FAA, Houston ARTC Center.
Using agency. Commander, England AFB, LA.

AMENDMENTS 3/30/72 37 F. R. 2837 (Added)

R-3801C Camp Claiborne, LA.

Boundaries. Beginning at lat. 31°09'45" N., long. 92°31'45" W.; to lat. 31°05'15" N., long. 92°34'50" W.; to lat. 31°11'00" N., long. 92°44'40" W.; to lat. 31°15'15" N., long. 92°41'45" W.; to point of beginning.
Designated altitudes. Surface to and including 20,000 feet MSL.
Time of designation. Continuous. R-3801C shall not be activated unless the Houston ARTC Center radar (Alexandria system) is operational.
Controlling agency. FAA, Houston ARTC Center.
Using agency. Commander, England AFB, LA.

AMENDMENTS 3/30/72 37 F. R. 2837 (Added)

V38-1 JAN 73 XUM

R-3801D Camp Claiborne, LA.

Boundaries. Beginning at lat. 31°11'45" N., long. 92°30'15" W.; to lat. 31°09'45" N., long. 92°31'45" W.; to lat. 31°15'15" N., long. 92°41'45" W.; to lat. 31°17'10" N., long. 92°40'10" W.; to point of beginning.
Designated altitudes. Surface to and including 20,000 feet MSL.
Time of designation. Continuous. R-3801D shall not be activated unless the Houston ARTC Center radar (Alexandria system) is operational.
Controlling agency. FAA, Houston ARTC Center.
Using agency. Commander, England AFB, LA.

AMENDMENTS 3/30/72 37 F. R. 2837 (Added)

R-3801E Camp Claiborne, LA.

Boundaries. Beginning at lat. 31°09'45" N., long. 92°31'45" W.; to lat. 31°05'15" N., long. 92°34'50" W.; to lat. 31°11'00" N., long. 92°44'40" W.; to lat. 31°15'15" N., long. 92°41'45" W.; to point of beginning.
Designated altitudes. 20,000 feet MSL to but not including FL 240.
Time of designation. Continuous. R-3801E shall not be activated unless the Houston ARTC Center radar (Alexandria system) is operational.
Controlling agency. FAA, Houston ARTC Center.
Using agency. Commander, England AFB, LA.

AMENDMENTS 3/30/72 37 F. R. 2837 (Added)

R-3803 Fort Polk, La.

Boundaries. Beginning at latitude 31°23'36" N., longitude 93°09'57" W.; to latitude 31°23'12" N., longitude 93°09'48" W.; to latitude 31°22'00" N., longitude 93°10'05" W.; to latitude 31°19'16" N., longitude 93°11'10" W.; to latitude 31°19'16" N., longitude 93°20'15" W.; to latitude 31°24'30" N., longitude 93°20'15" W.; to latitude 31°24'30" N., longitude 93°16'42" W.; to latitude 31°23'35" N., longitude 93°13'24" W.; to point of beginning.
Designated altitude. Surface to 15,000 feet MSL.
Time of designation: Continuous from June 1 through August31; other times as activated by NOTAM issued by the using agency at least 24 hours in advance.
Controlling agency. Federal Aviation Administration, Houston, Tex. ARTC Center.
Using agency. Commanding General, Fort Polk, Louisiana.

R-3804A Fort Polk, La.

Boundaries. Beginning at latitude 31°00'52" N., longitude 93°08'11" W.; to latitude 31°00'52" N., longitude 92°56'52" W.; to latitude 31°00'19" N., longitude 92°56'13" W.; to latitude 31°00'19" N., longitude 92°54'22" W.; to latitude 31°03'54" N., longitude 92°51'33" W.; to latitude 31°09'34" N., longitude 92°58'24" W. to latitude 31°09'34" N., longitude 93°00'55" W.; to latitude 31°08'42" N., longitude 93°01'54" W.; to latitude 31°08'42" N., longitude 93°08'11" W.; to point of beginning.
Designated altitudes. Surface to 15,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Houston, Tex. ARTC Center.
Using agency. Commanding General, Fort Polk, Louisiana.

R-3804B Fort Polk, La.

Boundaries. Beginning at latitude 31°00'52" N., longitude 93°10'52" W.; to latitude 31°00'52" N., longitude 93°08'11" W.; to latitude 31°06'10" N., longitude 93°08'11" W.; to latitude 31°04'14" N., longitude 93°12'30" W.; to point of beginning..
Designated altitudes. Surface to 3,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration. Houston, Tex., ARTC Center.
Using agency. Commanding General, Fort Polk, Louisiana.

AMENDMENTS 2/3/72 37 F. R. 437 (Changed)

R-3804C Fort Polk, La.
Boundaries. Beginning at latitude 31°00'52" N., longitude 93°08'11" W.; to latitude 31°00'52" N., longitude 92°56'52" W.; to latitude 31°00'19" N., longitude 92°56'13" W.; to latitude 31°00'19" N., longitude 92°54'22" W.; to latitude 31°03'54" N., longitude 92°51'33" W.; to latitude 31°09'34" N., longitude 92°58'24" W.; to latitude 31°09'34" N., longitude 93°00'55" W.; to latitude 31°08'42" N., longitude 93°01'54" W.; to latitude 31°08'42" N., longitude 93°08'11" W.; to point of beginning.
Designated altitudes. 15,000 feet MSL to 18,000 feet MSL.
Controlling agency. Federal Aviation Administration, Houston, Tex., ARTC Center.
Time of designation. As published by NOTAM 24 hours in advance.
Using agency. Commanding General, Fort Polk, La.

§ 73.39 Maine

§ 73.40 Maryland

R-4001 Aberdeen, Md.

Boundaries. Beginning at Lat. 39°30'30" N, Long. 76°10'00" W; to Lat. 39°29'00" N, Long. 76°08'00" W; to Lat. 39°29'30" N, Long. 76°05'00" W; to Lat. 39°27'00" N, Long. 76°00'30" W; to Lat. 39°19'47" N, Long. 76°11'34" W; to Lat. 39°12'10" N, Long. 76°16'30" W; to Lat. 39°12'45" N, Long. 76°22'30" W; to Lat. 39°17'30" N, Long. 76°19'45" W; to Lat. 39°18'30" N, Long. 76°22'00" W; to Lat. 39°22'00" N, Long. 76°22'00" W; to Lat. 39°23'28" N, Long. 76°20'40" W; to Lat. 39°26'10" N, Long. 76°14'50" W; to Lat. 39°27'00" N, Long. 76°12'30" W; to the point of beginning.
Designated altitudes and time of designation:
1. Surface to unlimited, 0700 to 2400 local time.
2. Surface to 10,000 feet MSL, 0000 to 0700 local time, higher altitudes by NOTAM issued 24 hours in advance.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. Commanding General, Aberdeen Proving Ground, Md.

R-4002 Bloodsworth Island, Md.

Boundaries. Beginning at Lat. 38°13'00" N, Long. 76°00'00" W; to Lat. 38°08'00" N, Long. 76°00'00" W; to Lat. 38°08'00" N, Long. 76°08'50" W; to Lat. 38°13'00" N, Long. 76°11'20" W; to the point of beginning.
Designated altitudes. Surface to 20,000 feet MSL.
Time of designation. From sunrise to 2400 hours, local time, daily, other times as specified in a NOTAM issued 48 hours in advance.
Using agency. Commander, Amphibious Training Forces Atlantic, U. S. Amphibious Base, Little Creek, Va.

R-4005 Patuxent River, Md.

Boundaries. Beginning at latitude 38°05'40" N., longitude 76°33'32" W.; to latitude 38°11'10" N., longitude 76°25'10" W.; to latitude 38°18'20" N., longitude 76°17'05" W.; to latitude 38°18'26" N., longitude 76°14'30" W.; to latitude 38°13'00" N., longitude 76°11'20" W.; to latitude 38°08'00" N., longitude 76°08'50" W.; to latitude 37°55'15" N., longitude 76°02'30" W.; to latitude 37°53'10" N., longitude 76°14'00" W.; to the point of beginning.
Designated altitudes. Surface to FL 850.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. Commanding Officer, NAS Patuxent River, Md.

R-4006 Patuxent River, Md.
Boundaries: Beginning at latitude 38°41'15" N., longitude 75°46'00" W.; to latitude 38°32'30" N., longitude 75°43'45" W.; to latitude 38°19'00" N., longitude 75°37'00" W.; along Pennsylvania Railroad to latitude 38°12'30" N., longitude 75°41'30" W.; to latitude 38°02'30" N., longitude 75°52'30" W.; to latitude 37°55'00" N., longitude 75°52'30" W.; to latitude 37°45'00" N., longitude 75°58'45" W.; to latitude 37°45'00" N., longitude 76°23'30" W.; to latitude 37°50'30" N., longitude 76°32'00" W.; to latitude 38°05'10" N., longitude 76°34'15" W.; to latitude 38°11'10" N., longitude 76°25'10" W.; to latitude 38°30'00" N., longitude 76°04'00" W.; to latitude 38°36'00" N., longitude 75°55'30" W.; along the Pennsylvania Railroad to point of beginning, excluding R-4002, R-4005, and R-6609.
Designated altitudes: 3,500 feet MSL to FL 850.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Washington ARTC Center.
Using agency: Commanding Officer, NAS Patuxent River, Md.

R-4007 Patuxent River, Md.

Boundaries. Beginning at Lat. 38°21'00" N, Long. 76°14'00" W; to Lat. 38°11'10" N, Long. 76°25'10" W; to Lat. 38°05'10" N, Long. 76°34'05" W; to Lat. 38°15'00" N, Long. 76°36'35" W; to Lat. 38°17'25" N, Long. 76°33'00" W; to Lat. 38°25'40" N, Long. 76°23'35" W; to the point of beginning.
Designated altitudes. Surface to 5,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. Commanding Officer, NAS Patuxent River, Md.

V38-1 JAN 73 XUM

§ 73.41 Massachusetts

R-4101 Camp Edwards, Mass.

Boundaries. Beginning at latitude 41°44'17" N., longitude 70°29'11" W.; to latitude 41°42'42" N., longitude 70°30'51" W.; to latitude 41°42'20" N., longitude 70°30'15" W.; to latitude 41°41'32" N., longitude 70°30'58" W.; to latitude 41°40'54" N., longitude 70°32'45" W.; thence west along the south side of Howe Road to latitude 41°40'58" N., longitude 70°33'39" W.; to latitude 41°41'50" N., longitude 70°35'09" W.; thence north along the east side of State Highway 28 to latitude 41°44'36" N., longitude 70°35'13" W.; to latitude 41°46'06" N., longitude 70°33'28" W.; to latitude 41°46'06" N., longitude 70°32'39" W.; thence southeast along the southwest side of State Route 6 to point of beginning.

Designated altitudes. Surface to 9,000 feet MSL.

Time of designation. From 0600 to 1800 hours local time, daily, other times as specified in a NOTAM issued 48 hours in advance.

Controlling agency. Federal Aviation Administration, Otis Approach Control.

Using agency. Commanding Officer, Camp Edwards, Mass.

R-4105 No Man's Land Island, Mass.

Boundaries. A circular area with a 3-mile radius centered at Lat. 41°15'30" N, Long. 70°48'40" W.

Designated altitudes. Surface to but not including 18,000 feet MSL.

Time of designation. 0700 to 2400 EST.

Controlling agency. Federal Aviation Administration, Quonset Approach Control.

Using agency. Commander, Fleet Air Quonset, NAS Quonset Point, R. I.

R-4106 North Eastham, Mass.

Boundaries. A circular area with a 2-mile radius centered at Lat. 41°51'00" N, Long. 70°03'00" W.

Designated altitudes. Surface to 2,000 feet MSL.

Time of designation. 0800 to 2400 EST.

Controlling agency. Federal Aviation Administration, Otis Approach Control.

Using agency. Commander, Fleet Air Quonset, NAS Quonset Point, R. I.

§ 73.42 Michigan

R-4201 Camp Grayling, Mich.

Boundaries. Beginning at Lat. 44°54'00" N, Long. 84°29'00" W; to Lat. 44°41'00" N, Long. 84°29'00" W; to Lat. 44°41'00" N, Long. 84°40'00" W; to Lat. 44°43'00" N, Long. 84°40'00" W; to Lat. 44°43'00" N, Long. 84°38'00" W; to Lat. 44°47'00" N, Long. 84°38'00" W; to Lat. 44°47'00" N, Long. 84°39'00" W; to Lat. 44°52'00" N, Long. 84°39'00" W; to Lat. 44°52'00" N, Long. 84°37'00" W; to Lat. 44°54'00" N, Long. 84°37'00" W; to the point of beginning.

Designated altitudes. The area N of Lat. 44°47'00" N, surface to 29,000 feet MSL June 1 through August 31; Surface to 20,000 feet MSL September 1 through May 31. The area S of Lat. 44°47'00" N, surface to 9,000 feet MSL.

Time of designation. The area N of Lat. 44°47'00" N, continuous June 1 through August 31; sunrise to sunset September 1 through May 31. The area S of Lat. 44°47'00" N, continuous June 1 through August 31.

Controlling agency. Federal Aviation Administration, Traverse City Flight Service Station.

Using agency. Adjutant General, State of Michigan, Lansing, Mich.

R-4202 Lake Margrethe, Mich.

Boundaries. Beginning at latitude 44°36'45" N., longitude 84°51'00" W.; to latitude 44°36'45" N., longitude 84°48'00" W.; to latitude 44°34'15" N., longitude 84°48'00" W.; to latitude 44°34'15" N., longitude 84°50'00" W.; to latitude 44°35'00" N., longitude 84°51'00" W.; to the point of beginning.

Designated altitudes. Surface to 8,200 feet MSL.

Time of designation. June 1 through August 31, with specific dates to be published by NOTAM.

Using agency. Adjutant General, State of Michigan, Lansing, Mich.

Controlling agency. Federal Aviation Administration, Traverse City Flight Service Station.

AMENDMENTS 1/12/72 37 F. R. 438 (Changed)

R-4207 Upper Lake Huron, Mich.

Boundaries. Beginning at latitude 45°17'00" N., longitude 83°00'00" W.; to latitude 45°20'24" N., longitude 82°31'18" W.; along the United States-Canadian Border to latitude 44°31'00" N., longitude 82°19'54" W.; to latitude 44°27'42" N., longitude 82°47'08" W.; to the point of beginning.

Designated altitudes. Surface to flight level 450.

Time of designation. Sunrise to sunset.

Controlling agency. Federal Aviation Administration, Minneapolis ARTC Center.

Using agency. Commander, Permanent Field Training Site Detachment, Phelps-Collins ANGB, Alpena, Mich.

§ 73.43 Minnesota

R-4301 Camp Ripley, Minn.

Boundaries. Beginning at latitude 46°18'54" N., longitude 94°29'02" W.; thence along the S bank of the Crow Wing River and the W bank of the Mississippi River to latitude 46°06'22" N., longitude 94°21'10" W.; to latitude 46°06'22" N., longitude 94°26'06" W.; to latitude 46°08'39" N., longitude 94°26'06" W.; to latitude 46°08'39" N.; to longitude 94°30'00" W.; to latitude 46°18'18" N., longitude 94°30'00" W.; to the point of beginning.

Designated altitudes and time of designation. Surface to 27,000 feet MSL, May 1 through October 31; surface to 14,500 feet MSL, Saturday and Sunday, November 1 through April 30; and at other altitudes and times specified by NOTAM issued 24 hours in advance.

Controlling agency. Federal Aviation Administration, Minneapolis ARTC Center.

Using agency. Commanding Officer, Camp Ripley, Minn.

R-4305 Lake Superior, Minn.

Boundaries. Beginning at latitude 47°45'00" N., longitude 90°05'00" W.; to latitude 47°45'00" N., longitude 89°28'00" W.; to latitude 46°55'00" N., longitude 89°28'00" W.; to latitude 46°55'00" N., longitude 90°05'00" W.; to the point of beginning.

Designated altitudes. Surface to flight level 450.

Time of designation. 0001 local time Monday to 2400 local time Friday.

Controlling agency. Federal Aviation Administration, Minneapolis ARTC Center.

Using agency. Commander, Second Air Force, Barksdale AFB, Louisiana.

§ 73.44 Mississippi

R-4401 Camp Shelby, Miss.

Boundaries. Beginning at latitude 31°12'54" N.; longitude 89°11'03" W.; to latitude 31°11'48" N.; longitude 89°00'00" W.; to latitude 31°10'15" N.; longitude 88°56'34" W.; to latitude 31°09'10" N.; longitude 88°56'34" W.; thence southwest along Mississippi State Highway No. 15 to latitude 31°04'36" N.; longitude 88°59'24" W.; to latitude 31°04'36" N.; longitude 89°11'03" W.; to point of beginning.

Designated altitudes. Subarea A, surface to 4,000 feet MSL. Subarea B, 4,000 feet MSL to 18,000 feet MSL. Subarea C, 18,000 feet MSL to 29,000 feet MSL.

Time of designation. As activated by NOTAMs at least 24 hours in advance. NOTAMs to contain information concerning deactivation of area.

Controlling agency. Federal Aviation Administration, Houston ARTC Center.

Using agency. Adjutant General, State of Mississippi, Jackson, Miss.

R-4403 Gainesville, Miss.

Boundaries. Beginning at latitude 30°21'02" N., longitude 89°36'53" W.; to latitude 30°22'33" N., longitude 89°36'53" W.; to latitude 30°22'34" N., longitude 89°34'05" W.; to latitude 30°21'03" N., longitude 89°34'04" W.; to the point of beginning.

Altitudes. From surface to 5,000 feet MSL.

Time of use. Continuous.

Controlling agency. Federal Aviation Administration, Houston ARTC Center.

Using agency. Manager, Mississippi Test Operations, National Aeronautics and Space Administration, Bay St. Louis, Miss.

R-4404 Macon, Miss.

Boundaries: 1. Beginning at lat. 33°02'39" N., long. 88°42'37" W.; to lat. 33°04'30" N., long. 88°40'18" W.; to lat. 33°03'34" N., long. 88°39'08" W.; to lat. 33°01'43" N., long. 88°41'23" W.; to point of beginning.

2. A circle with a 5-nautical mile radius centered at lat. 33°03'11" N., long. 88°40'41" W.

Designated altitudes: Surface to 11,500 feet MSL, within the area described in Item 1; from 1,200 feet above the surface to 11,500 feet MSL, within the area described in Item 2.

Time of designation: Sunrise to Sunset, Monday through Saturday.

Controlling agency: Federal Aviation Administration, Memphis ARTC Center.

Using agency: Commander, Training Wing 1 NAS Meridian, Miss.

AMENDMENTS 3/2/72 37 F. R. 590 (Added)

V 38 - 1 JAN 73 XUM

§ 73.45 Missouri

R-4501A Fort Leonard Wood West, Mo.

Boundaries. Beginning at latitude 37°41'06" N., longitude 92°09'17" W.; to latitude 37°38'15" N., longitude 92°09'17" W.; to latitude 37°37'10" N., longitude 92°13'45" W.; to latitude 37°37'10" N., longitude 92°15'06" W.; to latitude 37°38'42" N., longitude 92°15'06" W.; to latitude 37°41'07" N., longitude 92°14'23" W.; to the point of beginning.
Designated altitudes. Monday through Friday, surface to 2,200 feet MSL; Saturday and Sunday, surface to 11,200 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Kansas City ARTC Center.
Using agency. Commanding General, Fort Leonard Wood, Mo.

R-4501B Fort Leonard Wood East, Mo.

Boundardies. Beginning at latitude 37°43'00" N., longitude 92°06'55" W.; to latitude 37°42'11" N., longitude 92°06'14" W.; to latitude 37°39'07" N., longitude 92°06'17" W.; to latitude 37°38'15" N., longitude 92°09'17" W.; to latitude 37°43'02 N., longitude 92°09'17" W.; to the point of beginning.
Designated altitudes.
The area north of a line between latitude 37°42'51" N., longitude 92°06'47" W.; and latitude 37°42'53" N., longitude 92°09'17" W. surface to 1,500 feet MSL.
The area south of this line, surface to 2,200 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Kansas City ARTC Center.
Using agency. Commanding General, Fort Leonard Wood, Mo.

§ 73.46 Montana

§ 73.47 Nebraska

§ 73.48 Nevada

R-4802 Lone Rock, Nev.

Boundaries. A circular area with a 3-mile radius centered at Lat. 39°52'36" N, Long. 118°20'47" W.
Designated altitudes. Surface to 8,000 feet MSL.
Time of designation: Continuous.
Using agency. Commander, Fleet Air, Alameda, Calif.

R-4803 Fallon, Nev.

Boundaries. A 3-nautical mile radius circle centered at Lat. 39°20'40" N, Long. 118°52'15" W; and within 3 nautical miles W and 2 nautical miles E of a line extending 349.5° True from the center to 15 nautical miles NNW.
Designated altitudes. Surface to 8,000 feet MSL N, and surface to 18,000 feet MSL S of a line extending from Lat. 39°27'40" N, Long. 118°57'55" W; to Lat. 39°30'20" N, Long. 118°51'55" W.
Time of designation: Continuous.
Controlling agency. Federal Aviation Administration, Oakland ARTC Center.
Using agency. Commander, Fleet Air, Alameda, Calif.

R-4804 Twin Peaks, Nev.

Boundaries. A 5-nautical mile radius circle centered at Lat. 39°13'00" N, Long. 118°12'42" W; and a 3-nautical mile radius circle centered at Lat. 39°14'15" N, Long. 118°17'30" W.
Designated altitudes: Surface to FL 240.
Time of designation: Continuous.
Controlling agency. Federal Aviation Administration, Oakland ARTC Center.
Using agency. Commander, Fleet Air, Alameda, Calif.

R-4806 Las Vegas, Nev.

Boundaries: Beginning at latitude 37°17'00" N., longitude 115°18'00" W.; to latitude 36°26'00" N., longitude 115°18'00" W.; to latitude 36°26'00" N., longitude 115°23'00" W.; to latitude 36°35'00" N., longitude 115°37'00" W.; to latitude 36°35'00" N., longitude 115°53'00" W.; to latitude 36°36'00" N., longitude 115°56'00" W.; to latitude 37°06'00" N., longitude 115°56'00" W.; to latitude 37°06'00" N., longitude 115°35'00" W.; to latitude 37°17'00" N., longitude 115°35'00" W.; to point of beginning.
Designated altitudes: Surface to unlimited, Monday through Saturday; Sunday from 13,000 feet MSL to unlimited.
Time of designation: Continuous.
Controlling agency. Federal Aviation Administration, Los Angeles ARTC Center.
Using agency: Commander, Nellis AFB, Nev.

R-4807 Tonopah, Nev.

Boundaries. Beginning at latitude 36°51'00" N., longitude 116°33'30" W.; to latitude 37°26'30" N., longitude 117°04'30" W.; to latitude 37°53'00" N., longitude 117°01'00" W.; to latitude 37°53'00" N., longitude 116°55'00" W.; to latitude 37°47'00" N., longitude 116°55'00" W.; to latitude 37°33'00" N., longitude 116°43'00" W.; to latitude 37°33'00" N., longitude 116°26'00" W.; to latitude 37°53'00" N., longitude 116°26'00" W.; to latitude 37°53'00" N., longitude 116°11'00" W.; to latitude 37°42'00" N., longitude 116°11'00" W.; to latitude 37°42'00" N., longitude 115°53'00" W.; to latitude 37°33'00" N., longitude 115°53'00" W.; to latitude 37°33'00" N., longitude 115°48'00" W.; to latitude 37°28'00" N., longitude 115°48'00" W.; to latitude 37°28'00" N., longitude 116°00'00" W.; to latitude 37°16'00" N., longitude 116°00'00" W.; to latitude 37°16'00" N., longitude 116°34'00" W.; to the point of beginning.
Designated altitudes. Unlimited Monday through Saturday. Sunday from 13,000 feet MSL to unlimited.
Time of designation. Continuous.
Using agency. Commander, Nellis AFB, Nev.

R-4808 Las Vegas, Nev.

Boundaries. Beginning at latitude 36°41'00" N., longitude 115°56'00" W.; to latitude 36°41'00" N., longitude 116°26'30" W.; to latitude 36°51'00" N., longitude 116°26'30" W.; to latitude 36°51'00" N., longitude 116°33'30" W.; to latitude 37°16'00" N., longitude 116°34'00" W.; to latitude 37°16'00" N., longitude 116°00'00" W.; to latitude 37°28'00" N., longitude 116°00'00" W.; to latitude 37°28'00" N., longitude 115°35'00" W.; to latitude 37°06'00" N., longitude 115°35'00" W.; to latitude 37°06'00" N., longitude 115°56'00" W.; to the point of beginning.
Designated altitudes. Unlimited.
Time of designation. Continuous.
Using agency. Manager, Atomic Energy Commission, Las Vegas, Nevada.

R-4809 Tonopah, Nev.

Boundaries. Beginning at Lat. 37°53'00" N, Long. 116°26'00" W; to Lat. 37°33'00" N, Long. 116°26'00" W; to Lat. 37°33'00" N, Long. 116°43'00" W; to Lat. 37°47'00" N, Long. 116°55'00" W; to Lat. 37°53'00" N, Long. 116°55'00" W; to the point of beginning.
Designated altitudes. Unlimited.
Time of designation. Continuous.
Using agency. Manager, Atomic Energy Commission, Albuquerque, N. Mex.

R-4810 Desert Mountains, Nev.

Boundaries. A 5-nautical mile radius circle centered at Lat. 39°10'00" N, Long. 118°37'30" W; and a 3-nautical mile radius circle centered at Lat. 39°09'15" N, Long. 118°42'20" W.
Designated altitudes: Surface to flight level 240.
Time of designation: Continuous.
Controlling agency. Federal Aviation Administration, Oakland ARTC Center.
Using agency. Commander, Fleet Air, Alameda, Calif.

R-4811 Hawthorne, Nev.
Boundaries. A 1½-nautical-mile radius circle centered at latitude 38°14'45" N., longitude 118°38'15" W.
Designated altitudes. Surface to 15,000 feet MSL.
Time of designation. 0800 to 1500 local time, Monday through Friday.
Using agency. Commanding Officer, Naval Ammunition Depot, Hawthorne, Nev.

R-4812 Sand Springs, Nev.
Boundaries: That area within 5-nautical miles either side of a line extending from latitude 39°10'00" N., longitude 118°37'30" W.; to latitude 39°13'00" N., longitude 118°12'42" W.; and bounded on the east by R-4804 and bounded on the west by R-4810.
Designated altitudes: Surface to FL 240.
Time of designation: Continuous.
Controlling agency: Oakland ARTC Center.
Using agency: Commander Fleet Air, Alameda.

V38-1 JAN 3 73 XUM

R-4813 Carson Sink, Nev.
Boundaries: That area surrounding R-4802 from latitude 39°51'00" N., longitude 118°38'00" W.; to latitude 40°01'00" N., longitude 118°15'00" W.; to latitude 40°01'00" N., longitude 118°01'00" W.; to latitude 39°52'36" N., longitude 118°01'00" W.; thence via the arc of a 15-nautical mile radius circle centered at latitude 39°52'36" N., longitude 118°20'27" W.; to latitude 39°45'50" N., longitude 118°38'00" W.; to point of beginning.
Designated altitude: Surface to FL 240.
Time of designation: Continuous.
Controlling agency: Oakland ARTC Center.
Using agency: Commander Fleet Air, Alameda.

§ 73.49 New Hampshire

§ 73.50 New Jersey

R-5001 Fort Dix, N. J.
Subarea A
Boundaries: Beginning at latitude 40°02'45" N., longitude 74°27'00" W.; to latitude 40°00'00" N., longitude 74°26'20" W.; to latitude 39°59'00" N., longitude 74°25'08" W.; to latitude 39°58'00" N., longitude 74°25'00" W.; to latitude 39°58'45" N., longitude 74°28'00" W.; to latitude 39°58'45" N., longitude 74°31'25" W.; to latitude 39°59'15" N., longitude 74°33'30" W.; to latitude 40°01'53" N., longitude 74°33'30" W.; to latitude 40°02'45" N., longitude 74°32'30" W.; to the point of beginning.
Designated altitudes: Surface to and including 4,000 feet MSL.
Time of designation: Continuous.
Controlling agency. Federal Aviation Administration, New York ARTC Center.
Using agency: Commanding General, Fort Dix, N. J.

Subarea B
Boundaries: Beginning at latitude 40°02'45" N., longitude 74°27'00" W.; to latitude 40°00'00" N., longitude 74°26'20" W.; to latitude 39°59'00" N., longitude 74°25'08" W.; to latitude 39°58'00" N., longitude 74°25'00" W.; to latitude 39°58'45" N., longitude 74°28'00" W.; to latitude 39°58'45" N., longitude 74°31'25" W.; to latitude 40°01'53" N., longitude 74°33'30" W.; to latitude 40°02'45" N., longitude 74°32'30" W.; to the point of beginning.
Designated altitudes: From 4,000 feet MSL to and including 8,000 feet MSL.
Time of designation: Continuous, sunrise Friday to sunset Sunday, other times by NOTAM, 48 hours in advance.
Controlling agency. Federal Aviation Administration, New York ARTC Center.
Using agency: Commanding General, Fort Dix, N. J.

R-5002 Warren Grove, N. J.

Boundaries: Beginning at latitude 39°45'50" N., longitude 74°20'00" W.; to latitude 39°43'25" N., longitude 74°17'37" W.; to latitude 39°38'25" N., longitude 74°24'20" W.; to latitude 39°38'25" N., longitude 74°29'00" W.; to latitude 39°39'35" N., longitude 74°29'00" W.; to latitude 39°44'50" N., longitude 74°24'40" W.; to latitude 39°45'20" N., longitude 74°23'45" W.; to point of beginning.
Designated altitudes. Surface to 14,000 feet MSL, except surface to 4,000 feet MSL for the portion N of Lat. 39°45'00" N; surface to 9,000 feet MSL SE of a line between Lat. 39°43'45" N, Long. 74°17'57" W, and Lat. 39°38'25" N, Long. 74°24'56" W.
Time of designation: Sunrise to Sunset.
Controlling agency. Federal Aviation Administration, New York ARTC Center.
Using agency. Commander, 108th Tactical Fighter Wing, New Jersey Air National Guard, McGuire AFB, N. J.

§ 73.51 New Mexico

R-5101 Los Alamos, N. Mex.

Boundaries. Beginning at Lat. 35°45'15" N, Long. 106°15'12" W; to Lat. 35°50'03" N, Long. 106°21'36" W; to Lat. 35°52'22" N, Long. 106°20'42" W; to Lat. 35°52'52" N, Long. 106°18'48" W; to Lat. 35°52'30" N, Long. 106°14'48" W; to Lat. 35°48'35" N, Long. 106°14'48" W; to Lat. 35°47'05" N, Long. 106°12'06" W; to the point of beginning.
Designated altitudes. Surface to 12,000 feet MSL.
Time of designation. Continuous.
Using agency. Manager, Atomic Energy Commission, Los Alamos, N. Mex.

R-5103 McGregor, N. Mex.

Boundaries. Beginning at latitude 32°45'00" N., longitude 105°59'00" W.; to latitude 32°45'00" N., longitude 105°52'20" W.; to latitude 32°33'20" N., longitude 105°30'00" W.; to latitude 32°26'20" N., longitude 105°30'00" W.; to latitude 32°00'15" N., longitude 105°56'40" W.; to latitude 32°00'30" N., longitude 106°10'25" W.; to latitude 32°05'20" N., longitude 106°09'20" W.; to latitude 32°06'00" N., longitude 106°15'30" W.; along the Southern Pacific Railroad to latitude 32°28'00" N., longitude 106°02'00" W.; to latitude 32°27'40" N., longitude 106°00'00" W.; to latitude 32°36'00" N., longitude 106°00'00" W.; to the point of beginning, excluding that airspace within a two nautical mile radius of latitude 32°39'02" N., longitude 105°40'34" W.; and also excluding that airspace beginning at lat. 32°42'49" N., long. 105°48'10" W.; to lat. 32°40'47" N., long. 105°49'38" W.; to lat. 32°39'42" N., long. 105°47'42" W.; to lat. 32°41'58" N., long. 105°46'12" W.; to the point of beginning from the surface to 1500 feet above the surface.
Designated altitude. Surface to unlimited.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Albuquerque ARTC Center.
Using agency. Commanding General, Fort Bliss, Texas.

R-5104A Melrose, N. Mex.
Boundaries: Beginning at latitude 34°28'00" N., longitude 103°43'15" W.; to latitude 34°25'25" N, longitude 103°40'00" W.; to latitude 34°10'00" N., longitude 103°40'00" W.; to latitude 34°10'00" N., longitude 103°55'00" W.; to latitude 34°28'00" N., longitude 103°55'00" W.; to the point of beginning.
Designated altitudes: Surface to 18,000 feet MSL.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Albuquerque, N. Mex., ARTC Center.
Using agency: Commander, Cannon AFB, N. Mex.

R-5104B Melrose, N. Mex.
Boundaries: Beginning at latitude 34°28'00" N., longitude 103°43'15" W.; to latitude 34°25'25" N., longitude 103°40'00" W.; to latitude 34°10'00" N., longitude 103°40'00" W.; to latitude 34°10'00" N., longitude 103°55'00" W.; to latitude 34°28'00" N., longitude 103°55'00" W.; to point of beginning.
Designated altitudes: 18,000 feet MSL to 23,000 feet MSL.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Albuquerque, N. Mex., ARTC Center.
Using agency: Commander, Cannon AFB, N. Mex.

R-5105 Melrose, N. Mex.

Boundaries. Beginning at latitude 34°39'00" N., longitude 103°55'00" W.; to latitude 34°39'00" N., longitude 103°40'00" W.; to latitude 34°25'25" N., longitude 103°40'00" W.; to latitude 34°28'00" N., longitude 103°43'15" W.; to latitude 34°28'00" N., longitude 103°55'00" W.; to the point of beginning.
Designated altitudes. Surface to 14,000 feet MSL.
Time of designation: Continuous.
Controlling agency. Federal Aviation Administration, Albuquerque ARTC Center.
Using agency. Commander, Cannon AFB, N. Mex.

R-5107A White Sands Proving Grounds, N. Mex.

Boundaries. Beginning at latitude 32°23'18" N., longitude 106°07'03" W.; to latitude 32°05'00" N., longitude 106°18'20" W.; to latitude 32°05'00" N., longitude 106°29'00" W.; to latitude 32°06'20" N., longitude 106°34'00" W.; to latitude 32°18'00" N., longitude 106°34'00" W.; to latitude 32°18'00" N., longitude 106°39'00" W.; to latitude 32°19'30" N., longitude 106°39'30" W.; to latitude 32°19'30" N., longitude 106°20'36" W.; to latitude 32°24'48" N., longitude 106°09'00" W.; to the point of beginning.
Designated altitude. Surface to unlimited.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Albuquerque ARTC Center.
Using agency. Commanding General, Fort Bliss, Texas.

R-5107B White Sands Proving Grounds, N. Mex.

Boundaries: Beginning at latitude 33°44'45" N., longitude 106°04'00" W.; to latitude 32°50'00" N., longitude 106°04'00" W.; to latitude 32°36'00" N., longitude 106°06'00" W.; to latitude 32°25'00" N., longitude 106°06'00" W.; to latitude 32°23'18" N., longitude 106°07'03" W.; to latitude 32°24'48" N., longitude 106°09'00" W.; to latitude 32°19'30" N., longitude 106°20'36" W.; to latitude 32°19'30" N., longitude 106°39'30" W.; to latitude 33°13'00" N., longitude 106°52'00" W.; to latitude 33°49'45" N., longitude 106°45'20" W.; to latitude 33°49'30" N., longitude 106°16'30" W.; thence along the south side of U. S. Highway 380 to the point of beginning; excluding the airspace in R-5107D, R-5107F, and R-5107G; and that airspace from the surface to 1,500 feet above the surface within a 2-nautical mile radius of latitude 32°26'35" N., longitude 106°40'45" W.
Designated altitudes. Surface to unlimited.
Time of designation. Continuous.
Using agency. Commander, Air Force Special Weapons Center, Kirtland AFB, N. Mex.

V 38 - 1 JAN 3 73 XUM

R-5107C White Sands Proving Grounds, N. Mex.

Boundaries: Beginning at latitude 34°17'00" N., longitude 106°04'00" W.; to latitude 33°44'45" N., longitude 106°04'00" W.; thence along the south side of U. S. Highway 380 to latitude 33°49'30" N., longitude 106°16'30" W.; to latitude 33°49'45" N., longitude 106°45'20" W.; to latitude 34°15'45" N., longitude 106°40'30" W.; to latitude 34°17'00" N., longitude 106°12'00" W.; to the point of beginning.
Designated altitudes. Surface to unlimited.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Albuquerque ARTC Center.
Using agency. Commander, Air Force Special Weapons Center, Kirtland AFB, N. Mex.

R-5107D White Sands Proving Grounds, N. Mex.

Boundaries: Beginning at lat. 33°34'00" N., long. 106°04'00" W.; to lat. 33°04'00" N., long. 106°21'00" W.; to lat. 32°34'00" N., long. 106°15'00" W.; to lat. 32°31'00" N., long. 106°06'00" W.; to lat. 32°36'00" N., long. 106°06'00" W.; to lat. 32°50'00" N., long. 106°04'00" W.; to point of beginning.
Designated altitudes: Surface to 22,000 feet MSL.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Albuquerque, ARTC Center.
Using agency. Commander, Air Force Special Weapons Center, Kirtland AFB, N. Mex.

R-5107E White Sands Proving Grounds, N. Mex.

Boundaries. From the point where an arc of 19 nautical miles radius centered at latitude 33°45'00" N., longitude 106°26'30" W., intersects the western boundary of R-5107C, to latitude 33°54'00" N., longitude 106°46'30" W.; to latitude 33°32'45" N., longitude 106°58'45" W.; to latitude 33°26'50" N., longitude 107°00'00" W.; to latitude 33°35'00" N., longitude 106°48'00" W.; to the point of beginning.
Designated altitudes. Surface to unlimited.
Time of use. As published in NOTAMs at least 12 hours in advance.
Controlling agency. FAA, Albuquerque ARTC Center.
Using agency. Commander, Air Force Special Weapons Center, Kirtland AFB, N. Mex.

R-5107F White Sands Proving Grounds, N. Mex.

Boundaries: Beginning at lat. 33°10'10" N., long. 107°10'55" W.; to lat. 33°20'30" N., long. 107°08'20" W.; to lat. 33°16'10" N., long. 106°51'40" W.; to lat. 33°05'30" N., long. 106°04'00" W.; to lat. 33°00'00" N., long. 105°27'00" W.; to lat. 32°45'00" N., long. 105°27'00" W.; to lat. 32°45'00" N., long. 105°49'00" W.; to lat. 32°50'30" N., long. 106°04'00" W.; to lat. 33°05'00" N., long. 106°50'20" W.; to point of beginning.
Designated altitude: From FL 240 to FL 450.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Albuquerque ARTC Center.
Using agency: Commander, Air Force Special Weapons Center, Kirtland AFB, N. Mex.
AMENDMENTS 2/26/72 37 F. R. 4076 (Changed)

R-5107G White Sands Proving Grounds, N. Mex.

Boundaries: Beginning at lat. 33°11'40" N., long. 107°10'25" W.; to lat. 33°21'00" N., long. 107°08'00" W.; to lat. 33°22'55" N., long. 107°05'50" W.; to lat. 33°25'20" N., long. 105°27'00" W.; to lat. 33°14'00" N., long. 105°27'00" W.; to point of beginning.
Designated altitude: From FL 240 to FL 450.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, Albuquerque, ARTC Center.
Using agency: Commander, Air Force Special Weapons Center, Kirtland AFB, N. Mex.
AMENDMENTS 2/26/72 37 F. R. 4076 (Changed)

R-5109A White Sands, N. Mex.

Boundaries. Beginning at latitude 33°31'30" N., longitude 105°27'00" W.; to latitude 32°45'00" N., longitude 105°27'00" W.; to latitude 32°45'00" N., longitude 105°59'00" W.; to latitude 32°36'00" N., longitude 106°00'00" W.; to latitude 32°36'00" N., longitude 106°06'00" W.; to latitude 32°50'00" N., longitude 106°04'00" W.; to latitude 33°44'10" N., longitude 106°04'00" W.; to the point of beginning, excluding the airspace in Restricted Areas R-5107F and R-5107G.
Designated altitudes. From 24,000 feet MSL to unlimited.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Albuquerque ARTC Center.
Using agency. Commander, Air Force Special Weapons Center, Kirtland AFB, N. Mex.

R-5109B White Sands, N. Mex.

Boundaries. Beginning at latitude 34°17'00" N., longitude 106°04'00" W.; to latitude 34°17'00" N., longitude 105°51'00" W.; to latitude 33°57'00" N., longitude 105°27'00" W.; to latitude 33°31'30" N., longitude 105°27'00" W.; to latitude 33°44'10" N., longitude 106°04'00" W.; to the point of beginning.
Designated altitudes. From 24,000 feet MSL to unlimited.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Albuquerque ARTC Center.
Using agency. Commander, Air Force Special Weapons Center, Kirtland AFB, N. Mex.

R-5111A Elephant Butte, N. Mex. (East).

Boundaries. Beginning at latitude 33°00'00" N., longitude 106°49'00" W.; to latitude 33°00'00" N., longitude 107°00'00" W.; to latitude 33°26'50" N., longitude 107°00'00" W.; to latitude 33°35'00" N., longitude 106°48'00" W.; to latitude 33°13'00" N., longitude 106°52'00" W.; to the point of beginning, excluding the airspace in Restricted Areas R-5107F and R-5107G.
Designated altitudes. Surface to unlimited.
Time of designation. Continuous, following issuance of NOTAM by using agency at least 12 hours in advance.
Controlling agency. Federal Aviation Administration, Albuquerque ARTC Center.
Using agency. Commander, Air Force Special Weapons Center, Kirtland AFB, N. Mex.

R-5111B Elephant Butte, N. Mex. (West).

Boundaries. Beginning at latitude 33°00'00" N., longitude 106°49'00" W.; to latitude 32°43'00" N., longitude 106°45'00" W.; to latitude 32°47'00" N., longitude 107°06'00" W.; to latitude 33°00'00" N., longitude 107°13'00" W.; to latitude 33°21'00" N., longitude 107°08'00" W.; to latitude 33°26'50" N., longitude 107°00'00" W.; to latitude 33°00'00" N., longitude 107°00'00" W.; to the point of beginning, excluding the airspace in Restricted Areas R-5107F and R-5107G.
Designated altitudes. Surface to unlimited.
Time of designation: Continuous, following issuance of NOTAM by using agency at least 12 hours in advance.
Controlling agency. Federal Aviation Administration, Albuquerque ARTC Center.
Using agency. Commander, Air Force Special Weapons Center, Kirtland AFB, N. Mex.

R-5113 Socorro, N. Mex.

Boundaries. Beginning at latitude 34°00'00" N., longitude 107°07'30" W.; thence to latitude 33°55'30" N., longitude 107°07'30" W.; to latitude 33°55'30" N., longitude 107°12'30" W.; to latitude 34°00'00" N., longitude 107°12'30" W.; to point of beginning.
Designated altitudes. Surface to 45,000 feet MSL.
Time of designation. From 0900 to 1900 local time, daily June 1 through September 30, annually.
Controlling agency. Federal Aviation Administration, Albuquerque ARTC Center.
Using agency. U. S. Navy, Office of Naval Research, Atmospheric Sciences.

R-5116A White Sands Proving Grounds, NM.

Boundaries. Beginning at lat. 33°53'40" N., long. 106°44'35" W.; to lat. 34°00'36" N., long. 106°49'12" W.; to lat. 34°21'13" N., long. 106°49'12" W.; to lat. 34°09'55"N., long. 106°41'35" W.; to point of beginning.
Designated altitudes. Surface to FL 180.
Time of designation. Sunrise to sunset, October 1, 1972, through March 31, 1973, as published in NOTAM's at least 12 hours in advance of use.
Controlling agency. Federal Aviation Administration, Albuquerque ARTC Center.
Using agency. Commander, Air Force Special Weapons Center, Kirtland AFB, Albuquerque, NM.

AMENDMENTS 10/1/72 37 F. R. 15857 (Added)

R-5116B White Sands Proving Grounds, NM.

Boundaries. Beginning at lat. 34°00'36" N., long. 106°49'12" W.; to lat. 34°20'35" N., long. 107°02'35" W.; to lat. 34°25'00" N., long. 106°51'45" W.; to lat. 34°21'13" N., long. 106°49'12" W.; to point of beginning.
Designated altitudes. 7,000 feet MSL to FL 180.
Time of designation. Sunrise to sunset, October 1, 1972, through March 31, 1973, as published in NOTAMS at least 12 hours in advance of use.
Controlling agency. Federal Aviation Administration, Albuquerque ARTC Center.
Using agency. Commander, Air Force Special Weapons Center, Kirtland AFB, Albuquerque, NM.

AMENDMENTS 10/1/72 37 F. R. 15857 (Added)

R-5118 Socorro, NM.

Boundaries. Beginning at lat. 34°33'00" N., long. 106°53'18" W.; to lat. 34°19'12" N., long. 107°17'18" W.; to lat. 34°11'24" N., long 107°45'00" W.; to lat. 34°32'48" N., long. 107°55'36" W.; to lat. 34°46'12" N., long. 107°34'00" W.; to lat. 34°52'48" N., long. 107°08'12" W.; to point of beginning.
Designated altitudes: From surface to unlimited.
Time of designation: From October 12, 1972, through April 12, 1973, during night-time hours from 1800 to 0700 local time as published by NOTAM.
Controlling agency: Federal Aviation Administration, Albuquerque ARTC Center.
Using agency: Commander, Air Force Special Weapons Center, Kirtland AFB, NM.

AMENDMENTS 10/12/72 37 F. R. 16598 (Added)

V 38 - 1 JAN 3 73 XUM

§ 73.52 New York

R-5201 Camp Drum, N. Y.

Boundaries. Beginning at lat. 44°15'00" N., long. 75°31'30" W.; to lat. 44°11'15" N., long. 75°25'00" W.; to lat. 44°03'00" N., long. 75°33'30" W.; to lat. 44°00'45" N., long. 75°37'25" W.; to lat. 44°03'25" N., long. 75°39'30" W.; to lat. 44°05'47" N., long. 75°44'30" W.; to lat. 44°10'00" N., long. 75°39'30" W.; to point of beginning.
Designated altitudes. Surface to 23,000 feet MSL, April 1 through September 30; surface to 20,000 feet MSL, October 1 through March 31.
Time of designation. Continuous April 1 through September 30 and 0600 through 1800 hours local time. October 1 through March 31; other times by NOTAM 48 hours in advance.
Controlling agency. Federal Aviation Administration, Boston ARTC Center.
Using agency. Commanding Officer, Camp Drum, N. Y.

R-5202 Gardiner's Island, N. Y.

Boundaries. A circular area with a 3-nautical mile radius centered at Lat. 41°08'30" N, Long. 72° 08'50" W.
Designated altitudes: Surface to 10,000 feet MSL, inclusive.
Time of designation: 0900 to 1800 local time, April 15 through October 14; 0900 to 1600 local time, October 15 through April 14.
Controlling agency: FAA, Quonset RATCC
Using agency: Commander, Fleet Air Quonset, Naval Air Station, Quonset Point, R. I.

R-5203 Oswego, N. Y.

Boundaries. Beginning at Lat. 43°37'00" N, Long. 76°45'00" W; to Lat. 43°24'00" N, Long. 76°45' 00" W; to Lat. 43°24'00" N, Long. 78°00'00" W; to Lat. 43°37'00" N, Long. 78°00'00" W; to the point of beginning.
Designated altitudes. Surface to Flight Level 500.
Time of Designation. Continuous
Controlling agency. Federal Aviation Administration, Cleveland ARTC Center.
Using agency. Commander, 107th Fighter Group, Niagara Falls International Airport.

AMENDMENTS 12/7/72 37 F. R. 20160 (Changed)

R-5206 West Point, N. Y.

Subarea A

Boundaries: Beginning at lat. 41°23'08" N., long. 74°00'00" W.; to lat. 41°23'08" N., long. 73°59'42" W.; thence along south side of U. S. Highway 9W to lat. 41°22'32" N., long. 73°58'58" W.; to lat. 41°22'18" N., long. 73°58'58" W.; to lat. 41°20'04" N., long. 74°00'42" W.; thence along north side of Mine Torne Road to lat. 41°21'24" N., long. 74°02'38" W.; thence along east side of New York State Highway 293 to point of beginning.
Designated altitudes: Surface to and including 5,000 feet MSL.
Time of designation: 0600 to 2400 local, July 1 to August 31, other dates and times by NOTAM 48 hours in advance.
Controlling agency: Federal Aviation Administration, New York ARTC Center.
Using agency: Superintendent, U. S. Military Academy, West Point, N. Y.

Subarea B

Boundaries: Beginning at lat. 41°23'08" N., long. 74°00'00" W.; to lat. 41°23'08" N., long. 73°59'42" W.; thence along south side of U. S. Designated altitudes: 5,000 feet MSL to 7,000 feet MSL.
Time of designation: By NOTAM, 48 hours in advance.
Controlling agency: Federal Aviation Administration, New York ARTC Center.
Using agency: Superintendent, U. S. Military Academy, West Point, N. Y.

R-5207 Romulus, N. Y.

Boundaries. A circular area with a radius of 1,350 feet centered at latitude 42°46'59" N., longitudo 76°53'06" W.
Designated altitudes. Surface to 2,000 feet MSL.
Time of designation. 0730 to 1815 local time, Monday through Friday.
Using agency. Commanding Officer, Seneca Army Depot, Romulus, N. Y.

§ 73.53 North Carolina

R-5301A Albemarle Sound, N. C.

Boundaries. A circular area with a 3-mile radius centered at latitude 36° 03' 30" N., longitude 76° 20' 00" W., excluding the airspace within R-5301B.
Designated altitudes. Surface to 5,000 feet MSL.
Time of designation. Sunrise to sunset.
Using agency. Commander, Fleet Air Norfolk, NAS Norfolk, Va.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.

AMENDMENTS 3/29/72 37 F. R. 6382 (Changed)

R-5301B Albemarle Sound, N. C.

Boundaries. A circular area within a 1½-nmi radius centered at latitude 38° 05' 25" N., longitude 76° 18' 30" W.
Designated altitudes. Surface to 5,000 feet MSL.
Time of designation. Continuous.
Using agency. Commander, Fleet Air Norfolk, NAS Norfolk, Va.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.

AMENDMENTS 3/29/72 37 F. R. 6382 (Changed)

R-5301C Albemarle Sound, N. C.

Boundaries. A circular area within a 1½ nautical mile radius centered at Lat. 36°05'25" N., Long. 76° 18' 30" W.
Designated altitudes. From 5,000 feet MSL to and including 14,000 feet MSL.
Time of designation. As activated by NOTAM at least 24 hours in advance.
Using agency. Commander, Fleet Air Norfolk NAS Norfolk, Va.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.

AMENDMENTS 3/29/72 37 F. R. 6382 (Changed)

R-5302 Albemarle Sound, N. C.

Boundaries: Beginning at latitude 36°03'35" N., longitude 76°03'05" W.; to latitude 35°58'05" N., longitude 76°02'10" W.; to latitude 35°55'40" N., longitude 76°24'05" W.; to latitude 36°01'05" N., longitude 76°25'00" W, to point of beginning.
Designated altitude: Surface to 14,000 feet MSL.
Time of Designation: 0800 hours to 2300 hours e.s.t.
Using Agency: Commander, Fleet Air Norfolk, NAS Norfolk, Va.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.

AMENDMENTS 3/29/72 37 F. R. 6382 (Changed)

R-5306A Cherry Point, N. C.

Boundaries. Beginning at Lat. 35°23'15" N, Long. 76°34'40" W; to Lat. 35°18'15" N, Long. 76°16' 40" W; to Lat. 35°04'30" N, Long. 76°04'30" W; to Lat. 34°46'45" N, Long. 76°24'45" W; to Lat. 34° 45'10" N, Long. 76°40'30" W; to Lat. 34°41'50" N, Long. 76°56'20" W; to Lat. 34°37'30" N, Long. 76° 56'20" W; thence southwest along the boundary of Warning Area W-122 to Lat. 34°34'30" N, Long. 77°09' 00" W; to Lat. 34°44'50" N, Long. 77°14'40" W; to Lat. 35°03'00" N, Long. 76°57'00" W; thence to point of beginning.
Designated altitudes. Surface to flight level 350.
Time of designation. Continuous.
Using agency. Commanding General Marine Corps Air Station, Cherry Point, N. C.

R-5306B Cherry Point, N. C.

Boundaries. Beginning at Lat. 34°44'50" N, Long. 77°14'40" W; to Lat. 34°34'30" N, Long. 77°09' 00" W; thence southwest along the boundary of Warning Area W-122 to Lat. 34°30'20" N, Long. 77°15' 50" W; to Lat. 34°33'00" N, Long. 77°19'00" W; to Lat. 34°36'05" N, Long. 77°26'08" W; to Lat. 34° 40'00" N, Long. 77°22'00" W; to Lat. 34°39'10" N, Long. 77°20'50" W; thence to point of beginning.
Designated altitudes. Surface to flight level 290.
Time of designation. Continuous.
Using agency. Commanding General, Marine Corps Air Station, Cherry Point, N. C.

V38-1 JAN 3 73 XUM

R-5306C Cherry Point, N. C.

Boundaries. Beginning at latitude 34°40'00" N., longitude 77°22'00" W.; to latitude 34°36'05" N., longitude 77°26'08" W.; to latitude 34°38'12" N., longitude 77°26'00" W.; to latitude 34°40'20" N., longitude 77°22'12" W.; to point of beginning.
Designated altitudes. Surface to 20,000 feet MSL.
Time of designation. Continuous.
Using agency. Commanding General, U.S. Marine Corps Air Station, Cherry Point, N. C.

R-5311A Fort Bragg, N. C.

Boundaries. Beginning at latitude 35°10'46" N., longitude 79°01'56" W.; to latitude 35°08'47" N., longitude 79°02'00" W.; to latitude 35°07'00" N., longitude 79°02'30" W.; to latitude 35°05'35" N., longitude 79°01'50" W.; to latitude 35°02'55" N., longitude 79°05'40" W.; to latitude 35°02'45" N., longitude 79°20'10" W.; to latitude 35°07'05" N., longitude 79°22'50" W.; to latitude 35°09'40" N., longitude 79°20'10" W.; thence along Little River to point of beginning.
Designated altitudes: Surface to but not including 18,000 feet MSL.
Time of designation. Continuous.
Using agency. Commanding General, Fort Bragg, N. C.

R-5311B Fort Bragg, N. C.

Boundaries: Beginning at latitude 35°10'46" N., longitude 79°01'56" W.; to latitude 35°08'47" N., longitude 79°02'00" W.; to latitude 35°07'00" N., longitude 79°02'30" W.; to latitude 35°05'35" N., longitude 79°01'50" W.; to latitude 35°02'55" N., longitude 79°05'40" W.; to latitude 35°02'45" N., longitude 79°20'10" W.; to latitude 35°07'05" N., longitude 79°22'50" W.; to latitude 35°09'40" N., longitude 79°20'10" W.; thence along Little River to point of beginning.
Designated altitudes: From 18,000 to 29,000 feet MSL.
Time of designation: Continuous.
Controlling agency: Federal Aviation Administration, ARTC Center, Washington.
Using agency: Commanding General, Fort Bragg, N. C.

R-5313 Long Shoal Point, N. C.

Boundaries. A circular area with a 3-mile radius centered at Lat. 35°32'48" N, Long. 75°41'26" W.
Designated altitudes. Surface to 18,000 feet MSL.
Time of designation. Continuous.
Using agency. Commander, Fleet Air Norfolk, NAS Norfolk, VA.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.

AMENDMENTS 3/29/72 37 F. R. 6382 (Changed)

R-5314 Dare County, N. C.

Subarea A
Boundaries. Beginning at latitude 35°45'40" N., longitude 75°49'20" W.; to latitude 35°40'10" N., longitude 75°50'15" W.; to latitude 35°41'30" N., longitude 76°00'20" W.; to latitude 35°47'00" N., longitude 75°59'00" W; to the point of beginning.
Designated altitudes. Surface to flight level 205.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. Commander, 4th Tactical Fighter Wing, Seymour Johnson AFB, N. C.

Subarea B
Boundaries. Beginning at latitude 35°39'30" N., longitude 75°45'45" W.; to latitude 35°34'40" N., longitude 75°46'50" W.; to latitude 35°36'45" N., longitude 76°01'20" W.; to latitude 35°41'30" N., longitude 76°00'20" W.; to the point of beginning.
Designated altitudes. 500 feet above the surface to flight level 205.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. Commander, 4th Tactical Fighter Wing, Seymour Johnson AFB, N. C.

Subarea C.
Boundaries. Beginning at latitude 35°48'30" N., longitude 75°43'40" W.; to latitude 35°45'00" N., longitude 75°44'35" W.; to latitude 35°47'00" N., longitude 75°59'00" W.; to latitude 35°51'35" N., longitude 75°57'55" W.; to latitude 35°49'30" N., longitude 75°45'00" W.; to the point of beginning.
Designated altitudes. 500 feet above the surface to flight level 205.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Washington ARTC Center
Using agency. Commander, 4th Tactical Fighter Wing, Seymour Johnson AFB, N. C.

R-5314 CONTINUED

Subarea D.
Boundaries. Beginning at latitude 35°40'30" N., longitude 75°52'15" W.; to latitude 35°38'40" N., longitude 75°52'35" W.; to latitude 35°39'00" N., longitude 75°54'35" W.; to latitude 35°40'40" N., longitude 75°54'10" W.; to the point of beginning.
Designated altitudes. Surface to flight level 205.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. Commander, 4th Tactical Fighter Wing, Seymour Johnson AFB, N. C.

Subarea E.
Boundaries. Beginning at latitude 35°47'50" N., longitude 75°48'50" W.; to latitude 35°45'40" N., longitude 75°49'20" W.; to latitude 35°46'10" N., longitude 75°52'35" W.; to latitude 35°48'00" N., longitude 75°52'00" W.; to the point of beginning.
Designated altitudes. Surface to flight level 205.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. Commander, 4th Tactical Fighter Wing, Seymour Johnson AFB, N. C.

Subarea F.
Boundaries. Beginning at latitude 35°45'00" N., longitude 75°44'35" W.; to latitude 35°39'30" N., longitude 75°45'45" W.; to latitude 35°40'10" N., longitude 75°50'15" W.; to latitude 35°45'40" N., longitude 75°49'20" W.; to the point of beginning.
Designated altitudes. 500 feet above the surface to flight level 205.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. Commander, 4th Tactical Fighter Wing, Seymour Johnson AFB, N. C.

Subarea G
Boundaries. Beginning at latitude 35°49'40" N., longitude 75°58'20" W.; to latitude 35°38'55" N., longitude 76°01'00" W.; to latitude 35°39'20" N., longitude 76°05'00" W.; to latitude 35°50'20" N., longitude 76°02'30" W.; to the point of beginning.
Designated altitudes. 200 feet above the surface to 15,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. Commander, 4th Tactical Fighter Wing, Seymour Johnson AFB, N. C.

Subarea H
Boundaries. Beginning at latitude 35°50'20" N., longitude 76°02'30" W.; to latitude 35°39'20" N., longitude 76°05'00" W.; to latitude 35°40'25" N., longitude 76°12'25" W.; to latitude 35°51'25" N., longitude 76°10'05" W.; to the point of beginning.
Designated altitudes. 500 feet above the surface to 10,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. Commander, 4th Tactical Fighter Wing, Seymour Johnson AFB, N. C.

Subarea J
Boundaries. Beginning at latitude 35°51'25" N., longitude 76°10'05" W.; to latitude 35°40'25" N., longitude 76°12'25" W.; to latitude 35°43'50" N., longitude 76°35'30" W.; to latitude 35°54'50" N., longitude 76°33'10" W.; to the point of beginning.
Designated altitudes. 1,000 feet above the surface to 6,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. Commander, 4th Tactical Fighter Wing, Seymour Johnson AFB, N. C.

§ 73.54 North Dakota

§ 73.55 Ohio

R-5502 Lacarne, Ohio
Boundaries: Beginning at latitude 41°41'15" N., longitude 83°07'45" W.; to latitude 41°41'17" N., longitude 83°00'00" W.; to latitude 41°35'30" N., longitude 82°54'48" W.; to latitude 41°32'19" N., long. 83°00'05" W., to latitude 41°32'16" N., longitude 83°01'24" W., to latitude 41°36'54" N., longitude 83°07'45" W.; to the point of beginning.
Designated altitudes: April 1 to May 31 surface to and including 5,000 feet MSL; June 1 to July 31 surface to and including 23,000 feet MSL; and August 1 to November 30 surface to and including 5,000 feet MSL.
Time of designation: 0800 to 1600 local time Saturday and Sunday April 1 through May 31; 0800 to 1600 local time daily June 1 through July 31; 0800 to 1600 local time Saturday and Sunday August 1 through November 30; other dates, time and altitudes (not to exceed 23,000 feet MSL) by NOTAM, published at least 48 hours in advance.
Controlling agency: Federal Aviation Administration, Cleveland ARTC Center.
Using agency: The Adjutant General State of Ohio.

V 38 - 1 JAN 73 XUM

R-5503 Wilmington, Ohio

Boundaries. Beginning at Lat. 39°08'20" N, Long. 83°02'00" W; to Lat. 38°48'30" N, Long. 83°02'00" W; to Lat. 38°58'30" N, Long. 84°05'00" W; to Lat. 39°12'30" N, Long. 84°05'00" W; to the point of beginning.
Designated altitudes. Surface to flight level 600.
Time of designation. 0800 to 2200 hours, local time, Monday through Saturday.
Controlling agency. Federal Aviation Administration, Indianapolis ARTC Center.
Using agency. Aeronautical Systems Division, Wright-Patterson AFB, Ohio.

R-5504 Wilmington, Ohio

Boundaries. Beginning at latitude 39°30'00" N., longitude 83°02'00" W.; to latitude 39°08'20" N., longitude 83°02'00" W.; to latitude 39°12'30" N., longitude 84°05'00" W.; to latitude 39°15'45" N., longitude 84°05'00" W.; to latitude 39°17'50" N., longitude 84°02'30" W.; to latitude 39°26'05" N., longitude 83°48'10" W.; to latitude 39°30'00" N., longitude 83°38'35" W.; to the point of beginning.
Designated altitudes. 3,000 feet MSL to flight level 600.
Time of designation. 0800 to 2200 hours, local time, Monday through Saturday.
Controlling agency. Federal Aviation Administration, Indianapolis ARTC Center.
Using agency. Aeronautical Systems Division, Wright-Patterson AFB, Ohio.

§ 73.56 Oklahoma

R-5601A Fort Sill, Okla.

Boundaries. Beginning at latitude 34°38'15" N., longitude 98°17'00" W.; to latitude 34°38'15 N., longitude 98°20'55" W.; thence counterclockwise along the arc of a 3-mile radius circle centered at latitude 34°38'18" N., longitude 98°24'06" W.; to latitude 34°40'12" N., longitude 98° 26'17" W.; to latitude 34°39'33" N., longitude 98°26'17" W.; thence counterclockwise along the arc of a 2.5-mile radius circle centered at latitude 34°38'18" N., longitude 98°24'06" W.; to latitude 34°38'15" N., longitude 98°26'46" W.; to latitude 34°38'15" N., longitude 98°45'20" W.; to latitude 34°41'58" N., longitude 98°39'43" W.; to latitude 34°43'30" N., longitude 98°35'39" W.; to latitude 34°43'30" N., longitude 98°21'20" W.; to latitude 34°43'45" N., longitude 98°21'00" W.; to latitude 34°46'06" N., longitude 98°21'00" W.; to latitude 34°46'06" N., longitude 98°17'00" W.; to point of beginning.
Designated altitude. Surface to 23,000 feet MSL.
Time of designation. Continuous.
Using agency. Commanding General, Fort Sill, Oklahoma.

R-5601B Fort Sill, Okla.

Boundaries Beginning at latitude 34°38'15" N., longitude 98°26'46" W.; thence clockwise along the arc of a 2.5-mile radius circle centered at latitude 34°38'18" N., longitude 98°24'06" W.; to latitude 34°39'33" N., longitude 98°26'17" W.; to latitude 34°40'12" N., longitude 98°26'17" W.; thence clockwise along the arc of a 3-mile radius circle centered at latitude 34°38'18" N., longitude 98°24'06" W.; to latitude 34°38'15" N., longitude 98°20'55" W.; thence to point of beginning.
Designated altitude. Surface to 23,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Fort Worth ARTC Center.
Using agency. Commanding General, Fort Sill, Okla.

R-5601C, Fort Sill, Okla.
Boundaries. Beginning at latitude 34°38'15" N., longitude 98°17'00" W.; to latitude 34°38'15" N., longitude 98°45'20" W.; to latitude 34°41'58" N., longitude 98°45'20" W.; to latitude 34°41'58" N., longitude 98°39'43" W.; to latitude 34°43'30" N., longitude 98°35'39" W.; to latitude 34°43'30" N., longitude 98°21'20" W.; to latitude 34°43'45" N., longitude 98°21'00" W.; to latitude 34°46'06" N., longitude 98°21'00" W.; to latitude 34°46'06" N., longitude 98°17'00" W.; to point of beginning.
Designated altitude. 23,000 feet MSL to 65,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Fort Worth ARTC Center.
Using Agency. Commanding General, Fort Sill, Okla.

§ 73.57 Oregon

R-5701 Boardman Oreg.

Boundaries and designated altitudes. A 5-nautical-mile radius circle centered at latitude 45°43'36" N., longitude 119°41'03" W., surface to flight level 230; within 3 nautical miles either side of the 093° and 263° bearings from the center of the circle extending to 11 nautical miles from the center, excluding the airspace within 5 statute miles of the 256° radial of the Pendleton, Oreg., VOR, 20,000 feet MSL to flight level 230; within 2 nautical miles N and 3 nautical miles S of the 082° bearing from the center of the circle extending to a line one nautical mile W of and parallel to Butter Creek, surface to 10,000 feet MSL to a distance of 7 nautical miles from the center of the circle, thence surface to 6,000 feet MSL to the E extremity; within 3 nautical miles either side of the 234° bearing from the center of the circle extending to 10 nautical miles from the center, excluding the airspace within VOR Federal airway No. 112, surface to 10,000 feet MSL to a distance of 7 nautical miles from the center of the circle, thence surface to 6,000 feet MSL to the SW extremity; within 3 nautical miles either side of the 270° bearing from the center of the circle extending to 15 nautical miles from the center, surface to 10,000 feet MSL to a distance of 7 nautical miles from the center of the circle, thence surface to 6,000 feet MSL to the W extremity.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Seattle ARTC Center.
Using agency. Commander Fleet Air Whidbey, NAS Whidbey Island, Wash.

R-5704 Hermiston, Oreg.

Boundaries. Beginning at latitude 45°52'00" N., longitude 119°29'00" W.; to latitude 45°50'00" N., longitude 119°29'00" W.; to latitude 45°50'00" N., longitude 119°30'30" W.; to latitude 45°52'00" N.; longitude 119°30'30" W.; to point of beginning..
Designated altitudes. Surface to 5,000 feet MSL.
Time of designation. 0800 to 2000 Pst, Monday through Friday.
Using agency. Commanding Officer, Umatilla Ordnance Depot, Hermiston, Oreg.

R-5706 Boardman, Oreg.
Boundaries. Beginning at latitude 45°40'40" N., longitude 120°02'25" W.; to latitude 45°40'40" N., longitude 120°09'00" W.; to latitude 45°45'45" N., longitude 120°09'00" W.; thence east along the south shore of the Columbia River to latitude 45°51'00" N., longitude 119°40'00" W.; to latitude 45°53'00" N., longitude 119°31'00" W.; to latitude 45°46'35" N., longitude 119°31'00" W.; to latitude 45°46'10" N., longitude 119°35'00" W.; thence counterclockwise along the arc of a 5-nautical-mile radius circle centered at latitude 45°43'36" N., longitude 119°41'03" W.; to latitude 45°46'35" N., longitude 119°46'50" W.; to latitude 45°46'35" N., longitude 120°02'25" W.; to point of beginning.
Designated altitudes. 3,500 feet MSL to 10,000 feet MSL.
Time of designation. Continuous.
Controlling agency. FAA, Seattle ARTC Center.
Using agency. Commander, Fleet Air Whidbey, NAS Whidbey Island, Wash.

§ 73.58 Pennsylvania

R-5801 Chambersburg, Pa.

Boundaries. The arc of a circle, having a 5,000-foot radius, centered at latitude 39°59'44" N., longitude 77°43'55" W.
Designated altitudes. Surface to 4,000 feet MSL.
Time of designation. 0800 to 1600 EST, Monday through Friday.
Using agency. Commanding Officer, Letterkenny Ordnance Depot, Chambersburg, Pa.

R-5802 Indiantown Gap, Pa.

Boundaries. Beginning at latitude 40°28'45" N., longitude 76°35'30" W.; to latitude 40°26'05" N., longitude 76°35'30" W.; to latitude 40°24'55" N., longitude 76°36'55" W.; to latitude 40°23'45" N., longitude 76°43'11" W.; to latitude 40°24'20" N., longitude 76°44'40" W.; to latitude 40°28'45" N., longitude 76°37'40" W.; to the point of beginning.
Designated altitudes. Surface to 13,000 feet MSL.
Time of designation. 0630 to 2400 local time, June 1 through August 31; 0800-1800 local time, Saturday and Sunday February 15 through May 31; 0800-1800 local time, Saturday and Sunday September 1 through December 15. Other dates and times by NOTAM, issued at least 48 hours in advance.
Controlling agency. Federal Aviation Administration, New York ARTC Center.
Using agency. Commanding General, Indiantown Gap Military Reservation, Annville, Pa.

V 38-1 JAN 3 73 XUM

R-5803 Chambersburg, Pa.

Boundaries. A circular area with a 2,400-foot radius centered at Lat. 40°02'29" N, Long. 77°44'20" W.
Designated altitudes. Surface to 4,000 feet MSL.
Time of designation. 0800 to 1600 EST, Monday through Friday.
Using agency. Commanding Officer, Letterkenny Ordnance Depot, Chambersburg, Pa.

§ 73.59 Rhode Island

§ 73.60 South Carolina

R-6001 Fort Jackson, S. C.

Boundaries. Beginning at Lat. 34°03'51" N, Long. 80°42'12" W; to Lat. 34°01'40" N, Long. 80°42'15" W; to Lat. 34°01'50" N, Long. 80°55'15" W; to Lat. 34°02'21" N, Long. 80°56'02" W; to Lat. 34°04'45" N, Long. 80°53'02" W; to Lat. 34°06'19" N, Long. 80°48'47" W; to Lat. 34°05'58" N, Long. 80°46'05" W; to the point of beginning.
Designated altitudes. Surface to 24,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Jacksonville ARTC Center.
Using agency. Commanding General, Fort Jackson, S. C.

R-6002 Poinsett-Sumter, S. C.

Boundaries. Beginning at latitude 33°54'24" N., longitude 80°24'12" W., to latitude 33°46'25" N., longitude 80°23'12" W.,
to latitude 33°44'27" N., longitude 80°31'42" W., to latitude 33°50'13" N., longitude 80°31'03" W., to latitude 33°53'37" N., longitude 80°31'03" W., to point of beginning. Excluding that airspace within the Shaw AFB control zone.
Designated altitudes. Surface to 13,000 feet MSL.
Time of designation. Sunrise to 2400 hours local time.
Controlling agency. Federal Aviation Administration, Jacksonville ARTC Center.
Using agency. Commander, Shaw AFB, S. C.

R-6004 Savannah River Plant, S. C.

Boundaries. Beginning at latitude 33°22'00" N., longitude 81°43'15" W.; to latitude 33°20'30" N., longitude 81°27'40" W.; to latitude 33°10'20" N., longitude 81°29'05" W.; to latitude 33°05'50" N., longitude 81°37'05" W.; to latitude 33°09'35" N., longitude 81°45'50" W.; to latitude 33°11'11" N., longitude 81°46'28" W.; to latitude 33°20'25" N., longitude 81°45'29" W.; to the point of beginning.
Designated altitudes. Surface to 18,000 feet MSL.
Time of designation. Continuous.
Using agency. Manager, Atomic Energy Commission, Savannah River Plant, Aiken, S. C.

§ 73.61 South Dakota

R-6102 Badlands, South Dakota

Boundaries: Beginning at latitude 43°35'00" N., longitude 102°05'00" W.; to latitude 43°35'00" N., longitude 102°25'00" W.; to latitude 43°42'00" N., longitude 102°25'00" W.; to latitude 43°42'00"N., longitude 102°05'00" W. to the point of beginning.
Designated altitudes: Surface to 32,000 feet MSL.
Time of designation: A 2-week period annually between June 1 and August 31, to be publicized by NOTAM.
Using agency: The Adjutant General, State of South Dakota (147th Artillery Group, South Dakota Army National Guard).

§ 73.62 Tennessee

§ 73.63 Texas

R-6302A Fort Hood, Texas.

Boundaries. Beginning at latitude 31°06'06" N., longitude 97°32'42" W.; to latitude 31°08'20" N., longitude 97°39'28" W.; to latitude 31°10'04" N., longitude 97°41'06" W.; to latitude 31°10'39" N., longitude 97°43'19" W.; to latitude 31°09'52" N., longitude 97°44'45" W.; to latitude 31°09'02" N., longitude 97°45'25" W.; to latitude 31°08'56" N., longitude 97°47'18" W.; to latitude 31°15'10" N., longitude 97°50'45" W.; to latitude 31°19'28" N., longitude 97°50'45" W.; to latitude 31°23'31" N., longitude 97°47'45" W.; to latitude 31°22'33" N., longitude 97°42'45" W.; to latitude 31°20'48° N., longitude 97°40'32" W.; to latitude 31°19'37" N., longitude 97°40'32" W.; to latitude 31°13'45" N., longitude 97°32'35" W.; to point of beginning.
Designated altitude. Surface to 30,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Houston, Tex. ARTC Center.
Using agency. Commanding General, Fort Hood, Texas.

R-6302B Fort Hood, Texas
Boundaries. Beginning at latitude 31°08'20" N., longitude 97°39'28" W.; to latitude 31°09'03" N., longitude 97°41'18" W.; to latitude 31°09'40" N., longitude 97°41'20" W.; to latitude 31°09'40" N., longitude 97°43'19" W.; to latitude 31°08'45" N., longitude 97°43'30" W.' to latitude 31°09'02" N., longitude 97°45'25" W.; to latitude 31°09'52" N., longitude 97°44'45" W.; to latitude 31°10'39" N., longitude 97°43'19" W.; to latitude 31°10'04" N., longitude 97°41'06" W.' to point of beginning.
Designated altitude. Surface to 30,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Houston, Tex. ARTC Center.
Using agency. Commanding General, Fort Hood, Texas.

R-6302C Fort Hood, Texas

Boundaries. Beginning at latitude 31°08'56" N., longitude 97°47'18" W.; to latitude 31°08'40" N., longitude 97°52'10" W.; to latitude 31°09'15" N., longitude 97°54'30" W.; to latitude 31°15'34" N., longitude 97°54'29" W.; to latitude 31°19'28" N., longitude 97°50'45" W.; to latitude 31°15'10" N., longitude 97°50'45" W.; to point of beginning.
Designated altitude. Surface to 30,000 feet MSL.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Houston, Tex. ARTC Center.
Using agency. Commanding General, Fort Hood, Texas.

R-6303A Matagorda Island, Tex.

Boundaries. Beginning at latitude 28°15'20" N., longitude 96°26'50" W.; to latitude 28°18'55" N., longitude 96°27'45" W.; to latitude 28°20'55" N., longitude 96°29'15" W.; to latitude 28°12'00" N., longitude 96°46'00" W.; to latitude 28°07'00" N., longitude 96°42'00" W.; thence 3 nautical miles from and parallel to the shoreline to the point of beginning.
Designated altitude. Surface to flight level 330.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Houston, Tex., ARTC Center.
Using agency. Commander, Second Air Force, Barksdale AFB, La.
AMENDMENTS 2/3/72 36 F. R. 23049 (Added)

R-6303B Matagorda Island, Tex.

Boundaries. Beginning at latitude 28°15'20" N., longitude 96°26'50" W.; to latitude 28°18'55" N., longitude 96°27'45" W.; to latitude 28°20'55" N., longitude 96°29'15" W.; to latitude 28°12'00" N., longitude 96°46'00" W.; to latitude 28°07'00" N., longitude 96°42'00" W.; thence 3 nautical miles from and parallel to the shoreline to the point of beginning.
Designated altitude. Flight level 330 to flight level 450.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Houston, Tex., ARTC Center.
Using agency. Commander, Second Air Force, Barksdale AFB, La.

AMENDMENTS 2/3/72 36 F. R. 23049 (Added)

R-6304 Camp Bowie, Tex.

Boundaries: Beginning at latitude 31°41'00" N., longitude 98°58'00" W., to latitude 31°39'25" N., longitude 98°52'15" W., to latitude 31°34'30" N., longitude 98°54'10" W., to latitude 31°36'10" N., longitude 99°00'00" W., thence to point of beginning.
Designated altitudes: Surface to 6,000 feet MSL.
Time of designation: A 4-hour period commencing at official sunset, Monday through Thursday.
Using agency: Commander, 75th Tactical Reconnaissance Wing, Bergstrom AFB, Texas.
Controlling agency: Federal Aviation Administration, Air Route Traffic Control Center, Fort Worth, Texas.

§ 73.70 Wyoming

R-7001 Guernsey, Wyo.

Boundaries. Beginning at latitude 42°27'30" N., longitude 104°52'30" W., latitude 42°27'30" N., longitude 104°42'30" W., latitude 42°22'30" N., longitude 104°42'30" W., latitude 42°20'00" N., longitude 104°52'30" W., thence to point of beginning.
Designated altitudes. Surface to 23,500 feet MSL.
Time of designation. 0430 to 2400 MST, May 15 through September 5.
Controlling agency. Federal Aviation Administration, Casper, Wyo., Flight Service Station.
Using agency. Adjutant General, State of Wyoming.

§ 73.71 Puerto Rico

R-7101 Culebra Island, P. R.

Boundaries. The airspace over Culebra Island and the surrounding waters extending to the 3-nautical-mile limit from the shoreline.
Designated altitudes. Surface to FL 500.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, San Juan ARTC Center.
Using agency. Commander, Caribbean Sea Frontier, San Juan, P. R.

R-7103 Salinas, P. R.
SUBAREA A
Boundaries: Beginning at latitude 18°03'00" N., longitude 66°14'35" W.; to latitude 18°01'16" N., longitude 66°15'14" W.; to latitude 17°59'57" N., longitude 66°16'00" W.; to latitude 17°59'16" N., longitude 66°17'11" W.; to latitude 18°01'00" N., longitude 66°19'58" W.; to latitude 18°01'53" N., longitude 66°18'53" W.; to latitude 18°02'34" N., longitude 66°18'47" W.; to latitude 18°03'25" N., longitude 66°17'54" W.; to latitude 18°04'07" N., longitude 66°17'00" W.; to point of beginning.

SUBAREA B
Boundaries: Beginning at latitude 18°03'00" N., longitude 66°14'35" W.; to latitude 18°02'37" N., longitude 66°13'39" W.; to latitude 17°58'53" N., longitude 66°15'22" W.; to latitude 17°58'30" N., longitude 66°16'30" W.; to latitude 17°59'00" N., longitude 66°17'37" W.; to latitude 17°59'16" N., longitude 66°17'11" W.; to latitude 17°59'57" N., longitude 66°16'00" W.; to latitude 18°01'16" N., longitude 66°15'14" W.; to point of beginning.

SUBAREA C
Beginning at latitude 17°59'16" N., longitude 66°17'11" W.; to latitude 17°59'00" N., longitude 66°17'37" W.; to latitude 17°59'44" N., longitude 66°19'17" W.; to latitude 18°00'27" N., longitude 66°18'58" W.; to point of beginning.
Designated altitudes: Subarea A, Surface to 12,000 feet MSL. Subarea B, 3,000 feet MSL to 12,000 feet MSL. Subarea C, 2,000 feet MSL to 12,000 feet MSL.
Time of designation: Continuous, June 1 through August 31, other times as activated by NOTAMs issued at least 24 hours in advance.
Controlling agency: Federal Aviation Administration, San Juan ARTC Center.
Using agency: The Adjutant General, Commonwealth of Puerto Rico.

R-7104 Vieques Island, P. R.
Boundaries. The airspace over Vieques Island and the surrounding waters extending to the 3-nautical-mile limit from the shoreline.
Designated altitudes. Surface to FL 500.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, San Juan ARTC Center.
Using agency. Commander, Caribbean Sea Frontier, San Juan, P. R.

§ 73.72 Guam

R-7201 Farallon De Medinilla Island, Mariana Islands

Boundaries: The area within a 3-nautical mile radius of lat. 16°01'00" N., long. 146°04'30" E.
Designated altitudes: Surface to FL 600.
Time of use: Continuous.
Using agency: Commander, Naval Forces, Marianas.

V 38 - 1 JAN 73 XUM

§ 73.87 Prohibited Areas

P-56 District of Columbia

Boundaries:
A. Beginning at the southwest corner of the Lincoln Memorial (latitude 38°53'20" N.; longitude 77°03'03" W.);
Thence via a 327° bearing, 0.6 mile, to the intersection of New Hampshire Avenue and Rock Creek and Potomac Parkway NW (latitude 38°53'45" N.; longitude 77°03'24" W.);
Thence northeast along New Hampshire Avenue, 0.6 mile, to Washington Circle, at the intersection of New Hampshire Avenue and K street NW (latitude 38°54'08" N.; longitude 77°03'02" W.);
Thence east along K Street, 2.5 miles, to the railroad overpass between First and Second Streets NE (latitude 38°54'08" N.; longitude 77°00'14" W.);
Thence southeast via a 158° bearing, 0.7 mile, to the southeast corner of Stanton Square, at the intersection of Massachusetts Avenue and Sixth Street NE (latitude 38°53'35" N.; longitude 76°59'57" W.);
Thence southwest via a 211° bearing, 0.8 mile, to the Capitol Power Plant at the intersection of New Jersey Avenue and E Street SE. (latitude 38°52'59" N.; longitude 77°00'25" W.);
Thence west via a 265° bearing. 0.7 mile, to the intersection of the Southwest Freeway (Interstate Route 95) and Sixth Street SW., extended (latitude 38°52'56" N.; longitude 77°01'13" W.);
Thence north along Sixth Street, 0.4 mile, to the intersection of Sixth Street and Independence Avenue SW. (latitude 38°53'15" N.; longitude 77°01'13" W.);
Thence west along the north side of Independence Avenue, 0.8 mile, to the intersection of Independence Avenue and 15th Street SW. (latitude 38°53'16" N.; longitude 77°02'02" W.);
Thence west along the southern lane of Independence Avenue, 0.4 mile to the west end of the Kutz Memorial Bridge over the Tidal Basin (latitude 38°53'12" N.; longitude 77°02'28" W.);
Thence west via a 285° bearing, 0.6 mile, to the southwest corner of the Lincoln Memorial, the point of beginning.
B. That area within a one-half mile radius from the center of the U. S. Naval Observatory located between Wisconsin and Massachusetts Avenues at 34th Street NW. (latitude 38°55'17" N.; longitude 77°04'02" W.).
Designated altitudes: Surface to 18,000 feet MSL.
Time of designation: Continuous.
Using agency: Administrator, Federal Aviation Administration, Washington, D. C.

§73.88

P-29 Key Biscayne, Fla.

Boundaries: That airspace within a 1 nautical mile radius of latitude 25°41'25" N., longitude 80°10'02" W.
Designated altitudes. Surface to 18,000 feet MSL.
Time of designation. Continuous.
Using agency. Administrator, Federal Aviation Administration, Washington, D. C.

§73.89

P-25 San Mateo Point, Calif.

Boundaries: That airspace within a 1-nautical-mile radius of the San Mateo Point Loran Station, latitude 33°23'32" N., longitude 117°35'37" W.
Designated altitudes. Surface to 4,000 feet MSL.
Time of designation. Continuous.
Using agency. Administrator, Federal Aviation Administration, Washington, D. C.

§73.90

P-40 Thurmont, Md.

Boundaries: That airspace within a one nautical mile radius of the Naval Support Facility, latitude 39°38'53" N., longitude 77°28'01" W.
Designated altitudes: Surface to but not including 5,000 feet MSL.
Time of designation. Continuous.
Using agency. Administrator, Federal Aviation Administration, Washington, D. C.

§73.91

P-73 Mount Vernon, Va.

Boundaries: That airspace within a 0.5-mile radius of latitude 38°42'28" N., longitude 77°05'11" W.
Designated altitudes. Surface to but not including 1,500 feet MSL.
Time of designation. Continuous.
Using agency. Administrator, Federal Aviation Administration, Washington, D. C.

§73.92

P-26 Denver, Colo.

Boundaries. Beginning at latitude 39°48'45" N., longitude 104°50'46" W.; to latitude 39°50'00" N., longitude 104°50'46" W.; to latitude 39°51'22" N., longitude 104°50'18" W.; to latitude 39°51'22" N., longitude 104°48'00" W.; to latitude 39°48'45" N., longitude 104°48'00" W.; to point of beginning.
Designated altitudes. Surface to 6,900 feet MSL.
Time of designation. Continuous.
Using agency. Commanding Officer, Rocky Mountain Arsenal, Denver, Colo.

V 38 - 1 JAN 3 73 XUM

PART 75-ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

SUBPART A -- GENERAL
Sec.
75.1 Applicability.
75.11 Jet routes
75.13 Area high routes; control area designation.
75.15 Jet advisory areas
75.17 Bearings; Radials; Miles

SUBPART B -- JET ROUTES
Sec.
75.100 Jet routes

SUBPART C -- JET ADVISORY AREAS
Sec.
75.200 En route jet advisory areas
75.300 Terminal jet advisory areas

SUBPART D -- AREA HIGH ROUTES
75.400 Area high routes.

SUBPART A -- GENERAL

§75.1 Applicability.

The routes described in Subpart B, between high altitude navigational aids or intersections of their signals, are designated as jet routes along which aircraft may be operated between 18,000 feet MSL and flight level 450. The areas described in Subpart C are designated as jet advisory areas along specified jet route segments, VOR/VORTAC radials, bearings from L/MF navigational facilities, direct courses between high altitude navigational facilities, centerlines of control areas, or in the vicinity of specific geographic locations. The routes described in Subpart D of this Part are designated as area high routes.

§75.11 Jet Routes

Each jet route designated in Subpart B consists of a direct course for navigating aircraft between 18,000 feet MSL and flight level 450, inclusive, between the navigational aids and intersections specified for that route.

§75.13 Area high routes; control area designation.

(a) Each area high route designated in Subpart D of this Part consists of a direct course for navigating aircraft at altitudes between 18,000 feet MSL and flight level 450, inclusive, between the waypoints specified for that route.
(b) Unless otherwise specified, that airspace on each side of an area high route that has a lateral extent specified in §71.6 and that extends outside the continental control areas, is designated as a control area.

§75.15 Jet Advisory Areas

(a) Jet advisory areas consist of airspace within the continental control area, as designated in Subpart C.
(b) En route radar jet advisory areas consist of areas within which jet advisory service is provided with radar surveillance. Unless otherwise designated, each of them includes the area within 14 miles on each side of the jet route segment from flight level 240 through flight level 410, inclusive.
(c) Terminal radar jet advisory areas consist of areas in which jet advisory service is provided with radar surveillance. Unless otherwise designated, each of them includes the area within 14 miles on each side of the VOR/VORTAC radials, bearings from L/MF navigational facilities, direct courses between navigational facilities, or centerlines of control areas from flight level 240 through flight level 410, inclusive.
(d) Nonradar jet advisory areas consist of areas within which jet advisory service is provided on a procedural basis without radar surveillance. Unless otherwise designated, each of them includes the area within 14 miles on each side of the jet route segment from flight level 270 through flight level 310, inclusive, and from flight level 370 through flight level 410, inclusive.
(e) Jet advisory areas do not include the airspace within positive control areas, prohibited areas, or restricted areas except restricted area military climb corridors and those restricted areas specified in Subpart D of Part 71.
(f) En route jet advisory areas are based on jet routes and are identified by the associated jet route number. Terminal jet advisory areas are based on VOR/VORTAC radials, bearings from L/MF navigational facilities, direct courses between navigational facilities, or centerlines of control areas and those in the vicinity of geographical locations, and are identified by geographical names.

§75.17 Bearings: Radials: Miles

(a) All bearings and radials in this Part are true and are applied from point of origin.
(b) Unless otherwise specified, all mileages in this Part are stated as nautical miles.

SUBPART B -- JET ROUTES
§75.100 Jet Routes.

SUBPART C -- JET ADVISORY AREAS
§ 75.200 En route Jet Advisory Areas.
§ 75.300 Terminal Jet Advisory Areas.

SUBPART D -- AREA HIGH ROUTES
§ 75.400 Area high routes.

SUBPART B - JET ROUTES

§ 75.100 Jet routes.
(Unless otherwise specified the place names appearing in the description of the jet routes indicate the VOR or VORTAC facilities identified by such names.).

Jet Route No. 1 (United States/Mexican border to Seattle, Wash.).

From the INT of the United States/Mexican border with the direct course between the San Diego VORTAC and the Tijuana, Mexico, RBN, via San Diego; Oceanside, Calif.; Los Angeles, Calif.; INT of the Los Angeles 319° and the Avenal, Calif., 145° radials; Avenal; Oakland, Calif.; Red Bluff, Calif.; Medford, Oreg.; Portland, Oreg., to Seattle, Wash.

Jet Route No. 2 (San Diego, Calif., to Jacksonville, Fla.).

From San Diego, Calif., via Imperial, Calif.; Yuma, Ariz.; INT of the Yuma 089° and Gila Bend, Ariz., 261° radials; Gila Bend, Cochise, Ariz.; El Paso, Tex.; Fort Stockton, Tex.; Junction, Tex.; San Antonio, Tex.; Humble, Texas; Lake Charles, La.; INT of the Lake Charles 089° and the New Orleans, La., 275° radials; New Orleans; INT of the New Orleans 066° and the Crestview, Fla., 266° radials; Crestview; INT of the Crestview 091° and the Tallahassee, Fla., 290° radials; Tallahassee; to Jacksonville, Fla.

AMENDMENTS 5/25/72 37 F. R. 4957 (Changed)
AMENDMENTS 12/7/72 37 F. R. 21530 (Changed)

Jet Route No. 3 (Oakland, Calif., to Cranbrook, British Columbia, Canada).

From Oakland, Calif., via Red Bluff, Calif.; Lakeview, Oreg.; Kimberly, Oreg.; Spokane, Wash., to Cranbrook, British Columbia, excluding the portion that lies over Canadian territory.

AMENDMENTS 10/6/72 37 F. R. 21160 (Changed)
AMENDMENTS 10/12/72 37 F. R. 18615 (Changed)

Jet Route No. 4 (Los Angeles, Calif., to Wilmington, N. C.).

From Los Angeles, Calif., via Ontario, Calif.; INT of the Ontario 093° and the Blythe, Calif., 282° radials; Blythe; INT Blythe 096° and Casa Grande, AZ., 294° radials; Casa Grande; San Simon, AZ.; Newman, TX.; Wink, TX.; Abilene, TX.; Greater Southwest, TX.; Shreveport, LA.; Jackson, MS.; Meridian, Miss.; INT of the Meridian 091° and the Montgomery, Ala., 282° radials; Montgomery; Atlanta, Ga.; Augusta, Ga.; Columbia, S. C.; Florence, S. C.; to Wilmington, N. C.

AMENDMENTS 5/25/72 37 F. R. 4957 (Changed)

Jet Route No. 5 (Los Angeles, Calif., to Seattle, Wash.).

From Los Angeles, Calif., via the INT of the Palmdale, Calif., 291° and the Bakersfield, Calif., 149° radials; Bakersfield; Reno, Nev.; Lakeview, Oreg.; to Seattle, Wash.

Jet Route No. 6 (Paso Robles, Calif., to Robbinsville, N. J.).

From the INT of the Salinas, Calif., 145° and the Palmdale, Calif., 291° radials via Palmdale; Hector, Calif.; Needles, CA.; Prescott, AZ.; Zuni, AZ.; Albuquerque, NM.; Tucumcari, NM.; Amarillo, TX.; Oklahoma City, Okla.; Little Rock, Ark.; Bowling Green, Ky.; Charleston, W. Va.; Front Royal, Va.; Westminster, Md.; INT of Westminster 080° and Robbinsville, N. J. 239° radials; to Robbinsville.

AMENDMENTS 3/2/72 37 F. R. 667 (Changed)

V38-1 JAN 73 XUM

Jet Route No. 7 (Oakland, Calif., to the United States/Canadian Border).

From Oakland, Calif., via Sacramento, Calif.; Reno, Nev.; Rome, Oreg.; Boise, Idaho; Dillon, Mont.; Great Falls, Mont.;
via the Great Falls 040° radial to the United States/Canadian Border.

Jet Route No. 8 (Needles, CA., to Robbinsville, NJ.)

From Needles, CA., via Winslow, AZ.; Gallup, NM.; Las Vegas, NM.; Borger, TX.; INT Borger 095° and Kingfisher, OK., 261° radials; Kingfisher; Springfield, MO.; St. Louis, MO.; Louisville,
Ky.; Charleston, W. Va.; Casanova, Va.; INT Casanova 051° and Westminster, Md., 080° radials; INT Westminster 080° and Robbinsville, N. J., 239° radials; to Robbinsville.

AMENDMENTS 3/2/72 37 F. R. 667 (Changed) Corr: 37 F. R. 2499

Jet Route No. 9 (Los Angeles, Calif., to Great Falls, Mont.).
From Los Angeles, Calif., via Hector, Calif.; Boulder City, Nev.; Milford, Utah; Fairfield, Utah; Salt Lake City, Utah; Dubois, Idaho; Dillon, Mont., to Great Falls, Mont.

Jet Route No. 10 (Los Angeles, Calif. to Denver, Colo.).

From Los Angeles, Calif., via Ontario, Calif.; INT of the Ontario 093° and the Parker, Calif., 261° radials; Parker; Prescott, Ariz.; Farmington, N. Mex., Gunnison, Colo.; Denver, Colo.

Jet Route No. 11 (Tucson, Ariz., to Salt Lake City, Utah)

From Tucson, Ariz., via INT Tucson 316° and Phoenix, Ariz., 161° radials; Phoenix; Prescott, Ariz.; Bryce Canyon, Utah; Fairfield, Utah; to Salt Lake City, Utah.

Jet Route No. 12 (Salt Lake City, Utah, to Grand Junction, Colo.)

From Salt Lake City, Utah, via Fairfield, Utah; to Grand Junction, Colo.

JET ROUTE No. 13 (El Paso, Texas, to the United States/Canadian Border.)

From El Paso, TX., via the INT of the El Paso 275° and the Truth or Consequences, NM., 162° radials; Truth or Consequences;
Albuquerque, N. Mex.; Alamosa, Colo.; Denver, Colo.; Cheyenne, Wyo.; Crazy Woman, Wyo.,
Billings, Mont.. Great Falls, Mont.; via the Great Falls 339° radial to the United States/Canadian Border.

AMENDMENTS 5/25/72 37 F. R. 6574 (Changed)

Jet Route No. 14 (Amarillo, Tex.. to Kenton, Del.).

From Amarillo, Tex., via Oklahoma City, Okla.; Little Rock, Ark.; Birmingham, Ala.; to Atlanta, Ga.; Spartanburg, S. C.; Greensboro, N. C.; Richmond, Va.; to Kenton, Del.

Jet Route No. 15 (Humble, Tex., to Portland, Oreg.).

From Humble, Tex., via Austin, Tex.; Junction, Tex.;
Wink, Tex.; Roswell, N. Mex.; INT of the Roswell 319° and the Albuquerque,
N. Mex., 128° radials; Albuquerque; Farmington, N. Mex.; Grand Junction, Colo.; Salt Lake City, Utah; Boise, Idaho; Kimberly, Oreg.; INT Kimberly 288° and Portland, Oreg., 136° radials; to Portland.

AMENDMENTS 10/12/72 37 F. R. 18615 (Changed)

Jet Route No. 16 (Portland, Oreg.. to Boston, Mass.).

From Portland, Oreg., via Pendleton, Oreg.; Whitehall, Mont.; Billings, Mont.; Dupree, S. Dak.; Sioux Falls, S. Dak.; Mason City, Iowa; Milwaukee, Wis.; Peck, Mich.;
via the Peck 100° radial to the United States/Canadian Border. From the United States/Canadian Border to Buffalo, N. Y., via the Buffalo 274° radial; Albany, N. Y., to Boston, Mass.

Jet Route No. 17 (San Antonio, Texas, to Rapid City, S. Dak.).

From San Antonio, Texas, via Abilene, Texas; Amarillo, Texas; Pueblo, Colo.; Denver, Colo., to Rapid City, S. Dak.

Jet Route No. 18 (San Diego, Calif., to Joliet, Ill.).

From San Diego, Calif., via Imperial, Calif.; Yuma, Ariz., INT of the Yuma 089° and Gila Bend, Ariz., 261° radials; Gila Bend; Phoenix, Ariz.; St. Johns, Ariz.; Albuquerque, N. Mex.; Las Vegas, N. Mex.
Garden City, Kans.; Salina, Kans.; Kirksville, Mo.; Bradford; to Joliet, Ill.

AMENDMENTS 12/7/72 37 F. R. 21530 (Changed)

Jet Route No. 19 (Phoenix, Ariz., to St. Louis, Mo.)

From Phoenix, AZ., via INT Phoenix 051° and Zuni, AZ., 242° radials; Zuni; Las Vegas, NM.; Liberal, KS.; Wichita, KS.; Butler, MO.; to St. Louis, MO.

AMENDMENTS 3/2/72 37 F. R. 667 (Changed)

Jet Route No. 20 (Seattle, Wash., to Orlando, Fla.).

From Seattle, Wash., via Yakima, Wash.; Pendleton, Oreg.; McCall, Idaho; Pocatello, Idaho; Rock Springs, Wyo.; Denver, Colo.; Lamar, Colo.; Liberal, Kans.; INT Liberal 137° and Oklahoma City, Okla., 282° radials; Oklahoma City; Shreveport, La.; Jackson, Miss.;
Meridian, Miss.; INT of the Meridian 091° and the Montgomery, Ala. 282° radials; Montgomery; Tallahassee, Fla.; INT Tallahassee 129° and Orlando, Fla., 306° radials; Orlando; to the INT of the Orlando 118° and the Vero Beach, Fla., 341° radials.

Jet Route No. 21 (United States/Mexican Border to Duluth, Minn.).

From the INT of the United States/Mexican Border and the Laredo, Tex., 172° radial via Laredo; San Antonio, Tex.; Austin, Tex.; Waco, Tex.; Greater Southwest, Tex.; INT Greater
Southwest 356° and Oklahoma City, Okla., 158° radials; Oklahoma City; Wichita, Kans.; Omaha, Nebr.; Minneapolis, Minn.; to Duluth, Minn.

AMENDMENTS 11/9/72 37 F. R. 18715 (Changed)

Jet Route No. 22 (Laredo, Texas, to Gordonsville, Va.).

From Laredo, Tex., via Corpus Christi, Tex.; Palacios, Tex.; Lake Charles, La.; McComb, Miss.; Meridian, Miss., Birmingham; Knoxville, Tenn.; Pulaski,
Va.; to Gordonsville, Va.

AMENDMENTS 12/7/72 37 F. R. 20807 (Changed)

Jet Route No. 23 (San Antonio, Tex., to Wichita, Kans.).

From San Antonio, TX., via Millsap, TX.; Oklahoma City, OK.; Pioneer, OK.; to Wichita, KS.

AMENDMENTS 5/25/72 37 F. R. 4181 (Changed)

Jet Route No. 24 (Kansas City, Mo., to Richmond, Va.).

From Kansas City, Mo., via St. Louis, Mo.; Indianapolis, Ind.; Falmouth, Ky.; Charleston, W. Va.; to Richmond, Va.

Jet Route No. 25 (United States/Mexican Border to Minneapolis, Minn.).

From the INT of the United States/Mexican Border and the Brownsville, Tex., 187° radial via Brownsville; INT of the Brownsville 357° and the Corpus Christi, Tex., 179° radials; Corpus Christi; INT of the Corpus Christi 311° and the San Antonio, Tex., 167° radials; San Antonio; Austin, Tex.; Waco, Tex.; Greater Southwest, Tex.;

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

federal register

THURSDAY, JANUARY 4, 1973

WASHINGTON, D.C.

Volume 38 ■ Number 2

Pages 723–835

NOTICE TO AGENCIES

Agencies preparing documents for publication in the FEDERAL REGISTER are reminded that the revised rules of the Administrative Committee of the Federal Register are in effect as of January 3, 1973. (1 CFR Chapter I, 37 F.R. 23602, November 4, 1972.)

These revised rules include the following significant changes:

1. Requirement for a preamble in each proposed rule making and final rule making document that describes the contents of the document in a manner sufficient to apprise a reader who is not an expert in the subject area of the general subject matter of the document.

2. Requirement for setting forth specific effective dates and action dates.

3. Change in publication dates of the daily FEDERAL REGISTER (Monday through Friday instead of Tuesday through Saturday). See 1 CFR 17.2, 18.12, and 18.17.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

CREATING AN EMERGENCY BOARD TO INVESTIGATE A DISPUTE BETWEEN THE PORT AUTHORITY TRANS-HUDSON CORPORATION AND CERTAIN OF ITS EMPLOYEES—Executive order 729

TELEVISION BROADCASTING—FCC amends rules pertaining to re-regulation of radio and television broadcasting 738

CONTROLLED DRUGS—Justice Dept. adopts miscellaneous amendments, comments within 60 days; and exempts Rynal, a nonnarcotic substance (2 documents) 757

FEDERAL TAX LIEN—IRS proposals on validity and priority of lien against certain persons and release of lien or discharge of property; comments by 2–20–73 776

Guide to Record Retention Requirements

[Revised as of January 1, 1972]

This useful reference tool is designed to keep businessmen and the general public informed concerning the many published requirements in Federal laws and regulations relating to record retention.

The 92-page "Guide" contains over 1,000 digests which tell the user (1) what type records must be kept, (2) who must keep them, and (3) how long they must be kept. Each digest carries a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index, numbering over 2,200 items, lists for ready reference the categories of persons, companies, and products affected by Federal record retention requirements.

Price: $1.00

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for filing, publishing, and making available to the public, regulations and legal notices issued by the Executive Branch of the Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Title 3—The President

EXECUTIVE ORDER 11694

Creating an Emergency Board to Investigate a Dispute Between the Port Authority Trans-Hudson Corporation and Certain of Its Employees

WHEREAS, a dispute exists between the Port Authority Trans-Hudson Corporation and certain of its employees represented by the Brotherhood Railway Carmen of the United States and Canada, a labor organization; and

WHEREAS, this dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS, this dispute, in the judgment of the National Mediation Board, threatens substantially to interrupt interstate commerce to a degree such as to deprive a section of the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U.S.C. 160), I hereby create a board of three members, to be appointed by me, to investigate this dispute. No member of the board shall be pecuniarily or otherwise interested in any organization of railroad employees or any carrier.

The board shall report its finding to the President with respect to the dispute within thirty days from the date of this order.

As provided by section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by the Port Authority Trans-Hudson Corporation, or by its employees, in the conditions out of which the dispute arose.

Richard Nixon

THE WHITE HOUSE,
January 2, 1973.

Rules and Regulations

Title 32—NATIONAL DEFENSE

Chapter XVI—Selective Service System

OFFICERS, CLASSIFICATION, AND EXAMINATION

Whereas, on November 25, 1972, the Director of Selective Service published a notice of proposed amendments of Selective Service Regulations 37 F.R. 25054 of November 25, 1972; and

Whereas such publication complied with the publication requirement of section 13(b) of the Military Selective Service Act (50 App. U.S.C. sections 451 et seq.) in that more than 30 days have elapsed subsequent to such publication during which period comments from the public have been received and considered; and I certify that I have requested the views of officials named in section 2(a) of Executive Order 11623 and none of them has timely requested that the matter be referred to the President for decision.

Now, therefore, by virtue of the authority vested in me by the Military Selective Service Act, as amended (50 App. U.S.C. sections 451 et seq.) and Executive Order 11623 of October 12, 1971, the Selective Service Regulations, constituting a portion of Chapter XVI of Title 32 of the Code of Federal Regulations, are hereby amended, effective 11:59 p.m., e.s.t., on December 31, 1972, as follows:

PART 1604—SELECTIVE SERVICE OFFICERS

§§ 1604.61, 1604.62 [Revoked]

Section 1604.61 *Medical advisors to local boards*, is revoked.

Section 1604.62 *Disqualification*, is revoked.

PART 1622—CLASSIFICATION RULES AND PRINCIPLES

Paragraph (a) of § 1622.44 *Class 4–F: Registrant not qualified for military service*, is amended to read as follows:

§ 1622.44 Class 4–F: Registrant not qualified for military service.

(a) In Class 4–F shall be placed any registrant who is found by an Armed Forces examining and entrance station, under applicable physical, mental or administrative standards, to be not qualified for service in the Armed Forces; except that no such registrant whose further examination or reexamination is determined by AFEES to be justified shall be placed in Class 4–F until such further examination has been accomplished and such registrant continues to be found not qualified for military service.

• • • • •

PART 1625—REOPENING AND CONSIDERING ANEW REGISTRANT'S CLASSIFICATION

Section 1625.2 *Reopening of classification*, is amended to read as follows:

§ 1625.2 Reopening of classification.

(a) The local board will reopen and consider anew the classification of a registrant: (1) Upon the written request of the Director of Selective Service or the State Director of Selective Service and upon receipt of such request shall immediately cancel any order to report for induction or alternate service which may have been issued to the registrant; (2) who is in Class 1–H and becomes subject to processing for induction according to these regulations and the rules prescribed by the Director; (3) in any classification for the purpose of classifying him in Class 1–H according to these regulations and the rules prescribed by the Director; (4) upon the written request of the registrant that is accompanied by written information presenting facts other than pertaining to his acceptability for induction not considered when the registrant was classified which, if true in the opinion of the board, would justify a change in the registrant's classification; or (5) upon its own motion if such action is based upon facts other than pertaining to his acceptability for induction not considered when the registrant was classified which, in the opinion of the board, would justify a change in the registrant's classification: *Provided*, That in the event of paragraph (a)(4) or (5) of this section, the classification of a registrant shall not be reopened after the local board has mailed to such registrant an order for induction or alternate service or, in the event the order to report for induction or alternate service was postponed and a subsequent letter from the local board establishes the date for induction or for reporting for alternate service, unless the local board first specifically finds there has been a change in the registrant's status resulting from circumstances over which the registrant had no control.

PART 1628—EXAMINATION OF REGISTRANTS

§ 1628.1 [Amended]

Paragraph (c) of § 1628.1 *Who will be examined*, is revoked.

§§ 1628.2, 1628.3, 1628.4, 1628.5 [Revoked]

Section 1628.2 *Preliminary determination of acceptability*, is revoked.

Section 1628.3 *Registrants to be given medical interview*, is revoked.

Section 1628.4 *Duties of medical advisors to local board*, is revoked.

Section 1628.5 *Transfer for medical interview*, is revoked.

BYRON V. PEPITONE,
Acting Director.

DECEMBER 26, 1972.

Chapter XVI—Selective Service System

CLASSIFICATION PROCEDURES

Whereas, on November 28, 1972, the Director of Selective Service published a notice of proposed amendments to Selective Service Regulations, 37 FR 25179 on November 28, 1972; and

Whereas such publication complied with the publication requirement of section 13(b) of the Military Selective Service Act (50 App. U.S.C. sections 451 et seq.) in that more than 30 days have elapsed subsequent to such publication during which period comments from the public have been received and considered; and I certify that I have requested the views of officials named in section 2(a) of Executive Order 11623 and none of them has timely requested that the matter be referred to the President for decision.

Now therefore by virtue of the authority vested in me by the Military Selective Service Act, as amended (50 App. U.S.C. sections 451 et seq.) and Executive Order 11623 of October 12, 1971, the Selective Service Regulations, constituting a portion of Chapter XVI of Title 32 of the Code of Federal Regulations, are hereby amended, effective 11:59 p.m., e.s.t., on January 6, 1973, as follows:

PART 1621—PREPARATION FOR CLASSIFICATION

Section 1621.14 *Securing information from welfare and governmental agencies*, is amended to read as follows:

§ 1621.14 Securing information from welfare and governmental agencies.

The local board is authorized to request and receive information from welfare and governmental agencies whenever such information will assist it in determining the proper classification of a registrant.

PART 1622—CLASSIFICATION RULES AND PRINCIPLES

Section 1622.30 is amended to read as follows:

§ 1622.30 Class 3–A: Registrant deferred by reason of hardship to dependents.

(a) In Class 3–A shall be placed any registrant:

V 38-2 JAN 4 73 XUM

(1) Whose induction would result in extreme hardship to his wife when she is his only dependent;

(2) Whose induction would result in undue and genuine hardship to his child, parent, grandparent, brother or sister, who is dependent upon him for support;

(3) Who has been separated from active military service by reason of dependency or hardship; or

(4) Who prior to April 23, 1970, submitted to his local board information establishing his eligibility for deferment on the grounds of fatherhood under regulations in effect prior to such date.

(b) Any registrant classified prior to April 23, 1970, in Class 3–A on the grounds of fatherhood and who continues to maintain a bona fide relationship in their home with his child or children may be retained in Class 3–A.

(c) The local board will reopen and consider anew the classification of each registrant in Class 3–A not later than 365 days after he was last classified in Class 3–A.

(d) As used in this section:

(1) The term "child" shall include any person under 18 years of age who is a legitimate or an illegitimate child from the date of its conception, a stepchild, a foster child, or a child legally adopted;

(2) Dependency: Dependency exists when by reason of death or disability of a member of the registrant's family, other members of his family become principally dependent upon him for care or support;

(3) Hardship: Hardship exists when in circumstances not involving death or disability of a member of the registrant's family, his induction will materially affect the care or support of his family by aggravating or causing undue and genuine hardship.

(4) The term "parent" shall include any person who has stood in the place of a parent to the registrant for at least 5 years preceding the 18th anniversary of the registrant's date of birth.

PART 1623—CLASSIFICATION PROCEDURE

Section 1623.1(b) is amended to read as follows:

§ 1623.1 Commencement of classifications.

* * * * *

(b) The registrant's classification shall be determined on the basis of the official forms of the Selective Service System and other written information in his file, oral statements by the registrant at his personal appearance before the local board, appeal board, or National Selective Service Appeal Board, and oral statements by the registrant's witnesses at his personal appearance before the local board. No information in any written summary of the oral information presented at a registrant's personal appearance that was prepared by an official or employee of the Selective Service System will be considered or placed in the registrant's file unless a copy of it has been furnished to the registrant by the Selective Service System. No information in any other document in the registrant's file shall be considered in classifying the registrant unless that document was supplied by the registrant or a copy of it or a fair resume of its contents has been furnished to him by the Selective Service System.

PART 1631—ALLOCATION OF INDUCTIONS

Section 1631.6(b)(2) is amended to read as follows:

* * * * *

§ 1631.6 Action by local board upon receipt of allocation.

* * * * *

(b) * * *

(2) Nonvolunteers in the Extended Priority Selection Group in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1631.1: *Provided*, That, in the calendar year 1973, no registrant who first entered this group before December 31, 1972, shall be inducted.

BYRON V. PEPITONE,
Acting Director.

DECEMBER 29, 1972.

[FR Doc.73–168 Filed 1–3–73;8:45 am]

OFFICERS, CLASSIFICATION, AND EXAMINATION

Whereas, on November 25, 1972, the Director of Selective Service published a notice of proposed amendments of Selective Service regulations at 37 FR 25055 of November 25, 1972; and

Whereas such publication complied with the publication requirement of section 13(b) of the Military Selective Service Act (50 App. U.S.C. sections 451 et seq.) in that more than 30 days have elapsed subsequent to such publication during which period comments from the public have been received and considered; and I certify that I have requested the views of officials named in section 2(a) of Executive Order 11623 and none of them has timely requested that the matter be referred to the President for decision.

Now therefore by virtue of the authority vested in me by the Military Selective Service Act, as amended (50 App. U.S.C. sections 451 et seq.) and Executive Order 11623 of October 12, 1971, the Selective Service regulations, constituting a portion of Chapter XVI of Title 32 of the Code of Federal Regulations, are hereby amended, effective 11:59 p.m., e.s.t., on December 31, 1972, as follows:

PART 1622—CLASSIFICATION

Section 1622.2 *Classes*, is amended to read as follows:

§ 1622.2 Classes.

Each registrant shall be classified in one of the following classes:

CLASS 1

Class 1–A: Available for military service.
Class 1–AM: Registrant in any of the specified medical, dental, and allied specialist categories.
Class 1–A–O: Conscientious objector available for noncombatant military service only.
Class 1–C: Member of the Armed Forces of the United States, the National Oceanic and Atmospheric Administration, or the Public Health Service.
Class 1–D: Member of reserve component or student taking military training.
Class 1–H: Registrant not currently subject to processing for induction.
Class 1–O: Conscientious objector available for alternate service.
Class 1–W: Conscientious objector performing alternate service in lieu of induction.

CLASS 2

Class 2–A: Registrant deferred because of civilian occupation (except agriculture) or nondegree study.
Class 2–C: Registrant deferred because of agricultural occupation.
Class 2–D: Registrant deferred because of study preparing for the ministry.
Class 2–M: Registrant deferred because of study preparing for a specified medical specialty.
Class 2–S: Registrant deferred because of activity in study.

CLASS 3

Class 3–A: Registrant with a child or children; and registrant deferred by reason of extreme hardship to dependents.

CLASS 4

Class 4–A: Registrant who has completed military service.
Class 4–B: Officials deferred by law.
Class 4–C: Aliens.
Class 4–D: Minister of religion.
Class 4–F: Registrant not qualified for military service.
Class 4–G: Registrant exempted from service during peace.
Class 4–W: Conscientious objector who has completed alternate service in lieu of induction.

Section 1622.15 is added to read as follows:

§ 1622.15 Class 1–AM: Medical, dental, or allied specialist.

(a) In Class 1–AM shall be placed every registrant (1) who is or becomes a doctor of medicine, a dentist, a doctor of optometry, a doctor of osteopathy, a doctor of podiatry, a veterinarian, a registered nurse, or other of the medical, dental or allied specialist categories for which in accord with section 5(a) of the Military Selective Service Act the Secretary of Defense has stated that requisitions for induction may be submitted, and (2) who is not eligible for classification in another class other than Class 1–A.

(b) Each registrant who is classified in Class 1–AM shall be identified as follows: Class 1–AMM for doctor of medicine; Class 1–AMD for dentist; Class 1–AME for doctor of optometry; Class 1–AMO for doctor of osteopathy; Class 1–AMP for doctor of podiatry; Class 1–AMV for veterinarian; and Class 1–AMN for registered nurse.

(c) For the purpose of this section a doctor of medicine is a registrant who has received the degree of doctor of medicine; a dentist is a registrant who has received the degree of doctor of dental surgery or doctor of dental medicine; a doctor of optometry is a registrant who has received the degree of doctor of optometry; a doctor of osteopathy is a registrant who has received the degree of doctor of osteopathy; a doctor of podiatry is a registrant who has received the degree of doctor of podiatry; a veterinarian is a registrant who has received the degree of doctor of veterinary medicine; and a nurse is a registrant who has been licensed as a registered nurse. A registrant who has received training equivalent to that evidenced by the issuance of any of the degrees listed in the preceding sentence will be deemed to have received the respective degree.

Section 1622.18 *Class 1–H (holding classification): Registrant not subject to processing for induction*, is amended to read as follows:

§ 1622.18 Class 1–H (holding classification): Registrant not subject to processing for induction.

(a) In Class 1–H shall be placed any registrant who is not eligible for Class 1–AM and is not currently subject to processing for induction according to these regulations and the rules prescribed by the Director of Selective Service.

Paragraph (a) of § 1622.25 *Class 2–S: Registrant deferred because of activity in study*, is amended to read as follows:

§ 1622.25 Class 2–S: Registrant deferred because of activity in study.

(a) In Class 2–S shall be placed any registrant who requests such classification, who was satisfactorily pursuing a full-time course of instruction at a college, university or similar institution of learning during the 1970–71 regular academic school year and who is satisfactorily pursuing such course, such classification to continue until such registrant completes the requirement for his baccalaureate degree, fails to pursue satisfactorily a full-time course of instruction, or attains the 24th anniversary of the date of his birth, whichever occurs first.

* * * * *

Section 1622.26 is amended to read as follows:

§ 1622.26 Class 2–M: Registrant deferred because of study preparing for a specified medical specialty.

In Class 2–M shall be placed any registrant who is satisfactorily pursuing a full-time course of study leading to a professional degree in medicine, dentistry, optometry, osteopathy, podiatry, veterinary medicine, licensure as a registered nurse, or other of the medical, dental, or allied specialist categories for which in accord with section 5(a) of the Military Selective Service Act the Secretary of Defense has stated that requisitions for induction may be submitted.

PART 1623—CLASSIFICATION PROCEDURE

Section 1623.2 *Consideration of classes*, is amended to read as follows:

§ 1623.2 Consideration of classes.

(a) Every registrant other than a registrant eligible for classification in Class 1–AM shall be placed in Class 1–A under the provisions of section 1622.10 of this chapter except that when grounds are established to place a registrant in any one of the classes listed in the following table, the registrant shall be classified in the lowest class for which he is determined to be eligible, with Class 1–A–O considered the highest class and Class 4–A considered the lowest class, according to the following table:

Class 1–A–O: Conscientious objector available for noncombatant military service only.
Class 1–O: Conscientious objector available for alternate service.
Class 2–A: Registrant deferred because of civilian occupation (except agriculture) or nondegree study.
Class 2–C: Registrant deferred because of agricultural occupation.
Class 2–S: Registrant deferred because of activity in study.
Class 2–D: Registrant deferred because of study preparing for the ministry.
Class 2–M: Registrant deferred because of study preparing for a specified medical specialty.
Class 3–A: Registrant with a child or children; and registrant deferred by reason of extreme hardship to dependents.
Class 4–B: Officials deferred by law.
Class 4–C: Aliens.
Class 4–D: Minister of religion.
Class 1–H: Registrant not currently subject to processing for induction.
Class 4–G: Registrant exempted from service during peace.
Class 4–F: Registrant not qualified for military service.
Class 4–W: Conscientious objector who has completed alternate service in lieu of induction.
Class 1–D: Member of reserve component or student taking military training.
Class 1–W: Conscientious objector performing alternate service in lieu of induction.
Class 1–C: Member of the Armed Forces of the United States, the National Oceanic and Atmospheric Administration, or the Public Health Service.
Class 4–A: Registrant who has completed military service.

(b) A registrant eligible for classification in Class 1–AM under the provisions of § 1622.15 of this chapter shall be placed in that class except that when grounds are established to place a registrant in any one of the classes listed in the following table, the registrant shall be classified in the lowest class for which he is determined to be eligible, with Class 1–A–O considered the highest and Class 4–A considered the lowest class, according to the following table:

Class 1–A–O: Conscientious objector available for noncombatant military service only.
Class 1–O: Conscientious objector available for alternate service.
Class 2–A: Registrant deferred because of civilian occupation (except agriculture) or nondegree study.
Class 2–C: Registrant deferred because of agricultural occupation.
Class 2–S: Registrant deferred because of activity in study.
Class 2–D: Registrant deferred because of study preparing for the ministry.
Class 2–M: Registrant deferred because of study preparing for a specified medical specialty.
Class 3–A: Registrant with a child or children; and registrant deferred by reason of extreme hardship to dependents.
Class 4–B: Officials deferred by law.
Class 4–C: Aliens.
Class 4–D: Minister of religion.
Class 1–H: Registrant not currently subject to processing for induction.
Class 4–G: Registrant exempted from service during peace.
Class 4–F: Registrant not qualified for military service.
Class 4–W: Conscientious objector who has completed alternate service in lieu of induction.
Class 1–D: Member of reserve component or student taking military training.
Class 1–W: Conscientious objector performing alternate service in lieu of induction.
Class 1–C: Member of the Armed Forces of the United States, the National Oceanic and Atmospheric Administration, or the Public Health Service.
Class 4–A: Registrant who has completed military service.

PART 1630—VOLUNTEERS

Paragraph (a) of § 1630.1 *Who may volunteer*, is amended to read as follows:

§ 1630.1 Who may volunteer.

(a) Any registrant who has attained the age of 18 years and who has not attained the age of 26 years and who has not discharged his current military obligation under the Military Selective Service Act may volunteer for induction into the Armed Forces other than as a medical, dental, or allied specialist by completing and filing with his local board an Application for Voluntary Induction (SSS Form 254) which shall be completed and filed in duplicate if he has not attained the age of 18 years and 6 months. A registrant in Class 1–AM may volunteer for induction as a medical, dental, or allied specialist in accord with § 1680.10 of this chapter.

* * * * *

PART 1631—ALLOCATION OF INDUCTIONS

§ 1631.3 [Amended]

The second sentence of § 1631.3 *Calls by the Secretary of Defense*, is revoked.

§ 1631.4 [Amended]

Paragraph (b) of § 1631.4 *Allocation by the Director of Selective Service*, is revoked.

PART 1680—MEDICAL, DENTAL, OR ALLIED SPECIALIST CATEGORIES (CLASS 1–AM)

Part 1680 is added to read as follows:

Sec.
1680.1 Examinations.
1680.2 Calls by the Secretary of Defense.
1680.3 Allocations by the Director of Selective Service.

V 38 - 2 JAN 4 73 XUM

Sec.
1680.4 Allocations by the State Director of Selective Service.
1680.5 Action by Local Board upon receipt of allocation.
1680.6 Random selection sequence.
1680.7 Postponement of induction.
1680.8 Deferments.
1680.9 Alternate service.
1680.10 Volunteers.

AUTHORITY: The provision of this Part 1680 issued pursuant to the Military Selective Service Act, as amended (50 U.S.C. App., sections 451 et seq.) and Executive Order 11623, dated October 12, 1971.

§ 1680.1 Examinations.

Local boards shall forward registrants in Class 1–AM for Armed Forces examination in accord with instructions of the Director of Selective Service.

§ 1680.2 Calls by the Secretary of Defense.

The Secretary of Defense may from time to time place with the Director of Selective Service a call or requisition for men in any medical, dental, or allied specialist category required for induction into the Armed Forces.

§ 1680.3 Allocations by the Director of Selective Service.

Upon receipt of a call or requisition from the Secretary of Defense for men in a medical, dental, or allied specialist category to be inducted into the Armed Forces, the Director of Selective Service shall issue a call or requisition to the several States. The allocation of a call for the delivery of registrants shall specify the random selection sequence numbers of registrants in the appropriate speciality who shall be selected for induction.

§ 1680.4 Allocations by the State Director of Selective Service.

The State Director of Selective Service shall allocate a call for the delivery of registrants as prescribed by the Director of Selective Service pursuant to § 1680.3 of this part.

§ 1680.5 Action by local board upon receipt of allocation.

(a) When an allocation is received from the State Director of Selective Service, any member or compensated employee of the local board, or any compensated employee of the Selective Service System whose official duties include the performance of administrative duties at a local board shall select as provided herein, and issue orders to report for induction to those men required to fill the call from among its registrants who have been classified in Class 1–AM and have been found acceptable for service in the Armed Forces and to whom a Statement of Acceptability (DD Form 62) has been mailed: *Provided*, That a registrant in Class 1–AM who has volunteered for induction may be selected and ordered to report for induction to fill an induction call notwithstanding the fact that he has not been found acceptable for service in the Armed Forces and regardless of whether or not a Statement of Acceptability (DD Form 62) has been mailed to him, but in such case the Armed Forces examination shall be performed after he has reported for induction as ordered and he shall not be inducted until his acceptability has been satisfactorily determined.

(b) Registrants shall be selected and ordered to report for induction in the following categories and in the order indicated:

(1) Volunteers in the sequence in which they have volunteered for induction;

(2) Nonvolunteers within their year of prime vulnerability in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1680.6;

(3) Nonvolunteers within the first year after their year of prime vulnerability in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1680.6;

(4) Nonvolunteers within the second year after their year of prime vulnerability in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1680.6;

(5) Nonvolunteers within the third year after their year of prime vulnerability in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1680.6;

(6) Nonvolunteers within each succeeding year, in turn, after their year of prime vulnerability in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1680.6, until attainment of age 35.

As used in this paragraph, the year of prime vulnerability for an alien who enters the United States after he has completed the professional training described in § 1622.15(c) of this chapter is the 12 months following his first year of residence in the United States. The year of prime vulnerability for all other persons is 365 days immediately following the attainment of the first appropriate professional degree or diploma, or completion of internship or 1 year of equivalent training, whichever is later. The internship or 1 year of equivalent training must follow immediately upon the attainment of the appropriate professional degree.

§ 1680.6 Random selection sequence.

A registrant in Class 1–AM who was born before 1944 shall be assigned a birth date sequence based upon the results of the drawing held on December 1, 1969. A registrant in Class 1–AM who was born in 1944 or later shall be assigned a birth date sequence based upon the results of drawings held in accord with § 1631.1 of this chapter.

§ 1680.7 Postponement of induction.

Section 1632.2 of this chapter applies to registrants subject to this part. The Director of Selective Service or any State Director of Selective Service (as to the registrants registered within his State), in accord with § 1632.2(b) of this chapter, may postpone the induction of a registrant who applies or has applied for an appointment as a Reserve Officer in one of the Armed Forces in any of the medical, dental, and allied specialist categories until final action has been taken on such application.

§ 1680.8 Deferments.

Any registrant subject to this part may be considered for classification in Class 2–A in accord with the standards in § 1622.23(a) of this chapter if his occupation following his year of prime vulnerability as defined in § 1680.5(c) has been found by the appropriate State medical advisory board to represent an especially critical community service, and a replacement cannot be found by the community involved in the time allotted by a postponement of induction.

§ 1680.9 Alternate service.

A registrant in Class 1–O who would be eligible for Class 1–AM were he not in Class 1–O will be ordered to alternate service in lieu of induction in accord with Part 1660 of this chapter at the time that he would be called for induction if he were in Class 1–AM.

§ 1680.10 Volunteers.

Any registrant in Class 1–AM who has not attained the age of 35 years may volunteer for induction under this part by filing with his local board his written request for such induction.

BYRON V. PEPITONE,
Acting Director.

DECEMBER 26, 1972.

[FR Doc.73–15 Filed 1–3–73;8:45 am]

PART 1660—ALTERNATE SERVICE

Whereas, on November 28, 1972, the Director of Selective Service published a notice of proposed amendments of Selective Service regulations at 37 F.R. 25179 of November 28, 1972; and

Whereas more than 30 days have elapsed subsequent to such publication during which period comments from the public have been received and considered.

Now therefore by virtue of the authority vested in me by section 6(j) of the Military Selective Service Act, as amended (50 App. U.S.C. sections 451 et seq.), the Selective Service Regulations, constituting a portion of Chapter XVI of Title 32 of the Code of Federal Regulations, are hereby amended, effective 11:59 p.m., e.s.t., on January 6, 1973, as follows:

Section 1660.4(c) is amended to read as follows:

§ 1660.4 Selection of nonvolunteer for alternate service.

• • • • •

(c) A registrant in Class 1–O who would be eligible for Class 1–AM were he not in 1–O will be ordered to alternate service in lieu of induction at the time that he would be ordered for induction if he were in Class 1–AM.

• • • • •

BYRON V. PEPITONE,
Acting Director.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 5A—Federal Supply Service, General Services Administration

MISCELLANEOUS AMENDMENTS

Chapter 5A of Title 41 is amended as follows:

PART 5A–3—PROCUREMENT BY NEGOTIATION

The table of contents of Part 5A–3 is amended to add the following:

Sec.
5A–3.603–71 Prompt payment discounts.
5A–3.809 Contract audit as a pricing aid.

Subpart 5A–3.6—Small Purchases

Section 5A–3.603–71 is added as follows:

§ 5A–3.603–71 Prompt payment discounts.

Prompt payment discounts offered for payment within less than 20 calendar days will not be considered in evaluating prices quoted on Standard Form 18, Request for Quotations. However, any discount offered by a successful bidder shall be taken provided payment is made within the discount period, even though such discount was not considered in evaluation of the offer (see also § 5A–2.407–3(a)).

Subpart 5A–3.8—Price Negotiation Policies and Techniques

Section 5A–3.809 is added as follows:

§ 5A–3.809 Contract audit as a pricing aid.

Requests by contracting officers for contract audits (see § 5A–53.301).

— —

PART 5A–53—CONTRACT ADMINISTRATION

Part 5A–53 is amended by adding the following new Subpart 5A–53.3:

Subpart A–53.3—Audit of Contractor's Records

Sec.
5A–53.301 General.

Subpart 5A–53.3—Audit of Contractor's Records

§ 5A–53.301 General.

(a) Section 5–53.301 prescribes that the Contract Audits Division (BKC), Office of Audits, performs contract audits as required by law, regulations, or sound business judgment.

(b) In order that the Commissioner, FSS, may be apprised of such audits and related information if requested, copies of all letters from contracting officers to BKC requesting contract audits shall be furnished to the Office of the Executive Director (FA) (see also § 5A–3.809).

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5–1.101(c))

Effective date. These regulations are effective January 19, 1973, but may be observed earlier.

Dated: December 20, 1972.

M. S. MEEKER,
Commissioner,
Federal Supply Service.

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5322]

[AA–5927]

ALASKA

Withdrawal for National Forest Natural Area

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the mining laws (30 U.S.C. Ch. 2), but not from leasing under the mineral leasing laws, in aid of programs of the Department of Agriculture:

SOUTH TONGASS NATIONAL FOREST

COPPER RIVER MERIDIAN

Old Tom Creek Natural Area

Beginning on point A, approximately 607 feet west of the northeast corner of sec. 6, T. 75 S., R. 86 E., coordinates 55°24'10" N. latitude, 132°23'25" longitude. Proceed S. 14° W., 1,675 feet to point B; thence S. 9° W., 9,500 feet to point C; thence S. 34° W., 7,640 feet to point D; thence S. 7° W., 8,430 feet to point E; thence N. 41° W., 5,540 feet to point F; thence N. 14° W. 8,260 feet to point G; thence N. 2° W., 4,490 feet to point H; thence N. 18° W., 5,800 feet to point I; thence N. 49° E., 6,330 feet to point J; thence N. 85° E., 3,300 feet to point K; thence N., 90° E., 5,500 feet to the point of beginning.

The area described aggregates 4,021 land acres and 213 water acres located on Prince of Wales Island.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of national forest lands under lease, license or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

HARRISON LOESCH,
Assistant Secretary of the Interior.

DECEMBER 21, 1972.

NEBRASKA

Partial Revocation of Reclamation Withdrawals

By virtue of the authority contained in section 3 of the Act of June 17, 1902, as amended and supplemented, 43 U.S.C. 416 (1970), it is ordered as follows:

1. The departmental orders of December 22, 1949, October 15, 1951, and July 11, 1955, withdrawing lands for reclamation purposes in connection with the Missouri River Basin Project, are hereby revoked so far as they affect the following described lands:

SIXTH PRINCIPAL MERIDIAN

T. 31 N., R. 7 W.,
sec. 4, lot 1.

T. 32 N., R. 8 W.,
sec. 17, lot 3.

T. 32 N., R. 10 W.,
sec. 1, lot 4.

T. 34 N., R. 27 W.,
sec. 27, lots 5, 7, 8;
sec. 33, lot 3;
sec. 34, lots 1 to 5, incl.

T. 32 N., R. 31 W.,
sec. 1, lots 1 and 2.

T. 33 N., R. 29 W.,
sec. 28, NE¼NE¼;
sec. 31, lots 2 and 3.

T. 33 N., R. 30 W.,
sec. 31, SW¼SE¼.

T. 33 N., R. 32 W.,
sec. 31, lot 1.

T. 33 N., R. 37 W.,
sec. 13, SE¼NW¼.

T. 24 N., R. 32 W.,
sec. 6, lot 11;
sec. 7, lot 1;
sec. 13, lot 7.

T. 21 N., R. 22 W.,
sec. 23, lot 5.

The areas described aggregate 635.40 acres in Knox, Boyd, Cherry, Hooker, and Blaine Counties.

2. Of these lands, about 272.65 acres described as lots 5, 7, and 8, sec. 27, lot 3, sec. 33, and lots 1 to 5, incl., sec. 34, T. 34 N., R. 27 W., remain withdrawn for the Niobrara National Wildlife Refuge as

V38-2 JAN 4 73 XUM

enlarged by Executive Order No. 3256 of March 31, 1920.

3. The lands described as lot 1, sec. 4, T. 31 N., R. 7 W., lot 3, sec. 17, T. 32 N., R. 8 W., lot 4, sec. 1, T. 32 N., R. 10 W., lots 1 and 2, sec. 1, T. 32 N., R. 31 W., and the SW¼SE¼, sec. 31, T. 33 N., R. 30 W., containing 132.90 acres, are hereby classified as suitable for lease or sale under the provisions of the Recreation and Public Purposes Act of June 14, 1926, as amended 43 U.S.C. §§ 869–869–4 (1970), pursuant to an application filed by the Nebraska Game and Parks Commission. These lands, therefore, will not be subject to other use or disposition under the public land laws in the absence of a modification or revocation of such classification (43 CFR 2440.4).

4. At 10 a.m. on January 26, 1973, the remaining unappropriated, unreserved 229.85 acres of public lands described above, shall be open to operation of the public land laws generally, including the U.S. mining laws, subject to valid existing rights, the provisions of existing withdrawals, classifications, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on January 26, 1973, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing. These lands have been and continue to be open to the filing of applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the Chief, Division of Technical Services, Bureau of Land Management, Cheyenne, Wyo.

HARRISON LOESCH,
Assistant Secretary of the Interior.

Withdrawal and Reservation of Lands for Luke-Williams Air Force Range Extended

By virtue of the authority contained in section 1 of the Act of August 24, 1962, 76 Stat. 399 (hereinafter referred to as the Act), and at the option of the Secretary of Defense, as provided in the Act, notice is hereby given that the withdrawal and reservation of lands for the Luke-Williams Air Force Range, as particularly described in the Act, were extended until August 24, 1977, subject to all of the terms, conditions, and limitations contained in the Act.

The withdrawal and reservation of the lands involved may be terminated prior to August 24, 1977, upon notice to the Secretary of the Interior by the Secretary of Defense. If all or part of the lands are needed for military purposes after the termination date of August 24, 1977, the Secretary of the appropriate military department may make application therefor under the applicable laws and regulations then in force.

HARRISON LOESCH,
Assistant Secretary of the Interior.

Title 45—PUBLIC WELFARE

Chapter X—Office of Economic Opportunity

PART 1060—GENERAL CHARACTERISTICS OF COMMUNITY ACTION PROGRAMS

Subpart 1060.4—Resolving Complaints of Discrimination in Employment, Program Participation and Benefits Against OEO Grantees (OEO Instruction 6004–4)

Part 1060 of Chapter X of Title 45 of the Code of Federal Regulations is revised by adding a new Subpart 1060.4 reading as follows:

Sec.
1060.4–1 Applicability of this subpart.
1060.4–2 Policy.
1060.4–3 Effective date.
1060.4–4 Responsibilities.
1060.4–5 Pre-complaint procedure.
1060.4–6 Formal complaint procedure.
1060.4–7 Implementation of OEO procedures.

AUTHORITY: The provisions of this Subpart 1060.4 issued under sec. 602(n), 78 Stat. 530; 42 U.S.C. 2942.

§ 1060.4–1 Applicability of this subpart.

(a) This subpart applies to all grantees, and the delegate agencies of all grantees receiving financial assistance under Titles II, III–B, and VII of the Economic Opportunity Act of 1964, as amended, if the assistance is administered by the Office of Economic Opportunity.

(b) Hereinafter the words "grantee" and "recipient" are used interchangeably to include both grantees and delegate agencies.

(c) To the extent that these instructions do not conflict with other Federal agency's regulations on the subject, they shall apply to all programs sponsored by grantees.

§ 1060.4–2 Policy.

It is the policy of OEO that no person shall be discriminated against in employment because of race, color, religion, sex, national origin, age, or political affiliation or belief, or in any way excluded from participation in or be denied the benefits in connection with any program of activity receiving OEO funds.

§ 1060.4–3 Effective date.

This subpart is officially effective February 1, 1973, but grantees are urged to comply at the earliest possible date.

§ 1060.4–4 Responsibilities.

(a) All grantees shall have at least one Equal Opportunity Officer (EOO). Grantees with 50 full-time employees or more should have an EOO with full-time responsibility for the Equal Opportunity Program within the agency. Grantees with less than 50 full-time employees should have an EOO who spends an adequate amount of his/her time on the agency's Equal Opportunity Program. OEO may request removal of an EO Officer who fails to carry out the mission of the EEO program. The EOO shall undergo training as prescribed by the Office of Human Rights. All expenses incurred by such training shall be borne by the grantee. Grantees shall display, in a prominent place, posters which summarize the functions of the EOO and explain the procedures for filing complaints either through the EOO or filing complaints directly to OEO. The EOO shall be granted the authority to carry out the following activities:

(1) To receive and attempt to resolve equal opportunity complaints on an informal basis.

(2) To provide aggrieved persons with information and advice on equal opportunity procedures including local, State, and Federal redress procedures, including notification of the filing deadlines for EEOC complaints. The EOO shall also inform the complainant of the right to sue in court.

(3) To take any other steps which may assist in the resolution of the problem, prior to filing a formal complaint.

(4) To assist in preparing a formal complaint to OEO of alleged discrimination based on race, color, religion, sex, national origin or age, political affiliation or belief.

(5) Nothing contained herein shall be construed to deny a complainant the right to make a direct complaint to OEO.

(b) In connection with the responsibilities listed in paragraph (a) of this section:

(1) The aggrieved person and the EOO shall be free from restraint, interference, coercion, discrimination, or reprisal in connection with the program or grievance. The EOO shall not reveal the identity of an aggrieved person who has come to him for consultation, except when authorized to do so by the aggrieved person.

(2) The EOO shall make every effort to resolve the problem informally. To this end, the EOO shall, if requested by the complainant, assist in discussion with the supervisor or any other party to the problem and may take other steps which may assist in the resolution of the problem.

(3) The aggrieved person has the right to be accompanied, represented, and advised by a representative or attorney of his own choice. If the aggrieved person and/or his representative is an employee of the agency, he shall be given a reasonable number of working hours to prepare and present his request for a solution of the problem. These procedures should be included in the grantee's personnel policies.

(4) The EEO shall be given access within the agency to information necessary to provide the aggrieved person with a basis for determining whether there are grounds for filing either a formal civil rights complaint or a personnel grievance. The complaint may not be withdrawn without the consent of the EOO.

(5) The EOO of the recipient shall have 20 working days to resolve the problem before filing a formal complaint.

(6) The EOO shall be responsible for the development and implementation of the agency's affirmative action plan.

(c) Each recipient is responsible for reviewing on a systematic basis the manner in which the program activities are planned and conducted in light of applicable equal opportunity requirements.

(d) The appropriate Assistant, Associate, or Regional Director is responsible for the following:

(1) Monitoring equal opportunity practices on the part of any organization receiving financial assistance through his office;

(2) Attempting, by informal methods of conference, conciliation, and persuasion to resolve any individual complaint and to obtain specific assurances regarding the elimination or avoidance of any unlawful practice;

(3) Initiating action to deny applications for refunding or to suspend or terminate financial assistance in appropriate cases.

(e) The OEO Associate Director for Human Rights is responsible for:

(1) Initiating and coordinating OEO investigations of allegations of discriminatory practices;

(2) Determining whether or not probable cause exists to believe that an unlawful discriminatory practice has occurred;

(3) Making recommendations with respect to the suspension or termination of financial assistance and to the refusal of an application for refunding in appropriate cases.

§ 1060.4–5 Pre-complaint procedure.

(a) *Submission of equal opportunity problems.* Any person who believes he has encountered discrimination because of race, color, religion, sex, national origin, or age should first discuss the problem with the EOO of the grantee or delegate agency. Problems may be submitted by any person or by any group or representative with the approval of the aggrieved person.

(b) *Reports on precomplaint efforts.* When the Equal Opportunity Officer has completed his attempts to resolve the problem he shall prepare a report of his efforts, setting out a summary of the problem, his investigation, his disposition of the problem and the basis for that disposition. He shall file a copy of this report with the OEO Associate Director for Human Rights in Washington or with the Human Rights Chief at the appropriate OEO Regional office. This report shall be forwarded in every case regardless of whether a formal complaint is filed.

§ 1060.4–6 Formal complaint procedure.

(a) *Submission of formal complaint.* (1) A formal signed written complaint shall be addressed to the OEO Associate Director for Human Rights and may be filed with OEO Headquarters in Washington, D.C., or any of its field offices with the Human Rights Chief (OEO Form 265 may be used for this purpose). The formal complaint should contain the following elements of information:

(i) An identification of the organization receiving funds by name and address.

(ii) Specification of the nature of the discriminatory practice (i.e., race, color, religion, sex, national origin, or age).

(iii) Dates or time period within which the discriminatory practice is alleged to have occurred.

(iv) Identification of any Federal, State or local fair employment practices commission to which the practice has been reported (if the charge concerns a discriminatory employment practice).

(2) The OEO Associate Director for Human Rights will notify the complainant in writing of receipt of the complaint, and if the complaint involves employment discrimination, that in order to assure protection of his individual rights under the Federal equal employment opportunity law, title VII of the Civil Rights Act of 1964, he must also file a complaint with the Equal Employment Opportunity Commission, and that he may file a complaint with any State or local agency or commission which may have power to act on charges of discrimination in employment based on race, color, religion, sex or national origin, or that he may file suit directly under 42 U.S.C. 1981 or 1983 in cases of racial discrimination. He shall also advise the complainant that he is taking one or more of the following actions:

(i) Requesting a report from the recipient which is charged with discrimination, and indicating the maximum amount of time allowed for response.

(ii) Forwarding the complaint to the head of the OEO office through which the recipient receives OEO financial assistance for coordination and action.

(iii) Requesting or initiating an OEO investigation of the complaint.

(iv) Rejecting the complaint, stating the reason why the complaint cannot be processed.

(b) *Complaints presented to State or local commissions or to the Equal Employment Opportunity Commission.* When a complainant has also filed a complaint with the Equal Employment Opportunity Commission or with a State or local commission having jurisdiction over the matter, the OEO Associate Director for Human Rights shall communicate with the responsible official of the compliance agency which has received the complaint and shall arrange to handle the complaint in such a way as to avoid duplication and to secure the most effective action to resolve the problem. It shall be the general practice of OEO to await the report of the compliance agency, unless there appears to be a compelling reason for earlier action.

(c) *Investigation of complaints.* (1) All formal complaints shall be forwarded to the Associate Director for Human Rights, whether they are originally filed in headquarters or in a regional office. He will arrange for the full investigation of each formal complaint except where:

(i) He determines on the basis of all reports that the complaint is frivolous.

(ii) He determines on the basis of all reports that the recipient has corrected the alleged discriminatory practice.

(iii) He determines that the charge is being investigated by an appropriate authority which will furnish the results to the Office of Economic Opportunity.

(2) Each investigator will be provided with written authorization to investigate all aspects of complaints of discrimination. Directors of grantee agencies will require all employees to cooperate with the investigators and to have all employees having any knowledge of the matter available for interview.

(3) The investigator shall forward the report of investigation to the Associate Director for Human Rights within two (2) weeks after completion of the investigation.

(d) *Findings and recommendations of the Associate Director for Human Rights.* The OEO Associate Director for Human Rights will review the report of investigation and will determine whether or not there is probable cause to credit the allegation of discrimination. He will forward the decision to the appropriate assistant, associate, or regional director, who shall have the responsibility for its implementation and notification to the respondent and complainant. If the assistant, associate, or regional director does not concur in the decision, he and the Associate Director for Human Rights will prepare summaries for the basis of their conclusions to the Deputy Director of OEO, who will review the summaries and case file for a final determination. If the settlement is satisfactory to the complainant and the respondent, it shall be incorporated into a conciliation agreement, signed by the parties and made part of the case file.

§ 1060.4–7 Implementation of OEO procedures.

(a) *Decision in favor of the respondent.* Where the investigation discloses that a valid claim of discrimination has not been established, the complaint will be dismissed. To the extent practicable, the complainant will be advised of any other administrative office or judicial forum which might accept the complaint without regard to the results of the OEO investigation.

(b) *Procedure to remedy discriminatory practices.* (1) Whenever it is determined that there is probable cause to believe that an unlawful discriminatory practice has occurred the Associate Director for Human Rights, with notice to the head of the responsible OEO office (Assistant Director, Associate Director, or Regional Director), shall inform the recipient of the fact of the determination and will recommend to the recipient(s) any appropriate remedial action. The recipient shall have 30 days to respond.

(2) The Associate Director for Human Rights, in conjunction with the head of the responsible OEO office will also attempt by informal methods of conference, conciliation, and persuasion, to

V 38 I 2 JAN 4 73 XUM

achieve a just resolution of the complaint and to obtain assurances that the recipient will eliminate the unlawful practice and will take appropriate affirmative action to insure that such practices do not recur.

(3) If the recipient fails or refuses to confer with the Associate Director for Human Rights, or to adopt the recommended remedial action, within a reasonable time, and ordinarily no longer than 60 days from the commencement of such efforts, OEO efforts to conciliate the dispute will be terminated. In addition,

(i) If the investigation resulted in proof that the recipient committed an unlawful discriminatory practice, the responsible OEO official will initiate action to suspend or terminate financial assistance, or to refuse an application for refunding, as the case may be, or to refer the matter to the Department of Justice for appropriate action, under appropriate regulations.

(ii) If the results of the investigation do not warrant any of the actions described in the immediately preceding subparagraph, the complainant(s) will be advised of any administrative office or judicial forum which has jurisdiction over the complaint; and will be requested to inform the head of the responsible OEO office of the results.

(4) No OEO funding action including extensions, modification, and applications for spending, will be approved for a recipient who is the subject of a complaint, investigation, or request for remedial action, except as follows:

(i) For regionally funded actions, by a regional director with the concurrence of both the OEO Assistant Director for Operations and the OEO Associate Director for Human Rights.

(ii) For headquarters funded actions, by an OEO Assistant or Associate Director with the concurrence of the OEO Associate Director for Human Rights.

WESLEY L. HJORNEVIK,
Deputy Director.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 72-1178]

RE-REGULATION OF RADIO AND TELEVISION BROADCASTING

Miscellaneous Amendments to Chapter

1. By order adopted November 1, 1972 (FCC 72-967), the Commission amended certain rules which, as a result of its study looking toward re-regulation of radio and television broadcasting, were considered no longer necessary in their existing form.

2. Our continuing re-regulation study indicates that further such amendments are in order.

3. The amendments herein eliminate a number of station reporting, recordkeeping and operating requirements. Individually, they may be minor but, collectively, they become unnecessarily burdensome on the licensee and, in many cases, on the Commission.

4. We believe that the amendments will contribute to the more orderly dispatch of business by the Commission and its licensees in meeting their responsibilities for serving the public interest.

5. The following changes will be made in our rules and regulations:

(a) The requirements that an auxiliary transmitter must be tested at least once a week, and at specified hours, are eliminated. If the licensee determines that testing is necessary, it can be done any time (§§ 73.63(d); 73.255(d); 73.555(d); 73.638(d)).

(1) It is sufficient to specify, as the existing rule does, that the auxiliary transmitter may be used only if it is in proper operating condition and adjusted to the licensed frequency. How often any testing is deemed necessary for an auxiliary transmitter—and the time of day it is done—can be left to the licensee's judgment. Present limitations on test hours are inconsistent for the various broadcast services, and, in the case of AM and FM services, are unnecessarily restrictive.

(b) Provision is made that an auxiliary transmitter licensed for lower power than the regular transmitter can be operated in excess of the auxiliary's licensed power (but at not more than 105 percent of the regular transmitter's licensed power). (§§ 73.63(g); 73.255(f); 73.555(f).)

(1) The licensed power of many auxiliary transmitters is less than the licensed power of the regular transmitter. In such case, there is no adverse effect from operation of the auxiliary with power in excess of its licensed power, as long as required performance specifications are met and power does not exceed that which is allowed for the regular transmitter.

(c) The 5-day restriction on use of an FM or TV auxiliary transmitter without further authority of the Commission is deleted. (§§ 73.255(c)(2); 73.555(c)(2); 73.638(c)(2).)

(1) The corresponding rule applicable to AM stations does not include the 5-day restriction. No problems have arisen. Accordingly, we are conforming the FM and TV rules to the AM rule. This will eliminate a source of filings which we have found unnecessary in comparable situations.

(d) The provision for entry in the maintenance log of auxiliary transmitter tests is revised to reflect that such tests are no longer required but, if made voluntarily, must be entered. (§§ 73.114(a)(1)(ii); 73.284(a)(1); 73.584(a)(1); 73.672(a)(1).)

(1) The amendment is editorial to conform to new §§ 73.63(d); 73.255(d); 73.555(d); 73.638(d).

(e) Restriction on an FM auxiliary transmitter not exceeding the power rating or operating range of the main transmitter is deleted (§ 73.321), to conform to the new provision in § 73.255(f).

(f) Under the existing rules, a permittee or licensee can operate for a period of not more than 10 days without further authority of the Commission when, due to causes beyond his control, he cannot meet the requirements of our rules with respect to maintaining minimum operating power (§§ 73.52(a); 73.267(c); 73.567(c); 73.689(b)(3)) or minimum hours of operation (§§ 73.71(b); 73.261(b); 73.651(a)(3)), but must notify the Commission and the engineer in charge immediately. Those rules are revised to eliminate the present notification and to spell out the procedure for obtaining further authority of the Commission, e.g., a written request, no later than the 10th day, for such additional time as may be deemed necessary.

(1) Commission practice in handling such notifications has been to place them in a tickler file until expiration of the 10 day grace period, after which appropriate action is taken. In light of that procedure, the ultimate result will be unaltered if we permit the station to operate without the notification but request, on the last day of the grace period, permission for such additional time as may be deemed necessary. The Commission will be relieved of the man hours required for maintenance of such a file, and both the Commission and the licensees will be relieved of unnecessary paperwork generated by problems remedied in less than 10 days.

(h) Clarification is made of the provisions in the AM and FM rules that an operator on duty must have ready access to, and visibility of, the transmitter, required monitors and other metering equipment—or the remote control instruments. The words "clearly visible" are deleted. They have been construed by some as limiting the instruments to a position directly in front of the operator. The rule is now written to provide that they must be readily accessible and so located that deviations from normal indications of the instruments can be observed within a 360° arc. (§§ 73.93(a); 73.265(a); 73.565(a).)

(1) Both the Commission's staff and licensees have experienced difficulty with this rule as it applies to AM and FM operations. A problem has been the interpretation given to the term "clearly visible." In the past, the Commission has held to a very narrow interpretation, and enforcement of the rule has produced unsatisfactory results. To remedy this situation, a more liberal interpretation was recently implemented. The substance of that interpretation is being incorporated into the revised language of the rule. (The nature of TV operation is such that no problems have arisen. The TV rule is not being changed.)

(i) Notifications to the FCC engineer in charge of the radio district in which the station is located are no longer required in the following cases: Defective modulation monitor (§§ 73.56(b)(2); 73.253(b)(2); 73.553(b)(2); 73.691(b)(2)); defective indicating instruments (§§ 73.58(b)(2); 73.258(b)(2); 73.558(b)(2); 73.688(f)(2)); defective frequency monitor (§§ 73.60(b)(2); 73.252(b)(2); 73.552(b)(2)); maintaining minimum operating schedule (§§ 73.71(b); 73.261(b); 73.651(a)(3)); maintaining minimum operating power (§§ 73.52(a); 73.267(c); 73.567(c); 73.689(b)(3)); departure from regular schedule of sharetime operation (§ 73.77); beginning of stereophonic broadcasting (§§ 73.297(a); 73.596(a)); transmission of point-to-point messages during emergency operation (§§ 73.98(f); 73.298(e); 73.597(e); 73.675(e)).

(1) In the above cases of defective equipment, notifications to the engineer in charge when the defect is found and when the equipment is restored to service are no longer necessary, and so serve no useful purpose. Other provisions of the rules limit operation without such equipment to 60 days without further authority from the Commission.

The other notifications above are made also to the Commission, and duplicate notifications to the engineer in charge are unnecessary.

(j) Specifications concerning temperature variations at the crystals used in transmitters are deleted as unnecessary. (§ 73.40(a)(9)(i)(ii)(iii).

(1) Paragraph (a)(9) requires automatic frequency control equipment. With that requirement, it makes no difference whether the frequency is maintained by temperature cotrol or other means. The means generally for maintaining frequency stability are best left to the industry and current technology.

(k) The requirement that an accurate circuit diagram, as furnished by the manufacturer of the equipment, be retained at the transmitter is eliminated. (§§ 73.317(e); 73.687(h).)

(1) Availability of such circuit diagram at the transmitter serves no Commission purpose.

(l) Equipment performance measurement data may be kept on file at the remote control point or at the transmitter. Additionally, the person signing the required material must also date it. (§§ 73.47(b); 73.254(c).)

(1) The Commission's interest is served if the data to be kept on file are readily available when a Commission engineer is conducting an inspection of the station. Including the remote control point as a permissible location at which to keep the data will not impede the inspection and will accommodate licensees, many of whom have requested this change. Measurement data should be dated in order to demonstrate compliance with the time periods specified elsewhere in these sections; and, accordingly, the pertinent paragraphs are corrected to conform them to the requirements of these sections. (§§ 73.47; 73.254.)

(m) The requirement that a licensee maintain a supply of spare tower lamps is eliminated. (§ 17.52.)

(1) The Commission's fundamental concern is that faulty tower lights be replaced as soon as practicable. This is clearly spelled out in § 17.56. We leave to the licensee's judgment the practice he will follow to comply with § 17.56.

(n) The requirement for an entry in the operating log of each interruption of the carrier wave, where restoration is not automatic, its cause and duration, followed by the signature of the person restoring operation, is eliminated. (§§ 73.113(a)(2); 73.283(a)(2); 73.583(a)(2); 73.671(a)(2).)

(1) The information serves no useful purpose. Strict compliance is unduly burdensome. Interruptions of significant duration are covered elsewhere in the rules.

(o) Signed copies of contracts with part-time, first class radiotelephone operators need no longer be filed with the engineer in charge of the radio district where the station is located. (§§ 73.93(c); 73.265(c); 73.565(c).)

(1) The copies serve no purpose that cannot be satisfied by a Commission request to inspect the contract. The rule presently requires that such contracts be kept in the files of the station and made available for inspection upon request by an authorized representative of the Commission.

(p) The requirement for entry of transmission-line meter readings in the operating logs of FM and TV stations is clarified by making an exception when power is being determined by the indirect method (which is entered under another provision). (§§ 73.283(a)(3)(ii); 73.583(a)(3)(ii); 73.671(a)(3)(ii).)

(1) This is merely a clarification.

(q) The present rules require that one-hop aural STL's, aural intercity relays and TV STL's must be attended. Those rules are being revised to permit unattended operation, as the present rules provide for in the case of intermediate stations in multihop circuits in the aural services and in TV intercity relay stations, TV translator relay stations and multihop TV STL circuits. Observations at the receiving end of the circuit will still be required. (§§ 74.533(b); 74.635(a).)

(1) As presently drawn, the rules present something of an anomaly. They allow unattended operation of intermediate stations in multihop configurations in the aural services and for TV intercity relay stations, TV translator relay stations and multihop TV STL stations, but do not provide for unattended operation in certain single-hop situations. Faced with the anomaly, the Commission has found it appropriate in several instances to waive the requirement that transmitters in single-hop situations be attended. In certain other provisions of this section, specific language for corresponding aural and TV rules differ, but Commission policy and practice has been to give the language the same meaning. Revisions are being made therein to conform the aural and TV provisions and reflect existing Commission policy and practice in this matter.

6. Amendments hereby adopted remove requirements which, for the reasons stated above, we consider no longer necessary. They also make editorial revisions and conform language of certain rule provisions to established Commission policy and practice. We conclude that adoption of the amendments will serve the public interest. Therefore, prior notice of rule making and public procedure thereon are unnecessary, pursuant to the Administrative Procedure and Judicial Review provisions of 5 U.S.C. 553(b)(3)(B).

7. *Therefore, it is ordered,* That, pursuant to sections 4(i) and 303 (j) and (r) of the Communications Act of 1934, as amended, Parts 17, 73, and 74 of the Commission's rules and regulations are amended as set forth below, effective April 4, 1973.

(Secs. 4, 303, 48 Stat. as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: December 20, 1972.

Released: December 29, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

PART 17—CONSTRUCTION, MARKING, AND LIGHTING OF ANTENNA STRUCTURES

§ 17.52 [Deleted]

1. Section 17.52, *Spare Lamps,* is deleted and that section number is designated as [Reserved].

PART 73—RADIO BROADCAST SERVICES

2. Section 73.40(a)(9) is amended by deleting subdivisions (i), (ii), (iii), thereunder, and, as amended, reads as follows:

§ 73.40 Transmitter; design, construction, and safety of life requirements.

(a) • • •

(9) The transmitter is equipped with automatic frequency control equipment capable of maintaining the operating frequency within the limit specified by § 73.59.

• • • • • •

3. Section 73.47(b) is amended to read as follows:

§ 73.47 Equipment performance measurements.

• • • • • •

(b) The data required by paragraph (a) of this section, together with a description of instruments and procedure, signed and dated by the qualified person making the measurements, shall be kept on file at the transmitter or remote control point for a period of 2 years, and on request shall be made available during that time to any duly authorized repre-

[1] Statement of Commissioner Wiley filed as part of the original document.

V 38-2 JAN 4 73 XUM

sentative of the Federal Communications Commission.

4. Section 73.52(a) is amended to read as follows:

§ 73.52 Antenna input power; maintenance of.

(a) The actual antenna input power of each station shall be maintained as near as is practicable to the authorized antenna input power and shall not be less than 90 percent nor greater than 105 percent of the authorized power; except that, if, in an emergency, it becomes technically impossible to operate with the authorized power, the station may be operated with reduced power for a period of 10 days, or less, without further authority from the Commission. If causes beyond the control of the permittee or licensee prevent restoration of authorized power within the allowed period, informal written request shall be made to the Commission in Washington, D.C., no later than the 10th day for such additional time as may be deemed necessary.

* * * * *

5. Section 73.56(b) is amended by deleting subparagraph (2) and re-numbering subparagraph (3) as subparagraph (2). As amended, § 73.56(b) reads as follows:

§ 73.56 Modulation monitors.

* * * * *

(b) In the event that the modulation monitor becomes defective, the station may be operated without the monitor pending its repair or replacement for a period not in excess of 60 days without further authority of the Commission: *Provided,* That:

(1) Appropriate entries shall be made in the maintenance log of the station showing the date and time the monitor was removed and restored to service.

(2) The degree of modulation of the station shall be monitored with a cathode ray oscilloscope or other acceptable means.

* * * * *

§ 73.58 [Amended]

6. Section 73.58(b)(2) is amended by deleting the requirement for notification to the engineer in charge and reserving the subparagraph number.

§ 73.60 [Amended]

7. Section 73.60(b)(2) is amended by deleting the requirement for notification to the engineer in charge and reserving the sbparagraph number.

8. Section 73.63 is amended by revising paragraphs (d) and (g) to read as follows:

§ 73.63 Auxiliary transmitter.

* * * * *

(d) The auxiliary transmitter may be used only if it is in proper operating condition and adjusted to the licensed frequency. If testing is necessary to assure proper operation, it may be done any time. A dummy load or any authorized antenna may be used. Notations as to the time and results of such testing must be made in the maintenance log.

* * * * *

(g) The authorized antenna input power of an auxiliary transmitter may be less, but not more, than that of the regular transmitter. If it is less, the actual operating power is not limited to 105 percent of the authorized antenna input power of the auxiliary transmitter but shall in no event exceed the authorized antenna input power of the regular transmitter.

* * * * *

9. Section 73.71(b) is amended to read as follows:

OPERATION

§ 73.71 Minimum operation schedule.

* * * * *

(b) In the event that causes beyond the control of a permittee or licensee make it impossible to adhere to the operating schedule in paragraph (a) of this section or to continue operating, the station may limit or discontinue operation for a period of not more than 10 days, without further authority of the Commission. If causes beyond the control of the permittee or licensee make it impossible to comply within the allowed period, informal written request shall be made to the Commission in Washington, D.C., no later than the 10th day for such additional time as may be deemed necessary.

* * * * *

10. Section 73.77 is amended to read as follows:

§ 73.77 Sharing time; departure from regular schedule.

A departure from the regular schedule set forth in a time-sharing agreement will be permitted only in cases where an agreement to that effect is reduced to writing, is signed by the licensees of the stations affected thereby and filed in triplicate by each licensee with the Commission prior to the time of the proposed change. If time is of the essence, the actual departure in operating schedule may precede the actual filing of written agreement, provided appropriate notice is sent to the Commission in Washington, D.C.

11. In § 73.93, paragraphs (a) and (c) are amended to read as follows:

§ 73.93 Operator requirements.

(a) One or more operators holding a radio operator license or permit of a grade specified in this section shall be in actual charge of the transmitting system, and shall be on duty either at the transmitter location or at the remote control point. If operation by remote control has not been authorized, the transmitter, required monitors and other required metering equipment shall be readily accessible, and located sufficiently close to the operator at the normal operating position that deviations from normal indications of required instruments can be observed within a 360° arc from that position. If operation by remote control is authorized, the required controls and instruments shall be readily accessible, and located sufficiently close to the operator at the normal operating position that deviations from normal indications of required metering instruments can be observed in a 360° arc from that position.

* * * * *

(c) A station using a nondirectional antenna and with authorized power of 10 kilowatts or less shall have at least one first-class radio-telephone operator, readily available at all times, either in full-time employment, or, in the alternative, the licensee may contract in writing for the services on a part-time basis of one or more such operators. Signed contracts with part-time operators shall be kept in the files of the station and shall be made available for inspection upon request by an authorized representative of the Commission.

* * * * *

12. Section 73.98(f) is amended to read as follows:

§ 73.98 Operation during emergency.

* * * * *

(f) Immediately upon cessation of an emergency during which broadcast facilities were used for the transmission of point-to-point messages under paragraph (a) of this section, or when daytime facilities were used during nighttime hours in accordance with paragraph (d) of this section, a report in letter form shall be forwarded to the Commission, in Washington, D.C., setting forth the nature of the emergency, the dates and hours of emergency operation, and a brief description of the material carried during the emergency period. A certification of compliance with the noncommercialization provision of paragraph (d) of this section must accompany the report where daytime facilities are used during nighttime hours, together with a detailed showing concerning the alternate service provisions of that paragraph.

* * * * *

§ 73.113 [Amended]

13. Section 73.113(a)(2) is amended by deleting the provisions therein and reserving the subparagraph number.

14. Section 73.114(a)(1)(ii) is amended to read as follows:

§ 73.114 Maintenance log.

(a) * * *

(1) * * *

(ii) Time and result of any auxiliary transmitter test(s).

* * * * *

§ 73.252 [Amended]

15. Section 73.252(b)(2) is amended by deleting the requirement for notification to the engineer in charge and reserving the paragraph number.

16. Section 73.253(b) is amended by deleting subparagraph (2) and renumbering subparagraph (3) as subparagraph (2). As amended, § 73.253(b) reads as follows:

§ 73.253 Modulation monitors.

* * * * *

(b) In the event that the modulation monitor becomes defective, the station may be operated without the monitor pending its repair or replacement for a period not in excess of 60 days without further authority of the Commission: *Provided,* That:

(1) Appropriate entries shall be made in the maintenance log of the station showing the date and time the monitor was removed and restored to service.

(2) During the period when the station is operated without the modulation monitor, the licensee shall provide other suitable means for insuring that the modulation is maintained within the tolerance prescribed in § 73.268.

* * * * *

17. Section 73.254(c) is amended to read as follows:

§ 73.254 Required transmitter performance.

* * * * *

(c) The data required by paragraph (b) of this section, together with a description of instruments and procedure, signed and dated by the qualified person making the measurements, shall be kept on file at the transmitter or remote control point for a period of 2 years, and on request shall be made available during that time to any duly authorized representative of the Federal Communications Commission.

18. Section 73.255(c)(2), (d) and (f) are amended to read as follows:

§ 73.255 Auxiliary transmitter.

* * * * *

(c) * * *

(2) The transmission of regular programs during maintenance or modification work on the main transmitter, necessitating discontinuance of its operation.

* * * * *

(d) The auxiliary transmitter may be used only if it is in proper operating condition and adjusted to the licensed frequency. If testing is necessary to assure proper operation, it may be done any time. A dummy load or any authorized antenna may be used. Notations as to the time and results of such testing must be made in the maintenance log.

* * * * *

(f) The authorized operating power of an auxiliary transmitter may be less but not more than that of the regular transmitter. If it is less, the actual operating power is not limited to 105 percent of the authorized operating power of the auxiliary transmitter, but shall in no event exceed the authorized operating power of the regular transmitter.

§ 73.258 [Amended]

19. Section 73.258(b)(2) is amended by deleting the requirement for notification to the Engineer in Charge and reserving the subparagraph number.

20. Section 73.261(b) is amended to read as follows:

TECHNICAL OPERATIONS AND OPERATORS

§ 73.261 Time of operation.

* * * * *

(b) In the event that causes beyond the control of a permittee or licensee make it impossible to adhere to the operating schedule in paragraph (a) of this section or to continue operating, the station may limit or discontinue operation for a period of not more than 10 days, without further authority of the Commission. If causes beyond the control of the permittee or licensee make it impossible to comply within the allowed period, informal written request shall be made to the Commission in Washington, D.C. no later than the 10th day for such additional time as may be deemed necessary.

21. In § 73.265, paragraphs (a) and (c) are amended to read as follows:

§ 73.265 Operator requirements.

(a) One or more operators holding a radio operator license or permit of a grade specified in this section shall be in actual charge of the transmitting system, and shall be on duty either at the transmitter location or at the remote control point. If operation by remote control has not been authorized, the transmitter, required monitors and other required metering equipment shall be readily accessible, and located sufficiently close to the operator at the normal operating position that deviations from normal indications of required instruments can be observed within a 360° arc from that potion. If operation by remote control is authorized, the required controls and instruments shall be readily accessible, and located sufficiently close to the operator at the normal operating position that deviations from normal indications of required metering instruments can be observed in a 360° arc from that position.

* * * * *

(c) A station with authorized transmitter output power of 25 kilowatts or less shall have at least one first-class radiotelephone operator readily available at all times, either in full-time employment, or, in the alternative, the licensee may contract in writting for the services on a part-time basis of one or more such operators. Signed contracts with part-time operators shall be kept in the files of the station and shall be made available for inspection upon request by an authorized representative of the Commission.

* * * * *

22. Section 73.267(c) is amended to read as follows:

§ 73.267 Operating power: determination and maintenance of.

* * * * *

(c) *Reduced power.* In the event it becomes technically impossible to operate with authorized power, the station may be operated with reduced power for a period of 10 days or less without further authority of the Commission. If causes beyond the control of the permittee or licensee prevent restoration of authorized power within the allowed period, informal written request shall be made to the Commission in Washington, D.C. no later than the 10th day for such additional time as may be deemed necessary.

* * * * *

23. In § 73.283(a), subparagraph (2) is deleted and designated [Reserved], and paragraph (a)(3)(ii) is amended as follows:

§ 73.283 Operating log.

(a) * * *

(2) [Reserved]

(3) * * *

(ii) RF transmission line meter reading, except when power is being determined by the indirect method.

* * * * *

24. Section 73.284(a)(1) is amended to read as follows:

§ 73.284 Maintenance log.

(a) * * *

(1) Time and result of any auxiliary transmitter test(s).

* * * * *

25. Section 73.297(a) is amended to read as follows:

§ 73.297 Stereophonic broadcasting.

(a) FM broadcast stations may, without further authority, transmit stereophonic programs in accordance with the technical standards set forth in § 73.322: *Provided, however,* That the Commission in Washington, D.C. shall be notified within 10 days of the installation of type-accepted stereophonic transmission equipment or any change therein, and of the commencement of stereophonic programing.

* * * * *

26. Section 73.298(e) is amended to read as follows:

§ 73.298 Operation during emergency.

* * * * *

(e) Immediately upon cessation of an emergency during which broadcast facilities were used for the transmission of point-to-point messages under paragraph (a) of this section, a report in letter form shall be forwarded to the Commission in Washington, D.C., setting forth the nature of the emergency, the dates and hours of emergency operation, and a brief description of the material carried during the emergency period.

* * * * *

§ 73.317 [Amended]

27. Section 73.317(e) is amended by deleting the provisions therein and reserving the paragraph number.

28. Section 73.321 is amended to read as follows:

§ 73.321 Auxiliary transmitters.

Auxiliary transmitters must conform to the performance characteristics specified by § 73.317, except with respect to the provisions of paragraph (a)(2) through (5) thereof.

§ 73.552 [Amended]

29. Section 73.552(b)(2) is amended by deleting the requirement for notifica-

V38-2 JAN 4 73 XUM

tion to the Engineer in Charge and reserving the subparagraph number.

• • • • • •

30. Section 73.553(b) is amended by deleting subparagraph (2) and renumbering subparagraph (3) as subparagraph (2). As amended, § 73.553(b) reads as follows:

§ 73.553 Modulation monitors.

• • • • • •

(b) In the event that the modulation monitor becomes defective, the station may be operated without the monitor pending its repair or replacement for a period not in excess of 60 days without further authority of the Commission: *Provided*, That:

(1) Appropriate entries shall be made in the maintenance log of the station showing the date and time the monitor was removed and restored to service.

(2) During the period when the station is operated without the modulation monitor, the licensee shall provide other suitable means for insuring that the modulation is maintained within the tolerance prescribed in § 73.568.

• • • • • •

31. Section 73.555(c)(2), (d) and (f) are amended to read as follows:

§ 73.555 Auxiliary transmitter.

• • • • • •

(c) • • •

(2) The transmission of regular programs during maintenance or modification work on the main transmitter, necessitating discontinuance of its operation.

• • • • • •

(d) The auxiliary transmitter may be used only if it is in proper operating condition and adjusted to the licensed frequency. If testing is necessary to assure proper operation, it may be done any time. A dummy load or any authorized antenna may be used. Notations as to the time and results of such testing must be made in the maintenance log.

• • • • • •

(f) The licensed power of an auxiliary transmitter may be less, but not more, than that of the regular transmitter. If it is less, the operating power is not limited to 105 percent of its licensed power but shall in no event exceed 105 percent of the licensed power of the regular transmitter.

§ 73.558 [Amended]

32. Section 73.558(b)(2) is amended by deleting the requirement for notification to the Engineer in Charge and reserving the subparagraph number.

33. In § 73.565, paragraphs (a) and (c) are amended to read as follows:

§ 73.565 Operator requirements.

(a) One or more operators holding a radio operator license or permit of a grade specified in this section shall be in actual charge of the transmitting system, and shall be on duty either at the transmitter location or at the remote control point. If operation by remote control has not been authorized, the transmitter, required monitors and other required metering equipment shall be readily accessible, and located sufficiently close to the operator at the normal operating position that deviations from normal indications of required instruments can be observed within a 360° arc from that position. If operation by remote control is authorized, the required controls and instruments shall be readily accessible, and located sufficiently close to the operator at the normal operating position that deviations from normal indications of required metering instruments can be observed in a 360° arc from that position.

• • • • • •

(c) The operators specified in paragraph (b) of this section shall perform transmitter maintenance and shall correct conditions of improper operation beyond the scope of authority of the lesser grade operator on duty. If the services of the operator or the operators indicated in paragraph (b) of this section are on a contract, part-time basis, a signed copy of the contract shall be kept in the files of the station and shall be made available for inspection upon request by an authorized representative of the Commission.

• • • • • •

34. Section 73.567(c) is amended to read as follows:

§ 73.567 Operating power; determination and maintenance of.

• • • • • •

(c) *Reduced power.* If a station licensed for transmitter power output greater than 10 watts finds it impossible to operate with authorized power, the station may operate with reduced power for a period not to exceed 10 days. If causes beyond the control of the permittee or licensee prevent restoration of authorized power within the allowed period, informal written request shall be made to the Commission in Washington, D.C. no later than the 10th day for such additional time as may be deemed necessary.

• • • • • •

35. In § 73.583, paragraph (a)(2) is deleted and designated [Reserved], and subparagraph (3)(ii) is amended to read as follows:

§ 73.583 Operating log.

(a) • • •

(2) [Reserved]

(3) • • •

(ii) RF transmission line meter reading, except when power is being determined by the indirect method.

• • • • • •

36. Section 73.584(a)(1) is amended to read as follows:

§ 73.584 Maintenance log.

(a) • • •

(1) Time and result of any auxiliary transmitter test(s).

• • • • • •

37. Section 73.596(a) is amended to read as follows:

§ 73.596 Stereophonic broadcasting.

(a) Noncommercial educational FM broadcast stations may, without further authority, transmit stereophonic programs in accordance with the technical standards set forth in § 73.322: *Provided, however*, That the Commission, in Washington, D.C., shall be notified within 10 days, of the installation of type-accepted stereophonic transmission equipment or any change therein, and of the commencement of stereophonic programming.

• • • • • •

38. Section 73.597(e) is amended to read as follows:

§ 73.597 Operation during emergency.

• • • • • •

(e) Immediately upon cessation of an emergency during which broadcast facilities were used for the transmission of point-to-point messages under paragraph (a) of this section, a report in letter form shall be forwarded to the Commission in Washington, D.C., setting forth the nature of the emergency, the dates and hours of emergency operation, and a brief description of the material carried during the emergency period.

• • • • • •

39. Section 73.638 (c)(2) and (d) are amended to read as follows:

§ 73.638 Auxiliary transmitter.

• • • • • •

(c) • • •

(2) Transmission of regular programs during maintenance or modification work on the main transmitters, necessitating discontinuance of their operation.

• • • • • •

(d) The auxiliary transmitter may be used only if it is in proper operating condition and adjusted to the licensed frequency. If testing is necessary to assure proper operation, it may be done any time. A dummy load or any authorized antenna may be used. Notations as to the time and results of such testing must be made in the maintenance log.

• • • • • •

40. Section 73.651(a)(3) is amended to read as follows:

GENERAL OPERATING REQUIREMENTS

§ 73.651 Time of operation.

• • • • • •

(a) • • •

(3) In the event that causes beyond the control of a permittee or licensee make it impossible to adhere to the operating schedule in paragraph (a) of this section or to continue operating, the station may limit or discontinue operation for a period of not more than 10 days, without further authority of the Commission. If causes beyond the control of the permittee or licensee make it impossible to comply within the allowed period, informal written request shall be made to the Commission in Washington, D.C., no later than the 10th day for such additional time as may be deemed necessary.

• • • • • •

41. In § 73.671, paragraph (a)(2) is deleted and designated [Reserved], and paragraph (a)(3)(ii) is amended to read as follows:

§ 73.671 Operating log.

(a) • • •

(2) [Reserved]

(3) • • •

(ii) Transmission line meter readings for both transmitter. If power of the aural transmitter is being determined by the indirect method, enter the transmission line meter reading for the visual transmitter only.

• • • • • •

42. Section 73.672(a)(1) is amended to read as follows:

§ 73.672 Maintenance log.

(a) • • •

(1) Time and result of any auxiliary transmitter test(s).

• • • • • •

43. Section 73.675(e) is amended to read as follows:

• • • • • •

(e) Immediately upon cessation of an emergency during which broadcast facilities were used for the transmission of point-to-point messages under paragraph (a) of this section, a report in letter form shall be forwarded to the Commission in Washington, D.C., setting forth the nature of the emergency, the dates and hours of emergency operation, and a brief description of the material carried during the emergency period.

• • • • • •

§ 73.687 [Amended]

44. Section 73.687(h) is amended by deleting the provisions therein and reserving the paragraph number.

§ 73.688 [Amended]

45. Section 73.688(f)(2) is amended by deleting the requirement for notification to the Engineer in Charge and reserving the subparagraph number.

46. Section 73.689(b)(3) is amended to read as follows:

§ 73.689 Operating power.

• • • • • •

(b) • • •

(3) *Reduced power.* In the event it becomes technically impossible to operate with the authorized power, the station may be operated with reduced power for a period of 10 days or less without further authority of the Commission. If causes beyond the control of the permittee or licensee prevent restoration of authorized power within the allowed period, informal written request shall be made to the Commission in Washington, D.C., no later than the 10th day for such additional time as may be deemed necessary.

• • • • • •

47. Section 73.691(b), is amended by deleting subparagraph (2) and renumbering subparagraph (3) as subparagraph (2) and subparagraph (4) as subparagraph (3). As amended, § 73.691(b) reads as follows:

§ 73.691 Modulation monitors.

• • • • • •

(b) In the event the visual monitoring equipment or the aural modulation monitor becomes defective, the station may be operated without such equipment pending its repair or replacement for a period not in excess of 60 days without further authority of the Commission: *Provided*, That:

(1) Appropriate entries shall be made in the maintenance log of the station to show the date and time the equipment was removed from and restored to service.

(2) During the period when the station is operated without the aural modulation monitor or the visual monitoring equipment, the licensee shall provide other suitable means for insuring that the aural modulation is maintained within the tolerance prescribed in § 73.687(b)(7) and that the visual signal is maintained in accordance with the requirements of this subpart.

(3) If conditions beyond the control of the licensee or permittee prevent the restoration of the monitor or monitoring equipment to service within the period specified above, an informal request in accordance with § 1.549 of this chapter may be filed with the Engineer in Charge of the radio district in which the station is located for such additional time as may be required to complete repairs of the defective instrument or equipment.

PART 74—EXPERIMENTAL, AUXILIARY AND SPECIAL BROADCAST, AND OTHER PROGRAM DISTRIBUTIONAL SERVICES

48. Section 74.533(b), (b)(1) and (4) are amended to read as follows:

§ 74.533 Remote control and unattended operation.

• • • • • •

(b) Aural broadcast STL and intercity relay stations may be operated unattended: *Provided*, That such operation is conducted in accordance with the conditions listed below: *And provided further*, That the Commission in Washington, D.C., is notified at least 10 days prior to the beginning of such operation and that such notification is accompanied by a detailed description showing the manner of compliance with the following conditions:

(1) In the case where the station retransmits another station's signals received directly "off-the-air", the transmitter shall be equipped with automatic circuits that will cause it to cease radiating at times when no signal is being received from the station which it is relaying.

• • • • • •

(4) Whenever an unattended aural broadcast STL or intercity relay station is in operation, appropriate observations shall be made at the receiving end of the circuit at intervals not exceeding 1 hour by a person designated by and under the control of the licensee and need not be a licensed operator under Part 13 (Commercial Radio Operators) of our rules.

• • • • • •

49. Section 74.635(a) and (a)(1) are amended to read as follows:

§ 74.635 Unattended operation.

(a) Television intercity relay stations, television translator relay stations, and television STL stations may be operated unattended: *Provided*, That such operation is conducted in accordance with the conditions listed below: *And provided further*, That the Commission, in Washington, D.C., is notified at least 10 days prior to the beginning of such operation and that such notification is accompanied by a detailed description showing the manner of compliance with the following conditions:

(1) In the case where the station retransmits another station's signals received directly "off-the-air", the transmitter shall be equipped with automatic circuits that will cause it to cease radiating at times when no signal is being received from the station which it is relaying.

• • • • • •

[FR Doc.73-59 Filed 1-3-73;8:45 am]

Title 49—TRANSPORTATION

Chapter V—National Highway Traffic Safety Administration, Department of Transportation

[Docket No. 69-18; Notice 14]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Lamps, Reflective Devices, and Associated Equipment

This notice amends 49 CFR 571.108, Motor Vehicle Safety Standard No. 108, to delete the requirements of the warpage tests for plastic lenses used on lamps.

The NHTSA proposed on July 7, 1972 (37 FR 13350), that the lens warpage test be deleted from the motor vehicle lighting standard. The test requirement itself, as contained in an SAE standard incorporated by reference, lacked objectivity, in that it prohibited warpage that would "affect the proper functioning of the device" without further clarification. The lens warpage test did not appear to add significantly to motor vehicle safety.

Comments to the docket were divided, some confirming the NHTSA position on both issues. Others objected, suggesting that the agency seek to establish objective compliance criteria. On review of all data and arguments, the NHTSA finds that a safety problem that would justify the development of such a requirement has not been demonstrated.

In the future, if serious problems of lens warpage arise, they may be dealt

V38-2 JAN 4 73 XUM

with immediately as safety-related defects under section 113 of the National Traffic and Motor Vehicle Safety Act, and steps can be taken to develop and promulgate an objective test.

In consideration of the foregoing, 49 CFR 571.108 is amended as follows:

1. Paragraph S4.1.2 is revised to read:

S4.1.2 Plastic materials used for optical parts such as lenses and reflectors shall conform to SAE recommended practice J576b, August 1966. Plastic materials used as inner lenses or those covered by another material and not exposed directly to sunlight shall meet the requirements of paragraphs 3.4 and 4.2 of SAE J576b when covered by the outer lens or other material.

2. A new paragraph S5.3 is added to read:

S5.3 requirements of SAE standards incorporated by reference in this standard, other than J576b, do not include tests for warpage of devices with plastic lenses.

Effective date: January 1, 1973.

Because this amendment relieves a restriction and creates no additional burden, it is found for good cause shown that an effective date earlier than 180 days after issuance is in the public interest.

(Secs. 103, 119, National Traffic and Motor Vehicle Safety Act of 1966, 15 U.S.C. 1392, 1407; delegation of authority at 49 CFR 1.51)

Issued on December 29, 1972.

JACK L. GOLDBERG,
Acting Administrator.

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Reg. 282]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period January 5–11, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

§ 907.582 Navel Orange Regulation 282.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges is unsettled. Prices f.o.b. the week ended December 28, 1972, average $3.67 per carton on 682 carloads compared to $3.71 on 1,347 carloads the previous week. Track and rolling supplies at 423 cars were up 10 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 2, 1973.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period January 5, 1973, through January 11, 1973, are hereby fixed as follows:

(i) District 1: 640,000 cartons;
(ii) District 2: 120,000 cartons;
(iii) District 3: 40,000 cartons."

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 3, 1973.

PAUL A. NICHOLSON,
Deputy Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-324 Filed 1-3-73;11:48 am]

Title 14—AERONAUTICS AND SPACE

Chapter II—Civil Aeronautics Board

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-787, Amdt. 4]

PART 242—REPORTING RESULTS OF SCHEDULED ALL-CARGO SERVICES

Extension of Part

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 29th day of December 1972.

By circulation of EDR-236 (Docket 24890), dated November 3, 1972, and publication at 37 FR 23732, the Board gave notice that it proposed to amend Part 242 of the Economic Regulations (14 CFR Part 242) to extend for an indefinite period the duration of the part which is presently scheduled to expire by its terms on December 31, 1972.[1] Two comments were filed,[2] both of which support an extension of the part. However, these parties favor an extension of definite duration with the expiration date governed by the final Board decision in the pending "Domestic Air Freight Rate Investigation" (Docket No. 22859).[3] In support of its position, Flying Tiger states that by the time of the completion of the evidentiary hearing in the freight rate investigation, the Board's staff and the carriers should be able to formulate their respective views on the necessary statistical information, to be followed by the Board's institution of a rule making proceeding with final Board decision in such proceeding deferred for resolution either contemporaneously with, or subsequent to, Board decision in the air freight rate investigation.

We shall extend the part for an indefinite period, as proposed. As the notice indicates, the Board is aware that the comprehensive "Domestic Air Freight Rate Investigation" may indicate the need for, and the nature of, further refinements in reporting procedures and methods of allocation of cost between passenger and all-cargo services. At the conclusion of that evidentiary proceeding the Board intends to review the Part 242 requirements to determine, in light of the data developed, and findings and conclusions made therein, what revisions to Part 242 should be proposed. However, in order to allow ourselves greater flexibility in the timing of our issuance of proposed regulatory revisions to Part 242, to be based upon the outcome of the evidentiary proceeding, we believe that it is in the public interest to extend the part for an indefinite period, rather than to provide now for a definite period, with the expiration date thereof to be fixed by the Board's decision in the air freight rate investigation.

Since it is important that there be no hiatus in the term of the part, the Board finds that good cause exists for making this amendment effective on January 1, 1973. Moreover, since the first reporting period under this amendment will cover the 12 months ending on June 30, 1973, and the filing of said report will not be due until August 15, 1973, the Board further finds that no person will be adversely affected by the Board's failure to give 30 days' notice prior to the effective date of this amendment.

Therefore, in consideration of the foregoing, the Board hereby amends Part 242 of its Economic Regulations (14 CFR Part 242), effective January 1, 1973, as set forth below:

Amend § 242.1 by deleting and reserving paragraph (b) as follows:

§ 242.1 Applicability.

• • • • •

(b) [Reserved].

(Secs. 204(a) and 407 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 766; 49 U.S.C. 1324, 1377)

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.73-165 Filed 1-3-73;8:45 am]

[1] 14 CFR 242.1(b).

[2] The Flying Tiger Line Inc. (Flying Tiger) and Trans World Airlines, Inc. (TWA).

[3] Flying Tiger urges an extension of the part until 90 days after Board decision in the freight rate investigation; TWA would have the part terminate 1 year after the completion of such investigation.

[Reg. ER-786, Amdt. 288-15; Dockets Nos. 23553, 23579]

PART 288—EXEMPTION OF AIR CARRIERS FOR MILITARY TRANSPORTATION

Exemption of Air Carriers

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 29th day of December 1972.

On May 31, 1972, by notice of proposed rule making EDR-205A/PSDR-32A (37 FR 11344), the Board proposed to amend Parts 288 and 399 of the Economic Regulations (14 CFR Parts 288 and 399) by establishing new minimum rates applicable to certain foreign and overseas air transportation services performed by air carriers for the military on and after July 1, 1971. The notice also dealt with the request filed by several carriers in Docket No. 23579 for an increase in minimum rates for Categories A and Z transportation and with the proposal of DOD and various carriers to establish separate "Category Y" rates for the carriage of DOD passengers in scheduled service under blocked space arrangements. Written data, views, and arguments, were filed in response to the notice by the Department of Defense (DOD), 18 carriers,[1] and Davis Agency, Inc. and thereafter DOD and 13 carriers[2] filed reply comments. All comments and supporting materials before the Board have been carefully considered, and all contentions not otherwise disposed of herein are rejected. Final amendments to Part 399 are being adopted concurrently herewith.

While the notice proposed increases in some rates and decreases in others, the rates proposed for a normal year were, overall, just slightly above the rates currently in effect.[3] In their comments, most carriers argued for considerably higher increases, contending among other things that inflation has severely affected major elements of cost since the base period and will continue to do so in the future. They variously argue that the passage of time has rendered the base priod data stale; that increases have been experienced in fuel expense, wages, services, and materials; that the devaluation of the dollar has also resulted in increased expense; that the Board's policy of rejecting anticipatory cost increases is unrealistic; that the rates should be modified to reflect cost trends; that the Board should accept either the fiscal year 1972 cost projections of the carriers, as submitted, or their reported costs for that period; and that further rate increases should be made for fiscal 1973 and later years. A number of carriers also took issue with the proposed treatment of leased aircraft, the rate of return, the use of B-747 costs, aircraft utilization, and various technical factors affecting the rates or their application. Other major comments by several carriers concerned the rate relationships for categories of individually ticketed or waybilled services and the effective date and duration of the rates.

DOD provided an analysis of carrier costs which reflected the use of reported costs and operating statistics for the year ended March 31, 1972, for most carriers in some cost areas, but the analysis also variously used the figures from the notice, costs modified for current utilizations and speeds, the figures MAC recommended in its preliminary rate study prior to the issuance of the notice, and certain other bases. DOD employed the MAC recommended figures where it believed the carriers' increases in indirect costs allocated to MAC operations were excessive and out of line with industry averages, and hence not representative of an experienced MAC cost element. DOD also took issue with the rate of return used in the notice and with a number of technical factors and methods used to determine costs and payment. In addition, it raised questions concerning the rate relationships proposed and the effective date of the rates. The net effect of DOD's positions would

[1] Airlift International, Inc.; American Airlines, Inc.; Braniff Airways, Inc.; Eastern Air Lines, Inc.; The Flying Tiger Line, Inc.; Modern Air Transport, Inc.; Northwest Airlines, Inc.; Saturn Airways, Inc.; Seaboard World Airlines, Inc.; Trans International Airlines, Inc.; Overseas National Airways, Inc.; Pan American World Airways, Inc.; Saturn Airways, Inc.; Seaboard World Airlines, Inc.; Trans International Airlines, Inc.; Trans World Airlines, Inc.; United Air Lines, Inc.; and World Airways, Inc., all filed individually. Braniff, Capitol, International Airways, Inc., Continental Air Lines, Inc., ONA, Saturn, TIA, and World filed a joint comment (Braniff et al.), as did Airlift, Southern Air Transport, Inc., and World (Airlift et al.).

[2] American, Braniff, Flying Tiger, Northwest, Pan American, Saturn, Seaboard, TWA, and World, individually, and Braniff et al.

[3] For fiscal year 1972 the proposed rates were estimated to be slightly below the current rates in view of the Board's proposal to hold the rates to the current level during the period August 16, 1971–November 13, 1971 (the freeze period) in conformance with rulings and regulations of the Cost of Living Council and the Price Commission. However, as indicated in ER-747, June 30, 1972, the Cost of Living Council has changed its position on disallowing price increase for services provided during the freeze period, and accordingly the rates we are establishing herein will be made applicable without change during the entire period of their effectiveness, which will include the dates August 16, 1971, through November 13, 1971.

V 38 - 2 JAN 4 73 XUM

be to reduce most rates below the current rate levels.

The rates proposed in the notice were predicated on carrier and DOD forecasts and submissions, screened and adjusted in the light of: (1) Cost data furnished by the carriers for the 12 months ended September 30, 1970 (the base period), (2) other reported data, and (3) those price or wage increases actually experienced subsequent to the base period or to be experienced during fiscal year 1972, as evidenced by existing contracts or similar documentation. In accordance with established practice, the Board refused to recognize in its proposed rate any anticipatory cost increases or any price or wage increases which were not adequately supported. We will adhere to that policy in establishing the final minimum rates for MAC services. The suggestion that the problem of the proper ratemaking approach to general allegations concerning inflation can be solved in the instant proceeding simply by using a more current base period is not well taken. While a considerable period of time has elapsed since the base period used in the notice (in substantial part because the rule making proceeding was complicated by problems associated with the Economic Stabilization Program), there would be no warrant for shifting the base period, since that would require us to embark upon another full scale review and screening of the reported data for the new period. This could only lead to a further extension of the open rate period during which the amount of carrier revenues for these services, as well as the level of MAC's transportation costs, remain in doubt. Reported costs could not, of course, be blindly accepted, and DOD points out deficiencies in reporting or allocation problems which indicate that modification of reported figures would be necessary, but the several cost data sources used by DOD appear to have been rather selectively chosen and reasons supporting the choices and their applications for each carrier have not been explained in sufficient detail to justify differentiations made by DOD among carriers and aircraft types.

For final rate purposes the Board has reviewed the carrier comments, in the light of the DOD responses, and adjusted the costs computed in the notice where sufficient supporting detail was furnished concerning increases in salaries and wages and costs of fuel, materials and supplies which were actually paid during fiscal 1972 or which were covered by contracts applicable to that rate period: *Provided*, That such increases were not inconsistent with Price Stabilization guidelines. Adequate documentation was supplied by nine carriers,[4] and the adjustments to their costs are shown in the appendixes hereto. Although other carriers made representations concerning the general effect of inflation or even particular areas of expense increases which would affect their cost forecasts, none of these statements contained enough information to afford a predicate for a change from the costs recognized in the notice. In particular, none of the carriers furnished sufficient detail to support an adjustment for the impact of devaluation of the dollar on expenses incurred for MAC services.[5]

As stated above, we have continued to eliminate cost increases of an anticipatory nature, such as increases based on historical trends in wages or other expenses, and have allowed only those cost increases which have been definitely substantiated as applying to MAC service. In following this course we are quite aware that the economy has been passing through a period of general inflation and that this undoubtedly has had an impact on airline costs. But we are also aware of our responsibility not to contribute to that inflation by recognizing undocumented expense increases or increases not reliably attributable to operations for the DOD, and we are aware that recent and future operational improvements and efficiencies are matters particularly within the knowledge of the carriers, which may reasonably be expected to come forward more willingly with information about cost increases than about productivity measures and cost savings. Certainly management continues to work to extend the time between aircraft and engine overhaul steps, to devise improvements in loading and handling techniques, to use more modern equipment where efficiencies are to be gained thereby, and to take advantage of the learning curve. The Board believes that this is reflected in the relatively stable costs of the MAC carriers since the base period.

Based on the Form 41 reports for the entities in which the carriers themselves reported MAC operations, half of the carriers show lower costs per available ton-mile for the year ended June 30, 1972, than for the year ended September 30, 1970, even after exclusion of the generally lower costs of wide-bodied jet aircraft and depreciation and amortization expenses. Further, after weighing the results by the MAC-fixed contract revenues, we find that the international MAC group as a whole showed a slight decrease in ATM expenses.[6] It is true that the Form 41 reports reflect commercial as well as MAC operations, but no convincing showing has been made that commercial services afforded a substantially greater potential for cost savings than MAC service.[7] However, since the results of a mixture of operations are reported in the Form 41 and some cost movements may be attributable solely to commercial service, we have also compared the carriers' figures for MAC operations alone as reported on their Forms 243. These figures show a modest increase of 2 percent between the base period and fiscal year 1972 in the cost per aircraft-mile flown,[8] and here, too, some caution must be used in evaluating the data, for DOD has claimed and several carriers have admitted that the Form 243 reports suffer from various deficiencies. On a standard available ton-mile basis the reported increase is somewhat greater (3.25 percent),[9] but this variance is due to changes in aircraft types with smaller standard ACL's by some carriers, rather than to inflation.

The rates proposed in the notice reflected some cost increases which had been incurred subsequent to the base period, and additional increases are incorporated in the final rates. With these and other changes discussed below or in the appendices, the rates we are establishing herein will provide an increase of approximately 2.66 percent in the yield from MAC services for fiscal year 1972.[10] In our judgment, these rates make adequate provision for recent cost inflation.

[4] Certain of these carriers also provided data for fiscal 1973, but most of the information was so fragmentary as to be of little value, and the remainder was not substantial enough in amount to have any significant impact on the rate level.

[5] Only Seaboard provided figures purporting to reflect the impact of dollar devaluation on MAC costs, but the bases for these figures were not supplied and the apparent (albeit unstated) assumptions underlying their use are of doubtful validity.

[6] 0.89 percent, after excluding Northwest and World, which showed an even greater decrease, but whose results were distorted by strikes.

[7] Except in the shift to wide bodied equipment, but that equipment has been excluded from our cost comparisons. We reject the notion that revenue ton-mile costs should be compared rather than available ton-mile costs, since load factor declines in scheduled commercial operations would not require the conclusion that the costs of providing MAC charters increased.

[8] After eliminating Northwest, World, and Eastern. The data for all MAC international operations shows an increase of only .7 percent, but as indicated above the results of two carriers were affected by strikes, and Eastern's increase of 87.6 percent is so far removed from the experience of the group as to signify either reporting distortions or other distorting influences unrelated to price and wage inflation.

[9] Again, after eliminating Northwest, World, and Eastern. For all MAC international carriers the increase was 2 percent.

[10] See Appendix Q, which is filed as part of the original document.

The Davis Agency has requested a reduction in Category A, B, and Z rates of some 58 percent, based on a computation which assumes that (1) certain promotional fares for individually-ticketed personal transportation of active duty servicemen and their dependents are compensatory on a fully allocated cost basis; (2) MAC service is far less costly to provide than commercial service; and (3) the ratio of Pan American's forecast costs for MAC to the Davis Agency's computation of that carrier's commercial costs can be applied to yields from the said promotional fares to produce a MAC rate. On Dec. 13, 1972, Davis Agency filed a complaint in Docket 25004 in which it stated, among other things, that the same promotional fares are uneconomic (complaint, page 5). We shall not make a determination of the proper level for nonofficial individually-ticketed military travel in this rule making proceeding. It is sufficient to point out that the rates we are here establishing are cost-based; that they are minimum rates; and that, unlike the promotional fares Davis is attacking, they are computed on a fully allocated basis.

Effective date and duration of rate. DOD urges the Board to make the rates effective on or after the issuance of the final rule in this proceeding, rather than on July 1, 1971, as proposed in the notice, but states that it does not object to the rates being of indefinite duration. The carriers which have commented on these issues generally argue that (1) the new rates should be effective beginning July 1, 1971, (2) fiscal 1972 rates should be increased by from 2 to 10 percent for fiscal 1973, on a final or interim basis, and/or a new proceeding should be instituted for the latter year, and (3) absent an escalation factor or other cut-through approach to increase subsequent rates, a rate review should be started for fiscal 1974.

DOD position is that retroactive adjustments in minimum rates are undesirable and contrary to Board policy because of their effect on DOD budgets and appropriations and on carrier revenues; that it cannot make logical choices among aircraft types or volume of commercial service without knowing in advance the cost of the service; and that the MAC contracts call for performance at the minimum rates specified in Part 288 as in effect when the service is provided. With respect to retroactivity, the carriers argue that EDR–205/PSDR–32, which instituted this proceeding, gave all persons advance notice that the rate would be subject to revision effective from the beginning of fiscal 1972; that the Board has made rate changes retroactive to the date of institution of proceedings in the past in cases involving MAC rates without causing undue hardship to DOD (and has made such changes in cases involving rates for the carriage of mail); and that MAC contracts contain provision for amendment by change order to conform to the CAB minimum rate when established for fiscal year 1972. In support of higher rates or new rate reviews for periods following fiscal year 1972 the carriers point to cost increases since the base period and continuing inflationary trends, while MAC states that there is no evidence that the carriers failed to make substantial profits from MAC business at current rates, which it alleges were based on overstated costs, and indicates that the use of updated data in DOD comments meets the problem of stale data.

The Board has decided to establish new rates which will be effective from July 1, 1971, forward; will remain at the same level throughout the period of their effectiveness; and will contain no stated termination date. While it continues to be desirable as a general rule to establish rates on a prospective basis, an inflexible policy which would preclude our making the rates effective from the date of institution of the rule making proceeding is neither required by law nor appropriate to meet the demands of fluid circumstances.[11] Our original notice in this matter made clear that the Board contemplated fixing new minimum rates to be in effect beginning with the start of fiscal year 1972 and the MAC contracts appear to have provided for amendments to accommodate retroactive changes, although in any event the contracts could not limit the Board's authority to fix the level or the period of effectiveness of these rates. As the carriers point out, retroactive rate changes have been made as the result of MAC rate reviews on prior occasions, and these changes have been effectuated during the course of a fiscal year, despite the general desire to have rates remain in effect throughout the annual budget period. Balancing the effects on costs of recent changes in the economy and in MAC activity, on the one hand, against the undoubted benefits of stability and the inconveniences caused by rate changes, on the other, we conclude that we should adhere to the effective date proposed in the notice.

By the same token, we find it advisable to establish a single level of rates of indefinite duration. As set forth in our discussion of base period dates and cost increases, there is no basis, either in the Forms 41 or 243 or in the carriers' comments, for establishing a different rate for fiscal year 1973 or other periods. We have explored the possibility of using ratio techniques, but wide variances among carriers preclude the use of such cut-through approaches. The data would not support the use of a cost trend or escalation factor even if the use of such speculative methods were acceptable, and we find no warrant for embarking immediately upon a new rate review. Available ton-mile costs[12] currently appear to be decreasing for more carriers than not, even with B–747 costs excluded, and inflationary pressures on the general economy give signs of easing. The final rates here established reflect all cost increases documented in carrier comments, afford relief from the time of inception of this rate proceeding, and provide a rate of return to cover risks for reasonably extensive future periods. Under all the circumstances we will not fix a termination date for these rates nor embark on a new rate review at this time.

[11] We might also point out that the problem of MAC contracts being performed pursuant to tariffs by carriers which do not require exemption is not currently a material consideration.

[12] Contrary to the suggestion of some carriers, revenue ton-mile comparisons are not more appropriate, since, as previously indicated, MAC contract rates should not be burdened by load factor and scheduling problems of commercial operations. We also reject the notion that short-haul operations are somehow less costly than long-haul, or that changes in short-haul expenses must move in a different direction from changes in the cost of longer haul operations. Further, length of hop and haul for MAC operations has been increasing in recent years, and since it is a DOD policy to favor the newest and most efficient aircraft types for use in MAC service, the fleet mix continues to be representative of the most economical aircraft in use.

CATEGORY B MINIMUM RATES FOR LARGE TURBOJET AIRCRAFT

The existing minimum rates for category B charters, those proposed in the notice, and the revised minimum fair and reasonable rates adopted herein for large turbojet aircraft are set forth below. The table also shows the percentage differences between the current rates and the rates adopted.

	Current	Proposed	Adopted	Percent increase (decrease) from current
Passengers, cents per passenger mile:				
Round trip	1.916	1.91	1.959	2.24
1-way	3.448	3.60	3.686	6.90
Cargo, cents per ton mile:				
Round trip	7.728	7.45	7.730	.03
1-way	15.379	14.62	14.903	(3.10)

Rates for wide-bodied aircraft. The notice proposed the same rates for passenger service with B–747 aircraft as for other long-range jets. Forecasts had been received only from Braniff and Pan American, and the adjusted costs for these two carriers were included in the computation of the proposed rate per passenger-mile. In view of the relatively low passenger ACL for this aircraft, we also proposed that the request by DOD to use the lower compartment cargo capacity at no extra charge be adopted.

Comments were submitted by several carriers contending that since the wide-bodied jets were not used during fiscal year 1972 and MAC has not contracted for any such buy for fiscal year 1973, the B–747 data should not be considered in establishing the rates in this proceeding. In addition, Flying Tiger suggests that in the event the Board should decide to include B–747 data in establishing the rates, then similar data from other MAC carriers operating B–747 aircraft should be included. On the other hand, World Airways submitted comments in which it supports the common rating of the B–747 with narrow-bodied jets and, since it anticipates delivery of convertible B–747's during 1973, asks the Board to establish mixed rates for these aircraft. World opposes the proposal to allow MAC the free use of the lower compartment cargo capacity. Trans International urged the Board to establish minimum rates for the DC–10–30CF since it expects to take delivery of these convertible aircraft in April and June 1973. The carrier also requests the Board to establish convertible rates for such aircraft at the same rates as established for regular turbojets. DOD recommends that until such time as representative cost data become available the Board set the rates for wide-bodied aircraft at the same level as for first generation jets, that a passenger ACL be established for DC–10 aircraft, and that it be given free use of the belly cargo space.

Upon consideration of the foregoing we can find no valid basis to support the establishment of rates for wide-bodied

V 38 - 2 JAN 4 73 XUM

aircraft at this time. Since the wide-bodied aircraft have not been used, and, so far as can now be determined, are not expected to be used in MAC operations in the near future, no historical MAC cost data are available upon which to base a forecast, and no current need exists for these rates. Accordingly, we have eliminated the B–747 estimates from our costing used in determining the rates and will set no rates for wide-bodied aircraft in this proceeding.

Aircraft utilization. Three carriers, American, Saturn, and Trans International,[13] have requested that the Board adjust the aircraft utilization and costs projected in the notice to reflect the lower average daily aircraft utilization each claims to have experienced during fiscal year 1972. We have examined the carriers' claims and have determined to adjust the projections for Saturn, but not for Trans International or American.

With minor variations, the hours of daily utilization reflected in EDR–205A for each aircraft type used by a carrier was the higher of the carrier's forecast or its experience with that aircraft during the base year for its MAC system (that is, the regions or areas where it conducted MAC operations). However, in the case of Trans International's B–727's the carrier's forecast was adjusted to a utilization of 7 hours per day to reflect the minimum acceptable reasonable utilization for short-range jet aircraft in MAC service. Although TIA did not attain that level in fiscal year 1972 we will adhere to the 7-hour figure so as to assure that the MAC rate will be based upon the costs of economical and efficient operations.

For American the 12.29 hours projected in the notice for its B–707–300C aircraft was based on that carrier's submission of experienced utilization in MAC service during the base period. In its comments American requested that we substitute the 11.92 hours apparently reflected in its company records for MAC operations for fiscal 1972. However, beginning with data for January 1, 1972, a separate utilization figure for MAC service only has been reported in the Form 243. Based on that report we find that the carrier's experience for the last half of fiscal year 1972 (the 6 months ended June 30, 1972) was 12.11 hours, an improvement over the utilization for the entire year. In the light of this experience and the very minor difference between the most current figure and our projection in EDR–205A, we shall adhere to the utilization used for American in the notice.

Saturn's forecast of 9 hours per day for its DC–8–50 was accepted in the notice, but it now claims a utilization of 7.6 hours based on its experience with that aircraft in all operations for the year ended March 31, 1972. DOD would accept this change in utilization and we agree.

[13] TIA's comment concerned the utilization used for its B–727 aircraft rather than its long-range equipment, but we are dealing with this item at this point as a matter of convenience.

For its DC–8–61F's Saturn's forecast of 9.3 hours was accepted in the notice. However, its experience for all operations for the year ended March 31, 1972, was 8.3 hours. Nevertheless, the carrier contends that the same 7.6 hour utilization should be used for this aircraft type as for the DC–8–50 since its effectiveness in obtaining commercial charters was responsible for the 8.3 hour record. DOD would not accept the 7.6 for the DC–8–61's, citing figures which show that Saturn's utilization in MAC service is superior to its commercial service record. Instead, DOD believes that 8.3 hours is the most representative figure available for the DC–8–61's. We agree and have adjusted Saturn's cost accordingly.

Depreciation adjustments. In the notice the Board requested the views of the parties concerning the appropriate basis for computing flight equipment depreciation when a change in useful lives or residual values is made in MAC rate reviews. Only DOD responded and it favored retention of the entire service life basis, although it gave no explanation for its taking that position. Northwest suggests that as a matter of equity the method for adjusting flight equipment investment should be revised to parallel the basis used for adjusting depreciation, but it is at least as equitable to change the method of adjusting depreciation as to inflate investment by amounts already charged as depreciation. Adherence to the current bases used for depreciation and investment appears to offer a reasonable accommodation of the various interests at this time.

Rate of return. As in the case of the rates established for domestic MAC operations in ER–733, May 11, 1972, the Board proposed to maintain the 1.5 percentage point difference between the rates of return used for commercial rate and MAC purposes, and therefore to use a 10.5 percent return in this proceeding. In our notice we stated that our reasons for using the 10.5 percent figure were the same as those set forth in ER–733, where the Board canvassed the arguments adduced by MAC, in contending for a lower return of 9 percent, and by the carriers, in contending for a higher return of 12 percent. Yet the comments of the parties opposing the rate of return proposed in the notice[14] are basically the same as those we disposed of in the Logair and Quicktrans proceeding. The Board adheres to the 10.5 percent proposed.

There are, however, a few points on which further clarification or comment may be helpful. DOD points out that rather than its confusing the opportunity to make a fair return with the achievement of the return, this distinction has been the essence of its position, and again argues that since the domestic carriers may fail to achieve 12 percent on commercial operations we should not use our evaluation of trunkline capital costs in the domestic passenger fare investigation[15] as a guide to the establishment of a return for MAC operations. But, however stated, DOD apparently misconceives the purpose and operation of rate of return guidelines and would have us use an unacceptable approach to this area of ratemaking. The profit elements used in establishing rates are not intended to guarantee that the return utilized will in fact be realized, but to afford efficient carriers an opportunity to earn that return which the financial market-place requires over a reasonable time-span if it is to furnish the investment needed for operations. This return is based to a large degree on relative risks. Reported profits, while an element in the evaluation of future prospects, are not determinative by themselves of the investors' requirements and, despite DOD's arguments, do not constitute a ceiling on the capital costs of investment devoted to MAC.

Some carriers have urged that our treatment of leased aircraft requires a higher rate of return since the MAC investment base proposed does not include a constructed value for such equipment and the use of leased equipment has grown. However, as explained in the following section, the policy with respect to this item is the same as that used in the *Fare* case, a cost of capital approach has been followed, and the impact of high ratios of leased to owned aircraft is appropriately reflected in the recognized capital costs. It is also argued that international risks are higher than domestic risks, but it has not been demonstrated that there is any significant impact on risks or capital costs due to differences in foreign and overseas operations for MAC and domestic operations for MAC. We do not find persuasive arguments that long-haul international operations involve more economic risk than short haul domestic flights, since the operating costs of both are covered in their respective rates and the same 1.5 percentage points spread has been used historically for establishing rates for both domestic and foreign MAC service. On the other hand, United has urged that the investor places his money in airline securities, rather than in operations for MAC, or commercial passengers, etc., and indicates that a higher return is needed to attract capital. While the concept of the investor's primary interest being the carrier's total return is certainly valid, there are differences in risk between individually ticketed scheduled service for the general public and chartered service under contract with the DOD. Those features which reduce the risk for MAC include the fixed minimum gross volume of business for an entire year, the minimum rate which generally remains in effect for at least a year, and the guaranteed minimum volumes for each flight. In order that different users pay their proportionate share of costs, an allocation of cost differentials should be made even

[14] The seven carriers which filed a joint comment on long-range rates supported the Board's rate of return standard.

[15] Order 71–4–58, Apr. 9, 1971.

though the investor is looking to a composite of costs and risks stemming from different airline activities. In our view the increase in MAC risks attributed to the increasing uncertainty of volume of MAC operations and the costs flowing from related operational changes and the like are adequately covered by our increase in the return element to 10.5 percent.

Leased aircraft. A number of carriers have complained about our proposal to recognize actual and reasonable rental expenses (plus a profit element in special circumstances) in lieu of the constructive ownership approach used in prior international MAC rate reviews. They argue that the proposed policy would deprive them of an opportunity to make a profit on leased aircraft, is an unwarranted extension of a rule designed for commercial rate purposes, and fails to reflect the risk of foreign operations. Some carriers also contend that the policy has not been applied properly, in that an incorrect method was used for determining if unusual circumstances warranted a special profit element and that the profit element applied was too low.

The carriers basing their argument for retention of the constructive ownership approach because of the profits afforded on that basis apparently refuse to recognize in this connection that the purpose of including a profit element in the computation of all rates for air transportation, including MAC rates, is to provide for the cost of capital devoted to the service. Our adoption of § 399.43 of the Board's statements of general policy was based on a determination that recognizing actual rental expenses was the appropriate treatment of leased aircraft for ratemaking purposes because, among other things, this approach was in accordance with the facts, while the constructive ownership approach did not reflect the carriers' true revenue requirements. The cost of capital is the return on investment necessary to attract that capital, and leased aircraft are simply not a part of carrier capital investment.

The Board recognized that leasing does involve risks, but these risks affect the cost of the carriers' actual investment, and the ratepayers' costs should not be burdened by a profit element for phantom capital which is not truly an asset of the carriers.[16] We determined that these risks are reflected in the rate of return established in the domestic passenger fare investigation,[17] and to the extent that a significantly greater than normal proportion of leasing involves an additional risk not reflected in that rate of return for the capital which is a part of carrier investment, we provided for a profit element 6 percentage points lower than the standard rate of return. Thus, the policy covers all of the costs related to aircraft leasing. Our review of this problem, although part of the fare case, was based on principles generally applicable to all ratemaking, and the policy is intended for across-the-board application. We have already applied the policy in setting rates for domestic Logair and Quicktrans service, and no convincing arguments have been adduced which would persuade us to use a different rule for MAC international rates.

Since we have used as a starting point for MAC rate of return purposes the rate of return established in the *Fare* case, the use of the ratio of leased to owned aircraft values of the carriers in that case provides an appropriate benchmark for determining whether the ratio is so significantly exceeded by any MAC carrier as to entail an additional risk. In making that determination we look to the carrier's entire fleet of the aircraft types it devotes to MAC, rather than compute a ratio for each aircraft type or look to the particular individual aircraft employed. The average ratio of all of the aircraft in the ratemaking unit (the aircraft of all domestic air carriers) is used as the standard, and the ratio used for the individual MAC carriers in assessing the special risk, if any, should be similarly computed. In order to determine the special risk element the proportions of leased aircraft values of one type obviously must be balanced out against the proportions of leased aircraft values of other types devoted to MAC, and in establishing MAC rates the Board will not permit a carrier to pick and choose among its aircraft and allocate its most costly equipment to MAC. Finally, when § 399.43 called for the use of "the standard rate of return, less 6 percentage points," it meant just that: the operation of leased aircraft in a significantly higher ratio than the norm was judged to affect the capital costs of a ratemaking unit by the standard return for that unit less 6 percentage points.[18] Although the relative risk figure is clearly a broad judgment, we deem it applicable without regard to where the aircraft are flown, and there is no sound reason to adopt a different basis for MAC purposes.

Mileage absorption factor. Both DOD and the carriers have challenged the adjustments proposed in the notice to recognize differences between the mileages used to calculate costs and the standard mileages used by MAC for payment purposes. DOD questioned the need for making any adjustment. It claims that the historical costs include the higher costs resulting from shorter stage lengths flown where operationally required,[19] and therefore the adjustment would require a double payment for the same costs. DOD also argues that the costs of flying all miles—including ferry mileage, positioning mileage, and mileage due to longer than pay-mile routings—are divided by revenue miles, only, to determine costs, and hence any adjustment would reimburse carriers a second time for nonrevenue mile costs. Finally, DOD presents a comparison of MAC revenue aircraft miles flown and MAC pay miles, based on Form 243 data for calendar 1971, indicating a deviation factor of only 0.17 percent on an overall average basis, and notes that the use of even that figure should await clarification of reporting discrepancies.

The several carriers commenting on this item urge, variously, that some carriers fly routings longer than those prescribed for payment purposes because of cost savings, already part of the unit cost submissions, which are achieved by avoiding bad weather areas or high cost locations or by using on-line locations; that ferry and positioning miles are not included in the calculations, although they should be so as to permit the recovery of costs associated with nonrevenue operations necessary for MAC service; that errors in calculation in the notice resulted in an understatement of the absorption factor; and that the reporting discrepancies in the Forms 243 leave the Board's analysis and the factors proposed in the notice as the best computations available.

The Board has decided to continue to apply a factor for mileage absorption, based on the techniques historically used for MAC rate reviews. DOD and the carriers have made conflicting claims concerning the unit costs for mileage flown on routings longer than pay-miles routings, but no data supporting either of these allegations have been filed in this proceeding. We note, however, that in connection with a prior rate review, material was filed tending to show that the costs per mile on the longer mid-Pacific routings were lower than on the north-Pacific flights and the total costs were about the same.[20] No conclusion can be drawn from the current record that the historical unit costs used in the notice were increased because of the longer routings flown. Further, in determining unit costs, all MAC costs and all MAC mileages are included in the computation,[21] and hence there is neither a dou-

[16] The rental payments, which are recognized, obviously include an element which goes to pay the capital expenses of the lessor, since he must attract the necessary funds to cover his investment costs. To provide a further return on this investment to the lessee would be to duplicate this expense.

[17] Order 71–4–58, Apr. 9, 1971.

[18] Contrary to the arguments of some carriers, we did not divide the rate of return used in the *Fare* case by two nor fix on 6 percent as the measure of the extraordinary risk. Instead, we subtracted 6 percentage points—approximately the pure interest rate—from the "standard return," which we envisioned would vary in different ratemaking frameworks. The pure cost for the use of money (the 6 percentage points) was deducted from the standard return because no capital requirements (and hence no pure money costs) are involved in leasing.

[19] That is, where routes are flown encompassing: (1) Longer distances than the pay miles and hence (2) shorter stage lengths, because of equipment limitations.

[20] EDR–133, February 20, 1968, page 9.

[21] Except the first 50 miles of ferry flights. See § 288.9(c). MAC does not pay directly for the first 50 miles of ferry flights, but this mileage (though not its cost) is excluded in the carriers' submissions for rate reviews and thus the rates cover the cost of these miles.

V 38-2 JAN 4 73 XUM

ble reimbursement nor a shortfall in cost coverage. However, a mileage absorption or circuity factor is needed because of the differences between routings flown and the standard routings reflected in MAC pay mileages.

As a theoretical matter, the method used by DOD to derive an absorption factor is not unreasonable, albeit it fails to differentiate among services. But the DOD's results cannot be accepted, because of the lack of reliability in the reported Form 243 figures used in the computation. For example, while we can envision some circumstances where pay miles might exceed miles flown, in the reports for a number of carriers the MAC pay miles exceed the revenue miles flown by a very substantial margin. Further, the DOD and the carriers have pointed out other problems which impair our confidence in the figures. For this reason we will follow the technique of comparing: (1) The miles flown over the predominant routings used with (2) the miles over the standard routings used for payment purposes, as in the notice. These miles-flown figures represent the typical distances operated, according to the carrier submissions, and DOD has made no showing to the contrary, except by reference to the discredited figures from the Forms 243.

After correcting certain obvious errors discovered in the figures used for the notice we have recalculated the absorption factors, weighting the data by the fiscal year 1972 award points to account for volume differences. As shown in Appendix E, the absorption factors adopted by the Board are 1.7 percent and 1.6 percent for regular jets and stretched jets, respectively, in passenger service, and 4.9 percent and 2.3 percent for regular jets and stretched jets in cargo service. Appendix G shows the adjustments in the rates based on those factors.

Other cost adjustments—(1) *Cargo costs.* In the notice the Board included cost data for the American and TWA Boeing 707's in its computation of cargo costs, and several carriers have objected. Flying Tiger and Seaboard state that American submitted no cargo cost computations and argue that if a constructed forecast is used for that low cost carrier, cargo cost forecasts should be constructed for Airlift's DC–8–55 and B–707–320 aircraft, United's DC–8–55F's and Seaboard's DC–8–55F's. Seaboard also states that historically the difference between payments for cargo and passenger operations has been the element of passenger service expense and related adjustments (the basis employed in the notice), but that this is an imprecise approach since some costs in cargo service are greater than similar costs in passenger operations. Pan American complains that American's cargo costs are the lowest of any shown rather than being in line with other carriers offering similar aircraft, and that use of the constructed cost is not fair since the Board first adjusted the cost of passenger operations prior to use of the figures. TWA states that the reason it did not submit a forecast for cargo aircraft is that its cargo operations were very limited during the base period, but that a comparison for calendar year 1971 shows higher direct operating costs for cargo-configured aircraft than for passenger operations.

The carriers' objections are not well taken. We constructed cargo costs for American and TWA for the B–707's since both of those carriers were in fact participating in MAC cargo operations with those aircraft and both had submitted historical data and forecasts of costs for B–707 passenger operations, thus providing a cost base for projecting cargo costs. Contrary to Flying Tiger's assertions, none of the other carriers it mentioned submitted passenger costs for the aircraft types it cited, and thus similar costs bases were not available. The method of deriving cargo costs from data for passenger operations has long been used not only by the Board but by many carriers in MAC rate reviews. Thus there is merit in DOD's observation that if Seaboard is correct in its allegation that direct costs are higher for cargo operations than for passenger service, then passenger rates are inflated since they reflect historical costs of cargo operations which carriers have not correctly segregated. DOD goes on to note that for American's B–707–300's, the aircraft here involved, the direct costs in cargo service are less than those for passenger service, and that TWA had informed MAC in 1971, in connection with the instant rate review, that the costs levels for the B–707–300B passenger aircraft fairly represent cost levels of the B–707–331C and B–707–373C cargo aircraft. We would not draw any firm conclusion from either the unscreened American figures presented by DOD or the unscreened TWA data as adjusted by that carrier in its comments, other than to note that the relationship between direct costs for an aircraft type in cargo and in passenger service is by no means established by the limited data presented. In spite of Pan American's protestations we believe it imperative to screen historical and forecast costs before projecting them for MAC rate purposes. The method of projecting costs used in the notice is not unreasonable and the ton-mile costs so projected (6.69 cents for American and 6.79 cents for TWA) are not out of line with the costs for standard jets of other carriers (ranging from 6.76 cents to 9.49 cents).

(2) *Retroactive cost changes.* TWA has requested that we permit a retroactive adjustment for rate-making purposes to its flight equipment maintenance expense reported in its Form 41 reports for the year ended September 30, 1970, the base period used in the MAC rate review. The adjustment concerns a disparity, revealed in a 1972 audit, in the allocation of maintenance burden among operating entities reflected in TWA's reported results for the years 1968–71. A restatement of the carrier's figures based on an allocation formula adopted by TWA beginning January 1, 1972, would increase its MAC cost projections substantially. As we have determined in other instances involving attempts by TWA retroactively to change reported base year expenses, premised on after-the-fact judgments by the carrier, this restatement would not be warranted.[22]

(3) *Rounding.* TWA and Pan American have requested that the rates be expressed by using three digits to the right of the decimal place, rather than rounding to two digits as in the notice. In rate reviews prior to ER–699, establishing the current rate, we rounded to the nearest hundredth of a cent (two digits), but since the volumes of MAC services and the sums involved are so large and the additional computations call for but slight effort where only one user of the service is involved, it appeared reasonable to express the rates in thousandths of a cent (three digits) in ER–669. We are modifying the procedure used in the notice and reverting to the practice established in ER–669.

Commercial Backhaul Factor. One-way minimum rates are based upon the round trip rates, adjusted to reflect (1) the cost savings involved in return empty backhauls and (2) a reduction for backhaul mileage flown in commercial revenue operations. To develop a commercial backhaul factor the Board subtracted the return empty backhaul miles from the one-way mileage and divided by the total revenue aircraft miles. The factors proposed, 2.8 percent both for passenger trips and cargo trips, were applied to the one-way adjusted costs. The notice pointed out that to some extent the commercial backhaul miles computed on this basis reflected variances between outbound and inbound routings and perhaps problems in classification and reporting. However, the data did not permit a more direct derivation of the factor since the Form 243 reports did not contain the commercial backhaul mileage figure.

DOD complained that deficiencies in reporting made the mileage figures suspect, that the procedure employed frequently resulted in a negative derived factor for particular carriers, and that the percentages should be determined by dividing by the live one-way miles rather than the total revenue miles. It also argued that total backhaul miles should not exceed live one-way miles. After eliminating the figures for certain carriers because of asserted reporting discrepancies and removing the negative backhaul miles of other carriers, DOD derived commercial backhaul factors of 11.95 percent for passengers and 27.11 percent for cargo.

Several carriers admit that backhaul mileage reporting is deficient in various respects, but recommend using the factors developed by the Board as the most reliable available. They also argue that the low yields of the commercial backhauls represent an offsetting factor. Braniff et al. state that the backhaul factor should not be a percentage of one-way miles, but total revenue miles, since the factor is applied to costs based on total revenue miles flown. Northwest argues that no commercial backhaul computation should be made since MAC can convert one-way trips to round trips on 24-hour notice and the effect of this option is to preclude contracts with commerical parties.

[22] Nonpriority mail rates, Order 70–4–9, note 20, mimeo page 18 (April 1970); Transatlantic Final Mail Rate Case, 19 CAB 464, 471 ff. (1954). The reallocation of 1970 costs from domestic to international operations would be particularly inappropriate since the Form 41 expenses for that year formed part of the data base relied upon in the Domestic Passenger Fare Investigation.

The Board agrees that the indirect derivation of the commercial backhaul factor suffered from a number of deficiencies. As the result of a change in the Form 243 effective January 1, 1972, we now have available, on a reported basis, commercial backhaul miles for the 6 months ended June 30, 1972. As shown in Appendix I,[23] we have used that data and computed commercial backhaul factors of 3.13 percent of the one-way passenger miles and 6.26 percent of the one-way cargo miles. DOD is correct in relating the backhaul mileage to the one-way mileage, since this commercial mileage is related to the one-way service for MAC and is applied to adjusted one-way costs. Although it is asserted by the carriers that lower promotional yields should be considered, no supporting data were supplied, and in any event, circuitous mileage associated with such service has been recognized. Such circuity may account for some cases where the live MAC mileage is exceeded by backhaul miles. Finally, we note that the 24-hour option adverted to by Northwest is not actually exercised with such frequency as to preclude, in fact, commercial use of backhaul flights. The factors set forth above appear to be reasonably representative of commercial backhaul mileage associated with MAC operations.

Convertible and Mixed Minimum Rates. The convertible and mixed rates proposed in the notice were computed in the same manner as in previous rate reviews. However, in DOD's initial comments we were advised that in April 1972 MAC had carried out a test program for the purpose of accumulating actual cost data as well as for testing the operational characteristics of the convertible aircraft. Cost data were submitted for 11 such conversions with partial data for a 12th conversion, and based upon a summary compiled from the unadjusted carrier data, DOD proposes the adoption of a fixed payment for each convertible trip. Since the conversion payment is not related to the length of the trip as is the case in the current convertible rates, DOD believes that this procedure will result in a more equitable convertible rate. Specifically, DOD proposes that the conversion compensation be made in addition to the live round trip Category B passenger rate for the passenger leg and the live round trip Category B cargo rate (after adjustment for ACL reduction due to the ferrying of passenger equipment) for the cargo leg. DOD's proposed conversion charges are as follows: Standard jets—$8,200; Stretched jets—$10,500; B–727—$5,200. DOD also proposes revised convertible cargo ACL's of 31.7 tons for standard jets, 39 tons for stretched jets, and 15 tons for B–727 aircraft.

Comments were submitted by Airlift, Flying Tiger, Pan American, Seaboard, and Braniff et al., all of which indicated a general agreement with DOD's approach. While these carriers desire a Board analysis of the data submitted by DOD, the only substantive reservation they indicated was the belief that additional compensation should be made for loss of utilization during the periods of converting from passenger to cargo or cargo to passenger configuration.

DOD's proposal appears to have a great deal of merit. Payment of a fixed conversion charge for convertible services seems to present a more precise manner of compensating the carriers than the present method, under which conversion costs are incorporated into the unit rates per passenger-mile or ton-mile. With regard to the carrier's contention that an additional payment should be made for downtime during conversion, we have analyzed the utilization data submitted to DOD by the carriers together with their conversion cost-data and their figures indicate that the average utilization for convertible trips is virtually the same as the overall utilization reflected in the notice. However, the Board is not persuaded that the fixed payment per plane converted, as proposed by DOD, presents the best solution to this matter. We note that the payments DOD proposes equate to approximately $50 per seat for each of the different aircraft types.

In consideration of all the circumstances, we believe that the adoption of a conversion charge of $50 per seat for each configuration change on each stage length will result in an equitable rate. While this charge applied to the full ACL will result in a slightly higher charge to MAC in the case of a full configuration change, it will afford MAC a greater degree of flexibility in those cases where MAC may desire a partial change in the configuration. Further, the application of the charge on this basis should resolve a problem posed by World, which was concerned over the numerous configuration changes necessary in its interisland services. In the case of the mixed rates, the application of this principle will eliminate the need for the computation of variable mixed rates as in past rate reviews. Instead, the fixed rates for mixed configuration trips will provide for the $50 per seat charge for each seat changed on each segment. The revised convertible cargo ACL's proposed by DOD appear reasonable and we will make the appropriate amendments to § 288.8.

Category B Minimum Rates for Small Turbine Aircraft

Set forth below are the existing minimum rates for small turbine aircraft, the rates proposed in the notice, and the revised fair and reasonable minimum rates adopted herein, together with the percentage differences between the current rates and the rates adopted.

	Current	Proposed	Adopted	Percent increase (decrease) from current
	Pacific Interisland			
Passengers, cents per passenger-mile:				
Round trip	2.578	2.56	2.567	(0.43)
1-way	4.876	4.89	4.902	0.53
Cargo, cents per ton-mile:				
Round trip	13.115	13.50	13.534	3.19
1-way	26.229	26.73	26.934	2.69
	All other			
Passengers, cents per passenger mile:				
Round trip	2.802	2.82	2.819	0.61
1-way	5.302	5.39	5.385	1.57
Cargo, cents per ton-mile				
Round trip	14.572	14.00	13.990	(3.99)
1-way	29.143	27.72	27.840	(4.47)

The foregoing rates reflect changes, indicated in the appendices, which are akin to those made for large turbine aircraft. The major contentions in the comments which are peculiar to the small turbine rates involve the aircraft carriers used for costing purposes. They are discussed below.

The rates proposed in the notice were based exclusively on the data for B–727 aircraft, with separate classifications for Pacific Interisland and for "All Other" service. The Board used costs for Airlift, Southern, and World to compute the Pacific Interisland rate. For the reasons set forth in the notice, it refused to use the costs of Convair equipment, B–707's, or L–100–20/30 turboprop aircraft or to establish separate rates or ACL's for those aircraft types.[24]

As an accommodation to Pan American, MAC has permitted that carrier to use its long-haul (B–707) aircraft on short-haul R. & R. routes at the higher seat-mile revenue of short-haul service. The carrier now claims that the small turbine rates should be paid for all operations falling within the short-haul category, which it defines as covering distances of 2,000 miles or less. We see no basis for extending the narrow exceptions for aircraft in recreation and rehabilitation service which insured that sufficient aircraft would be available for this special service between Viet Nam and certain named countries. To our knowledge there are no other contracts for B–707 service where the small turbine aircraft are flown and MAC has not endorsed the use of B–707's in short-haul service except in the R. & R. operations. The designation of 2,000 miles as a short-haul operation raises further problems. We will reject Pan American's claim.

On the other hand, we will grant

[23] Filed as part of the original document.

[24] The notice proposed to continue the current rates for turboprop and piston aircraft without change.

V 38-2 JAN 4 73 XUM

Modern's request that we continue to extend the Part 288 exemption to the CV–990 and include that aircraft in the schedule of minimum rates for category B service with small turbine aircraft. It was proposed to delete the CV–990 because DOD had not been using that equipment and did not want to include CV–990 costs in the rate computation, but the aircraft is clearly in the small turbine class. It has the same ACL as the B–727, and if the need should arise for the CV–990 in MAC service there appears to be no basis for requiring Modern to go through a new rule making or exemption procedure in order to receive Board authorization to provide the service.

The comments of Airlift et al. ask that Southern's cost be excluded from the Pacific Interisland rates for 1973, on the ground that that carrier is no longer providing the service. However, we are establishing a single set of rates, without term, and Southern not only performed services under contract in fiscal year 1972, but is continuing to participate in the expansion buy for fiscal year 1973. The rates for Pacific Interisland services will continue to reflect costs for the three carriers, adjusted to reflect documented increases in expense in conformance with our introductory remarks.

While the notice rejected Saturn's L–100–20/30 cost projections because they were based on experience too limited to form a reliable predicate for establishing separate MAC turbo-prop rates for that aircraft, it indicated that we would consider any relevant information submitted in the comments. Saturn has responded with a further submission of data and it asserts that MAC has had a continuing demand for the L–100–20/30 in international service. DOD opposes the establishment of separate rates and ACL, on the ground that the information is still not definitive enough to afford a basis for rates in international MAC service. Our review of the comments and Saturn's Forms 41 and 243 compels us to agree with DOD. The carrier has not reflected any significant amount of international MAC traffic in its reports. While it flew over 18,000 revenue-hours and over 6 million revenue-miles with this aircraft in the year ended March 31, 1972, 80 percent of the hours and miles were in domestic service, and less than 0.2 percent of the L–100–20/30 traffic was reported as military international traffic. Although the carrier's current submission may be based on a longer period of operations than heretofore, Saturn's international MAC traffic volume does not afford an adequate basis for projecting a forecast or establishing a rate for such operations.

INDIVIDUALLY TICKETED AND WAYBILLED SERVICES

In our notice we proposed to establish minimum rates for all individually ticketed and waybilled services (category A and Z) at the level of one-way charters (category B); we rejected the proposal to establish a so-called category Y blocked space service on scheduled service at the round trip category B level; and we requested comments on the validity of continuing category X rates (for inbound transportation of passengers in fixed proportions to category A outbound cargo) at the round trip charter level.

1. *Category A and Z services.* There has been no objection to our proposal to maintain the category A and Z passenger rates at the same level as the one-way category B rates, and we shall continue that rate structure for passengers.

DOD objected to the proposed change in rate relationships for one-way cargo services, stating that the Board should adhere to its past practice of establishing separate outbound and inbound category A cargo rates at levels below the category B one-way cargo rates. It argues that the proposal will result in significantly higher rates for category A cargo, will render this service the most costly and least effective of the cargo choices available to it, and will result in its use being limited to the most unusual situations, thus frustrating the objective of having category A cargo contribute to the maintenance of scheduled cargo service. Asserting that it has never been shown that the rates per ton-mile of 12 cent outbound and 10 cent inbound which antedated the current rates were unjustifiably low, DOD recommends a return to those rate levels.

The carriers which commented on this issue, including those carriers which had sought in Docket 23579 to divorce category A and category Z rates from the rates for category B charters and to increase the former to levels exceeding those for category B service (as well as other carriers with scheduled international services), support the Board's proposal to set the floor for all category A and Z rates at the level for one-way charters. Flying Tiger and Pan American state that the reduction proposed in the notice in the standard weight per pallet (used in computing charges for cargo services) serves to offset the increase in the rate per ton-mile, and a Flying Tiger analysis indicates that the net result of the changes would be to reduce its yield on the category A cargo rate. Both Pan American and Flying Tiger recommend that the add-ons per pound for air and truck pickup [*] be eliminated, in order to increase the comparability of category A and category B one-way cargo rates.

It appears to us that the advantages of moving cargo on less-than-plane-load lots can be considerable, and that the benefits and costs of category A cargo service warrant an equalization of these rates with the one-way category B rates. With the change in standard pallet weights and the elimination of the pick-up charges, the cost increase to DOD is at least largely offset and the rates will be comparable. It appears equitable to eliminate pickup charges and to amend Part 288 to reflect a change in the pallet weights, and we shall do so. No basis has been given for concluding that outbound cargo traffic volumes will be substantially different from inbound traffic volumes in the long term, and no reason why the inbound and the outbound rates should be different. The scheduled carriers appear satisfied that the rate relationships proposed will not interfere with the objective of having category A cargo contribute to the maintenance of scheduled cargo service.

Accordingly, the Board will adhere to its proposal to equate all category A and Z rates with one-way category B rates. We will also make all of the new minimum rates (except category Z rates, which are subject to tariff filing requirements) effective July 1, 1971. Our notice especially solicited views concerning the date of effectiveness of category A cargo rates because we believed that the sizable price changes linked to the change in structure may have affected the use of the service if known in advance, and DOD has responded by stating that much category A cargo service would not have been used if the revised rate relationship had been in effect. Pan American questions this assertion. But in any event, we are also making our countervailing pallet weight changes and elimination of pickup charges effective on that same date, and in view of that ameliorating circumstance the rate changes are of no different character than other changes which we are effectuating on July 1, 1971.

2. *"Category Y" service.* The notice tentatively rejected the category Y proposal as a service essentially the same as category A. Under the category Y proposal passengers would be carried in blocked space in scheduled commercial service at the round-trip category B rate. This service did not appear to warrant the round-trip rate provided for charters where the entire aircraft is contracted for on a round-trip basis. DOD contends that category Y service is the performance of what would otherwise be category B transportation by moving the traffic over scheduled service for an extended period of time. In fact, however, the category Y proposal is not at all akin to category B round-trip charters, since it is performed on the more costly scheduled services. Both DOD and those carriers seeking to operate under category Y rates request the authority to "test" this concept, but no amount of testing can change the nature of the service or of the rate requested: a round-trip full plane charter rate for one-way scheduled transportation of less-than-plane-load groups.[26]

No new argument has been made which serves to change the view set forth in the notice that the category Y rates

[*] Sec. 288.7(d)(4).

[26] Moreover, the economic unsoundness of the rate is underscored, in our view, by the inconsistent arguments of the two chief carrier proponents of category Y. On the one hand, TWA contends that the traffic will be carried "basically on a space-available basis," and that it will neither schedule additional capacity nor disenable higher fare traffic to serve category Y. On the other hand, Pan American argues that category Y traffic will permit greater scheduling of its regular service.

and rate relationships proposed by DOD and certain scheduled carriers were invalid in principle and unsound as a matter of economics. Pan American suggests that it would be willing to modify some of the conditions of category Y service, but tinkering with the details would not change the concept which we here reject.

3. *Category X.* Only DOD replied to our requests for comments on the question whether the category X concept continues to be valid. Category X rates cover the inbound transportation of passengers or property in fixed proportion to category A outbound cargo, pursuant to option provisions of DOD contracts. The rates for this service are currently equal to the round-trip charter rates. DOD indicates that while this service has not been utilized a great deal, category A cargo is now becoming essentially outbound and thus category X traffic will be increasing. But as evidence of this latest change DOD cites purchases of less than $85,000 of category X transportation in April and May of 1972. Fiscal year 1972 MAC volumes exceeded $400 million. More important, despite the fact that such traffic must be in fixed proportion to cargo moving in the opposite direction, the traffic remains essentially one-way passenger traffic, and the use of a rate based on round-trip levels is therefore unsound. Accordingly, we will eliminate the exemption for category X transportation from Part 288.

FERRY RATES

DOD proposes that the ferry rates be based on the category B cargo rate for all ferry miles, since some passenger-associated costs, such as food, full cabin crew salary, and insurance are not incurred in ferrying an aircraft. Currently, § 288.9 provides that minimum payments for ferry miles are to be based on the round-trip cargo rate where only cargo is carried on the live portion of the whole trip and are to be based on the round-trip passenger rate where passengers are carried on any portion of the whole trip. The rates are 75 percent of the live rates for ferry legs up to 1,500 miles and 100 percent of the live rates for longer ferry legs.

Several carriers have indicated that the cabin crews must be paid when being ferried with the aircraft and that the cargo rate would not be compensatory for passenger ferry flights. Flying Tiger argues that since the MAC ferry rate already provides a reduction of 25 percent for flights up to 1,500 miles to offset savings in food and passenger service, there is no basis for the further adjustment sought by DOD. Braniff et al. contend that ferry flights are comparable to the front-haul or back-haul operations of one-way charters, but that the cost savings are less. They question the 1,500 mile break-point and argue that the current ferry rates are not compensatory for these shorter flights, although some savings should be reflected in the rate for long ferry-hops. These carriers would eliminate the break-point, reduce the ferry rate discount to 8 percent for the passenger ferry, and eliminate that discount in the ferry cargo rate. We agree with DOD's basic premise that some cost savings are realized on ferry flights in some areas such as passenger food and insurance. However, we do have reservations as to the savings in cabin crew ferry costs, and we note that DOD has not shown that the present discount in the ferry rate is not sufficient to reflect the cost savings. In the absence of more definitive data we believe it appropriate to maintain the existing ferry rates at this time. However, we will explore the matter more fully in the course of the next rate review.

STANDARD MILEAGE

DOD states that the current nature of MAC contract airlift in the Pacific is such that much of it is not provided for in the routing table shown in § 288.10 (b), since MAC is routinely contracting for trips from the east coast and mid-continent points of the continental United States to points throughout the Pacific, including Australia and New Zealand. Accordingly, DOD proposes that in place of the existing table with its unavoidable limitation on the number of points that can practicably be covered, a mileage computation rule be adopted for the Pacific similar to the rule now applied to the Atlantic, where mileage for nonstop flights of 4,000 or more is computed over the lower of two commonly used routings. DOD also requests that the computation points of Shannon, Ireland and Lajes/Santa Maria, Azores, be deleted from the Atlantic rule in § 288.10(c) in order properly to accommodate such routes as those in the South Atlantic, for which Shannon and Lajes/Santa Maria are not realistic computation points.

Only two carriers submitted comments on DOD's proposal. Flying Tiger states that it has no objection to the proposal. Trans World takes issue with DOD's proposal with regard to routings that yield the shortest mileage, and suggests that pay miles be related to the "operational mileage" over which a carrier can realistically operate. However, standard pay mileages have for many years been based on the most direct feasible routing: the concept is not new, and the use of a circuitry or mileage absorption factor mitigates particular operational problems while avoiding difficulties of interpretation when payment computations are made. Since the introduction of the long-range jet aircraft into MAC service, the carriers engaging in transpacific services have the aircraft capability for operating over the North-Pacific route, and thus such routings cannot be construed as unrealistic. We note that some of the carriers actually operate over the mid-Pacific route, but this deviation from the standard mileages is purely voluntary on the part of the carriers involved. As stated in notice of proposed rule making EDR–133/PSDR–20, February 20, 1968, the Board believes that carriers should generally be given the option of flying transpacific charters over whatever routing they consider most favorable, but the routing so selected should not affect the compensation received. Rather, the compensation should be based on one mileage standard—namely, the shortest feasible routing. The same rationale applies in the Atlantic.

While we agree in principle with DOD's position and recognize the desirability of a rule covering more operations, we are reluctant to delete the table which sets forth the specific routings. However, it appears that the desired result can be achieved by retaining the table in its present form and expanding the language of § 288.10 to provide for the situations mentioned by DOD. Accordingly, the text of § 288.10 is being revised to provide that wherever the distance between airports for a nonstop flight or a route segment specified in a DOD contract is 4,000 miles or longer, the mileage shall be computed via routings indicated in the rule for service between specified points or, where routings are not so indicated, via the routings which yield the shortest mileage.

PRICE STABILIZATION

Although the Cost of Living Council has exempted from the price stabilization program rates for foreign air transportation which are established or approved by the Board, the minimum rates set forth in this amendment to Part 288 also apply to services performed for the military in overseas air transportation and in air transportation between the contiguous 48 States and Hawaii or Alaska, and hence the Board's price stabilization criteria set forth in Part 229 are applicable. As set forth above, we have subjected the carriers' cost submissions to rigorous analysis, both in the review preceding issuance of the notice and after receipt of the comments containing additional data and information. On the basis of the Board's review and analyses, some rates have been increased and some decreased,[27] but overall, based on revenues from military air transportation services for fiscal year 1972, the impact of the changes from current rates is an increase of approximately $10,581,000, or 2.66 percent, for all operations covered by this rate review.

The rate increases are cost based and do not reflect or allow future inflationary expectations. We disallowed anticipatory cost increases from costs projected by the carriers and rejected the notion that the rates should be based on trended costs: the only upward adjustments of base period costs accepted have been those reflecting annualizations of contractual obligations. In our view, the increases are the minimum necessary to assure continued, adequate, and safe service by air carriers for the DOD operations they cover. While the rate of return has been increased over the return used for fiscal year 1971, it is consistent with (though lower than) the rate of return benchmark found reasonable for domestic fare purposes prior to the stabilization program, and it con-

[27] See pp. 14 and 39, supra.

V 38 - 2 JAN 4 73 XUM

tinues a differential we have found appropriate to reflect the lesser degree of risk associated with operating MAC contracts. The rate increases will provide the carriers an opportunity to achieve the minimum rate of return needed to attract capital at reasonable costs and not impair their credit. Moreover, the labor costs reflected in the rates do not exceed those allowed by the Price Commission. We have recognized only those wage and salary increases falling within the Pay Board guidelines of (1) being no more than 5.5 percent per year or (2) being required by a contract which became binding before November 8, 1971. In the case of fringe benefits excluded from consideration as wages and salaries, we have followed the Pay Board's Release 51, February 23, 1972, and adopted the 0.7 percent of wage base standard for exempted benefits, plus the additional 1.5 percent for "catch-up" fringe benefits, as set forth in that guideline.

Finally, expected and obtainable productivity gains are taken into account in the rates, since the rates have been based on unit costs for MAC services and hence the impact on costs of operational and managerial efficiencies is considered as part of the rate review. However, since only quantitatively provable cost increases are recognized, we have not attempted to project speculative productivity gains. Rather, the screening of specific cost areas assures that maximum reasonable use of productive capacity is embodied in the unit costs. In the Board's judgment, the rate increases are consistent with the price stabilization program and the criteria embodied in Part 229 of the economic regulations.

AMENDMENTS

In consideration of the foregoing, the Board hereby amends Part 288 of the Economic regulations (14 CFR Part 288), effective July 1, 1971, as follows:

§ 288.1 [Amended]

1. Amend § 288.1 by deleting the fourth paragraph thereof (the definition of "Category X transportation").

§ 288.2 [Amended]

2. Amend § 288.2 by deleting the words "and X".

§ 288.6 [Amended]

3. Amend § 288.6 by deleting the words "and X".

4. Amend § 288.7(a)(1) to read as follows:

§ 288.7 Reasonable level of compensation.

(a) • • •

(1) Performed with turbine-powered aircraft:

Aircraft type	Passengers, per passenger-mile (cents)		Cargo, per ton mile (cents)		Convertible,[1] (cents)		Mixed passenger-cargo per revenue plane-mile [1]	
	Round trip	1-way	Round trip	1-way	Passenger leg, per passenger mile	Cargo leg, per ton mile	Round trip	1-way
Turboprops:

0 and 7							2.518	5.011

[1] Conversion charges for convertible flights or variable mixed flights shall be at the rate of $50 per seat changed on each segment.

[2] The minimum rate for operation of B-707 in recreation and rehabilitation (R. & R.) service between the Republic of South Vietnam, on the one hand, and Thailand, Malaysia, Singapore, the Republic of the Philippines, Hong Kong, and Taiwan, on the other, shall be 2.567¢ per passenger-mile.

[3] Also applies to CV-990 aircraft.

5. Amend § 288.7(d) (1) and (2) to read as follows:

(d) For Category A transportation:

(1) Passengers, 3.686 cents per passenger-mile.

(2) Cargo, 14.903 cents per ton-mile.

6. Amend § 288.7(d) by deleting and reserving subsection (4) thereof, as follows:

(4) [Reserved]

7. Amend § 288.7(d)(6) by changing the number "4,500" to read "3,750".

8. Delete and reserve § 288.7(e), as follows:

(e) [Reserved]

§ 288.8 [Amended]

9. Replace the table in § 288.8 (minimum aircraft loads) with the following:

Aircraft type	Number of passengers, all-passenger and convertible flights	Tons of cargo	
		All-cargo flights	Convertible flights
B-707-320-B/C	165	36.5	31.7
B-707-300 series	159		
B-707-138B	137

L-1049A	88	15	12
DC-7	88	15	12
DC-6/A/B/C	83	13	12
DC-4	60	8	6

§ 288.10 [Amended]

10. Amend § 288.10(a) by adding after the first sentence thereof the following sentence: "If the direct nonstop airport-to-airport distance between the point of origin of the revenue flight to the point of destination of such flight, or between any pair of points comprising a route segment required to be served by the terms of the DOD contract, is 4,000 miles or more and no intermediate points are required to be served by the terms of the contract or are specified in paragraph (b) of this section, the mileage shall be computed via the routings which yield the shortest mileage."

11. Amend § 288.10 by deleting and reserving paragraph (c) thereof, as follows:

(c) [Reserved]

(Secs. 204, 403, and 416 of the Federal Aviation Act of 1958, as amended; 72 Stat. 743, 758, and 771, as amended; 49 U.S.C. 1324, 1373, and 1386)

NOTE: Appendices A–Q are filed as part of the original document.

By the Civil Aeronautics Board.

[FR Doc.73-167 Filed 1-3-73;8:45 am]

SUBCHAPTER F—POLICY STATEMENTS

[Reg. PS—50; Amdt. 29]

PART 399—STATEMENTS OF GENERAL POLICY

Military Exemptions

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 29th day of December 1972.

On May 31, 1972, by notice of proposed rule making EDR–205A/PSDR–32A (37 FR 11344), the Board proposed, among other things, to amend Part 399, its Statements of General Policy, by changing the minimum rate for Category Z individually ticketed military transportation.

Comments in response to the notice, and reply comments, filed by a number of interested persons, are discussed in ER–786, which amends Part 288 of the Economic Regulations and is being issued concurrently herewith. For the reasons set forth in ER–786, which are incorporated by reference herein, the Civil Aeronautics Board hereby amends Part 399, Statements of General Policy (14 CFR Part 399), effective July 1, 1971, as follows:

Amend § 399.16(b) to read as follows:

§ 399.16 Military exemptions.

• • • • •

(b) The minimum charges considered fair and reasonable for the transportation of Catagory Z individually ticketed passengers in foreign and overseas air transportation and in air transportation between the 48 contiguous States, on the one hand, and Hawaii or Alaska, on the other hand, will be 3.686 cents per passenger-mile, applied to the shortest mileage between the commercial air carrier points as set forth in the current IATA mileage manual to compute point-to-point passenger fares.

(Secs. 204, 403, and 416 of the Federal Aviation Act of 1958, as amended; 72 Stat. 743, 758, and 771, as amended; 49 U.S.C. 1324, 1373, and 1386)

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK, *Secretary.*

Title 18—CONSERVATION OF POWER AND WATER RESOURCES

Chapter I—Federal Power Commission

[Docket No. R–403; Order 440]

PART 201—UNIFORM SYSTEM OF ACCOUNTS FOR NATURAL GAS COMPANIES

PART 204—UNIFORM SYSTEM OF ACCOUNTS FOR CLASS C NATURAL GAS COMPANIES

PART 205—UNIFORM SYSTEM OF ACCOUNTS FOR CLASS D NATURAL GAS COMPANIES

Full-Cost Accounting for Exploration and Development Costs; Correction

DECEMBER 12, 1972.

Revisions in Uniform Systems of Accounts for Natural Gas Companies (Classes A, B, C, and D) and Annual Report Form No. 2 to adopt full-cost accounting for exploration and development costs incurred by pipeline companies on natural gas leases acquired on or after October 8, 1969.

In the order Amending Uniform Systems of Accounts for Classes A, B, C, and D Natural Gas Companies and Annual Report Form No. 2, issued November 5, 1971, and published in the FEDERAL REGISTER November 18, 1971 (36 F.R. 21963): In ordering subparagraphs (A)4, (B)3, and (C)3 in the text of "Special Instructions-Costs Related to Leases Acquired After October 7, 1969" change "account 404.1, Amortization and Depletion of Producing Land and Land Rights" to read "account 404.1, Amortization and Depletion of Producing Natural Gas Land and Land Rights".

MARY B. KIDD, *Acting Secretary.*

[FR Doc.73-112 Filed 1-3-73;8:45 am]

[Docket No. R–403; Order 440–A]

PART 201—UNIFORM SYSTEM OF ACCOUNTS FOR CLASS A AND CLASS B NATURAL GAS COMPANIES

PART 204—UNIFORM SYSTEM OF ACCOUNTS FOR CLASS C NATURAL GAS COMPANIES

PART 205—UNIFORM SYSTEM OF ACCOUNTS FOR CLASS D NATURAL GAS COMPANIES

Full-Cost Accounting for Exploration and Development Costs; Correction

DECEMBER 12, 1972.

Revisions in Uniform Systems of Accounts for Natural Gas Companies (Classes A, B, C, and D) and Annual Report Form No. 2 to adopt full-cost accounting for exploration and development costs incurred by pipeline companies on natural gas leases acquired on or after October 8, 1969.

In the order clarifying and amending Order No. 440 and denying rehearing, issued January 5, 1972, and published in the FEDERAL REGISTER January 15, 1972 (37 FR 601): In ordering subparagraphs (A)12, (A)23, and (A)31 in the text of "Special Instructions-Costs Related to Leases Acquired After October 7, 1969" change "account 404.1, Amortization and Depletion of Producing Land and Land Rights" to read "account 404.1, Amortization and Depletion of Producing Natural Gas Land and Land Rights".

MARY B. KIDD, *Acting Secretary.*

[FR Doc.73-113 Filed 1-3-73;8:45 am]

Title 21—FOOD AND DRUGS

Chapter II—Bureau of Narcotics and Dangerous Drugs, Department of Justice

DRUG ABUSE PREVENTION AND CONTROL

During recent months, the need for several minor changes in the regulations implementing the Comprehensive Drug Abuse Prevention and Control Act of 1970 have been brought to the Bureau's attention.

1. *Bureau of Prisons.* Responsibility for medical care in Federal penitentiaries has been recently transferred from the Public Health Service to the U.S. Bureau of Prisons. In order to continue the exemptions afforded officials affected by this transfer, §§ 301.13(a)(1) and 301.25(a) are amended. This change was suggested by the Public Health Service and the Bureau of Prisons.

2. *Importation by researchers.* Section 301.22(b)(3) is amended to permit researchers to import controlled substances without a separate registration as an importer, if the intent and reasons for importation are set forth in the research protocol, and the legal requirements for importation, set forth in Part 312, are followed. In addition, the section is amended to conform to the new § 301.33.

3. *Registration regarding ocean vessels.* Section 301.28(a) is amended to conform to paragraph (d) of that section, so that the authorization granted in paragraph (a) includes the exception provided in paragraph (d). This change was suggested by the Public Health Service.

4. *Special procedures for applications.* On August 8, 1972, a notice of new procedures was published in the FEDERAL REGISTER (37 F.R. 15943) which detailed two special procedures to expedite the registration of pharmacies. At that time, the notice was not codified with the Bureau regulations; in response to requests, the Director has decided to codify the provisions of the August 8 announcement.

5. *Procedures regarding granting exclusions and exemptions of certain products.* The Bureau has previously published procedures for processing applications for exclusion of products containing controlled substances which can be sold over-the-counter without a prescription (§ 308.21(c)) and those which are packaged and/or adulterated in such a way as to eliminate any abuse of the controlled substance therein (§ 308.23(e)). This procedure included publishing a proposed rule making in the FEDERAL REGISTER, allowing at least 30 days for comments, then publishing a final order later in the FEDERAL REGISTER. In the many proposals made thus far (see 37 FR 867, 992, 17478, 23420, and 23551) the Bureau has not received any comments or objections, other than notice of typographical errors. The Director has determined that the cumbersome procedure should be revised to expedite the exclusion or exemption of these products. Therefore, §§ 308.21(c) and 308.23(e) are revised to make the order effective upon one publication in the FEDERAL REGISTER, with a provision for comments and objections after publication. If any comments or objections raise significant questions, then the order will be immediately suspended until the issues can be resolved. Thereafter, the order will be reinstated, revoked or revised depending on the determination of the issues. The Director finds that this procedure will afford affected persons

V38-2 JAN 4 73 XUM

and the public with sufficient safeguards to protect the interests and safety of all.

6. *Administrative law judge.* Recently, the Civil Service Commission redesignated "hearing examiners" as "administrative law judges." Section 316.42(f) is amended to reflect this change.

Each of these changes is technical in nature and is not expected to generate any comments or objections from interested persons, because they ease the regulatory restrictions on registrants and adversely affect no registrant. In order to include these changes in the next codification of the Code of Federal Regulations, and thereby provide a complete and current book of regulations under the Controlled Substances Act, the Director has determined to make those changes effective before the end of 1972. Therefore, the Director finds that waiver of the usual period for comments and objections is consistent with the public health and safety, with the interests of affected persons, and with the need to provide a codified set of regulations to all registrants.

If any interested person desires to comment on or object to any of the changes made in this order, the Director will consider such comments and objections for purposes of amending or revoking any of these changes. All interested persons are invited to submit their comments and objections in writing with five copies to the Hearing Clerk, Office of Chief Counsel, Bureau of Narcotics and Dangerous Drugs, Department of Justice, Room 611, 1405 I Street, NW., Washington, DC 20537.

Under the authority vested in the Attorney General by sections 201, 202, 301, 302, 303, 304, 501(b), and 505 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, and redelegated to the Director, Bureau of Narcotics and Dangerous Drugs, by § 0.100 of Title 28 of the Code of Federal Regulations, the Director hereby orders that parts 301, 308, and 316 of Title 21 of the Code of Federal Regulations be amended as follows:

PART 301—REGISTRATION OF MANUFACTURERS, DISTRIBUTORS, AND DISPENSERS OF CONTROLLED SUBSTANCES

1. By amending § 301.13(a)(1) to read as follows:

§ 301.13 Persons exempt from fee.

(a) • • •

(1) Any official or agency of the U.S. Army, Navy, Marine Corps, Air Force, Coast Guard, Veterans' Administration, Public Health Service, or Bureau of Prisons who or which is authorized to procure or purchase controlled substances for official use; and

2. By amending § 301.22(b)(3) to read as follows:

• • • • • •

§ 301.22 Separate registration for controlled activities.

(b) • • •

(3) A person registered to conduct research with a basic class of controlled substance listed in schedule I shall be authorized to manufacture or import such class if and to the extent that such manufacture or importation is set forth in the research protocol described in § 301.33 and to distribute such class to other persons registered or authorized to conduct research with such class or registered or authorized to conduct chemical analysis with controlled substances;

• • • • • •

3. By amending § 301.25(a) by revising the first sentence to read as follows:

§ 301.25 Exemption of certain military and other personnel.

(a) The requirement of registration is waived for any official of the U.S. Army, Navy, Marine Corps, Air Force, Coast Guard, Public Health Service, or Bureau of Prisons who is authorized to prescribe, dispense, or administer, but not to procure or purchase, controlled substances in the course of his official duties.

• • • • • •

4. By amending § 301.28(a) to read as follows:

§ 301.28 Registration regarding ocean vessels.

(a) If acquired by and dispensed under the general supervision of a medical officer described in paragraph (b) of this section, or the master of the vessel under the circumstances described in paragraph (d) of this section, controlled substances may be held for stocking, be maintained in, and dispensed from medicine chests, first aid packets, or dispensaries:

• • • • • •

5. By adding a new § 301.38 to read as follows:

§ 301.38 Special procedures for certain applications.

(a) If, at the time of application for registration of a new pharmacy, the pharmacy has been issued a license from the appropriate State licensing agency, the applicant may include with his application an affidavit as to the existence of the State license in the following form:

AFFIDAVIT FOR NEW PHARMACY

I, _____, the _____
(Title of officer, official, partner, or other position) of _____ (Corporation, partnership, or sole proprietor) doing business as _____ at _____
(Store name) (Number and Street)
_____
(City) (State) (Zip code)
hereby certify that said store was issued a pharmacy permit No. _____ by the _____
(Board of Pharmacy or Licensing Agency)
of _____ on _____
(Date)

This statement is submitted in order to obtain a Bureau of Narcotics and Dangerous Drugs registration number. I understand that if any information is false, the Bureau may immediately suspend the registration for this store and commence proceedings to revoke under 21 U.S.C. 824(a) because of the danger to public health and safety. I further understand that any false information contained in this affidavit may subject me personally and the above-named corporation/partnership/business to prosecution under 21 U.S.C. 843, the penalties for conviction of which include imprisonment for up to 4 years, a fine of not more than $30,000 or both.

_____
Signature (Person who signs Application for Registration)

State of_____
County of_____
Subscribed to and sworn before me this _____day of_____, 19_____.

_____
Notary Public

(b) Whenever the ownership of a pharmacy is being transferred from one person to another, if the transferee owns at least one other pharmacy licensed in the same State as the one the ownership of which is being transferred, the transferee may apply for registration prior to the date of transfer. The Director may register the applicant and authorize him to obtain controlled substances at the time of transfer. Such registration shall not authorize the transferee to dispense controlled substances until the pharmacy has been issued a valid State license. The transferee shall include with his application the following affidavit:

AFFIDAVIT FOR TRANSFER OF PHARMACY

I, _____, the _____
(Title of officer, official, partner or other position) of _____, doing business as _____
(Corporation, partnership, or sole proprietor)
hereby certify:
_____ (Store name)

(1) That said company was issued a pharmacy permit No. _____ by the _____
(Board of Pharamy or Licensing Agency)
of _____ and a BNDD Registration Number _____ for a pharmacy located at _____
(Number and Street)
_____; and
(City) (State) (Zip Code)

(2) That said company is acquiring the pharmacy business of _____ doing business as _____ with BNDD Registration Number _____ on or about _____ and that said company has applied (or will apply on _____ for a
(Date of Transfer) (Date)
pharmacy permit from the board of pharmacy (or licensing agency) of the State of _____ to do business as _____
(Store name)
at _____
(Number and Street)
_____
(City) (State) (Zip Code)

This statement is submitted in order to obtain a Bureau of Narcotics and Dangerous Drugs registration number.

I understand that if a BNDD registration number is issued, the pharmacy may acquire controlled substances but may not dispense them until a pharmacy permit or license is issued by the State board of pharmacy or licensing agency.

I understand that if any information is false, the Bureau may immediately suspend the registration for this store and commence proceedings to revoke under 21 U.S.C. 824(a) because of the danger to public health and safety. I further understand that any false information contained in this affidavit may subject me personally to prosecution under 21 U.S.C. 843, the penalties for conviction of which include imprisonment for up to 4 years, a fine of not more than $30,000 or both.

_____
Signature (Person who signs Application for Registration)

State of_____
County of_____
Subscribed to and sworn before me this _____day of_____, 19_____.

_____
Notary Public

(c) The Director shall follow the normal procedures for approving an application to verify the statements in the affidavit. If the statements prove to be false, the Director may revoke the registration on the basis of section 304(a)(1) of the Act (21 U.S.C. 824(a)(1)) and suspend the registration immediately by pending revocation on the basis of section 304(d) of the Act (21 U.S.C. 824(d)). At the same time, the Director may seize and place under seal all controlled substances possessed by the applicant under section 304(f) of the Act (21 U.S.C. 824(f)). Intentional misuse of the affidavit procedure may subject the applicant to prosecution for fraud under section 403(a)(4) of the Act (21 U.S.C. 843(a)(4)), and obtaining controlled substances under a registration fraudulently gotten may subject the applicant to prosecution under section 403(a)(3) of the Act (21 U.S.C. 843(a)(3)). The penalties for conviction of either offense include imprisonment for up to 4 years, a fine not exceeding $30,000 or both.

PART 308—SCHEDULES OF CONTROLLED SUBSTANCES

6. By amending § 308.21(c) to read as follows:

§ 308.21 Schedule II.

• • • • • •

(c) Within a reasonable period of time after the receipt of an application for an exemption under this section, the Director shall notify the applicant of his acceptance or nonacceptance of his application, and if not accepted, the reason therefor. The Director need not accept an application for filing if any of the requirements prescribed in this paragraph or requested pursuant to paragraph (d) of this section is lacking or is not set forth as to be readily understood. If the applicant desires, he may amend the application to meet the requirements of this paragraph and paragraph (c) of this section. If the application is accepted for filing, the Director shall issue and publish in the FEDERAL REGISTER his order on the application, which shall include a reference to the legal authority under which the order is issued and the findings of fact and conclusions of law upon which the order is based. This order shall specify the date on which it shall take effect. The Director shall permit any interested person to file written comments on or objections to the order within 60 days of the date of publication of his order in the FEDERAL REGISTER. If any such comments or objections raise significant issues regarding any finding of fact or conclusion of law upon which the order is based, the Director shall immediately suspend the effectiveness of the order until he may reconsider the application in light of the comments and objections filed. Thereafter, the Director shall reinstate, revoke, or amend his original order as he determines appropriate.

• • • • • •

7. By amending § 308.23(e) to read as follows:

§ 308.23 Exemption of certain chemical preparations; application.

• • • • • •

(e) Within a reasonable period of time after the receipt of an application for an exemption under this section, the Director shall notify the applicant of his acceptance or nonacceptance of his application, and if not accepted, the reason therefor. The Director need not accept an application for filing if any of the requirements prescribed in paragraph (c) or requested pursuant to paragraph (d) is lacking or is not set forth as to be readily understood. If the applicant desires, he may amend the application to meet the requirements of paragraph (c) and (d) of this section. If the application is accepted for filing, the Director shall issue and publish in the FEDERAL REGISTER his order on the application, which shall include a reference to the legal authority under which the order is based. This order shall specify the date on which it shall take effect. The Director shall permit any interested person to file written comments on or objections to the order within 60 days of the date of publication of his order in the FEDERAL REGISTER. If any such comments or objections raise significant issues regarding any finding of fact or conclusion of law upon which the order is based, the Director shall immediately suspend the effectiveness of the order until he may reconsider the application in light of the comments and objections filed. Thereafter, the Director shall reinstate, revoke, or amend his original order as he determines appropriate.

• • • • • •

8. By amending § 316.42(f) to read as follows:

§ 316.42 Definitions.

• • • • • •

(f) The term "presiding officer" means an administrative law judge qualified and appointed as provided in the Administrative Procedure Act (5 U.S.C. 556).

• • • • • •

Effective date. This order is effective upon the date of its publication in the FEDERAL REGISTER (1–4–73). Any interested person may file written comments on or objections to any part of this order within 60 days of the date of publication of this order. If any comment or objection raises a significant issue regarding any finding of fact or conclusion of law upon which this order is based, the Director shall immediately suspend the effectiveness of the order until he may reconsider the application in light of the comments and objections filed. Thereafter, the Director shall reinstate, revoke, or suspend, the Director shall reinstate, revoke, or amend this order as he determines appropriate. Comments and objections should be submitted in quintriplicate to the Hearing Clerk, Office of Chief Counsel, Bureau of Narcotics and Dangerous Drugs, Department of Justice, Room 611, 1405 I Street NW., Washington, DC 20537.

Dated: December 22, 1972.

JOHN E. INGERSOLL,
Director, Bureau of Narcotics and Dangerous Drugs.

[FR Doc.73-17 Filed 1-3-73;8:45 am]

PART 308—SCHEDULES OF CONTROLLED SUBSTANCES

Excluded Nonnarcotic Substances

A notice was published in the FEDERAL REGISTER of November 3, 1972 (37 FR 23436) proposing that a product, Rynal, containing a nonnarcotic controlled substance (methamphetamine) be excluded from all schedules pursuant to section 201(g)(1) of the Controlled Substances Act (21 U.S.C. 811(g)(1)) and § 308.21 of Title 21 of the Code of Federal Regulations. No comments were filed regarding this proposal.

The Director hereby finds, based on information provided by the Food and Drug Administration, that Rynal may lawfully be sold over-the-counter without a prescription under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301) and must be excluded from all schedules of the Controlled Substances Act.

Therefore, under the authority vested in the Attorney General by sections 201(g)(1) and 501(b) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 811(g)(1) and 871(b)) and delegated to the Director of the Bureau of Narcotics and Dangerous Drugs by § 0.100 of Title 28 of the Code of Federal Regulations, the Director hereby orders that Part 308 of Title 21 of the Code of Federal Regulations be amended as follows:

By amending § 308.22 by adding the following product:

§ 308.22 Excluded substances.

• • • • • •

V38-2 JAN 73 XUM

Trade name or other designation	Composition	Manufacturer or supplier
. . .	. . .	. . .
Rynal.....	Solution for Spray: dl-Desoxyephedrine HCl 0.2%; antipyrine 0.8%; pyrilamine maleate 0.01%; methyl dodecylbenzyltrimethyl ammonium chloride 0.02%; glycerine dehydrated 1.50%.	Blaine Co.
. . .	. . .	. . .

Effective date. This order is effective upon the date of its publication in the FEDERAL REGISTER (1-4-72).

Dated: December 22, 1972.

JOHN E. INGERSOLL,
Director, Bureau of Narcotics and Dangerous Drugs.

[FR Doc.73-18 Filed 1-3-73;8:45 am]

Title 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

SUBCHAPTER U—ELECTRIC POWER SYSTEM

PART 233—SAN CARLOS INDIAN IRRIGATION PROJECT, ARIZONA

Service Connections

The authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

A notice of proposed rule making was published on page 19634 of the September 21, 1972, FEDERAL REGISTER (37 FR 19634) to amend § 233.10 of Part 233, Subchapter U, Chapter I, of Title 25 of the Code of Federal Regulations. The purpose of this amendment is to eliminate the need for the project to furnish a meter socket or meter base to consumers. The items are now standardized and, as a general practice in the electric utility industry, the consumer furnishes a complete meter loop. The regulations were proposed pursuant to 5 U.S.C. 301 (1970 ed.), section 5 of the Act of June 7, 1924 (43 Stat. 475–476), and the Act of March 7, 1928 (45 Stat. 210).

Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed regulations. No objections have been received and the proposed regulations are hereby adopted without change and are set forth below.

The revised 25 CFR 233.10 shall become effective February 5, 1973.

CHARLES G. EMLEY,
Deputy Assistant Secretary of the Interior.

DECEMBER 26, 1972.

§ 233.10 Service connections.

On each new service the consumer shall provide and maintain a service entrance at a location convenient to the lines of the project, and all connections from the service entrance to the meter base and from the meter base to the main line circuit breaker or distribution center. The meter will be furnished by the United States. The meter socket will be furnished and installed by the consumer and in a suitable location, preferably on the outside of the building, or service pole, where the meter will be accessible to the meter reader at all times. The meter socket shall not be more than 7 feet nor less than 5 feet above the ground or floor. The entire service installation must be satisfactory to the project engineer and must conform to the provisions then in force of the National Electrical Code of the National Board of Fire Underwriters for Electric Wiring and Apparatus. When alterations of a consumer's premises make it necessary to move an existing meter loop, the consumer may be required to install a meter socket in the new loop, located in conformity with the stipulations of this section. When an inspection is required by municipal ordinance, the project engineer shall require a certificate of inspection and approval by the municipal inspector before connecting a new service.

JOHN O. CROW,
Deputy Commissioner.

[FR Doc.73-140 Filed 1-3-73;8:45 am]

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER A—INCOME TAX

[T.D. 7246]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Consolidated Returns

On August 25, 1971, a notice of proposed rule making to amend the Income Tax Regulations (26 CFR Part 1) under section 1502 of the Internal Revenue Code of 1954, relating to consolidated returns, was published in the FEDERAL REGISTER (36 FR 16661). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendment of the regulations as proposed is hereby adopted, subject to the changes set forth below:

PARAGRAPH 1. Section 1.1502–12(g) as set forth in paragraph 4 of the notice of proposed rule making is changed as set forth below.

PAR. 1A. Paragraph (f)(2)(i) of § 1.1502–13 as set forth in paragraph 5 of the notice of proposed rule making is changed by revising the last sentence thereof and by adding two sentences at the end thereof, to read as set forth below.

PAR. 1B. Paragraph (a)(3) of § 1.1502–15 as set forth in paragraph 7 of the notice of proposed rule making is changed to read as set forth below.

PAR. 2. Paragraph (a)(6) of § 1.1502–19 as set forth in paragraph 9 of the notice of proposed rule making is changed by revising the first sentence thereof to read as set forth below.

PAR. 3. Paragraph (a) of § 1.1502–26 as set forth in paragraph 11 of the notice of proposed rule making is changed by revising the last sentence thereof to read as set forth below.

PAR. 5. Paragraph (b) of § 1.1502–42 in paragraph 13 of the notice of proposed rule making is changed by deleting paragraph (d)(10), by redesignating paragraph (d)(11) as paragraph (d)(10), by revising the last sentence of paragraph (f)(2), and by revising paragraph (g). The section as amended reads as set forth below.

PAR. 5. Paragraph (b) of § 1.1502.42 as set forth in paragraph 15 of the notice of proposed rule making is changed to read as set forth below.

(Secs. 1502, 7805, Internal Revenue Code of 1954, 68A Stat. 367, 917; 26 U.S.C. 1502, 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: December 29, 1972.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

PARAGRAPH 1. Section 1.1502–1(f)(2) is amended to read as follows:

§ 1.1502–1 Definitions.

* * * * * * *

(f) *Separate return limitation year.* * * *

(2) *Exceptions.* The term "separate return limitation year" shall not include—

(i) A separate return year of the corporation which is the common parent for the consolidated return year to which the tax attribute is to be carried (except as provided in § 1.1502–75(d)(2)(ii) and subparagraph (3) of this paragraph),

(ii) A separate return year of any corporation which was a member of the group for each day of such year, or

(iii) A separate return year of a predecessor was a member of the group for each day of such year,

provided that an election under section 1562(a) (relating to the privilege to elect multiple surtax exemptions) was never effective (or is no longer effective as a result of a termination of such election) for such year. An election under section 1562(a) which is effective for a taxable year beginning in 1963 and ending in 1964 shall be disregarded.

* * * * * * *

PAR. 2. Section 1.1502–3 is amended by revising paragraph (a) (3) and (4) to read as follows:

§ 1.1502–3 Consolidated investment credit.

(a) *Determination of amount of consolidated credit.* * * *

(3) *Consolidated limitation based on amount of tax.* (i) Notwithstanding the amount of the consolidated credit earned for the taxable year, the consolidated credit allowed by section 38 to the group for the consolidated return year is limited to—

(*a*) So much of the consolidated liability for tax as does not exceed $25,000. plus

(*b*) For taxable years ending on or before March 9, 1967, 25 percent of the consolidated liability for tax in excess of $25,000, or

(*c*) For taxable years ending after March 9, 1967, 50 percent of the consolidated liability for tax in excess of $25,000.

The $25,000 amount referred to in the preceding sentence shall be reduced by any part of such $25,000 amount apportioned under § 1.46–1 to component members of the controlled group (as defined in section 46(a)(5)) which do not join in the filing of the consolidated return. For further rules for computing the limitation based on amount of tax with respect to the suspension period (as defined in section 48(j)), see section 46(a)(2). The amount determined under this subparagraph is referred to in this section as the "consolidated limitation based on amount of tax."

(ii) If an organization to which section 593 applies or a cooperative organization described in section 1381(a) joins in the filing of the consolidated return, the $25,000 amount referred to in subdivision (i) of this subparagraph (reduced as provided in such subdivision) shall be apportioned equally among the members of the group filing the consolidated return. The amount so apportioned equally to any such organization shall then be decreased in accordance with the provisions of section 46(d). Finally, the sum of all such equal portions (as decreased under section 46(d)) of each member of the group shall be substituted for the $25,000 amount referred to in subdivision (i) of this subparagraph.

(4) *Consolidated liability for tax.* For purposes of subparagraph (3) of this paragraph, the consolidated liability for tax shall be the income tax imposed for the taxable year upon the group by chapter 1 of the Code, reduced by the consolidated foreign tax credit allowable under § 1.1502–4. The tax imposed by section 56 (relating to minimum tax for tax preferences), section 531 (relating to accumulated earnings tax), section 541 (relating to personal holding company tax), and any additional tax imposed by section 1351(d)(1) (relating to recoveries of foreign expropriation losses), shall not be considered tax imposed by chapter 1 of the Code. In addition, any increase in tax resulting from the application of section 47 (relating to certain dispositions, etc., of section 38 property) shall not be treated as tax imposed by chapter 1 for purposes of computing the consolidated liability for tax.

* * * * * * *

PAR. 3. Section 1.1502–11 is amended to read as follows:

§ 1.1502–11 Consolidated taxable income.

(a) *In general.* The consolidated taxable income for a consolidated return year shall be determined by taking into account—

(1) The separate taxable income of each member of the group (see § 1.1502–12 for the computation of separate taxable income);

(2) Any consolidated net operating loss deduction (see § 1.1502–21 for the computation of the consolidated net operating loss deduction);

(3) Any consolidated net capital gain (see § 1.1502–22 for the computation of the consolidated net capital gain);

(4) Any consolidated section 1231 net loss (see § 1.1502–23 for the computation of the consolidated section 1231 net loss);

(5) Any consolidated charitable contributions deduction (see § 1.1502–24 for the computation of the consolidated charitable contributions deduction);

(6) Any consolidated section 922 deduction (see § 1.1502–25 for the computation of the consolidated section 922 deduction);

(7) Any consolidated dividends received deduction (see § 1.1502–26 for the computation of the consolidated dividends received deduction); and

(8) Any consolidated section 247 deduction (see § 1.1502–27 for the computation of the consolidated section 247 deduction).

(b) *Disposition of stock of a subsidiary*—(1) *In general.* If there is a disposition (as defined in § 1.1502–19(b)) of stock (ignoring for this purpose stock which is limited and preferred as to dividends) of a subsidiary during the taxable year, the adjustments under § 1.1502–32 (b) with respect to such stock and the amount of gain or loss on disposition shall be determined in accordance with this paragraph, and the amounts taken into account in computing consolidated taxable income shall be limited as provided in this paragraph.

(2) *Determination of amount of gain or loss on disposition.* For the purpose of determining gain or loss on disposition—

(i) Consolidated taxable income or consolidated net operating loss (and earnings and profits or deficit in earnings and profits) for the taxable year shall be determined tentatively without regard to gain or loss on disposition,

(ii) The adjustments under § 1.1502–32(b) with respect to the stock disposed of shall be based upon the amounts determined under subdivision (i) of this subparagraph, and

(iii) Gain (including any amount included in income under § 1.1502–19(a)) or loss on disposition shall be determined in accordance with such adjustments to basis.

(3) *Limitation on carryovers.* If this paragraph applies—

(i) The portion of any consolidated net capital or net operating loss carryover attributable to the subsidiary whose stock is disposed of, and

(ii) The portion of any net capital or net operating loss carryover from a separate return year of such subsidiary,

which may be carried to the taxable year shall not exceed the amount of any such carryover which could be carried to the taxable year if the tentative consolidated taxable income determined under subparagraph (2)(i) of this paragraph were consolidated taxable income for the year.

(4) *Limitation on loss.* If there is gain (including any amount included in income under § 1.1502–19(a)) on disposition—

(i) The amount of capital losses of the subsidiary whose stock is disposed of taken into account under § 1.1502–22 shall be reduced by an amount equal to the portion of any tentative consolidated net capital loss attributable to the subsidiary under § 1.1502–79(b)(2), and

(ii) The amount of the excess of deductions over gross income of such subsidiary taken into account under paragraph (a)(1) of this section and § 1.1502–21(f)(1) shall be reduced by an amount equal to the portion of any tentative consolidated net operating loss attributable to the subsidiary under § 1.1502–79(a)(3).

The amount of any loss or excess deductions not taken into account because of the limitations of subdivisions (i) and (ii) of this subparagraph shall be treated as a net capital or net operating loss sustained in the taxable year and shall be carried to those taxable years (consolidated or separate) to which a consolidated net capital or net operating loss could be carried under §§ 1.1502–21, 1.1502–22, and 1.1502–79, but the portion of such loss which may be carried to a prior year shall not exceed the portion of the tentative consolidated net capital or net operating loss attributable to the subsidiary which could be carried to such year if the tentative consolidated net capital or net operating loss determined under subparagraph (2)(i) of this paragraph were the consolidated net capital or net operating loss for the year.

(5) *Adjustments to stock not disposed of.* If some of the stock of a subsidiary is disposed of but the subsidiary remains a member, the adjustments under § 1.1502–32 with respect to stock not disposed of shall include an allocable portion of the amount treated as a net capital or net operating loss under subparagraph (4) of this paragraph which is not carried back and absorbed in a prior taxable year.

(6) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). (a) Assume that corporation P and its wholly owned subsidiary S, both incorporated on January 1, 1969, comprise an affiliated group and file a consolidated return for the taxable years 1969 and 1970. In 1969, the group has consolidated taxable income of $30 and a consolidated net capital loss of $100, of which $50 is attributable to S. On

V38-2 JAN 4 73 XUM

January 1, 1970, the adjusted basis of the S stock is $300. In 1970, P has a net capital gain of $20 (computed without regard to any capital loss carryover and without regard to gain from the disposition of the S stock) and ordinary income of $30, and S has a deficit of $100. On December 31, 1970, P sells all of the stock of S for 280.

(b) Tentative consolidated taxable income consists of (1) net capital gain of zero ($20 capital gain reduced by $20 of the net capital loss carryover, of which $10 is attributable to S), and (2) a net operating loss of $70, all of which is attributable to S and $30 of which may be carried back and absorbed in 1969.

(c) Under § 1.1502–32 (b) and (e) and subparagraph (2)(ii) of this paragraph there is a net negative adjustment to the basis of the S stock of $70 (negative adjustments of $100 for the deficit and $10 for the portion of the consolidated net capital loss for 1969 attributable to S which is carried over and absorbed in the taxable year, and a positive adjustment of $40 for the portion of the consolidated net operating loss attributable to S which is not carried back and absorbed in 1969). Accordingly, the adjusted basis of the S stock is $230 and a gain of $50 is realized on the sale.

(d) Under subparagraph (3)(i) of this paragraph, the consolidated net capital loss carryover is limited to $60 (all of the portion attributable to P ($50), plus the amount attributable to S included in the tentative computation ($10) under subdivision (b)(1) of this example). Under subparagraph (4)(i) of this paragraph, the excess of deductions over income of S ($100) taken into account is reduced by an amount equal to the portion of the tentative consolidated net operating loss attributable to S ($70). Accordingly, consolidated taxable income for 1970 is computed as follows:

Consolidated net capital gain:		
Capital gain for 1970	$70 i.e., 50+20	
Capital loss carryover from 1969	60	$10
Income exclusive of capital gain:		
P	30	
S	(30) i.e. (100)−70	0
Consolidated taxable income		10

The amount by which the excess of deductions over income of S is reduced ($70) is treated as a net operating loss of S for the year; $30 of such amount is carried back and absorbed in 1969 and $40 may be carried over to a separate return year of S. In addition, S has a net capital loss carryover of $40 from 1969.

Example (2). (a) Assume that corporation P owns all 10 outstanding shares of corporation S and that P and S comprise an affiliated group which files a consolidated return for 1969, 1970, and 1971. Neither P nor S was in existence before January 1, 1969. In 1969, the group has consolidated taxable income of $100. On January 1, 1970, the adjusted basis of each of the 10 shares of S is $40. In 1970, P has a deficit of $80 (determined without regard to gain on the disposition of the S stock) and S has a deficit of $80. On December 31, 1970, P sells two shares of the S stock for $85 each.

(b) The tentative consolidated net operating loss for 1970 is $160 of which $80 is attributable to S. One hundred dollars of such tentative loss is carried back and absorbed in 1969 and of this amount the portion attributable to S is $50.

(c) Under § 1.1502–32 (b) and (e) and subparagraph (2)(ii) of this paragraph, there is a net negative adjustment to each of the two shares of S stock sold by P of $5, i.e., an allocable portion of an aggregate net negative adjustment of $50 (a negative adjustment of $80 for the deficit and a positive adjustment of $30 for the portion of the consolidated net operating loss attributable to S which is not carried back and absorbed in 1969). Accordingly, the adjusted basis of each of the two shares of S stock disposed of by P is $35 and a gain of $100 is realized on the sale of the two shares of stock.

(d) Under subparagraph (4)(ii) of this paragraph, the excess of deductions over income of S ($80) taken into account is reduced by an amount equal to the portion of the tentative consolidated net operating loss attributable to S ($80). Accordingly, consolidated taxable income for 1970 is computed as follows:

Consolidated net capital gain		$100
Income exclusive of capital gain:		
P	($80)	
S	0 i.e. (80)−80	(80)
Consolidated taxable income		20

The amount by which the excess of deductions over income of S is reduced ($80) is treated as a net operating loss of S for the taxable year. Because of the limitation of subparagraph (4) of this paragraph, only $50 of such loss may be carried back and absorbed in 1969, since the portion of such loss which may be carried back to a prior year may not exceed the portion of the tentative consolidated net operating loss attributable to S which was carried back to the prior year in the tentative computation under subparagraph (2)(i) of this paragraph. The remaining $30 may be carried over to 1971 and subsequent years.

(e) Under § 1.1502–32 (b) and (e) and subparagraph (5) of this paragraph, there is a negative adjustment of $5 to the basis of each of the remaining eight shares of S owned by P, i.e., an allocable portion of an aggregate net adjustment of $50 (see subdivision (c) of this example).

Example (3). (a) Assume that corporations P and S comprise an affiliated group and file a consolidated return for 1969. There is no income for years prior to 1969. In 1969, P has capital gain of $100 (determined without regard to loss on the disposition of the S stock) and S has a capital loss of $60. In addition to the capital loss, S has a deficit of $200. On January 1, 1969, the basis of the S stock is $400. On December 31, 1969, P sells all of the stock of S for $140.

(b) Tentative consolidated taxable income consists of (1) net capital gain of $40, and (2) a net operating loss of $160, all of which is attributable to S.

(c) Under § 1.1502–32 (b) and (e) and subparagraph (2) (ii) of this paragraph, there is a net negative adjustment to the basis of the S stock of $100 (a negative adjustment of $260 for the deficit and a positive adjustment of $160 for the portion of the consolidated net operating loss attributable to S, none of which is carried back to a prior year). Accordingly, the adjusted basis of the S stock is $300 and P realizes a loss of $160 on the sale.

(d) Consolidated taxable income for 1969 is computed as follows:

Consolidated net capital loss:		
P	($60) i.e., 100−(160)	
S	(60)	($120)
Income exclusive of capital gain:		
P	0	
S	(200)	(200)
Consolidated net operating loss		(200)

Sixty dollars of the consolidated net capital loss is attributable to S and the entire consolidated net operating loss is attributable to S. Since S is no longer a member of the group, such amounts are apportioned to S under § 1.1502–79 (a) and (b) and may be carried to a subsequent separate return year of S.

PAR. 4. Section 1.1502–12 is amended by revising paragraph (g) to read as follows:

§ 1.1502–12 Separate taxable income.

• • • • •

(g) In the computation of the deduction under section 167, property shall not lose its character as new property as a result of a transfer from one member to another member during a consolidated return year if—

(1) The transfer occurs on or before January 4, 1973, or

(2) The transfer occurs after January 4, 1973, and the transfer is a deferred intercompany transaction as defined in § 1.1502–13(a)(2) or the basis of the property in the hands of the transferee is determined (in whole or in part) by reference to its basis in the hands of the transferor;

• • • • •

PAR. 5. Section 1.1502–13 is amended by revising paragraph (e)(2), by revising that part of paragraph (f)(1) which precedes subdivision (i), and by revising paragraph (f)(2). The revised provisions read as follows:

§ 1.1502–13 Intercompany transactions.

• • • • •

(e) *Restoration of deferred gain or loss for installment obligations and sales.* • • •

(2) *Installment sales.* If—

(i) Property acquired in a deferred intercompany transaction is disposed of outside the group, and

(ii) The purchasing member-vendor reports its income on the installment method under section 453,

then on each date on which the purchasing member-vendor receives an installment payment the selling member shall take into account an amount equal to the deferred gain or loss attributable to such property (after taking into account any prior redeductions under paragraph (d)(3) of this section) multiplied by a fraction, the numerator of which is the installment payment received and the denominator of which is the total contract price. If the deferred gain includes any ordinary income, the ordinary income shall be taken into account first.

• • • • •

(f) *Restoration of deferred gain or loss on dispositions, etc.*—(1) *General rule.* The remaining balance (after taking into account any prior reductions under paragraphs (d)(3) and (e)(3) of this section) of the deferred gain or loss attributable to property, services, or other expenditure shall be taken into account by the selling member as of the earliest of the following dates:

• • • • •

(2) *Exceptions.* (i) Subparagraph (1) of this paragraph shall not apply solely because of a termination of the group (hereinafter referred to as the "terminating group") resulting from—

(*a*) The acquisition by a nonmember corporation of (*1*) the assets of the common parent in a reorganization described in subparagraph (A), (C), or (D) (but only if the requirements of subparagraphs (A) and (B) of section 354(b)(1) are met) of section 368(a)(1), or (2) stock of the common parent, or

(*b*) The acquisition (in a transaction to which § 1.1502–75(d)(3) applies) by a member of (*1*) the assets of a nonmember corporation in a reorganization referred to in (*a*) of this subdivision or (2) stock of a nonmember corporation,

if all the members of the terminating group (other than such common parent if its assets are acquired) immediately before the acquisition are members immediately after the acquisition of another group (hereinafter referred to as the "succeeding group") which files a consolidated return for the first taxable year ending after the date of acquisition. The members of the succeeding group shall succeed to any deferred gain or loss of members of the terminating group and to the status of such members as selling or purchasing members. This subdivision shall not apply with respect to acquisitions occurring before August 25, 1971, except that in the case of an acquisition occurring after April 16, 1968, and before August 25, 1971, this subdivision shall apply if the terminating group and the succeeding group elect to apply § 1.1502–18(c)(4) (notwithstanding the last sentence thereof) with respect to such acquisition. The election shall be made in a joint statement filed by the terminating and succeeding groups on or before March 5, 1973, with the Internal Revenue Service Center or Centers with which the terminating and succeeding groups filed their consolidated returns for the taxable year which includes the date of the acquisition. Such election shall be irrevocable.

(ii) Subparagraph (1)(iii) of this paragraph shall not apply in a case where—

(*a*) The selling member or the member which owns the property, as the case may be, ceases to be a member of the group by reason of an acquisition to which section 381(a) applies, and the acquiring corporation is a member, or

(*b*) The group is terminated, and immediately after such termination the corporation which was the common parent (or a corporation which was a member of the affiliated group and has succeeded to and become the owner of substantially all of the assets of such former parent) owns the property involved and is the selling member or is treated as the selling member under paragraph (c)(6) of this section.

Paragraphs (d) and (e) of this section and this paragraph shall apply to such selling member. Thus, for example, subparagraph (1)(iii) of this paragraph does not apply in a case where corporation P, the common parent of a group consisting of P and corporations S and T, sells an asset to S in a deferred intercompany transaction, and subsequently all of the assets of S are distributed to P in complete liquidation of S. Moreover, if, after the liquidation of S, P sold T, subparagraph (1)(iii) of this paragraph would not apply even though P ceased to be a member of the group.

• • • • •

PAR. 6. Section 1.1502–14 is amended by adding a new paragraph as follows:

§ 1.1502–14 Stock, bonds, and other obligations of members.

• • • • •

(f) *Acquisition of group.* Paragraphs (b)(3), (c), and (d)(2), (3), and (4)(ii) of this section shall not apply solely because of a termination of the group (hereinafter referred to as the "terminating group") resulting from—

(1) The acquisition by a nonmember corporation of (i) the assets of the common parent in a reorganization described in subparagraph (A), (C), or (D) (but only if the requirements of subparagraphs (A) and (B) of section 354(b)(1) are met) of section 368(a)(1), or (ii) stock of the common parent, or

(2) The acquisition (in a transaction to which § 1.1502–75(d)(3) applies) by a member of (i) the assets of a nonmember corporation in a reorganization referred to in subparagraph (1) of this paragraph, or (ii) stock of a nonmember corporation,

if all the members of the terminating group (other than such common parent if its assets are acquired) immediately before the acquisition are members immediately after the acquisition of another group (hereinafter referred to as the "succeeding group") which files a consolidated return for the first taxable year ending after the date of acquisition. The members of the succeeding group shall succeed to any deferred gain or loss of members of the terminating group and to the status of such members as distributing or distributee corporations. This paragraph shall not apply with respect to acquisitions occurring before August 25, 1971.

PAR. 7. Section 1.1502–15 is amended by revising paragraph (a)(2), (3), and (4) to read as follows:

§ 1.1502–15 Limitations on certain deductions.

(a) *Limitation on built-in deductions.* • • •

(2) *Built-in deductions.* (i) For purposes of this paragraph, the term "built-in deductions" for a consolidated return year means those deductions or losses of a corporation which are recognized in such year, or which are recognized in a separate return year and carried over in the form of a net operating or net capital loss to such year, but which are economically accrued in a separate return limitation year (as defined in § 1.1502–1(f)). Such term does not include deductions or losses incurred in rehabilitating such corporation. Thus, for example, assume P is the common parent of a group filing consolidated returns on the basis of a calendar year and that P purchases all of the stock of S on December 31, 1966. Assume further that on December 31, 1966, S owns a capital asset with an adjusted basis of $100 and a fair market value of $50. If the group files a consolidated return for 1967, and S sells the asset for $30, $50 of the $70 loss is treated as a built-in deduction, since it was economically accrued in a separate return limitation year. If S sells the asset for $80 instead of $30, the $20 loss is treated as a built-in deduction. On the other hand, if such asset is a depreciable asset and is not sold by S, depreciation deductions attributable to the $50 difference between basis and fair market value are treated as built-in deductions.

(ii) In determining, for purposes of subdivision (i) of this subparagraph, whether a deduction or loss with respect to any asset is economically accrued in a separate return limitation year, the term "predecessor" as used in § 1.1502–1(f)(1) shall include any transferor of such asset if the basis of the asset in the hands of the transferee is determined (in whole or in part) by reference to its basis in the hands of such transferor.

(3) *Transitional rule.* If the assets which produced the built-in deductions were acquired (either directly or by acquiring a new member) by the group on or before January 4, 1973, and the separate return limitation year in which such deductions were economically accrued ended before such date, then at the option of the taxpayer, the provisions of this paragraph before amendment by T.D. 7246 shall apply, and, in addition, if such assets were acquired on or before April 17, 1968, and the separate return limitation year in which the built-in deductions were economically accrued ended on or before such date, then at the option of the taxpayer, the provisions of § 1.1502–31A(b)(9) shall apply in lieu of this paragraph.

(4) *Exceptions.* (i) Subparagraphs (1), (2), and (3) of this paragraph shall not limit built-in deductions in a taxable year with respect to assets acquired (either directly or by acquiring a new member) by the group if—

(*a*) The group acquired the assets more than 10 years before the first day of such taxable year, or

(*b*) Immediately before the group acquired the assets, the aggregate of the adjusted basis of all assets (other than cash, marketable securities, and goodwill) acquired from the transferor or owned by the new member did not exceed the fair market value of all such assets by more than 15 percent.

(ii) For purposes of subdivision (i)(*b*) of this subparagraph, a security is not a marketable security if immediately before the group acquired the assets—

(*a*) The fair market value of the security is less than 95 percent of its adjusted basis, or

(*b*) The transferor or new member had held the security for at least 24 months, or

V38-2 JAN 4 73 XUM

(c) The security is stock in a corporation at least 50 percent of the fair market value of the outstanding stock of which is owned by the transferor or new member.

. . . . . .

PAR. 8. Section 1.1502–18 is amended by revising paragraph (a) and by adding paragraph (c)(4). The revised and added provisions read as follows:

§ 1.1502–18 Inventory adjustment.

(a) *Definition of intercompany profit amount.* For purposes of this section, the term "intercompany profit amount" for a taxable year means an amount equal to the profits of a corporation (other than those profits which such corporation has elected not to defer pursuant to § 1.1502–13(c)(3) or which have been taken into account pursuant to § 1.1502–13(f)(1)(viii)) arising in transactions with other members of the group with respect to goods which are, at the close of such corporation's taxable year, included in the inventories of any member of the group. See § 1.1502–13(c)(2) with respect to the determination of profits. See the last sentence of § 1.1502–13(f)(1)(i) for rules for determining which goods are considered to be disposed of outside the group and therefore not included in inventories of members.

. . . . . .

(c) *Recovery of initial inventory amount.* • • •

(4) *Acquisition of group.* For purposes of this section, a member of a group shall not become a nonmember or be considered as filing a separate return solely because of a termination of the group (hereinafter referred to as the "terminating group") resulting from—

(i) The acquisition by a nonmember corporation of (*a*) the assets of the common parent in a reorganization described in subparagraph (A), (C), or (D) (but only if the requirements of subparagraphs (A) and (B) of section 354(b)(1) are met) of section 368(a)(1), or (*b*) stock of the common parent, or

(ii) The acquisition (in a transaction to which § 1.1502–75(d)(3) applies) by a member of (*a*) the assets of a nonmember corporation in a reorganization referred to in subdivision (i) of this subparagraph, or (*b*) stock of a nonmember corporation,

if all the members of the terminating group (other than such common parent if its assets are acquired) immediately before the acquisition are members immediately after the acquisition of another group (hereinafter referred to as the "succeeding group") which files a consolidated return for the first taxable year ending after the date of acquisition. The members of the succeeding group shall succeed to any initial inventory amount and to any unrecovered inventor. amount of members of the terminating group. This subparagraph shall not apply with respect to acquisitions occurring before August 25, 1971.

. . . . . .

PAR. 9. Section 1.1502–19 is amended by revising paragraph (a)(3), by adding subparagraphs (5) and (6) to paragraph (a), by revising examples (1) and (2) of paragraph (c)(2), by revising paragraph (e), and by revising paragraph (g). The revised and new provisions read as follows:

§ 1.1502–19 Excess losses.

(a) *Recognition of income.* • • •

(3) *Cancellation or redemption.* If stock of a subsidiary is considered to be disposed of under paragraph (b)(1)(ii) of this section other than in complete liquidation of such subsidiary, any amount which would otherwise be included in the income of the disposing member under subparagraph (1) of this paragraph shall be deferred and taken into account at the time provided in § 1.1502–14(b)(3).

. . . . . .

(5) *Foreign expropriation losses.* If there is a disposition of stock of a subsidiary, subparagraph (1) of this paragraph shall not apply to the excess loss account with respect to such stock to the extent such excess loss account is attributable to a foreign expropriation loss occurring in a taxable year beginning before January 1, 1966, which is absorbed as part of a consolidated net capital or net operating loss carryover in a taxable year ending before January 1, 1971, and the regulations applicable to taxable years beginning before January 1, 1966, shall apply to such disposition.

(6) *Election to reduce basis of other investment.* If there is a disposition (as defined in paragraph (b) of this section after August 25, 1971, of stock of a subsidiary, all or any part of the excess loss account with respect to such stock may be applied to reduce the basis of any other stock or obligations of the subsidiary (whether or not evidenced by a security) held by the disposing member immediately before the disposition. Only the excess loss account which remains after such application shall be included in income under this paragraph. If subparagraph (4) of this paragraph applies to part of the excess loss account, such part must be applied to reduce the basis of stock or obligations under this subparagraph before the other part may be so applied.

. . . . . .

(c) *Effect of chain ownership.* • • •

(2) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). (a) Assume that corporations P, S, T, and U first file a consolidated return for the taxable year beginning January 1, 1966. On that date, P owns all the stock of S with an adjusted basis of $15, S owns all the stock of T with an adjusted basis of $5, and T owns all the stock of U with an adjusted basis of $10. For the year 1966, the group has consolidated taxable income but U has a deficit in earnings and profits of $20. Under § 1.1502–32(b)(2), T reduces its basis with respect to the stock of U to zero and has an excess loss account of $10, S reduces its basis in T's stock to zero and has an excess loss account of $15, and P decreases its basis in S's stock to zero and has an excess loss account of $5.

(b) In 1967 the stock of U becomes worthless. T is considered as having disposed of such stock under paragraph (b) of this section and realizes income of $10. If the group has elected to adjust earnings and profits currently, T will have earnings and profits of $10 resulting from the disposition of the stock of U (see § 1.1502–33(c)(4)(ii)(b)); if the group has not so elected, T will have a deficit in earnings and profits of $10 resulting from the disposition (see § 1.1502–33(c)(4)(i)(b)). However, for purposes of the adjustment under § 1.1502–32(b) to the basis of stock owned by higher-tier members, T's earnings and profits on the disposition are $10 regardless of whether the group adjusts earnings and profits currently (see § 1.1502–32(d)(1)(i)). S's excess loss account with respect to T's stock will be reduced to $5 (see § 1.1502–32(b)(1)(i)). P's excess loss account with respect to S's stock will be reduced to zero and its basis for S's stock will be increased to $5 (see § 1.1502–32(b)(1)(i) or (iii)).

Example (2). Assume the same facts as in example (1) except that the stock of T, rather than the stock of U, becomes worthless and therefore S is considered as having disposed of its stock in T under paragraph (b) of this section and T is considered as having disposed of its stock in U. Since U is the lowest tier subsidiary, this section is applied first with respect to the excess loss account relating to the stock of U with the same result as in example (1). This section is then also applied with respect to the stock of T. Thus, in addition to the result in example (1), S will realize income of $5, and P's basis for S's stock will be increased by $5 to $10.

. . . . . .

(e) *Nontaxable liquidations and reorganizations to which the subsidiary is a party.* If, in a consolidated return year, a member is the transferor or distributor corporation and another member is the acquiring corporation in a transaction to which section 381(a) applies, members owning stock in the transferor or distributor corporation shall not, by reason of such transaction (or by reason of an exchange under section 354 pursuant to such transaction), be considered for purposes of paragraph (b) of this section as having disposed of such stock. If the transaction is a distribution in liquidation to which section 334(b)(1) applies, the excess loss account in the stock of the distributor corporation shall be eliminated. If the transaction involves an exchange to which section 354 applies, the excess loss account in the stock of the transferor corporation surrendered in exchange shall be applied to reduce the basis (or to increase the excess loss account) of the stock received in the exchange or previously owned. If, immediately before a transfer described in section 381(a), the transferor corporation owned stock of the acquiring corporation, the excess loss account in such stock shall be eliminated. For example, assume that corporation P owns all of the stock of corporation S with an excess loss account of $20, and that S owns all of the stock of T with an excess loss account of $30. If S is merged into corporation U (another member) in a transaction described in section 368(a)(1)(A), P will apply the $20 excess loss account against and reduce the basis (or increase the excess loss account) of any stock of U which P owns or receives pursuant to the merger. However, if S is merged into T, the $30 excess loss account in the T stock is eliminated (and is not included in income), and the $20 excess loss account in the S stock becomes a $20 excess loss account in the T stock in the hands of P.

. . . . . .

(g) *Acquisition of group—(1) In general.* Paragraph (b) of this section shall not apply solely because of a termination of the group (hereinafter referred to as the "terminating group") resulting from—

(i) The acquisition by a nonmember corporation of (*a*) the assets of the common parent in a reorganization described in subparagraph (A), (C), or (D) (but only if the requirements of subparagraphs (A) and (B) of section 354(b)(1) are met) of section 368(a)(1), or (*b*) stock of the common parent, or

(ii) The acquisition, in a transaction to which § 1.1502–75(d)(3) applies, by a member of (*a*) the assets of a nonmember corporation in a reorganization referred to in subdivision (i) of this subparagraph, or (*b*) stock of a nonmember corporation,

if all the members of the terminating group (other than such common parent if its assets are acquired) immediately before the acquisition are members immediately after the acquisition of another group (hereinafter referred to as the "succeeding group") which files a consolidated return for the first taxable year ending after the date of acquisition. The members of the succeeding group shall succeed to any excess loss accounts with respect to stock of members of the terminating group as of the date of acquisition. This paragraph shall not apply with respect to acquisitions occurring before August 25, 1971.

(2) *Adjustments—(i) In general.* If any stock of a member of the succeeding group is disposed of under this section, a higher tier limitation member (as defined in subdivision (ii) of this subparagraph) owning stock in the disposing member shall, in making the adjustment under § 1.1502–32(b) with respect to stock of such disposing member, take into account the increase in earning and profits attributable to inclusion of the excess loss account in the income of such member only to the extent that the amount of such excess loss account exceeds the amount of any excess loss account with respect to the stock disposed of at the time of the acquisition. If there are intervening members between the member disposing of stock under this section and a higher tier limitation member, and if a member owning stock in the disposing member is not a higher tier limitation member, then solely for the purpose of the adjustment under § 1.1502–32(b) by the higher tier limitation member with respect to stock of a subsidiary, the adjustments under § 1.1502–32(b) for such intervening members shall be computed as if members owning stock in the disposing member were higher tier limitation members.

(ii) *Limitation member.* A higher tier member of the succeeding group is a "higher tier limitation member" unless such member (*a*) was a member immediately before the acquisition of the same group as the member with respect to the stock of which the excess loss account existed, or (*b*) acquired the assets of the common parent of such group in a reorganization described in subparagraph (1) of this paragraph.

(3) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). (a) Assume there are two affiliated groups, one comprising P, S, and T, and the other comprising X and Y, both of which file consolidated returns for the calendar year 1971. P owns all the stock of S with an adjusted basis of $100, and S owns all the stock of T with an adjusted basis of zero and an excess loss account of $30. X owns all the stock of Y with an adjusted basis of $200. On January 1, 1972, Y acquires all the assets of P in exchange for 20 percent of the stock of X in a reorganization to which section 368(a)(1)(C) applies. As a result of the acquisition of the assets of P by Y, the P-S-T group terminates. X, Y, S, and T file a consolidated return for the first taxable year ending after the date of the acquisition.

(b) Paragraph (b) of this section does not apply, merely because of the termination of the P group, to include in S's income its excess loss account with respect to the stock of T.

(c) If T has a deficit in earnings and profits of $10 for 1972, S would increase its excess loss account with respect to the stock of T to $40, Y would decrease the basis of its S stock (which is a carryover of P's basis) to $90, and X would decrease the basis of its Y stock to $190.

(d) Assume that the stock of T becomes worthless in 1973. S would include $40 in income. For purposes of the adjustments under § 1.1502–32(b), S would have earnings and profits of $40 resulting from the disposition of the stock of T (amount realized, $40, minus the adjusted basis of zero determined by taking into account the adjustments under § 1.1502–32(e)). If S had no other earnings and profits for the year, Y (which is not a higher tier limitation member) would adjust its basis for the stock of S under § 1.1502–32(b)(1)(i) by the full amount of S's earnings and profits, thus increasing the basis of the S stock to $130. The adjustment by Y with respect to the stock of S would ordinarily be reflected under § 1.1502–32(b)(1)(i) or (iii) in the adjustment by X with respect to the stock of Y. However, X is a higher tier limitation member, and, solely for the purpose of determining the adjustment by X with respect to the stock of Y, the adjustment by Y with respect to the stock of S must be recomputed by including only $10 (i.e., the amount by which S's excess loss account in the stock of T, $40, exceeds the excess loss account with respect to such stock at the time of the acquisition, $30) in the adjustment under § 1.1502–32(b)(1)(i). Thus, if there were no other adjustments under § 1.1502–32(b) with respect to the stock of S and Y, X would make a positive adjustment under § 1.1502–32(b)(1)(i) or (iii) and (e)(2) of $10 with respect to the stock of Y, increasing the basis of such stock to $200. The basis of the stock of S held by Y is not affected by the recomputation.

Example (2). Assume the same facts as in example (1) except that the shareholders of P receive more than 50 percent of the stock of X so that the transaction is a reverse acquisition under § 1.1502–75(d)(3) with the X-Y group terminating and the P-S-T group surviving. The adjustments and limitations apply as in example (1).

Example (3). Assume the same facts as in example (1) except that subsequent to the acquisition T has earnings and profits of $100 in 1972 (thus eliminating the excess loss account with respect to the stock of T and increasing the basis of such stock to $70) and a deficit in earnings and profits of $110 in 1973, thereby decreasing the basis with respect to such stock to zero and creating an excess loss account of $40 which is included in S's income in 1973. The adjustments and limitations apply as in example (1).

PAR. 10. Section 1.1502–23 is amended to read as follows:

§ 1.1502–23 Consolidated section 1231 net gain or loss.

The consolidated section 1231 net gain or loss for the taxable year shall be determined by taking into account the aggregate of the gains and losses to which section 1231 applies of the members of the group for the consolidated return year. Section 1231 gains and losses on intercompany transactions shall be reflected as provided in § 1.1502–13. Section 1231 losses that are "built-in deductions" shall be subject to the limitations of §§ 1.1502–21(c) and 1.1502–22(c) as provided in § 1.1502–15(a).

PAR. 11. Section 1.1502–26(a) is amended to read as follows:

§ 1.1502–26 Consolidated dividends received deduction.

(a) *In general.* The consolidated dividends received deduction for the taxable year shall be the lesser of—

(1) The aggregate of the deductions of the members of the group allowable under sections 243(a)(1), 244(a), and 245 (computed without regard to the limitation provided in section 246(b)), or

(2) 85 percent of the consolidated taxable income computed without regard to the consolidated net operating loss deduction, consolidated section 247 deduction, the consolidated dividends received deduction, and any consolidated net capital loss carryback to the taxable year.

Subparagraph 2 of this paragraph shall not apply for any consolidated return year for which there is a consolidated net operating loss. (See paragraph (f) of § 1.1502–21 for the definition of a consolidated net operating loss.) If section 593 applies to one or more members and any member computes additions to the reserve for losses on loans for a taxable year beginning after July 11, 1969, under the percentage of income method provided by section 593(b)(2), the deduction otherwise computed under this section shall be reduced by an amount determined by multiplying such deduction (determined without regard to this sentence and without regard to dividends received by the common parent if such parent does not use the percentage of income method provided by section 593(b)(2)) by the applicable percentage of the member with the highest applicable percentage (determined under subparagraphs (A) and (B) of section 593(b)(2)).

. . . . . .

PAR. 12. Section 1.1502–31(b)(2)(ii) is amended to read as follows:

V 38-2 JAN 4 73 XUM

§ 1.1502–31 Basis of property.

• • • • •

(b) *Basis after liquidation or intercompany distributions with respect to stock.* • • •

(2) *Liquidations and redemptions.* • • •

(ii) The aggregate basis of all property acquired in a distribution in cancellation or redemption of stock (as defined in § 1.1502–14(b)(1)) by a member to another member, other than a liquidation to which section 332 applies, shall be the same as the adjusted basis of the stock exchanged therefor (adjusted in accordance with the rules prescribed in § 1.1502–32(a)), increased by the amount of any liabilities of the distributing corporation assumed by the distributee or to which the property acquired is subject, and reduced by the amount of cash received in the distribution. Such aggregate basis shall be allocated among the assets received (except cash) in proportion to the fair market values of such assets on the date received.

PAR. 13. Section 1.1502–32 is amended by revising paragraph (b) (1)(iii) and (2)(iv), by adding paragraph (c)(3), by revising paragraph (d) (1), (8), and (9), by adding paragraph (d)(10), by revising paragraph (f), by revising paragraph (g), and by deleting examples (3) and (4) in paragraph (j). The revised and added provisions read as follows:

§ 1.1502–32 Investment adjustment.

• • • • •

(b) *Stock which is not limited and preferred as to dividends*—(1) *Postive adjustment.* • • •

(iii) If such subsidiary owns stock in another subsidiary and § 1.1502–33(c)(4)(i) applies to the taxable year, an allocable part of the net positive adjustment made by the higher tier subsidiary for the taxable year with respect to its stock in such other subsidiary.

(2) *Negative adjustment.* • • •

(iv) If such subsidiary owns stock in another subsidiary and § 1.1502–33(c)(4)(i) applies to the taxable year, an allocable part of the net negative adjustment made by the higher tier subsidiary for the taxable year with respect to its stock in such other subsidiary.

(c) *Limited and preferred stock.* • • •

(3) *Exception.* The negative adjustment under subparagraph (2)(i) of this paragraph shall not exceed—

(i) The sum of the positive adjustments under subparagraph (1) of this paragraph for all prior years, minus

(ii) The sum of the negative adjustments under subparagraph (2)(i) of this paragraph for all prior years.

The amount by which the adjustment under subparagraph (2)(i) of this paragraph (determined without regard to this subparagraph) exceeds the amount of such adjustment determined with regard to this subparagraph shall be treated for purposes of paragraph (b)(2)(iii)(*a*) of this section as a distribution with respect to stock which is not limited and preferred as to dividends.

(d) *Operating rules.* For purposes of paragraphs (b) and (c) of this section—

(1) *Earnings and profits.* (i) The earnings and profits (or deficit in earnings and profits) of a member shall be determined under § 1.1502–33, except that—

(*a*) The earnings and profits of a member resulting from the disposition of stock of a subsidiary shall be determined in accordance with § 1.1502–33(c)(4)(ii)(*b*) whether or not such section otherwise applies,

(*b*) Section 1.1502–33(c)(4)(ii)(c)(2) and (3) shall not apply, and

(*c*) In computing the earnings and profits of a member resulting from the disposition of stock or an obligation to which § 1.1502–19(a)(6) applies, the adjusted basis of such stock or obligation shall be determined by taking into account any adjustments under § 1.1502–19(a)(6).

(ii) The undistributed earnings and profits for the taxable year shall first be allocated to all the outstanding stock (including the stock held by nonmembers) which is limited and preferred as to dividends in an amount equal to the excess, if any, of—

(*a*) The cumulative dividends in arrears (determined as of the last day of the subsidiary's taxable year) for all consolidated return years beginning after December 31, 1965, over

(*b*) The accumulated earnings and profits of the subsidiary as of the first day of the taxable year,

but such amount shall not exceed the accumulated earnings and profits of the subsidiary as of the last day of the taxable year. The balance, if any of the undistributed earnings and profits, and any net positive adjustment made by such subsidiary with respect to lower tier subsidiaries, for the taxable year shall be allocated among all the outstanding stock of such subsidiary (including stock held by nonmembers) which is not limited and preferred as to dividends.

• • • • •

(8) *Undistributed earnings and profits.* For purposes of this section, the term "undistributed earnings and profits for the taxable year" means earnings and profits for the taxable year after diminution by reason of distribution of dividends (as defined in § 1.1502–14(a)(1)).

(9) *Preaffiliation year.* The term "preaffiliation year" of a subsidiary means any taxable year which includes at least 1 day on which such subsidiary was not a member of the group, and each taxable year preceding such year.

(10) *Prior consolidated return years beginning after December 31, 1965.* The term "prior consolidated return years beginning after December 31, 1965" shall not include consolidated return years of a corporation which precede the most recent separate return year of such corporation. Thus, if P and its wholly owned subsidiary, S, filed a consolidated return for 1966, separate returns for 1967, and a consolidated return for 1968, P's basis in S's stock is not reduced under paragraph (b)(2)(iii) or (c)(2) of this section because of distributions by S after 1967 out of earnings and profits accumulated in 1966.

• • • • •

(f) *Special rules*—(1) *Transitional rules.* (i) If any subsidiary joined in filing (or was required to join in filing) a consolidated return for a taxable year beginning before January 1, 1966 (whether or not with the same group), then for purposes of determining the basis of stock of such subsidiary as of the first day of the first taxable year to which this section applies, § 1.1502–34A(b)(2), and (c) shall be applied with respect to the stock (other than stock which is limited and preferred as to dividends) of such subsidiary owned by each member as if such stock were disposed of on such date. If the amount of deductions for losses availed of under § 1.1502–34A (b)(2) or (c)(2) exceeds the sum of the aggregate bases of such stock owned by all members, such excess shall be treated as an excess loss account with respect to such stock. See § 1.1502–19(a)(4) with respect to the treatment of such excess loss account.

(ii) No adjustments to the basis of a subsidiary's stock shall be made under paragraph (b)(2)(ii) of this section on account of losses sustained in taxable years beginning before January 1, 1966, to the extent that the basis of such stocks would have been higher as of the beginning of the first taxable year beginning after December 31, 1965, if this section had applied to taxable years beginning before January 1, 1966. For example, assume that subsidiary S was organized in 1961 with $100 capital by the parent of a group filing consolidated returns on a calendar year basis, that S earned $200 in 1961, had no income or losses in 1962 through 1964, and had a deficit of $225 in 1965 that was not absorbed by the parent in 1965 or prior years but was carried over to and absorbed in 1966. The basis of the S stock on January 1, 1966, is $100, but if § 1.1502–32 had applied for the years 1961 through 1965, the basis of the S stock on January 1, 1966, would have been $300. Therefore, to the extent of $200 there is no basis adjustment under paragraph (b)(2)(ii) of this section on account of the absorption, and the adjustment is only $25 ($225 minus $200).

(2) *Deemed dividend.* If all the stock of a subsidiary is owned on each day of the subsidiary's taxable year by members, then at the election of the group, such subsidiary shall be treated for all tax purposes as having made a distribution on the first day of such taxable year in an amount equal to, and out of, its accumulated earnings and profits on the day preceding such day. Each member owning stock in such subsidiary shall be treated for all tax purposes as having received an allocable share of such distribution, and as having immediately contributed such allocable share to the capital of the subsidiary. The election shall be made by submitting a statement, on or before the due date (including any extensions of time) of the consolidated return for such year, to the Internal Revenue Service Center with which the group files such return.

(g) *Adjustment on disposition*—(1) *Separate return year ending on or before January 4, 1973.* A member owning stock in a subsidiary shall, on the first day of the first separate return year ending on or before January 4, 1973, of the member or of the subsidiary, whichever occurs first, decrease its basis for such stock by the lesser of—

(i) The accumulated earnings and profits of the subsidiary, or

(ii) The excess, with respect to such stock, of—

(*a*) The net positive adjustments under paragraph (e)(2) of this section for all consolidated return years, over

(*b*) The net negative adjustments under paragraph (e)(1) of this section for all consolidated return years.

(2) *Separate return year ending after January 4, 1973.* A member owning stock in a subsidiary shall, on the first day of the first separate return year ending after January 4, 1973, of the member or of the subsidiary, whichever occurs first, decrease its basis for such stock by the excess, with respect to such stock, of

(i) The net positive adjustments under paragraph (e)(2) of this section for all consolidated return years, over

(ii) The net negative adjustments under paragraph (e)(1), plus any decreases under paragraph (f)(1)(i), of this section, for all consolidated return years.

If the amount referred to in the preceding sentence exceeds the basis of such stock, the amount of the excess shall, as of the day immediately preceding such first day, be included in the income of such member as income described in § 1.1502–19(a).

(3) *Example.* Assume that in 1967 corporation P organizes corporation S, investing $500 for all of S's stock. For the taxable year 1967, S has earnings and profits of $100, thus increasing P's basis in S's stock to $600 on the last day of 1967. On December 31, 1967, P sells one-half of its stock in S to a nonmember for $370. P recognizes a gain of $70 on such sale, and on January 1, 1968, P's basis for its remaining stock in S is reduced by $50 to $250.

• • • • •

PAR. 14. Section 1.1502–33(c)(4) is amended to read as follows:

§ 1.1502–33 Earnings and profits.

• • • • •

(c) *Stock and obligations.* • • •

(4) *Investment adjustment*—(i) *Taxable years beginning before January 1, 1976.* Except as provided in subdivision (iii) of this subparagraph, for taxable years beginning before January 1, 1976—

(*a*) Adjustments made by a member under § 1.1502–32(e) (1) and (2), and (g) shall not be reflected in the earnings and profits of such member.

(*b*) For purposes of computing the earnings and profits of a member resulting from the disposition of stock of a subsidiary, the adjusted basis of such stock shall be—

(*1*) The adjusted basis determined without regard to adjustments under § 1.1502–32(e) (1) and (2), and (g), plus

(2) The amount of any excess loss account includible in income by such member under § 1.1502–19(a)(1) on such disposition.

(ii) *Taxable years beginning after December 31, 1975.* For taxable years beginning after December 31, 1975—

(*a*) There shall be reflected in the earnings and profits of each member for a taxable year an amount equal to any increase or decrease for such taxable year pursuant to § 1.1502–32(e) (1) and (2), and (g) in such member's basis or excess loss account for its stock in a subsidiary.

(*b*) For purposes of computing the earnings and profits of a member resulting from the disposition of stock of a subsidiary, the adjusted basis of such stock shall be determined by taking into account any adjustments under § 1.1502–32(e) (1) and (2), and (g).

(c) If subdivision (i) of this subparagraph applies for one or more taxable years before this subdivision applies—

(*1*) For purposes of computing the earnings and profits of a member resulting from the disposition of stock of a subsidiary, the adjusted basis of such stock shall be determined by taking into account any adjustments under § 1.1502–32(e) (1) and (2), and (g) for all consolidated return years;

(2) The negative adjustment applicable under § 1.1502–32(b)(2)(iii)(*a*) or (c)(2)(i) to distributions made in years for which this subdivision applies out of earnings and profits accumulated in years for which this subdivision did not apply shall be eliminated in computing earnings and profits; and

(3) The earnings and profits of a member disposing of stock of a subsidiary shall be (*i*) increased by an amount equal to the excess of the positive adjustments with respect to such stock under § 1.1502–32(b)(1) or (c)(1) for all years for which this subdivision did not apply, over the sum of the negative adjustments under § 1.1502–32(b)(2) or (c)(2) for all such years plus any adjustments under § 1.1502–32(b)(2)(iii)(*a*) or (c)(2)(i) which are described in (c)(2) of this subdivision, or (*ii*) decreased by an amount equal to the excess of the sum of the negative adjustments with respect to such stock under § 1.1502–32(b)(2) or (c)(2) for all years for which this subdivision did not apply plus any adjustments under § 1.1502–32(b)(2)(iii)(*a*) or (c)(2)(i) which are described in (c)(2) of this subdivision, over the positive adjustments with respect to such stock under § 1.1502–32 (b)(1) or (c)(1) for all years for which this subdivision did not apply.

(iii) *Election to adjust currently.* For any taxable year beginning before January 1, 1976, the group may elect to apply the provisions of subdivision (ii) of this subparagraph. Such election shall be made by submitting a statement, on or before the due date (including any extensions of time) of the consolidated return for the first taxable year for which the election is to apply, to the internal revenue officer with whom the group files such return. However, such election may be made for any taxable year beginning after December 31, 1965, within 60 days after July 3, 1968, if it is made in conjunction with an election under paragraph (d) of this section. If an election is made under this subdivision for any taxable year, it may not thereafter be revoked and shall apply for all subsequent taxable years beginning before January 1, 1976.

(iv) *Example.* The application of subdivisions (i) and (ii) of this subparagraph may be illustrated by the following example:

Example. (a) Corporation P forms a wholly owned subsidiary, S, on January 1, 1966, with a capital contribution of $100, and the P-S group files consolidated returns for calendar years 1966 and 1967. S earns $100 in 1966 and has no earnings and profits or deficit in 1967. During 1967 S distributes a $50 dividend to P. On December 31, 1967, P sells all of the stock of S for $150.

(b) If the group has not elected under subdivision (iii) of this subparagraph, the $100 earned by S is not reflected in P's earnings and profits in 1966. However, P's earnings and profits are increased by $50 in 1967, since the dividend is reflected in earnings and profits under paragraph (c)(1) of this section and the corresponding negative adjustment under § 1.1502–32(b)(2)(iii)(*a*) is not reflected in earnings and profits. P's earnings and profits are further increased by $50 on the sale of the S stock since, for purposes of computing earnings and profits, the basis of such stock is $100 (the original basis without regard to adjustments under § 1.1502–32(e) (1) and (2)).

(c) If the group has elected under subdivision (iii) of this subparagraph, for 1966, the $100 earned by S, a net positive adjustment under § 1.1502–32(e)(2), is reflected in the earnings and profits of P for 1966. No additional earnings and profits result from the distribution in 1967, since there is a $50 increase under paragraph (c)(1) of this section, and the corresponding $50 negative adjustment under § 1.1502–32(b)(2)(iii)(*a*) is reflected as a decrease in earnings and profits. The subsequent sale of the S stock for $150 does not affect P's earnings and profits since the basis is $150 ($100 original basis plus $100 earnings and profits, minus the $50 distribution out of earnings and profits accumulated in consolidated return years beginning after December 31, 1965).

(d) If the group first elected under subdivision (iii) of this subparagraph for 1967 (so that subdivision (i) was applicable for 1966), the $100 earned by S in 1966 is not reflected in P's earnings and profits in 1966. However, P's earnings and profits are increased by $50 in 1967, since the dividend is reflected in earnings and profits under paragraph (c)(1) of this section, and the corresponding negative adjustment under § 1.1502–32(b)(2)(iii)(*a*) is eliminated under subdivision (ii)(c) of this subparagraph in computing earnings and profits. P's earnings and profits are further increased by $50 on the sale of the S stock, the amount by which the positive adjustment ($100) under § 1.1502–32(b)(1) for years for which subdivision (ii) did not apply exceeds the sum of the negative adjustments under § 1.1502–32(b)(2) for such years (zero) and the negative adjustment ($50) under § 1.1502–32(b)(2)(iii)(*a*) for years for which subdivision (ii) did apply.

V 38-2 JAN 4 73 XUM

(v) *Transitional rule.* (*a*) Adjustments under § 1.1502–32(f)(1) shall not be reflected in earnings and profits.

(*b*) For purposes of computing the earnings and profits of a member on the disposition of stock (or an obligation to which § 1.1502–19(a)(4) applies) of a subsidiary, the adjusted basis of such stock (or obligation) shall be (*1*) the adjusted basis determined without regard to adjustments under §§ 1.1502–32(f)(1), plus (2) the amount of any excess loss account includable in income by such member under § 1.1502–19(a)(4) on such disposition.

(vi) *Stock or obligations with reduced basis.* (*a*) Adjustments under § 1.1502–19(a)(6) shall not be reflected in earnings and profits.

(*b*) For purposes of computing the earnings and profits of a member on the disposition of stock or an obligation to which § 1.1502–19(a)(6) applies, the adjusted basis of such stock or obligation shall be determined by taking into account any adjustments under § 1.1502–19(a)(6) except such adjustments which were made for a taxable year to which subdivision (i) of this subparagraph applies.

* * * * *

PAR. 15. There is inserted after § 1.1502–41 the following new section:

§ 1.1502–42 Mutual savings banks, domestic building and loan associations, and cooperative banks.

In the case of mutual savings banks, domestic building and loan associations and cooperative banks—

(a) In computing for purposes of section 593(b)(1)(B)(ii) total deposits or withdrawable accounts at the close of the taxable year, the total deposits or withdrawable accounts of other members shall be excluded, and

(b) For purposes of section 593(b)(2), a member's taxable income shall be the amount computed under § 1.1502–27(b) (computed without regard to the amount of any addition to the reserve for bad debts of any member determined under section 593(b)(2)). In the case of a taxable year beginning before July 12, 1969, such amount shall be computed without regard to any net operating loss carryback.

PAR. 16. Section 1.1502–75 is amended by revising paragraph (d)(2)(ii), by adding subdivisions (iii) and (iv) to paragraph (d)(2), by adding a sentence at the end of subdivision (i) of paragraph (d)(3), by adding titles to subdivisions (ii) and (iii) of paragraph (d)(3), by adding subdivisions (iv), (v), and (vi) to paragraph (d)(3), by reserving paragraph (i), and by adding paragraph (j). The revised and added provisions read as follows:

§ 1.1502–75 Filing of consolidated returns.

* * * * *

(d) *When group remains in existence.* * * *

(2) *Common parent no longer in existence.* * * *

(ii) *Transfer of assets to subsidiary.* The group shall be considered as remaining in existence notwithstanding that the common parent is no longer in existence if the members of the affiliated group succeed to and become the owners of substantially all of the assets of such former parent and there remains one or more chains of includible corporations connected through stock ownership with a common parent corporation which is an includible corporation and which was a member of the group prior to the date such former parent ceases to exist. For purposes of applying paragraph (f)(2)(i) of § 1.1502–1 to separate return years ending on or before the date on which the former parent ceases to exist, such former parent, and not the new common parent, shall be considered to be the corporation described in such paragraph.

(iii) *Taxable years.* If a transfer of assets described in subdivision (ii) of this subparagraph is an acquisition to which section 381(a) applies and if the group files a consolidated return for the taxable year in which the acquisition occurs, then for purposes of section 381—

(*a*) The former common parent shall not close its taxable year merely because of the acquisition, and all taxable years of such former parent ending on or before the date of acquisition shall be treated as taxable years of the acquiring corporation, and

(*b*) The corporation acquiring the assets shall close its taxable year as of the date of acquisition, and all taxable years of such corporation ending on or before the date of acquisition shall be treated as taxable years of the transferor corporation.

(iv) *Exception.* With respect to acquisitions occurring before January 1, 1971, subdivision (iii) of this subparagraph shall not apply if the group, in its income tax return, treats the taxable year of the former common parent as having closed as of the date of acquisition.

(3) *Reverse acquisitions*—(i) *In general.* * * * For purposes of determining under (*a*) of this subdivision whether the second corporation becomes (or would become) a member of the group of which the first corporation is the common parent, and for purposes of determining whether the former stockholders of the second corporation own more than 50 percent of the outstanding stock of the first corporation, there shall be taken into account any acquisitions or redemptions of the stock of either corporation which are pursuant to a plan of acquisition described in (*a*) or (*b*) of this subdivision.

(ii) *Prior ownership of stock.* * * *

(iii) *Election.* * * *

(iv) *Transfer of assets to subsidiary.* This subparagraph shall not apply to a transaction to which subparagraph (2)(ii) of this paragraph applies.

(v) *Taxable years.* If, in a transaction described in subdivision (i) of this subparagraph, the first corporation files a consolidated return for the first taxable year ending after the date of acquisition, then—

(*a*) The first corporation, and each corporation which, immediately before the acquisition, is a member of the group of which the first corporation is the common parent, shall close its taxable year as of the date of acquisition, and each such corporation shall, immediately after the acquisition, change to the taxable year of the second corporation, and

(*b*) If the acquisition is a transaction described in section 381(a)(2), then for purposes of section 381—

(*1*) All taxable years ending on or before the date of acquisition, of the first corporation and each corporation which, immediately before the acquisition, is a member of the group of which the first corporation is the common parent, shall be treated as taxable years of the transferor corporation, and

(2) The second corporation shall not close its taxable year merely because of such acquisition, and all taxable years ending on or before the date of acquisition, of the second corporation and each corporation which, immediately before the acquisition, is a member of any group of which the second corporation is the common parent, shall be treated as taxable years of the acquiring corporation.

(vi) *Exception.* With respect to acquisitions occurring before April 17, 1968, subdivision (v) of this subparagraph shall not apply if the parties to the transaction, in their income tax returns, treat subdivision (i) as not affecting the closing of taxable years or the operation of section 381.

* * * * *

(i) [Reserved]

(j) *Statements and schedules for subsidiaries.* The statement of gross income and deductions and the schedules required by the instructions on the return shall be prepared and filed in columnar form so that the details of the items of gross income, deductions, and credits for each member may be readily audited. Such statements and schedules shall include in columnar form a reconciliation of surplus for each corporation, and a reconciliation of consolidated surplus. Consolidated balance sheets as of the beginning and close of the taxable year of the group, taken from the books of the members, shall accompany the consolidated return and shall be prepared in a form similar to that required for reconciliation of surplus.

PAR. 17. Section 1.1502–76(b) is amended by revising subparagraphs (1) and (5)(i) to read as follows:

§ 1.1502–76 Taxable year of members of group.

* * * * *

(b) *Income to be included in returns for taxable year*—(1) *Inclusion of income in consolidated return.* The consolidated return of a group must include the income of the common parent for that corporation's entire taxable year (excluding any portion of such taxable year for which its income is properly included in the consolidated return of another group) and, except as provided in subparagraph (5) of this paragraph, the income of each subsidiary for the portion of such taxable year during which it was a member of the group. If § 1.1502–75(d)(2)(ii) applies to a group, then for purposes of this paragraph, the former common parent shall be deemed to continue in existence and shall be regarded as the common parent for the entire taxable year in which the acquisition occurs. If § 1.1502–75(d)(3)(v) applies to a group, then for purposes of the application of this paragraph (other than to a group which ceases to exist as a result of the application of § 1.1502–75(d)(3)(i)), the second corporation (whether or not it remains in existence) shall be treated as the common parent for the entire taxable year of such corporation in which the acquisition occurs, and the first corporation shall be treated as a subsidiary for the portion of such taxable year subsequent to the acquisition.

* * * * *

(5) *Period of 30 days or less may be disregarded.* * *

(i) If within a period of 30 days after the beginning of a corporation's taxable year (determined without regard to the required change to the parent's taxable year) it becomes a member of a group which files a consolidated return for a taxable year which includes such period, then such corporation may at its option be considered to have become a member of the group as of the beginning of the first day of such corporation's taxable year, or

* * * * *

PAR. 18. Section 1.1502–78 is amended by revising paragraphs (a) and (b)(1) to read as follows:

§ 1.1502–78 Tentative carryback adjustments.

(a) *General rule.* If a group has a consolidated net operating loss, a consolidated net capital loss, or a consolidated unused investment credit for any taxable year, then any application under section 6411 for a tentative carryback adjustment of the taxes for a consolidated return year or years preceding such year shall be made by the common parent corporation to the extent such loss or unused investment credit is not apportioned to a corporation for a separate return year pursuant to § 1.1502–79(a), (b), or (c). In the case of the portion of a consolidated net operating loss or consolidated net capital loss or consolidated unused investment credit to which the preceding sentence does not apply, and in the case of a net capital or net operating loss or unused investment credit arising in a separate return year which may be carried back to a consolidated return year, the corporation or corporations to which any such loss or credit is attributable shall make any application under section 6411.

(b) *Special rules*—(1) *Payment of refund.* Any refund allowable under an application referred to in paragraph (a) of this section shall be made directly to and in the name of the corporation filing the application, except that in all cases where a loss is deducted from the consolidated taxable income or a credit is allowed in computing the consolidated tax liability for a consolidated return year, any refund shall be made directly to and in the name of the common parent corporation. The payment of any such refund shall discharge any liability of the Government with respect to such refund.

[T.D. 7247]

PART 1—INCOME TAX: TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

PART 13—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1969

Withholding of Tax Imposed on Foreign Private Foundations

On November 10, 1972, notice of proposed rule making with respect to the amendment of the Income Tax Regulations (26 CFR Part 1) under section 1443(b) of the Internal Revenue Code of 1954 to conform the regulations to changes made by section 101(j)(22)(B) of the Tax Reform Act of 1969 (83 Stat. 528) was published in the FEDERAL REGISTER (37 F.R. 23921). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendment of the regulations as proposed is hereby adopted.

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: December 29, 1972.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

In order to provide rules for the withholding of the tax imposed by section 4948(a) of the Code, the Income Tax Regulations (26 CFR Part 1) under section 1443(b) of the Internal Revenue Code of 1954, as amended by section 101(j)(22)(B) of the Tax Reform Act of 1969 (83 Stat. 528), relating to income subject to section 4948, are hereby amended. Temporary Treasury Regulation 13.14, 35 F.R. 17331 (T.D. 7067, 1970) is repealed.

Section 1.1443–1 is amended by adding thereto a new paragraph (b). This added provision reads as follows:

§ 1.1443–1 Foreign tax-exempt organizations.

* * * * *

(b) *Income subject to section 4948*—(1) *In general*—(i) *Application of withholding provisions.* Except as provided in subdivision (ii) of this subparagraph, in the case of a foreign private foundation which is subject to the tax imposed by section 4948(a) and the regulations thereunder, the withholding provisions of Chapter 3 of the Code and the regulations thereunder shall apply with respect to the gross investment income (as defined in section 4940(c)(2)) of such foundation from sources within the United States (within the meaning of section 861 and the regulations thereunder) as if the excise tax imposed by section 4948(a) were a tax imposed by Chapter 3 of the Code, except that the deduction and withholding shall be at the rate of 4 percent. The withholding requirements imposed by this paragraph are in addition to the requirements otherwise applicable to a withholding agent, such as the depositary requirements of section 6302 and the regulations thereunder. Similarly, the requirements of this paragraph do not obviate a private foundation's obligation to file any return required by law with respect to such an organization, such as the form the foundation is required to file under section 6033 for the taxable year.

(ii) *Special rule with respect to certain tax treaties.* Whenever there exists a tax treaty between the United States and a foreign country, and a foreign private foundation which is subject to the tax imposed by section 4948(a) and the regulations thereunder is a resident of such country or is otherwise entitled to the benefits of such treaty (whether or not such benefits are available to all residents), if the treaty provides that any item or items (or all items with respect to an organization exempt from income taxation) of gross investment income (within the meaning of section 4940(c)(2)) shall be exempt from income tax, the withholding provisions of Chapter 3 of the Code and the regulations thereunder shall not apply to such item or items.

(2) *Return on Form 1042.* Every withholding agent required to deduct and withhold any amount by virtue of the provisions of this paragraph shall make a return of the amount required to be deducted and withheld by completing and filing a Form 1042 with the Internal Revenue Service in accordance with the instructions accompanying that form and submitting the balance due (if any). In addition, in any case in which any amount is so withheld, the withholding agent shall prepare and submit to the foreign private foundation one of the copies of the Form 1042S showing the tax withheld under this paragraph in addition to any tax otherwise shown on such form.

(3) *Claims for refund and credits.* Claims for refund of or credit for amounts overpaid shall be made on a Form 843 or 1042 or other appropriate form, which shall be filed with the Mid-Atlantic Service Center on or after January 1, 1973. Claims filed prior to January 1, 1973, shall be filed with the Director of International Operations. In determining whether a claim for refund is appropriate and, if appropriate, who should make the claim, the provisions of section 1464 and the regulations thereunder shall apply.

(4) *Identification of foreign private foundations; general rule.* (i) Except as provided in subparagraph (6) of this paragraph, where a foreign organiza-

V 38-2 JAN 4 73 XUM

tion does not have a ruling or determination letter that it is an organization described in section 509(a) (1), (2), (3), or (4), any person required under section 1443(b) and this paragraph to deduct and withhold any tax imposed by section 4948(a) on such foreign organization (if it were a private foundation) shall not be liable for such tax if prior to the day on which the person deposits or pays to the Internal Revenue Service any amount required to be withheld, such person has made a good faith determination that the foreign organization is an organization described in section 509 (a) (1), (2), (3), or (4). For purposes of this subdivision, such a "good faith determination" ordinarily will be considered as made where the determination is based on an affidavit of the foreign organization or an opinion of counsel (of the withholding agent or the foreign organization) that the foreign organization is an organization described in section 509(a) (1), (2), (3), or (4). Such an affidavit or opinion must set forth sufficient facts concerning the operations and support of the foreign organization for the Internal Revenue Service to determine that such organization would be likely to qualify as an organization described in section 509(a) (1), (2), (3), or (4).

(ii) For special transitional rules relating to the identification of foreign private foundations, see subparagraph (5) of this paragraph.

(iii) Nothing in this paragraph relieves any foreign private foundation of the liability for the tax (including interest and penalties) imposed by section 4948(a).

(5) *Special transitional rules relating to identification of foreign private foundations.* (i) Any person required under section 1443(b) and this paragraph to deduct and withhold any tax imposed by section 4948(a) on any foreign organization for any period after December 31, 1969, and before the 90th day after publication of final regulations under section 508 in the FEDERAL REGISTER shall not be liable for such tax if such person receives a certified statement from the foreign organization prior to the day on which the person deposits or pays to the Internal Revenue Service any amount required to be withheld stating that either—

(*a*) Such foreign organization has properly filed the notice described in section 508(b) and the regulations thereunder and has not been notified by the Commissioner or his delegate by the 30th day after the day on which the notice is filed that such notice has failed to establish that such foreign organization is not a private foundation, or

(*b*) The presumption contained in section 508(b) does not apply to such foreign organization by reason of section 508(c) and the regulations thereunder.

(ii) If a certified statement described in subdivision (i) of this subparagraph is not received prior to the day on which a deposit or payment of any amount withheld in accordance with the provisions of this paragraph must be made by any person required to deduct and withhold any tax imposed by section 4948(a) with respect to any foreign organization, except as provided in subparagraph (4) of this paragraph such person shall be liable for all such tax imposed (including interest and penalties) for the period being returned by such person on Form 1042, to the extent that such person incurs liability to the foreign organization for gross investment income, as defined in section 4940(c)(2).

(iii) Any foreign organization to which section 508 by reason of section 4948(b) does not apply because such organization has received substantially all of its support (other than gross investment income, as defined in section 4940 (c)(2)) from sources outside the United States may nevertheless receive the benefits of subdivision (i) of this subparagraph by following the procedure set forth in such subdivision.

(6) *Effect of notice by Internal Revenue Service concerning organization's statement.* Subparagraphs (4) and (5) of this paragraph shall have no effect with respect to a withholding agent as to a particular foreign organization on or after the earlier (i) the date on which such agent acquires knowledge that the Internal Revenue Service has given notice to such foreign organization that its notice or statement has failed to establish that it is not a private foundation, (ii) the date on which the Internal Revenue Service makes notice to the public that such foreign organization has failed to establish that it is not a private foundation, or (iii) the date on which the Internal Revenue Service makes notice to the public that such foreign organization is a private foundation.

SUBCHAPTER D—MISCELLANEOUS EXCISE TAXES

[T.D. 7249]

PART 42—FOUNDATION EXCISE TAXES

Operating Foundations

On January 5, 1971, notice of proposed rule making in order to conform the Excise Tax Regulations (26 CFR Part 53) to section 4942(j)(3) of the Internal Revenue Code of 1954, relating to operating foundations, as added by section 101(b) of the Tax Reform Act of 1969 (83 Stat. 506) was published in the FEDERAL REGISTER (36 F.R. 107). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendment of the regulations as proposed is hereby adopted as set forth below:

PARAGRAPH 1. Section 53.4942(b), as set forth in the notice of proposed rule making, is deleted.

PAR. 2. Sections 53.4942(b)-1 through 53.4942(b)-6, as set forth in the notice of proposed rule making, are revised by deleting §§ 53.4942(b)-4 through 53.4942 (b)-6 and by amending §§ 53.4942(b)-1 through 53.4942(b)-3. These amended sections are inserted immediately following § 53.4942(a)-3 and read as follows:

Sec.
53.4942(b)-1 Operating foundations.
53.4942(b)-2 Alternative tests.
53.4942(b)-3 Determination of compliance with operating foundation tests.

§ 53.4942(b)-1 Operating foundations.

(a) *In general.* For purposes of section 4942 and the regulations thereunder, the term "operating foundation" means any private foundation which makes qualifying distributions (within the meaning of paragraph (a)(2) of § 53.4942(a)-3) directly for the active conduct of activities constituting its charitable, educational, or other similar exempt purpose equal in value to substantially all of its adjusted net income (as defined in paragraph (d) of § 53.4942(a)-2) and which, in addition, satisfies either the assets test set forth in paragraph (a) of § 53.4942(b)-2, the endowment test set forth in paragraph (b) of such section, or the support test set forth in paragraph (c) of such section.

(b) *Active conduct of activities constituting the exempt purpose*—(1) *In general.* For purposes of this section, except as provided in subparagraph (2) or (3) of this paragraph, qualifying distributions are not made by a foundation "directly for the active conduct of activities constituting its charitable, educational, or other similar exempt purpose" unless such qualifying distributions are used by the foundation itself, rather than by or through one or more grantee organizations which receive such qualifying distributions directly or indirectly from such foundation. Thus, grants made to other organizations to assist them in conducting activities which help to accomplish their charitable, educational, or other similar exempt purpose are considered an indirect, rather than direct, means of carrying out activities constituting the charitable, educational, or other similar exempt purpose of the grantor foundation, regardless of the fact that the exempt activities of the grantee organization may assist the grantor foundation in carrying out its own exempt activities. However, amounts paid to acquire or maintain assets which are used directly in the conduct of the foundation's exempt activities, such as the operating assets of a museum, public park, or historic site, are considered direct expenditures for the active conduct of the foundation's exempt activities. Likewise, administrative expenses (such as staff salaries and traveling expenses) and other operating costs necessary to conduct the foundation's exempt activities (regardless of whether they are "directly for the active conduct" of such exempt activities) shall be treated as qualifying distributions expended directly for the active conduct of such exempt activities if such expenses and costs are reasonable in amount. Conversely, administrative expenses and operating costs which are not attributable to exempt activities, such as expenses in connection with the production of investment income, are not treated as such qualifying distributions. Expenses attributable to both exempt and nonexempt activities shall be allocated to each such activity on a reasonable and consistently applied basis. Any amount set aside by a foundation for a specific project, such as the acquisition and restoration, or construction, of additional buildings or facilities which are to be used by the foundation directly for the active conduct of the foundation's exempt activities, shall be deemed to be qualifying distributions expended directly for the active conduct of the foundation's exempt activities if the initial setting aside of the funds constitutes a set-aside within the meaning of paragraph (b) of § 53.4942 (a)-3.

(2) *Payments to individual beneficiaries*—(i) *In general.* If a foundation makes or awards grants, scholarships, or other payments to individual beneficiaries (including program related investments within the meaning of section 4944 (c) made to individuals or corporate enterprises) to support active programs conducted to carry out the foundation's charitable, educational, or other similar exempt purpose, such grants, scholarships, or other payments will be treated as qualifying distributions made directly for the active conduct of exempt activities for purposes of paragrarph (a) of this section only if the foundation, apart from the making or awarding of the grants, scholarships, or other payments, otherwise maintains some significant involvement (as defined in subdivision (ii) of this subparagraph) in the active programs in support of which such grants, scholarships, or other payments were made or awarded. Whether the making or awarding of grants, scholarships, or other payments constitutes qualifying distributions made directly for the active conduct of the foundation's exempt activities is to be determined on the basis of the facts and circumstances of each particular case. The test applied is a qualitative, rather than a strictly quantitative, one. Therefore, if the foundation maintains a significant involvement (as defined in subdivision (ii) of this subparagraph) it will not fail to meet the general rule of subparagraph (1) of this paragraph solely because more of its funds are devoted to the making or awarding of grants, scholarships, or other payments than to the active programs which such grants, scholarships, or other payments support. However, if a foundation does no more than select, screen, and investigate applicants for grants or scholarships, pursuant to which the recipients perform their work or studies alone or exclusively under the direction of some other organization, such grants or scholarships will not be treated as qualifying distributions made directly for the active conduct of the foundation's exempt activities. The administrative expenses of such screening and investigation (as opposed to the grants or scholarships themselves) may be treated as qualifying distributions made directly for the active conduct of the foundation's exempt activities.

(ii) *Definition.* For purposes of this subparagraph, a foundation will be considered as maintaining a "significant involvement" in a charitable, educational, or other similar exempt activity in connection with which grants, scholarships, or other payments are made or awarded if—

(A) An exempt purpose of the foundation is the relief of poverty or human distress, and its exempt activities are designed to ameliorate conditions among a poor or distressed class of persons or in an area subject to poverty or national disaster (such as providing food or clothing to indigents or residents of a disaster area), the making or awarding of the grants or other payments to accomplish such exempt purpose is direct and without the assistance of an intervening organization or agency, and the foundation maintains a salaried or voluntary staff of administrators, researchers, or other personnel who supervise and direct the activities described in this subdivision (A) on a continuing basis; or

(B) The foundation has developed some specialized skills, expertise, or involvement in a particular discipline or substantive area (such as scientific or medical research, social work, education, or the social sciences), it maintains a salaried staff of administrators, researchers, or other personnel who supervise or conduct programs or activities which support and advance the foundation's work in its particular area of interest, and, as a part of such programs or activities, the foundation makes or awards grants, scholarships, or other payments to individuals to encourage and further their involvement in the foundation's particular area of interest and in some segment of the programs or activities carried on by the foundation (such as grants under which the recipients, in addition to independent study, attend classes, seminars, or conferences sponsored or conducted by the foundation, or grants to engage in social work or scientific research projects which are under the general direction and supervision of the foundation).

(3) *Payment of section 4940 tax.* For purposes of section 4942(j)(3) (A) and (B)(ii), payment of the tax imposed upon a foundation under section 4940 shall be considered a qualifying distribution which is made directly for the active conduct of activities constituting the foundation's charitable, educational, or other similar exempt purpose.

(c) *Substantially all.* For purposes of this section, the term "substantially all" shall mean 85 percent or more. Thus, if a foundation makes qualifying distributions directly for the active conduct of activities constituting its charitable, educational, or other similar exempt purpose in an amount equal to at least 85 percent of its adjusted net income, it will be considered as satisfying the income test described in this section even if it makes grants to organizations or engages in other activities with the remainder of its adjusted net income and with other funds. In determining whether the amount of qualifying distributions made directly for the active conduct of such exempt activities equals at least 85 percent of a foundation's adjusted net income, a foundation is not required to trace the source of such expenditures to determine whether they were derived from income or from contributions.

(d) *Examples.* The provisions of this section may be illustrated by the following examples. It is assumed that none of the organizations described in these examples is described in section 509(a) (1), (2), or (3).

Example (1). N, an exempt museum described in section 501(c)(3), was founded by the gift of an endowment from a single contributor. N uses 90 percent of its adjusted net income to operate the museum. If N satisfies one of the tests set forth in § 53.4942(b)-2 it may be classified as an operating foundation since substantially all of the qualifying distributions made by N are used directly for the active conduct of N's exempt activities within the meaning of paragraph (b)(1) of this section.

Example (2). M, an exempt organization described in section 501(c)(3), was created to improve conditions in a particular urban ghetto. M receives its funds primarily from a limited number of wealthy contributors interested in helping carry out its exempt purpose. M's program consists of making a survey of the problems of the ghetto to determine the areas in which its funds may be applied most effectively. Approximately 10 percent of M's adjusted net income is used to conduct this survey. The balance of its income is used to make grants to other nonprofit organizations doing work in the ghetto in those areas determined to have the greatest likelihood of resulting in improved conditions. Under these circumstances, since only 10 percent of M's adjusted net income may be considered as constituting qualifying distributions made directly for the active conduct of M's exempt activities, M cannot qualify as an operating foundation.

Example (3). Assume the facts as stated in example (2), except that M uses the remaining 90 percent of its adjusted net income for the following purposes: (1) M maintains a salaried staff of social workers and researchers who analyze its surveys and make recommendations as to methods for improving ghetto conditions; (2) M makes grants to independent social scientists who assist in these analyses and recommendations; (3) M publishes periodic reports indicating the results of its surveys and recommendations; (4) M makes grants to social workers and others who act as advisers to nonprofit organizations, as well as small business enterprises, functioning in the community (these advisers acting under the general direction of M attempt to implement M's recommendations through their advice and assistance to the nonprofit organizations and small business enterprises); and (5) M makes grants to other social scientists who study and report on the success of the various enterprises which attempt to implement M's recommendations. Under these circumstances, M satisfies the requirements of paragraph (b)(2) of this section, and the various grants it makes constitute qualifying distributions made directly for the active conduct of its exempt activities. Thus, if M satisfies one of the tests set forth in § 53.4942(b)-2 it may be classified as an operating foundation.

Example (4). P, an exempt educational organization described in section 501(c)(3), was created for the purpose of training

V38-2 JAN 4 73 XUM

teachers for institutions of higher education. Each year P awards a substantial number of fellowships to students for graduate study leading toward their M.A. or Ph. D. degrees. The applicants for these fellowships are carefully screened by P's staff, and only those applicants who indicate a strong interest in teaching in colleges or universities are chosen. P publishes and circulates various pamphlets encouraging a development of interest in college teaching and describing its fellowships. P also conducts annual summer seminars which are attended by its fellowship recipients, its staff, consultants, and other interested parties. The purpose of these seminars is to foster and encourage the development of college teaching. P publishes a report of the seminar proceedings along with related studies written by those who attended. Despite the fact that a substantial portion of P's adjusted net income is devoted to granting fellowships, its commitment to encouraging individuals to become teachers at institutions of higher learning, its maintenance of a staff and programs designed to further this purpose, and the granting of fellowships to encourage involvement both in its own seminars and in its exempt purpose indicate a significant involvement by P beyond the mere granting of fellowships. Thus, the fellowship grants made by P constitute qualifying distributions made directly for the active conduct of P's exempt activities within the meaning of paragraph (b)(2) of this section.

Example (5). Q, an exempt organization described in section 501(c)(3), is composed of professional organizations interested in different branches of one academic discipline. Q trains its own professional staff, conducts its own program of research, selects research topics, screens and investigates grant recipients, makes grants to those selected, and sets up and conducts conferences and seminars for the grantees. Q has particular knowledge and skill in the given discipline, carries on activities to advance its study of that discipline, and makes grants to individuals to enable them to participate in activities which it conducts in carrying out its exempt purpose. Under these circumstances, Q's grants constitute qualifying distributions made directly for the active conduct of Q's exempt activities within the meaning of paragraph (b)(2) of this section.

Example (6). R, an exempt medical research organization described in section 501(c)(3), was created to study and perform research concerning heart disease. R has its own research center in which it carries on a broad number of research projects in the field of heart disease with its own professional staff. Physicians and scientists who are interested in special projects in this area present the plans for their projects to R. The directors of R study these plans and decide if the project is feasible and will further the work being done by R. If it is, R makes a grant to the individual to enable him to carry out his project, either at R's facilities or elsewhere. Reports of the progress of the project are made periodically to R, and R exercises a certain amount of supervision over the project. The resulting findings of these projects are usually published by R. Under these circumstances, the grants made by R constitute qualifying distributions made directly for the active conduct of R's exempt activities within the meaning of paragraph (b)(2) of this section.

Example (7). S, an exempt organization described in section 501(c)(3), maintains a large library of manuscripts and other historical reference material relating to the history and development of the region in which the collection is located. S makes a limited number of annual grants to enable post-doctoral scholars and doctoral candidates to use its library. Sometimes S obtains the right to publish the scholar's work, although this is not a prerequisite to the receipt of a grant. The primary criterion for selection of grant recipients is the usefulness of the library's resources to the applicant's field of study. Under these circumstances, the grants made by S constitute qualifying distributions made directly for the active conduct of S's exempt activities within the meaning of paragraph (b)(2) of this section.

Example (8). T, an exempt charitable organization described in section 501(c)(3), was created by the members of one family for the purpose of relieving poverty and human suffering. T has a large salaried staff of employees who operate offices in various areas throughout the country. Its employees make gifts of food and clothing to poor persons in the area serviced by each office. On occasion, T also provides temporary relief in the form of food and clothing to persons in areas stricken by natural disasters. If conditions improve in one poverty area, T transfers the resources of the office in that area to another poverty area. Under these circumstances, the gifts of food and clothing made by T constitute qualifying distributions made directly for the active conduct of T's exempt activities within the meaning of paragraph (b)(2) of this section.

Example (9). U, an exempt scientific organization described in section 501(c)(3), was created for the principal purpose of studying the effects of early childhood brain damage. U conducts an active and continuous research program in this area through a salaried staff of scientists and physicians. As part of its research program, U awards scholarships to young people suffering mild brain damage to enable them to attend special schools equipped to handle such problems. The recipients are periodically tested to determine the effect of such schooling upon them. Under these circumstances, the scholarships awarded by U constitute qualifying distributions made directly for the active conduct of U's exempt activities within the meaning of paragraph (b)(2) of this section.

Example (10). O, an exempt charitable organization described in section 501(c)(3), was created for the purpose of giving scholarships to children of the employees of X Corporation who meet the standards set by O. O not only screens and investigates each applicant to make sure that he complies with the academic and financial requirements set for scholarship recipients, but also administers an examination which each applicant must take—90 percent of O's adjusted net income is used in awarding these scholarships to the chosen applicants. O does not conduct any activities of an educational nature on its own. Under these circumstances, O is not using substantially all of its adjusted net income directly for the active conduct of its exempt activities within the meaning of paragraph (b) of this section. Thus, O is not an operating foundation because it fails to satisfy the income test set forth in paragraph (a) of this section.

§ 53.4942(b)-2 Alternative tests.

(a) *Assets test*—(1) *In general.* A private foundation will satisfy the assets test under the provisions of this paragraph if substantially more than half of the foundation's assets:

(i) Are devoted directly (A) to the active conduct of activities constituting the foundation's charitable, educational, or other similar exempt purpose, (B) to functionally related businesses (as defined in paragraph (c)(3)(iii) of § 53.4942(a)-2), or (C) to any combination thereof;

(ii) Are stock of a corporation which is controlled by the foundation (within the meaning of section 368(c)) and substantially all the assets of which (within the meaning of paragraph (c) of § 53.4942(b)-1) are so devoted; or

(iii) Are in part assets which are described in subdivision (i) of this subparagraph and in part stock which is described in subdivision (ii) of this subparagraph.

(2) *Qualifying assets*—(i) *In general.* For purposes of subparagraph (1) of this paragraph, an asset is "devoted directly to the active conduct of activities constituting the foundation's charitable, educational, or other similar exempt purpose" only if the asset is actually used by the foundation directly for the active conduct of activities constituting its charitable, educational, or other similar exempt purpose. Thus, such assets as real estate, physical facilities or objects (such as museum assets, classroom fixtures and equipment, and research facilities), and intangible assets (such as patents, copyrights, and trademarks) will be considered qualifying assets for purposes of this paragraph to the extent they are used directly for the active conduct of the foundation's exempt activities. However, assets which are held for the production of income, for investment, or for some other similar use (for example, stocks, bonds, interest-bearing notes, endowment funds, or, generally, leased real estate) are not devoted directly to the active conduct of the foundation's exempt activities, even though the income derived from such assets is used to carry out such exempt activities. Whether an asset is held for the production of income, for investment, or for some other similar use rather than being used for the active conduct of the foundation's exempt activities is a question of fact. For example, an office building used for the purpose of providing offices for employees engaged in the management of endowment funds of the foundation is not devoted to the active conduct of the foundation's exempt activities. However, where property is used both for exempt purposes and for other purposes, if such exempt use represents 95 percent or more of the total use, such property shall be considered to be used exclusively for an exempt purpose. Property acquired by a foundation to be used in carrying out the foundation's exempt purpose may be considered as devoted directly to the active conduct of such purpose even though the property, in whole or in part, is leased for a limited period of time during which arrangements are made for its conversion to the use for which it was acquired, provided such income-producing use of the property does not exceed a reasonable period of time. Generally, 1 year shall be deemed to be a reasonable period of time for purposes of the immediately preceding sentence. Similarly, where property is leased by a foundation in carrying out its exempt purpose and where the rental income derived from such property by the foundation is less than the amount which would be required to be charged in order to recover the cost of purchase and maintenance of such property (taking into account the deductions permitted by paragraph (d)(4) of § 53.4942(a)-2), such property shall be considered devoted directly to the active conduct of the foundation's exempt activities.

(ii) *Limitations.* (A) Assets which are held for the purpose of extending credit or making funds available to members of a charitable class (including any interest in a program related-investment, except as provided in paragraph (b)(2) of § 53.4942(b)-1) are not considered assets devoted directly to the active conduct of activities constituting the foundation's charitable, educational, or other similar exempt purpose. For example, assets which are set aside in special reserve accounts to guarantee student loans made by lending institutions will not be considered assets devoted directly to the active conduct of the foundation's exempt activities.

(B) Any amount set aside by a foundation within the meaning of paragraph (b)(1) of § 53.4942(b)-1 shall not be treated as an asset devoted directly to the active conduct of the foundation's exempt activities.

(3) *Assets held for less than a taxable year.* For purposes of this paragraph, any asset which is held by a foundation for part of a taxable year shall be taken into account for such taxable year by multiplying the fair market value of such asset (as determined pursuant to subparagraph (4) of this paragraph) by a fraction, the numerator of which is the number of days in such taxable year that the foundation held such asset and the denominator of which is the number of days in such taxable year.

(4) *Valuation.* For purposes of this paragraph, all assets shall be valued at their fair market value. Fair market value shall be determined in accordance with the rules set forth in paragraph (c)(4) of § 53.4942(a)-2, except in the case of assets which are devoted directly to the active conduct of the foundation's exempt activities and for which neither a ready market nor standard valuation methods exist (such as historical objects or buildings, certain works of art, and botanical gardens). In such cases, the historical cost (unadjusted for depreciation) shall be considered equal to fair market value unless the foundation demonstrates that fair market value is other than cost. In any case in which the foundation so demonstrates that the fair market value of an asset is other than historical cost, such substituted valuation may be used for the taxable year for which such new valuation is demonstrated and for each of the succeeding 4 taxable years if the valuation methods and procedures prescribed by paragraph (c)(4)(iv)(B) of § 53.4942(a)-2 are followed.

(5) *Substantially more than half.* For purposes of this paragraph, the term "substantially more than half" shall mean 65 percent or more.

(6) *Examples.* The provisions of this paragraph may be illustrated by the following examples. It is assumed that none of the organizations described in these examples is described in section 509(a)(1), (2), or (3).

Example (1). W, an exempt organization described in section 501(c)(3), is devoted to the maintenance and operation of a historic area for the benefit of the general public. W has acquired and erected facilities for lodging and other visitor accommodations in such area, which W operates through a wholly owned, separately incorporated, taxable entity. These facilities comprise substantially all of the subsidiary's assets. The operation of such accommodations constitutes a functionally related business within the meaning of paragraph (c)(3)(iii) of § 53.4942(a)-2. Under these circumstances, the stock of the subsidiary will be considered as part of W's assets which may be taken into account by W in determining whether it satisfies the assets test described in this paragraph.

Example (2). M, an exempt conservation organization described in section 501(c)(3), is devoted to acquiring, preserving, and otherwise making available for public use geographically diversified areas of natural beauty. M has acquired and erected facilities for lodging and other visitor accommodations in national park areas. The operation of such accommodations constitutes a functionally related business within the meaning of paragraph (c)(3)(iii) of § 53.4942(a)-2. Therefore, M's assets which are directly devoted to such visitor accommodations may be taken into account by M in determining whether it satisfies the assets test described in this paragraph.

Example (3). P, an exempt organization described in section 501(c)(3), is devoted to acquiring and restoring historic houses. To insure that the restored houses will be kept in the restored condition, and to make the houses more readily available for public display, P rents the houses rather than sells them once they have been restored. The rental income derived by P is substantially less than the amount which would be required to be charged in order to recover the cost of purchase, restoration, and maintenance of such houses. Therefore, such houses may be taken into account by P in determining whether it satisfies the assets test described in this paragraph.

Example (4). Z, an exempt organization described in section 501(c)(3), is devoted to improving the public's understanding of Renaissance art. Z's principal assets are a number of paintings of this period which it circulates on an active and continuing basis to museums and schools for public display. These paintings constitute 80 percent of Z's assets. Under these circumstances, although Z does not have a building in which it displays these paintings, such paintings are devoted directly to the active conduct of activities constituting Z's exempt purpose. Therefore, Z has satisfied the assets test described in this paragraph.

(b) *Endowment test*—(1) *In general.* A foundation will satisfy the endowment test under the provisions of this paragraph if it normally makes qualifying distributions (within the meaning of paragraph (a)(2) of § 53.4942(a)-3) directly for the active conduct of activities constituting its charitable, educational, or other similar exempt purpose in an amount not less than two-thirds of its minimum investment return (as defined in paragraph (c) of § 53.4942(a)-2). In determining whether the amount of such qualifying distributions is not less than an amount equal to two-thirds of the foundation's minimum investment return, the foundation is not required to trace the source of such expenditures to determine whether they were derived from investment income or from contributions.

(2) *Definitions.* For purposes of this paragraph, the phrase "directly for the active conduct of activities constituting the foundation's charitable, educational, or other similar exempt purpose" shall have the same meaning as in paragraph (b) of § 53.4942(b)-1.

(3) *Example.* This paragraph may be illustrated by the following example:

Example. X, an exempt organization described in section 501(c)(3) and not described in section 509(a)(1), (2), or (3), was created on July 15, 1970. X uses the cash receipts and disbursements method of accounting. For 1971, the fair market value of X's assets not described in paragraph (c)(2) or (3) of § 53.4942(a)-2 is $400,000. X makes qualifying distributions for 1971 directly for the active conduct of its exempt activities of $17,000. For 1971 two-thirds of X's minimum investment return is $16,000 (6 percent × $400,000 = $24,000; ⅔ × $24,000 = $16,000). Under these circumstances, X has satisfied the endowment test described in this paragraph for 1971. However, if X's qualifying distributions for 1971 directly for the active conduct of its exempt activities were only $15,000, X would not satisfy the endowment test for 1971, unless the fair market value of its assets not described in paragraph (c)(2) or (3) of § 53.4942(a)-2 were no greater than $375,000 (6 percent × $375,000 = $22,500; ⅔ × $22,500 = $15,000).

(c) *Support test*—(1) *In general.* A foundation will satisfy the support test under the provisions of this paragraph if:

(i) Substantially all of its support (other than gross investment income as defined in section 509(e)) is normally received from the general public and from five or more exempt organizations which are not described in section 4946(a)(1)(H) with respect to each other or the recipient foundation;

(ii) Not more than 25 percent of its support (other than gross investment income) is normally received from any one such exempt organization; and

(iii) Not more than half of its support is normally received from gross investment income.

(2) *Definitions and special rules.* For purposes of this paragraph—

(i) *Support.* The term "support" shall have the same meaning as in section 509(d).

(ii) *Substantially all.* The term "substantially all" shall have the same meaning as in paragraph (c) of § 53.4942(b)-1.

(iii) *Support from exempt organizations.* The support received from any one exempt organization may be counted towards satisfaction of the support test described in this paragraph only if the foundation receives support from no fewer than five exempt organizations. For example, a foundation which normally receives 20 percent of its support (other than gross investment income) from each of five exempt organizations

V 38 - 2 JAN 4 73 XUM

may qualify under this paragraph even though it receives no support from the general public. However, if a foundation normally received 10 percent of its support from each of three exempt organizations and the balance of its support from sources other than exempt organizations, such support could not be taken into account in determining whether the foundation had satisfied the support test set forth in this paragraph.

(iv) *Support from the general public.* "Support" received from an individual, or from a trust or corporation (other than an exempt organization), shall be taken into account as support from the general public only to the extent that the total amount of the support received from any such individual, trust, or corporation during the period for determining the normal sources of the foundation's support (as set forth in § 53.4942(b)–3) does not exceed 1 percent of the foundation's total support (other than gross investment income) for such period. In applying this 1-percent limitation, all support received by the foundation from any person and from any other person or persons standing in a relationship to such person which is described in section 4946(a)(1) (C) through (G) and the regulations thereunder shall be treated as received from one person. For purposes of this paragraph, support received from a governmental unit described in section 170(c)(1) shall be treated as support received from the general public, but shall not be subject to the 1-percent limitation.

§ 53.4942(b)–3 Determination of compliance with operating foundation tests.

(a) *In general.* A foundation may satisfy the income test and either the assets, endowment, or support test by satisfying such tests for any 3 taxable years during a 4-year period consisting of the taxable year in question and the three immediately preceding taxable years or on the basis of an aggregation of all pertinent amounts of income or assets held, received, or distributed during such 4-year period. A foundation may not use one method for satisfying the income test described in paragraph (a) of § 53.4942(b)–1 and another for satisfying either the assets, endowment, or support test described in § 53.4942(b)–2. Thus, if a foundation satisfies the income test on the 3-out-of-4-year basis for a particular taxable year, it may not use the aggregation method for satisfying either the assets, endowment, or support test for such particular taxable year. However, the fact that a foundation has chosen one method for satisfying the tests under §§ 53.4942(b)–1 and 53.4942(b)–2 for 1 taxable year will not preclude it from satisfying such tests for a subsequent taxable year by the alternate method. If a foundation fails to satisfy the income test and either the assets, endowment, or support test for a particular taxable year under either the 3-out-of-4-year method or the aggregation method, it shall be treated as a nonoperating foundation for such taxable year and for all subsequent taxable years until it satisfies the tests set forth in §§ 53.4942(b)–1 and 53.4942(b)–2 for a taxable year occurring after the taxable year in which it was treated as a nonoperating foundation.

(b) *New organizations*—(1) *In general.* Except as provided in subparagraph (2) of this paragraph, an organization organized after December 31, 1969, will be treated as an operating foundation only if it has satisfied the tests set forth in §§ 53.4942(b)–1 and 53.4942(b)–2 for its first taxable year of existence. If an organization satisfies such tests for its 1st taxable year, it will be treated as an operating foundation from the beginning of such taxable year. If such is the case, the organization will be treated as an operating foundation for its 2d and 3d taxable years of existence only if it satisfies the tests set forth in §§ 53.4942(b)–1 and 53.4942(b)–2 by the aggregation method for all such taxable years that it has been in existence.

(2) *Special rule.* An organization organized after December 31, 1969, will be treated as an operating foundation prior to the end of its 1st taxable year if such organization has made a good faith determination that it is likely to satisfy the income test set forth in paragraph (a) of § 53.4942(b)–1 and one of the tests set forth in § 53.4942(b)–2 for such 1st taxable year pursuant to subparagraph (1) of this paragraph. Such a "good faith determination" ordinarily will be considered as made where the determination is based on an affidavit or opinion of counsel of such organization that such requirements will be satisfied. Such an affidavit or opinion must set forth sufficient facts concerning the operations and support of such organization for the Commissioner to be able to determine that such organization is likely to satisfy such requirements. An organization which, pursuant to this subparagraph, has been treated as an operating foundation for its 1st taxable year, but actually fails to qualify as an operating foundation under subparagraph (1) of this paragraph for such taxable year, will be treated as a private foundation which is not an operating foundation as of the 1st day of its 2d taxable year for purposes of making any determination under the internal revenue laws with respect to such organization. The preceding sentence shall not apply if such organization establishes to the satisfaction of the Commisioner that it is likely to qualify as an operating foundation on the basis of its 2d, 3d, and 4th taxable years. Thus, if such an organization fails to qualify as an operating foundation in its 2d, 3d, or 4th taxable year after having failed in its 1st taxable year, it will be treated as a private foundation which is not an operating foundation as of the 1st day of such 2d, 3d, or 4th taxable year in which it fails to qualify as an operating foundation, except as otherwise provided by paragraph (d) of this section. Such status as a private foundation which is not an operating foundation will continue until such time as the organization is able to satisfy the tests set forth in §§ 53.4942(b)–1 and 53.4942(b)–2 by either the 3-out-of-4-year method or the aggregation method. For the status of grants or contributions made to such an organization with respect to sections 170 and 4942, see paragraph (d) of this section.

(c) *Transitional rule for existing organizations.* An organization organized before December 31, 1969 (including organizations deemed to be so organized by virtue of the principles of paragraph (e)(2) of § 53.4942(a)–2), but which is unable to satisfy the tests under §§ 53.4942(b)–1 and 53.4942(b)–2 for its first taxable year beginning after December 31, 1969 on the basis of its operations for taxable years prior to such taxable year by either the 3-out-of-4-year method or the aggregation method, will be treated as a new organization for purposes of paragraph (b) of this section only if:

(1) The organization changes its methods of operation prior to its first taxable year beginning after December 31, 1972 to conform to the requirements of §§ 53.4942(b)–1 and 53.4942(b)–2;

(2) The organization has made a good faith determination (within the meaning of paragraph (b)(2) of the section) that it is likely to satisfy the tests set forth in §§ 53.4942(b)–1 and 53.4942(b)–2 prior to its first taxable year beginning after December 31, 1972 on the basis of its income or assets held, received, or distributed during its taxable years beginning in 1970 through 1972; and

(3) Such good faith determination is attached to the return the organization is required to file under section 6033 for its taxable year beginning in 1972.

(d) *Treatment of contributions*—(1) *In general.* The status of grants or contributions made to an operating foundation with respect to sections 170 and 4942 will not be affected until notice of change of status of such organization is made to the public (such as by publication in the Internal Revenue Bulletin), unless the grant or contribution was made after:

(i) The act or failure to act that resulted in the organization's inability to satisfy the requirements of §§ 53.4942(b)–1 and 53.4942(b)–2, and the grantor or contributor was responsible for, or was aware of, such act or failure to act, or

(ii) The grantor or contributor acquired knowledge that the Commissioner has given notice to such organization that it would be deleted from classification as an operating foundation.

(2) *Exception.* For purposes of subparagraph (1)(i) of this paragraph, a grantor or contributor will not be considered to be responsible for, or aware of, the act or failure to act that resulted

in the grantee organization's inability to satisfy the requirements of §§ 53.4942(b)–1 and 53.4942(b)–2 if such grantor or contributor has made his grant or contribution in reliance upon a written statement by the grantee organization that such grant or contribution would not result in the inability of such grantee organization to qualify as an operating foundation. Such a statement must be signed by a foundation manager (as defined in section 4946(b)) of the grantee organization and must set forth sufficient facts concerning the operations and support of such grantee organization to assure a reasonably prudent man that his grant or contribution will not result in the grantee organization's inability to qualify as an operating foundation.

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: December 29, 1972.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

V 38 - 2 JAN 4 73 XUM

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

INCOME TAX

Consolidated Return Regulations

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by February 5, 1973. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by February 5, 1973. In such case, a public hearing will be held and notice of time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in sections 1502 and 7805 of the Internal Revenue Code of 1954 (68A Stat. 637, 917; 26 U.S.C. 1502, 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to reflect the amendments made by section 512 of the Tax Reform Act of 1969 and section 106 of the Revenue Act of 1971, and to make other miscellaneous amendments, the Income Tax Regulations (26 CFR Part 1) under section 1502 of the Internal Revenue Code of 1954 are amended as follows:

PARAGRAPH 1. Section 1.1502–3 is amended as follows: (1) A new sentence is added as flush material at the end of paragraph (c)(2). (2) New subparagraph (3) is added to paragraph (c). (3) New examples (4) and (5) are added to paragraph (d). (4) A new sentence is added as flush material at the end of paragraph (e)(2). (5) New subparagraph (3) is added to paragraph (e). The new and revised provisions are set forth below:

§ 1.1502–3 Consolidated investment credit.

* * * * * *

(c) *Limitation on investment credit carryovers and carrybacks from separate return limitation years.* * * *

(2) *Computation of limitation.* * * * In the case of an unused credit arising in a separate return limitation year ending before January 1, 1971, which is an investment credit carryover to a consolidated return year beginning after December 31, 1970, the amount determined under this subparagraph shall be computed without regard to subdivision (ii)(*a*) of this subparagraph.

(3) *Treatment as unused credit arising in separate return limitation year.* If the amount of an investment credit carryover from a separate return limitation year of a member ending before January 1, 1971, which is added to the amount allowable as a credit for a consolidated return year beginning after December 31, 1970, exceeds the amount of such carryover which could be so added were it not for the last sentence of subparagraph (2) of this paragraph, then an amount of credit earned by such member for the taxable year equal to such excess shall not be taken into account for purposes of computing the consolidated credit earned. Instead, such amount shall be treated as an unused credit of such member arising in a separate return limitation year of such member.

(d) *Examples.* * * *

Example (4). (i) Corporation P acquires all the outstanding stock of corporation S on January 1, 1972, and the P–S group files a consolidated return for the calendar year 1972. S has an unused credit of $40 for 1970 which is an investment credit carryover to 1972. P has no unused credits for 1970 and prior years, and neither P nor S has a credit earned or tax liability in 1971. In 1972, P and S each has a credit earned of $50. The limitation based on amount of tax of the group for 1972 is $100 and such limitation recomputed by excluding the items of income, deductions, and foreign tax credit of S is $25.

(ii) Under section 46(b), the amount of S's unused credit from 1970 which may be added to the amount allowable as a credit for 1972 is determined without regard to the credit earned by P and S for 1972. However, since 1970 is a separate return limitation year of S, the amount of the 1970 carryover of S which may be added to the amount allowable as a credit for 1972 is limited to the amount determined under paragraph (c)(2) of this section. The amount determined under such paragraph for 1972 is $75 (the excess of (*a*) the limitation based on amount of tax of the group, $100, minus such limitation recomputed by excluding the items of income, deductions, and foreign tax credit of S, $25, over (b) the unused credits attributable to S which may be carried to 1972 arising in years prior to 1970, zero). Thus, all $40 of S's carryover from 1970 may be added to the amount allowable in 1972.

(iii) If the last sentence of paragraph (c)(2) of this section did not apply, the amount determined under such paragraph would be $25 (the excess of the subdivision (i) amount, $75, over the subdivision (ii) amount, $50). Thus, as a result of the application of the last sentence of paragraph (c)(2) of this section, an additional $15 of the 1970 carryover of S is added to the amount allowable for 1972. Consequently, the amount of credit earned by S for 1972 ($50) which may be taken into account in computing the consolidated credit earned is only $35. The $15 not taken into account as part of the consolidated credit earned for 1972 is treated as an unused credit of S arising in a separate return limitation year and therefore in subsequent years will be subject to the limitation of paragraph (c) of this section.

(iv) The credit earned by the group which may be taken into account in computing consolidated credit earned for 1972 is $85 ($50 from P and $35 from S). Of this amount, only $60, the excess of $100 (the limitation based on amount of tax for 1972) over $40 (the unused credit for 1970 which may be added to the amount allowable for 1972) may be added to the amount allowable for 1972. Therefore, the consolidated unused credit for 1972 is $25.

Example (5). The facts are the same as in example (4) except that in addition P has an unused credit of $120 in 1970 which is an investment credit carryover to 1972. Under paragraph (b)(2) of this section, $75 of P's carryover and $25 of S's carryover is absorbed in 1972. Since the amount of S's carryover which is added to the amount allowable for 1972 does not exceed the amount which could be so added without regard to the last sentence of paragraph (c)(2), all of the credit earned by S for 1972 is taken into account in computing the consolidated credit earned for 1972.

* * * * * *

(e) *Limitation on investment credit carryovers where there has been a consolidated return change of ownership.* * * *

(2) *Computation of limitation.* * * * In the case of an unused credit arising in a taxable year ending before January 1, 1971, which is an investment credit carryover to a taxable year beginning after December 31, 1970, the amount determined under this subparagraph shall be computed without regard to subdivision (i) of this subparagraph.

(3) *Treatment as unused credit arising prior to year of change.* If the aggregate amount of investment credit carryovers from a taxable year ending before January 1, 1971, which is added to the amount allowable as a credit for any year of change beginning after December 31, 1970, or any subsequent year, exceeds the amount of such carryovers which could be so added were it not for the last sentence of subparagraph (2) of this paragraph, then an aggregate amount of the credit earned by the old members for such taxable year beginning after December 31, 1970, equal to such excess shall not be taken into account for purposes of computing the consolidated credit earned for such taxable year. Instead, such amount shall be treated as an unused credit of the old members for such year and, solely for the purpose of applying the limitation of subparagraph (2) of this paragraph, as arising in a taxable year prior to the year of change. The amount of credit earned by each of the old members which is not taken into account is a pro rata share of the aggregate amount of the credit earned by old members which is not taken into account.

* * * * * *

PAR. 2. Section 1.1502–4(d)(1) is amended by revising subdivisions (ii) and (iv) thereof to read as follows:

§ 1.1502–4 Consolidated foreign tax credit.

* * * * * *

(d) *Computation of limitation on credit.* * * *

(1) *Computation of taxable income from foreign sources.* * * *

(ii) Any such foreign source net capital gain (determined without regard to any net capital loss carryover or carryback);

* * * * * *

(iv) The portion of any consolidated net capital loss carryover or carryback attributable to such foreign source income which is absorbed in the taxable year.

* * * * * *

PAR. 3. Section 1.1502–5 is amended by adding a sentence at the end of paragraph (a)(2) and by revising examples (1), (2), and (3) of paragraph (c). The new and revised provisions read as follows:

§ 1.1502–5 Estimated tax.

(a) *General rule.* * * *

(2) *Estimated tax on a separate basis.* * * * Notwithstanding the first sentence of this subparagraph, in the case of a taxable year ending before [the date of publication of this regulation as a Treasury decision] the group may file its declaration of estimated tax on a consolidated basis for the first and second taxable years for which it files a consolidated return and in such case shall be treated as a single corporation for purposes of sections 6016 and 6154.

* * * * * *

(c) *Examples.* * * *

Example (1). Corporations P and S–1 file a consolidated return for the first time for calendar year 1973. P and S–1 also file consolidated returns for 1974 and 1975. For 1973 and 1974 P and S–1 must file separate declarations of estimated tax, and they are entitled to separate $100,000 exemptions. For 1975, however, the group must compute its estimated tax on a consolidated basis, and it is limited to a single $100,000 exemption. In determining whether P and S–1 come within the exception provided in section 6655(d)(1) for 1975, the "tax shown on the return" is the tax shown on the consolidated return for 1974.

Example (2). Assume the same facts as in example (1). Assume further that corporation S–2 was a member of the group during 1974, and joined in the filing of the consolidated return for such year, but ceased to be a member of the group on September 15, 1975. In determining whether the group (which no longer includes S–2) comes within the exception provided in section 6655(d)(1) for 1975, the "tax shown on the return" is the tax shown on the consolidated return for 1974.

Example (3). Assume the same facts as in example (1). Assume further that corporation S–2 becomes a member of the group on June 1, 1975, and joins in the filing of the consolidated return for 1975. In determining whether the group (which now includes S–2) comes within the exception provided in section 6655(d)(1) for 1975, the "tax shown on the return" is the tax shown on the consolidated return for 1974. Any tax of S–2 for any separate return year is not included as a part of the "tax shown on the return" for purposes of applying section 6655(d)(1).

* * * * * *

PAR. 4. Section 1.1502–22 is amended as follows: (1) Paragraph (a)(1)(i) and (iii) is revised. (2) Paragraph (b)(1) is revised. (3) The title of paragraph (c) is revised. (4) Paragraph (c)(2)(i) is revised. The revised provisions are set forth below:

§ 1.1502–22 Consolidated net capital gain or loss.

(a) *Computation—(1) Consolidated net capital gain.* * * *

(i) The aggregate of the capital gains and losses (determined without regard to gains or losses to which section 1231 applies or net capital loss carryovers or carrybacks) of the members of the group for the consolidated return year.

* * * * * *

(iii) The consolidated net capital loss carryovers or carrybacks to such year (as determined under paragraph (b) of this section).

* * * * * *

(b) *Consolidated net capital loss carryovers and carrybacks—(1) In general.* The consolidated net capital loss carryovers and carrybacks to the taxable year shall consist of any consolidated net capital losses of the group, plus any net capital losses of members of the group arising in separate return years of such members, which may be carried over or back to the taxable year under the principles of section 1212(a). However, such consolidated carryovers and carrybacks shall not include any consolidated net capital loss apportioned to a corporation for a separate return year pursuant to paragraph (b) of § 1.1502–79 and shall be subject to the limitations contained in paragraphs (c) and (d) of this section. For purposes of section 1212(a)(1), the portion of any consolidated net capital loss for any taxable year attributable to a foreign expropriation capital loss is the amount of the foreign expropriation capital losses of all the members for such year (but not in excess of the consolidated net capital loss for such year).

* * * * * *

(c) *Limitation on net capital loss carryovers and carrybacks from separate return limitation years.* * * *

(2) *Computation of limitation.* * * *

(i) The consolidated net capital gain for the taxable year (computed without regard to any net capital loss carryovers or carrybacks), minus such consolidated net capital gain for the taxable year recomputed by excluding the capital gains and losses and the gains and losses to which section 1231 applies of such member, over

* * * * * *

PAR. 5. Section 1.1502–24(c) is amended to read as follows:

§ 1.1502–24 Consolidated charitable contributions deduction.

* * * * * *

(c) *Adjusted consolidated taxable income.* For purposes of this section, the adjusted consolidated taxable income of the group for any consolidated return year shall be the consolidated taxable income computed without regard to this section, section 242, section 243(a)(2) and (3), §§ 1.1502–25, 1.1502–26, and 1.1502–27, and without regard to any consolidated net operating or net capital loss carrybacks to such year.

PAR. 6. Section 1.1502–25(c)(2) is amended by revising subdivisions (ii) and (iv) thereof to read as follows:

§ 1.1502–25 Consolidated section 922 deduction.

* * * * * *

(c) *Portion of consolidated taxable income attributable to Western Hemisphere trade corporations.* * * *

(2) *Taxable income.* * * *

(ii) Such member's net capital gain (determined without regard to any net capital loss carryover or carryback attributable to such member);

* * * * * *

(iv) The portion of any consolidated net capital loss carryover or carryback attributable to such member which is absorbed in the taxable year.

* * * * * *

PAR. 7. Section 1.1502–27(b) is amended by revising subparagraphs (2) and (4) to read as follows:

§ 1.1502–27 Consolidated section 247 deduction.

* * * * * *

(b) *Computation of taxable income.* * * *

(2) Such member's net capital gain (determined without regard to any net capital loss carryover or carryback attributable to such member);

* * * * * *

(4) The portion of any consolidated net capital loss carryover or carryback attributable to such member which is absorbed in the taxable year.

PAR. 8. Section 1.1502–32 is amended as follows: (1) Paragraph (b)(2)(iii)(*b*) is revised. (2) New subdivision (c) is added to paragraph (b)(2)(iii). (3) Paragraph (c)(2)(ii) is revised. (4) New subdivision (iii) is added to paragraph (c)(2). The new and revised provisions read as follows:

V 38 - 2 JAN 4 73 XUM

§ 1.1502–32 Investment adjustment.

• • • • •

(b) *Stock which is not limited and preferred as to dividends.* • • •

(2) *Negative adjustment.* • • •

(iii) • • •

(b) Accumulated in preaffiliation years of the subsidiary, if the distribution occurs on or before [the date of publication of this regulation as a Treasury decision]; or

(c) Accumulated in separate return limitation years of the subsidiary, if the distribution occurs after [the date of publication of this regulation as a Treasury decision]; and

• • • • •

(c) *Limited and preferred stock.* • • •

(2) *Negative adjustment.* • • •

(ii) Accumulated in preaffiliation years of the subsidiary, if the distribution occurs on or before [the date of publication of this regulation as a Treasury decision]; or

(iii) Accumulated in separate return limitation years of the subsidiary, if the distribution occurs after [the date of publication of this regulation as a Treasury decision].

• • • • •

PAR. 9. Section 1.1502–41(b) is amended to read as follows:

§ 1.1502–41 Determination of consolidated net long term capital gain and consolidated net short term capital loss.

• • • • •

(b) *Consolidated net short term capital loss.* The consolidated net short term capital loss shall be determined by taking into account (1) those gains and losses to which paragraph (a)(1) of § 1.1502–22 applies which are treated as short term under section 1222, and (2) the consolidated net capital loss carryovers and carrybacks to the taxable year (as determined under paragraph (b) of § 1.1502–22).

PAR. 10. Section 1.1502–42 is amended to read as follows:

§ 1.1502–42 Mutual savings banks, domestic building and loan associations, and cooperative banks.

(a) *In general.* The provisions of this section shall apply to mutual savings banks, domestic building and loan associations, and cooperative banks.

(b) *Total deposits.* In computing for purposes of section 593(b)(1)(B)(ii) total deposits or withdrawable accounts at the close of the taxable year, the total deposits or withdrawable accounts of other members shall be excluded.

(c) *Taxable income.* (1) In the case of a taxable year the due date for the return of which is on or before (the date of publication of this regulation as a Treasury decision), a member's taxable income for purposes of section 593(b)(2) shall be the amount computed under § 1.1502–27(b) (computed without regard to the amount of any addition to the reserve for bad debts of any member determined under section 593(b)(2)). In the case of a taxable year beginning before July 12, 1969, such amount shall be computed without regard to any net operating loss carryback.

(2) In the case of a taxable year the due date for the return of which is after [the date of publication of this regulation as a Treasury decision], a member's taxable income for purposes of section 593(b)(2) shall be the portion of consolidated taxable income attributable to such member. For purposes of this subparagraph, the portion of the consolidated taxable income attributable to a member is an amount equal to the consolidated taxable income (computed without regard to the amount of any additions to reserves for bad debts under section 593(b)(2)) multiplied by a fraction, the numerator of which is the taxable income of the member and the denominator of which is the sum of the taxable incomes of all members of the group. For purposes of the preceding sentence, the taxable income of a member shall be the separate taxable income determined under § 1.1502–12, adjusted for the following items taken into account in the computation of consolidated taxable income:

(i) The portion of the consolidated net operating loss deductions, the consolidated charitable contributions deduction, and the consolidated dividends received deduction, attributable to such member;

(ii) Such member's net capital gain (determined without regard to any net capital loss carryover or carryback attributable to such member);

(iii) Such member's net capital loss and section 1231 net loss, reduced by the portion of the consolidated net capital loss attributable to such member; and

(iv) The portion of any consolidated net capital loss carryover or carryback attributable to such member which is absorbed in the taxable year.

If the computation of the taxable income of a member under this subparagraph results in an excess of deductions over gross income, then for purposes of this subparagraph such member's taxable income shall be zero.

PAR. 11. Section 1.1502–79 is amended by revising paragraph (b)(1) and (2)(i) to read as follows:

§ 1.1502–79 Separate return years.

• • • • •

(b) *Carryover and carryback of consolidated net capital loss to separate return years*—(1) *In general.* If a consolidated net capital loss can be carried under the principles of section 1212(a) and paragraph (b) of § 1.1502–22 to a separate return year of a corporation (or could have been so carried if such corporation were in existence) which was a member of the group in the year in which such consolidated net capital loss arose, then the portion of such consolidated net capital loss attributable to such corporation (as determined under subparagraph (2) of this paragraph) shall be apportioned to such corporation (and any successor to such corporation in a transaction to which section 381(a) applies) under the principles of paragraph (a)(1), (2), and (3) of this section and shall be a net capital loss carryback or carryover to such separate return year.

(2) *Portion of consolidated net capital loss attributable to a member.* • • •

(i) Such member's net capital gain or loss (determined without regard to any net capital loss carryover or carryback); and

• • • • •

Internal Revenue Service

[26 CFR Parts 1, 20, 25, 301]

INCOME, ESTATE, AND GIFT TAXES

Priority of Lien; Release of Lien or Discharge of Property

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by February 20, 1973. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by February 20, 1973. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to conform the Income Tax Regulations, the Estate Tax Regulations, the Gift Tax Regulations and the Regulations on Procedure and Administration (26 CFR Parts 1, 20, 25, and 301) under sections 545, 6323, and 6325 of the Internal Revenue Code of 1954 to section 236 of the Revenue Act of 1964 (78 Stat. 127), section 17(a) of Public Law 89–493 (80 Stat. 263), and sections 101 and 103 of the Federal Tax Lien Act of 1966 (80 Stat. 1125 and 1133), such regulations are amended as set forth hereinafter. Section 301.6323(g)–1 of the regulations hereby adopted supersedes those provisions of §§ 400.1 and 400.1–1 of this chapter relating to section 101(a) of the Federal Tax Lien Act of 1966 which were prescribed by T.D. 6932, approved October 13, 1967 (32 F.R. 14385). Section 301.6325–1 hereby adopted supersedes those provisions of §§ 400.2 and 400.2–1 of this chapter relating to section 103(a) of such Act which were prescribed by T.D. 6944, approved January 17, 1968 (33 F.R. 732).

A. Part 1, Income Tax Regulations, of 26 CFR Chapter I, is amended as follows:

PARAGRAPH 1. Paragraph (j)(1) of § 1.545–2 is amended to read as follows:

§ 1.545–2 Adjustments to taxable income.

• • • • •

(j) *Amount if a lien in favor of the United States.* (1) If notices of lien are filed in the manner provided in section 6323(f), the amount of the liability to the United States outstanding at the close of the taxable year, and secured by such liens which are in effect at that time, shall be allowed as a deduction in computing undistributed personal holding company income. However, the amount of such deduction which may be allowed for any taxable year shall not exceed the taxable income (as adjusted for purposes of determining the undistributed personal holding company income, but without regard to the deduction under section 545(b)(9)) for such year. The fact that the amount of, or any part of, the outstanding obligation to the United States was deducted for 1 taxable year does not prevent its deduction for a subsequent taxable year to the extent the obligation is still outstanding at the close of the subsequent taxable year and is secured by a lien, notice of which has been filed.

• • • • •

B. Part 20, Estate Tax Regulations, of 26 CFR Chapter I, is amended as follows:

PAR. 2. Section 20.6323 is amended by revising sections (a) through (e), by adding subsections (f) through (i), and by revising the historical note. These revised and added provisions read as follows:

§ 20.6323 Statutory provisions; validity and priority against certain persons.

SEC. 6323. *Validity and priority against certain persons*—(a) *Purchases, holders of security interests, mechanics's lienors, and judgment lien creditors.* The lien imposed by section 6321 shall not be valid as against any purchaser, holder of a security interest, mechanic's lienor, or judgment lien creditor until notice thereof which meets the requirements of subsection (f) has been filed by the Secretary or his delegate.

(b) *Protection for certain interests even though notice filed.* Even though notice of a lien imposed by section 6321 has been filed, such lien shall not be valid—

(1) *Securities.* With respect to a security (as defined in subsection (h)(4))—

(A) As against a purchaser of such security who at the time of purchase did not have actual notice or knowledge of the existence of such lien; and

(B) As against a holder of a security interest in such security who, at the time such interest came into existence, did not have actual notice or knowledge of the existence of such lien.

(2) *Motor vehicles.* With respect to a motor vehicle (as defined in subsection (h)(3), as against a purchaser of such motor vehicle, if—

(A) At the time of the purchase such purchaser did not have actual notice or knowledge of the existence of such lien, and

(B) Before the purchaser obtains such notice or knowledge, he has acquired possession of such motor vehicle and has not thereafter relinquished possession of such motor vehicle to the seller or his agent.

(3) *Personal property purchased at retail.* With respect to tangible personal property purchased at retail, as against a purchaser in the ordinary course of the seller's trade or business, unless at the time of such purchase such purchaser intends such purchase to (or knows such purchase will) hinder, evade, or defeat the collection of any tax under this title.

(4) *Personal property purchased in casual sale.* With respect to household goods, personal effects, or other tangible personal property described in section 6334(a) purchased (not for resale) in a casual sale for less than $250, as against the purchaser, but only if such purchaser does not have actual notice or knowledge (A) of the existence of such lien, or (B) that this sale is one of a series of sales.

(5) *Personal property subject to possessory lien.* With respect to tangible personal property subject to a lien under local law securing the reasonable price of the repair or improvement of such property, as against a holder of such a lien, if such holder is, and has been, continuously in possession of such property from the time such lien arose.

(6) *Real property tax and special assessment liens.* With respect to real property, as against a holder of a lien upon such property, if such lien is entitled under local law to priority over security interests in such property which are prior in time, and such lien secures payment of—

(A) A tax of general application levied by any taxing authority based upon the value of such property;

(B) A special assessment imposed directly upon such property by any taxing authority, if such assessment is imposed for the purpose of defraying the cost of any public improvement; or

(C) Charges for utilities or public services furnished to such property by the United States, a State or political subdivision thereof, or an instrumentality of any one or more of the foregoing.

(7) *Residential property subject to a mechanic's lien for certain repairs and improvements.* With respect to real property subject to a lien for repair or improvement of a personal residence (containing not more than four dwelling units) occupied by the owner of such residence, as against a mechanic's lienor, but only if the contract price on the contract with the owner is not more than $1,000.

(8) *Attorneys' liens.* With respect to a judgment or other amount in settlement of a claim or of a cause of action, as against an attorney who, under local law, holds a lien upon or contract enforcible against such judgment or amount, to the extent of his reasonable compensation for obtaining such judgment or procuring such settlement, except that this paragraph shall not apply to any judgment or amount in settlement of a claim or of a cause of action against the United States to the extent that the United States offsets such judgment or amount against any liability of the taxpayer to the United States.

(9) *Certain insurance contracts.* With respect to a life insurance, endowment, or annuity contract, as against the organization which is the insurer under such contract, at any time—

(A) Before such organization had actual notice or knowledge of the existence of such lien;

(B) After such organization had such notice or knowledge, with respect to advances required to be made automatically to maintain such contract in force under an agreement entered into before such organization had such notice or knowledge; or

(C) After satisfaction of a levy pursuant to section 6332(b), unless and until the Secretary or his delegate delivers to such organization a notice, executed after the date of such satisfaction, of the existence of such lien.

(10) *Passbook loans.* With respect to a savings deposit, share, or other account, evidenced by a passbook, with an institution described in section 581 or 591, to the extent of any loan made by such institution without actual notice or knowledge of the existence of such lien, as against such institution, if such loan is secured by such account and if such institution has been continuously in possession of such passbook from the time the loan is made.

(c) *Protection for certain commercial transactions financing agreements, etc.*—(1) *In general.* To the extent provided in this subsection, even though notice of a lien imposed by section 6321 has been filed, such lien shall not be valid with respect to a security interest which came into existence after tax lien filing but which—

(A) Is in qualified property covered by the terms of a written agreement entered into before tax lien filing and constituting—

(i) A commercial transactions financing agreement,

(ii) A real property construction or improvement financing agreement, or

(iii) An obligatory disbursement agreement, and

(B) Is protected under local law against a judgment lien arising, as of the time of tax lien filing, out of an unsecured obligation.

(2) *Commercial transactions financing agreement.* For purposes of this subsection—

(A) *Definition.* The term "commercial transactions financing agreement" means an agreement (entered into by a person in the course of his trade or business)—

(i) To make loans to the taxpayer to be secured by commercial financing security acquired by the taxpayer in the ordinary course of his trade or business, or

(ii) To purchase commercial financing security (other than inventory) acquired by the taxpayer in the ordinary course of his trade or business;

but such an agreement shall be treated as coming within the term only to the extent that such loan or purchase is made before the 46th day after the date of tax lien filing or (if earlier) before the lender or purchaser had actual notice or knowledge of such tax lien filing.

(B) *Limitation on qualified property.* The term "qualified property", when used with respect to a commercial transactions financing agreement, includes only commercial financing security acquired by the taxpayer before the 46th day after the date of tax lien filing.

(C) *Commercial financing security defined.* The term "commercial financing security" means (i) paper of a kind ordinarily arising in commercial transactions, (ii) accounts receivable, (iii) mortgages on real property, and (iv) inventory.

(D) *Purchaser treated as acquiring security interest.* A person who satisfies subparagraph (A) by reason of clause (ii) thereof shall be treated as having acquired a security interest in commercial financing security.

(3) *Real property construction or improvement financing agreement.* For purposes of this subsection—

(A) *Definition.* The term "real property construction or improvement financing

V 38 - 2 JAN 4 73 XUM

agreement" means an agreement to make cash disbursements to finance—

(i) The construction or improvement of real property,

(ii) A contract to construct or improve real property, or

(iii) The raising or harvesting of a farm crop or the raising of livestock or other animals.

For purposes of clause (iii), the furnishing of goods and services shall be treated as the disbursement of cash.

(B) *Limitation on qualified property.* The term "qualified property", when used with respect to a real property construction or improvement financing agreement, includes only—

(i) In the case of subparagraph (A)(i), the real property with respect to which the construction or improvement has been or is to be made,

(ii) In the case of subparagraph (A)(ii), the proceeds of the contract described therein, and

(iii) In the case of subparagraph (A)(iii), property subject to the lien imposed by section 6321 at the time of tax lien filing and the crop or the livestock or other animals referred to in subparagraph (A)(iii).

(4) *Obligatory disbursement agreement.* For purposes of this subsection—

(A) *Definition.* The term "obligatory disbursement agreement" means an agreement (entered into by a person in the course of his trade or business) to make disbursements, but such an agreement shall be treated as coming within the term only to the extent of disbursements which are required to be made by reason of the intervention of the rights of a person other than the taxpayer.

(B) *Limitation on qualified property.* The term "qualified property", when used with respect to an obligatory disbursement agreement, means property subject to the lien imposed by section 6321 at the time of tax lien filing and (to the extent that the acquisition is directly traceable to the disbursements referred to in subparagraph (A)) property acquired by the taxpayer after tax lien filing.

(C) *Special rules for surety agreements.* Where the obligatory disbursement agreement is an agreement insuring the performance of a contract between the taxpayer and another person—

(i) The term "qualified property" shall be treated as also including the proceeds of the contract the performance of which was insured, and

(ii) If the contract the performance of which was insured was a contract to construct or improve real property, to produce goods, or to furnish services, the term "qualified property" shall be treated as also including any tangible personal property used by the taxpayer in the performance of such insured contract.

(d) *45-day period for making disbursements.* Even though notice of a lien imposed by section 6321 has been filed, such lien shall not be valid with respect to a security interest which came into existence after tax lien filing by reason of disbursements made before the 46th day after the date of tax lien filing, or (if earlier) before the person making such disbursements had actual notice or knowledge of tax lien filing, but only if such security interest—

(1) Is in property (A) subject, at the time of tax lien filing, to the lien imposed by section 6321, and (B) covered by the terms of a written agreement entered into before tax lien filing, and

(2) Is protected under local law against a judgment lien arising, as of the time of tax lien filing, out of an unsecured obligation.

(e) *Priority of interest and expenses.* If the lien imposed by section 6321 is not valid as against a lien or security interest, the priority of such lien or security interest shall extend to—

(1) Any interest or carrying charges upon the obligation secured,

(2) The reasonable charges and expenses of an indenture trustee or agent holding the security interest for the benefit of the holder of the security interest,

(3) The reasonable expenses, including reasonable compensation for attorneys, actually incurred in collecting or enforcing the obligation secured,

(4) The reasonable costs of insuring, preserving, or repairing the property to which the lien or security interest relates,

(5) The reasonable costs of insuring payment of the obligation secured, and

(6) Amounts paid to satisfy any lien on the property to which the lien or security interest relates, but only if the lien so satisfied is entitled to priority over the lien imposed by section 6321,

to the extent that, under local law, any such item has the same priority as the lien or security interest to which it relates.

(f) *Place for filing notice; form*—(1) *Place for filing.* The notice referred to in subsection (a) shall be filed—

(A) *Under State laws*—(i) *Real property.* In the case of real property, in one office within the State (or the county, or other governmental subdivision), as designated by the laws of such State, in which the property subject to the lien is situated; and

(ii) *Personal property.* In the case of personal property, whether tangible or intangible, in one office within the State (or the county, or other governmental subdivision), as designated by the laws of such State, in which the property subject to the lien is situated; or

(B) *With clerk of district court.* In the office of the clerk of the U.S. district court for the judicial district in which the property subject to the lien is situated, whenever the State has not by law designated one office which meets the requirements of subparagraph (A); or

(C) *With recorder of deeds of the District of Columbia.* In the office of the Recorder of Deeds of the District of Columbia, if the property subject to the lien is situated in the District of Columbia.

(2) *Situs of property subject to lien.* For purposes of paragraph (1), property shall be deemed to be situated—

(A) *Real property.* In the case of real property, at its physical location; or

(B) *Personal property.* In the case of personal property, whether tangible or intangible, at the residence of the taxpayer at the time the notice of lien is filed.

For purposes of paragraph (2)(B), the residence of a corporation or partnership shall be deemed to be the place at which the principal executive office of the business is located, and the residence of a taxpayer whose residence is without the United States shall be deemed to be in the District of Columbia.

(3) *Form.* The form and content of the notice referred to in subsection (a) shall be prescribed by the Secretary or his delegate. Such notice shall be valid notwithstanding any other provision of law regarding the form or content of a notice of lien.

(g) *Refiling of notice.* For purposes of this section—

(1) *General rule.* Unless notice of lien is refiled in the manner prescribed in paragraph (2) during the required refiling period, such notice of lien shall be treated as filed on the date on which it is filed (in accordance with subsection (f)) after the expiration of such refiling period.

(2) *Place for filing.* A notice of lien refiled during the required refiling period shall be effective only—

(A) If such notice of lien is refiled in the office in which the prior notice of lien was filed; and

(B) In any case in which, 90 days or more prior to the date of a refiling of notice of lien under subparagraph (A), the Secretary or his delegate received written information (in the manner prescribed in regulations issued by the Secretary or his delegate) concerning a change in the taxpayer's residence, if a notice of such lien is also filed in accordance with subsection (f) in the State in which such residence is located.

(3) *Required refiling period.* In the case of any notice of lien, the term "required refiling period" means—

(A) The 1-year period ending 30 days after the expiration of 6 years after the date of the assessment of the tax, and

(B) The 1-year period ending with the expiration of 6 years after the close of the preceding required refiling period for such notice of lien.

(4) *Transitional rule.* Notwithstanding paragraph (3), if the assessment of the tax was made before January 1, 1962, the first required refiling period shall be the calendar year 1967.

(h) *Definitions.* For purposes of this section and section 6324—

(1) *Security interest.* The term "security interest" means any interest in property acquired by contract for the purpose of securing payment or performance of an obligation or indemnifying against loss or liability. A security interest exists at any time (A) if, at such time, the property is in existence and the interest has become protected under local law against a subsequent judgment lien arising out of an unsecured obligation, and (B) to the extent that, at such time, the holder has parted with money or money's worth.

(2) *Mechanic's lienor.* The term "mechanic's lienor" means any person who under local law has a lien on real property (or on the proceeds of a contract relating to real property) for services, labor, or materials furnished in connection with the construction or improvement of such property. For purposes of the preceding sentence, a person has a lien on the earliest date such lien becomes valid under local law against subsequent purchasers without actual notice, but not before he begins to furnish the services, labor, or materials.

(3) *Motor vehicle.* The term "motor vehicle" means a self-propelled vehicle which is registered for highway use under the laws of any State or foreign country.

(4) *Security.* The term "security" means any bond, debenture, note, or certificate, or other evidence of indebtedness, issued by a corporation or a government or political subdivision thereof, with interest coupons or in registered form, share of stock, voting trust certificate, or any certificate of interest or participation in, certificate of deposit or receipt for, temporary or interim certificate for, or warrant or right to subscribe to or purchase, any of the foregoing; negotiable instrument; or money.

(5) *Tax lien filing.* The term "tax lien filing" means the filing of notice (referred to in subsection (a)) of the lien imposed by section 6321.

(6) *Purchaser.* The term "purchaser" means a person who, for adequate and full consideration in money or money's worth, acquires an interest (other than a lien or security interest) in property which is valid under local law against subsequent purchasers without actual notice. In applying the preceding sentence for purposes of subsection (a) of this section, and for purposes of section 6324—

(A) A lease of property,

(B) A written executory contract to purchase or lease property,

(C) An option to purchase or lease property or any interest therein, or

(D) An option to renew or extend a lease of property,

which is not a lien or security interest shall be treated as an interest in property.

(i) *Special rules*—(1) *Actual notice or knowledge.* For purposes of this subchapter, an organization shall be deemed for purposes of a particular transaction to have actual notice or knowledge of any fact from the time such fact is brought to the attention of the individual conducting such transaction, and in any event from the time such fact would have been brought to such individual's attention if the organization had exercised due diligence. An organization exercises due diligence if it maintains reasonable routines for communicating significant information to the person conducting the transaction and there is reasonable compliance with the routine. Due diligence does not require an individual acting for the organization to communicate information unless such communication is part of his regular duties or unless he has reason to know of the transaction and that the transaction would be materially affected by the information.

(2) *Subrogation.* Where, under local law, one person is subrogated to the rights of another with respect to a lien or interest, such person shall be subrogated to such rights for purposes of any lien imposed by section 6321 or 6324.

(3) *Disclosure of amount of outstanding lien.* If a notice of lien has been filed pursuant to subsection (f), the Secretary or his delegate is authorized to provide by regulations the extent to which, and the conditions under which, information as to the amount of the outstanding obligation secured by the lien may be disclosed.

[Sec. 6323 as amended by sec. 236 (a) and (c)(1), Rev. Act 1964 (78 Stat. 127); sec. 17(a), Act of July 5, 1966 (Public Law 89-493, 80 Stat. 263); sec. 101(a), Federal Tax Lien Act 1966 (80 Stat. 1125)]

PAR. 3. Section 20.6323–1 is amended to read as follows:

§ 20.6323–1 Validity and priority against certain persons.

For regulations concerning the validity of the lien imposed by section 6321 against certain persons, see §§ 301.6323(a)–1 through 301.6323(i)–1 of this chapter (Regulations on Procedure and Administration).

PAR. 4. Section 20.6325 is amended by revising subsections (a) through (e), by adding subsections (f) through (h), and by revising the historical note. These revised and added provisions read as follows:

§ 20.6325 Statutory provisions; release of lien or discharge of property.

Sec. 6325. *Release of lien or discharge of property*—(a) *Release of lien.* Subject to such regulations as the Secretary or his delegate may prescribe, the Secretary or his delegate may issue a certificate of release of any lien imposed with respect to any internal revenue tax if—

(1) *Liability satisfied or unenforceable.* The Secretary or his delegate finds that the liability for the amount assessed, together with all interest in respect thereof, has been fully satisfied or has become legally unenforceable; or

(2) *Bond accepted.* There is furnished to the Secretary or his delegate and accepted by him a bond that is conditioned upon the payment of the amount assessed, together with all interest in respect thereof, within the time prescribed by law (including any extension of such time), and that is in accordance with such requirements relating to terms, conditions, and form of the bond and sureties thereon, as may be specified by such regulations.

(b) *Discharge of property*—(1) *Property double the amount of the liability.* Subject to such regulations as the Secretary or his delegate may prescribe, the Secretary or his delegate may issue a certificate of discharge of any part of the property subject to any lien imposed under this chapter if the Secretary or his delegate finds that the fair market value of that part of such property remaining subject to the lien is at least double the amount of the unsatisfied liability secured by such lien and the amount of all other liens upon such property which have priority over such lien.

(2) *Part payment; interest of United States valueless.* Subject to such regulations as the Secretary or his delegate may prescribe, the Secretary or his delegate may issue a certificate of discharge of any part of the property subject to the lien if—

(A) There is paid over to the Secretary or his delegate in partial satisfaction of the liability secured by the lien an amount determined by the Secretary or his delegate, which shall not be less than the value, as determined by the Secretary or his delegate, of the interest of the United States in the part to be so discharged, or

(B) The Secretary or his delegate determines at any time that the interest of the United States in the part to be so discharged has no value.

In determining the value of the interest of the United States in the part to be so discharged, the Secretary or his delegate shall give consideration to the value of such part and to such liens thereon as have priority over the lien of the United States.

(3) *Substitution of proceeds of sale.* Subject to such regulations as the Secretary or his delegate may prescribe, the Secretary or his delegate may issue a certificate of discharge of any part of the property subject to the lien if such part of the property is sold and, pursuant to an agreement with the Secretary or his delegate, the proceeds of such sale are to be held, as a fund subject to the liens and claims of the United States, in the same manner and with the same priority as such liens and claims had with respect to the discharged property.

(c) *Estate or gift tax.* Subject to such regulations as the Secretary or his delegate may prescribe, the Secretary or his delegate may issue a certificate of discharge of any or all of the property subject to any lien imposed by section 6324 if the Secretary or his delegate finds that the liability secured by such lien has been fully satisfied or provided for.

(d) *Subordination of lien.* Subject to such regulations as the Secretary or his delegate may prescribe, the Secretary or his delegate may issue a certificate of subordination of any lien imposed by this chapter upon any part of the property subject to such lien if—

(1) There is paid over to the Secretary or his delegate an amount equal to the amount of the lien or interest to which the certificate subordinates the lien of the United States, or

(2) The Secretary or his delegate believes that the amount realizable by the United States from the property to which the certificate relates, or from any other property subject to the lien, will ultimately be increased by reason of the issuance of such certificate and that the ultimate collection of the tax liability will be facilitated by such subordination.

(e) *Nonattachment of lien.* If the Secretary or his delegate determines that, because of confusion of names or otherwise, any person (other than the person against whom the tax was assessed) is or may be injured by the appearance that a notice of lien filed under section 6323 refers to such person, the Secretary or his delegate may issue a certificate that the lien does not attach to the property of such person.

(f) *Effect of certificate*—(1) *Conclusiveness.* Except as provided in paragraphs (2) and (3), if a certificate is issued pursuant to this section by the Secretary or his delegate and is filed in the same office as the notice of lien to which it relates (if such notice of lien has been filed) such certificate shall have the following effect:

(A) In the case of a certificate of release, such certificate shall be conclusive that the lien referred to in such certificate is extinguished;

(B) In the case of a certificate of discharge, such certificate shall be conclusive that the property covered by such certificate is discharged from the lien;

(C) In the case of a certificate of subordination, such certificate shall be conclusive that the lien or interest to which the lien of the United States is subordinated is superior to the lien of the United States; and

(D) In the case of a certificate of nonattachment, such certificate shall be conclusive that the lien of the United States does not attach to the property of the person referred to in such certificate.

(2) *Revocation of certificate of release or nonattachment.* If the Secretary or his delegate determines that a certificate of release or nonattachment of a lien imposed by section 6321 was issued erroneously or improvidently, or if a certificate of release of such lien was issued pursuant to a collateral agreement entered into in connection with a compromise under section 7122 which has been breached, and if the period of limitation on collection after assessment has not expired, the Secretary or his delegate may revoke such certificate and reinstate the lien—

(A) By mailing notice of such revocation to the person against whom the tax was assessed at his last known address, and

(B) By filing notice of such revocation in the same office in which the notice of lien to which it relates was filed (if such notice of lien had been filed).

Such reinstated lien (1) shall be effective on the date notice of revocation is mailed to the taxpayer in accordance with the provisions of subparagraph (A), but not earlier than the date on which any required filing of notice of revocation is filed in accordance with the provisions of subparagraph (B), and (ii) shall have the same force and effect (as of such date), until the expiration of the period of limitation on collection after assessment, as a lien imposed by section 6321 (relating to lien for taxes).

(3) *Certificates void under certain conditions.* Notwithstanding any other provision of this subtitle, any lien imposed by this chapter shall attach to any property with respect to which a certificate of discharge has been issued if the person liable for the tax reacquires such property after such certificate has been issued.

(g) *Filing of certificates and notices.* If a certificate or notice issued pursuant to this section may not be filed in the office designated by State law in which the notice of lien imposed by section 6321 is filed, such certificate or notice shall be effective if filed in the office of the clerk of the United States district court for the judicial district in which such office is situated.

V 38 I 2 JAN 4 73 XUM

(h) *Cross reference.* For provisions relating to bonds, see chapter 73 (sec. 7101 and following).

[Sec. 6325 as amended by sec. 77, Technical Amendments Act 1958 (72 Stat. 1662); sec. 103, Federal Tax Lien Act 1966 (80 Stat. 1133)]

C. Part 25, Gift Tax Regulations, of 26 CFR Chapter I is amended as follows:

PAR. 5. Section 25.6323 is amended by revising subsections (a) through (e), by adding subsections (f) through (i), and by revising the historical note. These revised and amended provisions read as follows:

§ 25.6323 Statutory provisions; validity and priority against certain persons.

SEC. 6323. *Validity and priority against certain persons*—(a) *Purchases, holders of security interests, mechanic's lienors, and judgment lien creditors.* The lien imposed by section 6321 shall not be valid as against any purchaser, holder of a security interest, mechanic's lienor, or judgment lien creditor until notice thereof which meets the requirements of subsection (f) has been filed by the Secretary or his delegate.

(b) *Protection for certain interests even though notice filed.* Even though notice of a lien imposed by section 6321 has been filed, such lien shall not be valid—

(1) *Securities.* With respect to a security (as defined in subsection (h)(4))—

(A) As against a purchaser of such security who at the time of purchase did not have actual notice or knowledge of the existence of such lien; and

(B) As against a holder of a security interest in such security who, at the time such interest came into existence, did not have actual notice or knowledge of the existence of such lien.

(2) *Motor vehicles.* With respect to a motor vehicle (as defined in subsection (h)(3)), as against a purchaser of such motor vehicle, if—

(A) At the time of the purchase such purchaser did not have actual notice or knowledge of the existence of such lien, and

(B) Before the purchaser obtains such notice or knowledge, he has acquired possession of such motor vehicle and has not thereafter relinquished possession of such motor vehicle to the seller or his agent.

(3) *Personal property purchased at retail.* With respect to tangible personal property purchased at retail, as against a purchaser in the ordinary course of the seller's trade or business, unless at the time of such purchase such purchaser intends such purchase to (or knows such purchase will) hinder, evade, or defeat the collection of any tax under this title.

(4) *Personal property purchased in casual sale.* With respect to household goods, personal effects, or other tangible personal property described in section 6334(a) purchased (not for resale) in a casual sale for less than $250, as against the purchaser, but only if such purchaser does not have actual notice or knowledge (A) of the existence of such lien, or (B) that this sale is one of a series of sales.

(5) *Personal property subject to possessory lien.* With respect to tangible personal property subject to a lien under local law securing the reasonable price of the repair or improvement of such property, as against a holder of such a lien, if such holder is, and has been, continuously in possession of such property from the time such lien arose.

(6) *Real property tax and special assessment liens.* With respect to real property, as against a holder of a lien upon such property, if such lien is entitled under local law to priority over security interests in such property which are prior in time, and such lien secures payment of—

(A) A tax of general application levied by any taxing authority based upon the value of such property;

(B) A special assessment imposed directly upon such property by any taxing authority, if such assessment is imposed for the purpose of defraying the cost of any public improvement; or

(C) Charges for utilities or public services furnished to such property by the United States, a State or political subdivision thereof, or an instrumentality of any one or more of the foregoing.

(7) *Residential property subject to a mechanic's lien for certain repairs and improvements.* With respect to real property subject to a lien for repair or improvement of a personal residence (containing not more than four dwelling units) occupied by the owner of such residence, as against a mechanic's lienor, but only if the contract price on the contract with the owner is not more than $1,000.

(8) *Attorneys' liens.* With respect to a judgment or other amount in settlement of a claim or of a cause of action, as against an attorney who, under local law, holds a lien upon or a contract enforcible against such judgment or amount, to the extent of his reasonable compensation for obtaining such judgment or procuring such settlement, except that this paragraph shall not apply to any judgment or amount in settlement of a claim or of a cause of action against the United States to the extent that the United States offsets such judgment or amount against any liability of the taxpayer to the United States.

(9) *Certain insurance contracts.* With respect to a life insurance, endowment, or annuity contract, as against the organization which is the insurer under such contract, at any time—

(A) Before such organization had actual notice or knowledge of the existence of such lien;

(B) After such organization had such notice or knowledge, with respect to advances required to be made automatically to maintain such contract in force under an agreement entered into before such organization had such notice or knowledge; or

(C) After satisfaction of a levy pursuant to section 6332(b), unless and until the Secretary or his delegate delivers to such organization a notice, executed after the date of such satisfaction, of the existence of such lien.

(10) *Passbook loans.* With respect to a savings deposit, share, or other account, evidenced by a passbook, with an institution described in section 581 or 591, to the extent of any loan made by such institution without actual notice or knowledge of the existence of such lien, as against such institution, if such loan is secured by such account and if such institution has been continuously in possession of such passbook from the time the loan is made.

(c) *Protection for certain commercial transactions financing agreements, etc.*—(1) *In general.* To the extent provided in this subsection, even though notice of a lien imposed by section 6321 has been filed, such lien shall not be valid with respect to a security interest which came into existence after tax lien filing but which—

(A) Is in qualified property covered by the terms of a written agreement entered into before tax lien filing and constituting—

(i) A commercial transactions financing agreement,

(ii) A real property construction or improvement financing agreement, or

(iii) An obligatory disbursement agreement, and

(B) Is protected under local law against a judgment lien arising, as of the time of tax lien filing, out of an unsecured obligation.

(2) *Commercial transactions financing agreement.* For purposes of this subsection—

(A) *Definition.* The term "commercial transactions financing agreement" means an agreement (entered into by a person in the course of his trade or business)—

(i) To make loans to the taxpayer to be secured by commercial financing security acquired by the taxpayer in the ordinary course of his trade or business, or

(ii) To purchase commercial financing security (other than inventory) acquired by the taxpayer in the ordinary course of his trade or business;

but such an agreement shall be treated as coming within the term only to the extent that such loan or purchase is made before the 46th day after the date of tax lien filing or (if earlier) before the lender or purchaser had actual notice or knowledge of such tax lien filing.

(B) *Limitation on qualified property.* The term "qualified property," when used with respect to a commercial transactions financing agreement, includes only commercial financing security acquired by the taxpayer before the 46th day after the date of tax lien filing.

(C) *Commercial financing security defined.* The term "commercial financing security" means (i) paper of a kind ordinarily arising in commercial transactions, (ii) accounts receivable, (iii) mortgages on real property, and (iv) inventory.

(D) *Purchaser treated as acquiring security interest.* A person who satisfies subparagraph (A) by reason or clause (ii) thereof shall be treated as having acquired a security interest in commercial financing security.

(3) *Real property construction or improvement financing agreement.* For purposes of this subsection—

(A) *Definition.* The term "real property construction or improvement financing agreement" means an agreement to make cash disbursements to finance—

(i) The construction or improvement of real property,

(ii) A contract to construct or improve real property, or

(iii) The raising or harvesting of a farm crop or the raising of livestock or other animals.

For purposes of clause (iii), the furnishing of goods and services shall be treated as the disbursement of cash.

(B) *Limitation on qualified property.* The term "qualified property," when used with respect to a real property construction or improvement financing agreement, includes only—

(i) In the case of subparagraph (A)(i), the real property with respect to which the construction or improvement has been or is to be made,

(ii) In the case of subparagraph (A)(ii), the proceeds of the contract described therein, and

(iii) In the case of subparagraph (A)(iii), property subject to the lien imposed by section 6321 at the time of tax lien filing and the crop or the livestock or other animals referred to in subparagraph (A)(iii).

(4) *Obligatory disbursement agreement.* For purposes of this subsection—

(A) *Definition.* The term "obligatory disbursement agreement" means an agreement (entered into by a person in the course of his trade or business) to make disbursements, but such an agreement shall be treated as coming within the term only to the extent of disbursements which are required to be made

by reason of the intervention of the rights of a person other than the taxpayer.

(B) *Limitation on qualified property.* The term "qualified property," when used with respect to an obligatory disbursement agreement, means property subject to the lien imposed by section 6321 at the time of tax lien filing and (to the extent that the acquisition is directly traceable to the disbursements referred to in subparagraph (A)) property acquired by the taxpayer after tax lien filing.

(C) *Special rules for surety agreements.* Where the obligatory disbursement agreement is an agreement insuring the performance of a contract between the taxpayer and another person—

(i) The term "qualified property" shall be treated as also including the proceeds of the contract the performance of which was insured, and

(ii) If the contract the performance of which was insured was a contract to construct or improve real property, to produce goods, or to furnish services, the term "qualified property" shall be treated as also including any tangible personal property used by the taxpayer in the performance of such insured contract.

(d) *Forty-five-day period for making disbursements.* Even though notice of a lien imposed by section 6321 has been filed, such lien shall not be valid with respect to a security interest which came into existence after tax lien filing by reason of disbursements made before the 46th day after the date of tax lien filing, or (if earlier) before the person making such disbursements had actual notice or knowledge of tax lien filing, but only if such security interest—

(1) Is in property (A) subject, at the time of tax lien filing, to the lien imposed by section 6321, and (B) covered by the terms of a written agreement entered into before tax lien filing, and

(2) Is protected under local law against a judgment lien arising, as of the time of tax lien filing, out of an unsecured obligation.

(e) *Priority of interest and expenses.* If the lien imposed by section 6321 is not valid as against a lien or security interest, the priority of such lien or security interest shall extend to—

(1) Any interest or carrying charges upon the obligation secured,

(2) The reasonable charges and expenses of an indenture trustee or agent holding the security interest for the benefit of the holder of the security interest,

(3) The reasonable expenses, including reasonable compensation for attorneys, actually incurred in collecting or enforcing the obligation secured,

(4) The reasonable costs of insuring, preserving, or repairing the property to which the lien or security interest relates,

(5) The reasonable costs of insuring payment of the obligations secured, and

(6) Amounts paid to satisfy any lien on the property to which the lien or security interest relates, but only if the lien so satisfied is entitled to priority over the lien imposed by section 6321,

to the extent that, under local law, any such item has the same priority as the lien or security interest to which it relates.

(f) *Place for filing notice; form*—(1) *Place for filing.* The notice referred to in subsection (a) shall be filed—

(A) *Under State laws*—(i) *Real property.* In the case of real property, in one office within the State (or the county, or other governmental subdivision), as designated by the laws of such State, in which the property subject to the lien is situated; and

(ii) *Personal property.* In the case of personal property, whether tangible or intangible, in one office within the State (or the county, or other governmental subdivision), as designated by the laws of such State, in which the property subject to the lien is situated; or

(B) *With clerk of district court.* In the office of the clerk of the U.S. district court for the judicial district in which the property subject to the lien is situated, whenever the State has not by law designated one office which meets the requirements of subparagraph (A); or

(C) *With recorder of deeds of the District Columbia.* In the office of the Recorder of Deeds of the District of Columbia, if the property subject to the lien is situated in the District of Columbia.

(2) *Situs of property subject to lien.* For purposes of paragraph (1), property shall be deemed to be situated—

(A) *Real property.* In the case of real property, at its physical location; or

(B) *Personal property.* In the case of personal property, whether tangible or intangible, at the residence of the taxpayer at the time the notice of lien is filed.

For purposes of paragraph (2)(B), the residence of a corporation or partnership shall be deemed to be the place at which the principal executive office of the business is located, and the residence of a taxpayer whose residence is without the United States shall be deemed to be in the District of Columbia.

(3) *Form.* The form and content of the notice referred to in subsection (a) shall be prescribed by the Secretary or his delegate. Such notice shall be valid notwithstanding any other provision of law regarding the form or content of a notice of lien.

(g) *Refiling of notice.* For purposes of this section—

(1) *General rule.* Unless notice of lien is refiled in the manner prescribed in paragraph (2) during the required refiling period, such notice of lien shall be treated as filed on the date on which it is filed (in accordance with subsection (f)) after the expiration of such refiling period.

(2) *Place for filing.* A notice of lien refiled during the required refiling period shall be effective only—

(A) If such notice of lien is refiled in the office in which the prior notice of lien was filed; and

(B) In any case in which, 90 days or more prior to the date of a refiling of notice of lien under subparagraph (A), the Secretary or his delegate received written information (in the manner prescribed in regulations issued by the Secretary or his delegate) concerning a change in the taxpayer's residence, if a notice of such lien is also filed in accordance with subsection (f) in the State in which such residence is located.

(3) *Required refiling period.* In the case of any notice of lien, the term "required refiling period" means—

(A) The 1-year period ending 30 days after the expiration of 6 years after the date of the assessment of the tax, and

(B) The 1-year period ending with the expiration of 6 years after the close of the preceding required refiling period for such notice of lien.

(4) *Transitional rule.* Notwithstanding paragraph (3), if the assessment of the tax was made before January 1, 1962, the first required refiling period shall be the calendar year 1967.

(h) *Definitions.* For purposes of this section and section 6324—

(1) *Security interest.* The term "security interest" means any interest in property acquired by contract for the purpose of securing payment or performance of an obligation or indemnifying against loss or liability. A security interest exists at any time (A) if, at such time, the property is in existence and the interest has become protected under local law against a subsequent judgment lien arising out of an unsecured obligation, and (B) to the extent that, at such time, the holder has parted with money or money's worth.

(2) *Mechanic's lienor.* The term "mechanic's lienor" means any person who under local law has a lien on real property (or on the proceeds of a contract relating to real property) for services, labor, or materials furnished in connection with the construction or improvement of such property. For purposes of the preceding sentence, a person has a lien on the earliest date such lien becomes valid under local law against subsequent purchasers without actual notice, but not before he begins to furnish the services, labor, or materials.

(3) *Motor vehicle.* The term "motor vehicle" means a self-propelled vehicle which is registered for highway use under the laws of any State or foreign country.

(4) *Security.* The term "security" means any bond, debenture, note, or certificate or other evidence of indebtedness, issued by a corporation or a government or political subdivision thereof, with interest coupons or in registered form, share of stock, voting trust certificate, or any certificate of interest or participation in, certificate of deposit or receipt for, temporary or interim certificate for, or warrant or right to subscribe to or purchase, any of the foregoing; negotiable instrument; or money.

(5) *Tax lien filing.* The term "tax lien filing" means the filing of notice (referred to in subsection (a)) of the lien imposed by section 6321.

(6) *Purchaser.* The term "purchaser" means a person who, for adequate and full consideration in money or money's worth, acquires an interest (other than a lien or security interest) in property which is valid under local law against subsequent purchasers without actual notice. In applying the preceding sentence for purposes of subsection (a) of this section, and for purposes of section 6324—

(A) A lease of property,

(B) A written executory contract to purchase or lease property,

(C) An option to purchase or lease property or any interest therein, or

(D) An option to renew or extend a lease of property,

which is not a lien or security interest shall be treated as an interest in property.

(i) *Special rules*—(1) *Actual notice or knowledge.* For purposes of this subchapter, an organization shall be deemed for purposes of a particular transaction to have actual notice or knowledge of any fact from the time such fact is brought to the attention of the individual conducting such transaction, and in any event from the time such fact would have been brought to such individual's attention if the organization had exercised due diligence. An organization exercises due diligence if it maintains reasonable routines for communicating significant information to the person conducting the transaction and there is reasonable compliance with the routine. Due diligence does not require an individual acting for the organization to communicate information unless such communication is part of his regular duties or unless he has reason to know of the transaction and that the transaction would be materially affected by the information.

(2) *Subrogation.* Where, under local law, one person is subrogated to the rights of another with respect to a lien or interest, such person shall be subrogated to such rights for purposes of any lien imposed by section 6321 or 6324.

(3) *Disclosure of amount of outstanding lien.* If a notice of lien has been filed pursuant to subsection (f), the Secretary or his delegate is authorized to provide by regula-

V38-2 JAN 4 73 XUM

tions the extent to which, and the conditions under which, information as to the amount of the outstanding obligation secured by the lien may be disclosed.

[Sec. 6323 as amended by sec. 236 (a) and (c)(1), Rev. Act 1964 (78 Stat. 127); sec. 17(a), Act of July 5, 1966 (Public Law 89-493, 80 Stat. 263); sec. 101(a), Federal Tax Lien Act 1966 (80 Stat. 1125)]

PAR. 6. Section 25.6323-1 is amended to read as follows:

§ 25.6323-1 Validity and priority against certain persons.

For regulations concerning the validity of the lien imposed by section 6321 against certain persons, see §§ 301.6323(a)-1 through 301.6323(i)-1 of this chapter (Regulations on Procedure and Administration).

D. Part 301, Regulations on Procedure and Administration, of 26 CFR Chapter I is amended as follows:

PAR 7. Sections 301.6323 and 301.6323-1 are deleted, and immediately following § 301.6322, there are added the following new sections:

§ 301.6323(a) Statutory provisions: validity and priority against certain persons; purchasers, holders of security interests, mechanic's lienors, judgment lien creditors.

SEC. 6323. *Validity and priority against certain persons*—(a) *Purchasers, holders of security interests, mechanic's lienors, and judgment lien creditors.* The lien imposed by section 6321 shall not be valid as against any purchaser, holder of a security interest, mechanic's lienor, or judgment lien creditor until notice thereof which meets the requirements of subsection (f) has been filed by the Secretary or his delegate.

[Sec. 6323(a) as amended by sec. 236(c)(1), Rev. Act 1964 (78 Stat. 127); sec. 17(a), Act of July 5, 1966 (Public Law 89-493, 80 Stat. 263); sec. 101(a), Federal Tax Lien Act 1966 (80 Stat. 1125)]

§ 301.6323(a)-1 Purchasers, holders of security interests, mechanic's lienors, and judgment lien creditors.

(a) *Invalidity of lien without notice.* The lien imposed by section 6321 is not valid against any purchaser (as defined in paragraph (f) of § 301.6323(h)-1), holder of a security interest (as defined in paragraph (a) of § 301.6323(h)-1), mechanic's lienor (as defined in paragraph (b) of § 301.6323(h)-1), or judgment lien creditor (as defined in paragraph (g) of § 301.6323(h)-1) until a notice of lien is filed in accordance with § 301.6323(f)-1. Except as provided by section 6323, if a person becomes a purchaser, holder of a security interest, mechanic's lienor, or judgment lien creditor after a notice of lien is filed in accordance with § 301.6323(f)-1, the interest acquired by such person is subject to the lien imposed by section 6321.

(b) *Cross references.* For provisions relating to the protection afforded a security interest arising after tax lien filing, which interest is covered by a commercial transactions financing agreement, real property construction or improvement financing agreement, or an obligatory disbursement agreement, see §§ 301.6323(c)-1, 301.6323(c)-2, and 301.6323(c)-3, respectively. For provisions relating to the protection afforded to a security interest coming into existence by virtue of disbursements made before the 46th day after the date of tax lien filing, see § 301.6323(d)-1. For provisions relating to priority afforded to interest and certain other expenses with respect to a lien or security interest having priority over the lien imposed by section 6321, see § 301.6323(e)-1. For provisions relating to certain other security interests arising after tax lien filing, see § 301.6323(b)-1.

§ 301.6323(b) Statutory provisions; validity and priority against certain persons; protection for certain interests even though notice filed.

SEC. 6323. *Validity and priority against certain persons.* * * *

(b) *Protection for certain interests even though notice filed.* Even though notice of a lien imposed by section 6321 has been filed, such lien shall not be valid—

(1) *Securities.* With respect to a security (as defined in subsection (h)(4))—

(A) As against a purchaser of such security who at the time of purchase did not have actual notice or knowledge of the existence of such lien; and

(B) As against a holder of a security interest in such security who, at the time such interest came into existence, did not have actual notice or knowledge of the existence of such lien.

(2) *Motor vehicles.* With respect to a motor vehicle (as defined in subsection (h)(3)), as against a purchaser of such motor vehicle, if—

(A) At the time of the purchase such purchaser did not have actual notice or knowledge of the existence of such lien, and

(B) Before the purchaser obtains such notice or knowledge, he has acquired possession of such motor vehicle and has not thereafter relinquished possession of such motor vehicle to the seller or his agent.

(3) *Personal property purchased at retail.* With respect to tangible personal property purchased at retail, as against a purchaser in the ordinary course of the seller's trade or business, unless at the time of such purchase such purchaser intends such purchase to (or knows such purchase will) hinder, evade, or defeat the collection of any tax under this title.

(4) *Personal property purchased in casual sale.* With respect to household goods, personal effects, or other tangible personal property described in section 6334(a) purchased (not for resale) in a casual sale for less than $250, as against the purchaser, but only if such purchaser does not have actual notice or knowledge (A) of the existence of such lien, or (B) that this sale is one of a series of sales.

(5) *Personal property subject to possessory lien.* With respect to tangible personal property subject to a lien under local law securing the reasonable price of the repair or improvement of such property, as against a holder of such a lien, if such holder is, and has been, continuously in possession of such property from the time such lien arose.

(6) *Real property tax and special assessment liens.* With respect to real property, as against a holder of a lien upon such property, if such lien is entitled under local law to priority over security interests in such property which are prior in time, and such lien secures payment of—

(A) A tax of general application levied by any taxing authority based upon the value of such property;

(B) A special assessment imposed directly upon such property by any taxing authority, if such assessment is imposed for the purpose of defraying the cost of any public improvement; or

(C) Charges for utilities or public services furnished to such property by the United States, a State or political subdivision thereof, or an instrumentality of any one or more of the foregoing.

(7) *Residential property subject to a mechanic's lien for certain repairs and improvements.* With respect to real property subject to a lien for repair or improvement of a personal residence (containing not more than four dwelling units) occupied by the owner of such residence, as against a mechanic's lienor, but only if the contract price on the contract with the owner is not more than $1,000.

(8) *Attorneys' liens.* With respect to a judgment or other amount in settlement of a claim or of a cause of action, as against an attorney who, under local law, holds a lien upon or a contract enforcible against such judgment or amount, to the extent of his reasonable compensation for obtaining such judgment or procuring such settlement, except that this paragraph shall not apply to any judgment or amount in settlement of a claim or of a cause of action against the United States to the extent that the United States offsets such judgment or amount against any liability of the taxpayer to the United States.

(9) *Certain insurance contracts.* With respect to a life insurance, endowment, or annuity contract, as against the organization which is the insurer under such contract, at any time—

(A) Before such organization had actual notice or knowledge of the existence of such lien;

(B) After such organization had such notice or knowledge, with respect to advances required to be made automatically to maintain such contract in force under an agreement entered into before such organization had such notice or knowledge; or

(C) After satisfaction of a levy pursuant to section 6332(b), unless and until the Secretary or his delegate delivers to such organization a notice, executed after the date of such satisfaction, of the existence of such lien.

(10) *Passbook loans.* With respect to a savings deposit, share, or other account, evidenced by a passbook, with an institution described in section 581 or 591, to the extent of any loan made by such institution without actual notice or knowledge of the existence of such lien, as against such institution, if such loan is secured by such account and if such institution has been continuously in possession of such passbook from the time the loan is made.

[Sec. 6323(b) as amended by sec. 101(a), Federal Tax Lien Act 1966 (80 Stat. 1125)]

§ 301.6323(b)-1 Protection for certain interests even though notice filed.

(a) *Securities*—(1) *In general.* Even though a notice of a lien imposed by section 6321 is filed in accordance with § 301.6323(f)-1, the lien is not valid with respect to a security (as defined in paragraph (d) of § 301.6323(h)-1) against—

(i) A purchaser (as defined in paragraph (f) of § 301.6323(h)-1) of the security who at the time of purchase did not have actual notice or knowledge (as defined in paragraph (a) of § 301.6323(i)-1) of the existence of the lien;

(ii) A holder of a security interest (as defined in paragraph (a) of § 301.6323(h)-1) in the security who did not have actual notice or knowledge (as defined in paragraph (a) of § 301.6323(i)-1) of the existence of the lien at the time the security interest came into existence or at the time such security interest was acquired from a previous holder for a consideration in money or money's worth; or

(iii) A transferee of an interest protected under subdivision (i) or (ii) of this subparagraph to the same extent the lien is invalid against his transferor.

For purposes of subdivision (iii) of this subparagraph, no person can improve his position with respect to the lien by reacquiring the interest from an intervening purchaser or holder of a security interest against whom the lien is invalid.

(2) *Examples.* The application of this paragraph may be illustrated by the following examples:

Example (1). On May 1, 1969, in accordance with § 301.6323(f)-1, a notice of lien is filed with respect to A's delinquent tax liability. On May 20, 1969, A sells 100 shares of common stock in X corporation to B, who, on the date of the sale, does not have actual notice or knowledge of the existence of the lien. Because B purchased the stock without actual notice or knowledge of the lien, under subdivision (i) of subparagraph (1) of this paragraph, the stock purchased by B is not subject to the lien.

Example (2). Assume the same facts as in example (1) except that on May 30, 1969, B sells the 100 shares of common stock in X corporation to C who on May 5, 1969, had actual notice of the existence of the tax lien against A. Because the X stock when purchased by B was not subject to the lien, under subdivision (iii) of subparagraph (1) of this paragraph, the stock purchased by C is not subject to the lien. C succeeds to B's rights, even though C had actual notice of the lien before B's purchase.

Example (3). On June 1, 1970, in accordance with § 301.6323(f)-1, a notice of lien is filed with respect to D's delinquent tax liability. D owns 20 $1,000 bonds issued by the Y company. On June 10, 1970, D obtains a loan from M bank for $5,000 using the Y company bonds as collateral. At the time the loan is made M bank does not have actual notice or knowledge of the existence of the tax lien. Because M bank did not have actual notice or knowledge of the lien when the security interest came into existence, under subdivision (ii) of subparagraph (1) of this paragraph, the tax lien is not valid against M bank to the extent of its security interest.

Example (4). Assume the same facts as in example (3) except that on June 19, 1970, M bank assigns the chose in action and its security interest to N, who had actual notice or knowledge of the existence of the lien on June 1, 1970. Because the security interest was not subject to the lien to the extent of M bank's security interest, the security interest held by N is to the same extent entitled to priority over the tax lien because N succeeds to M bank's rights. See subdivision (iii) of subparagraph (1) of this paragraph.

Example (5). On July 1, 1970, in accordance with § 301.6323(f)-1, a notice of lien is filed with respect to E's delinquent tax liability. E owns 100 $1,000 bonds issued by the Y company. On July 5, 1970, E borrows $4,000 from F and delivers the bonds to F as collateral for the loan. At the time the loan is made, F has actual knowledge of the existence of the tax lien and, therefore, holds the security interest subject to the lien on the bonds. On July 10, 1970, F sells the security interest to G for $4,000 and delivers the Y company bonds pledged as collateral. G does not have actual notice or knowledge of the existence of the lien on July 10, 1970. Because G did not have actual notice or knowledge of the lien at the time he purchased the security interest, under subdivision (ii) of subparagraph (1) of this paragraph, the tax lien is not valid against G to the extent of his security interest.

Example (6). Assume the same facts as in example (5) except that, instead of purchasing the security interest from F on July 10, 1970, G lends $4,000 to F and takes a security interest in F's security interest in the bonds on that date. Because G became the holder of a security interest in a security interest after notice of lien was filed and does not directly have a security interest in a security, the security interest held by G is not entitled to a priority over the tax lien under the provisions of subparagraph (1) of this paragraph.

(b) *Motor vehicles*—(1) *In general.* Even though a notice of a lien imposed by section 6321 is filed in accordance with § 301.6323(f)-1, the lien is not valid against a purchaser (as defined in paragraph (f) of § 301.6323(h)-1) of a motor vehicle (as defined in paragraph (c) of § 301.6323(h)-1) if—

(i) At the time of the purchase, the purchaser did not have actual notice or knowledge (as defined in paragraph (a) of § 301.6323(i)-1) of the existence of the lien, and

(ii) Before the purchaser obtains such notice or knowledge, he has acquired actual possession of the motor vehicle and has not thereafter relinquished actual possession to the seller or his agent.

(2) *Examples.* The application of this paragraph may be illustrated by the following examples:

Example (1). A, a delinquent taxpayer against whom a notice of tax lien has been filed in accordance with § 301.6323(f)-1, sells his automobile (which qualifies as a motor vehicle under paragraph (c) of § 301.6323(h)-1) to B, an automobile dealer. B takes actual possession of the automobile and does not thereafter relinquish actual possession to the seller or his agent. Subsequent to his purchase, B learns of the existence of the tax lien against A. Even though notice of lien was filed before the purchase, the lien is not valid against B, because B did not know of the existence of the lien before the purchase and before acquiring actual possession of the vehicle.

Example (2). C is a wholesaler of used automobiles. A notice of lien has been filed with respect to C's delinquent tax liability in accordance with § 301.6323(f)-1. Subsequent to such filing, D, a used automobile dealer, purchases and takes actual possession of 20 automobiles (which qualify as motor vehicles under the provisions of paragraph (c) of § 301.6323(h)-1) from C at an auction and places them on his lot for sale. C does not reacquire possession of any of the automobiles. At the time of his purchase, D does not have actual notice or knowledge of the existence of the lien against C. Even though notice of lien was filed before D's purchase, the lien was not valid against D because D did not know of the existence of the lien before the purchase and before acquiring actual possession of the vehicles.

(3) *Cross reference.* For provisions relating to additional circumstances in which the lien imposed by section 6321 may not be valid against the purchaser of tangible personal property (including a motor vehicle) purchased at retail, see paragraph (c) of this section.

(c) *Personal property purchased at retail*—(1) *In general.* Even though a notice of a lien imposed by section 6321 is filed in accordance with § 301.6323(f)-1, the lien is not valid against a purchaser (as defined in paragraph (f) of § 301.6323(h)-1 of tangible personal property purchased at a retail sale (as defined in subparagraph (2) of this paragraph) unless at the time of purchase the purchaser intends the purchase to (or knows that the purchase will) hinder, evade, or defeat the collection of any tax imposed by the Internal Revenue Code of 1954.

(2) *Definition of retail sale.* For purposes of this paragraph, the term "retail sale" means a sale, made in the ordinary course of the seller's trade or business, of tangible personal property of which the seller is the owner. Such term includes a sale in customary retail quantities by a seller who is going out of business, but does not include a bulk sale or an auction sale in which goods are offered in quantities substantially greater than are customary in the ordinary course of the seller's trade or business or an auction sale of goods the owner of which is not in the business of selling such goods.

(3) *Example.* The application of this paragraph may be illustrated by the following example:

Example. A purchases a refrigerator from the M company, a retail appliance dealer. Prior to such purchase, a notice of lien was filed with respect to M's delinquent tax liability in accordance with § 301.6323(f)-1. At the time of the purchase A knows of the existence of the lien. However, A does not intend the purchase to hinder, evade, or defeat the collection of any Internal Revenue tax, and A does not have any reason to believe that the purchase will affect the collection of any Internal Revenue tax. Even though notice of lien was filed before the purchase, the lien is not valid against A because A in good faith purchased the refrigerator at retail in the ordinary course of the M company's business.

(d) *Personal property purchased in casual sale*—(1) *In general.* Even though a notice of a lien imposed by section 6321 is filed in accordance with § 301.6323(f)-1, the lien is not valid against a purchaser (as defined in § 301.6323(h)-1(f)) of household goods, personal effects, or other tangible personal property of a type described in § 301.6334-1 (which includes wearing apparel; school books; fuel, provisions, furniture, arms for personal use; livestock, and poultry (whether or not the seller is the head of a family); and books and tools of a trade, business, or profession (whether or not the trade, business, or profession of the seller)), purchased, other than for resale, in a casual sale for less than $250 (excluding interest and expenses described in § 301.6323(e)-1). For purposes of this paragraph, a casual sale is a sale not made in the ordinary course of the seller's trade or business.

(2) *Limitation.* This paragraph applies only if the purchaser does not have actual notice or knowledge (as defined in paragraph (a) of § 301.6323(i)-1)—

(i) Of the existence of the tax lien, or

(ii) That the sale is one of a series of sales.

V38-2 JAN 4 73 XUM

For purposes of subdivision (ii) of this subparagraph, a sale is one of a series of sales if the seller plans to dispose of, in separate transactions, substantially all of his household goods, personal effects, and other tangible personal property described in § 301.6334–1.

(3) *Examples.* The application of this paragraph may be illustrated by the following examples:

Example (1). A, an attorney's widow, sells a set of law books for $200 to B, for B's own use. Prior to the sale a notice of lien was filed with respect to A's delinquent tax liability in accordance with § 301.6323(f)–1. B has no actual notice or knowledge of the tax lien. In addition, B does not know that the sale is one of a series of sales. Because the sale is a casual sale for less than $250 and involves books of a profession (tangible personal property of a type described in § 301.6334–1, irrespective of the fact that A has never engaged in the legal profession), the tax lien is not valid against B even though a notice of lien was filed prior to the time of B's purchase.

Example (2). Assume the same facts as in example (1) except that B purchases the books for resale in his second-hand bookstore. Because B purchased the books for resale, he purchased the books subject to the lien.

Example (3). In an advertisement appearing in a local newspaper, E indicates that substantially all of his household property is for sale. In response to the advertisement, F purchases E's dining room furniture for $200. Prior to the sale a notice of lien was filed with respect to E's delinquent tax liability in accordance with § 301.6323(f)–1. Because such an advertisement contemplates a series of sales to dispose of substantially all of E's household articles, F has notice that the sale is one of a series of sales and, therefore, purchases the dining room furniture subject to the lien.

Example (4). In an advertisement appearing in a local newspaper, G indicates that he is offering for sale a lawn mower, a used television set, a desk, a refrigerator, and certain used dining room furniture. In response to the advertisement, H purchases the dining room furniture for $200. H does not receive any information which would impart notice of a lien, or that the sale is one of a series of sales, beyond the information contained in the advertisement. Prior to the sale a notice of lien was filed with respect to G's delinquent tax liability in accordance with § 301.6323(f)–1. Because H had no actual notice or knowledge that substantially all of G's household goods was being sold, or that the sale is one of a series of sales and because the sale is a casual sale for less than $250, H does not purchase the dining room furniture subject to the lien. The household goods are of a type described in § 301.6334–1 (a)(2) irrespective of whether G is the head of a family or whether all such household goods offered for sale exceed $500 in value.

(e) *Personal property subject to possessory liens.* Even though a notice of a lien imposed by section 6321 is filed in accordance with § 301.6323(f)–1, the lien is not valid against a holder of a lien on tangible personal property which under local law secures the reasonable price of the repair or improvement of the property if the property is, and has been, continuously in the possession of the holder of the lien from the time the possessory lien arose. For example, if local law gives an automobile repairman the right to retain possession of an automobile he has repaired as security for payment of the repair bill and the repairman retains continuous possession of the automobile until his lien is satisfied, a tax lien filed in accordance with § 301.6323(f)(1) which has attached to the automobile will not be valid to the extent of the reasonable price of the repairs. It is immaterial that the notice of tax lien was filed before the repairman undertook his work or that he knew of the lien before undertaking the work.

(f) *Real property tax and special assessment liens*—(1) *In general.* Even though a notice of a lien imposed by section 6321 is filed in accordance with § 301.6323(f)–1, the lien is not valid against the holder of another lien upon the real property (regardless of when such other lien arises), if such other lien is entitled under local law to priority over security interests in real property which are prior in time and if such other lien on real property secures payment of—

(i) A tax of general application levied by any taxing authority based upon the value of the property;

(ii) A special assessment imposed directly upon the property by any taxing authority, if the assessment is imposed for the purpose of defraying the cost of any public improvement; or

(iii) Charges for utilities or public services furnished to the property by the United States, a State or political subdivision thereof, or an instrumentality of any one or more of the foregoing.

(2) *Examples.* The application of this paragraph may be illustrated by the following examples:

Example (1). A owns Blackacre in the city of M. A notice of lien affecting Blackacre is filed in accordance with § 301.6323(f)–1. Subsequent to the filing of the notice of lien, the city of M acquires a lien against Blackacre to secure payment of real estate taxes. Such taxes are levied against all property in the city in proportion to the value of the property. Under local law, the holder of a lien for real property taxes is entitled to priority over a security interest in real property even though the security interest is prior in time. Because the real property tax lien held by the city of M secures payment of a tax of general application and is entitled to priority over security interests which are prior in time, the lien held by the city of M is entitled to priority over the Federal tax lien with respect to Blackacre.

Example (2). B owns Whiteacre in N county. A notice of lien affecting Whiteacre is filed in accordance with § 301.6323(f)–1. Subsequent to the filing of the notice of lien, N county constructs a sidewalk, paves the street, and installs water and sewer lines adjacent to Whiteacre. In order to defray the cost of these improvements, N county imposes upon Whiteacre a special assessment which under local law results in a lien upon Whiteacre that is entitled to priority over security interests that are prior in time. Because the special assessment lien is (i) entitled under local law to priority over security interests which are prior in time, and (ii) imposed directly upon real property to defray the cost of a public improvement, the special assessment lien has priority over the Federal tax lien with respect to Whiteacre.

Example (3). C owns Greenacre in town O. A notice of lien affecting Greenacre is filed in accordance with § 301.6323(f)–1. Town O furnishes water and electricity to Greenacre and periodically collects a fee for these services. Subsequent to the filing of the notice of lien, town O supplies water and electricity to Greenacre, and C fails to pay the charges for these services. Under local law, town O acquires a lien to secure charges for the services, and this lien has priority over security interests which are prior in time. Because the lien of town O (i) is for services furnished to the real property and (ii) has priority over earlier security interests, town O's lien has priority over the Federal tax lien with respect to Greenacre.

(g) *Residential property subject to a mechanic's lien for certain repairs and improvements*—(1) *In general.* Even though a notice of a lien imposed by section 6321 is filed in accordance with § 301.6323(f)–1, the lien is not valid against a mechanic's lienor (as defined in § 301.6323(h)–1(b)) who holds a lien for the repair or improvement of a personal residence if—

(i) The residence is occupied by the owner and contains no more than four dwelling units, and

(ii) The contract price on the prime contract with the owner for the repair or improvement (excluding interest and expenses described in § 301.6323(e)–1) is not more than $1,000.

For purposes of subdivision (ii) of this subparagraph, the amounts of subcontracts under the prime contract with the owner are not to be taken into consideration for purposes of computing the $1,000 prime contract price. It is immaterial that the notice of tax lien was filed before the contractor undertakes his work or that he knew of the lien before undertaking the work.

(2) *Examples.* The application of this paragraph may be illustrated by the following examples:

Example (1). A owns a building containing four apartments, one of which he occupies as his personal residence. A notice of lien which affects the building is filed in accordance with § 301.6323(f)–1. Thereafter A enters into a contract with B in the amount of $800, which includes labor and materials, to repair the roof of the building. B purchases roofing shingles from C for $300. B completes the work and A fails to pay B for the agreed amount. In turn, B fails to pay C for the shingles. Under local law, B and C acquire mechanic's liens on A's building. Because the contract price on the prime contract with A is not more than $1,000 and under local law B and C acquire mechanic's liens on A's building, the liens of B and C have priority over the Federal tax lien.

Example (2). Assume the same facts as in example (1), except that the amount of the prime contract between A and B is $1,100. Because the amount of the prime contract with the owner, A, is in excess of $1,000, the tax lien has priority over the entire amount of each of the mechanic's liens of B and C, even though the amount of the contract between B and C is $300.

Example (3). Assume the same facts as in example (1), except that A and B do not agree in advance upon the amount due under the prime contract but agree that B will perform the work for the cost of materials and labor plus 10 percent of such cost. When the work is completed, it is determined that the total amount due is $850. Because the prime contract price is not more than $1,000 and under local law B and C acquire mechanic's liens on A's residence, the liens of B and C have priority over the Federal tax lien.

(h) *Attorneys' liens*—(1) *In general.* Even though notice of a lien imposed by section 6321 is filed in accordance with § 301.6323(f)–1, the lien is not valid against an attorney who, under local law, holds a lien upon, or a contract enforceable against, a judgment or other amount in settlement of a claim or of a cause of action. The priority afforded an attorney's lien under this paragraph shall not exceed the amount of the attorney's reasonable compensation for obtaining the judgment or procuring the settlement. For purposes of this paragraph, reasonable compensation means the amount customarily allowed under local law for an attorney's services for litigating or settling a similar case or administrative claim. However, reasonable compensation shall be determined on the basis of the facts and circumstances of each individual case. It is immaterial that the notice of tax lien is filed before the attorney undertakes his work or that the attorney knows of the tax lien before undertaking his work. This paragraph does not apply to an attorney's lien which may arise from the defense of a claim or cause of action against a taxpayer except to the extent such lien is held upon a judgment or other amount arising from the adjudication or settlement of a counterclaim in favor of the taxpayer. In the case of suits against the taxpayer, see § 301.6325–1(d)(2) for rules relating to the subordination of the tax lien to facilitate tax collection.

(2) *Claim or cause of action against the United States.* Paragraph (h)(1) of this section does not apply to an attorney's lien with respect to—

(i) Any judgment or other fund resulting from the successful litigation or settlement of an administrative claim or cause of action against the United States to the extent that the United States, under any legal or equitable right, offsets its liability under the judgment or settlement against any liability of the taxpayer to the United States, or

(ii) Any amount credited against any liability of the taxpayer in accordance with section 6402.

(3) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). A notice of lien is filed against A in accordance with § 301.6323(f)–1. Subsequently, A is struck by an automobile and retains B, an attorney to institute suit on A's behalf against the operator of the automobile. B knows of the tax lien before he begins his work. Under local law, B is entitled to a lien upon any recovery in order to secure payment of his fee. A is awarded damages of $10,000. B charges a fee of $3,000 which is the fee customarily allowed under local law in similar cases and which is found to be reasonable under the circumstances of this particular case. Because, under local law, B holds a lien for the amount of his reasonable compensation for obtaining the judgment, B's lien has priority over the Federal tax lien.

Example (2). Assume the same facts as in example (1), except that before suit is instituted A and the owner of the automobile settle out of court for $7,500. B charges a reasonable and customary fee of $1,800 for procuring the settlement and under local law holds a lien upon the settlement in order to secure payment of the fee. Because, under local law, B holds a lien for the amount of his reasonable compensation for obtaining the settlement, B has priority over the Federal tax lien.

Example (3). In accordance with § 301.6323(f)–1, a notice of lien in the amount of $8,000 is filed against C, a contractor. Subsequently C retains D, an attorney, to initiate legal proceedings to recover the amount allegedly due him for construction work he has performed for the United States. C and D enter into an agreement which provides that D will receive a reasonable and customary fee of $2,500 as compensation for his services. Under local law, the agreement will give rise to a lien which is enforceable by D against any amount recovered in the suit. C is successful in the suit and is awarded $10,000. D claims $2,500 of the proceeds as his fee. The United States, however, exercises its right of set-off and applies $8,000 of the $10,000 award to satisfy C's tax liability. Because the $10,000 award resulted from the successful litigation of a cause of action against the United States, B's contract for attorney's fees is not enforceable against the amount recovered to the extent the United States offsets its liability under the judgment against C's tax liability. It is immaterial that D had no notice or knowledge of the tax lien at the time he began work on the case.

(i) *Certain insurance contracts*—(1) *In general.* Even though a notice of a lien imposed by section 6321 is filed in accordance with § 301.6323(f)–1, the lien is not valid with respect to a life insurance, endowment, or annuity contract, against an organization which is the insurer under the contract, at any time—

(i) Before the insuring organization has actual notice or knowledge (as defined in paragraph (a) of § 301.6323(i)–1) of the existence of the tax lien,

(ii) After the insuring organization has actual notice or knowledge of the lien (as defined in paragraph (a) of § 301.6323(i)–1), with respect to advances (including contractual interest thereon as provided in paragraph (a) of § 301.6323(e)–1) required to be made automatically to maintain the contract in force under an agreement entered into before the insuring organization had such actual notice or knowledge, or

(iii) After the satisfaction of a levy pursuant to section 6332(b), unless and until the district director delivers to the insuring organization a notice (for example, another notice of levy, a letter, etc.), executed after the date of such satisfaction, that the lien exists.

Delivery of the notice described in subdivision (iii) of this subparagraph may be made by any means, including regular mail, and delivery of the notice shall be effective only from the time of actual receipt of the notification by the insuring organization. The provisions of this paragraph are applicable to matured as well as unmatured insurance contracts.

(2) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). On May 1, 1964, the X insurance company issues a life insurance policy to A. On June 1, 1970, a tax assessment is made against A, and on June 2, 1970, a notice of lien with respect to the assessment is filed in accordance with § 301.6323(f)–1. On July 1, 1970, without actual notice or knowledge of the tax lien, the X company makes a "policy loan" to A. Under subparagraph (1)(i) of this paragraph, the loan, including interest (in accordance with the provisions of paragraph (a) of § 301.6323(e)–1), will have priority over the tax lien because X company did not have actual notice or knowledge of the tax lien at the time the policy loan was made.

Example (2). On May 1, 1964, B enters into a life insurance contract with the Y insurance company. Under one of the provisions of the contract, in the event a premium is not paid, Y is to advance out of the cash loan value of the policy the amount of an unpaid premium in order to maintain the contract in force. The contract also provides for interest on any advances so made. On June 1, 1971, a tax assessment is made against B, and on June 2, 1971, in accordance with section 6323(f)–1, a notice of lien is filed. On July 1, 1971, B fails to pay the premium due on that date, and Y makes an automatic premium loan to keep the policy in force. At the time the automatic premium loan is made, Y had actual knowledge of the tax lien. Under subparagraph (1)(ii) of this paragraph, the lien is not valid against Y with respect to the advance (and the contractual interest thereon), because the advance was required to be made automatically under an agreement entered into before Y had actual notice or knowledge of the tax lien.

Example (3). On May 1, 1964, C enters into a life insurance contract with the Z insurance company. On January 4, 1971, an assessment is made against C for $5,000 unpaid income taxes, and on January 11, 1971, in accordance with § 301.6323(f)–1, a notice of lien is filed. On January 29, 1971, a notice of levy with respect to C's delinquent tax is served on Z company. The amount which C could have had advanced to him from Z company under the contract on the 90th day after service of the notice of levy on Z company is $2,000. The Z company pays $2,000 pursuant to the notice of levy, thereby satisfying the levy upon the contract in accordance with section 6332(b). On February 1, 1973, Z company advances $500 to C, which is the increment in policy loan value since satisfaction of the levy of January 29, 1971. On February 5, 1973, a new notice of levy for the unpaid balance of the delinquent taxes, executed after the first levy was satisfied, is served upon Z company. Because the new notification was not received by Z company until after the policy loan was made, under paragraph (1)(iii) of this paragraph, the tax lien is not valid against Z company with respect to the policy loan (including interest thereon in accordance with paragraph (a) of § 301.6323(e)–1).

Example (4). On June 1, 1973, a tax assessment is made against D and on June 2, 1973, in accordance with § 301.6323(f)–1, a notice of lien with respect to the assessment is filed. On July 2, 1973, D executes an assignment of his rights, as the insured, under an insurance contract to M bank as security for a loan. M bank holds its security interest subject to the lien because it is not an insurer entitled to protection under section 6323(b)(9) and did not become a holder of the security interest prior to the filing of the notice of lien for purposes of section 6323(a). It is immaterial that a notice of levy had not been served upon the insurer before the assignment to M bank was made.

(j) *Passbook loans*—(1) *In general.* Even though a notice of a lien imposed by section 6321 is filed in accordance with § 301.6323(f)–1, the lien is not valid against an institution described in section 581 or 591 to the extent of any loan

V38-2 JAN 4 73 XUM

made by the institution which is secured by a savings deposit, share, or other account evidenced by a passbook (as defined in paragraph (i)(2) of this section) if the institution has been continuously in possession of the passbook from the time the loan is made. This paragraph applies only to a loan made without actual notice or knowledge (as defined in paragraph (a) of § 301.6323(i)–1) of the existence of the lien. If a passbook loan is made without actual notice or knowledge of the existence of the lien, this paragraph does not apply to any additional loan made after knowledge of the lien is acquired by the institution even if it continues to retain the passbook from the time the original passbook loan is made.

(2) *Definition of passbook.* For purposes of this paragraph, the term "passbook" includes—

(i) Any tangible evidence of a savings deposit, share, or other account which, when in the possession of the bank or other savings institution, will prevent a withdrawal from the account to the extent of the loan balance, and

(ii) Any procedure or system, such as an automatic data processing system, the use of which by the bank or other savings institution will prevent a withdrawal from the account to the extent of the loan balance.

(3) *Example.* On June 1, 1970, a tax assessment is made against A and on June 2, 1970, a notice of lien with respect to the assessment is filed in accordance with § 301.6323(f)–1. A owns a savings account at the M bank with a balance of $1,000. On June 10, 1970, A borrows $300 from the M bank using the savings account as security therefor. The M bank is continuously in possession of the passbook from the time the loan is made and does not have actual notice or knowledge of the lien at the time of the loan. The tax lien is not valid against M bank with respect to the passbook loan of $300 and accrued interest and expenses entitled to priority under § 301.6323(e)–1. Upon service of a notice of levy, the M bank must pay over the savings account balance in excess of the amount of its protected interest in the account as determined on the date of levy.

§ 301.6323(c) Statutory provisions; validity and priority against certain persons; protection for certain commercial transactions financing agreements, etc.

SEC. 6323. *Validity and priority against certain persons.* • • •

(c) *Protection for certain commercial transactions financing agreements, etc.*—(1) *In general.* To the extent provided in this subsection, even though notice of a lien imposed by section 6321 has been filed, such lien shall not be valid with respect to a security interest which came into existence after tax lien filing but which—

(A) Is in qualified property covered by the terms of a written agreement entered into before tax lien filing and constituting—

(i) A commercial transactions financing agreement,

(ii) A real property construction or improvement financing agreement, or

(iii) An obligatory disbursement agreement, and

(B) Is protected under local law against a judgment lien arising, as of the time of tax lien filing, out of an unsecured obligation.

(2) *Commercial transactions financing agreement.* For purposes of this subsection—

(A) *Definition.* The term "commercial transactions financing agreement" means an agreement (entered into by a person in the course of his trade or business)—

(i) To make loans to the taxpayer to be secured by commercial financing security acquired by the taxpayer in the ordinary course of his trade or business, or

(ii) To purchase commercial financing security (other than inventory) acquired by the taxpayer in the ordinary course of his trade or business;

but such an agreement shall be treated as coming within the term only to the extent that such loan or purchase is made before the 46th day after the date of tax lien filing or (if earlier) before the lender or purchaser had actual notice or knowledge of such tax lien filing.

(B) *Limitation on qualified property.* The term "qualified property", when used with respect to a commercial transactions financing agreement, includes only commercial financing security acquired by the taxpayer before the 46th day after the date of tax lien filing.

(C) *Commercial financing security defined.* The term "commercial financing security" means (i) paper of a kind ordinarily arising in commercial transactions, (ii) accounts receivable, (iii) mortgages on real property, and (iv) inventory.

(D) *Purchaser treated as acquiring security interest.* A person who satisfies subparagraph (A) by reason of clause (ii) thereof shall be treated as having acquired a security interest in commercial financing security.

(3) *Real property construction or improvement financing agreement.* For purposes of this subsection—

(A) *Definition.* The term "real property construction or improvement financing agreement" means an agreement to make cash disbursements to finance—

(i) The construction or improvement of real property,

(ii) A contract to construct or improve real property, or

(iii) The raising or harvesting of a farm crop or the raising of livestock or other animals.

For purposes of clause (iii), the furnishing of goods and services shall be treated as the disbursement of cash.

(B) *Limitation on qualified property.* The term "qualified property", when used with respect to a real property construction or improvement financing agreement, includes only—

(i) In the case of subparagraph (A)(i), the real property with respect to which the construction or improvement has been or is to be made,

(ii) In the case of subparagraph (A)(ii), the proceeds of the contract described therein, and

(iii) In the case of subparagraph (A)(iii), property subject to the lien imposed by section 6321 at the time of tax lien filing and the crop or the livestock or other animals referred to in subparagraph (A)(iii).

(4) *Obligatory disbursement agreement.* For purposes of this subsection—

(A) *Definition.* The term "obligatory disbursement agreement" means an agreement (entered into by a person in the course of his trade or business) to make disbursements, but such an agreement shall be treated as coming within the term only to the extent of disbursements which are required to be made by reason of the intervention of the rights of a person other than the taxpayer.

(B) *Limitation on qualified property.* The term "qualified property", when used with respect to an obligatory disbursement agreement, means property subject to the lien imposed by section 6321 at the time of tax lien filing and (to the extent that the acquisition is directly traceable to the disbursements referred to in subparagraph (A)) property acquired by the taxpayer after tax lien filing.

(C) *Special rules for surety agreements.* Where the obligatory disbursement agreement is an agreement insuring the performance of a contract between the taxpayer and another person—

(i) The term "qualified property" shall be treated as also including the proceeds of the contract the performance of which was insured, and

(ii) If the contract the performance of which was insured was a contract to construct or improve real property, to produce goods, or to furnish services, the term "qualified property" shall be treated as also including any tangible personal property used by the taxpayer in the performance of such insured contract.

[Sec. 6323(c) as amended by sec. 101(a), Federal Tax Lien Act 1966 (80 Stat. 1125)]

§ 301.6323(c)–1 Protection for commercial transactions financing agreements.

(a) *In general.* Even though a notice of a lien imposed by section 6321 is filed in accordance with § 301.6323(f)–1, the lien is not valid with respect to a security interest which:

(1) Comes into existence after the tax lien filing,

(2) Is in qualified property covered by the terms of a commercial transactions financing agreement entered into before the tax lien filing, and

(3) Is protected under local law against a judgment lien arising, as of the time of the tax lien filing, out of an unsecured obligation.

See paragraphs (a) and (e) of § 301.6323(h)–1 for definitions of the terms "security interest" and "tax lien filing," respectively. For purposes of this section, a judgment lien is a lien held by a judgment lien creditor as defined in paragraph (g) of § 301.6323(h)–1.

(b) *Commercial transactions financing agreement.* For purposes of this section, the term "commercial transactions financing agreement" means a written agreement entered into by a person in the course of his trade or business—

(1) To make loans to the taxpayer (whether or not at the option of the person agreeing to make such loans) to be secured by commercial financing security acquired by the taxpayer in the ordinary course of his trade or business, or

(2) To purchase commercial financing security, other than inventory, acquired by the taxpayer in the ordinary course of his trade or business.

Such an agreement qualifies as a commercial transactions financing agreement only with respect to loans or purchases made under the agreement before (i) the 46th day after the date of tax lien filing or, (ii) the time when the lender or purchaser has actual notice or knowledge (as defined in paragraph (a) of § 301.6323(i)–1) of the tax lien filing, if earlier. For purposes of this paragraph, a loan or purchase is considered to have been made in the course of the lender's or purchaser's trade or business if such person is in the business of financing commercial transactions (such as a bank or commercial factor) or if the agreement is incidental to the conduct of such person's trade or business. For example, if a manufacturer finances the accounts receivable of one of his customers, he is considered to engage in such financing in the course of his trade or business. The extent of the priority of the lender or purchaser over the tax lien is the amount of his disbursements made before the 46th day after the date the notice of tax lien is filed, or made before the day (before such 46th day) on which the lender or purchaser has actual notice or knowledge of the filing of the notice of the tax lien. Property which is commercial financing security to which the priority of the lender extends is not affected by the fact that it was acquired by the taxpayer after the lender received actual notice or knowledge of the filing of the notice of the tax lien and before such 46th day. For example, although the receipt of actual notice or knowledge of the filing of the notice of the tax lien has the effect of ending the period within which protected disbursements may be made to the taxpayer, property which is acquired by the taxpayer after the lender receives actual notice or knowledge of such filing and before such 46th day, which otherwise qualifies as commercial financing security, becomes commercial financing security to which the priority of the lender extends for loans made before he received the actual notice or knowledge.

(c) *Commercial financing security.* The term "commercial financing security" means—

(1) Paper of a kind ordinarily arising in commercial transactions,

(2) Accounts receivable,

(3) Mortgages on real property, and

(4) Inventory.

For purposes of this paragraph, the term "paper of a kind ordinarily arising in commercial transactions" in general includes any written document customarily used in commercial transactions. For example, such written documents include paper giving contract rights, chattel paper, documents of title to personal property, and negotiable instruments or securities. The term "commercial financing security" does not include general intangibles such as patents or copyrights. A mortgage on real estate (including a deed of trust, contract for sale, and similar instrument) may be commercial financing security if the taxpayer has an interest in the mortgage as a mortgagee or assignee. The term "commercial financing security" does not include a mortgage where the taxpayer is the mortgagor of realty owned by him. For purposes of this paragraph, the term "inventory" includes raw materials and goods in process as well as property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business.

(d) *Qualified property.* For purposes of paragraph (a) of this section, qualified property consists solely of commercial financing security acquired by the taxpayer-debtor before the 46th day after the date of tax lien filing. An account receivable or a paper giving contract rights described in § 301.6323(c)–1(c) is acquired by a taxpayer at the time, and to the extent, a right to payment is earned by performance. Chattel paper, documents of title, negotiable instruments, securities, and mortgages on real estate are acquired by a taxpayer when he obtains rights in the paper or mortgage. Inventory is acquired by the taxpayer when title passes to him. Identifiable proceeds, which arise from the collection or disposition of qualified property by the taxpayer, are considered to be acquired at the time such qualified property is acquired if the secured party has a continuously perfected security interest in the proceeds under local law. The term "proceeds" includes whatever is received when collateral is sold, exchanged, or collected. For purposes of this paragraph, the term "identifiable proceeds" does not include money, checks and the like which have been commingled with other cash proceeds. Property acquired by the taxpayer after the 45th day following tax lien filing, by the expenditure of proceeds, is not qualified property.

(e) *Purchaser treated as acquiring security interest.* A person who purchases commercial financing security, other than inventory, pursuant to a commercial transactions financing agreement is treated, for purposes of this section, as having acquired a security interest in the commercial financing security. In the case of a bona fide purchase at a discount, a purchaser of commercial financing security who satisfies the requirements of this section has priority over the tax lien to the full extent of the security.

(f) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). (i) On June 1, 1970, a tax is assessed against M, a tool manufacturer, with respect to his delinquent tax liability. On June 15, 1970, M enters into a written financing agreement with X, a bank. The agreement provides that, in consideration of such sums as X may advance to M, X is to have a security interest in all of M's presently owned and subsequently acquired commercial paper, accounts receivable, and inventory (including inventory in the manufacturing stages and raw materials). On July 6, 1970, notice of the tax lien is filed in accordance with § 301.6323(f)–1. On August 3, 1970, without actual notice or knowledge of the tax lien filing, X advances $10,000 to M. On August 5, 1970, M acquires additional inventory through the purchase of raw materials. On August 20, 1970, M has accounts receivable, arising from the sale of tools, amounting to $5,000. Under local law, X's security interest arising by reason of the $10,000 advance on August 3, 1970, has priority, with respect to the raw materials and accounts receivable, over a judgment lien against M arising July 6, 1970 (the date of tax lien filing) out of an unsecured obligation.

(ii) Because the $10,000 advance was made before the 46th day after the tax lien filing, and the accounts receivable in the amount of $5,000 and the raw materials were acquired by M before such 46th day, X's $10,000 security interest in the accounts receivable and the inventory has priority over the tax lien. The priority of X's security interest also extends to the proceeds, received on or after the 46th day after the tax lien filing, from the liquidation of the accounts receivable and inventory held by M on August 20, 1970, if X has a continuously perfected security interest in identifiable proceeds under local law. However, the priority of X's security interest will not extend to other property acquired with such proceeds.

Example (2). Assume the same facts as in example (1) except that on July 15, 1970, X has actual knowledge of the tax lien filing. Because an agreement does not qualify as a commercial transactions financing agreement when a disbursement is made after tax lien filing with actual knowledge of the filing, X's security interest will not have priority over the tax lien with respect to the $10,000 advance made on August 3, 1970.

Example (3). Assume the same facts as in example (1) except that, instead of additional inventory, on August 5, 1970, M acquires an account receivable as the result of the sale of machinery which M no longer needs in his business. Even though the account receivable was acquired by taxpayer M before the 46th day after tax lien filing, the tax lien will have priority over X's security interest arising in the account receivable pursuant to the earlier written agreement because the account receivable was not acquired by the taxpayer in the ordinary course of his trade or business.

Example (4). Pursuant to a written agreement with the N Manufacturing Company entered into on January 4, 1971, Y, a commercial factor, purchases the accounts receivable arising out of N's regular sales to its customers. On November 1, 1971, in accordance with § 301.6323(f)–1, a notice of lien is filed with respect to N's delinquent tax liability. On December 6, 1971, Y, without actual notice or knowledge of the tax lien filing, purchases all of the accounts receivable resulting from N's November 1971 sales. Y has taken appropriate steps under local law so that the December 6, 1971, purchase is protected against a judgment lien arising November 1, 1971 (the date of tax lien filing) out of an unsecured obligation. Because the purchaser of commercial financing security, other than inventory, is treated as having acquired a security interest in commercial financing security, and because Y otherwise meets the requirements of this section, the tax lien is not valid with respect to Y's December 6, 1971, purchase of N's accounts receivable.

§ 301.6323(c)–2 Protection for real property construction or improvement financing agreements.

(a) *In general.* Even though a notice of a lien imposed by section 6321 is filed in accordance with § 301.6323(f)–1, the lien is not valid with respect to a security interest which:

(1) Comes into existence after the tax lien filing,

(2) Is in qualified property covered by the terms of a real property construction or improvement financing agreement entered into before the tax lien filing, and

(3) Is protected under local law against a judgment lien arising, as of the time of tax lien filing, out of an unsecured obligation.

For purposes of this section, it is immaterial that the holder of the security interest had actual notice or knowledge of the lien at the time disbursements are made pursuant to such an agreement. See paragraphs (a) and (e) of § 301.6323

V 38-2 JAN 4 73 XUM

(h)–1 for general definitions of the terms "security interest" and "tax lien filing." For purposes of this section, a judgment lien is a lien held by a judgment lien creditor as defined in paragraph (g) of § 301.6323(h)–1.

(b) *Real property construction or improvement financing agreement.* For purposes of this section, the term "real property construction or improvement financing agreement" means any written agreement to make cash disbursements (whether or not at the option of the party agreeing to make such disbursements):

(1) To finance the construction, improvement, or demolition of real property if the agreement provides for a security interest in the real property with respect to which the construction, improvement, or demolition has been or is to be made;

(2) To finance a contract to construct or improve, or demolish real property if the agreement provides for a security interest in the proceeds of the contract; or

(3) To finance the raising or harvesting of a farm crop or the raising of livestock or other animals if the agreement provides for a security interest in any property subject to the lien imposed by section 6321 at the time of tax lien filing, in the crop raised or harvested, or in the livestock or other animals raised.

For purposes of subparagraphs (1) and (2) of this paragraph, construction or improvement may include demolition. For purposes of any agreement described in subparagraph (3) of this paragraph, the furnishing of goods and services is treated as the disbursement of cash.

(c) *Qualified property.* For purposes of this section, the term "qualified property" includes only—

(1) In the case of an agreement described in paragraph (b)(1) of this section, the real property with respect to which the construction or improvement has been or is to be made;

(2) In the case of an agreement described in paragraph (b)(2) of this section, the proceeds of the contract to construct or improve real property; or

(3) In the case of an agreement described in paragraph (b)(3) of this section, property subject to the lien imposed by section 6321 at the time of tax lien filing, the farm crop raised or harvested, or the livestock or other animals raised.

(d) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). A, in order to finance the construction of a dwelling on a lot owned by him, mortgages the property to B. The mortgage, executed January 4, 1971, includes an agreement that B will make cash disbursements to A as the construction progresses. On February 1, 1971, in accordance with § 301.6323(f)–1, a notice of lien is filed with respect to A's delinquent tax liability. A continues the construction, and B makes cash disbursements on June 10, 1971, and December 10, 1971. Under local law B's security interest arising by virtue of the disbursements is protected against a judgment lien arising February 1, 1971 (the date of tax lien filing) out of an unsecured obligation. Because B is the holder of a security interest coming into existence by reason of cash disbursements made pursuant to a written agreement, entered into before tax lien filing, to make cash disbursements to finance the construction, of real property, and because B's security interest is protected, under local law, against a judgment lien arising as of the time of tax lien filing out of an unsecured obligation, B's security interest has priority over the tax lien.

Example (2). (i) C is awarded a contract for the demolition of several buildings. On March 3, 1969, C enters into a written agreement with D which provides that D will make cash disbursements to finance the demolition and also provides that repayment of the disbursements is secured by any sums due C under the contract. On April 1, 1969, under section 6323(f), a notice of lien is filed with respect to C's delinquent tax liability. With actual notice of the tax lien, D makes cash disbursements to C on August 1, September 1, and October 1, 1969. Under local law D's security interest in the proceeds of the contract with respect to the disbursements is entitled to priority over a judgment lien arising on April 1, 1969 (the date of tax lien filing) out of an unsecured obligation.

(ii) Because D's security interest arose by reason of disbursements made pursuant to a written agreement, entered into before tax lien filing, to make cash disbursements to finance a contract to demolish real property, and because D's security interest is valid under local law against a judgment lien arising as of the time of tax lien filing out of an unsecured obligation, the tax lien is not valid with respect to D's security interest in the proceeds of the demolition contract.

Example (3). Assume the same facts as in example (2) and, in addition, assume that, as further security for the cash disbursements, the March 3, 1969 agreement also provides for a security interest in all of C's demolition equipment. Because the security interest arising under an agreement to make cash disbursements to finance a contract to demolish real property is limited to the proceeds of the demolition contract, the tax lien will have priority over D's security interest in the equipment.

Example (4). (i) On January 2, 1969, F and G enter into a written agreement, whereby F agrees to provide G with cash disbursements, seed, fertilizer, and insecticides as needed by G, in order to finance the raising and harvesting of a crop on a farm owned by G. Under the terms of the agreement F is to have a security interest in the crop, the farm, and all other property then owned or thereafer acquired by G. In accordance with § 301.6323(f)–1, on January 10, 1969, a notice of lien is filed with respect to G's delinquent tax liability. On March 3, 1969, with actual notice of the tax lien, F makes a cash disbursement of $5,000 to G and furnishes him seed, fertilizer, and insecticides having a value of $10,000. Under local law F's security interest, coming into existence by reason of the cash disbursement and the furnishing of goods, has priority over a judgment lien arising January 10, 1969 (the date of tax lien filing) out of an unsecured obligation.

(ii) Because F's security interest arose by reason of a disbursement (including the furnishing of goods) made under a written agreement which was entered into before tax lien filing and which constitutes an agreement to finance the raising or harvesting of a farm crop, and because F's security interest is valid under local law against a judgment lien arising as of the time of tax lien filing out of an unsecured obligation, the tax lien is not valid with respect to F's security interest in the crop even though a notice of lien was filed before the security interest arose. Furthermore, because the farm is property subject to the tax lien at the time of tax lien filing, F's security interest with respect to the farm also has priority over the tax lien.

Example (5). Assume the same facts as in example (4) and in addition that on October 1, 1969, G acquires several tractors to which F's security interest attaches under the terms of the agreement. Because the tractors are not property subject to the tax lien at the time of tax lien filing, the tax lien has priority over F's security interest in the tractors.

§ 301.6323(c)–3 Protection for obligatory disbursement agreements.

(a) *In general.* Even though a notice of a lien imposed by section 6321 is filed in accordance with § 301.6323(f)–1, the lien is not valid with respect to a security interest which:

(1) Comes into existence after the tax lien filing,

(2) Is in qualified property covered by the terms of an obligatory disbursement agreement entered into before the tax lien filing, and

(3) Is protected under local law against a judgment lien arising, as of the time of tax lien filing, out of an unsecured obligation.

See paragraphs (a) and (e) of § 301.6323(h)–1 for definitions of the terms "security interest" and "tax lien filing." For purposes of this section, a judgment lien is a lien held by a judgment lien creditor as defined in paragraph (g) of § 301.6323(h)–1.

(b) *Obligatory disbursement agreement.* For purposes of this section the term "obligatory disbursement agreement" means a written agreement, entered into by a person in the course of his trade or business, to make disbursements. An agreement is treated as an obligatory disbursement agreement only with respect to disbursements which are required to be made by reason of the intervention of the rights of a person other than the taxpayer. The obligation to pay must be conditioned upon an event beyond the control of the obligor. For example, the provisions of this section are applicable where an issuing bank obligates itself to honor drafts or other demands for payment on a letter of credit and a bank, in good faith, relies upon that letter of credit in making advances. The provisions of this section are also applicable, for example, where a bonding company obligates itself to make payments to indemnify against loss or liability and, under the terms of the bond, makes a payment with respect to a loss. The priority described in this section is not applicable, for example, in the case of an accommodation endorsement by an endorser who assumes his obligation other than in the course of his trade or business.

(c) *Qualified property.* Except as provided under paragraph (d) of this section, the term "qualified property," for purposes of this section, means property subject to the lien imposed by section 6321 at the time of tax lien filing and, to the extent that the acquisition is directly traceable to the obligatory disbursement, property acquired by the taxpayer after tax lien filing.

(d) *Special rule for surety agreements.* Where the obligatory disbursement agreement is an agreement insuring the performance of a contract of the taxpayer and another person, the term "qualified property" shall be treated as also including—

(1) The proceeds of the contract the performance of which was insured, and

(2) If the contract the performance of which was insured is a contract to construct or improve real property, to produce goods, or to furnish services, any tangible personal property used by the taxpayer in the performance of the insured contract.

For example, a surety company which holds a security interest, arising from cash disbursements made after tax lien filing under a payment or performance bond on a real estate construction project, has priority over the tax lien with respect to the proceeds of the construction contract and, in addition, with respect to any tangible personal property used by the taxpayer in the construction project if its security interest in the tangible personal property is protected under local law against a judgment lien arising, as of the time the tax lien was filed, out of an unsecured obligation.

(e) *Examples.* This section may be illustrated by the following examples:

Example (1). (i) On January 2, 1969, H, an appliance dealer, in order to finance the acquisition from O of a large inventory of appliances, enters into a written agreement with Z, a bank. Under the terms of the agreement, in return for a security interest in all of H's inventory, presently owned and subsequently acquired, Z issues an irrevocable letter of credit to allow H to make the purchase. On December 31, 1968 and January 10, 1969, in accordance with § 301.6323(f)–1, separate notices of lien are filed with respect to H's delinquent tax liabilities. On March 31, 1969, Z honors the letter of credit. Under local law, Z's security interest in both existing and after-acquired inventory is protected against a judgment lien arising on or after January 10, 1969, out of an unsecured obligation. Under local law, Z's security interest in the inventory purchased under the letter of credit qualifies as a purchase money security interest and is valid against persons acquiring security interests in or liens upon such inventory at any time.

(ii) Because Z's security interest in H's inventory did not arise under a written agreement entered into before the filing of notice of the first tax lien on December 31, 1968, that lien is superior to Z's security interest except to the extent of Z's purchase money security interest. Because Z's interest qualifies as a purchase money security interest with respect to the inventory purchased under the letter of credit, the tax liens attach under section 6321 only to the equity acquired by H, and the rights of Z in the inventory so purchased are superior even to the lien filed on December 31, 1968, without regard to this section.

(iii) Because Z's security interest arose by reason of disbursements made under a written agreement which was entered into before the filing of notice of the second tax lien on January 10, 1969, and which constitutes an agreement to make disbursements required to be made by reason of the intervention of the rights of O, a person other than the taxpayer, and because Z's security interest is valid under local law against a judgment lien arising as of the time of such tax lien filing on January 10, 1969, out of an unsecured obligation, the second tax lien is, under this section, not valid with respect to Z's security interest in inventory owned by H on January 10, 1969, as well as any after-acquired inventory directly traceable to Z's disbursements (apart from such greater protection as Z enjoys, with respect to the latter, under its purchase money security interest). No protection against the second tax lien is provided under this section with respect to a security interest in any other inventory acquired by H after January 10, 1969, because such other inventory is neither subject to the tax lien at the time of tax lien filing nor directly traceable to Z's disbursements.

Example (2). On June 1, 1971, K is awarded a contract to construct an office building. At the same time, S, a surety company, agrees in writing to insure the performance of the contract. The agreement provides that in the event S must complete the job as the result of a default by K, S will be entitled to the proceeds of the contract. In addition, the agreement provides that S is to have a security interest in all property belonging to K. On December 1, 1971, prior to the completion of the building, K defaults. On the same date, under § 301.6323(f)–1, a notice of lien is filed with respect to K's delinquent tax liability. S completes the building on June 1, 1972. Under local law S's security interest in the proceeds of the contract and S's security interest in the property of K are entitled to priority over a judgment lien arising December 1, 1971 (the date of tax lien filing) out of an unsecured obligation. Because, for purposes of an obligatory disbursement agreement which is a surety agreement, the security interest may be in the proceeds of the insured contract, S's security interest in the proceeds of the contract has priority over the tax lien even though a notice of lien was filed before S's security interest arose. Furthermore, because the insured contract was a contract to construct real property, S's security interest in any of K's tangible personal property used in the performance of the contract also has priority over the tax lien.

Example (3). (i) On February 2, 1970, L enters into an agreement with M, a contractor, to construct an apartment building on land owned by L. Under a separate agreement, N bank agrees to furnish funds on a short-term basis to L for the payment of amounts due to M during the course of construction. Simultaneously, X, a financial institution, makes a binding commitment to N bank and L to provide long-term financing for the project after its completion. Under its commitment, X is obligated to pay off the balance of the construction loan held by N bank upon the execution by L of a new promissory note secured by a mortgage deed of trust upon the improved property. On September 4, 1970, in accordance with § 301.6323(f)–1, notice of lien is properly filed with respect to L's delinquent tax liability. On September 8, 1970, X obtains actual notice of the tax lien filing. On September 14, 1970, the documents creating X's security interest are executed and recorded, N bank's lien for its construction loan is released, and X makes the required disbursements to N bank. Under local law, X's security interest is protected against a judgment lien arising on September 4, 1970 (the time of tax lien filing) out of an unsecured obligation.

(ii) Because X's security interest arose by reason of a disbursement made under a written agreement entered into before tax lien filing, which constitutes an agreement to make disbursements required to be made by reason of the intervention of the rights of N bank, a person other than the taxpayer, and because X's security interest is valid under local law against a judgment lien arising as of the time of the tax lien filing out of an unsecured obligation, the tax lien is not valid with respect to X's security interest to the extent of the disbursement to N bank. The obligatory disbursement is protected under section 6323(c)(4) even if X is not subrogated to N bank's rights or X's agreement is not itself a real property construction financing agreement.

§ 301.6323(d) Statutory provisions: validity and priority against certain persons; 45-day period for making disbursements.

SEC. 6323. *Validity and priority against certain persons.*

• • • • • •

(d) *45-day period for making disbursements.* Even though notice of a lien imposed by section 6321 has been filed, such lien shall not be valid with respect to a security interest which came into existence after tax lien filing by reason of disbursements made before the 46th day after the date of tax lien filing, or (if earlier) before the person making such disbursements had actual notice or knowledge of tax lien filing, but only if such security interest—

(1) Is in property (A) subject, at the time of tax lien filing, to the lien imposed by section 6321, and (B) covered by the terms of a written agreement entered into before tax lien filing, and

(2) Is protected under local law against a judgment lien arising, as of the time of tax lien filing, out of an unsecured obligation.

[Sec. 6323(d) as amended by sec. 236(a) Rev. Act 1964 (78 Stat. 127); sec. 101(a) Federal Tax Lien Act 1966 (80 Stat. 1125)]

§ 301.6323(d)–1 45-day period for making disbursements.

(a) *In general.* Even though a notice of a lien imposed by section 6321 is filed in accordance with § 301.6323(f)–1, the lien is not valid with respect to a security interest which comes into existence, after tax lien filing, by reason of disbursements made before the 46th day after the date of tax lien filing, or if earlier, before the person making the disbursements has actual notice or knowledge of the tax lien filing, but only if the security interest is—

(1) In property which is subject, at the time of tax lien filing, to the lien imposed by section 6321 and which is covered by the terms of a written agreement entered into before tax lien filing, and

(2) Protected under local law against a judgment lien arising, as of the time of tax lien filing, out of an unsecured obligation.

For purposes of subparagraph (1) of this paragraph, a contract right is in existence at the time of tax lien filing only to the extent earned by performance at such time. For purposes of subparagraph (2) of this paragraph, a judgment lien is a lien held by a judgment lien creditor as defined in paragraph (g) of § 301.6323(h)–1. For purposes of this section, it is immaterial that the written agreement provides that the disbursements are to be made at the option of the person making the disbursements. See paragraphs (a) and (e) of § 301.6323(h)–1 for definitions of the terms "security interest"

V38-2 JAN 4 73 XUM

and "tax lien filing," respectively. See paragraph (a) of § 301.6323(1)–1 for certain circumstances under which a person is deemed to have actual notice or knowledge of a fact.

(b) *Examples.* The application of this section may be illustrated by the following examples:

Example (1). On December 1, 1967, an assessment is made against A with respect to his delinquent tax liability. On January 2, 1968, A enters into a written agreement with B whereby B agrees to lend A $10,000 in return for a security interest in certain property owned by A. On January 10, 1968, in accordance with § 301.6323(f)–1 notice of the tax lien affecting the property is filed. On February 1, 1968, B, without actual notice or knowledge of the tax lien filing, disburses the loan to A. Under local law, the security interest arising by reason of the disbursement is entitled to priority over a judgment lien arising January 10, 1968 (the date of tax lien filing) out of an unsecured obligation. Because the disbursement was made before the 46th day after tax lien filing, because the disbursement was made pursuant to a written agreement entered into before tax lien filing, and because the resulting security interest is protected under local law against a judgment lien arising as of the date of tax lien filing out of an unsecured obligation, B's $10,000 security interest has priority over the tax lien.

Example (2). Assume the same facts as in example (1) except that when B disburses the $10,000 to A on February 10, 1968, B has actual knowledge of the tax lien filing. Because the disbursement was made with actual knowledge of tax lien filing, B's security interest does not have priority over the tax lien even though the disbursement was made before the 46th day after the tax lien filing. Furthermore, B is not protected under § 301.6323(a)–1(a) as a holder of a security interest because he had not parted with money or money's worth prior to the time the notice of tax lien was filed (Jan. 10, 1968) even though he had made a firm commitment to A before that time.

§ 301.6323(e) Statutory provisions; validity and priority against certain persons; priority of interest and expenses.

Sec. 6323. *Validity and priority against certain persons.* • • •

(e) *Priority of interest and expenses.* If the lien imposed by section 6321 is not valid as against a lien or security interest, the priority of such lien or security interest shall extend to—

(1) Any interest or carrying charges upon the obligation secured,

(2) The reasonable charges and expenses of an indenture trustee or agent holding the security interest for the benefit of the holder of the security interest,

(3) The reasonable expenses, including reasonable compensation for attorneys, actually incurred in collecting or enforcing the obligation secured,

(4) The reasonable costs of insuring, preserving, or repairing the property to which the lien or security interest relates,

(5) The reasonable costs of insuring payment of the obligation secured, and

(6) Amounts paid to satisfy any lien on the property to which the lien or security interest relates, but only if the lien so satisfied is entitled to priority over the lien imposed by section 6321, to the extent that, under local law, any such item has the same priority as the lien or security interest to which it relates.

[Sec. 6323(e) as amended by sec. 236(a) Rev. Act 1964 (78 Stat. 127); sec. 101(a), Federal Tax Lien Act 1966 (80 Stat. 1125)]

§ 301.6323(e)–1 Priority of interest and expenses.

(a) *In general.* If the lien imposed by section 6321 is not valid as against another lien or security interest, the priority of the other lien or security interest also extends to each of the following items to the extent that under local law the item has the same priority as the lien or security interest to which it relates:

(1) Any interest or carrying charges (including finance, service, and similar charges) upon the obligation secured,

(2) The reasonable charges and expenses of an indenture trustee (including, for example, the trustee under a deed of trust) or agent holding the security interest for the benefit of the holder of the security interest,

(3) The reasonable expenses, including reasonable compensation for attorneys, actually incurred in collecting or enforcing the obligation secured,

(4) The reasonable costs of insuring, preserving, or repairing the property to which the lien or security interest relates,

(5) The reasonable costs of insuring payment of the obligation secured (including amounts paid by the holder of the security interest for mortgage insurance, such as that issued by the Federal Housing Administration), and

(6) Amounts paid to satisfy any lien on the property to which the lien or security interest relates, but only if the lien so satisfied is entitled to priority over the lien imposed by section 6321.

(b) *Collection expenses.* The reasonable expenses described in paragraph (a)(3) of this section include expenditures incurred by the protected holder of the lien or security interest to establish the priority of his interest or to collect, by foreclosure or otherwise, the amount due him from the property subject to his lien. Accordingly, the amount of the encumbrance which is protected is increased by the amounts so expended by the holder of the security interest.

(c) *Costs of insuring, preserving, etc.* The reasonable costs of insuring, preserving, or repairing described in paragraph (a)(4) of this section include expenditures by the holder of a security interest for fire and casualty insurance on the property subject to the security interest and amounts paid by the holder of the lien or security interest to repair the property. Such reasonable costs also include the amounts paid by the holder of the lien or security interest in a leasehold to the lessor of the leasehold to preserve the leasehold subject to the lien or security interest. Accordingly, the amount of the lien or security interest which is protected is increased by the amounts so expended by the holder of the lien or security interest.

(d) *Satisfaction of liens.* The amounts described in paragraph (a)(6) of this section include expenditures incurred by the protected holder of a lien or security interest to discharge a statutory lien for State sales taxes on the property subject to his lien or security interest if both his lien or security interest and the sales tax lien have priority over a Federal tax lien. Accordingly, the amount of the lien or security interest is increased by the amounts so expended by the holder of the lien or security interest even though under local law the holder of the lien or security interest is not subrogated to the rights of the holder of the State sales tax lien. However, if the holder of the lien or security interest is subrogated, within the meaning of paragraph (b) of § 301.6323(1)–1, to the rights of the holder of the sales tax lien, he will also be entitled to any additional protection afforded by section 6323(i)(2).

§ 301.6323(f) Statutory provisions; validity and priority against certain persons; place for filing notice; form.

Sec. 6323. *Validity and priority against certain persons.* • • •

(f) *Place for filing notice; form*—(1) *Place for filing.* The notice referred to in subsection (a) shall be filed—

(A) *Under State laws*—(i) *Real property.* In the case of real property, in one office within the State (or the county, or other governmental subdivision) as designated by the laws of such State, in which the property subject to the lien is situated; and

(ii) *Personal property.* In the case of personal property, whether tangible or intangible, in one office within the State (or the county, or other governmental subdivision), as designated by the laws of such State, in which the property subject to the lien is situated; or

(B) *With clerk of district court.* In the office of the clerk of the U.S. district court for the judicial district in which the property subject to the lien is situated, whenever the State has not by law designated one office which meets the requirements of subparagraph (A); or

(C) *With recorder of deeds of the District of Columbia.* In the office of the Recorder of Deeds of the District of Columbia, if the property subject to the lien is situated in the District of Columbia.

(2) *Situs of property subject to lien.* For purposes of paragraph (1), property shall be deemed to be situated—

(A) *Real property.* In the case of real property, at its physical location; or

(B) *Personal property.* In the case of personal property, whether tangible or intangible, at the residence of the taxpayer at the time the notice of lien is filed.

For purposes of paragraph (2)(B), the residence of a corporation or partnership shall be deemed to be the place at which the principal executive office of the business is located, and the residence of a taxpayer whose residence is without the United States shall be deemed to be in the District of Columbia.

(3) *Form.* The form and content of the notice referred to in subsection (a) shall be prescribed by the Secretary or his delegate. Such notice shall be valid notwithstanding any other provision of law regarding the form or content of a notice of lien.

[Sec. 6323(f) as added by sec. 101(a) Federal Tax Lien Act of 1966 (80 Stat. 1125)]

§ 301.6323(f)–1 Place for filing notice; form.

(a) *Place for filing.* Unless subparagraph (2) or (3) of this paragraph applies, the notice of lien referred to in § 301.6323(a)–1 shall be filed as follows:

(1) *Under State laws*—(i) *Real property.* In the case of real property, notice shall be filed in one office within the State (or the county or other governmental subdivision), as designated by

the laws of the State, in which the property subject to the lien is deemed situated under the provisions of paragraph (b)(1) of this section.

(ii) *Personal property.* In the case of personal property, whether tangible or intangible, the notice shall be filed in one office within the State (or the county or other governmental subdivision), as designated by the laws of the State, in which the property subject to the lien is deemed situated under the provisions of paragraph (b)(2) of this section.

(2) *With the clerk of the U.S. district court.* Whenever a State has not by law designated one office which meets the requirements of subparagraph (1)(i) or (1)(ii) of this paragraph, the notice shall be filed in the office of the clerk of the U.S. district court for the judicial district in which the property subject to the lien is deemed situated under the provisions of paragraph (b) of this section. For example, a State has not by law designated one office meeting the requirements of subparagraph (1)(i) of this paragraph if more than one office is designated within the State, county, or other governmental subdivision for filing notices with respect to all real property located in such State, county, or other governmental subdivision. A State has not by law designated one office meeting the requirements of subparagraph (1)(ii) of this paragraph if more than one office is designated in the State, county, or other governmental subdivision for filing notices with respect to all of the personal property of a particular taxpayer.

(3) *With the Recorder of Deeds of the District of Columbia.* If the property subject to the lien imposed by section 6321 is deemed situated, under the provisions of paragraph (b) of this section, in the District of Columbia, the notice shall be filed in the office of the Recorder of Deeds of the District of Columbia.

(b) *Situs of property subject to lien.* For purposes of paragraph (a) of this section, property is deemed situated as follows:

(1) *Real property.* Real property is deemed situated at its physical location.

(2) *Personal property.* Personal property, whether tangible or intangible, is deemed situated at the residence of the taxpayer at the time the notice of lien is filed.

For purposes of subparagraph (2) of this paragraph the residence of a corporation or partnership is deemed to be the place at which the principal executive office of the business is located, and the residence of a taxpayer whose residence is not within the United States is deemed to be in the District of Columbia.

(c) *Form.* The notice referred to in § 301.6323(a)–1 shall be filed on Form 668, "Notice of Federal Tax Lien under Internal Revenue Laws". Such notice is valid notwithstanding any other provision of law regarding the form or content of a notice of lien. For example, omission from the notice of lien of a description of the property subject to the lien does not affect the validity thereof even though state law may require that the notice contain a description of the property subject to the lien.

(d) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). The law of State X provides that notices of Federal tax lien affecting personal property are to be filed in the Office of the Recorder of Deeds of the county where the taxpayer resides. The laws of State X also provide that notices of lien affecting real property are to be filed with the recorder of deeds of the county where the real property is located. On June 1, 1970, in accordance with § 301.6323(f)–1, a notice of lien is filed in county M with respect to the delinquent tax liability of A. At the time the notice is filed, A is a resident of county M and owns real property in that county. One year later A moves to county N and 1 year after that A moves to county O. Because the situs of personal property is deemed to be at the residence of the taxpayer at the time the notice of lien is filed, the notice continues to be effectively filed with respect to A's personal property even though A no longer resides in county M. Furthermore, because the situs of real property is deemed to be at its physical location, the notice of lien also continues to be effectively filed with respect to A's real property.

Example (2). B is a resident of Canada but owns personal property in the United States. On January 4, 1971, in accordance with § 301.6323(f)–1, a notice of lien is filed with the office of the Recorder of Deeds of the District of Columbia. On January 2, 1973, B changes his residence to State Y in the United States. Because the residence of a taxpayer who is not a resident of the United States is deemed to be in the District of Columbia and the situs of personal property is deemed to be at the residence of the taxpayer at the time of filing, the lien continues to be effectively filed with respect to the personal property of B located in the United States even though B has returned to the United States and taken up residence in State Y and even though B has at no time been in the District of Columbia.

Example (3). The law of State Z in effect before July 1, 1967, provides that notices of lien affecting real property are to be filed in the office of the recorder of deeds of the county in which the real property is located, but that if the real property is registered under the Torrens system of title registration the notice is to be filed with the registrar of titles rather than the recorder of deeds. The law of State Z in effect after June 30, 1967, provides that all notices of lien affecting real property are to be filed with the recorder of deeds of the county in which the real property is located. Accordingly, where the Torrens system is adopted by a county in State Z, there were before July 1, 1967, two offices designated for filing notices of Federal tax lien affecting real property of titles rather than the recorder of deeds. nated for Torrens real property and another office was designed for non-Torrens real property. Because State Z had not designated one office within the State, county, or other governmental subdivision for filing notices before July 1, 1967, with respect to all real property located in the State, county, or governmental subdivision, before July 1, 1967, the place for filing notices of lien under this section, affecting property located in counties adopting the Torrens system, was with the clerk of the U.S. district court for the judicial district in which the real property is located. However, after June 30, 1967, the place for filing notices of lien under this section, affecting both Torrens and non-Torrens real property in counties adopting the Torrens system is with the recorder of deeds for each such county. Notices of lien filed under this section with the clerk of the U.S. district court before July 1, 1967, remain validly filed whether or not refiled with the recorder of deeds after the change in State law or upon refiling during the required refiling period.

Example (4). The law of State W provides that notices of lien affecting personal property of corporations and partnerships are to be filed in the office of the Secretary of State. Notices of lien affecting personal property of any other person are to be filed in the office of the clerk of court for the county where the person resides. Because the State law designates only one filing office within State W with respect to personal property of any particular taxpayer, notices of lien filed under this section, affecting personal property, shall be filed in the office designated under State law.

§ 301.6323(g) Statutory provisions: validity and priority against certain persons; refiling of notice of tax lien.

Sec. 6323. *Validity and priority against certain persons.* • • •

(g) *Refiling of notice.*—For purposes of this section—

(1) *General rule.*—Unless notice of lien is refiled in the manner prescribed in paragraph (2) during the required refiling period, such notice of lien shall be treated as filed on the date on which it is filed (in accordance with subsection (f)) after the expiration of such refiling period.

(2) *Place for filing.*—A notice of lien refiled during the required refiling period shall be effective only—

(A) If such notice of lien is refiled in the office in which the prior notice of lien was filed; and

(B) In any case in which, 90 days or more prior to the date of a refiling of notice of lien under subparagraph (A), the Secretary or his delegate received written information (in the manner prescribed in regulations issued by the Secretary or his delegate) concerning a change in the taxpayer's residence, if a notice of such lien is also filed in accordance with subsection (f) in the State in which such residence is located.

(3) *Required refiling period.*—In the case of any notice of lien, the term "required refiling period" means—

(A) The 1-year period ending 30 days after the expiration of 6 years after the date of the assessment of the tax, and

(B) The 1-year period ending with the expiration of 6 years after the close of the preceding required refiling period for such notice of lien.

(4) *Transitional rule.*—Notwithstanding paragraph (3), if the assessment of the tax was made before January 1, 1962, the first required refiling period shall be the calendar year 1967.

[Sec. 6323(g) as added by sec. 101(a), Federal Tax Lien Act 1966 (80 Stat. 1125)]

§ 301.6323(g)–1 Refiling of notice of tax lien.

(a) *In general*—(1) *Requirement to refile.* In order to continue the effect of a notice of lien, the notice must be refiled in the place described in paragraph (b) of this section during the required refiling period (described in paragraph (c) of this section). In the event that two or more notices of lien are filed with respect to a particular tax assessment, the failure to comply with the provisions of paragraphs (b)(1)(i) and (c) of this section in respect of one of the notices of lien does not affect the effectiveness of the

V38-2 JAN 4 73 XUM

refiling of any other notice of lien. Except for the filing of a notice of lien required by paragraph (b)(1)(ii) of this section (relating to a change of residence) the validity of any refiling of a notice of lien is not affected by the refiling or nonrefiling of any other notice of lien.

(2) *Effect of refiling.* A timely refiled notice of lien is effective as of the date on which the notice of lien to which it relates was effective.

(3) *Effect of failure to refile.* If the district director fails to refile a notice of lien in the manner described in paragraphs (b) and (c) of this section, the notice of lien is not effective, after the expiration of the required refiling period, as against any person without regard to when the interest of the person in the property subject to the lien was acquired. However, the failure of the district director to refile a notice of lien during the required refiling period will not, following the expiration of the refiling period, affect the effectiveness of the notice with respect to:

(i) Property which is the subject matter of a suit, to which the United States is a party, commenced prior to the expiration of the required refiling period, or

(ii) Property which has been levied upon by the United States prior to the expiration of the refiling period.

However, if a suit or levy referred to in the preceding sentence is dismissed or released and the property is subject to the lien at such time, a notice of lien with respect to the property is not effective after the suit or levy is dismissed or released unless refiled during the required refiling period. Failure to refile a notice of lien does not affect the existence of the lien.

(4) *Filing of new notice.* If a notice of lien is not refiled, and if the lien remains in existence, the Internal Revenue Service may nevertheless file a new notice of lien either on the form prescribed for the filing of a notice of lien or on the form prescribed for refiling a notice of lien. This new filing must meet the requirements of section 6323(f) and § 301.6323(f)–1 and is effective from the date on which such filing is made.

(b) *Place for refiling notice of lien*—(1) *In general.* A notice of lien refiled during the required refiling period (described in paragraph (c) of this section) shall be effective only—

(i) If the notice of lien is refiled in the office in which the prior notice of lien (including a refiled notice) was filed under the provisions of section 6323; and

(ii) In any case in which 90 days or more prior to the date the refiling of the notice of lien under subdivision (i) is completed, the Internal Revenue Service receives written information (in the manner described in subparagraph (2) of this paragraph) concerning a change in the taxpayer's residence, if a notice of such lien is also filed in accordance with section 6323(f)(1)(A)(ii) in the State in which such new residence is located (or, if such new residence is located without the United States, in the District of Columbia).

A notice of lien is considered as refiled in the office in which the prior notice or refiled notice was filed under the provisions of section 6323 if it is refiled in the office which, pursuant to a change in the applicable local law, assumed the functions of the office in which the prior notice or refiled notice was filed. If on or before the 90th day referred to in subdivision (ii) more than one written notice is received concerning a change in the taxpayer's residence, a notice of lien is required by this subdivision to be filed only with respect to the residence shown on the written notice received on the most recent date. Subdivision (ii) is applicable regardless of whether the taxpayer resides at the new residence on the date the refiling of notice of lien under subdivision (i) of this subparagraph is completed.

(2) *Notice of change of taxpayer's residence*—(i) *In general.* Except as provided in subdivision (ii) or (iii) of this subparagraph, for purposes of this section, a notice of change of a taxpayer's residence will be effective only if it (A) is received, in writing, from the taxpayer or his representative by the director of the service center which serves the district in which the former residence was located, (B) relates to an unpaid tax liability of the taxpayer, and (C) states the taxpayer's name and the address of his new residence. Although it is not necessary that a written notice contain the taxpayer's identifying number authorized by section 6109, it is preferable that it include such number. For purposes of this subdivision, a notice of change of a taxpayer's residence shown on a return or an amended return (including a return of the same tax) will not be effective to notify the Internal Revenue Service.

(ii) *Notice received before July 1, 1973.* For purposes of this section, a notice of a change of a taxpayer's residence will also be effective if it (A) is received, in writing, by any office of the Internal Revenue Service before July 1, 1973, from the taxpayer or his representative, (B) relates to an unpaid tax liability of the taxpayer, and (C) states the taxpayer's name and the address of his new residence.

(iii) *By return or amended return.* For purposes of this section, in the case of a notice of lien which relates to an assessment of tax made after December 31, 1966, a notice of change of a taxpayer's residence will also be effective if it is contained in a return or amended return of the same type of tax filed with the Internal Revenue Service by the taxpayer or his representative which on its face indicates that there is a change in the taxpayer's address and correctly states the taxpayer's name, the address of his new residence, and his identifying number required by section 6109.

(iv) *Other rules applicable.* Except as provided in subdivisions (i), (ii), and (iii) of this subparagraph, no communication (either written or oral) to the Internal Revenue Service will be considered effective as notice of a change of a taxpayer's residence under this section, whether or not the Service has actual notice or knowledge of the taxpayer's new residence. For the purpose of determining the date on which a notice of change of a taxpayer's residence is received under this section, the notice shall be treated as received on the date it is actually received by the Internal Revenue Service without reference to the provisions of section 7502.

(3) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). A, a delinquent taxpayer, is a resident of State M and owns real property in State N. In accordance with § 301.6323(f)–1, notices of lien are filed in States M and N. In order to continue the effect of the notice of lien filed in M, the Internal Revenue Service must refile, during the required refiling period, the notice of lien with the appropriate office in M but is not required to refile the notice of lien with the appropriate office in N. Similarly, in order to continue the effect of the notice of lien filed in State N, the Internal Revenue Service must refile, during the required refiling period, the notice of lien with the appropriate office in N but is not required to refile the notice of lien with the appropriate office in M.

Example (2). B, a delinquent taxpayer, is a resident of State M. In accordance with § 301.6323(f)–1, notice of lien is properly filed in that State. One year before the beginning of the required refiling period, B establishes his residence in State N, and B immediately notifies the Internal Revenue Service of his change in residence in accordance with the provisions of paragraph (b)(2) of this section. In order to continue the effect of the notice of lien filed in M, the Internal Revenue Service must refile, during the required refiling period, notices of lien with (i) the appropriate office in M, and (ii) the appropriate office in N, because B properly notified the Internal Revenue Service of his change in residence to N more than 89 days prior to the date refiling of the notice of lien in M is completed. Even if the Internal Revenue Service had acquired actual notice or knowledge of B's change in residence by other means, if B had not properly notified the Internal Revenue Service of his change in residence, the effect of the notice of lien in State M could have been continued without any refiling in State N.

Example (3). C, a delinquent taxpayer, is a resident of State O. In accordance with § 301.6323(f)–1, notice of lien is properly filed in that State. Four years before the required refiling period, C establishes his residence in State P, and C immediately notifies the Internal Revenue Service of his change in residence in accordance with the provisions of paragraph (b)(2) of this section. Three years before the required refiling period, C establishes his residence in State R, and again C immediately notifies the Internal Revenue Service of his change in residence in accordance with the provisions of paragraph (2) of this section. In order to continue the effect of the notice of lien filed in O, the Internal Revenue Service must refile, during the required refiling period, notices of lien with (i) the appropriate office in O, and (ii) the appropriate office in R. Refiling in R is required because the notice received by the Service of C's change in residence to R was the most recent notice received more than 89 days prior to the date refiling in O is completed. The notice of lien is not required to be filed in P, even though C properly notified the Internal Revenue Service of his change in residence to P, because such notice is not the most recent one received.

Example (4). Assume the same facts as in example (3), except that C does not notify the Internal Revenue Service of his change in residence to R in accordance with the provisions of paragraph (b)(2) of this section. In order to continue the effect of the notice of lien filed in O, the Internal Revenue Service must refile, during the required refiling period, the notice of lien with (i) the appropriate office in O, and (ii) the appropriate office in P. Refiling in P is required because C properly notified the Internal Revenue Service of his change in residence to P, even though C is not a resident of P on the date refiling of the notice of lien in O is completed. The Internal Revenue Service is not required to file a notice of lien in R because C did not properly notify the Service of his change in residence to R.

Example (5). D, a delinquent taxpayer, is a resident of State M and owns real property in States N and O. In accordance with § 301.6323(f)–1, the Internal Revenue Service files notices of lien in M, N, and O States. Five years and 6 months after the date of the assessment shown on the notice of lien, D establishes his residence in P, and at that time the Internal Revenue Service received from D a notification of his change in residence in accordance with the provisions of paragraph (b)(2) of this section. On a date which is 5 years and 7 months after the date of the assessment shown on the notice of lien, the Internal Revenue Service properly refiles notices of lien in M, N, and O which refilings are sufficient to continue the effect of each of the notice of lien. The Internal Revenue Service is not required to file a notice of lien in P because D did not notify the Internal Revenue Service of his change of residence to P more than 89 days prior to the date each of the refilings in M, N, and O was completed.

Example (6). Assume the same facts as in example (5) except that the refiling of the notice of lien in O occurs 100 days after D notifies the Internal Revenue Service of his change in residence to P in accordance with the provisions of paragraph (b)(2) of this section. In order to continue the effect of the notice of lien filed in O, in addition to refiling the notice of lien in O, the Internal Revenue Service must also refile, during the required refiling period, a notice of lien in P because D properly notified the Internal Revenue Service of his change of residence to P more than 89 days prior to the date the refiling in O was completed. However, the Internal Revenue Service is not required to refile the notice of lien in P to maintain the effect of the notices of lien in M and N because D did not notify the Internal Revenue Service of his change in residence to P more than 89 days prior to the date the refilings in M and N were completed.

Example (7). E, a delinquent taxpayer, is a resident of State T. Because T has not designated one office in the case of personal property for filing notices of lien in accordance with the provisions of section 6323(f)(1)(A)(ii), the Internal Revenue Service properly files a notice of lien with the clerk of the appropriate U.S. district court. However, solely as a matter of convenience for those who may have occasion to search for notices of lien, and not as a matter of legal effectiveness, the Internal Revenue Service also files notice of lien with the recorder of deeds of the county in T where E resides. In addition, the Internal Revenue Service sends a copy of the notice of lien to the X life insurance company to give the company actual notice of the notice of lien. In order to continue the effect of the notice of lien, the Internal Revenue Service must refile the notice of lien with the clerk of the appropriate U.S. district court during the required refiling period. In order to continue the effect of the notice of the lien, it is not necessary to refile the notice of lien with the recorder of deeds of the county where E resides, because the refiling of the notice of lien with the recorder of deeds does not constitute a proper filing for the purposes of section 6323(f). In addition, to continue the effect of the notice of lien under this section it is not necessary to send a copy of the notice of lien to the X life insurance company, because the sending of a notice of lien to an insurance company does not constitute a proper filing for the purposes of section 6323(f).

(c) *Required refiling period*—(1) *In general.* For the purpose of this section, except as provided in subparagraph (2) of this paragraph, the term "required refiling period" means—

(i) The 1-year period ending 30 days after the expiration of 6 years after the date of the assessment of the tax, and

(ii) The 1-year period ending with the expiration of 6 years after the close of the preceding required refiling period for such notice of lien.

(2) *Tax assessments made before January 1, 1962.* If the assessment of the tax is made before January 1, 1962, the first required refiling period shall be the calendar year 1967. This, to maintain the effectiveness of any notice of lien on file which relates to a lien which arose before January 1, 1962, the Internal Revenue Service will refile the notice of lien during the calendar year 1967.

(3) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). On March 1, 1963, an assessment of tax is made against B, a delinquent taxpayer, and a lien for the amount of the assessment arises on that date. On July 1, 1963, in accordance with § 301.6323(f)–1, a notice of lien is filed. The notice of lien filed on July 1, 1963, is effective through March 31, 1969. The first required refiling period for the notice of lien begins on April 1, 1968, and ends on March 31, 1969. A refiling of the notice of lien during that period will extend the effectiveness of the notice of lien filed on July 1, 1963, through March 31, 1975. The second required refiling period for the notice of lien begins on April 1, 1974, and ends on March 31, 1975.

Example (2). Assume the same facts as in example (1), except that although the Internal Revenue Service fails to refile a notice of lien during the first required refiling period (April 1, 1968, through March 31, 1969), a notice of lien is filed on June 2, 1971, in accordance with § 301.6323(f)–1. Because of this filing, the notice of lien filed on June 2, 1971, is effective as of June 2, 1971. That notice must be refiled during the 1-year period ending on March 31, 1975, if it is to continue in effect after March 31, 1975.

Example (3). On April 1, 1960, an assessment of tax is made against B, a delinquent taxpayer, and a tax lien for the amount of the assessment arises on that date. On June 1, 1962, in accordance with § 301.6323(f)–1, a notice of lien is filed. Because the assessment of tax was made before January 1, 1962, the notice of lien filed on June 1, 1962, is effective through December 31, 1967. The first required refiling period for the notice of lien is the calendar year 1967. A refiling of the notice of lien during 1967 will extend the effectiveness of the notice of lien filed on June 1, 1962, through December 31, 1973.

§ 301.6323(h) Statutory provisions; validity and priority against certain persons; definitions.

SEC. 6323. *Validity and priority against certain persons.* * * *

(h) *Definitions.* For purposes of this section and section 6324—

(1) *Security interest.* The term "security interest" means any interest in property acquired by contract for the purpose of securing payment or performance of an obligation or indemnifying against loss or liability. A security interest exists at any time (A) if, at such time, the property is in existence and the interest has become protected under local law against a subsequent judgment lien arising out of an unsecured obligation, and (B) to the extent that, at such time, the holder has parted with money or money's worth.

(2) *Mechanic's lienor.* The term "mechanic's lienor" means any person who under local law has a lien on real property (or on the proceeds of a contract relating to real property) for services, labor, or materials furnished in connection with the construction or improvement of such property. For purposes of the preceding sentence, a person has a lien on the earliest date such lien becomes valid under local law against subsequent purchasers without actual notice, but not before he begins to furnish the services, labor, or materials.

(3) *Motor vehicle.* The term "motor vehicle" means a self-propelled vehicle which is registered for highway use under the laws of any State or foreign country.

(4) *Security.* The term "security" means any bond, debenture, note, or certificate or other evidence of indebtedness, issued by a corporation or a government or political subdivision thereof, with interest coupons or in registered form, share of stock, voting trust certificate, or any certificate of interest or participation in, certificate of deposit or receipt for, temporary or interim certificate for, or warrant or right to subscribe to or purchase, any of the foregoing; negotiable instrument or money.

(5) *Tax lien filing.* The term "tax lien filing" means the filing of notice (referred to in subsection (a)) of the lien imposed by section 6321.

(6) *Purchaser.* The term "purchaser" means a person who, for adequate and full consideration in money or money's worth, acquires an interest (other than a lien or security interest) in property which is valid under local law against subsequent purchasers without actual notice. In applying the preceding sentence for purposes of subsection (a) of this section, and for purposes of section 6324—

(A) A lease of property,

(B) A written executory contract to purchase or lease property,

(C) An option to purchase or lease property or any interest therein, or

(D) An option to renew or extend a lease of property,

which is not a lien or security interest shall be treated as an interest in property.

[Sec. 6323(h) as added by sec. 101(a), Federal Tax Lien Act 1966 (80 Stat. 1125)]

§ 301.6323(h)–0 Scope of definitions.

Except as otherwise provided by § 301.6323(h)–1, the definitions provided by § 301.6323(h)–1 apply for purposes of §§ 301.6323(a)–1 through 301.6324–1.

§ 301.6323(h)–1 Definitions.

(a) *Security interest*—(1) *In general.* The term "security interest" means any interest in property acquired by contract for the purpose of securing payment or performance of an obligation or indemnifying against loss or liability. A security interest exists at any time—

(i) If, at such time, the property is in existence and the interest has become

V38-2 JAN 4 73 XUM

protected under local law against a subsequent judgment lien (as provided in subparagraph (2) of this paragraph) arising out of an unsecured obligation; and

(II) To the extent that, at such time, the holder has parted with money or money's worth (as defined in subparagraph (3) of this paragraph).

A security interest must be in existence, within the meaning of this paragraph, at the time as of which its priority against a tax lien is determined. For example, to be afforded priority under the provisions of paragraph (a) of § 301.6323 (a)–1 a security interest must be in existence within the meaning of this paragraph before a notice of lien is filed.

(2) *Protection against a subsequent judgment lien.* (i) For purposes of this paragraph, a security interest is deemed to be protected against a subsequent judgment lien on—

(A) The date on which all actions required under local law to establish the priority of a security interest against a judgment lien have been taken, or

(B) If later, the date on which all required actions are deemed effective, under local law, to establish the priority of the security interest against a judgment lien.

For purposes of this subdivision, the dates described in (a) and (b) of this subdivision (i) shall be determined without regard to any rule or principle of local law which permits the relation back of any requisite action to a date earlier than the date on which the action is actually performed. For purposes of this paragraph, a judgment lien is a lien held by a judgment lien creditor as defined in paragraph (g) of this section.

(ii) The application of this subparagraph may be illustrated by the following example:

Example. (1) Under the law of State X, a security interest in negotiable instruments, stocks, bonds, or other securities may be perfected, and hence protected against a judgment lien, only by the secured party taking possession of the instruments or securities. However, a security interest in such intangible personal property is considered to be temporarily perfected for a period of 21 days from the time the security interest attaches, to the extent consideration other than past consideration is given under a written security agreement. Under the law of X, a security interest attaches to such collateral when there is an agreement between the creditor and debtor that the interest attaches, the debtor has rights in the property, and consideration is given by the creditor. Under the law of X, in the case of temporary perfection, the security interest in such property is protected during the 21-day period against a judgment lien arising, after the security interest attaches, out of an unsecured obligation. Upon expiration of the 21-day period, the holder of the security interest must take possession of the collateral to continue perfection.

(ii) Because the security interest is protected during the 21-day period against a subsequent judgment lien arising out of an unsecured obligation, and because the taking of possession before the conclusion of the period of temporary perfection is not considered, for purposes of subdivision (i) of this subparagraph, to be a requisite action which relates back to the beginning of such period, the requirements of this paragraph are satisfied. However, because taking possession is a condition precedent to continued perfection, possession of the collateral is a requisite action to establish such priority after expiration of the period of temporary perfection. If there is a lapse of perfection for failure to take possession, the determination of when the security interest exists (for purposes of protection against the tax lien) is made without regard to the period of temporary perfection.

(3) *Money or money's worth.* For purposes of this paragraph, the term "money or money's worth" includes money, a security (as defined in paragraph (d) of this section), tangible or intangible property, services, and other consideration reducible to a money value. Money or money's worth also includes any consideration which otherwise would constitute money or money's worth under the preceding sentence which was parted with before the security interest would otherwise exist if, under local law, past consideration is sufficient to support an agreement giving rise to a security interest. A relinquishing or promised relinquishment of dower, curtesy, or of a statutory estate created in lieu of dower or curtesy, or of other marital rights is not a consideration in money or money's worth. Nor is love and affection, promise of marriage, or any other consideration not reducible to a money value a consideration in money or money's worth.

(4) *Holder of a security interest.* For purposes of this paragraph, the holder of a security interest is the person in whose favor there is a security interest. For provisions relating to the treatment of a purchaser of commercial financing security as a holder of a security interest, see § 301.6323(c)–1(e).

(b) *Mechanic's lienor*—(1) *In general.* The term "mechanic's lienor" means any person who under local law has a lien on real property (or on the proceeds of a contract relating to real property) for services, labor, or materials furnished in connection with the construction or improvement (including demolition) of the property. A mechanic's lienor is treated as having a lien on the later of—

(i) The date on which the mechanic's lien first becomes valid under local law against subsequent purchasers of the real property without actual notice, or

(ii) The date on which the mechanic's lienor begins to furnish the services, labor, or materials.

(2) *Examples.* The provisions of this paragraph may be illustrated by the following example:

Example (1). On February 1, 1968, A lets a contract for the construction of an office building on property owned by him. On March 1, 1968, in accordance with § 301.6323 (f)–1, a notice of lien for delinquent Federal taxes owed by A is filed. On April 1, 1968, B, a lumber dealer, delivers lumber to A's property. On May 1, 1968, B records a mechanic's lien against the property to secure payment of the price of the lumber. Under local law, B's mechanic's lien is valid against subsequent purchasers of real property without notice from February 1, 1968, which is the date the construction contract was entered into. Because the date on which B's mechanic's lien is valid under local law against subsequent purchasers is February 1, and the date on which B begins to furnish the materials is April 1, the date on which B becomes a mechanic's lienor within the meaning of this paragraph is April 1, the later of these two dates. Under paragraph (a) of § 301.6323(a)–1, B's mechanic's lien will not have priority over the Federal tax lien, even though under local law the mechanic's lien relates back to the date of the contract.

(c) *Motor vehicle.* (1) The term "motor vehicle" means a self-propelled vehicle which is registered for highway use under the laws of any State, the District of Columbia, or a foreign country.

(2) A motor vehicle is "registered for highway use" at the time of a sale if immediately prior to the sale it is so registered under the laws of any State, the District of Columbia, or a foreign country. Where immediately prior to the sale of a motor vehicle by a dealer, the dealer is permitted under local law to operate it under a dealer's tag, license, or permit issued to him, the motor vehicle is considered to be registered for highway use in the name of the dealer at the time of the sale.

(d) *Security.* The term "security" means any bond, debenture, note, or certificate or other evidence of indebtedness, issued by a corporation or a government or political subdivision thereof, with interest coupons or in registered form, share of stock, voting trust certificate, or any certificate of interest or participation in, certificate of deposit or receipt for, temporary or interim certificate for, or warrant or right to subscribe to or purchase, any of the foregoing; negotiable instrument; or money.

(e) *Tax lien filing.* The term "tax lien filing" means the filing of notice of the lien imposed by section 6321.

(f) *Purchaser*—(1) *In general.* The term "purchaser" means a person who, for adequate and full consideration in money or money's worth (as defined in subparagraph (3) of this paragraph), acquires an interest (other than a lien or security interest) in property which is valid under local law against subsequent purchasers without actual notice.

(2) *Interest in property.* For purposes of this paragraph, each of the following interests is treated as an interest in property, if it is not a lien or security interest:

(i) A lease of property,

(ii) A written executory contract to purchase or lease property,

(iii) An option to purchase or lease property and any interest therein, or

(iv) An option to renew or extend a lease of property.

(3) *Adequate and full consideration in money or money's worth.* For purposes of this paragraph, the term "adequate and full consideration in money or money's worth" means a consideration in money or money's worth having a reasonable relationship to the true value of the interest in property acquired. See paragraph (a)(3) of this section for definition of the term "money or money's worth." Adequate and full consideration in money or money's worth may include the consideration in a bona fide bargain purchase. The term also includes the consideration in a transaction in which the purchaser has not completed performance of his obligation, such as the consideration in an installment purchase contract, even though the purchaser has not completed the installment payments.

(4) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). A enters into a contract for the purchase of a house and lot from B. Under the terms of the contract A makes a down payment and is to pay the balance of the purchase price in 120 monthly installments. After payment of the last installment, A is to receive a deed to the property. A enters into possession, which under local law protects his interest in the property against subsequent purchasers without actual notice. After A has paid five monthly installments, a notice of lien for Federal taxes is filed against B in accordance with § 301.6323 (f)–1. Because the contract is an executory contract to purchase property and is valid under local law against subsequent purchasers without actual notice, A qualifies as a purchaser under this paragraph.

Example (2). C owns a residence which he leases to his son-in-law, D, for a period of 5 years commencing January 1, 1968. The lease provides for payment of $100 a year, although the fair rental value of the residence is $2,500 a year. The lease is recorded on December 31, 1967. On March 1, 1968, a notice of tax lien for unpaid Federal taxes of C is filed in accordance with § 301.6323(f)–1. Under local law, D's interest is protected against subsequent purchasers without actual notice. However, because the rental paid by D has no reasonable relationship to the value of the interest in property acquired, D does not qualify as a purchaser under this paragraph.

(g) *Judgment lien creditor.* The term "judgment lien creditor" means a person who has obtained a valid judgment, in a court of record and of competent jurisdiction, for the recovery of specifically designated property or for a certain sum of money. In the case of a judgment for the recovery of a certain sum of money, a judgment lien creditor is a person who has perfected a lien under the judgment on the property involved. A judgment lien is not perfected until the identity of the lienor, the property subject to the lien, and the amount of the lien are established. Accordingly, a judgment lien does not include an attachment or garnishment lien until the lien has ripened into judgment, even though under local law the lien of the judgment relates back to an earlier date. If recording or docketing is necessary under local law before a judgment becomes effective against third parties acquiring liens on real property, a judgment lien under such local law is not perfected with respect to real property until the time of such recordation or docketing. If under local law levy or seizure is necessary before a judgment lien becomes effective against third parties acquiring liens on personal property, then a judgment lien under such local law is not perfected until levy or seizure of the personal property involved. The term "judgment" does not include the determination of a quasi-judicial body or of an individual acting in a quasi-judicial capacity such as the action of State taxing authorities.

§ 301.6323(i) Statutory provisions; validity and priority against certain persons; special rules.

SEC. 6323. *Validity and priority against certain persons.* * * *

(i) *Special rules*—(1) *Actual notice or knowledge.* For purposes of this subchapter, an organization shall be deemed for purposes of a particular transaction to have actual notice or knowledge of any fact from the time such fact is brought to the attention of the individual conducting such transaction, and in any event from the time such fact would have been brought to such individual's attention if the organization had exercised due diligence. An organization exercises due diligence if it maintains reasonable routines for communicating significant information to the person conducting the transaction and there is reasonable compliance with the routines. Due diligence does not require an individual acting for the organization to communicate information unless such communication is part of his regular duties or unless he has reason to know of the transaction and that the transaction would be materially affected by the information.

(2) *Subrogation.* Where, under local law, one person is subrogated to the rights of another with respect to a lien or interest, such person shall be subrogated to such rights for purposes of any lien imposed by section 6321 or 6324.

(3) *Disclosure of amount of outstanding lien.* If a notice of lien has been filed pursuant to subsection (f), the Secretary or his delegate is authorized to provide by regulations the extent to which, and the conditions under which, information as to the amount of the outstanding obligation secured by the lien may be disclosed.

[Sec. 6323(i) as added by sec. 101(a), Federal Tax Lien Act 1966 (80 Stat. 1125)]

§ 301.6323(i)–1 Special rules.

(a) *Actual notice or knowledge.* For purposes of subchapter C (section 6321 and following), chapter 64 of the Code, an organization is deemed, in any transaction, to have actual notice or knowledge of any fact from the time the fact is brought to the attention of the individual conducting the transaction, and in any event from the time the fact would have been brought to the individual's attention if the organization had exercised due diligence. An organization exercises due diligence if it maintains reasonable routines for communicating significant information to the person conducting the transaction and there is reasonable compliance with the routines. Due diligence does not require an individual acting for the organization to communicate information unless such communication is part of his regular duties or unless he has reason to know of the transaction and that the transaction would be materially affected by the information.

(b) *Subrogation*—(1) *In general.* Where, under local law, one person is subrogated to the rights of another with respect to a lien or interest, such person shall be subrogated to such rights for purposes of any lien imposed by section 6321 or 6324. Thus, if a tax lien imposed by section 6321 or 6324 is not valid with respect to a particular interest as against the holder of that interest, then the tax lien also is not valid with respect to that interest as against any person who, under local law, is a successor in interest to the holder of that interest.

(2) *Example.* The application of this paragraph may be illustrated by the following example:

Example. On February 1, 1968, an assessment is made and a tax lien arises with respect to A's delinquent tax liability. On February 25, 1968, in accordance with § 301.6323 (f)–1, a notice of lien is properly filed. On March 1, 1968, A negotiates a loan from B, the security for which is a second mortgage on property owned by A. The first mortgage on the property is held by C and has priority over the tax lien. Upon default by A, C begins proceedings to foreclose upon the first mortgage. On September 1, 1968, B pays the amount of principal and interest in default to C in order to protect the second mortgage against the pending foreclosure of C's senior mortgage. Under local law, B is subrogated to C's rights to the extent of the payment to C. Therefore, the tax lien is invalid against B to the extent he became subrogated to C's rights even though the tax lien is valid against B's second mortgage on the property.

(c) *Disclosure of amount of outstanding lien.* If a notice of lien has been filed (see § 301.6323(f)–1), the amount of the outstanding obligation secured by the lien is authorized to be disclosed as a matter of public record on Form 668 "Notice of Federal Tax Lien Under Internal Revenue Laws." The amount of the outstanding obligation secured by the lien remaining unpaid at the time of an inquiry is authorized to be disclosed to any person who has a proper interest in determining this amount. Any person who has a right in the property or intends to obtain a right in the property by purchase or otherwise will, upon presentation by him of satisfactory evidence, be considered to have a proper interest. Any person desiring this information may make his request to the office of the Internal Revenue Service named on the notice of lien with respect to which the request is made. The request should clearly describe the property subject to the lien, identify the applicable lien, and give the reasons for requesting the information.

PAR. 8. Section 301.6325 is amended to read as follows:

§ 301.6325 Statutory provisions; release of lien or discharge of property.

SEC. 6325. *Release of lien or discharge of property*—(a) *Release of lien.* Subject to such regulations as the Secretary or his delegate may prescribe, the Secretary or his delegate may issue a certificate of release of any lien imposed with respect to any internal revenue tax if—

(1) *Liability satisfied or unenforceable.* The Secretary or his delegate finds that the liability for the amount assessed, together with all interest in respect thereof, has been fully satisfied or has become legally unenforceable; or

(2) *Bond accepted.* There is furnished to the Secretary or his delegate and accepted by him a bond that is conditioned upon the payment of the amount assessed, together with all interest in respect thereof, within the time prescribed by law (including any extension of such time), and that is in accordance with such requirements relating to

V 38 - 2 JAN 4 73 XUM

terms, conditions, and form of the bond and sureties thereon, as may be specified by such regulations.

(b) *Discharge of property*—(1) *Property double the amount of the liability.* Subject to such regulations as the Secretary or his delegate may prescribe, the Secretary or his delegate may issue a certificate of discharge of any part of the property subject to any lien imposed under this chapter if the Secretary or his delegate finds that the fair market value of that part of such property remaining subject to the lien is at least double the amount of the unsatisfied liability secured by such lien and the amount of all other liens upon such property which have priority over such lien.

(2) *Part payment; interest of United States valueless.* Subject to such regulations as the Secretary or his delegate may prescribe, the Secretary or his delegate may issue a certificate of discharge of any part of the property subject to the lien if—

(A) There is paid over to the Secretary or his delegate in partial satisfaction of the liability secured by the lien an amount determined by the Secretary or his delegate, which shall not be less than the value, as determined by the Secretary or his delegate, of the interest of the United States in the part to be so discharged, or

(B) The Secretary or his delegate determines at any time that the interest of the United States in the part to be so discharged has no value.

In determining the value of the interest of the United States in the part to be so discharged, the Secretary or his delegate shall give consideration to the value of such part and to such liens thereon as have priority over the lien of the United States.

(3) *Substitution of proceeds of sale.* Subject to such regulations as the Secretary or his delegate may prescribe, the Secretary or his delegate may issue a certificate of discharge of any part of the property subject to the lien if such part of the property is sold and, pursuant to an agreement with the Secretary or his delegate, the proceeds of such sale are to be held, as a fund subject to the liens and claims of the United States, in the same manner and with the same priority as such liens and claims had with respect to the discharged property.

(c) *Estate or gift tax.* Subject to such regulations as the Secretary or his delegate may prescribe, the Secretary or his delegate may issue a certificate of discharge of any or all of the property subject to any lien imposed by section 6324 if the Secretary or his delegate finds that the liability secured by such lien has been fully satisfied or provided for.

(d) *Subordination of lien.* Subject to such regulations as the Secretary or his delegate may prescribe, the Secretary or his delegate may issue a certificate of subordination of any lien imposed by this chapter upon any part of the property subject to such lien if—

(1) There is paid over to the Secretary or his delegate an amount equal to the amount of the lien or interest to which the certificate subordinates the lien of the United States, or

(2) The Secretary or his delegate believes that the amount realizable by the United States from the property to which the certificate relates, or from any other property subject to the lien, will ultimately be increased by reason of the issuance of such certificate and that the ultimate collection of the tax liability will be facilitated by such subordination.

(e) *Nonattachment of lien.* If the Secretary or his delegate determines that, because of confusion of names or otherwise, any person (other than the person against whom the tax was assessed) is or may be injured by the appearance that a notice of lien filed under section 6323 refers to such person, the Secretary or his delegate may issue a certificate that the lien does not attach to the property of such person.

(f) *Effect of certificate*—(1) *Conclusiveness.* Except as provided in paragraphs (2) and (3), if a certificate is issued pursuant to this section by the Secretary or his delegate and is filed in the same office as the notice of lien to which it relates (if such notice of lien has been filed) such certificate shall have the following effect:

(A) In the case of a certificate of release, such certificate shall be conclusive that the lien referred to in such certificate is extinguished;

(B) In the case of a certificate of discharge, such certificate shall be conclusive that the property covered by such certificate is discharged from the lien;

(C) In the case of a certificate of subordination, such certificate shall be conclusive that the lien or interest to which the lien of the United States is subordinated is superior to the lien of the United States; and

(D) In the case of a certificate of nonattachment, such certificate shall be conclusive that the lien of the United States does not attach to the property of the person referred to in such certificate.

(2) *Revocation of certificate of release or nonattachment.* If the Secretary or his delegate determines that a certificate of release or nonattachment of a lien imposed by section 6321 was issued erroneously or improvidently, or if a certificate of release of such lien was issued pursuant to a collateral agreement entered into in connection with a compromise under section 7122 which has been breached, and if the period of limitation on collection after assessment has not expired, the Secretary or his delegate may revoke such certificate and reinstate the lien—

(A) By mailing notice of such revocation to the person against whom the tax was assessed at his last known address, and

(B) By filing notice of such revocation in the same office in which the notice of lien to which it relates was filed (if such notice of lien had been filed).

Such reinstated lien (i) shall be effective on the date notice of revocation is mailed to the taxpayer in accordance with the provisions of subparagraph (A), but not earlier than the date on which any required filing of notice of revocation is filed in accordance with the provisions of subparagraph (B), and (ii) shall have the same force and effect (as of such date), until the expiration of the period of limitation on collection after assessment, as a lien imposed by section 6321 (relating to lien for taxes).

(3) *Certificates void under certain conditions.* Notwithstanding any other provision of this subtitle, any lien imposed by this chapter shall attach to any property with respect to which a certificate of discharge has been issued if the person liable for the tax reacquires such property after such certificate has been issued.

(g) *Filing of certificates and notices.* If a certificate or notice issued pursuant to this section may not be filed in the office designated by State law in which the notice of lien imposed by section 6321 is filed, such certificate or notice shall be effective if filed in the office of the clerk of the United States district court for the judicial district in which such office is situated.

(h) *Cross reference.* For provisions relating to bonds, see chapter 73 (sec. 7101 and following).

[Sec. 6325 as amended by sec. 77, Technical Amendments Act 1958 (72 Stat. 1662); sec. 103(a), Federal Tax Lien Act 1966 (80 Stat. 1133)]

PAR. 9. Section 301.6325–1 is amended by revising the heading, by revising subparagraphs (1)(i), (2), (3), and (4) of paragraph (b), by revising paragraph (d), and by adding new paragraphs (e), (f), and (g). These revised and added provisions read as follows:

§ 301.6325–1 Release of lien or discharge of property.

* * * * *

(b) *Discharge of specific property from the lien*—(1) *Property double the amount of the liability.* (i) The district director may, in his discretion, issue a certificate of discharge of any part of the property subject to a lien imposed under chapter 64 of the Code if he determines that the fair market value of that part of the property remaining subject to the lien is at least double the sum of the amount of the unsatisfied liability secured by the lien and of the amount of all other liens upon the property which have priority over the lien. In general, fair market value is that amount which one ready and willing but not compelled to buy would pay to another ready and willing but not compelled to sell the property.

* * * * *

(2) *Part payment; interest of United States valueless*—(i) *Part payment.* The district director may, in his discretion, issue a certificate of discharge of any part of the property subject to a lien imposed under chapter 64 of the Code if there is paid over to him in partial satisfaction of the liability secured by the lien an amount determined by him to be not less than the value of the interest of the United States in the property to be so discharged. In determining the amount to be paid, the district director will take into consideration all the facts and circumstances of the case, including the expenses to which the Government has been put in the matter. In no case shall the amount to be paid be less than the value of the interest of the United States in the property with respect to which the certificate of discharge is to be issued.

(ii) *Interest of the United States valueless.* The district director may, in his discretion, issue a certificate of discharge of any part of the property subject to the lien if he determines that the interest of the United States in the property to be so discharged has no value.

(iii) *Valuation of interest of United States.* For purposes of this subparagraph, in determining the value of the interest of the United States in the property, or any part thereof, with respect to which the certificate of discharge is to be issued, the district director shall give consideration to the value of the property and the amount of all liens and encumbrances thereon having priority over the Federal tax lien. In determining the value of the property, the district director may, in his discretion, give consideration to the forced sale value of the property in appropriate cases.

(3) *Discharge of property by substitution of proceeds of sale.* A district director may, in his discretion, issue a certificate of discharge of any part of the property subject to a lien imposed under chapter 64 of the Code if such part of the property is sold and, pursuant to a written agreement with the district director, the proceeds of the sale are held, as a fund subject to the liens and claims of the United States, in the same manner and with the same priority as the lien or claim had with respect to the discharged property. This subparagraph does not apply unless the sale divests the taxpayer of all right, title, and interest in the property sought to be discharged. Any reasonable and necessary expenses incurred in connection with the sale of the property and the administration of the sale proceeds shall be paid by the applicant or from the proceeds of the sale before satisfaction of any lien or claim of the United States.

(4) *Application for certificate of discharge.* Any person desiring a certificate of discharge under this paragraph shall submit an application in writing to the district director responsible for collection of the tax. The application shall contain such information as the district director may require.

* * * * *

(d) *Subordination of lien*—(1) *By payment of the amount subordinated.* A district director may, in his discretion, issue a certificate of subordination of a lien imposed under chapter 64 of the Code upon any part of the property subject to the lien if there is paid over to the district director an amount equal to the amount of the lien or interest to which the certificate subordinates the lien of the United States. For this purpose, the tax lien may be subordinated to another lien or interest on a dollar-for-dollar basis. For example, if a notice of a Federal tax lien is filed and a delinquent taxpayer secures a mortgage loan on a part of the property subject to the tax lien and pays over the proceeds of the loan to a district director after an application for a certificate of subordination is approved, the district director will issue a certificate of subordination. This certificate will have the effect of subordinating the tax lien to the mortgage.

(2) *To facilitate tax collection*—(i) *In general.* A district director may, in his discretion, issue a certificate of subordination of a lien imposed under chapter 64 of the Code upon any part of the property subject to the lien if the district director believes that the subordination of the lien will ultimately result in an increase in the amount realized by the United States from the property subject to the lien and will facilitate the ultimate collection of the tax liability.

(ii) *Examples.* The provisions of this subparagraph may be illustrated by the following examples:

Example (1). A, a farmer, needs money in order to harvest his crop. A Federal tax lien, notice of which has been filed, is outstanding with respect to A's property. B, a lending institution is willing to make the necessary loan if the loan is secured by a first mortgage on the farm which is prior to the Federal tax lien. Upon examination, the district director believes that ultimately the amount realizable from A's property will be increased and the collection of the tax liability will be facilitated by the availability of cash when the crop is harvested and sold. In this case, the district director may, in his discretion, subordinate the tax lien on the farm to the mortgage securing the crop harvesting loan.

Example (2). C owns a commercial building which is deteriorating and in unsalable condition. Because of outstanding Federal tax liens, notices of which have been filed, C is unable to finance the repair and rehabilitation of the building. D, a contractor, is willing to do the work if his mechanic's lien on the property is superior to the Federal tax liens. Upon examination, the district director believes that ultimately the amount realizable from C's property will be increased and the collection of the tax liability will be facilitated by arresting deterioration of the property and restoring it to salable condition. In this case, the district director may, in his discretion, subordinate the tax lien on the building to the mechanic's lien.

Example (3). E, a manufacturer of electronic equipment, obtains financing from F, a lending institution, pursuant to a security agreement, with respect to which a financing statement was duly filed under the Uniform Commercial Code on June 1, 1970. On April 15, 1971, F gains actual notice or knowledge that notice of a Federal tax lien had been filed against E on March 31, 1971, and F refuses to make further advances unless its security interest is assured of priority over the Federal tax lien. Upon examination, the district director believes that ultimately the amount realizable from E's property will be increased and the collection of the tax liability will be facilitated if the work in process can be completed and the equipment sold. In this case, the district director may, in his discretion, subordinate the tax lien to F's security interest for the further advances required to complete the work.

Example (4). Suit is brought against G by H, who claims ownership of property the legal title to which is held by G. A Federal tax lien against G, notice of which has previously been filed, will be enforceable against the property if G's title is confirmed. Because section 6323(b)(8) is inapplicable, J, an attorney, is unwilling to defend the case for G unless he is granted a contractual lien on the property, superior to the Federal tax lien. Upon examination, the district director believes that the successful defense of the case by G will increase the amount ultimately realizable from G's property and will facilitate collection of the tax liability. In this case, the district director may, in his discretion, subordinate the tax lien to J's contractual lien on the disputed property to secure J's reasonable fees and expenses.

(3) *Application for certificate of subordination.* Any person desiring a certificate of subordination under this paragraph shall submit an application therefor in writing to the district director responsible for the collection of the tax. The application shall contain such information as the district director may require.

(e) *Nonattachment of lien.* If a district director determines that, because of confusion of names or otherwise, any person (other than the person against whom the tax was assessed) is or may be injured by the appearance that a notice of lien filed in accordance with § 301.6323(f)–1 refers to such person, the district director may issue a certificate of nonattachment. Such certificate shall state that the lien, notice of which has been filed, does not attach to the property of such person. Any person desiring a certificate of nonattachment under this paragraph shall submit an application therefor in writing to the district director responsible for the collection of the tax. The application shall contain such information as the district director may require.

(f) *Effect of certificate*—(1) *Conclusiveness.* Except as provided in subparagraphs (2) and (3) of this paragraph, if a certificate is issued under section 6325 by a district director and the certificate is filed in the same office as the notice of lien to which it relates (if the notice of lien has been filed), the certificate shall have the following effect—

(i) In the case of a certificate of release issued under paragraph (a) of this section, the certificate shall be conclusive that the tax lien referred to in the certificate is extinguished;

(ii) In the case of a certificate of discharge issued under paragraph (b) or (c) of this section, the certificate shall be conclusive that the property covered by the certificate is discharged from the tax lien;

(iii) In the case of a certificate of subordination issued under paragraph (d) of this section, the certificate shall be conclusive that the lien or interest to which the Federal tax lien is subordinated is superior to the tax lien; and

(iv) In the case of a certificate of nonattachment issued under paragraph (e), the certificate shall be conclusive that the lien of the United States does not attach to the property of the person referred to in the certificate.

(2) *Revocation of certificate of release or nonattachment*—(i) *In general.* If a district director determines that either—

(*a*) A certificate of release or a certificate of nonattachment of the general tax lien imposed by section 6321 was issued erroneously or improvidently, or

(*b*) A certificate of release of such lien was issued in connection with a compromise agreement under section 7122 which has been breached,

and if the period of limitation on collection after assessment of the tax liability has not expired, the district director may revoke the certificate and reinstate the tax lien. The provisions of this subparagraph do not apply in the case of the lien imposed by section 6324 relating to estate and gift taxes.

(ii) *Method of revocation and reinstatement.* The revocation and reinstatement described in subdivision (i) of this subparagraph is accomplished by—

(*a*) Mailing notice of the revocation to the taxpayer at his last known address, and

(*b*) Filing notice of the revocation of the certificate in the same office in which the notice of lien to which it relates was filed (if the notice of lien has been filed).

(iii) *Effect of reinstatement*—(*a*) *Effective date.* A tax lien reinstated in accordance with the provisions of this subparagraph is effective on and after the date of notice of revocation is mailed to the taxpayer in accordance

V 38 - 2 JAN 4 73 XUM

with the provisions of subdivision (ii) (*a*) of this subparagraph, but the reinstated lien is not effective before the filing of notice of revocation, in accordance with the provisions of subparagraph (ii) (*b*) of this subparagraph, if the filing is required by reason of the fact that a notice of the lien had been filed.

(*b*) *Treatment of reinstated lien.* As of the effective date of reinstatement, a reinstated lien has the same force and effect as a general tax lien imposed by section 6321 which arises upon assessment of a tax liability. The reinstated lien continues in existence until the expiration of the period of limitation on collection after assessment of the tax liability to which it relates. The reinstatement of the lien does not retroactively reinstate a previously filed notice of lien. The reinstated lien is not valid against any holder of a lien or interest described in § 301.6323(a)–1 until notice of the reinstated lien has been filed in accordance with the provisions of § 301.–6323(f)–1 subsequent to or concurrent with the time the reinstated lien became effective.

(iv) *Example.* The provisions of this subparagraph may be illustrated by the following example:

Example. On March 1, 1967, an assessment of an unpaid Federal tax liability is made against A. On March 1, 1968, notice of the Federal tax lien, which arose at the time of assessment, is filed. On April 1, 1968, A executes a bona fide mortgage on property belonging to him to B. On May 1, 1968, a certificate of release of the tax lien is erroneously issued and is filed by A in the same office in which the notice of lien was filed. On June 3, 1968, the lien is reinstated in accordance with the provisions of this subparagraph. On July 1, 1968, A executes a bona fide mortgage on property belonging to him to C. On August 1, 1968, a notice of the lien which was reinstated is properly filed in accordance with the provisions of § 301.–6323(f)–1. The mortgages of both B and C will have priority over the rights of the United States with respect to the tax liability in question. Because a reinstated lien continues in existence only until the expiration of the period of limitation on collection after assessment of the tax liability to which the lien relates, in the absence of any extension or suspension of the period of limitation on collection after assessment, the reinstated lien will become unenforceable by reason of lapse of time after February 28, 1973.

(3) *Certificates void under certain conditions.* Notwithstanding any other provisions of subtitle F of the Code, any lien for Federal taxes attaches to any property with respect to which a certificate of discharge has been issued if the person liable for the tax reacquires the property after the certificate has been issued. Thus, if property subject to a Federal tax lien is discharged therefrom and is later reacquired by the delinquent taxpayer at a time when the lien is still in existence, the tax lien attaches to the reacquired property and is enforceable against it as in the case of after-acquired property generally.

(g) *Filing of certificates and notices.* If a certificate or notice described in this section may not be filed in the office designated by State law in which the notice of lien imposed by section 6321 (to which the certificate or notice relates) is filed, the certificate or notice is effective if filed in the office of the clerk of the U.S. district court for the judicial district in which the State office where the notice of lien is filed is situated.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 51]

Fresh Fruits, Vegetables and Other Products Inspection, Certification and Standards

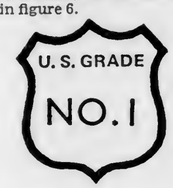
Notice is hereby given that the U.S. Department of Agriculture is considering the amendment of Regulations Governing Inspection, Certification, and Standards for Fresh Fruits, Vegetables and Other Products[1] (7 CFR 51.1–51.61). The Agricultural Marketing Act of 1946 authorizes official inspection and certification of fresh fruits and vegetables and other products.[2] Such inspection and certification is voluntary and is made available only upon request of financially interested parties and upon payment of a fee to cover the cost of the service.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposal should file the same, in duplicate, not later than March 1, 1973 with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, where they will be available for public review during official hours of business (7 CFR § 1.27 (b).)

Statement of considerations leading to the amendment of the regulations. The approved shield mark with the appropriate U.S. grade designation, and other approved continuous inspection legends may be used on containers or labels only when: (1) The product has been packed under continuous inspection as provided by the Inspection Service, (2) the plant in which the product is packed is maintained under good commercial sanitary practices, and (3) the product has been certified by an inspector as meeting the requirements of U.S. Grade A, U.S. Grade No. 1, or a higher U.S. grade, when the grade mark includes the official shield, or the requirements of such quality, grade or specification as may be approved by the Administrator, when certain other continuous inspection legends are used.

In the enforcement of these labeling regulations to guard against improper use of approved grade marks and inspection legends, it is essential that either the packer's name and address or other identification be shown on each container.

The proposed amendment would revise § 51.49 of the regulations to provide requirements pertaining to packer identification and to add an example of such identification by adding a new paragraph (d) and redesignating the present paragraph (d) to (e). A new figure 6 would be added and the present figure 6 renumbered to figure 7.



In addition, subparagraph (8) of paragraph (e) of § 51.59 would be reworded to provide that drawings or printers' proofs of each packer's or distributor's labels or other container markings bearing official identification marks be submitted for approval by the Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, prior to printing.

As proposed to be amended, §§ 51.49 and 51.59 are set forth below:

§ 51.49 Approved identifications.

• • • • • •

(d) *Packer identification* The packer's name and address or assigned code number or other mark identifying the packer as may be approved by the Administrator, shall appear on any container bearing grade marks or inspection legends approved under paragraph (a), (b), or (c) of this section, as illustrated by the example in figure 6.

PACKER NO. 01
PACKED UNDER CONTINUOUS
FEDERAL - STATE INSPECTION

FIGURE 6.

(e) *Other identification marks.* Products may be inspected on a lot inspection basis as provided in this part and identified by an official inspection mark similar in form and design to figure 7 of this paragraph. The use of this mark or other comparable identification marks may be required by the Administrator whenever he determines that such identification is necessary in order to maintain the identity of lots which have been inspected and certified.

U S DEPT OF AGRICULTURE
INSPECTED
DEC 18 1972

FIGURE 7

[1] None of the requirements in the regulations of this subpart shall excuse failure to comply with any Federal, State, county, or municipal laws applicable to products covered in the regulations of this subpart.

[2] Among such other products are the following: Raw nuts; Christmas trees and evergreens; flowers and flower bulbs; and onion sets.

§ 51.59 Operations and operating procedures.

• • • • • •

(e) • • •

(8) Submit to the Chief of the Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, for approval prior to printing, drawings or printers' proofs of each packer's or distributor's label bearing or referring in any manner to official inspection legends or grade marks.

• • • • • •

(Secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended; 7 U.S.C. 1622, 1624)

Commodity Credit Corporation

[7 CFR Part 1430]

PRICE SUPPORT PROGRAM FOR MILK

Loans, Purchases, and Other Operations

Notice is hereby given that the Secretary of Agriculture, under authority of section 201(c) of the Agricultural Act of 1949, as amended (63 Stat. 1051, as amended; 7 U.S.C. 1446), and sections 4 and 5 of the Commodity Credit Corporation Charter Act, as amended (62 Stat. 1070, as amended; 15 U.S.C. 714b and 714c), is considering the terms and conditions of the price support program for milk, for the 1973–74 marketing year beginning April 1, 1973, including the general level of prices to producers for milk and the prices for and terms of purchase by CCC of butter, nonfat dry milk, and cheddar cheese. Section 201(c) of the Agricultural Act of 1949, as amended, provides as follows: "The price of milk shall be supported at such level not in excess of 90 per centum nor less than 75 per centum of the parity price therefor as the Secretary determines necessary in order to assure an adequate supply. Such price support shall be provided through purchases of milk and the products of milk."

Consideration will be given to any data, views, and recommendations which are submitted in writing to the Director, Livestock and Dairy Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250. In order to be sure of consideration, all submissions must be received by the Director not later than 30 days after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director during regular business hours (8:15 a.m.–4:45 p.m.). (7 CFR 1.27(b))

Signed at Washington, D.C., on December 22, 1972.

GLENN A. WEIR,
Acting Executive Vice President,
Commodity Credit Corporation.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 3]

VITAMIN A AND VITAMIN D

Proposed Statement of Policy; Correction

The Commissioner of Food and Drugs issued a proposed statement of policy on the use of vitamin A and vitamin D which was published in the FEDERAL REGISTER of Thursday, December 14, 1972 (37 FR 26618). The provisions of the proposed new sections should be corrected as follows:

1. The proposed § 3.—— *Vitamin A preparations for oral use as drugs* is amended by deleting paragraph (b)(3), redesignating paragraph (c) as paragraph (d), and adding a new paragraph (c) to read as set forth below.

§ 3.—— Vitamin A preparations for oral use as drugs.

• • • • • •

(b) • • •

(3) [Deleted]

(c) Preparations containing 10,000 or less I.U. of vitamin A per dosage unit will be regarded as misbranded if their recommended daily dosage exceeds 10,000 I.U.

• • • • • •

2. The proposed § 3.—— *Vitamin D preparations for oral use as drugs* is amended by deleting paragraph (b)(3), redesignating paragraph (c) as paragraph (d), and adding a new paragraph (c) to read as set forth below.

§ 3.—— Vitamin D preparations for oral use as drugs.

• • • • • •

(b) • • •

(3) [Deleted]

(c) Preparations containing 400 or less I.U. of vitamin D per dosage unit will be regarded as misbranded if their recommended daily dosage exceeds 400 I.U.

• • • • • •

Dated: December 26, 1972.

Acting Associate Commissioner for Compliance.

[FR Doc.73-132 Filed 1-3-73;8:45 am]

[21 CFR Part 191]

BANNED HAZARDOUS SUBSTANCES

Proposed Exemption of Artists' Paints and Related Materials

An order was published in the FEDERAL REGISTER of March 11, 1972 (37 F.R. 5229), classifying certain lead-containing paints and other similar surface-coating materials as banned hazardous substances. This regulation (21 CFR 191.9 (a)(6)) was promulgated under section 2(q)(1)(B) of the Federal Hazardous Substances Act.

Section 191.9(a)(6)(i) declares as a banned hazardous substance any paint or other similar surface-coating material intended, or packaged in a form suitable, for use in or around a household that is shipped in interstate commerce between December 31, 1972, and December 31, 1973, and that contains lead compounds of which the lead content (calculated as the metal) is in excess of 0.5 percent of the total weight of the contained solids or dried paint film. The effective date of this part of the regulation was confirmed in the FEDERAL REGISTER of August 10, 1972 (37 F.R. 16078).

Since the promulgation of said banning regulation, the Food and Drug Administration has received many inquiries and adverse responses concerning the banning of artists' paints due to their lead content. These deal specifically with lead carbonate (also known as white lead, flake white, cremnitz white, and silver white). Interested persons state (1) that lead is a necessary component of artists' paints, (2) that a satisfactory substitute for lead is not currently available, and (3) that although these products are both intended and packaged in a form suitable for use in and around a household, it is not likely that children will ingest the dried paint film.

Having considered the responses and other relevant material, the Commissioner of Food and Drugs proposes to exempt artists' paints and related materials from classification as a banned hazardous substance. If this proposal is adopted these materials will still be subject to other provisions of the Federal Hazardous Substances Act and regulations promulgated thereunder.

Therefore, pursuant to provisions of the Federal Hazardous Substances Act (sec. 2(q)(1)(B), (2), 74 Stat. 374, as amended 80 Stat. 1304; 15 U.S.C. 1261 (q)(1)(B), (2)) and the Federal Food, Drug, and Cosmetic Act (sec. 701(e), 52 Stat. 1055, as amended; 21 U.S.C. 371 (e)), and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that § 191.9(a)(6) be amended by adding thereto a new subdivision (i)(*d*), as follows:

§ 191.9 Banned hazardous substances.

(a) • • •

(6)(i) • • •

(*d*) The provisions of this subdivision (i) do not apply to artists' paints and related materials.

• • • • • •

Publication of this proposal in the FEDERAL REGISTER shall have the effect of suspending the implementation date (De-

V 38 - 2 JAN 4 73 XUM

cember 31, 1972) of § 191.9(a)(6)(i)(b) only as it applies to artists' paints and related materials, pending review of comments and promulgation of an order in this matter. This proposal will in no way affect the implementation date of § 191.9(a)(6)(i)(b) as it applies to other paints and similar surface-coating materials.

Interested persons may, within 60 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: December 26, 1972.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[FR Doc.73-29 Filed 1-3-72;8:45 am]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 91]

[Docket No. 11350; Notice No. 72-35]

VFR WEATHER MINIMUMS

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending Part 91 of the Federal Aviation Regulations by revising § 91.105 to prescribe distance from cloud minimums for aircraft operating 1,200 feet or less above the surface outside controlled airspace.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments, as they may desire. Communications should identify the regulatory docket or notice number and be submitted in triplicate to: Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, DC 20591. All communications received on or before March 22, 1973, will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons.

I. *Background.* This notice of proposed rule making follows advance notice of proposed rule making (ANPRM) 71-24 (36 FR 17052) which was issued on August 23, 1971. That ANPRM was issued to obtain comments on the adequacy of existing basic VFR weather minimums below 10,000 feet MSL in controlled and uncontrolled airspace.

Approximately 600 of the 730 comments received in response to the notice stated that existing VFR minimums are adequate. Despite the fact that views were solicited on the adequacy of all minimums in controlled airspace below 10,000 MSL, many comments were devoted solely to opposing the results of a pilot survey which indicated that some individuals favored an increase in visibility from 3 to 5 miles. Since many of the comments were preoccupied with this one issue, the amount of information submitted on other aspects of the ANPRM, including distance from cloud requirements, was small. This notice is issued to obtain more adequate public comment with respect to distance from cloud requirements.

II. *Within controlled airspace.* There was overwhelming opposition to increasing VFR minimums in controlled airspace. As indicated above, a large proportion of the comments was directed to the issue of whether or not to increase the visibility minimum to 5 miles (below 10,000 feet). Commentators considered this unacceptable for two reasons. First, they stated that the estimated restriction to all kinds of general aviation activity would be very serious, due to the poor visibility prevailing in many parts of the United States a large portion of the time. Second, they stated that a visibility minimum of 5 miles would not, in itself, enable a pilot to see and avoid another aircraft any sooner than with 3 miles visibility, because, they stated, it is almost impossible to see a small aircraft 5 miles away.

Rule making on the visibility aspects of the ANPRM is being deferred for further study of these comments, particularly since available statistics indicate that most near midair collision incidents occur during daylight hours and when the visibility is in excess of 5 miles. This would indicate that a mere increase in visibility minimums may involve an increased burden on the airspace user without a corresponding increase in safety in controlled airspace.

III. *Outside controlled airspace.* There were few comments directed specifically to adequacy of minimums in uncontrolled airspace. The majority of these stated that the minimums are adequate and no changes are necessary. However, some commentators did support more restrictive requirements. The National Transportation Safety Board (NTSB) commented that in many instances uncontrolled airspace is utilized for training, transition and aircraft familiarization for new or low-time pilots, that these activities plus a low-experience level inherent in training activities tend to increase hazards, and that therefore greater cloud clearance and visibility should be required. The NTSB stated that the weather minimums in uncontrolled airspace should be the same as those in controlled airspace below 10,000 feet. The FAA is giving due consideration to all aspects of this recommendation, and believes that the Board may be correct with respect to distance from clouds at and below 1,200 feet outside controlled airspace. This notice requests further public comment on this point.

Several other comments suggested that the minimums should be increased. Some favored an across-the-board visibility requirement of 3 miles with no change in the existing "clear of clouds" requirement below 1,200 feet AGL. Others suggested some intermediate or sliding scale of visibility values, while a few recommended some form of cloud clearance criteria in uncontrolled airspace below 1,200 feet. In addition, several commentators noted the complexity of the existing weather minimums. The FAA agrees that the present rules are complex, and that one of the complicating factors is the "clear of clouds" requirement outside controlled airspace at and below 1,200 feet above the surface. The proposed amendment, in addition to responding to safety considerations, would eliminate this factor.

As several comments indicated, a requirement to avoid clouds by a moderate distance could prevent a pilot from inadvertently entering clouds since the distance between being "clear of" clouds and "in" clouds is slight. Specifying a moderate minimum distance would introduce a new safety factor in the VFR rules outside of controlled airspace.

Since Notice 71-24 covered many areas and the responding comments were necessarily somewhat fragmented, the FAA believes that the public should have an opportunity to focus on this one aspect of the VFR minimums. In addition to the subject matter of this proposal, there are other subjects either discussed in the ANPRM or generated by it that are receiving consideration and which may lead to future proposals.

In consideration of the foregoing, it is proposed to amend Part 91 of the Federal Aviation Regulations by amending § 91.105(a) by deleting, from the table, the words "clear of clouds" and by substituting the words "500 feet below," "1,000 feet above," and "2,000 feet horizontal," therefor.

This amendment is proposed under the authority of sections 307 and 313(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348, 1354(a)), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on December 22, 1972.

WILLIAM M. FLENER,
Director, Air Traffic Service.

[FR Doc.73-144 Filed 1-3-73;8:45 am]

Federal Highway Administration

[49 CFR Part 393]

[Docket No. MC-22; Notice No. 72-25]

MOTOR CARRIER SAFETY REGULATIONS

Vehicle Interior Noise Levels

The Director of the Bureau of Motor Carrier Safety proposes to amend the motor carrier safety regulations to establish a maximum interior sound level for commercial motor vehicles operated in interstate or foreign commerce.

On October 28, 1970, the Bureau issued an advance notice of proposed rule making inviting interested parties to comment on the feasibility and need for regulation of interior noise levels of commercial motor vehicles (35 FR 17194). As that notice stated, the Bureau's objective was to reduce the risk of damage to the hearing of drivers and to look into the possibility that noise-induced driver fatigue may play a role in causing accidents. The advance notice specifically invited comments on test procedures, such as those set forth in SAE recommended practice J336, and sought comments on test methods that would be suitable to the Bureau's safety inspection techniques.

Forty responses were received. They evidenced a general agreement that regulation in the area of vehicle interior noise levels was necesary. There was, however, a wide disparity of views on the question of establishing a valid test procedure. The respondents generally concluded that the hearing conservation criteria in the regulations issued under the Walsh-Healey Public Contracts Act (41 CFR 50-204.10) should be applied to commercial motor vehicles. There was, however, no evidence submitted that showed a correlation between the results obtainable using the SAE J336 test procedure, or any other test procedure and in-service driver noise exposure. As a result, the comments did not produce sufficient data to permit the Bureau to derive a suitable test procedure. Further investigation was obviously required.

The Bureau's staff conducted a detailed survey of the available literature, which tended to confirm the view, expressed by many respondents, that regulation in this area is warranted. Extended periods of exposure to high noise levels are known to cause varying degrees of temporary and permanent hearing loss. The Department of Labor, under the authority of the Walsh-Healey Act and the Occupational Safety and Health Act of 1970, is presently enforcing regulations designed to abate the effects of such high noise levels in a number of industries, thereby reducing the risk of hearing loss in workers employed in those industries. The Director has concluded that any hearing loss, even temporary hearing threshold shifts, is detrimental to the safety of commercial motor vehicle operations. He has further concluded that commercial motor vehicle drivers should not be subjected to the deleterious effects of long term, high noise level exposures.

In the case of a bus or truck driver, hearing loss, permanent or temporary, poses a direct threat to highway safety. This potential safety hazard has long been recognized; it forms the basis for provisions of the motor carrier safety regulations which establish minimum driver hearing qualifications (49 CFR 391.41(b)(11)) and which require drivers who must use a hearing aid to meet that qualification standard to wear the device while they are driving (49 CFR 392.9b). There is some evidence indicating that sustained exposure to noise levels even lower than the maxima permitted under presently accepted hearing conservation criteria may be related to psychophysiological impairments which, if unchecked, could lead to a degradation of driving performance.

Levels of exterior or community noise lower than those which are known to be detrimental to hearing have been documented as a major source of irritation to the public. These phenomena have been characterized as "noise pollution." The Bureau of Motor Carrier Safety lacks authority to regulate "noise pollution." Under the Noise Control Act of 1972, Public Law 92-547, Congress directed the Administrator of the Environmental Protection Agency to promulgate noise emission regulations for vehicles operated by motor carriers in interstate and foreign commerce, after consultation with the Secretary of Transportation to assure appropriate consideration for safety and availability of technology. After carefully considering the impact of the Noise Control Act of 1972 upon the present rule-making proceeding, the Director has concluded that the Congress did not intend, by enacting that statute, to disturb the Bureau's authority to protect not only the physical well-being of commercial motor vehicle drivers, but also other highway users from the danger of accidents resulting from temporarily or permanently deafened commercial vehicle drivers. Instead, it was Congress' purpose to give the Environmental Protection Agency the tools to extend protection of the public to matters relating to health and welfare, rather than safety. Hence, the Director has concluded that the evidence now in hand justifies the issuance of a proposal to prohibit exposure of drivers to noise levels that exceed established hearing conservation criteria for the maximum hours of service a driver may lawfully spend behind the wheel of a commercial motor vehicle.

In an effort to develop data that would be helpful in this rulemaking proceeding, the Department of Transportation's Office of Noise Abatement, in cooperation with the Bureau of Motor Carrier Safety and the American Trucking Associations, Inc., conducted detailed studies of both interior and exterior noise levels generated by commercial motor vehicles. The results of these studies are available in DOT report No. OST/TST 72-2 by writing to the National Technical Information Service, Operations Division, Springfield, Va. 22151. The studies dealt with tire noise and noise generated by other vehicle components. (The field testing portion of the studies was conducted at Wallops Island, Va., and this portion of the study is often referred to as the "Wallops Island tests.") In addition, the Bureau has conducted its own over-the-road interior noise level tests on most of these same vehicles. The main objective of the Wallops Island tests was to develop a simple test procedure that could be performed in a stationary vehicle by members of the Bureau's field staff and that would yield results consistent with the time-exposure methodology developed in 1970 by the intersociety committee (representing the American Academy of Occupational Medicine, the American Academy of Opthamology and Otolaryngology, the American Conference of Governmental Industrial Hygienists, the Industrial Hygiene Association, and the Industrial Medical Association).[1] These guidelines, with which present Federal regulations are consistent, are intended to protect 80 to 90 percent of the exposed worker populace from a noise-induced hearing handicap.

The Society of Automotive Engineers recommended practice J336 was developed to provide a test procedure under which a motor vehicle would generate its "worst case" interior noise levels. This being the case, noise level readings obtained through use of this test procedure could, the Bureau concluded, be directly compared to the hearing conservation criteria developed by the 1970 intersociety committee.

During the Wallops Island tests, therefore, the Office of Noise Abatement utilized test procedures which included both portions of the SAE J336 and J366a procedures and procedures using stationary vehicles, that were considered suitable for the Bureau's use. Data from these initial tests indicated that the results of a test of a stationary vehicle, with its engine at high idle speed and its doors and windows closed would, if modified by a suitable correction factor, equal the results obtained from a SAE J366a test.

Satisfied that a suitable test of stationary vehicles could be developed, the Bureau staff conducted over-the-road tests on 11 of the Wallops Island vehicles plus an additional three vehicles not tested at Wallops Island in an effort to relate the data obtained from testing stationary vehicles to the noise-level-versus time-exposure data that result from presently utilized hearing conservation test methods. Preliminary results of these over-the-road tests indicate that the noise levels experienced during tests on stationary vehicles may be somewhat higher than the noise levels to which a driver is exposed during a typical driving cycle. However, firm conclusions based on this data are still tenative at this time, since a complete analysis of the data has not been completed. The Bureau is, therefore, proposing to establish a maximum interior sound level for commercial motor vehicles based upon recommendations of the 1970 intersociety committee. Those recommendations provide for a maximum sound level of 90 db (A) for 8 hours' exposure. The proposed maximum vehicle interior sound level of 88 db (A) is an extrapolation of those recommendations based upon a 10-hour exposure time. The 10-hour hypothesis was chosen because the maximum allowable driving time under § 395.3(a) of the motor carrier safety regulations is 10 hours.

Existing data indicate that if a driver is exposed to higher sound levels for 10

[1] Guidelines for Noise Exposure Control, Sound and Vibration 4(11), 21-24 (November 1970).

V 38-2 JAN 4 73 XUM

hours, he will incur a substantial risk of at least temporary hearing impairment. The Director recognizes that additional data may show that a higher level of sound may be permissible in light of conditions shown to exist during actual operations. Consequently, interested persons are particularly invited to submit test data correlating the results of the static test here proposed to the time-weighted noise exposure of drivers in actual operations.

The proposed rule would incorporate the stationary-vehicle high idle test procedure developed during the Wallops Island tests. General purpose hand-held sound level meters, identical to those now used by the enforcement staff of the California Highway Patrol (to enforce that State's roadside noise limits), would be used. The test would be conducted with the vehicle's windows and doors closed to eliminate, so far as possible, the effects of roadway or industrial noise sources over which the carrier has no control. The objective of the proposed test procedures is to have a test that is as simple and foolproof as possible in order to yield a high degree of repeatability and to produce results that can easily be documented for enforcement purposes.

The proposed new rule would apply an identical standard to all commercial vehicles, regardless of the date of their manufacture. The Bureau's tests of older vehicles indicated that, if a vehicle is properly maintained from an acoustical standpoint, with its muffler, shift lever boot, and cab insulation in good condition, it can meet the proposed standard. The proposed rule does allow, however, an additional amount of time in which to bring older vehicles into compliance with the rule.

In consideration of the foregoing, the Director of the Bureau of Motor Carrier Safety proposes to amend Part 393 of the motor carrier safety regulations (Subchapter B in Chapter III of title 49, CFR) by adding a new § 393.94, reading as set forth below.

Interested persons are invited to submit data, views, or arguments pertaining to the proposal. All comments should refer to the docket number and notice number appearing at the top of this notice. Comments should be submitted in three copies to the Bureau of Motor Carrier Safety, Federal Highway Administration, Washington, D.C. 20590. All comments received before the close of business on March 30, 1973, will be considered before further action is taken. Comments will be available for examination by the public in room 4136, 400 Seventh Street SW., Washington, DC, both before and after closing date for comments.

This notice of proposed rule making is issued under the authority of section 204 of the Interstate Commerce Act, as amended, 49 U.S.C. 304, section 6 of the Department of Transportation Act, 49 U.S.C. 1655, and the delegations of authority by the Secretary of Transportation and the Federal Highway Administrator in 49 CFR 1.48 and 49 CFR 389.4, respectively.

Issued on December 22, 1972.

KENNETH L. PIERSON,
Acting Director, Bureau of Motor Carrier Safety.

§ 393.94 **Vehicle interior noise.**

(a) *Application of the rules in this section.* This section applies to all motor vehicles manufactured on and after October 1, 1974. On and after March 1, 1975, this section applies to all motor vehicles manufactured before October 1, 1974.

(b) *General rule.* The interior sound level at the driver's seating position of a motor vehicle must not exceed 88 dB(A) when measured in accordance with paragraph (c) of this section.

(c) *Test procedure.* (1) Park the vehicle at a location so that no large reflecting surfaces, such as other vehicles, signboards, buildings, or hills, are within 50 feet of the driver's seating position.

(2) Close all vehicle doors, windows, and vents. Turn off all power-operated accessories.

(3) Place the driver in his normal seated position at the vehicle's controls. Evacuate all occupants except the driver and the person conducting the test.

(4) Use a sound level meter which meets the requirements of the American National Standards Institute Standard ANSI S1.4–1971 Specification for Sound Level Meters, for Type 2 Meters. Set the meter to the A weighting network, "fast" meter response.

(5) Locate the microphone, oriented vertically upward 6 inches to the right of, in the same plane as, and directly in line with, the driver's right ear.

(6) With the vehicle's transmission in neutral gear, accelerate its engine to its maximum governed or maximum rated engine speed. Stabilize the engine at that speed.

(7) Observe the A-weighted sound level reading on the meter for the stabilized engine speed condition. Record that reading, if the reading has not been influenced by extraneous noise sources such as motor vehicles operating on adjacent roadways.

(8) Return the vehicle's engine speed to idle and repeat the procedures specified in paragraph (c) (6) and (7) of this section until two maximum sound levels within 2 dB of each other are recorded. Numerically average those two maximum sound level readings.

(9) The average obtained in accordance with paragraph (c) (8) of this section is the vehicle's interior sound level at the driver's seating position for the purpose of determining whether the vehicle conforms to the rule in paragraph (b) of this section. However, a 2 dB tolerance over the sound level limitation specified in that paragraph is permitted to allow for variations in test conditions and variations in the capabilities of meters.

[FR Doc.73-143 Filed 1-3-73;8:45 am]

ATOMIC ENERGY COMMISSION

[10 CFR Part 19]

NOTICES, INSTRUCTIONS AND REPORTS TO EMPLOYEES OF LICENSEES; INSPECTIONS

Notice of Proposed Rule Making

The Atomic Energy Commission has under consideration the adoption of a new 10 CFR Part 19 which would include certain provisions for the options of employees of Commission licensees concerning Commission inspections. These provisions are comparable with those provided by the Department of Labor for inspections pursuant to the Occupational Safety and Health Act of 1970 (OSHA), as set out in 29 CFR Part 1903. Several requirements presently included in 10 CFR Part 20 regarding information that licensees must provide for their employees would also be included in proposed Part 19.

The basic purpose of the new Part 19 would be to provide options to workers concerning inspections of working conditions regulated by the Commission comparable to those that are afforded for working conditions regulated by the Department of Labor.

Several sections in 10 CFR Part 20 as presently in force deal specifically with information that Commission licensees are required to provide for their employees. Section 20.206 requires instructions and the posting of various notices for employees. Section 20.404 requires radiation exposure reports to former employees upon request. Section 20.405(c) requires notification in writing to any employee (or other individual) who receives an exposure of any type that must be reported to the Commission in accordance with § 20.405 (a) or (b). Section 20.406 requires annual radiation exposure reports to employees upon request. Section 20.408 requires, from licensees subject to § 20.407, a report to any employee (or other individual), upon termination of employment, of an exposure of any type recorded pursuant to §§ 20.401(a) or 20.108. It is proposed to transfer these provisions to the proposed new Part 19; the substance of §§ 20.405(c) and 20.408 would be combined. Notice of proposed amendments to 10 CFR Part 20 to reflect these transfers is being published concurrently with this notice.

Proposed § 19.12, "Instructions to employees", includes the substance of present § 20.206(a) with the addition of new requirements that licensees instruct their employees: (1) To observe Commission regulations and license conditions to the extent within their control, (2) to report to the licensee conditions which may lead to or cause a violation of Commission regulations or license conditions or any unnecessary exposure, and (3) to respond appropriately to warnings in the event of unusual occurrences.

Proposed § 19.13, "Notifications and reports to employees", includes present regulations in 10 CFR Part 20 which require notices or reports to employees of their exposure to radiation or radioactive material. The requirements for notification and reports to employees would be extended to include the results of measurements, analyses, and calculations of radioactive material deposited or retained in the body of an employee.

Sections 19.14 through 19.17 would provide options to employees in connection with AEC inspections comparable to those provided by 29 CFR Part 1903 in connection with Department of Labor inspections.

Pursuant to the Atomic Energy Act of 1954, as amended, and section 553 of title 5 of the United States Code, notice is hereby given that adoption of the following new 10 CFR Part 19 is contemplated. All interested persons who desire to submit written comments or suggestions for consideration in connection with the proposed amendments should send them to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, within forty-five (45) days after publication of this notice in the FEDERAL REGISTER. Copies of the comments on the proposed amendments may be examined at the Commission's Public Document Room, 1717 H Street NW., Washington, DC 20545.

A new Part 19 is added to read as follows:

PART 19—NOTICES, INSTRUCTION AND REPORTS TO EMPLOYEES OF LICENSEES; INSPECTIONS

Sec.
19.1 Purpose.
19.2 Scope.
19.3 Definitions.
19.4 Interpretations.
19.5 Communications.
19.11 Posting of notices to employees.
19.12 Instructions to employees.
19.13 Notifications and reports to employees.
19.14 Presence of representatives of licensees and employees during inspections.
19.15 Consultation with employees during inspections.
19.16 Requests by employees for inspections.
19.17 Inspections not warranted; informal review.
19.30 Violations.

§ 19.1 Purpose.

The regulations in this part establish requirements for notices, instructions, and reports, by licensees to licensee employees in connection with licensed activities, and options available to employees of licensees in connection with Commission inspections and investigations of licensees to ascertain compliance with the provisions of the Atomic Energy Act of 1954, as amended, and regulations, orders and licenses issued thereunder.

§ 19.2 Scope.

The regulations in this part apply to all persons who receive, possess, use, or transfer material licensed by the Commission pursuant to the regulations in Parts 30, 32 through 35, 40, or 70 of this chapter, including persons licensed to operate a production or utilization facility pursuant to Part 50 of this chapter.

§ 19.3 Definitions.

As used in this part:

(a) "Act" means the Atomic Energy Act of 1954 (68 Stat. 919) including any amendments thereto;

(b) "Commission" means the U.S. Atomic Energy Commission;

(c) "License" means a license issued under the regulations in Parts 30, 32 through 35, 40, or 70 of this chapter, including persons licensed to operate a production or utilization facility pursuant to Part 50 of this chapter. "Licensee" means the holder of such a license.

(d) "Restricted area" means any area access to which is controlled by the licensee for purposes of protection of individuals from exposure to radiation and radioactive materials. "Restricted area" shall not include any areas used as residential quarters, although a separate room or rooms in a residential building may be set apart as a restricted area.

§ 19.4 Interpretations.

Except as specifically authorized by the Commission in writing, no interpretation of the meaning of the regulations in this part by any officer or employee of the Commission other than a written interpretation by the General Counsel will be recognized to be binding upon the Commissioner.

§ 19.5 Communications.

Except where otherwise specified in this part, all communications and reports concerning the regulations in this part should be addressed to the Director of Regulatory Operations, U.S. Atomic Energy Commission, Washington, D.C. 20545. Communications, reports, and applications, may be delivered in person at the Commission's offices at 1717 H Street NW., Washington, DC; at 7920 Norfolk Avenue, Bethesda, MD; or at Germantown, Md.

§ 19.11 Posting of notices to employees.

(a) Each licensee shall post current copies of the following documents: (1) The regulations in this part; (2) the regulations in Part 20 of this chapter; (3) the license or licenses, and amendments; and (4) the operating procedures applicable to the licensed work. If posting of a document is not practicable, the licensee may post a notice which describes the document and states where it may be examined by employees.

(b) Form AEC–3, "Notice to Employees," shall be posted by each licensee.

NOTE: Copies of Form AEC–3 may be obtained by writing to the Director of the appropriate U.S. Atomic Energy Commission regional regulatory operational office listed in appendix "D", Part 20 of this chapter, or the Directorate of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

(c) Form AEC–3, and any notice or document posted by the licensee pursuant to paragraph (a) of this section, shall be posted conspicuously in every establishment where employees are employed in activities licensed by the Commission, in a sufficient number of places to permit employees to observe them on the way to or from their place of employment.

(d) Except for documents or parts thereof relating to nuclear materials safeguards, each licensee shall post within 24 hours after receipt a copy of any notice of violation, notice of proposed imposition of civil penalty, or order issued pursuant to Subpart B of Part 2 of this chapter, and shall post, within 24 hours after dispatch, a copy of his response to such document(s). Such document shall be conspicuously posted in a sufficient number of places in the licensee's establishment where employees are employed in activities licensed by the Commission to permit employees working in or frequenting any portion of the establishment to observe a copy on the way to or from their place of employment. Such documents shall remain posted until 10 working days after the licensee's response is dispatched, or until action correcting the violation has been completed, whichever is later. If no response from the licensee is required, such documents from the Commission shall remain posted for 10 working days. The licensee shall assure that such documents are not covered by other materials, and are not defaced or altered during the period when posting is required.

§ 19.12 Instructions to employees.

All employees of licensees working in, or frequenting any portion of, a restricted area shall: (a) Be informed of the occurrence of radioactive materials or of radiation in such portions of the restricted area; (b) be instructed in the health protection problems associated with exposure to such radioactive materials or radiation, in precautions or procedures to minimize exposure, and in the purposes and functions of protective devices employed; (c) be instructed in, and instructed to observe, to the extent within the employees' control, the applicable provisions of Commission regulations and licenses for the protection of personnel from exposures to radiation or radioactive materials; (d) be instructed to report promptly to the licensee any condition which may lead to or cause a violation of Commission regulations and licenses or unnecessary exposure to radiation or to radioactive material; (e) be instructed in the appropriate response to warnings made in the event of any unusual occurrence or malfunction that may involve exposure to radiation or radioactive material; and (f) be advised as to the radiation exposure reports which licensee employees may request pursuant to § 19.13.

§ 19.13 Notifications and reports to employees.

(a) Notifications and reports to an employee as required by this section shall: Be in writing; include appropriate identifying data such as the name of the licensee, the name of the employee, the employee's social security number; include the employee's radiation exposure data obtained in compliance with the regulations of this chapter and the results of any measurements, analyses, and

V 38 - 2 JAN 4 73 XUM

calculations of radioactive material deposited or retained in the body of the employee, as performed in compliance with any Commission regulation, order, or license condition as appropriate; and contain the following statement:

This report is furnished to you under the provisions of the Atomic Energy Commission regulation 10 CFR Part 19. You should preserve this report for further reference.

(b) At the request of any employee, each licensee shall advise such employee annually of the employee's exposure to radiation or radioactive material.

(c) At the request of a former employee each licensee shall furnish to the former employee a report of the former employee's exposure to radiation or radioactive material. Such report shall be furnished within 30 days from the time the request is made, shall cover each calendar quarter of the employee's employment involving exposure to radiation or radioactive material, or such lesser period as may be requested by the employee, and shall include the dates and locations of employment with the licensee.

(d) When a licensee is required pursuant to § 20.405 or § 20.408 of this chapter to report to the Commission any exposure of an employee to radiation or radioactive material, the licensee shall also provide a copy of the report to the employee. Such notice shall be transmitted at a time not later than the transmittal to the Commission.

§ 19.14 Presence of representatives of licensees and employees during inspections.

(a) A representative of a licensee and a representative authorized by the employees of the licensee shall be given an opportunity to accompany a Commission inspector during the physical inspection of working conditions in any establishment where licensed activities are conducted, for the purpose of aiding such inspection. An inspector may permit additional licensee representatives or representatives authorized by employees to accompany him where he determines that such additional representatives will further aid the inspection. Different licensee and employee representatives may accompany the inspector during each different phase of an inspection if this will not interfere with the conduct of the inspection.

(b) Commission inspectors shall have authority to resolve all disputes as to who is the representative authorized by the licensee and licensee employees for the purpose of this section. If there is no authorized representative of employees, or if the inspector is unable to determine with reasonable certainty who is such representative, he may consult with a reasonable number of employees concerning matters of radiation protection in the establishment.

(c) The representative(s) authorized by employees shall be an employee(s) of the licensee. However, if in the judgment of the Commission inspector, good cause has been shown why accompaniment by a third party who is not an employee of the licensee (such as a consultant health physicist) is reasonably necessary to the conduct of an effective and thorough physical inspection of the working conditions, such third party may accompany the inspector during the inspection.

(d) Commission inspectors are authorized to refuse to permit accompaniment under this section by any individual whose conduct interferes or is likely to interfere with a fair and orderly inspection. With regard to areas containing proprietary information or information classified by an agency of the U.S. Government in the interest of national security, an individual who accompanies an inspector may have access to such information only if authorized to do so.

§ 19.15 Consultation with employees during inspections.

Commission inspectors may consult with employees of licensees concerning matters of radiation protection with respect to employees and other matters related to applicable provisions of Commission regulations and licenses to the extent the inspectors deem necessary for the conduct of an effective and thorough inspection. During the course of an inspection, any employee may bring privately to the attention of the inspectors any past or present condition in the establishment which he has reason to believe may have contributed to or caused (a) any violation of the Act, the regulations in this chapter, or license condition, or (b) any unnecessary exposure of an individual to radiation or radioactive material.

§ 19.16 Requests by employees for inspections.

(a) Any employee or employee representative who believes that a violation of the Act, the regulations in this chapter, or license conditions exists or has occurred in any establishment where licensed activities are conducted and where such employee is employed, may request an inspection of such establishment by giving notice of the alleged violation to the Director of Regulatory Operations or to a Commission inspector. Any such notice shall be reduced to writing, shall set forth with reasonable particularity the grounds for the notice, and shall be signed by the employee or representative of employees. A copy shall be provided the licensee by the Director of Regulatory Operations or the inspector no later than at the time of inspection, except that, upon the request of the person giving such notice, his name and the name of individual employees referred to therein shall not appear in such copy or on any record published, released, or made available by the Commission, except for good cause shown.

(b) If, upon receipt of such notice, the Director of Regulatory Operations determines that the complaint meets the requirements set forth in paragraph (a) of this section, and that there are reasonable grounds to believe that the alleged violation exists or has occurred, he shall cause an inspection to be made as soon as practicable, to determine if such alleged violation exists or has occurred. Inspections pursuant to this section need not be limited to matters referred to in the complaint.

(c) During any inspection of an establishment in which licensed activities are conducted, any employee or representative of employees employed in such establishment may notify the inspector, in writing, of any past or present condition therein which he has reason to believe may have contributed to or caused any violation. Any such notice shall comply with the requirements of paragraph (a) of this section.

(d) No licensee shall discharge or in any manner discriminate against any employee because such employee has filed any complaint or instituted or caused to be instituted any proceeding under the regulations in this chapter or has testified or is about to testify in any such proceeding or because of the exercise by such employee on behalf of himself or others of any right afforded by this part.

§ 19.17 Inspections not warranted; informal review.

(a) If the Director of Regulatory Operations determines, with respect to a complaint under § 19.16 that an inspection is not warranted because there are no reasonable grounds to believe that a violation exists or has occurred, he shall notify the complainant in writing of such determination. The complainant may obtain review of such determination by submitting a written statement of position with the Director of Regulation, U.S. Atomic Energy Commission, Washington, D.C. 20545, and, at the same time, shall provide the licensee with a copy of such statement by certified mail. The licensee may submit an opposing written statement of position with the Director of Regulation, and at the same time, shall provide the complainant with a copy of such statement by certified mail. Upon the request of the complainant or the licensee, the Director of Regulation or his designee may hold an informal conference in which the complainant and the licensee may orally present their views. After considering all written and oral views presented, the Director of Regulation shall affirm, modify, or reverse the determination of the Director of Regulatory Operations and furnish the complainant and the licensee a written notification of his decision and the reason therefor.

(b) If the Director of Regulatory Operations determines that an inspection is not warranted because the requirements of § 19.16(a) have not been met, he shall notify the complainant in writing of such determination. Such determination shall be without prejudice to the filing of a new complaint meeting the requirements of § 19.16(a).

§ 19.30 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the act or any regulation or order issued thereunder. Any person who willfully violates any regulation or order issued thereunder may be guilty of a crime, and upon conviction, may be punished by fine or imprisonment or both, as provided by law.

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Dated at Germantown, Md., this 21st day of December 1972.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.73-107 Filed 1-3-73;8:45 am]

[10 CFR Part 20]

STANDARDS FOR PROTECTION AGAINST RADIATION

Reports to Employees and Other Individuals

Concurrently with publication of this notice, the Atomic Energy Commission is publishing a notice of proposed rule making to add to its regulations a new 10 CFR Part 19, Notices, Instructions and Reports; Inspections. Set forth in this notice are proposed amendments to 10 CFR Part 20 of the Commission's regulations. The amendments would transfer from 10 CFR Part 20 certain sections that would be incorporated in the new 10 CFR Part 19, and would add to 10 CFR Part 20 appropriate references to new 10 CFR Part 19 so that the transferred provisions may be easily found. A new section would be added containing the requirements for notification and reports to individuals which may include persons other than employees. The requirements for reports to individuals as specified in §§ 20.405(c) and 20.408 would be combined into one paragraph of the new section.

Pursuant to the Atomic Energy Act of 1954, as amended, and section 553 of title 5 of the United States Code, notice is hereby given that adoption of the following amendments to 10 CFR Part 20 is contemplated. All interested persons who desire to submit written comments or suggestions for consideration in connection with the proposed amendments should send them to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, within forty-five (45) days after publication of this notice in the FEDERAL REGISTER. Copies of the comments on the proposed amendments may be examined at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C.

1. Section 20.206 is amended to read as follows:

§ 20.206 Instruction of personnel.

All individuals working in or frequenting any portion of a restricted area shall receive instructions as specified in § 19.12 of this chapter.

§ 20.404 [Deleted]

2. Section 20.404 is deleted.

§ 20.405 [Amended]

3. Paragraph (c) of § 20.405 is deleted.

§ 20.406 [Deleted]

4. Section 20.406 is deleted.

§ 20.408 [Amended]

5. Section 20.408 is amended to delete the words "to such individual and".

6. A new § 20.409 is added to read as follows:

20.409 Notifications and reports to individuals.

(a) Notifications and reports to employees and former employees of exposure to radiation or radioactive material shall be made in accordance with § 19.13 of this chapter.

(b) When a licensee is required pursuant to § 20.405 or § 20.408 to report to the Commission any exposure of an individual to radiation or radioactive material, the licensee shall also notify the individual. Such notice shall be transmitted at a time not later than the transmittal to the Commission, and shall comply with the provisions of § 19.13(a) of this chapter.

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Dated at Germantown, Md., this 21st day of December 1972.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.73-108 Filed 1-3-73;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 19663; FCC 72-1176]

FM BROADCAST STATIONS

Proposed Table of Assignments in Certain Cities in Colorado and Wyoming and Memorandum Opinion and Order

In the matter of amendment of § 73.202(b), table of assignments, FM Broadcast Stations (Craig, Greeley, Vail, and Windsor, Colo., and Laramie and Torrington, Wyo.) (Fort Collins, Pueblo, and Steamboat Springs, Colo.), Docket No. 19663, RM-1895, RM-1896, RM-1871.

1. We have before us, for consideration, three petitions, each requesting the institution of rule making looking toward the assignment of a new FM channel. They each deal with different communities which are related by close proximity. The views of petitioners and commenting parties in respect to each proposal will be set out seriatim. Our public interest evaluation concerning the three proposals will follow in a succeeding paragraph. All population statistics cited are from the 1970 U.S. Census unless otherwise specified.

RM-1871, FORT COLLINS, PUEBLO, STEAMBOAT SPRINGS, AND VAIL, COLO.

2. On October 28, 1971, Mr. Charles R. Tuma filed a petition with this Commission (supplemented on June 1, 1972 and June 19, 1972) requesting the assignment of FM Channel 264 to Fort Collins, Colo. The assignment is proposed to be accomplished by making the following changes in our FM table of assignments:

City	Add	Delete
Fort Collins, Colo.	264	
Pueblo, Colo.	284	[1] 264
Vail, Colo.	245	[2] 284
Steamboat Springs, Colo.	292A	[3] 244A

[1] No application pending.
[2] Two applications pending.
[3] Three applications pending.

An opposition to the proposal was filed by Vail Broadcasting Corp. (Vail Broadcasting), applicant for FM Channel 284 at Vail, Colo. (BPH-7960).[1]

3. Fort Collins, Colo. (population 43,337), is the county seat of Larimer County (population 89,900). FM Channels 227 and 300 are assigned to Fort Collins. The former channel is licensed to the Fort Collins Broadcasting Co. (KIIX-FM). The latter channel has two applications pending for its use, BPH-7434 (Gilroy Broadcasting Co., Inc.) and BPH-7496 (Beef Empire Broadcasting Co.). An educational FM station, KCSU-FM, is licensed to the State Board of Agriculture on Channel 215 in the community. KCOL is licensed to Beef Empire Broadcasting Co. and serves Fort Collins as an unlimited time standard broadcast service. A daytime-only standard broadcast service is provided in the community on KZIX, which is licensed to the Fort Collins Broadcasting Co. In brief, Fort Collins has two FM commercial services, two standard broadcast commercial services and one FM educational service existing or in prospect.

4. Petitioner's filings indicate that Fort Collins (its county's seat) is a rapidly developing community with a population growth, between 1960 and 1970, of 73 percent. Mr. Tuma maintains that the official census statistics for 1970 do not accurately reflect the number of residents in the community since in addition to those persons listed in the census there are approximately 20,000 students located there in attendance at Colorado State University during most of the year. The educational facilities in Fort Collins include the Colorado State University, two high schools, four junior high schools and 18 public and parochial elementary schools. We are told that the community has a healthy industrial base with a variety of companies being active. We are further

[1] A site for Channel 264 at Fort Collins must be at least 5 miles north to meet the spacing requirement to Channel 266 at Denver, Colo. A site for Channel 245 at Vail must be at least 1 mile southwest to meet the spacing requirement to Channel 247 at Boulder, Colo.

V38-2 JAN 4 73 XUM

advised that the area will have the benefit of a huge photographic processing plant which is being built by the Eastman Kodak Co., and that there are approximately 57 industrial employers in Larimer County, where the largest employs 1,600 persons. Fort Collins also is the hub for a large farming and ranching area with agricultural products being sold in the county in the value of $30 million a year. Retail sales in Fort Collins have increased from $59 million in 1963 to $99 million in 1970. The average effective buying income per household in Larimer County is in excess of $9,000.

5. In order to assign Channel 264 to Fort Collins a variety of other reassignments are required (see paragraph 2 supra) among which is the deletion of Channel 284 from Vail, Colo., and its replacement with proposed Channel 245. Vail Broadcasting is an applicant for the use of Channel 284 at Vail supra as is Radio Vail, Inc. (BPH-8056). Vail Broadcasting informs us that the only appropriate site for locating the required FM tower and antenna is within the White River National Forest and that any tower located in the forest must meet the rigid standards of the U.S. Department of Agriculture, Forest Service (Forest Service), with respect to ecological criteria. Apparently Vail Broadcasting and a number of users of nonpublic radio facilities have prevailed on the Forest Service to establish an antenna farm, to which all antennas located in the national park are to be restricted, on Vail Mountain. A tower for FM Channel 284, presently assigned to Vail, can be located at the said antenna farm in full compliance with our minimum mileage separation requirements. Petitioner's proposed replacement for Channel 284, Channel 245, cannot have its tower constructed at the said location without causing a short spacing to FM Channel 247 occupied by Station KRNW at Boulder, Colo. Hence, Vail Broadcasting vigorously opposes the suggested replacement of Channel 284 with Channel 245 at Vail, maintaining that the assignment of Channel 245 is impractical at Vail because of the interaction of our minimum mileage separation requirements with the restriction of tower and antenna sites required by the Forest Service.[3] Petitioner makes a showing that Channel 245 can be used at the said site if the Commission will grant a waiver with regard to our minimum mileage separation requirements. Mr. Tuma maintains that such a waiver should be granted because the shortage in spacing is small (.689 of a mile) and because the topography between Vail and Boulder will prevent any possible interference between the proposed Vail station and KRNW at Boulder.

[3] The second best antenna site available to potential broadcasters at Vail under the Forest Service's regulations is clearly unsuitable in Vail Broadcasting's view since it is 28 miles distant by road with the last 6 miles passable only by cross country skis in the winter.

RM-1895, GREELEY AND CRAIG, COLO., AND LARAMIE, WYO.

6. Mr. Joseph Tennessen[4] filed a petition with this Commission on November 19, 1971, requesting the assignment of FM Channel 241 to Greeley, Colo., by the following amendments to § 73.202(b) of our rules:

City	Add	Delete
Greeley, Colo.	241	
Laramie, Wyo.	236	[1] 241
Craig, Colo.	273	[2] 236

[1] No application pending.
[2] No application pending.

The only comment received was from petitioner in support of the proposal.[4]

7. Weld County, Colo., the largest county in Colorado, has a population of 89,297 persons. It contains, as its county seat, Greeley, with its population of 38,902 residents. Our FM table of assignments has one FM channel assigned to the community, Channel 222, on which KGRE, licensed to Meroco Broadcasting Co., operates. An educational FM station, KUNC-FM, operating on Channel 218, is licensed to the University of Northern Colorado in the community. There are two standard broadcast stations in Greeley, KFKA and KYOU. The former is licensed to Colorado R.G., Inc. while the latter is licensed to Meroco Broadcasting Co.

8. Mr. Tennessen states:

Greeley serves as the primary cultural, educational and retail center for Weld County and the surrounding area. It is the site of the University of Northern Colorado which has an enrollment of approximately 10,000 and Aims College with an enrollment exceeding 3,000. The economy of the Greeley area is expanding rapidly. Retail sales have grown from $159 million in 1965 to $260 million in 1971. A number of large manufacturing concerns are now located in the front range area north of Denver and it remains an area of continued high growth. Kodak has built a major facility in Weld County which is expected to employ 3,000 persons by 1975.

We are advised that Greeley's population has grown at a 47.8-percent rate between 1960 and 1970. After a recent survey petitioner made in connection with the operation of KFKA, petitioner concluded that there was a real desire in Greeley for a greater variety of programing with some members of the public in favor of more musical fare while others desired more informational material. Mr. Tennessen hopes to meet this diversity of needs with the proposed new FM operation. While noting the point that 57 percent of the county's gross product is generated by agriculture, petitioner underscores the fact that a substantial portion of the rural population surrounding Greeley receives little or no nighttime radio service. He further suggests that any service received from Denver, Colo., stations, 50 miles distant, does not meet the needs of Weld County since Denver stations' news, information and other programing are directed to the tastes and interests of metropolitan Denver. In conclusion, it is Mr. Tennessen's business judgment that the city of Greeley can support an additional FM broadcast service.

[4] Mr. Tennessen is the president of Colorado R.G., Inc., licensee of standard broadcast Station KFKA at Greeley, Colo.

[4] A site for Channel 241 at Greeley must be at least 10 miles north to meet the spacing requirement to Channel 239 at Denver, Colo.

RM-1896, WINDSOR, COLO., AND LARAMIE AND TORRINGTON, WYO.

9. FM Channel 256 is requested to be assigned to Windsor, Colo., by the petition of Mr. Harry P. Brewer (individual licensee of standard broadcast Station KUAD, Windsor, Colo.), filed with this Commission on November 23, 1971. The assignment is proposed to be made by making the following changes in our FM table of assignments:

City	Add	Delete
Windsor, Colo.	256	
Laramie, Wyo.	275	[1] 255
Torrington, Wyo.	252A	[1] 257A

[1] No application pending.

The only filing subsequent to the petition was the supplement to the petition also filed by Mr. Brewer.[5]

10. There is no FM assignment and only one standard broadcast station at Windsor, located in Weld County, respective populations, 1,564 and 89,297. The standard broadcast station, KUAD is a daytime-only service licensed to petitioner.[6]

11. Most of petitioner's material deals with the engineering problem of finding an FM frequency which can be assigned to Windsor in compliance with our standard requirements. Attempts were made to find a Class A channel for assignment to the community. No Class A channel could be found which could be located to meet our minimum mileage separation requirements and at the same time put the required city-grade signal over Windsor. In view of this circumstance and Mr. Brewer's desire to establish a first full-time local radio service at Windsor, Class C Channel 256 is proposed for assignment to that community. In an attempt to support his proposal petitioner sets out the following facts:

Windsor is a town of single-family homes with almost 95 percent of the dwelling units being in this class. The Windsor School District covers an area of 100 square miles, with an enrollment of almost 1,000 pupils. Since more than half of the students are bused

[5] A site for Channel 256 at Windsor must be at least 11 miles northeast to meet the spacing requirement to Channel 258 at Denver, Colo.

[6] Petitioner states: "KUAD is currently a day-time only broadcast station. Even though they have been granted a PSA license, for 25 percent of the year KUAD is unable to serve their day-time listening audience starting at 6 a.m. due to the limitations incurred for protection of KVOO in Tulsa, Okla. • • •"

into Windsor, a broadcast station—operating presunrise hours to get school closing and other important information to the students and their parents—is an essential and basic need of this remote area of Colorado.

Windsor came into existence in 1882 when it became a regular overnight stop for travelers. It grew into the major shopping and civic center for the surrounding farms and cattle ranches. Windsor is at the intersection of two state highways and is four miles east of a limited access, divided, interstate highway running north to Cheyenne and south to Denver. The community is served by two railroads.

In the past few years, several national and international firms have located in northern Colorado. Among them are IBM, Hewlett-Packard, Beechcraft, Ball Brothers, Dow Chemical, and Westinghouse. In 1968, Eastman Kodak announced that it would build a large facility just southeast of Windsor for the processing of photographic chemicals and sensitized film and paper. The company estimates a payroll of 1,000 persons by the end of 1972 and of 2,500 people by 1975, and it contemplates further expansion after that. On the basis of this projection and the probable location of more industry in the area, a tenfold increase in the population is anticipated by 1990.

Windsor community leaders have come to realize that growth, if unplanned, could bring community problems such as housing, traffic, utilities, schools, health care and drugs. With the aid of a Federal grant and with the assistance of the State of Colorado, the Public Service Co., the Mountain States Telephone Co., and the Eastman Kodak Co., Windsor has had prepared a comprehensive master plan to cope with this future development. The scope of this plan takes into account community goals regarding land use, transportation, housing, community facilities, commercial development, and future industry. Thus, Windsor has seized the opportunity to become the State's most attractive growth area.

PRELIMINARY EVALUATION OF THE FORT COLLINS, GREELEY AND WINDSOR PROPOSED ASSIGNMENTS

12. As noted above, the three communities involved herein are located in close proximity to each other. Fort Collins, Greeley, and Windsor are located in the north central portion of the State of Colorado, with Windsor located in between the other two communities. The distance between Fort Collins and Greeley is approximately 22 miles, and the distance to Windsor is approximately 11 miles from either city. The 1970 U.S. census population for Fort Collins is 43,337, for Greeley is 38,902, and for Windsor is 1,564. Fort Collins has two FM assignments, Greeley has one and Windsor has none. The three petitioners are requesting Class C channel assignments, but due to the proximity of these communities and the low population density, it does not appear that it would be in the public interest to propose an assignment of three Class C channels—no Class A channels are available for assignment in this area of Colorado. However, it would be desirable to explore the possibility of assigning two additional channels to this area. Although it appears that any two of the three channels proposed herein could be assigned to any one of the three communities, Channels 241 and 256 are to be preferred. Our technical analysis indicates that proposed assignment of these two channels would involve the least possible areas of preclusion to future assignments on the cochannel and adjacent channel frequencies. It would thus leave Channel 264 and its adjacent channels available for future assignments to a wide area. Further, the proposal for Channel 264 involves a change in the channel assignments at two communities for which applications have been filed, and it would not be in the public interest to delay consideration of these applications as result of a rule making proceeding herein. Thus we will propose for consideration the assignment of Channel 241 to Greeley and Channel 256 to either Fort Collins or Windsor. It is to be noted that a Class C channel assigned to either Fort Collins or Greeley could be used at Windsor by the provisions of § 73.203(b) of the rules.

13. In view of the foregoing, we propose for consideration the following revisions in our FM Table of Assignments (§ 73.202(b) of our rules) with respect to the cities listed below:

TABLE A

City	Channel No. Present	Channel No. Proposed
Greeley, Colo.	222	222, 241
Laramie, Wyo.	241, 255	236, 255
Craig, Colo.	229, 236	229, 273

TABLE B

City	Channel No. Present	Channel No. Proposed
Windsor, Colo.		(1)
Fort Collins, Colo.	227, 300	227, 256, 300
Laramie, Wyo.	241, 255	241, 275
Torrington, Wyo.	257A	252A

[1] 256 or in the alternative.

14. Authority for the actions proposed herein is contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

15. *Showings required.* Comments are invited on the proposals discussed and set forth above. Proponents of the proposed assignments are expected to file comments even if they only resubmit or incorporate by reference their former pleadings. They should also state their intent to apply for the channels if they are assigned and, if authorized, to build their stations properly. Failure to file may lead to denial of a request.

16. *Cutoff procedure.* As in other recent FM rule making proceedings, the following procedures will govern:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered, if advanced in reply comments.

(b) With respect to petitions for rule making which conflict with the proposals in this notice, they will be considered as comments in the proceeding, and public notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decisions in this docket.

17. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before February 2, 1973, and reply comments on or before February 12, 1973. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

18. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and 14 copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

19. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its Headquarters in Washington, D.C. (1919 M Street NW.).

20. For the reasons stated above: *It is ordered,* That the petition for rule making (as supplemented) filed by Mr. Charles R. Tuma (RM-1871), proposing the assignment of Channel 264 to Fort Collins, Colo., is denied.

Adopted: December 20, 1972.

Released: December 27, 1972.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.73-175 Filed 1-3-73;8:45 am]

[47 CFR Part 78]

[Docket No. 19623]

BANDWIDTHS AVAILABLE FOR INTRA-CITY STATIONS

Proposed Alternative Channel Arrangement; Order Extending Time for Filing Comments

In the matter of amendment of Part 78 of the Commission's rules and regulations to add an alternative channel arrangement, reducing the bandwidths available for intra-city stations, and adding certain other clarifications, Docket No. 19623, RM-1936.

1. On December 20, 1972, Theta-Com of California filed a motion for extension of time within which to file reply comments in the above-captioned proceeding. Theta-Com requests that the time for filing reply comments be extended from December 29, 1972, to, and including, January 16, 1973.

2. In support thereof, Theta-Com asserts that a number of parties filed comments and recommendations with respect to various aspects of the rule making proceeding and that some of these comments are quite lengthy and that all are highly technical in nature. Theta-Com indicates that the nature of the comments will require a careful technical evaluation in order for the parties

V38-2 JAN 4 73 XUM

to submit meaningful and helpful reply comments relative to the important issues raised in the notice of proposed rule making. The fact that the reply comment period runs through the Christmas holiday season lessens the time for evaluation and is added justification for the extension. Finally, Theta-Com submits that the extension will not work to the prejudice of any party, rather will facilitate a decision on the issues raised in the notice of proposed rule making.

3. It appears that good cause exists for the extension of time and it will accordingly be granted.

Accordingly, it is ordered, That the motion for extension of time filed December 20, 1972, by Theta-Com of California is granted and the date for filing reply comments in this proceeding is extended until January 16, 1973.

This action is taken by the Chief, Cable Television Bureau, pursuant to authority delegated by § 0.289(c)(4) of the Commission's rules.

Adopted and Released: December 27, 1972.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] SOL SCHILDHAUSE,
Chief, Cable Television Bureau.

[FR Doc.73-173 Filed 1-3-73;8:45 am]

[47 CFR Part 89]

[Docket No. 19662; FCC 72-1165]

PUBLIC SAFETY RADIO SERVICES

Memorandum Opinion and Order; Expanded Use of Tone and Impulse Signaling

In the matter of amendment of Part 89 of the Commission's rules to permit expanded use of tone and impulse signaling in the public safety radio services, Docket No. 19662, RM-1762, RM-1892, RM-1731.

1. On July 24, 1963, the Commission adopted rules (Docket 14424) permitting police, fire, and local government licensees use of land-mobile frequencies for certain specified fixed and mobile remote alarm signaling purposes. The transmitters are limited to 50 watts plate input power, voice and nonvoice emission (A1, A2, A3, F1, F2, F3) with a 6-second maximum message length, subject to no more than five repeats. In addition, activation of the transmitter may occur only to indicate intruders, fires, or equipment malfunction. It was felt that these operating conditions, taken together, would insure intermittent operation of alarm signaling units and, thus, minimize interference to the normal voice base-mobile communications of cochannel licensees.

2. The Commission has received petitions from the Forestry Conservation Communications Association (FCCA) and the Associated Public Safety Communications Officers, Inc. (APCO) seeking amendment of the above provisions. The FCCA petition (RM-1762) requests amendment of the forestry conservation radio service rules by addition of the alarm signaling provisions now contained in the rules governing the police, fire, and local government radio services. Such amendment FCCA states, will aid the expansion of conservation efforts while affording better frequency utilization. The FCCA petition is supported by the Department of General Services, Communications Division of the State of California (California). In addition, California recommended "secondary tone and impulse signaling authorization be extended to the Highway Maintenance Radio Service."

3. The APCO rule making petition (RM-1892) seeks modification of the alarm signaling provisions in the police, fire, and local government radio services to eliminate the power, emission, and transmitter activation limitations and the requirement for a showing of noninterference to other licensees. APCO states that tone and impulse signaling equipment could be used to monitor mobile unit status and location, and provide traffic count information. Further, land-mobile transmitters used in conjunction with sensing devices could, in APCO's view, automatically relay pertinent weather data such as the presence of ice, rain, and fog.

4. APCO would also extend these modified signaling provisions to the highway maintenance and forestry conservation radio services. The suggested rule changes, APCO argues, will increase the efficiency and effectiveness of public safety officials and agencies by increasing the quantity of data which the agencies have available for study and analysis.

5. The Commission agrees that the maximum use of new techniques and processes that are possible with expanded use of land-mobile frequencies for nonvoice applications should be encouraged. To this end, we have amended our land-mobile rules to permit widespread nonvoice uses in connection with mobile service activities. Report and order in Docket No. 19086 (FCC 71-854, 36 FR 16914). The rules, as amended in that proceeding, permit almost unlimited short duration nonvoice applications by base and mobile units on a secondary noninterference basis to radiotelephone applications. That proceeding did not, however, modify the provisions governing remote alarm signaling operations which, as mentioned previously, may be both fixed and mobile.

6. Therefore, in keeping with our desire to encourage innovative uses of radio, we feel, as does APCO, that the remote alarm signaling rules require some revision. However, certain of the modifications sought by APCO appear undesirable because of areas of overlap with other rule making proceedings. In particular, the possible use of land-mobile frequencies for automatic vehicle location is being explored in the rule making proceeding in Docket 19302 (FCC 72-556, 37 FR 13640), released July 3, 1972. Further, point-to-point telemetering can be conducted on frequencies allocated for fixed use and additional telemetering frequencies are under consideration in Docket 19451 (FCC 72-173, 37 FR 4454), released March 3, 1972.

7. In addition, APCO fails to support its request for deletion of the power limitation because it does not demonstrate that the 50 watts[1] permitted under the present rules is insufficient to meet normal public safety needs. We believe the power limit for fixed uses has been set at a reasonable level to safeguard regular mobile two-way activities from interference. Such power limitations are needed to insure that the primary uses; namely, mobile communications, are not adversely affected. Further, the 50-watt limitation is intended to be a ceiling since the rules[2] require that the power used be no more than the minimum required for satisfactory technical operations. Fixed operations requiring greater equipment power than 50 watts or unable to operate on a secondary, noninterference basis to mobile operations may be accommodated on frequencies allocated for fixed use. In any event, while we want to permit public safety licensees to use their radio facilities to a maximum degree, care must be exercised to preserve the primary purposes of the mobile service frequencies.

8. Finally, the Commission agrees with the APCO request for deletion of the emission limitations to the extent that we are proposing: (1) To provide for composite emissions, and (2) to delete the current provisions for radiotelephone (A3 and F3). We are proposing to delete the A3 and F3 emission designators because, for remote alarm signaling purposes, modern digital techniques require less transmitter "on-time" than radiotelephone; and, thereby increase the efficient use of the land-mobile channel. The requirement for a noninterference showing is also proposed to be deleted because our experience with secondary alarming indicates interference is not a problem. Moreover, the change to digital techniques will require even shorter on-the-air transmissions further reducing the possibility of interference. We feel these changes, when considered in the light of the other changes proposed, should provide for almost any signaling need consistent with the available channel widths.

9. In conclusion, we propose to amend the public safety rules to permit expanded, fixed signaling and alarming, where an immediate indication of an abnormal condition is necessary to protect human life. Under the proposed rules, licensees would be permitted; for instance, to relay weather data, but the telemetering of traffic counts, traffic flow, and similar uses would not be permitted since it has not been shown that there is any immediate urgency related to such activity that would warrant use of land-mobile frequencies. The proposed rule changes, applicable to licensees in the police, fire, local government, highway maintenance and forestry conservation radio services, are as follows:

a. To permit automatic indication of any abnormal condition in facilities under the jurisdiction of a licensee, that if not promptly reported would result in danger to human life.

b. To permit manually supervised transmissions as may be necessary to correct an abnormal condition or to activate devices that call the attention of the public to the pending condition.

c. To permit automatic confirmation that the manual correction or alerting signal has been accomplished.

d. To delete the requirement for a showing of noninterference to co-channel licensees for point-to-point alarm signal installations.

e. To implement "state-of-the-art" digital techniques by reducing the message length permitted (includes any redundancy desired) to 2 seconds for new installations.

f. To provide for signaling techniques which are not included under A1, A2, and F1, F2 emission designations by adding the A9 and F9 designators.

10. The pending rule making petitions of FCCA and APCO are granted to the extent indicated above and in all other respects are denied.

11. Another pending matter concerning nonvoice uses in the public safety radio services is a petition of Rydax, Inc. (RM-1731). Rydax would permit nonvoice uses in only limited applications where a voice transmission could be replaced by a coded message or where the application would provide system control functions for operation of automatic or multichannel systems where such operation would result in more efficient utilization of transmitters and frequency assignments.

12. The petition of Rydax will be denied since the request asks us to place limits on nonvoice uses beyond those established in the proceeding in Docket 19086. In that proceeding, expanded nonvoice provisions were incorporated in our rules. We encourage the development of very short (1 second or less) transmission tones as well as a standardized coding system, and we will continue to keep abreast of digital applications and will prepare changes where the need is developed. We have no evidence, at this time, that wider application of nonvoice techniques pose problems that warrant new limitations: *Accordingly, it is ordered,* That RM-1731 is denied.

13. The proposed amendments, which are to be found below, are issued under the authority contained in sections 4(i) and 303 of the Communications Act of 1934, as amended.

14. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before March 2, 1973, and reply comments on or before March 16, 1973. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

15. In accordance with the provision of § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Washington, D.C. headquarters.

Adopted: December 20, 1972.

Released: December 29, 1972.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] BEN F. WAPLE,
Secretary.

Part 89 of the Commission's rules is amended as follows:

1. In § 89.101, paragraph (m) is added to read as follows:

§ 89.101 Frequencies.

• • • • • •

(m) In the police, fire, local government, highway maintenance, and forestry conservation radio services, fixed operations may be authorized for tone and impulse signaling on mobile service frequencies above 25 MHz subject to the condition that harmful interference is not caused to the primary mobile service operation of any other licensee subject to the following limitations:

(1) Secondary tone or impulse signaling may be used only for the following purposes:

(i) Automatic indication of equipment malfunction.

(ii) Actuation of a device to indicate the presence of an intruder or fire on the property under the protection of the licensee.

(iii) Automatic indication of an abnormal condition in facilities under the jurisdiction of the licensee that if not promptly reported would result in danger to human life.

(iv) Manually supervised transmissions as may be necessary to correct an abnormal condition or to activate devices that alert the public to the condition.

(v) Automatic confirmation that the manual correction has been accomplished or that the alerting device has been activated.

(2) For equipment installed after 1973, the maximum duration of a nonvoice transmission, including automatic repeats, may not exceed 2 seconds.

(3) The bandwidth shall not exceed that authorized to the licensee for its primary operations on the frequency concerned.

(4) Frequency loading resulting from the use of secondary tone or impulse signaling will not be considered in whole or in part as a justification for authorizing additional frequencies in the licensee's mobile system.

(5) A mobile service frequency may not be used exclusively for secondary tone or impulse signaling.

(6) The plate power input to the final radio frequency state shall not exceed 50 watts.

(7) Only A1, A2, A9, F1, F2, or F9 emissions will be authorized.

(8) Automatic means shall be provided to deactivate the transmitter in the event the carrier remains on for a period in excess of 3 minutes.

(9) Operational fixed stations authorized pursuant to the provisions of this paragraph are exempt from the requirements of §§ 89.55(e)(2), 89.113(c), and 89.153.

• • • • • •

2. Section 89.257 is amended by deleting the text of paragraph (c) and substituting the word "Reserved".

§ 89.257 Station limitations.

• • • • • •

(c) [Reserved]

• • • • • •

3. Section 89.307 is amended by deleting the text of paragraph (e) and substituting the word "Reserved".

§ 89.307 Station limitations.

• • • • • •

(e) [Reserved]

• • • • • •

4. Section 89.357 is amended by deleting the text of paragraph (d) and substituting the word "Reserved".

§ 89.357 Station limitations.

• • • • • •

(d) [Reserved]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[OR 9141]

OREGON

Notice of Classification of Public Land for Disposal by Exchange

DECEMBER 20, 1972.

On May 11, 1972, the Salem District, Bureau of Land Management, issued a decision proposing to classify the following described land for transfer out of Federal ownership by exchange under the provisions of the Act of June 28, 1934, as amended (48 Stat. 1269; 43 U.S.C. 315g):

WILLAMETTE MERIDIAN

T. 2 S., R. 7 E.,
Sec. 33, lots 2, 3, 5, 8 to 11, inclusive, 13, 16, 17, 19, 21, 22, 25, 27 to 29, inclusive, 33, and 35.

The area described contains about 21.875 acres in Clackamas County.

In order to obtain adequate public participation and to provide an opportunity to explain the proposal in greater detail, the district held a public meeting on the night of May 31 at Welches. At that meeting, many persons expressed themselves on the proposal. A few were in favor but most were opposed to the proposal. Following the meeting, several letters were received. Again, a few were in favor but most were opposed to the proposal.

The majority of those individuals opposing the exchange classification proposal did so, apparently, because of the damage they suffered during the 1964 flood. These individuals would rather have the land classified for public sale so they could acquire adjoining property to make up for the loss of usable portions of their own property. Others objected to the exchange classification proposal because they fear a developer might construct homes without regard to the wooded character of the area. It would be their desire to have the land retained in Federal ownership or classified for public sale. The latter alternative would give them the opportunity to bid for the adjoining property to develop or not develop, according to their preference. A few individuals objected to the proposal because they would like to buy one or more lots, and they fear they would have to pay a higher price from the owner following the exchange than what they would have to pay at the public auction. For these few individuals, a classification for public sale is preferred.

Many of the protests were withdrawn or modified following receipt of a letter from Mr. William C. Murphy, an exchange proponent. He has offered the existing private landowners the first opportunity to buy the adjoining lot from him, at the value arrived at in the BLM appraisal, should he successfully complete the exchange. This offer has been met with nearly total approval by the adjoining landowners.

It should be brought out that, in spite of the acceptance of this offer, the original protests do not appear to justify modification or termination of the classification decision to exchange the land. These protests do not question the issue that it is proper to dispose of the land. Disposal by exchange in this case will yield greater public benefits than disposal by public sale.

Similarly, the fear of some that the exchange would ruin the area because a developer might construct homes without regard to the wooded character is an unrelated issue. Transfer of the land out of Federal ownership either through exchange or public sale would generate the same risk of private ownership. There can be no guarantee as to what the new owner in either case does with the land except those guarantees provided by State and local laws, zoning, and codes.

Lastly, the fear of those who wish to buy adjoining property that they would have to pay a higher price from the owner following the exchange than what they would have to pay at the public auction is also an unrelated issue. It is impossible to predict what the high bid would be should the land be sold at public auction. The demand for land in this area is keen and we would anticipate a great deal of public interest in a sale offering. It is conceivable that the high bid at the auction would be higher than what the new owner would ask following the exchange.

In consideration of the foregoing reasons, and pursuant to section 7 of the Act of June 28, 1934 (43 U.S.C. 315f) and to regulations in 43 CFR 2400.0–3, the above-described land is hereby classified for disposal through exchange under the Act of June 28, 1934, as amended (48 Stat. 1269; 43 U.S.C. 315g; 43 CFR 2400).

In accordance with 43 CFR 2201.2, no application for an exchange will be accepted unless the application is accompanied by a statement from the Salem District Manager that the proposal appears feasible.

Portions of the land are within the Sandy River flood channel and subject to flood hazards. Pursuant to the authority contained in the Act of June 28, 1934, as amended (48 Stat. 1269; 43 U.S.C. 315g), and in sec. 1(3) of Executive Order 11296 of August 10, 1966 (31 FR 155), any conveyance of the land within the flood hazard area will be subject to a permanent restriction, which constitutes a covenant running with the land, that the land may be used only for park and nonintensive open space recreation purposes.

For a period of 30 days after receipt of this decision, interested parties may submit comments, objections or protests to the Secretary of the Interior, LLM 320, Washington, D.C. 20240.

ARTHUR W. ZIMMERMAN,
Acting State Director.

[FR Doc.73–28 Filed 1–3–73;8:45 am]

National Park Service

[Order No. 2]

ADMINISTRATIVE ASSISTANT, CUMBERLAND GAP NATIONAL HISTORICAL PARK, KY.

Delegation of Authority

1. *Administrative Officer.* The Administrative Officer may execute and approve contracts not in excess of $5,000 for supplies, equipment, or services in conformity with applicable regulations and statutory authority and subject to availability of appropriated funds.

2. *Revocation.* This order supersedes Order No. 1 published in 28 FR 2866, dated March 22, 1963, and Amendment No. 1 published in 30 FR 8494 dated July 2, 1965.

(National Park Service Order No. 66 (36 FR 21218) as amended (37 FR 4001) (37 FR 12854) Southeast Region Order No. 5 (37 FR 7721))

Dated: November 15, 1972.

ALBERT A. HAWKINS,
Superintendent, Cumberland Gap National Historical Park.

[FR Doc.73–137 Filed 1–3–73;8:45 am]

[Order No. 2]

ADMINISTRATIVE OFFICER AND ASSISTANT, BOSTON GROUP

Delegation of Authority Regarding Execution of Contracts and Purchase Orders for Equipment, Supplies or Services

1. *Administrative Officer.* The Administrative Officer, Boston Group, National Park Service, may execute, approve, and administer contracts not in excess of $10,000 for supplies, equipment or services, including construction, in conformity with applicable regulations and statutory authority and subject to the availability of appropriated funds. This authority may be exercised by the Administrative Officer in behalf of any area under the administration of the Boston Group, National Park Service.

2. *Administrative Assistant.* The Administrative Assistant, Boston Group, National Park Service, may issue Purchase Orders not in excess of $500 for supplies, equipment or services in conformity with applicable regulations and statutory authority and subject to the availability of appropriated funds. This authority may be exercised by the Administrative Assistant in behalf of any area under the administration of the Boston Group, National Park Service.

3. This order supersedes Order No. 1 dated February 6, 1969 (34 FR 5034) and Amendment No. 1 dated April 14, 1972 (37 FR 11736).

(National Park Service Order No. 66, (36 FR 21218) as amended; Northeast Region Order No. 7 (37 FR 6325), as amended)

Dated: November 27, 1972.

HERBERT OLSEN,
General Superintendent, Boston Group, National Park Service.

NATIONAL REGISTER OF HISTORIC PLACES

Additions and Deletions

By notice in the FEDERAL REGISTER of March 15, 1972, Part II, there was published a list of the properties included in the National Register of Historic Places. This list has been amended by a notice in the FEDERAL REGISTER of March 7 (pp. 4923–24), April 4 (pp. 6770–72), May 2 (pp. 8890–95), June 6 (pp. 11274–76), July 4 (pp. 13193–96), August 1 (pp. 15390–91), September 6 (pp. 18043–44), October 3 (pp. 20732–34), November 7 (pp. 23655–57), and December 5 (pp. 25860–63). Further notice is hereby given that certain amendments or revisions in the nature of additions, deletions, or corrections to the previously published list are adopted as set out below.

It is the responsibility of all Federal agencies to take cognizance of the properties included in the National Register as herein amended and revised in accordance with section 106 of the National Historic Preservation Act of 1966, 80 Stat. 915, 16 U.S.C. 470.

The following properties have been demolished and removed from the National Register:

NEBRASKA

Custer County

Broken Bow vicinity, *Haumont House*, 10 miles northeast of Broken Bow.

NEW YORK

Albany County

Albany, *Hun Houses*, 149–149½ Washington Avenue.

The following is a correction for a previous entry in the FEDERAL REGISTER:

IDAHO

Owyhee County

Silver City vicinity, *Silver City Historic District*, Includes secs. 3–9 of T. 5 S., R. 3 W.; secs. 31–32 of T. 4 S., R. 3 W.; secs. 25, 26, 35, and 36 of T. 4 S., R. 4 W.; and secs 1, 2, and 12 of T. 5 S., R. 4 W.

The following properties were omitted from previous FEDERAL REGISTER listings:

CALIFORNIA

Los Angeles County

Los Angeles, *Will Rogers State Historic Park (Will Rogers House)*, 14253 Sunset Boulevard.

Sacramento County

Sacramento, *Crocker, E. B., Art Gallery*, 216 O Street.

The following properties have been added to the National Register since December 5:

CALIFORNIA

Humboldt County

Eureka, *Tsahpek*, 3431 Fort Avenue.

Kern County

Johannesburg vicinity, *Last Chance Canyon*, 16 miles west of Johannesburg on U.S. 395.

Marin County

San Rafael, *Dollar, Robert, Estate*, 1408 Mission Avenue.

Orange County

Modjeska, *Modjeska House*, Modjeska Canyon Road.

Placer County

Tahoe City, *Outlet Gates and Gatekeeper's Cabin*, at Calif. 89 and Truckee River.

Santa Barbara County

Santa Barbara vicinity, *Painted Cave*, 11 miles north of Santa Barbara off Calif. 150.

Siskiyou County

Yreka, *West Miner Street—Third Street Historic District*, 102–402 West Miner Street; 122–419 Third Street.

COLORADO

Clear Creek County

Georgetown, *McClellan House*, 919 Taos Street.

CONNECTICUT

Hartford County

Hartford, *First Church of Christ and the Ancient Burying Ground*, 60 Gold Street.

New Haven County

Guilford, *Whitfield, Henry, House*, Old Whitfield Street.

New Haven, *Morris House*, 325 Lighthouse Road.

New London County

Colchester, *Champion, Henry, House*, Westchester Road.

DELAWARE

Kent County

Dover, *Christ Church*, Southeast corner of South State and Water Streets.

Dover, *Governor's House, The*, Kings Highway.

Dover, *Town Point*, Kitts Hummock Road.

New Castle County

Middletown, *Middletown Academy (Town Hall)*, 218 North Broad Street.

Odessa, *Appoquinimink Friends Meeting House*, Main Street.

Wilmington, *Lombardy Hall*, U.S. 202.

Wilmington, *Masonic Hall and Grand Theater, The*, 818 North Market Street.

Sussex County

Lewes, *Fisher's Paradise*, 624 Pilottown Road.

DISTRICT OF COLUMBIA

Washington, *Sewall-Belmont House*, 144 Constitution Avenue NE.

Washington, *Sulgrave Club*, 1801 Massachusetts Avenue NW.

Washington, *Washington Club*, 15 Dupont Circle NW.

FLORIDA

Alachua County

Gainesville, *Bailey, Major James B., House*, 1121 Northwest 6th Street.

Brevard County

Titusville, *St. Gabriel's Episcopal Church*, 414 Palm Avenue.

Gadsden County

Quincy, *Methodist Parsonage*, 212 North Madison Street.

Hillsborough County

Tampa, *Tampa Bay Hotel*, 401 West Kennedy Boulevard.

Jackson County

Greenwood, *Great Oaks*, Greenwood Highway (Fla. 71).

Marianna vicinity, *Waddells Mill Pond*, About 7 miles northwest of Marianna.

Jefferson County

Capps vicinity, *May, Asa, House*, On U.S. 19, about 0.5 mile north of its intersection with U.S. 27.

Palm Beach County

Palm Beach, *Bingham-Blossom House*, 1250 South Ocean Boulevard.

Palm Beach, *Whitehall (Henry Morrison Flagler House)*, Whitehall Way.

Wakulla County

Hyde Park vicinity, *Bird Hammock*, About 2 miles south of Hyde Park.

GEORGIA

Spalding County

Griffin, *Old Medical College Historical Area*, 223–233 East Broadway Street.

HAWAII

Honolulu County

Honolulu, *Royal Brewery, The*, 553 South Queen Street.

Kaneohe vicinity, *Moli Fish Pond*, Southeast of Kamehameha Highway between Kualoa and Johnson Road.

IDAHO

Ada County

Boise, *Jacobs, Cyrus, House*, 607 Grove Street.

Bear Lake County

Paris, *Bear Lake Stake Tabernacle*, Main Street.

Owyhee County

Silver City vicinity, *Camp Three Forks*, South of Silver City.

ILLINOIS

Cook County

Chicago, *Jackson Park Historic Landscape District and Midway Plaisance.*

Chicago, *Prairie Avenue District*, bounded roughly by 18th Street on the north, Calumet and Prairie on the east, midway between 18th and Cullerton on the south, and Indiana on the west.

Gallatin County

Old Shawneetown, *Marshall, John, House.*

V38-2 JAN 4 73 XUM

KANSAS

Franklin County

Williamsburg vicinity, *Silkville*, 2.5 miles southwest of Williamsburg on U.S. 50.

KENTUCKY

Jefferson County

Louisville, *St. James-Belgravia Historic District*, bounded by Wilson Avenue on the north, South Fourth Street on the east, Hill Street on the south, and South Sixth Street on the west.

LOUISIANA

Iberville Parish, St. Gabriel, *St. Gabriel Roman Catholic Church*, 0.25 mile south of Louisiana 74 between the Illinois Central Railroad tracks and Louisiana 75.

MAINE

Cumberland County

Gorham, *McLellan House*, Gorham School Street.

MARYLAND

Anne Arundel County

Annapolis, *Artisan's House*, 43 Pinkney Street.

Kent County

Sassafras, *Rich Hill, The Griffith House*, On Maryland 299 south of Sassafras.

Prince Georges County

Upper Marlboro, *Mount Pleasant*, Mount Pleasant Road.

MASSACHUSETTS

Essex County

Salem, *Old Town Hall Historic District*, 215–231 Essex Street, 121–145 Washington Street, 6–34 Front Street, and Derby Square.

Norfolk County (also in Suffolk County)

Boston-Milton, *Paul's Bridge*, Neponset Valley Parkway, across the Neponset River.

MICHIGAN

Wayne County

Detroit, *St. Joseph's Roman Catholic Church*, 1828 Jay Street.

MISSOURI

Mississippi County

Charleston, *Missouri Pacific Depot*, East of the intersecting branches of the Missouri Pacific Railroad.

NEBRASKA

Cass County

Weeping Water, *Weeping Water Historic District*.

Jefferson County

Fairbury, *Jefferson County Courthouse*, Block bounded by Fourth and Fifth Streets and D and E Streets.

Lancaster County

Lincoln, *Ferguson, William H., House*, 700 South 16th Street.

NEW HAMPSHIRE

Sullivan County

Cornish, *St. Gaudens, Louis, House and Studio*, Dingleton Hill and Whitten Roads.

NEW JERSEY

Essex County

Newark, *South Park Calvary United Presbyterian Church*, 1035 Broad Street.

Gloucester County

Glassboro, *Whitney Mansion (Holly Bush)*, Whitney Avenue.

NEW YORK

Dutchess County

Poughkeepsie, *Garfield Place Historic District*, Both sides of Garfield Place.

Kings County

Brooklyn, Houses on Hunterfly Road Historic District, 1698–1708 Bergen Street.

New York County

New York, *High Bridge Aqueduct and Water Tower*, Harlem River at West 170th Street (also in Bronx County).

Rensselaer County

Schaghticoke, *Knickerbocker Mansion*, Knickerbocker Road.

Wayne County

Palmyra, *Market Street Historic District*, Both sides of Market Street.

NORTH CAROLINA

Craven County

New Bern, *Cedar Grove Cemetery*, Bounded by Queen, George, Cypress, Howard, and Metcalf Streets.

New Bern, *Smallwood, Eli, House*, 524 East Front Street.

Hertford County

Ahoskie vicinity, *Mitchell, William, House*, 3 miles east of Ahoskie on North Carolina 350.

Wake County

Raleigh, *Lewis-Smith House*, 515 North Wilmington Street.

OHIO

Franklin County

Columbus, *Harrison, General William Henry, Headquarters (Jacob Oberdier House)* 570 West Broad Street.

Hamilton County

Cincinnati, *Cincinnati City Hall*, 801 Plum Street.

Cincinnati, *Rookwood Pottery*, Celestial and Rookwood Place.

Highland County

Rainsboro vicinity, *Plum Run Mound*, 1.8 miles northeast of Rainsboro on U.S. 50.

Knox County

Mt. Vernon vicinity, *McLaughlin Mound*, 6.5 miles south of Mt. Vernon.

Scioto County

West Portsmouth vicinity, *Tremper Mound and Works*, 3 miles north of West Portsmouth.

Summit County

Cuyahoga Falls, *Chuckery Race*, George Metropolitan Park.

OREGON

Benton County

Philomath, *Philomath College*, Main Street.

PENNSYLVANIA

Chester County

West Chester, *First Presbyterian Church of West Chester*, 130 West Miner Street.

Luzerne County

Wilkes-Barre, *Weiss Hall*, South River Street.

RHODE ISLAND

Newport County

Newport, *Bellevue Avenue-Casino Historic District*, 170–230 Bellevue Avenue.

Providence County

Providence, *Brick School House*, 24 Meeting Street.

Providence, *Lippitt, Governor Henry, House*, 199 Hope Street.

SOUTH CAROLINA

Charleston County

Charleston vicinity, *Magnolia Gardens*, 10 miles northwest of Charleston on South Carolina 61.

Mount Pleasant vicinity, *Christ Episcopal Church*, 4.6 miles northeast of Mount Pleasant on U.S. 17.

Pickens County

Pickens vicinity, *Hagood Mill*, 3.5 miles northwest of Pickens on U.S. 178.

SOUTH DAKOTA

Custer County

Custer, *Custer County Courthouse*, 411 Mt. Rushmore Road.

TENNESSEE

Shelby County

Memphis, *Victorian Village District*, Adams and Jefferson Streets.

Wilson County

Lebanon vicinity, *Sellars Indian Mound*, East of Lebanon off Tennessee 26.

TEXAS

Travis County

Austin, *Ney, Elisabet, Studio and Museum*, 304 East 44th Street.

VERMONT

Bennington County

Manchester, *Equinox House*, Main Street.

Chittenden County

Burlington, *U.S. Post Office and Custom House (Smith-Goldberg U.S. Army Reserve Center)*, southeast corner of Main and Church Streets.

VIRGINIA

Augusta County

Spottswood vicinity, *Old Providence Stone Church*, northwest of Spottswood at junction of Virginia 613 and 620.

Charles City County

Charles City vicinity, *Westover Church*, 5 miles west of Charles City off Virginia 5.

Essex County

Loretto vicinity, *Vauter's Church*, 1 mile northwest of Loretto on U.S. 17.

King William County

Mangohick vicinity, *Mangohick Church*, south of Mangohick off Virginia 30.

Newport News (independent city), *Lee Hall*, 0.6 mile northwest of intersection of U.S. 60 and Virginia 238.

Richmond County

Warsaw, *Richmond County Court House*, at intersection of U.S. 360 and Virginia 3.

Rockingham County

Broadway vicinity, *Lincoln Homestead and Cemetery*, on Virginia 42, 1 mile south of its intersection with Route 884.

WASHINGTON

Whitman County

Colfax, *Perkins House*, North 623 Perkins.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

AREA DIRECTORS ET AL.

Delegation of Authority

Section 3.1 of 10 BIAM was published on page 11491 of the June 8, 1972, FEDERAL REGISTER (37 FR 11491). It is being amended to give Area Directors the authority of the Commissioner of Indian Affairs contained in 43 CFR 417.5 which deals with determining the amount of Colorado River water to be diverted for use on Indian reservations.

As amended, 10 BIAM 3.1 reads as follows:

3.1 *Authorities from the Commissioner.* The authorities of the Secretary of the Interior delegated to the Commissioner in Secretarial Order 2508 (10 BIAM 2.1), 25 CFR, 43 CFR 2.6, and 43 CFR 417.5 are hereby redelegated to the Area Directors and the Director of Southeastern Agencies.

This redelegation also includes future authorities of the Secretary of the Interior to the Commissioner which:

A. Do not by their own terms disallow exercise by officials below the Commissioner;

B. Are not within the generally applicable exceptions in section 3.3 below; or

C. Are not expressly excluded, by additional provisions to this chapter, from being exercised by officials below the Commissioner.

CHARLES G. EMLEY,
Deputy Assistant Secretary of the Interior.

DECEMBER 22, 1972.

Office of the Secretary

[DES 72–118]

LAHONTAN NATIONAL FISH HATCHERY, DOUGLAS COUNTY, NEV.; PROPOSED ADDITIONAL FACILITIES

Notice of Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Public Law 91–190, the Department of the Interior has prepared a draft environmental statement for the construction of additional facilities at the Lahontan National Fish Hatchery located about 4 miles south of Gardnerville, Nev., and invites written comments within 45 days of this notice.

The construction will include buildings for public use, staff residence, and storage; ponds for fish production and waste removal; and systems for water treatment and reconditioning. The new facilities are necessary to propagate Lahontan cutthroat trout for restoration of the fisheries in Pyramid and Walker Lakes in Nevada and to increase the numbers of rainbow trout currently stocked on military and Indian reservations in northeastern Nevada and eastern California.

Copies of the statement are available for inspection at the following locations:

Bureau of Sport Fisheries and Wildlife, 1500 Northeast Irving Street, Post Office 3737, Portland, OR 97208.

Bureau of Sport Fisheries and Wildlife, Office of Environmental Quality, Washington, D.C. 20240.

Single copies may be obtained by writing the Chief, Office of Environmental Quality, Bureau of Sport Fisheries and Wildlife, Washington, D.C. 20240. Please refer to the statement number above.

WILLIAM W. LYONS,
Deputy Assistant Secretary, Program Policy.

DECEMBER 22, 1972.

LIVESTOCK GRAZING ON PUBLIC LANDS

Schedule of Fees, 1973

Pursuant to the authority vested in the Secretary of the Interior, notice is hereby given of the schedule of fees for the 1973 fee year beginning March 1, 1973, and ending February 28, 1974, for livestock grazing on the public lands.

For the purpose of establishing charges, 1 animal unit month (AUM) shall be considered equivalent to grazing use by one cow, five sheep, or one horse for 1 month. The charge for one horse is at twice the rate for one cow.

Bills shall be issued in accordance with the rates prescribed in this notice.

INSIDE STATUTORY GRAZING DISTRICTS

Pursuant to departmental regulations (43 CFR 4115.2–1(k)) as amended January 7, 1972 (32 FR 213), fees within districts, except as otherwise provided herein, shall be 78 cents per AUM of which 49 cents is the grazing use fee and 29 cents is the range improvement fee.

Exceptions to the above rates are hereby set as follows for certain LU project lands (national grasslands) in order to continue the basis of fees that has heretofore been established:

Arizona. For the San Simon project (Cienega area) transferred to the Department by Executive Order 10322, the fees shall be $1.32 per AUM of which 49 cents is the grazing use fee and 83 cents is the range improvement fee.

Colorado. For the Great Divide project transferred to the Department by Executive Order 10046, the fees shall be 93 cents per AUM of which 49 cents is the grazing use fee and 44 cents is the range improvement fee.

Montana. For all LU lands within districts transferred to the Department by Executive Order 10787, the fees shall be 94 cents per AUM of which 49 cents is the grazing use fee and 45 cents is the range improvement fee.

New Mexico. For the Hope Land project transferred to the Department by Executive Order 10787, the fees shall be 87 cents per AUM of which 49 cents is the grazing use fee and 38 cents is the range improvement fee. For the San Simon project (Cienega area) transferred to the Department by Executive Order 10322, the fees shall be $1.32 per AUM of which 49 cents is the grazing use fee and 83 cents is the range improvement fee.

OUTSIDE STATUTORY GRAZING DISTRICTS (EXCLUSIVE OF ALASKA)

Pursuant to departmental regulations (43 CFR 4125.1–1(m)), the rate for grazing leases except as otherwise provided herein, shall be 78 cents per AUM of which 25 percent is the range improvement fee.

Exceptions to the above rate are hereby set as follows for certain LU project lands and for all O&C and intermingled public domain lands in western Oregon in order to continue the basis of fees that has heretofore been established:

Montana. For those Milk River Land project lands outside districts transferred to the Department by Executive Order 10787, the fee shall be 94 cents per AUM of which 25 percent is the range improvement fee.

Wyoming. For the northeast Wyoming project transferred to the Department by Executive Order 10046 and amended by Executive Order 10175, the fee shall be 93 cents per AUM of which 25 percent is the range improvement fee.

Western Oregon. For western Oregon the fee shall be 95 cents per AUM.

ROGERS C. B. MORTON,
Secretary of the Interior.

JANUARY 2, 1973.

DEPARTMENT OF COMMERCE

National Bureau of Standards

TvTIME SIGNAL FORMAT; BROADCAST AUTHORIZATION

Availability of NBS Petition to Federal Communications Commission

The National Bureau of Standards is giving public notice that it has filed with the Federal Communications Commission a petition pursuant to 47 CFR 1.401 et seq. for the initiation of public proceedings to amend 47 CFR 73.682(a) and 73.699 concerning transmission standards for the television broadcast service.

The amendments proposed in the petition would permanently allocate, in the standard television broadcast format, all of line 21 in the odd field, and the first half of line 21 in the even field, for the transmission of NBS TvTime signals, digital, captioning information, digital

V38-2 JAN 4 73 XUM

channel identification, and such other forms of digital information amenable to the NBS TvTime signal format as the Commission finds to be in the public interest. This proposed allocation of line 21 would permit the transmission throughout the United States, via the television broadcast service, of NBS TvTime signals containing NBS standards of both time and frequency, and occasional time advisory messages necessary to the conveying of complete time information to the many interested members of the public who will be using the service. The technology underlying the NBS TvTime System would also permit the transmission of captioning for the deaf and others, channel identification, and other digital information, as designated by the Commission. The petition also urges that the Commission authorize captioning and channel identification and explore other potential uses for this opportunity to transmit digital information.

Copies of this petition are available for public inspection at the Commission's Docket Reference Room, 1919 M Street NW., Washington, DC 20554. Copies of the petition may also be purchased from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22151, at a price of $3 per copy. Further information, if desired, may be obtained by calling the subscription desk at NTIS. The telephone number is (703) 321–8543.

Any interested person may file a statement in support of or in opposition to this petition pursuant to 47 CFR 1.405. Such statement should be filed with the Secretary, Federal Communications Commission, Washington, D.C. 20554.

Dated: December 27, 1972.

R. S. WALLEIGH,
Acting Director.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

National Institutes of Health

NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES, BOARD OF SCIENTIFIC COUNSELORS

Amended Notice of Meeting

Notice of December 13, 1972 (37 FR 28090, December 20, 1972) is hereby amended as follows:

Pursuant to Executive Order 11671, notice is hereby given of the meeting of the Board of Scientific Counselors, NIEHS, January 8–9, 1973, at 9 a.m., Research Triangle Park, N.C., Building 1 Conference Room. This meeting will be open to the public from 9 a.m. to 1:30 p.m., January 8, at which time Dr. David P. Rall, Director, NIEHS, will report on recent legislative activities affecting the Institute, will present an overview of Institute intramural research activities as an orientation for the Board members, and will conduct a tour of the facilities. The meeting will be closed to the public 1:30 p.m. to 5 p.m., January 8 and 9 a.m. to 5 p.m., January 9 to review specific intramural research projects under consideration or in progress and to consider and formulate advice on the intramural research programs. This portion of the meeting will be closed in accordance with the Secretary's determination of September 27, 1972.

Dr. David P. Rall, Director, NIEHS, Research Triangle Park, N.C., (919) 549–8411, extension 3201, will furnish summaries of the meeting and rosters of the committee members, as well as any substantive information.

Dated: December 22, 1972.

JOHN F. SHERMAN,
Deputy Director,
National Institutes of Health.

ATOMIC ENERGY COMMISSION

[Docket No. 50–285]

OMAHA PUBLIC POWER DISTRICT

Order Extending Completion Date

Omaha Public Power District is the holder of Provisional Construction Permit No. CPPR–41 issued by the Commission on June 7, 1968, for the construction of the Fort Calhoun Station, Unit 1, a 1,420 megawatt (thermal) pressurized water nuclear reactor presently under construction at the company's site in Washington County, Nebr., on the southwest bank of the Missouri River about 19 miles northwest of Omaha, Nebr.

On November 15, 1972, the company filed a request, which was supplemented by telegram dated December 20, 1972, for an extension of the completion date because of (i) a delay in the fabrication of the fuel pending completion of the prepressurization process, and (ii) a delay in procurement and installation of seismic restraints. The Director of Regulation having determined that this action involves no significant hazards consideration, and good cause having been shown:

It is hereby ordered, That the latest completion date for CPPR–41 is extended from December 31, 1972, to June 31, 1973.

For the Atomic Energy Commission.

Date of issuance: December 27, 1972.

R. C. DEYOUNG,
Acting Deputy Director for Reactor Projects, Directorate of Licensing.

[Docket No. 50–395]

SOUTH CAROLINA ELECTRIC & GAS CO.

Notice and Order for Evidentiary Hearing

The Atomic Energy Commission (the Commission) by its "Notice of Hearing on Application for Construction Permit," dated September 21, 1972, ordered a hearing to consider the application of the South Carolina Electric & Gas Co., for a construction permit for a pressurized water nuclear reactor designed for initial operation at approximately 2,775 thermal megawatts with a net electrical output of approximately 900-megawatts. The proposed facility, designated as the Virgil C. Summer Nuclear Station, is to be located at the applicant's site about 26 miles north of Columbia, S.C., in western Fairfield County. This hearing will be held pursuant to the provisions of the Atomic Energy Act of 1954, as amended, and the regulations in Title 10, Code of Federal Regulations, Part 2 rules of practice and Part 50, "Licensing of Production and Utilization Facilities."

The hearing will be conducted by the Atomic Safety and Licensing Board (the Board) appointed by the Commission on November 14, 1972. This Board consists of Dr. John R. Lyman, Mr. Frederick J. Shon, and Mr. Daniel M. Head, Esq., chairman, with Dr. Kenneth A. McCollom, the technically qualified alternate, and Mr. Walter W. K. Bennett, Esq., the alternate chairman.

A prehearing conference was held by the Board in Winnsboro, S.C., on December 18, 1972, pursuant to the notice issued by the Board on November 22, 1972. A prehearing order was issued by the Board on December 27, 1972, containing the orders made by the Board as a result of the prehearing conference.

Please take notice: *And it is hereby ordered,* in accordance with the provisions of the Atomic Energy Act of 1954, as amended, and the Commission's rules of practice, 10 CFR Part 2, That the evidentiary hearing in these proceedings is scheduled for 10 a.m., local time, on Monday, January 29, 1973, in the Fairfield County Courthouse, Congress Street, Winnsboro, S.C.

Issued at Washington, D.C., this 27th day of December 1972.

THE ATOMIC SAFETY AND LICENSING BOARD,
DANIEL M. HEAD,
Chairman.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN PORTUGAL

Entry or Withdrawal from Warehouse for Consumption

DECEMBER 29, 1972.

On November 17, 1970, the U.S. Government, in furtherance of the objectives of, and under the terms of, the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concluded a comprehensive bilateral cotton textile agreement with the Government of Portugal concerning exports of cotton textiles and cotton textile products from Portugal to the United States over a 4-year period beginning on January 1, 1971, and extending through December 31, 1974. On May 22, 1972, notes were exchanged amending that agreement. Among the provisions of the amended agreement are those establishing specific limits on Categories 1/2/3/4, 5/6, 9, 22, 24/25, 26, 41/42/43, 46, 50, 51, 52, 53 and parts of 62, 55, 60, and parts of 62 for the third agreement year beginning January 1, 1973.

Accordingly, there is published below a letter of December 29, 1972, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textiles and cotton textile products in the above categories produced or manufactured in Portugal which may be entered or withdrawn from warehouse for consumption in the United States for the 12-month period beginning January 1, 1973, and extending through December 31, 1973, be limited to the designated levels. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, as amended, but are designed to assist only in the implementation of certain of its provisions.

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary and Director, Bureau of Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226.

DECEMBER 29, 1972.

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of November 17, 1970, as amended, between the Governments of the United States and Portugal, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective January 1, 1973, and for the 12-month period extending

V 38 I 2 JAN 4 73 XUM

through December 31, 1973, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 1/2/3/4, 5/6, 9, 22, 24/25, 26, 41/42/43, 46, 50, 51, 52, 53, and parts of 62, 55, 60, and parts of 62, produced or manufactured in Portugal, in excess of the following levels of restraint:

Category	12-Month levels of restraint
1/2/3/4	17,724,223 pounds.
5/6	11,957,100 syds (of which not more than 6,696,649 syds may be in Category 6).
9	12,989,097 syds.
22	2,105,865 syds.
24/25	7,721,505 syds (of which not more than 2,807,820 syds may be in Category 25).
26	3,369,384 syds.
41/42/43	126,352 dozen.
46	56,157 dozen.
50	32,291 dozen.
51	32,291 dozen.
52	47,733 dozen.
53 and parts of 62 (T.S.U.S.A. Nos. 382.0012, 382.0014, 382.0635, and 382.0640).	47,733 dozen.
55	38,588 dozen.
60	27,563 dozen.
Parts of 62 (all of the category except T.S.U.S.A. Nos. 382.0012, 382.0014, 382.0635, and 382.0640).	180,020 pounds (of which not more than 78,057 pounds may be in T.S.U.S.A. Nos. 380.0024, 380.0645, 382.0024, and 383.-0665).

In carrying out this directive, entries of cotton textiles and cotton textile products in the above categories, produced or manufactured in Portugal, which have been exported to the United States from Portugal prior to January 1, 1973, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the period January 1, 1972 through December 31, 1972. In the event that the levels of restraint for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

In carrying out this directive, entries of two or three piece ladies suits produced or manufactured in Portugal from woven or knit cotton fabrics should not be charged against any of the levels of restraint designated herein, including the level of restraint for blouses in Category 52.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of November 17, 1970, as amended, between the Governments of the United States and Portugal which provide, in part, that within the aggregate limit and group limits, the limitations on specific categories may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements. Any appropriate adjustments pursuant to the provisions of the bilateral agreement referred to above, will be made to you by letter.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on April 29, 1972 (37 FR 8802).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Portugal and with respect to imports of cotton textiles and cotton textile products from Portugal have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely yours,

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary and Director, Bureau of Resources and Trade Assistance.

[FR Doc.73-279 Filed 1-3-73;8:45 am]

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE SOCIALIST FEDERAL REPUBLIC OF YUGOSLAVIA

Entry or Withdrawal From Warehouse for Consumption

DECEMBER 29, 1972.

On December 31, 1970, the U.S. Government, in furtherance of the objectives of, and under the terms of, the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concluded a comprehensive bilateral agreement with the Government of the Socialist Federal Republic of Yugoslavia concerning exports of cotton textiles and cotton textile products from Yugoslavia to the United States over a 5-year period beginning January 1, 1971, and extending through December 31, 1975. Among the provisions of the agreement are those establishing an aggregate limit, and within the aggregate limit, specific limits on Categories 9, 18/19, 22, 26 (duck fabric), 26 (other than duck fabric), 48 and 49, for the agreement year beginning January 1, 1973.

There is published below a letter of December 29, 1972, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textiles and cotton textile products in the above categories, produced or manufactured in Yugoslavia, which may be entered or withdrawn from warehouse for consumption in the United States for the 12-month period beginning on January 1, 1973, and extending through December 31, 1973, be limited to certain designated levels. This letter and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement but are designed to assist only in the implementation of certain of its provisions.

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary and Director, Bureau of Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury, Washington, D.C. 20226.

DECEMBER 29, 1972.

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of December 31, 1970, between the Governments of the United States and the Socialist Federal Republic of Yugoslavia, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective January 1, 1973, and for the 12-month period extending through December 31, 1973, entry into the United States for consumption and withdrawal from warehouse for consumption, of cotton textiles and cotton textile products in Categories 9, 18/19, 22, 26 (duck fabric), 26 (other than duck fabric), 48, 49, produced or manufactured in Yugoslavia, in excess of the following 12-month levels of restraint:

Category	12-month level of restraint
9 ---------- square yards	11,025,000
18/19 ---------- do	651,250
22 ---------- do	4,410,000
26 (duck fabric)[1] ---------- do	2,205,000
26 (other than duck fabric) ---------- do	2,756,250
48 ---------- dozen	15,435
49 ---------- do	30,539

[1] The T.S.U.S.A. numbers for duck fabrics are:

320.--01 through 04, 06, 08
321.--01 through 04, 06, 08
322.--01 through 04, 06, 08
326.--01 through 04, 06, 08
327.--01 through 04, 06, 08
328.--01 through 04, 06, 08

In carrying out this directive, entries of cotton textiles and cotton textile products in Categories 9, 18/19, 22, 26 (duck fabric), 26 (other than duck fabric), 48, and 49, produced or manufactured in Yugoslavia and which have been exported to the United States from Yugoslavia prior to January 1, 1973, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the period January 1, 1972, through December 31, 1972. In the event that the levels of restraint established for such goods for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of December 31, 1970, between the Governments of the United States and the Socialist Federal Republic of Yugoslavia which provides in part that within the aggregate and applicable group limits, limits on specific categories may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements. Any appropriate adjustments pursuant to the provisions of the bilateral agreement referred to above, will be made to you by letter.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on April 29, 1972 (37 FR 8802).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Socialist Federal Republic of Yugoslavia and with respect to imports of cotton textiles and cotton textile products from Yugoslavia have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary and Director, Bureau of Resources and Trade Assistance.

Sincerely yours,

[FR Doc.73-280 Filed 1-3-73;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19558]

OVERSEAS DATAPHONE SERVICE

Notice of Inquiry Regarding Future Authorization Policy; Order Extending Time

1. By letter dated December 21, 1972, RCA Global Communications, Inc. (RCA Globcom) requests an extension of time until January 26, 1973, in which to file comments in the above-captioned Inquiry.[1] RCA Globcom alleges that the quested extension of time is needed because of the amount of information requested by the Commission, the press of other pending regulatory matters, and the time constraints created by the Christmas and New Year holidays.

2. In view of the previous extensions of time granted in this matter, we cannot find that RCA Globcom has made a sufficient showing of good cause to justify the entire extension of time sought. However, we do believe that a partial grant of the RCA Globcom request is warranted.

3. Accordingly, *It is ordered*, Pursuant to § 0.303(c) of the Commission's rules pertaining to delegations of authority, that the request of RCA Global Communications, Inc. is granted in part; and

(A) The time in which to file comments in Docket No. 19558 is extended until January 12, 1973;

(B) The time in which to file reply comments is extended until February 14, 1973; and

(C) Except to the extent granted above, the request of RCA Global Communications, Inc. is denied.

Adopted: December 26, 1972.

Released: December 27, 1972.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] CHARLES R. COWAN,
Acting Chief, Common Carrier Bureau.

ARIZONA PUBLIC SERVICE CO.

Proposed Changes in Rates and Charges

DECEMBER 27, 1972.

Take notice that Arizona Public Service Co. (Company) on September 5, 1972, tendered for filing proposed changes in its FPC Rate Schedule No. 38. The filing consists of a schedule of transmission losses agreed to by the Company and Southern California Edison Co. on May 14, 1967, as provided for through the invocation of Paragraph 10 of their transmission agreement. The Company states that this schedule is still effective without change.

The Company requests waiver of their late filing and the formal requirements of section 35 of the Commission's regulations.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 9, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[Docket No. E-7907]

ARIZONA PUBLIC SERVICE CO.

Proposed Changes in Rates and Charges

DECEMBER 27, 1972.

Take notice that Arizona Public Service Co. (Company) on September 28, 1972 tendered for filing proposed changes in its FPC Rate Schedule No. 50. The filing consists of an escalation as provided for in Exhibit C of the Company's agreement dated April 2, 1971, with Citizens Utilities Co. The proposed change would increase the Company's annual revenues from jurisdictional sales and service by $1,396 computed by using August 1972, as the base month.

The Company requests that § 35.11 of the Commission's regulations be waived and that the current escalation become effective at the beginning of July and August 1972, since it is impossible to anticipate an escalation prior to the end of a month.

The Company also requests waiver of the formal requirements of §§ 35.1 and 35.13 of the Commission's regulations, and that the short form of filing as submitted be filed and accepted. In support of this request, the Company states that the Commission has granted this short form of filing in the Company's FPC Rate Schedules 3 and 32.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 5, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

Copies of this filing are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73-115 Filed 1-3-73;8:45 am]

[Docket No. RP73-70]

CAROLINA PIPELINE CO. AND TRANSCONTINENTAL GAS PIPE CORP.

Notice of Motion for Emergency Relief

DECEMBER 27, 1972.

Take notice that on December 15, 1972, Carolina Pipeline Co. (Carolina) filed in Docket No. RP73-70 a complaint against Transcontinental Gas Pipe Line Corp. (Transco) whereby Carolina seeks a Commission order directing Transco to deliver Carolina's present Annual Contract Quantity (ACQ) entitlement of gas under Transco's Contract Demand 2 (CD-2) Rate Schedule commencing January 1, 1973.

Complainant states it is a resale customer of Transco and also obtains part of its gas supply from Southern Natural Gas Co. Carolina provides service both directly and for resale for domestic, commercial, and industrial customers.

Complainant alleges that some of the interruptible industrial customers utilizing gas for direct flame applications and highly preferential process uses obtain gas as preferred interruptible customers and that these customers "clearly come within the 'human needs' type of customer meaning as used by the Commission."

Complainant states that "[b]ecause curtailments in the South were customarily of very short duration prior to current gas shortages, it was both physically feasible and economically desirable for these [preferred interruptible industrial] customers to purchase interruptible gas while maintaining a limited alternate fuel capability. In view of extensive curtailments now in effect on the Transco and Southern systems, these customers are faced with severe hardships."

V38-2 JAN 4 73 XUM

Complainant claims that "if the relief herein sought were granted and Carolina were permitted to obtain the ACQ gas under the CD rate schedule daily basis Carolina would be able to maintain service in the winter to these [preferred interruptible industrial] 'human needs' customers." Complainant states that its preferred interruptible industrial customers have been completely curtailed since November 15, 1972.

Complainant states that the alternate fuels utilized by these preferred interruptible industrial customers "are in very short supply and most difficult to obtain at this time." Complainant alleges that if Carolina could obtain its ACQ gas from Transco under Transco's CD–2 Rate Schedule "at a volume in the range of 10,000 Mcf per day, it would greatly alleviate Carolina's difficulty in maintaining service to these [preferred interruptible industrial] customers."

Complainant claims that its requested relief "could have no adverse effect upon Transco's other customers."

Any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 5, 15, and 16 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the request is required by the public convenience and necessity. If a petition for leave to intervene is timely filed or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73–110 Filed 1–3–73;8:45 am]

[Docket No. CP68–179]

FLORIDA GAS TRANSMISSION CO.

Notice of Petition to Amend

DECEMBER 27, 1972.

Take notice that on December 4, 1972, Florida Gas Transmission Co. (Petitioner), Post Office Box 44, Winter Park, FL 32789, filed in Docket No. CP68–179 a petition pursuant to section 7(c) of the Natural Gas Act for an amendment to the certificate of public convenience and necessity issued herein on July 17, 1969 (42 FPC 121), if such is necessary, in order to authorize the continued operation of its facilities and the rendition of service in the manner proposed by Petitioner, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that in its application for a certificate in this proceeding it proposed to construct additional natural gas facilities to expand the average day sales capacity of its pipeline system in Florida by approximately 56,400 Mcf (equivalent to 60,000 MMBtu) to approximately 692,000 Mcf (at 14.73 p.s.i.a.). The sales proposed to be made by Florida Gas with the expanded facilities were shown in the application (Exhibit I) and followed Florida Gas' established practice of gradually upgrading sales made to direct interruptible customers to resale sales to its distributors, both firm and interruptible.

In connection with a rate proceeding in Dockets Nos. RP66–4, RP68–1, the Commission entered an order in Opinion No. 611 on February 16, 1972, directing Florida Gas to submit limitations on its sales to its I Rate Schedule customers reflecting service agreements and contracts on file with the Commission as of September 1, 1972, and not to increase its sales to resale and various direct sale customers beyond service agreement levels as of that date. On October 16, 1972, Florida Gas filed revised tariff sheets in its FPC Gas Tariff, Original Volume No. 1, and revised contracts with its direct sales customers containing limitations on service volumes. However, in an order issued November 14, 1972, the Commission accepted the filing of October 16, 1972, as in compliance with Opinion No. 611 but rejected the proposed service volumes because they did not represent the volumes in service agreements and contracts on file as of September 1, 1972. On December 1, 1972, Florida Gas filed revised tariff sheets and a listing of contract volumes on file as of September 1, 1972. Also, on December 4, 1972, Florida Gas retendered the service volumes contained in its October 16, 1972, filing, proposing to make them effective January 1, 1973, together with a motion for reconsideration of the November 14, 1972, order.

Florida Gas believes it has the necessary certificate authority to render the sales service proposed in the retendered tariff sheets and revised listing of contract volumes for its direct sales customers because the proposed service volumes follow the projected pattern of sales originally estimated in the application in this proceeding. If the Commission grants the relief requested in Florida Gas' motion for reconsideration of the order of November 14, 1972, and permits the proposed service volumes to become effective, then Florida Gas requests that the certificate issued in Docket No. CP68–179 be amended, if in the opinion of the Commission such authority is necessary to permit Petitioner to operate its facilities and render the service proposed. In the event that the Commission denies Florida Gas' motion for reconsideration amendment of Petitioner's certificate issued in this proceeding will not be necessary.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before January 10, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this petition to amend if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the amendment is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Petitioner to appear or be represented at the hearing.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73–116 Filed 1–3–73;8:45 am]

[Docket No. CP68–179]

FLORIDA GAS TRANSMISSION CO.

Notice of Petition to Amend

DECEMBER 27, 1972.

Take notice that on December 4, 1972, Florida Gas Transmission Co. (Petitioner), Post Office Box 44, Winter Park, FL 32789, filed in Docket No. CP68–179 a petition to amend the order of the Commission issued in said docket on July 17, 1969 (42 FPC 121), by authorizing the continued operation of its facilities and service, all as more fully set forth in the petition to amend in this proceeding.

By the Commission's order of July 17, 1969, Petitioner was authorized to construct and operate certain facilities and transport an additional 60,000,000 B.t.u. (equivalent to 56,400 Mcf) of natural gas per day. By Commission Opinion No. 611 issued February 16, 1972, Florida Gas Transmission Co., Docket Nos. RP66–4, et al. (47 FPC ——), Petitioner was directed, inter alia, to file a revised I rate schedule deleting certain restrictive provisions with a volume limitation on sales. On October 16, 1972, Petitioner filed revised tariff sheets and revised contracts with its direct sales customers containing limitations on service volumes; however, by order issued November 14, 1972, the Commission accepted the tariff sheets but rejected the proposed service volumes.

Petitioner states that it has retendered the service volumes contained in its October 16 filing and has filed a motion for reconsideration of the November 14, 1972, order. Applicant believes that it has the necessary certificate authority to render the sales services proposed in the retendered tariff sheets and revised listing of contract volumes for its direct sales customers because the proposed service volumes follow the projected pattern of sales originally estimated in the application in Docket No. CP68–179. If the Commission grants the relief requested in its motion for reconsideration, Applicant requests that the certificate issued in Docket No. CP68–179 be amended, if in the opinion of the Commission such authority is necessary to permit Petitioner to operate its facilities and render the services proposed.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 15, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

MARY B. KIDD,
Acting Secretary.

[Project 2301]

MONTANA POWER CO.

Issuance of Annual License

DECEMBER 27, 1972.

On December 23, 1968, the Montana Power Co., licensee for Mystic Lake Project No. 2301 located in Stillwater County Mont., on West Rosebud Creek and Mystic Lake filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§.16.1–16.6). Licensee also made a supplemental filing pursuant to Commission Order No. 384 on December 23, 1969, and a supplemental filing pursuant to Commission Order No. 415 on October 29, 1970.

The license for Project No. 2301 was issued effective December 1, 1961, for a period ending December 31, 1969. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of licensee's application and Commission action thereon it is appropriate and in the public interest to issue an annual license to the Montana Power Co. for continued operation and maintenance of Project No. 2301.

Take notice that an annual license is issued to the Montana Power Co. (Licensee) under section 15 of the Federal Power Act for the period January 1, 1973, to December 31, 1973, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Mystic Lake Project No. 2301, subject to the terms and conditions of its license.

MARY B. KIDD,
Acting Secretary.

NATIONAL GAS SURVEY—SUPPLY-TECHNICAL ADVISORY TASK FORCE-NATURAL GAS SUPPLY

Agenda of Meeting

Meeting to be held in conference room 2043 of the Federal Power Commission, 441 G Street NW., Washington, DC, January 16, 1973—9 a.m.

Presiding: Dr. Paul J. Root, TF FPC Survey Coordinating Representative and Secretary.

1. Call to order and introductory remarks—Dr. Root.

2. Objectives and purposes of meeting: (A) Discussion of the activities and progress of the task force—Mr. Ralph W. Garrett, Director, Supply Technical Advisory Task Force-Natural Gas Supply. (B) Summary of the nature of the individual forecasting responses—Dr. Root. (C) Plans for obtaining supply forecasts for inclusion in the task force report—Mr. Garrett. (D) Status of assigned work and estimated date for completion—Mr. Garrett. (E) Discussion of the environmental aspects concerning the work of the task force—Mr. Garrett. (F) Other business.

3. Adjournment—Dr. Root.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the task force—which statements, if in written form, may be filed before or after the meeting, or if oral, at the time and in the manner permitted by the task force.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73–122 Filed 1–3–73;8:45 am]

NATIONAL GAS SURVEY—TRANSMISSION-TECHNICAL ADVISORY TASK FORCE-ECONOMICS

Agenda of Meeting

Meeting to be held in conference room 4454–B of the Federal Power Commission, 441 G Street NW., Washington, DC, January 9, 1973—9 a.m.

Presiding: Mr. Thos. H. Jenkins (Acting), FPC Survey Coordinating Representative and Secretary.

1. Meeting call to order—Mr. Jenkins.

2. Objectives and purposes of meeting: (A) Discussion of a progress report of work of the Transmission-Technical Advisory Task Force-Economics—Mr. Ray J. Lynch, Deputy Director, Transmission-Technical Advisory Task Force-Economics. (B) Status of assigned work and estimated date for completion—Mr. Lynch. (C) Discussion of environmental aspects concerning the work of the Transmission-Technical Advisory Task Force-Economics—Mr. Lynch. (D) Other business and next meeting date.

3. Adjournment—Mr. Jenkins.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the task force—which statements, if in written form, may be filed before or after the meeting, or if oral, at the time and in the manner permitted by the task force.

MARY B. KIDD,
Acting Secretary.

[Docket No. E–7908]

ORANGE AND ROCKLAND UTILITIES, INC.

Notice of Application

DECEMBER 27, 1972.

Take notice that Orange and Rockland Utilities, Inc. (Applicant), incorporated under the laws of the State of New York, with its principal business office at Spring

V38-2 JAN 73 XUM

Valley, N.Y., filed an initial rate schedule on June 2, 1972 in compliance with § 35.12 of the Commission's regulations under the Federal Power Act.

The rate schedule is in the form of an agreement between the Applicant and Consolidated Edison Company of New York, Inc. (Con Ed) providing for the sale of unit power and energy out of Applicant's Bowline Point Plant to Consolidated Edison for the period after commercial operation begins through April 28, 1973.

Applicant will make available for the use of Con Ed 200 mw. of capability available to Applicant through its one-third ownership of the 600 mw. Bowline Point Unit No. 1. Only the specific unit is available for use by Con Ed and should the unit fail for any reason (specifically including failure to complete construction) Applicant is not obligated to supply back-up reserve or energy from any other unit.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 8, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73-120 Filed 1-3-73;8:45 am]

[Project 619]

PACIFIC GAS & ELECTRIC CO.

Issuance of Annual License

DECEMBER 27, 1972.

On December 22, 1967, Pacific Gas & Electric Co., Licensee for Bucks Creek Project No. 619 located in the vicinity of Quincy, County of Plumas, California, on Bucks Creek filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§ 16.1-16.6). Licensee also made a supplemental filing pursuant to Commission Order No. 384 on March 2, 1970, and a supplemental filing pursuant to Commission Order No. 415 on November 18, 1970.

The License for Project No. 619 was issued effective April 14, 1926, for a period ending December 31, 1968. In order to authorize the continued operation of the project pursuant to section 15 of the act pending completion of Licensee's application and Commission action thereon it is appropriate and in the public interest to issue an annual license to Pacific Gas & Electric Co. for continued operation and maintenance of Project No. 619.

Take notice that an annual license is issued to Pacific Gas & Electric Co. (Licensee) under section 15 of the Federal Power Act for the period January 1, 1973 to December 31, 1973, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Bucks Creek Project No. 619, subject to the terms and conditions of its license.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73-119 Filed 1-3-73;8:45 am]

FEDERAL RESERVE SYSTEM

AMERICAN NATIONAL HOLDING CO.

Order Approving Acquisition of Bank

American National Holding Co., Kalamazoo, Mich., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of the American National Bank in Portage, Portage, Mich. (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls one bank [1] with deposits of approximately $183 million, representing less than 1 percent of total deposits in commercial banks in Michigan, and is the 18th largest banking organization in the State. (All banking data, except as otherwise noted, are as of December 31, 1971.) Upon acquisition of Bank ($4 million deposits), applicant's share of State deposits would remain less than 1 percent, and applicant's ranking among the State's banking organizations would remain unchanged.

Bank, which was established in 1972 by the management of applicant as a spin off of a branch of applicant's lead bank, serves the Kalamazoo banking market (approximated by the Kalamazoo SMSA) and, with approximately 0.8 percent of market deposits, is the smallest of five banks operating therein.[2]

Bank derives a portion of its loan and deposit business from areas served by applicant's banking subsidiary, the closest office of which is the South Westnedge branch, located approximately 1.1 mile north of Bank's sole office. However, in view of the close relationship that has existed between applicant and Bank since its organization, it appears that no meaningful competition between Bank and applicant's subsidiary bank would be eliminated as a result of consummation of applicant's proposal. Further, in view of Bank's small size, legal prohibitions against the establishment of branches in Portage by applicant's banking subsidiary and against the establishment of branch offices by Bank in any city, town, or village in which applicant's banking subsidiary maintains offices, and the close association between Bank and associates of applicant which is likely to continue irrespective of the Board's action on this application, it appears that no meaningful competition between Bank and applicant's subsidiary bank would develop in the future. Moreover, it appears unlikely that any significant competition would develop between any of applicant's proposed subsidiaries and Bank in the future in view of the distances separating the banking offices, the number of banks in the intervening areas, and State laws restricting branching. Even though Bank may legally branch into the same areas in which applicant's present and one of its proposed subsidiary banks may branch, in view of the relatively sparse populations of the areas involved, such a prospect appears remote. On the basis of the facts of record, the Board concludes that consummation of the proposed acquisition would have no significant adverse effects on existing competition, nor would it foreclose the development of significant competition.

The financial condition, managerial resources, and prospects of applicant are considered satisfactory and consistent with approval of the application. The same conclusions apply with respect to applicant's present subsidiary particularly in view of Applicant's recent contribution of $2½ million to the equity account of that bank. The financial condition, managerial resources, and future prospects of Bank appear favorable. Considerations relating to banking factors, therefore, are consistent with approval of the application. Although applicant does not intend to introduce any services at Bank not presently available in the community, considerations relating to the convenience and needs of the communities to be served lend weight toward approval of the application in view of the assistance applicant will provide Bank in establishing additional branch offices and other continuing assistance which applicant may provide Bank. It is the Board's judgment that consummation of the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[3] effective December 26, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-126 Filed 1-3-73;8:45 am]

[1] By order dated December 5, 1972, the Board approved applicant's application to acquire shares of a second bank, the successor by merger to the Niles National Bank and Trust Co., Niles, Mich. Today, the Board also announced, by separate order, its approval of applicant's application to acquire shares of the successor by merger to the American Bank of Three Rivers, N.A., Three Rivers, Mich.

[2] Market deposit data are as of June 30, 1970, at which time Bank's office served as a branch office of applicant's banking subsidiary. Bank operated as a branch office of applicant's banking subsidiary from 1963 until January, 1972, at which time Bank was spun-off as part of a reorganization of Applicant's banking subsidiary into a one-bank holding company in order to comply with Michigan banking law.

BOL STATE BANK

Order Approving Merger of Banks

BOL State Bank, Lansing, Mich., a newly chartered nonoperating proposed State member bank of the Federal Reserve System, has applied pursuant to the Bank Merger Act (12 U.S.C. 1828(c)) for the Board's prior approval to merge with Bank of Lansing, Lansing, Michigan (Bank), under the name of Bank and charter of applicant, as a means to facilitate the direct acquisition of the voting shares of Bank by Northern States Financial Corp., Detroit, Mich., and the indirect acquisition of Bank's shares by Twin Gates Corp., Wilmington, Del., because of its ownership of 22.48 percent of the voting shares of Northern States Financial Corp.

As required by the Act, notice of the proposed merger, in form approved by the Board, has been published, and the Board has requested reports on competitive factors from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation. The Board has considered all relevant material contained in the record in the light of the factors set forth in the Act.

On the basis of the information before the Board, including, in particular, communications from the Commissioner of Banking for the State of Michigan, the Board finds that an emergency situation exists with respect to Bank that, pursuant to the provisions of the Bank Merger Act, requires expeditious action on the application.

The competitive effects likely to fall upon consummation of the proposal have been considered by the Board incident to its recent action approving the applications filed under the Bank Holding Company Act by Northern States Financial Corp. and Twin Gates Corp., above mentioned. These considerations and the Board's conclusions thereon are reflected in the Board's order of November 14, 1972 approving the Bank Holding Company Act applications. On the basis of these same considerations, the Board concludes that the proposed merger transaction should be approved. Further, the Board advises that consummation of the merger proposal should be consummated immediately.

It is hereby ordered, On the basis of the record, that the application be and hereby is approved and that the merger shall not be consummated before the fifth calendar day following the effective date of this order, nor later than 3 months after the date of this Order.

By order of the Board of Governors,[1] effective December 22, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-127 Filed 1-3-73;8:45 am]

FEDERAL NATIONAL BANKSHARES, INC.

Formation of Bank Holding Company

Federal National Bankshares, Inc., Shawnee, Okla., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 98 percent or more of the voting shares of the Federal National Bank & Trust Co., Shawnee, Okla. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than January 22, 1973.

Board of Governors of the Federal Reserve System, December 26, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.73-128 Filed 1-3-73;8:45 am]

K.B.J. ENTERPRISES, INC.

Formation of Bank Holding Company

K.B.J. Enterprises, Inc., Sibley, Iowa, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80 percent or more of the voting shares of Sibley State Bank, Sibley, Iowa. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank to be received not later than January 15, 1973.

Board of Governors of the Federal Reserve System, December 27, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

MANUFACTURERS HANOVER CORP.

Order Approving Acquisition of Bank

Manufacturers Hanover Corp., Dover, Del., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)), to acquire 100 percent of the voting shares (less directors' qualifying shares) of Fidelity Bank of Colonie, Latham, N.Y. (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is the third largest banking organization in New York, controlling two banks with aggregate deposits of $9.2 billion representing 9.4 percent of all deposits of commercial banks in the State.[1] Acquisition of Bank (deposits of $33.1 million) would constitute applicant's initial entry into the Albany banking market and would not change applicant's ranking among banking organizations in the State.

Bank is the 11th largest of 14 banks in the Albany banking market, controlling 1.4 percent of total deposits in that market.[2] Applicant's nearest subsidiary office to Bank is approximately 140 miles distant. It appears that no meaningful competition exists between Bank and any of applicant's subsidiary banking offices. Further, it seems unlikely that meaningful competition would develop in the future between Bank and applicant in light of the facts presented, notably, the distances separating these banks and the New York statutes prohibiting applicant's subsidiaries from branching into the Albany banking market until 1976. It appears that acquisition of Bank would not have a significant adverse effect on the remaining banks in the relevant market nor foreclose entry by other bank holding companies into that market, as five independent banks would remain as potential members of other bank holding companies. Furthermore, entry by applicant may have a procompetitive effect by enabling Bank to compete more effectively with the two largest banks in the Albany market which control approximately 45 percent of market deposits. Consummation of the proposed acquisition would remove home office protection from the town of Latham and permit new competitors to enter this developing area. On the basis of the record before it, the Board concludes that consummation

[1] All banking data are as of June 30, 1972, except for those relating to the Albany market, which are as of June 30, 1970, and are adjusted to reflect bank holding company formations and acquisitions approved by the Board through Nov. 30, 1972.

[2] The Albany market is approximated by Albany, Rensselaer, and Schenectady Counties and the southern tip of Saratoga County.

[3] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Sheehan, and Bucher. Absent and not voting: Governors Daane and Brimmer.

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, and Sheehan. Absent and not voting: Governor Bucher.

V38-2 JAN 4 73 XUM

of the proposal herein would not have an adverse effect on competition in any relevant area.

The financial condition, managerial resources, and future prospects of applicant and its subsidiary banks appear satisfactory. As a result of the affiliation of applicant with Bank and applicant's commitment to make a significant contribution of additional capital to Bank, Bank's financial and managerial resources and future prospects are regarded as satisfactory. The expected strengthening of Bank's capital position lends weight to approval of the application. Considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that consummation of the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order, or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of New York, pursuant to delegated authority.

By order of the Board of Governors,[1] effective December 27, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

NORTH AMERICAN MORTAGE CORP.

Order Approving Acquisition of Additional Shares in Bank

North American Mortgage Corp., St. Petersburg, Fla., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire an additional 27.1 percent of the voting shares of the American Bank, St. Petersburg, Fla. (American Bank).

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls the American National Bank of Clearwater, Clearwater, Fla. (American National), with deposits of $13.4 million, representing approximately 0.1 percent of total commercial deposits in the State.[2] Applicants recently obtained Board approval to acquire 23.9 percent of the voting shares of the American Bank, St. Petersburg, Fla. (American Bank) a proposed new bank (1972 Federal Reserve Bulletin 727). Acquisition of an additional 27.1 percent of the voting shares of American Bank from applicant's chairman will result in applicant's having a 51 percent majority interest in bank, and will not adversely affect competition in the relevant area nor significantly increase applicant's share of total deposits in the relevant area or within the State.

Applicant proposes to pay the same price for the additional 27.1 percent of the voting shares of American Bank as the subscription price paid for its original shares; an equal offer has been made to acquire all of the remaining outstanding shares of American Bank. Thus, the Board concludes that the transaction would not be detrimental to the minority stockholders of American Bank.

The financial and managerial resources and future prospects of applicant, American National, and American Bank are generally satisfactory and consistent with approval of the application. Considerations relating to the convenience and needs of the communities to be served are also consistent with approval of the application. The Board finds that the proposed application is in the public interest and should be approved.

Applicant is engaged in certain nonbanking activities, involving mortgage banking and operation of a general insurance agency, while its chairman and principal stockholder owns and operates a savings and loan association (Guaranty Federal Savings & Loan Association, St. Petersburg). Mortgage banking and insurance agency activities fall within the proviso in section 4(a)(2) of the Bank Holding Company Act, as amended, the so-called "grandfather" provision under which the Board may terminate such "grandfather" privileges if, having due regard to the purposes of the Act, the Board determines that such action is necessary to prevent undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices. Accordingly, the Board has reviewed the activities of applicant for the purpose of determining whether the combination of banking and nonbanking interests in applicant's holding company system would be likely to have an adverse effect on the public interest. Notice of the Board's proposed review of the "grandfather" privileges of North American Mortgage Corp. (North American), and an opportunity for interested persons to submit comments and views or request a hearing was given (37 FR 21382). The time for filing comments, views and requests has expired, and none have been received.

Applicant is engaged in business only in Florida with its principal activities conducted in the "Tampa Bay" area. North American is engaged in the origination of mortgage loans of one to four family residential homes, over 99 percent of which are of the VA-FHA category. Guaranty Federal Savings & Loan Association is also engaged in the origination of residential loans, specializing in conventional loans. Combined, North American and Guaranty Federal originated but 2.2 percent of total mortgage originations in St. Petersburg in 1971. Thus, the two organizations would appear to have a negligible effect on competition for residential mortgages in the St. Petersburg area. Moreover, it is estimated that applicant writes about 1 percent of the total premium volume of insurance in the St. Petersburg area, where its insurance agency operations are conducted. It appears that the volume, scope, and nature of the activities of applicant and its subsidiaries do not indicate an undue concentration of resources nor is there any evidence before the Board of decreased or unfair competition, conflicts of interests, or unsound banking practices.

There appears to be no reason to require applicant to cease engaging in the activities it engages in directly, nor to require applicant to terminate its interests in its subsidiaries. However, this determination is not authority to enter into any activity applicant was not engaged in on June 30, 1968, and continuously thereafter, or any activity that is not the subject of this determination. It is the Board's judgment that at this time termination of the "grandfather" privileges of applicant is not necessary in order to prevent an undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices. A significant alteration in the nature or extension of applicant's activities, or a change in location thereof (significantly different from any described in this determination), will be cause for a reevaluation by the Board of applicant's activities under the provisions of section 4(a)(2) of the Act, whenever the alteration or change is such that the Board finds that a termination of the grandfather privileges is necessary to prevent an undue concentration of resources or any of the other evils designated in the Act. No merger or acquisition of assets, other than in the ordinary course of business, nor acquisition of any interest in a going concern to which the applicant or any nonbank subsidiary thereof is a party, may be consummated without prior approval of the Board. Further, the provision of any credit, property, or service by the applicant or any subsidiary thereof shall not be subject to any condition which if imposed by a bank, would constitute an unlawful tie-in arrangement under section 106 of the Bank Holding Company Act Amendments of 1970.

The determination herein does not preclude a later review by the Board of applicant's nonbanking activities, and a future determination by the Board in favor of termination of "grandfather" benefits of applicant. This determination is subject to the Board's authority to require modification or termination of the activities of applicant or any of its nonbanking subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasions thereof.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated: (a) Before the 30th calendar day following the effective date of this order, or (b) later than 3 months after the effective date of this order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] effective December 22, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

TRANS-EAST AIR, INC.

Order Suspending Trading

DECEMBER 22, 1972.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, $0.50 par value, and all other securities of Trans-East Air, Inc., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from December 26, 1972, through January 4, 1973.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

SELECTIVE SERVICE SYSTEM

REGISTRANTS PROCESSING MANUAL

Armed Forces Examinations; Determination of Acceptability for Military Service

The Registrants Processing Manual is an internal manual of the Selective Service System. The following portions of that manual are considered to be of sufficient interest to warrant publication in the FEDERAL REGISTER. Therefore these materials are set forth in full as follows:

[Temporary Instruction 628-6]

ISSUED: December 29, 1972

SUBJECT: Armed Forces Examinations

1. Armed Forces Examinations for January 1973 and later months will, until further notice, be limited to, (a) registrants who will enter the Extended Priority Selection Group from the 1972 First Priority Selection Group (RSN 001-095) and, (b) any registrants who request examination in accordance with Paragraph 2 of § 628.3 of the RPM.

2. Except for (b) above, registrants born in 1953 will not be scheduled for examination or reexamination during January 1973 or later months. Any registrant born in 1953 who has been scheduled for Armed Forces examination in January 1973 or later months shall have his order to report for Armed Forces examination canceled.

3. Registrants born in 1953 shall not be ordered for Armed Forces examination in January 1973 or later months even though their Reexamination Believed Justified (RBJ) period has expired or will expire.

4. Registrants born in 1953 who are presently in an Acceptability Undetermined (AU) status shall have their orders to report for examination canceled.

5. Processing of medical consultations, "Papers Only" reviews and Registrant Medical Reevaluation and Reviews (RMR) for registrants born in 1953 will be terminated immediately and registrants will be advised that further processing is to be held in abeyance.

6. Any registrant born in 1953 who is overseas and is presently under an order to report for Armed Forces examination and whose examination has not been accomplished, shall have his order to report for examination canceled.

Temporary Instruction No. 628-5 is hereby rescinded.

This temporary instruction will terminate on June 30, 1973, unless sooner rescinded.

[Temporary Instruction 628-7]

ISSUED: December 29, 1972.

SUBJECT: Determination of Acceptability for Military Service.

Proposed regulations published in the FEDERAL REGISTER on November 25, 1972, which will become effective 11:59 p.m., e.s.t., December 31, 1972, will relieve the Selective Service System of the responsibility for making determinations of the medical acceptability of registrants.

Effective January 1, 1973, the provisions of section 628.2 of the Registrants Processing Manual (RPM) pertaining to the use of local board medical advisor in making a determination of a registrant's obviously disqualifying condition or defect will be discontinued. The determination of an obviously disqualifying condition or defect will be made only by the Armed Forces Examining and Entrance Station (AFEES) on the basis of medical documentation or statements submitted by the local board.

Effective January 1, 1973, the "Papers Only" evaluation by the AFEES as covered in section 628.13 and the Registrant Medical Reevaluation and Review (RMR) as covered in section 628.14 of the RPM will be discontinued.

This temporary instruction will terminate upon receipt of the next revision to Chapter 628 of the RPM.

BYRON V. PEPITONE,
Acting Director.

DECEMBER 29, 1972.

TARIFF COMMISSION

[AA1921-109]

KANEKALON WIGS FROM HONG KONG

Determination of No Injury or Likelihood Thereof

DECEMBER 29, 1972.

The Treasury Department advised the Tariff Commission on September 29, 1972, that Kanekalon wigs from Hong Kong are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. In accordance with the requirements of section 201(a) of the Antidumping Act (19 U.S.C. 160(a)), the Tariff Commission instituted investigation No. AA1921-109 to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

A public hearing was held on November 17, 1972. Notice of the investigation and hearing was published in the FEDERAL REGISTER of November 1, 1972 (37 FR 23299).

In arriving at a determination in this case, the Commission gave due consideration to all written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

On the basis of its investigation, the Commission has unanimously determined[1] that an industry in the United States is not being or is not likely to be injured, or is not prevented from being established, by reason of the importation of Kanekalon wigs from Hong Kong sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

STATEMENT OF REASONS[2]

Nearly all wigs sold in the United States are made from modacrylic fibers or human hair, or a combination of such materials. The wigs from Hong Kong sold at less than fair value (LTFV) are made of Kanekalon—a trade name for a modacrylic fiber manufactured in Japan. None of the U.S. producers use Kanekalon, but they make wigs of Dynel and Elura (modacrylic fibers produced in the United States). Wigs of Dynel and Elura are also imported into the United States, but none have been found to have been sold at less than fair value.

The imported Kanekalon wigs from Hong Kong are marketed in the United States by different techniques, are sold in markedly different price ranges, and generally supply a different sector of the U.S. market than domestic wigs.

Kanekalon wigs from Hong Kong are "prestyled" by the manufacturers and

[1] Commissioner Leonard did not participate in the decision.

[2] Commissioner Ablondi concurs in the result.

V38-2 JAN 4 73 XUM

are generally sold to the consumer with no additional styling or customizing at the point of sale. They are sold chiefly through specialty shops catering to the mass market, the "budget" departments of department stores, discount houses, and mail order shops. Such market outlets are supplied almost wholly by imported wigs, and the very great bulk of imported wigs are sold through such markets. In contrast, wigs produced in the United States are usually made so as to be styled or customized at the point of retail sale to meet the needs of the individual buyer. They are generally sold directly to the consumer by the manufacturer or through salons and department stores selling more expensive types of merchandise; their sale requires the services of personnel specially trained in hair styling.

As would be expected, the wigs made in Hong Kong and those made in the United States are sold at widely different price ranges. In 1971–72, nearly all the wigs imported from Hong Kong retailed in the U.S. market at prices ranging from $10 to $25 each. Wigs produced in volume by domestic manufacturers retailed at prices ranging from $50 to $150; the remainder of the domestically produced articles were more expensive, some retailing for more than $2,000 each. Thus, the Hong Kong wigs of Kanekalon compete only indirectly with articles of domestic manufacture.

Although most of the Kanekalon wigs from Hong Kong were found by the Treasury to have been sold at less than fair value, the margin by which those LTFV wigs were sold below fair value could have contributed only a small part of the difference in retail prices between the Hong Kong and domestically produced articles. As is evident from price data given in the preceding paragraph, the wigs imported from Hong Kong generally were sold at retail in the U.S. market at prices ranging from $25 to $40 below the lowest priced domestic wigs. The amount of the LTFV margin represented only a very small fraction of the price differences, and could not have contributed to any significant degree to the amount the Kanekalon wigs imported from Hong Kong undersold the domestic articles.

On the basis of the foregoing, we conclude that a domestic industry is not being, or is not likely to be, injured by reason of imports of Kanekalon wigs from Hong Kong sold at less than fair value.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

[FR Doc.73–11 Filed 1–3–73;8:45 am]

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNERS AND STUDENT WORKERS

Certificates Authorizing Employment At Special Minimum Wages

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.) and Administrative Order No. 621 (36 FR 12819) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. For each certificate, the effective and expiration dates, number or proportion of learners and the principal product manufactured by the establishment are as indicated. Conditions on occupations, wage rates, and learning periods which are provided in certificates issued under the supplemental industry regulations cited in the captions below are as established in those regulations; such conditions in certificates not issued under the supplemental industry regulations are as listed:

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.20 to 522.25, as amended).

The following normal labor turnover certificates authorize 10 percent of the total number of factory production workers except as otherwise indicated.

Aalfs Mfg. Co., Sheldon, Iowa; 10–1–72 to 9–30–73; 10 learners (boys' jeans).

Alexandria Industrial Garment Mfg. Co., Alexandria, Tenn.; 10–8–72 to 10–7–73 (men's shirts).

Auburntown Industries, Auburntown, Tenn.; 10–31–72 to 10–30–73 (men's and boys' shirts).

Bob Evans of Kentucky, Inc., Burkesville, Ky.; 10–23–72 to 10–22–73 (nurses' and waitresses' uniforms).

Boonville Mfg. Corp., Boonville, Ind.; 11–1–72 to 10–31–73 (men's woven pajamas and shirts).

Brundidge Shirt Corp., Brundidge, Ala.; 9–26–72 to 9–25–73 (men's shirts).

Carolina Lingerie Co., Inc., Mocksville, N.C.; 10–19–72 to 10–18–73 (men's shirts).

Carthage Shirt Corp., Carthage, Tenn.; 11–3–72 to 11–2–73 (men's shirts and ladies' blouses).

Dunbrooke Sportswear Co., El Dorado Springs, Mo.; 10–1–72 to 9–30–73 (men's sport shirts).

Eatonton Mfg. Co., Inc., Eatonton, Ga.; 10–29–72 to 10–28–73 (men's trousers).

Elder Mfg. Co., Webb City, Pa.; 10–31–72 to 10–30–73 (men's, boys', and juveniles' shirts).

Freeland Shirt Co., Inc., Freeland, Pa.; 11–4–72 to 11–3–73 (men's, women's, and children's jackets).

Greenway Mfg. Co., Waynesburg, Pa.; 10–30–72 to 10–29–73 (boys', infants', and children's shirts).

Gross Galesbury Co., Charlton, Iowa; 10–19–72 to 10–18–73 (men's snowmobile suits and jackets).

Howard Industries, Dunlap, Tenn.; 10–23–72 to 10–22–73 (women's and girls' blouses).

Irene Sportswear Co., Inc., Nicholson, Pa.; 10–30–72 to 10–29–73; 10 learners (ladies' blouses).

Kenrose Mfg. Co., Inc., Roanoke, Va.; 11–15–72 to 11–14–73 (women's dresses).

Kenrose Pilot Plant, Saltville, Va.; 9–23–72 to 9–22–73 (women's dresses).

Murcel Mfg. Corp., Glennville, Ga.; 11–2–72 to 11–1–73 (nurses' and maids' uniforms and shirts).

Oshkosh B'Gosh, Inc., Celina, Tenn.; 10–8–72 to 10–7–73 (men's pants and shirts).

Pella Mfg. Corp., Pella, Iowa; 10–4–72 to 10–13–73; 10 learners (men's coveralls, overalls, and work shirts).

Publix Shirt Corp., Myerstown, Pa.; 10–25–72 to 10–24–73 (men's and boys' shirts).

Rappahannock Sportswear Co., Inc., Fredericksburg, Va.; 10–16–72 to 10–15–73 (men's trousers).

Rector Sportswear Corp., Rector, Ark.; 10–28–72 to 10–27–73 (men's plants).

Red Hill Apparel Co., Red Hill, Pa.; 10–15–72 to 10–14–73 (children's dresses).

Reidbord Brothers Co., Philippi, W. Va.; 9–22–72 to 9–21–73; 10 learners (men's work pants).

Ronco Mfg. Co., Ronco, Pa.; 10–30–72 to 10–29–73; 10 learners (children's coats).

J. H. Rutter Rex Mfg. Co., Inc., New Orleans, La.; 10–11–72 to 10–10–73 (men's and boys' work pants and shirts).

Salant & Salant, Lexington, Tenn.; 11–8–72 to 11–7–73 (men's and boys' pants).

Salant & Salant, Paris, Tenn.; 11–9–72 to 11–8–73 (men's and boys' shirts).

Sampson Sewing Co., Clinton, N.C.; 10–18–72 to 10–17–73 (children's car coats, jackets, jumpsuits, and boys' pants).

Shane Uniform Co., Inc., Evansville, Ind.; 11–6–72 to 11–5–73 (men's and women's service apparel).

The Solomon Co., Collinsville, Ala.; 10–5–72 to 10–4–73; 10 learners (men's slacks).

Stapleton Garment Co., Inc., Stapleton, Ga.; 9–23–72 to 9–22–73 (men's and boys' pants).

W. E. Stephens Mfg. Co., Inc., Carthage, Tenn.; 11–8–72 to 11–7–73; 10 learners (men's, boys', ladies', and girls' jeans).

Sullcraft Mfg. Co., Inc., Dushore, Pa.; 10–4–72 to 10–3–73; 9 learners (men's and boys' pajamas).

Tick Tock Frocks, Inc., Fall River, Mass.; 10–4–72 to 10–3–73; 5 learners (ladies' dresses).

Toll Gate Garment Co., Inc., Hamilton, Ala.; 10–1–72 to 9–30–73; 5 percent of the total number of factory production workers (men's shirts).

Tracy City Mfg. Co., Tracy City, Tenn.; 10–17–72 to 10–16–73 (men's and boys' shirts).

The Van Wert Mfg. Co., Van Wert, Ohio; 9–25–72 to 9–24–73; 10 learners (men's and women's work jackets).

Warner's, London, Ky.; 10–25–72 to 10–24–73 (women's brassieres and girdles).

Wentworth Mfg. Co., Florence, S.C.; 11–1–72 to 10–31–73 (women's dresses).

Wilcox Garment Co., Inc., Rochelle, Ga.; 9–26–72 to 9–25–73 (men's and boys' shirts).

The following plant expansion certificates were issued authorizing the number of learners indicated.

Arizona Slack Corp., Yuma, Ariz.; 9–25–72 to 3–24–73; 15 learners (men's slacks).

Dunbrooke Sportswear Co., Greenfield, Mo.; 10–30–72 to 4–29–73; 50 learners (men's outerwear jackets).

The Smockery, Inc., Charleston, S.C.; 10–2–72 to 4–1–73; 8 learners (children's dresses).

Cigar Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.80 to 522.85, as amended).

Universal Cigar Corp., Clearwater, Fla.; 9–24–72 to 9–23–73; 10 percent of the total number of factory production workers for normal labor turnover purposes (machine-made cigars).

Glove Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.60 to 522.65, as amended).

Burnham-Edina Mfg. Co., Edina, Mo.; 10–4–72 to 10–3–73; 5 learners for normal labor turnover purposes (leather palm work gloves).

Good Luck Glove Co., Rosiclare, Ill.; 11–8–72 to 11–7–73; 10 learners for normal labor turnover purposes (work gloves).

Monte Glove Co., Maben, Mass.; 10–20–72 to 10–19–73; 10 learners for normal labor turnover purposes (work gloves).

St. Johnsbury Glovers, St. Johnsbury, Vt.; 10–4–72 to 10–3–73; 10 learners for normal labor turnover purposes (ladies' knit and leather gloves and men's gloves).

Hosiery Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.40 to 522.43, as amended).

Amos Hosiery Mills, Inc., High Point, N.C.; 10–12–72 to 10–11–73; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's, boys', and misses' hosiery and anklets).

Excel Hosiery Mills, Inc., Union, S.C.; 9–27–72 to 9–26–73; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' hosiery).

V. I. Prewett & Son, Inc., Fort Payne, Ala.; 10–24–72 to 10–23–73; 5 percent of the total number of factory production workers for normal labor turnover purposes (infants' and children's hosiery).

Knitted Wear Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.30 to 522.35, as amended).

Barad & Co., Salem, Mo.; 9–28–72 to 9–27–73; 5 percent of the total number of factory production workers for normal labor turnover purposes (ladies' sleepwear).

Benham Corp., Scottsboro, Ala.; 10–8–72 to 10–7–73; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' underwear).

Boonville Mfg. Corp., Boonville, Ind.; 11–1–72 to 10–31–73; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's woven underwear).

Dothan Mfg. Co., Dothan, Ala.; 9–30–72 to 9–29–73; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's pajamas and shorts).

Isaacson-Carrico Mfg. Co., El Campo, Tex.; 9–11–72 to 9–20–73; 5 learners for normal labor turnover purposes (girls' underwear and sleepwear).

Junior Form Lingerie Corp., Boswell, Pa.; 9–23–72 to 9–22–73; 5 percent of the total number of factory production workers for normal labor turnover purposes (ladies' underwear, petticoats, gowns, and pajamas).

Russell Mills, Inc., Alexander City, Ala.; 10–1–72 to 9–30–73; 5 percent of the total number of factory production workers for normal labor turnover purposes (knit underwear, sweatshirts, and athletic wear).

The following learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, learner rates, occupations, learning periods, and the number of learners authorized to be employed, are indicated.

Bayuk Caribe, Inc., Ciales, P.R.; 10–4–72 to 10–3–73; 13 learners for normal labor turnover purposes in the occupation of cigarmaking and packing, each for a learning period of 320 hours at the rates of $1.38 an hour for the first 160 hours and $1.42 an hour for the remaining 160 hours (cigars).

J. R. N. Mfg. Corp., Inc., Rio Grande, P.R.; 10–19–72 to 10–18–73; 10 learners for normal labor turnover purposes in the occupations of sewing machine operating and final pressing, each for a learning period of 320 hours at the rate of $1.14 an hour (men's and boys' pajamas).

Meyers & Son Mfg. Co. of P.R., Inc., Cidra, P.R.; 10–4–72 to 10–3–73; 10 learners for normal labor turnover purposes in the occupation of sewing machine operating, for a learning period of 320 hours at the rate of $1.24 an hour (coveralls).

Phillip Mfg. Corp., Rio Grande, P.R.; 10–19–72 to 10–18–73; 24 learners for normal labor turnover purposes in the occupations of sewing machine operating and machine pressing, each for a learning period of 320 hours at the rate of $1.14 an hour (men's and boys' shorts).

The following student-worker certificate was issued pursuant to the regulations applicable to the employment of student-workers (29 CFR 527.1 to 527.9). The effective and expiration date, occupations, wage rates, number of student-workers, and learning periods for the certificate issued under Part 527 are as indicated below.

Union Springs Academy, Union Springs, N.Y.; 10–16–72 to 8–31–73; authorizing the employment of 13 student-workers in the broom manufacturing industry in the occupations of broom maker, sorter, winder, stitcher, and related skilled and semiskilled occupations, for a learning period of 360 hours at the rate of $1.40 an hour.

The student-worker certificate was issued upon the applicant's representations and supporting materials fulfilling the statutory requirements for the issuance of such certificates, as interpreted and applied by Part 527.

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within 15 days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in 29 CFR Part 528.

Signed at Washington, D.C. this 22d day of December 1972.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

[Notice 39]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

DECEMBER 29, 1972.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(d)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(d)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(d)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC-29130 (Deviation No. 12), THE ROCK ISLAND MOTOR TRANSIT COMPANY, Post Office Box 1355, Des Moines, IA 50305, filed December 21, 1972. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Lincoln, Nebr., over Interstate Highway 80 to junction U.S. Highway 81, at or near York, Nebr., thence over U.S. Highway 81 to junction U.S. Highway 136, at or near Hebron, Nebr., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Omaha, Nebr., over U.S. Highway 6 to Lincoln, Nebr., thence over U.S. Highway 77 to Beatrice, Nebr., (2) from Horton, Kans., over unnumbered highways via Mercier and Powhattan, Kans., to junction U.S. Highway 36, thence over U.S. Highway 36 to junction unnumbered highway about 2 miles west of Fairview, Kans., thence over unnumbered highway to Sabetha, Kans., thence over U.S. Highway 75 to junction unnumbered highway, thence over unnumbered highway via Berwick, Kans., to Bern, Kans., thence over unnumbered highway to junction Kansas Highway 63, thence over Kansas Highway 63 to the Kansas-Nebraska State line, thence over Nebraska Highway 50 to junction Nebraska Highway 65, thence over Nebraska Highway 65 to junction Nebraska Highway 4, thence over Nebraska Highway 4 to junction Nebraska Highway 3, thence over Nebraska Highway 3 to junction U.S. Highway 136, thence over U.S. Highway 136 to Fairbury, Nebr., and (3) from Fairbury, Nebr., over U.S. Highway 136 to Hebron, Nebr., thence over U.S. Highway 81 to Belleville, Kans., thence over U.S. Highway 36 to Smith Center, Kans., and return over the same routes.

No. MC-116004 (Deviation No. 11), TEXAS-OKLAHOMA EXPRESS, INC., 2515 Irving Boulevard, Dallas, TX 75221, filed December 20, 1972. Carrier's representative: Clayte Binion, 1108 Continental Life Building, Fort Worth, Tex. 76102. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Kansas City, Kans.-Mo., over U.S. Highway 71 to junction U.S. Highway 66, thence over U.S. Highway 66 to Riverton, Kans., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: from Kansas City, Kans.-Mo., over U.S. Highway 69 to Crestline, Kans., thence over Kansas Highway 26 to Riverton, Kans., and return over the same route.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[FR Doc.73-189 Filed 1-3-73;8:45 am]

[Notice 107]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

DECEMBER 29, 1972.

The following publications[1] are governed by the new special rule 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications *as filed* by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

[1] Except as otherwise specifically noted, each applicant (on applications filed after Mar. 27, 1972) states that there will be no significant effect on the quality on the human environment resulting from approval of its application.

No. MC 111103 (Sub-No. 37) (Republication) filed July 12, 1971, published in the FEDERAL REGISTER issue of September 10, 1971, and republished this issue. Applicant: PROTECTIVE MOTOR SERVICE COMPANY, INC., 725-29 South Broad Street, Philadelphia, PA 19147. Applicant's representatives: John M. Delany, 2 Nevada Drive, Lake Success, NY and Russell S. Bernhard, 1625 K Street NW., Washington, DC 20006. A supplemental order of the Commission, Operating Rights Board, dated June 7, 1972, and served July 6, 1972, finds (1) that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of coins between Culpeper, Va., on the one hand, and, on the other, Atlanta, Ga., Baltimore, Md., Birmingham, Ala., Boston, Mass., Buffalo, N.Y., Charlotte, N.C., Chicago, Ill., Cincinnati and Cleveland, Ohio, Dallas, Tex., Denver, Colo., Detroit, Mich., El Paso, Tex., Helena, Mont., Houston, Tex., Jacksonville, Fla., Kansas City, Mo., Little Rock, Ark., Los Angeles, Calif., Louisville, Ky., Memphis, Tenn., Miami, Fla., Minneapolis, Minn., Nashville, Tenn., New Orleans, La., New York, N.Y., Oklahoma City, Okla., Omaha, Nebr., Philadelphia and Pittsburgh, Pa., Portland, Oreg., Richmond, Va., St. Louis, Mo., Salt Lake City, Utah, San Antonio, Tex., San Francisco, Calif., Seattle, Wash., and Washington, D.C., under a continuing contract with General Services Administration, Washington, D.C., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; and (2) that the holding by applicant of the permit authorized to be issued in this proceeding, and the holding of applicant's commonly controlled affiliates in certificates Nos. MC-129742, MC-124688, MC-134213, and MC-135320 and subs thereunder, will be consistent with the public interest and the national transportation policy. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

NOTICES OF FILING OF PETITION

No. MC 30837 (Notice of Filing of Petition for Modification of Certificate), filed December 18, 1972. Petitioner: KENOSHA AUTO TRANSPORT CORPORATION, 4200 39th Avenue, Kenosha, WI 53140. Petitioner's representative: Paul F. Sullivan, 711 Washington Building, Washington, D.C. 20005. Petitioner states it files the instant petition for modification of a portion of its base certificate. As herein pertinent the portion of said base certificate presently reads as follows: "Motor vehicles (other than automobiles and trailers) and chassis, in secondary movements, in driveaway service, between points in the United States (except Alaska and Hawaii). Restriction: The service authorized immediately above is restricted to the transportation of vehicles which have previously been transported in initial movements from Bridgeport, Conn., Fort Wayne, Ind., and Springfield, Ohio; and parts of or accessories for such vehicles as are described above when transported with vehicles moving under the service described in the two paragraphs next above, between points in the United States (except Alaska and Hawaii)." Petitioner further states that the portion of its said authority to be modified would then read: "Between points in the United States (except Alaska and Hawaii). Restriction: The Service authorized immediately above is restricted to the transportation of vehicles which have previously been transported in initial movements from Bridgeport, Conn., Fort Wayne, Ind., Springfield, Ohio, *and Sioux City, Iowa*, and parts of or accessories for such vehicles as are described above when transported with vehicles moving under the service described in the two paragraphs next above, between points in the United States (except Alaska and Hawaii)." Petitioner further states, in short, the words italized above will be added to the authority concerned, thus enabling petitioner to continue to provide complete transportation service to International Harvester Co. and its dealer organization in connection with motor vehicles, including chassis, which have previously been transported in initial movement from Sioux City, Iowa. Any person desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC-F-11753. Authority sought for purchase by BOWMAN TRANSPORTATION, INC., 1010 Stroud Avenue, Gadsden, AL 35903, of a portion of the operating rights of FALLS CITIES TRANSFER AND STORAGE COMPANY, INCORPORATED, Post Office Box 766, Jeffersonville, IN 47130, and for acquisition by RALPH M. BOWMAN, also of Gadsden, Ala. 35903, of control of such rights through the purchase. Applicants' attorneys: Maurice F. Bishop, 327 Frank Nelson Building, Birmingham, Ala. 35203, and Robert W. Loser, Chamber of Commerce Building, Indianapolis, Ind. 46204. Operating rights sought to be transferred: *General commodities*, excepting among others, household goods, classes A and B explosives, and commodities in bulk, as a *common carrier* over irregular routes, between Louisville, Ky., and points in Kentucky within 10 miles of Louisville, on the one hand, and, on the other, points in Clark and Floyd Counties, Ind., not including Sellersburg, Speed, Memphis, Henryville and Borden, Ind. Vendee is authorized to operate as a *common carrier* in Georgia, South Carolina, North Carolina, Maryland, Alabama, Florida, Tennessee, Illinois, Indiana, Ohio, Mississippi, Arkansas, Kentucky, Louisiana, Virginia, Oklahoma, West Virginia, Michigan, Missouri, Texas, Delaware, New York, Connecticut, New Jersey, Iowa, Kansas, Maine, Massachusetts, Minnesota, Nebraska, New Hampshire, North Dakota, Pennsylvania, Rhode Island, South Dakota, Vermont, Wisconsin, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-11754. Authority sought for purchase by TRYON MOVING AND STORAGE, INC., Post Office Box 2370, Sanford, NC 27330, of a portion of the operating rights of RABON TRANSFER, INC., Route 2, Box 235, Chadbourn, NC 28431, and for acquisition by GEORGE V. McOTTER, also of Sanford, N.C. 27330, of control of such rights through the purchase. Applicants' attorney: Ralph McDonald, Post Office Box 2246, Raleigh, NC 27602. Operating rights sought to be transferred: *Household goods*, as a *common carrier* over irregular routes, between Whiteville, N.C., and points in North Carolina within 50 miles of Whiteville, on the one hand, and, on the other, points in Florida, Georgia, South Carolina, Maryland, Pennsylvania, and the District of Columbia. Vendee is authorized to operate as a *common carrier* in North Carolina and South Carolina. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-11755. Authority sought for purchase by BRIGGS TRANSPORTATION CO., 2360 West County Road C, St. Paul, MN 55113, of the operating rights and property of THEODORE RANZENBERGER, Caledonia, Minn. 55921, and for acquisition by GEORGE E. BRIGGS and MICHAEL P. WARDWELL, both of St. Paul, Minn. 55113, of control of such rights and property through the purchase. Applicants' attorney: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL 60603. Operating rights sought to be transferred: *General commodities*, excepting among others, dangerous explosives, household goods, and commodities in bulk, as a *common carrier* over regular routes, between Spring Grove, Minn., and La Crosse, Wis., serving the intermediate point of Caledonia, Minn.,

V 38 2 JAN 4 73 XUM

restricted to traffic moving to or from La Crosse, Wis., between Caledonia and Eitzen, Minn. Vendee is authorized to operate as a *common carrier* in Minnesota, Illinois, Wisconsin, Iowa, Nebraska, Indiana, and Missouri. Application has not been filed for temporary authority under section 210a(b).

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[FR Doc.73-188 Filed 1-3-73;8:45 am]

[Notice 108]

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS

DECEMBER 29, 1972.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by special rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall met the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing: (1) That it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 6078 (Sub-No. 71), filed December 11, 1972. Applicant: D. F. BAST, INC., 1425 North Maxwell Street, Allentown, PA 18001. Applicant's representative: Bert Collins, 140 Cedar Street, New York, NY 10006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Graphite, foundry facings, coke*, in containers, between Asbury, N.J., and Bethlehem, Pa., on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, and Ohio. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 10914 (Sub-No. 10), filed November 27, 1972. Applicant: THE O'BRIEN & NYE CARTAGE CO., a corporation, 308 Central Viaduct, Cleveland, OH 44115. Applicant's representative: Donald J. O'Connor, 114 Engineers Building, Cleveland, OH 44114. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale grocery and food business houses, and *advertising material* used in connection with advertising groceries and food products in insulated vehicles equipped with mechanical refrigeration, from Toledo, Ohio, to points in Allen, Auglaize, Champaign, Crawford, Darke, Defiance, Delaware, Fulton, Hancock, Hardin, Henry, Logan, Lucas, Marion, Mercer, Miami, Ottawa, Paulding, Putnam, Sandusky, Seneca, Shelby, Union, Van Wert, Williams, Wood, and Wyandot Counties, Ohio, and Hillsdale, Jackson, Lenawee, and Monroe Counties, Mich. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Toledo, Ohio.

No. MC 26396 (Sub-No. 68), filed November 29, 1972. Applicant: POPELKA TRUCKING CO., doing business as, THE WAGGONERS, a corporation, Post Office Box 990, Livingston, MT 59047. Applicant's representative: Jacob P. Billig, 1108 16th Street NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Forest products*, from Laramie, Wyo., to points in North Dakota, South Dakota, Nebraska, Colorado, and Montana. NOTE: Applicant states that the requested authority can be tacked at specified points in Montana with the authority it holds in No. MC 26396 and subs thereunder to serve points in additional western and midwestern States. If a hearing is deemed necessary, applicant requests it be held at Billings, Mont.

No. MC 29910 (Sub-No. 126), filed November 30, 1972. Applicant: ARKANSAS-BEST FREIGHT SYSTEM, INC., 301 South 11th Street, Fort Smith, AR 72901. Applicant's representative: Thomas Harper, Post Office Box 43, Fort Smith, AR 72901. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt and composition roofing materials*, from Shreveport, La., to points in Illinois. NOTE: Applicant states that the requested authority can be tacked possibly at Shreveport, La., with applicant's existing authority under MC 29910. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or New Orleans, La.

No. MC 50069 (Sub-No. 458), filed November 10, 1972. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon (Toledo), OH 43616. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, OH 44114. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foundry facings, liquid mold release products, quenching compounds, and hydraulic fluids*, in bulk, in tank vehicles, from Howell, Mich., to points in Illinois, Indiana, and Ohio, and (2) *cutting oil, rust preventive compounds, soluble oils, metal working petroleum oils, and water based metal working lubricant*, from Howell, Mich., to points in Ohio, Indiana, Illinois, Missouri, Wisconsin, and Kentucky. NOTE: Dual operations and common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states no duplicative authority sought. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 61592 (Sub-No. 296), filed November 27, 1972. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: Donald Smith, 900 Circle Tower Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Bathroom and plumbing fixtures, and parts, attachments and accessories* for bathroom and plumbing fixtures; (2) *plastic products;* (3) *shower stalls;* (4) *china and earthware goods;* and (5) *counter tops;* from the plantsites and warehouse facilities of Peerless Pottery, Inc., at or near Evansville, Ind., and Rockport Sanitary Pottery, at or near Rockport, Ind., to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Mississippi, New Jersey, New York, North Carolina, Nebraska, Oklahoma, Ohio, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Virginia, Wisconsin, and West Virginia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 85465 (Sub-No. 52), filed November 16, 1972. Applicant: WEST NEBRASKA EXPRESS, INC., Post Office Box 952, Scottsbluff, NE 69361. Applicant's representative: Truman A. Stockton, The 1650 Grant Street Building, Denver, Colo. 80203. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except commodities in bulk and commodities requiring special equipment), serving the warehouse site of Western Electric Co., Inc., located at or near Underwood, Iowa, as an off-route point in connection with applicant's regular-route operations via, Omaha, Nebr. NOTE: If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 102817 (Sub-No. 17), filed November 29, 1972. Applicant: PERKINS FURNITURE TRANSPORT, INC., Post Office Box 24335, Indianapolis, IN 46254. Applicant's representative: R. W. Loser, 1009 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture and commercial and institutional furniture, fixtures, and equipment*, between points in Indiana, on the one hand, and, on the other, points in Maine, New Hampshire, Rhode Island, and Vermont. NOTE: Applicant states that tacking is possible at points in Indiana but does not contemplate tacking at this time. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind. or Washington, D.C.

No. MC 102817 (Sub-No. 18), filed November 30, 1972. Applicant: PERKINS FURNITURE TRANSPORT, INC., Post Office Box 24335 (5034 Lafayette Road), Indianapolis, IN 46254. Applicant's representative: R. W. Loser, 1009 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, between Delphi, Ind., on the one hand, and, on the other, points in Mississippi, Alabama, and Louisiana. NOTE: Applicant states that tacking is possible at points in Indiana but does not contemplate tacking at this time. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind.

No. MC 106398 (Sub-No. 631), filed November 20, 1972. Applicant: NATIONAL TRAILER CONVOY, INC., 1925 National Plaza, Tulsa, OK 74151. Applicant's representative Irvin Tull (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers* designed to be drawn by passenger automobiles, in initial movements, from points in Robeson County (except Maxton), N.C., to points in North Carolina, South Carolina, Tennessee, Virginia, and West Virginia. NOTE: Common control and dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Charlotte, N.C.

No. MC 106644 (Sub-No. 146), filed November 13, 1972. Applicant: SUPERIOR TRUCKING COMPANY, INC., Post Office Box 914 (2770 Peyton Road NW.), Atlanta, GA 30301. Applicant's representative: Fred Coffman, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except truck tractors), *tractor parts and attachments thereof*, from the plantsite of the Ford Motor Co. at Romeo, Mich., to points in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia. NOTE: Applicant also holds contract carrier authority under MC 104724 (Sub-No. 13), therefore dual operations and common control may be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no *present* intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 107012 (Sub-No. 164), filed September 7, 1972. Applicant: NORTH AMERICAN VAN LINES, INC., Lincoln Highway East and Meyer Road, Post Office Box 988, Fort Wayne, IN 46801. Applicant's representative: Donald C. Lewis (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New appliances* (uncrated), (1) from Fallsington, Pa., to New Jersey, New York, Pennsylvania, Delaware, Maryland, Connecticut, Rhode Island, Massachusetts, Maine, New Hampshire, Vermont, the District of Columbia, and Virginia; (2) from Atlanta, Ga., to points in Georgia, North Carolina, South Carolina, Florida, Alabama, Tennessee, and Mississippi; (3) from Memphis, Tenn., to points in Mississippi, Louisiana, Arkansas, Missouri, Kansas, Oklahoma, Texas, Arizona, Tennessee, and New Mexico; and (4) from Des Moines, Iowa, to points in Iowa, Wisconsin, Illinois, Kansas, Nebraska, North Dakota, South Dakota, Minnesota, Colorado, Wyoming, and Montana. NOTE: Common control and dual operations may be involved. Applicant states that the requested authority can be tacked with its existing authority, (1) Memphis, Tenn., to points in the United States under MC 107012 (Sheet 13–14); (2) Memphis, Tenn., to points in the United States via Fort Smith, Ark., transporting uncrated refrigerators; (3) Atlanta, Ga., to points in the United States by tacking through Tennessee with MC 107012 (Sub-No. 61), on new kitchen equipment; and (4) Des Moines, Iowa, transporting new appliances, uncrated to points in the United States, via Nebraska in connection with applicant's authority in MC 107012 (Sub-No. 111). If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 107012 (Sub-No. 166), filed November 30, 1972. Applicant: NORTH AMERICAN VAN LINES, INC., Post Office Box 988, Lincoln Highway East and Meyer Road, Fort Wayne, IN 46801. Applicant's representative: Donald C. Lewis (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Kitchen equipment*, from Atlanta, Ga., to points in the United States (except Alaska and Hawaii). NOTE: Common control and dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Washington, D.C.

No. MC 116632 (Sub-No. 15), filed December 4, 1972. Applicant: RALPH E. CURTIS & SON, INC., 123 Mount Hope Avenue, Bangor, ME 04401. Applicant's representative: Frederick T. McGonagle, 36 Main Street, Gorham, ME 04038. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Wooden shingles*, from Van Buren, Maine, to points in New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Delaware, and the District of Columbia; and (2) *lumber and wooden pallets*, from points in Aroostook County (except Houlton, Smyrna Mills, and Marsardis), Maine and points in Penobscot

County (except Sherman Station and Staceyville), Maine, to points in New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Delaware, and the District of Columbia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Portland or Augusta, Maine, or Boston, Mass.

No. MC 117068 (Sub-No. 22), filed November 29, 1972. Applicant: MIDWEST HARVESTORE TRANSPORT, INC., 2118 17th Avenue NW., Rochester, MN 55901. Applicant's representative: Paul F. Sullivan, 711 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials, supplies, and equipment* used or useful in the manufacture of seat cabs from Sioux City, Iowa, and Chicago, Ill., to points in Olmsted and Blue Earth Counties, Minn. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states no duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., or Chicago, Ill.

No. MC 129600 (Sub-No. 9), filed November 20, 1972. Applicant: POLAR TRANSPORT, INC., 27 York Avenue, Randolph, MA 02368. Applicant's representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Oleomargarine, mayonnaise, salad dressing, sandwich spreads, relish spreads, mustard, coleslaw dressing, puddings, and table sauces* (except in bulk), from Atlanta, Ga., to points in Arizona, Arkansas, California, Colorado, Idaho, Kansas, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming, and *pallets, packaging materials, and supplies and materials* used in the manufacture of oleomargarine, mayonnaise, salad dressing, sandwich spreads, relish spreads, mustard, coleslaw dressing, puddings, and table sauces (except in bulk), from the above-described destination points to Atlanta, Ga., under a contract or continuing contract with J. H. Filbert, Inc., of Baltimore, Md. NOTE: If a hearing is deemed necessary, applicant requests it be held at Baltimore, Md., or Washington, D.C.

No. MC 118142 (Sub-No. 49), filed November 29, 1972. Applicant: M. BRUENGER & CO., INC., 6330 North Broadway, Wichita, KS 67219. Applicant's representative: Lester C. Arvin, 814 Century Plaza Building, Wichita, Kans. 67202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such products as are dealt in by wholesale, retail and chain grocery and food business houses*, from the plant and storage facilities of Consolidated American Industries, Inc., at Wichita, Kans., to Denver, Colo.; Chicago and Peoria, Ill.; Fort Wayne and Indianapolis, Ind.; New Orleans, La.; Kansas City and St. Louis, Mo.; Fargo, N. Dak.; Oklahoma City and Tulsa, Okla.; Memphis, Tenn.; Dallas, Fort Worth, and Houston, Tex.; and Milwaukee, Wis. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Wichita, Kans.

No. MC 129600 (Sub-No. 10), filed November 9, 1972. Applicant: POLAR TRANSPORT, INC., 27 York Avenue, Randolph, MA 02368. Applicant's representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs and restaurant supplies*, except in bulk, from Brockton, Quincy, and Watertown, Mass., to points in Virginia, Delaware, and the District of Columbia; (2) *returned and rejected shipments* of the above-described commodities; from the above-named destination points, to the above-named origin points; and (3) *pallets*, between Brockton, Quincy, and Watertown, Mass., and points in Virginia, Delaware, and the District of Columbia. Restriction: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with Howard Johnson Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 134847 (Sub-No. 3) (Amendment), filed February 7, 1971, published in the FEDERAL REGISTER issue of June 10, 1971, and republished this issue. Applicant: BESSETTE TRANSPORT, INC., 505 Provost Street, Iberville, PQ, Canada. Applicant's representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108 and Adrien R. Paquette, 200 Rue St. Jacques, Montreal 126, PQ, Canada. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Bedford slate, slate detergent, and ammoniated stripper and slate detergent*, from ports of entry on the international boundary line between the United States and Canada at or near Champlain, Ogdenburg, and Rouses Point, N.Y., and Highgate Springs and Newport, Vt., to Atlanta, Ga., Baltimore, Md., Pennsacola, Fla., Cincinnati, Ohio, New Orleans, La., Jersey City, N.J., and Boston, Mass.; and (2) *slate*, from Bangor, Pa., East Rutherford, N.J., Grandville and Middle Grandville, N.Y., and Poultney and West Pawlet, Vt, to the international boundary line between the United States and Canada, at or near Champlain, Ogdenburg, and Rouses Point N.Y. and N.Y. and Highgate Springs and Newport, Vt. NOTE: The purpose of this republication is to indicate the additional requests for the authority in (2) above; to show the applicant's new representatives; and to advise interested parties that the hearing assigned January 15, 1973, at Boston, Mass. is postponed to a date to be later determined. Applicant states that the requested authority cannot be tacked with its existing authority.

No. MC 135280 (Sub-No. 8), filed November 27, 1972. Applicant: PEP LINES TRUCKING CO., a corporation, 15120 Third Avenue, Highland Park, MI 48203. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in by mail order and chain retail department stores and in connection therewith, and materials and supplies used in the conduct of such business*, (1) from Frederick, Md. to Loudon, Fauquier, Warren, Clarke, and Frederick Counties, Va.; (2) from Landover, Md. to points in Virginia; (3) from Manassas, Va. to points in Maryland and the District of Columbia; and (4) returned shipments in (1), (2), and (3) above on return, with the operations in (1), (2), (3), and (4) above conducted under a continuing contract, or contracts, with Montgomery Ward & Co., Inc., at Baltimore, Md. NOTE: Applicant holds a motor common carrier certificate in No. MC 120184 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 135874 (Sub-No. 14), filed November 30, 1972. Applicant: LTL PERISHABLES, INC., Box 37468, Millard Station, Omaha, NE 68137. Applicant's representative: Donald L. Stern, 530 Univac Building, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Foodstuffs*, from Ames, Boone and Webster City, Iowa, to points in Nebraska, Illinois, Indiana, Minnesota, South Dakota, North Dakota, and Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr. or Des Moines, Iowa.

No. MC 136434 (Sub-No. 2), filed November 20, 1972. Applicant: PETE'S TRUCKING, INC., Post Office Box 1545, Charleston, WV 25326. Applicant's representative: C. L. Pauley, 616 Montrose Drive, South Charleston, WV 25303. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Beer and empty containers* (a) from Baltimore, Md., to Charleston, W. Va.; and (b) from Winston-Salem, N.C., to Charleston, W. Va.; and (2) *petroleum* in cases and drum lots from Bradford, Pa., to Charleston, W. Va., under contract with Cardinal Distributing, Inc. and Pit-Stop Inc.

No. MC 138176 (Sub-No. 1), filed November 10, 1972. Applicant: MARVIN RENTZ, doing business as: RENTZ FARM SUPPLY, Route 1, Brinson, Ga. 31725. Applicant's representative: Guy H. Postell, Suite 713, 3384 Peachtree Road NE., Atlanta, GA 30326. Authority sought

to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer*, dry, from (1) Americus and Tifton, Ga., and Hartford, Ala., to points in Leon, Gadsden, Jefferson, and Taylor Counties, Fla., and (2) from Bainbridge, Ga., to points in Baker, Union, Columbia, Suwannee, Hamilton, Lafayette, Madison, Taylor, Jefferson, Leon, Wakulla, Gadsden, Liberty, Calhoun, Jackson, Franklin, Gulf, Bay, Washington, Holmes, Walton, Okaloosa, Santa Rosa, and Escambia Counties, Fla. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 138250, filed November 24, 1972. Applicant: ALZIG ENTERPRISES, INC., 115 Parsells Avenue, Rochester, NY 14612. Applicant's representative: Herbert M. Canter, 315 Seitz Building, 201 East Jefferson Street, Syracuse, NY 13202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Carbonated and noncarbonated soft drinks*, in bottles, cans, and stainless steel containers, and *flavoring extract* for soft drinks, from the town of Pittsford, Monroe County, N.Y., to points in New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Pennsylvania, Ohio, and the lower peninsula of Michigan; and (2) *empty bottles, cartons, containers, and pallets* used in the outbound transportation of the above-described commodities, and *raw materials, ingredients, equipment, and supplies* utilized in the manufacture and marketing of soft drinks, from points in Massachusetts, Connecticut, Rhode Island, New Jersey, Pennsylvania, Ohio, and the lower peninsula of Michigan, to the town of Pittsford, Monroe County, N.Y., under a continuing contract, or contracts with Canada Dry Rochester Bottling Co., Inc. NOTE: Applicant states that it intends to make a motion to dismiss this application at time of hearing or on modified procedure on the contention that the service proposed has been performed by the supporting shipper in exempt private transportation by use of vehicles leased by it from the applicant. If a hearing is deemed necessary, applicant requests it be held at Rochester, Syracuse, or Buffalo, N.Y.

No. MC 138251, filed November 22, 1972. Applicant: GEORGE J. BETTENCOURT, doing business as CHELMSFORD FUEL TRANS. CO., 818 Main Street, Tewksbury, MA 01876. Applicant's representative: Joseph A. Kline, 31 Milk Street, Boston, MA 02109. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metals*, from Tewksbury, Mass. to Providence and Cranston, R.I. NOTE: If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

APPLICATION FOR FILING BROKERAGE LICENSE

No. MC 130184, filed December 1, 1972. Applicant: SPLENDID TOURS CORPORATION, 156 East 52d Street, Room 902, New York, NY 10022. Applicant's representative: Morris Honig, 150 Broadway, New York, NY 10038. For a license (BMC-5) to engage in operations as a *broker* at New York, N.Y., in arranging for the transportation, by motor vehicle, in interstate or foreign commerce, of *passengers and their baggage*, in special or charter operations, between points in the United States. NOTE: Applicant states that the requested authority, and the service to be performed thereunder, is exclusively for travel agents in foreign countries.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[Notice 175]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

DECEMBER 27, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 28067 (Sub-No. 15 TA), filed December 14, 1972. Applicant: WILLIAMS MOTOR TRANSFER, INC., South Vine Street, Barre, Vt. 05641. Applicant's representative: John P. Monte, 61 Summer Street, Barre, VT 05641. Supporting shipper: Butterick Fashion Marketing Co., Division of American Can Co., Butterick Canada Ltd. 2900 Beale Avenue, Altoona, PA 16603. Send pro-

[1] Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

V 38 2 JAN 4 73 XUM

tests to: District Supervisor James C. Donaldson, Bureau of Operations, Interstate Commerce Commission, 2111 Federal Building, 1000 Liberty Avenue, Pittsburgh, PA 15222.

No. MC 117184 (Sub-No. 8 TA) (Correction), filed December 5, 1972, published in the FEDERAL REGISTER issue of December 19, 1972, and republished this issue. Applicant: APEX TRUCKING CO., INC., 330 West 42d Street, New York, NY 10036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Business forms*, between the warehouse site of Apex Trucking Co., Inc., at Secaucus, N.J., on the one hand, and, on the other, New York, N.Y., points in Nassau, Suffolk, Westchester, and Rockland Counties, N.Y., and Bergen, Passaic, Essex, Morris, Somerset, Middlesex, Monmouth, Hudson, Union, and Mercer Counties, N.J., for 180 days. Supporting shipper: Moore Business Forms, Inc., Attention: C. W. Dent, Niagara Falls, N.Y. 14302. Send protests to: Stephen P. Tomany, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 1807, New York, N.Y. 10007. NOTE: The purpose of this republication is to name the supporting shipper which was inadvertently omitted in the previous issue.

No. MC 121060 (Sub-No. 24 TA), filed December 18, 1972. Applicant: ARROW TRUCK LINES, INC., Post Office Box 5568, 1220 West Third Street, Birmingham, AL 35207. Applicant's representative: William P. Jackson, 919 18th Street NW., Washington, DC 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Construction materials and supplies* (except commodities in bulk), between points in Alabama, Arkansas, Florida, Georgia, Kentucky, Tennessee, Louisiana, Mississippi, North Carolina, and South Carolina, for 180 days. Supporting shipper: Jim Walter Corp., Post Office Box 22601, Tampa, FL 33622. Send protests to: Clifford W. White, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 814, 2121 Building, Birmingham, Ala. 35203.

No. MC 126246 (Sub-No. 5 TA), filed December 18, 1972. Applicant: AMERICAN TRANSFER AND STORAGE COMPANY, 950 West Mockingbird Lane, Post Office Box 47165, Dallas, TX 75247. Applicant's representative: W. N. McKinney (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in Baxter, Cleburne, Conway, Faulkner, Fulton, Garland, Grant, Hot Springs, Independence, Izard, Jefferson, Lonoke, Marion, Perry, Prairie, Pulaski, Saline, Searcy, Sharp, Stone, Van Buren, and White Counties, Ark., restricted to the transportation of traffic having a prior or subsequent movement, in containers, beyond the points authorized and further restricted to the performance of pickup and delivery service in connection with packing, crating and containerization or unpacking, uncrating and decontainerization of such traffic, for 180 days. Supported by: There are approximately 14 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: District Supervisor E. K. Willis, Jr., Interstate Commerce Commission, Bureau of Operations, 1100 Commerce Street, Room 13C12, Dallas, TX 75202.

No. MC 126305 (Sub-No. 49 TA), filed December 18, 1972. Applicant: BOYD BROTHERS TRANSPORTATION CO., INC. (O. TRACY PARKS, III: TRUSTEE), Route 1, Claton, Ala. 36016. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *comon carrier*, by motor vehicle, over irregular routes, transporting: *Paradichlorobenzene; insecticides*, other than agricultural; and *napthalene*, between the facilities of Standard Chlorine of Delaware, Inc., Delaware City, Del., Standard Chlorine Chemical Co., Inc., Kearny, N.J., and Cartersville, Ga., for 180 days. Supporting shipper: Standard Chlorine Chemical Co., Inc., 1035 Belleville Turnpike, Kearny, NJ 07032. Send protests to: Clifford W. White, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 814, 2121 Building, Birmingham, Ala. 35203. NOTE: The above commodities are restricted against transportation in bulk.

No. MC 128868 (Sub-No. 2 TA), filed December 13, 1972. Applicant: TEXAS CONSTRUCTION SERVICE COMPANY OF AUSTIN, Route 2, Box 78A, Round Rock, TX 78664. Applicant's representative: W. S. Levens (same address as above). Authority suoght to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lime*, in bulk, from Blum, Tex., to Madison Parish, La., for 90 days. Supporting shipper: Round Rock Lime Co., Box 218, Round Rock TX 78664. Send protests to: Richard H. Dawkins, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 301 Broadway, Room 206, San Antonio, TX 78205.

No. MC 135489 (Sub-No. 2 TA), filed December 15, 1972. Applicant: BURLINGTON TRANSPORT SERVICE, INC., 6 Harris Circle, Arlington, MA 02174. Applicant's representative: George C. O'Brien 15 Court Square, Boston, MA 02108. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Tin plate*, in sheets, used in the manufacture of cans, from Trenton, N.J., to Woburn, Mass., for 180 days. Supporting shipper: Lipton Pet Foods, Inc., 209 New Boston Street, Woburn, MA 01801. Send protests to: G. Warren Flynn, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, Analex Building, Fifth Floor, 150 Causeway Street, Boston, MA 02114.

No. MC 136647 (Sub-No. 10 TA), filed December 18, 1972. Applicant: GREEN MOUNTAIN CARRIERS, INC., Post Office Box 1319, Albany, NY 12201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pharmaceutical products* (except in bulk) restricted to the use of vehicles equipped with mechanical temperature control and also restricted to a transportation service to be performed at plantsites, warehouses, or suppliers of Ayerst Laboratories, between Rouses Point, N.Y., on the one hand, and, on the other, Chicago, Ill.; Cleveland, Ohio, and Baltimore, Md., in connection with stop-off privileges to partially load or unload at Little Falls, N.J., Clifton, N.J., Albany, N.Y., and Detroit, Mich., from Rouses Point, N.Y., to Chamblee, Ga., with stop-off privileges to partially load or unload at Little Falls, N.J., Clifton, N.J., Albany, N.Y., and Baltimore, Md., for 180 days. Supporting shipper: Ayerst Laboratories, Division of American Home Products Corp., Rouses Point, N.Y. 12979. Send protests to: Joseph M. Barnini, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 518 Federal Building, Albany, N.Y. 12207.

No. MC 136647 (Sub-No. 11 TA), filed December 18, 1972. Applicant: GREEN MOUNTAIN CARRIERS, INC., Post Office Box 1319, Albany, NY 12201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Beef and pork products*, in vehicles equipped with mechanical refrigeration, from Omaha, Nebr., to the United States-Canada international boundary line at or near Highgate Springs, Vt., on shipments destined to points in the Province of Quebec, Canada, for 180 days. Supporting shipper: Letovaky Bros., Ltd., 6569–81 Papineau Avenue, Montreal, PQ, Canada. Send protests to: Joseph M. Barnini, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 518 Federal Building, Albany, N.Y. 12207.

MOTOR CARRIERS OF PASSENGERS

No. MC 138260 TA, filed December 18, 1972. Applicant: CHARLES WILLIAM TATE, doing business as TATE'S MOTOR COACH, 1618 Oliver Street NW., Washington, DC 20015. Applicant's representative: George Francis Paxton, 1742 N Street NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers, church groups and social clubs*, between Washington, D.C., and points in New York, New Jersey, Pennsylvania, Virginia, Charleston, W. Va., Winston-Salem, Moorehead City, and Goldsboro, N.C., Charleston, S.C., Atlanta, Ga., Miami and Orlando, Fla., for 180 days. Supported by: There are approximately 15 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Robert D. Caldwell, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 12th Street and Constitution Avenue NW., Washington, D.C. 20423.

[No. MC-110420 (Sub-No. 638)]

QUALITY CARRIERS, INC., BRISTOL, WIS.

Application for Certificate of Public Convenience and Necessity

Order. At a session of the Interstate Commerce Commission, Review Board No. 3, held at its office in Washington, D.C., on the 5th day of December 1972.

It appearing, that by application filed July 8, 1971, as amended, Quality Carriers, Inc., of Bristol, Wis., seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of chemicals, in bulk, from points in Maryland (except from the plantsite of the Firestone Tire and Rubber Co. and Firestone Plastic Co. at or near Perryville, Md.), and New Jersey (except from the plantsites of the B. F. Goodrich Chemical Co., a division of B. F. Goodrich Co., at or near Pedricktown, N.J.), to Janesville, Wis.;

It further appearing, that the application has been processed under the Commission's modified procedure; that applicant filed verified statements in support of the application; that protestants Chemical Leaman Tank Lines, Inc., Matlack, Inc., P. B. Mutrie Motor Transportation, Inc., and Coastal Tank Lines, Inc., all motor common carriers, have filed verified statements in opposition to the application; and that no rebuttal statements were filed;

It further appearing, that the evidence submitted in the form of verified statements, including the statement in support of the application by Northern Petrochemical Co., Varney Division, shows that shipper-receiver purchases principally vegetable oil products from suppliers located at Jersey City, Edison, Newark, Graselli, and Boonton, N.J., and Baltimore, Md., and points within the Baltimore commercial zone; that shipper has primarily utilized its own vehicles to move this traffic to Janesville; that applicant's services are used for the transportation of cleaning compounds outbound from Janesville to points in the eastern United States, including points in Maryland and New Jersey, on a weekly basis; and that shipper can coordinate applicant's outbound movements with the involved return movements which would permit shipper to have a coordinated, complete, and economical service;

It further appearing, that Chemical Leaman is authorized to transport liquid chemicals, in bulk, in tank vehicles, from points in New Jersey and Maryland to Janesville by observing a gateway at any point in Allegheny County, Pa.; that Matlack has been authorized to lease the operating rights of T. I. McCormack Trucking Co., Inc., and by combining its authorities with those leased, can transport liquid chemicals (except petroleum and petroleum products), from points in Maryland and New Jersey to Janesville by observing gateways at any point in Pennsylvania within 150 miles of Monongahela, Pa., then either Dover or Painesville, Ohio, then the plant site of B. F. Goodrich Co. at Milan Township, Ind.; that Coastal holds authority to transport (1) petroleum products from Bayonne, Tremley Point, Sewaren, Perth Amboy, and Paulsboro, N.J., and points within 5 miles of each, and Baltimore, Md., to Janesville, by traversing Natrium, W. Va., and Chicago, Ill., and (2) liquid chemicals from points in Maryland and New Jersey to Janesville by observing various gateways; and that Mutrie relies on an interline arrangement with a nonparty carrier to provide the proposed service;

It further appearing, that protestant Mutrie has not shown that the services of the specified nonparty interline carrier are available for movement of the traffic involved; that the services of protestants Chemical Leaman, Matlack, and Coastal involve circuity and the authority granted herein, as modified to conform to the evidence, will provide shipper with a coordinated and balanced transportation service and should not have any serious adverse affect upon protestants; that the public interest will best be served by authorizing the proposed operation; that the evidence submitted in the form of verified statements in support of the application warrants the grant of authority set forth below which has been modified to conform to the need for service as demonstrated by the supporting shipper; and that such evidence establishes that applicant is fit, willing, and able properly to conduct the operation authorized;

And it further appearing, that under certain extractive processes vegetable oil products may not be transported under "chemical" authority and that because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described below, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate request for intervention or other pleading setting forth in detail the precise manner in which it has been prejudiced;

Wherefore, and good cause appearing therefor:

We find, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of vegetable oil products, in bulk, from Jersey City, Edison, Newark, Graselli, and Boonton, N.J., and Baltimore, Md., to Janesville, Wis.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; that following publication in the FEDERAL REGISTER of the authority actually granted, as noted in the last appearing paragraph herein, an appropriate certificate should be granted; that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969; and that the application in all other respects should be denied.

It is ordered, That said application, except to the extent granted herein, be, and it is hereby, denied.

It is further ordered, That upon compliance by applicant with the requirements of sections 215, 217, and 221(c) of the Act and with the Commission's rules and regulations thereunder, within the time specified in the next succeeding paragraph, and subject to prior publication in the FEDERAL REGISTER of a notice of the authority actually granted by this order, a certificate be granted to applicant authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle in the manner described above.

And it is further ordered, That unless compliance is made by applicant with the requirements of sections 215, 217, and 221(c) of the Act within 90 days after the date of service of this order, or within such additional time as may be authorized by the Commission, the grant of authority made herein shall be considered as null and void, and the application shall stand denied in its entirety effective upon the expiration of the said compliance time.

By the Commission, Review Board No. 3.

[SEAL] ROBERT L. OSWALD, *Secretary.*

PORTLAND AIRPORT LIMOUSINE CO.

Petition for a Declaratory Order

DECEMBER 29, 1972.

Petitioner: PORTLAND AIRPORT LIMOUSINE COMPANY, Portland, Maine. Petitioner's representatives: Michael T. Healy, Verrill, Dana, Philbinck, Putnam & Williamson, 57 Exchange Street, Portland, ME 04111.

Petitioner transport passengers with their baggage from Portland International Airport in Portland, Maine, to points in Maine. Upon the request of certain airlines, petitioner transports in emergencies passengers and their baggage in interstate commerce. On occasion, petitioner has received requests from individual passengers to provide transportation in emergency situations from the Portland Airport to points outside of Maine. Petitioner seeks a declara-

V38-2 JAN 4 73 XUM

tory order that the above operations are exempt from the economic regulation of the Interstate Commerce Commission pursuant to sections 203(b)(2) and 203(7)(a) of the Interstate Commerce Act.

Petitioner is hereby directed to explain the types of "emergencies" which give rise to its performance of interstate or foreign transportation and to list specific examples, if possible. Petitioner is also directed to specify the mileages involved in its transportation services, and list destinations which it has served or plans to serve in the future.

No oral hearing is contemplated at this time, but anyone wishing to make representations in favor, or against, the relief sought in the petition may do so by the submission of written data, views, or arguments. An original and 15 copies of such data, views, or arguments shall be filed with the Commission on or before Febraury 21, 1973. A copy of each representation should be served upon petitioner's representative. Written material or suggestions submitted will be available for public inspection at the offices of the Interstate Commerce Commission, 12th and Constitution, Washington, D.C., during regular business hours.

Notice to the general public of the matter herein under consideration will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Office of the Federal Register.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

PART I

(Part II begins on page 933)

NOTICE TO AGENCIES

Agencies preparing documents for publication in the FEDERAL REGISTER are reminded that the revised rules of the Administrative Committee of the Federal Register are in effect as of January 3, 1973. (1 CFR Chapter I, 37 F.R. 23602, November 4, 1972.)

These revised rules include the following significant changes:

1. Requirement for a preamble in each proposed rule making and final rule making document that describes the contents of the document in a manner sufficient to apprise a reader who is not an expert in the subject area of the general subject matter of the document.

2. Requirement for setting forth specific effective dates and action dates.

3. Change in publication dates of the daily FEDERAL REGISTER (Monday through Friday instead of Tuesday through Saturday). See 1 CFR 17.2, 18.12, and 18.17.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

INCOME TAX—
IRS regulations on termination of private foundation status and taxes on investment income of private foundations (2 documents) 860, 868
IRS proposed technical amendments for domestic international sales corporations (DISC's); comments by 2–5–73 883

EMPLOYMENT TAXES—IRS regulations relating to withholding with respect to part year employment 866

VETERANS' BENEFITS—VA determines Survivor Benefit Plan annuities to be income, establishes single standard for waiver of recovery of overpayment, an redefines "child," "wife," and "widow" (3 documents) 871, 872

COSMETICS—FDA restricts use of mercury as a component 853

Title 7—AGRICULTURE

Chapter III—Animal and Plant Health Inspection Service, Department of Agriculture

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Gypsy Moth and Browntail Moth

REGULATED AREAS

Pursuant to the provisions of sections 8 and 9 of the Plant Quarantine Act of August 20, 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), and § 301.45–2 of the Gypsy Moth and Browntail Moth Quarantine regulations, 7 CFR 301.45–2, as amended, a supplemental regulation designating regulated areas, 7 CFR 301.45–2a *Regulated areas; suppressive and generally infested areas,* is hereby amended to list additional gypsy moth regulated areas in the States of Maryland, New York, and Pennsylvania as set forth below.

A. In § 301.45–2a(a) a description of regulated areas in the State of Maryland is added to read as follows:

MARYLAND

(1) *Generally infested area.*
Harford County. The entire county.
Washington County. That area bounded by a line beginning at a point where U.S. Highway 40A intersects State Highway 66, thence northerly along State Highway 66 to its intersection with State Highway 64, thence west along said Highway to its intersection with the Hagerstown City limits, thence southerly, westerly, and northerly along said city limits to its intersection with U.S. Highway 40, thence west along said Highway to its intersection with Interstate 81, thence southerly along Interstate 81 to its intersection with State Highway 68, thence southerly along State Highway 68 to its intersection with U.S. Highway 40A, thence southerly along U.S. 40A to point of beginning.

(2) *Suppressive Area.* None.

B. In § 301.45–2a(a) relating to the State of New York under generally infested areas, the entire description for that State is changed to read as follows:

NEW YORK

(1) *Generally infested area.*
Albany County. The entire county.
Allegany County. The entire county.
Bronx County. The entire county.
Broome County. The entire county.
Cayuga County. The entire county.
Chemung County. The entire county.
Chenango County. The entire county.
Columbia County. The entire county.
Cortland County. The entire county.
Delaware County. The entire county.
Dutchess County. The entire county.
Essex County. The entire county.
Franklin County. The entire county.
Fulton County. The entire county.
Greene County. The entire county.
Hamilton County. The entire county.
Herkimer County. The entire county.
Jefferson County. The entire county.
Kings County. The entire county.
Lewis County. The entire county.
Livingston County. The entire county.
Madison County. The entire county.
Monroe County. The Towns of Brighton, Henrietta, Irondequoit, Mendon, Penfield, Perinton, Pittsford, Rush, Webster, and Wheatland; and the city of Rochester.
Montgomery County. The entire county.
Nassau County. The entire county.
New York County. The entire county.
Oneida County. The entire county.
Onondaga County. The entire county.
Ontario County. The entire county.
Orange County. The entire county.
Oswego County. The entire county.
Otsego County. The entire county.
Putnam County. The entire county.
Queens County. The entire county.
Rensselaer County. The entire county.
Richmond County. The entire county.
Rockland County. The entire county.
St. Lawrence County. The entire county.
Saratoga County. The entire county.
Schenectady County. The entire county.
Schoharie County. The entire county.
Schuyler County. The entire county.
Seneca County. The entire county.
Steuben County. The entire county.
Suffolk County. The entire county.
Sullivan County. The entire county.
Tioga County. The entire county.
Tompkins County. The entire county.
Ulster County. The entire county.
Warren County. The entire county.
Washington County. The entire county.
Wayne County. The entire county.
Westchester County. The entire county.
Yates County. The entire county.

C. In § 301.45–2a(a) relating to the State of New York under (2) *Suppressive area,* the entire description for that State is changed to read as follows:

NEW YORK

* * * * * *

(2) *Suppressive area.* None

D. In § 301.45–2a(a) relating to the State of Pennsylvania under generally infested areas, the entire description for that State is changed to read as follows:

PENNSYLVANIA

(1) *Generally infested area.*
Adams County. The entire county.
Bedford County. The entire county.
Berks County. The entire county.
Blair County. The entire county.
Bradford County. The entire county.
Bucks County. The entire county.
Cambria County. The entire county.
Cameron County. The entire county.
Carbon County. The entire county.
Centre County. The entire county.
Chester County. The entire county.
Clearfield County. The entire county.
Clinton County. The entire county.
Columbia County. The entire county.
Cumberland County. The entire county.
Dauphin County. The entire county.
Delaware County. The entire county.
Elk County. The entire county.
Franklin County. The entire county.
Fulton County. The entire county.
Huntingdon County. The entire county.
Indiana County. The entire county.
Jefferson County. The entire county.
Juniata County. The entire county.
Lackawanna County. The entire county.
Lancaster County. The entire county.
Lebanon County. The entire county.
Lehigh County. The entire county.
Luzerne County. The entire county.
Lycoming County. The entire county.
McKean County. The entire county.
Mifflin County. The entire county.
Monroe County. The entire county.
Montgomery County. The entire county.
Montour County. The entire county.
Northampton County. The entire county.
Northumberland County. The entire county.
Perry County. The entire county.
Philadelphia County. The entire county.
Pike County. The entire county.
Potter County. The entire county.
Schuylkill County. The entire county.
Snyder County. The entire county.
Somerset County. The entire county.
Sullivan County. The entire county.
Susquehanna County. The entire county.
Tioga County. The entire county.
Union County. The entire county.
Wayne County. The entire county.
Wyoming County. The entire county.
York County. The entire county.

(Secs. 8 and 9, 37 Stat. 318, as amended, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 29 FR 16210 as amended; 37 FR 6327, 6505, and 10554; 37 FR 12298; 7 CFR 301.45–2)

Effective date: January 5, 1973.

The Deputy Administrator of the Plant Protection and Quarantine Programs has determined that infestations of the gypsy moth exist or are likely to exist in the civil divisions and parts of civil divisions listed as regulated areas in paragraph (a), or that it is necessary to regulate such areas because of their proximity to gypsy moth infestations or their inseparability for quarantine enforcement purposes from gypsy moth infested localities.

The Deputy Administrator has further determined that each of the quarantined States, wherein only portions of the State have been designated as regulated areas, is enforcing a quarantine or regulation with restrictions on intrastate movement of the regulated articles substantially the same as the restrictions on interstate movement of such articles imposed by the quarantine and regulations in this subpart, and that designation of less than the entire State as a regulated area will otherwise be adequate to prevent the interstate spread of the gypsy moth. Therefore, such civil divisions and parts of civil divisions listed above in paragraph (a) are designated as gypsy moth regulated areas.

This amendment adds to the gypsy moth regulated areas all or parts of two previously nonregulated counties in Maryland; 15 previously nonregulated counties and six previously regulated counties in the State of New York; and 15

V 38 - 3 JAN 5 73 XUM

previously nonregulated counties in the State of Pennsylvania. There is no change in the browntail moth regulated areas.

This document imposes restrictions that are necessary in order to prevent the dissemination of the gypsy moth and should be made effective promptly to accomplish its purpose in the public interest. Accordingly, it is found upon good cause under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure with respect to the foregoing regulation are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 2d day of January 1973.

LEO G. K. IVERSON,
Deputy Administrator, Plant Protection and Quarantine Programs.

[FR Doc.73-309 Filed 1-4-73;8:45 am]

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 730—RICE

Subpart—1973–74 Marketing Year

PROCLAMATIONS AND DETERMINATIONS WITH RESPECT TO MARKETING QUOTA AND NATIONAL ACREAGE ALLOTMENT FOR 1973 CROP RICE, AND APPORTIONMENT OF 1973 NATIONAL ACREAGE ALLOTMENT OF RICE AMONG THE SEVERAL STATES

The provisions of §§ 730.1501 to 730.1503 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.) (referred to as the "act"), with respect to the 1973 crop of rice. The purpose of these provisions is to (1) proclaim that marketing quotas shall be in effect for the 1973 crop of rice, (2) establish the national acreage allotment for such crop, and (3) apportion the national acreage allotment among the States. The latest available statistics of the Federal Government have been used in making determinations under these provisions.

Notice that the Secretary was preparing to make determinations with respect to these provisions was published in the FEDERAL REGISTER on October 6, 1972 (37 FR 21173) in accordance with the provisions of 5 U.S.C. 553. Data, views and recommendations were submitted pursuant to such notice and consideration was given thereto to the extent permitted by law.

It is essential that these provisions be made effective as soon as possible, since the proclamation of quotas is required to be made not later than December 31, 1972, and a referendum to determine whether rice producers favor or oppose the quotas must be held within 30 days after proclamation of the quotas. Accordingly, it is hereby found and determined that compliance with the 30-day effective date requirement of 5 U.S.C. 553 is impracticable and contrary to the public interest and §§ 730.1501 to 730.1503 shall be effective upon filing this document with the Director, Office of the Federal Register.

§ 730.1501 Marketing quotas for the 1973 crop of rice.

The total supply of rice in the United States for the marketing year beginning August 1, 1972, is determined to be 98 million hundredweight (rough basis). The normal supply of rice for such marketing year is determined to be 97.2 million hundredweight (rough basis). Since the total supply of rice for the 1972–73 marketing year exceeds the normal supply for such marketing year, marketing quotas shall be in effect for the 1973 crop of rice.

§ 730.1502 National acreage allotment of rice for 1973.

(a) The normal supply of rice for the marketing year commencing August 1, 1973, is determined to be 99.4 million hundredweight (rough basis). The carryover of rice on August 1, 1973, is estimated at 8.5 million hundredweight. Therefore, the production of rice needed in 1973 to make available a supply of rice for the 1973–74 marketing year equal to the normal supply for such marketing year is 90.9 million hundredweight. The national average yield of rice for the 5 calendar years 1968 through 1972 is determined to be 4,500 pounds per planted acre. The national acreage allotment of rice for 1973 computed on the basis of the normal supply for 1973, less estimated carryover, and the national average yield per planted acre for the 5 calendar years, 1968 through 1972, is 2,020,107 acres.

(b) Since such amount is more than the minimum national acreage allotment of 1,652,596 acres prescribed under section 353(c)(6) of the act, the national acreage allotment for rice for the calendar year 1973 shall be 2,020,107 acres.

§ 730.1503 Apportionment of 1973 national acreage allotment of rice among the several States.

The national acreage allotment proclaimed in § 730.1502, less a reserve of 747 acres, is hereby apportioned among the several rice producing States as follows:

State	Acres
Arizona	279
Arkansas	487,664
California	366,359
Florida	1,169
Illinois	24
Louisiana:	
Farm Administrative Area	559,816
Producer Administrative Area	20,716
State total	580,532
Mississippi	57,044
Missouri	5,815
North Carolina	47
Oklahoma	183
South Carolina	3,479
Tennessee	633
Texas	516,132
Total Apportioned to States	2,019,360
Unapportioned National Reserve	747
U.S. Total	2,020,107

(Secs. 301, 352, 353, 354, 375, 52 Stat. 38, 60, 61, 66, as amended; 7 U.S.C. 1301, 1352, 1353, 1354, 1375)

Effective date. Date of filing with the Director, Office of the Federal Register.

Signed at Washington, D.C., on December 27, 1972.

EARL L. BUTZ,
Secretary.

[FR Doc.72-22445 Filed 12-29-72;10:23 am]

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER B—SUGAR REQUIREMENTS AND QUOTAS

[Sugar Reg. 811, Amdt. 15]

PART 811—CONTINENTAL SUGAR REQUIREMENTS AND AREA QUOTAS

Requirements, Quotas and Quota Deficits for 1972

Basis and purpose and bases and considerations. This amendment is issued pursuant to the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922, as amended; 7 U.S.C. 1101) hereinafter referred to as the "Act." The purpose of this amendment to Sugar Regulation 811, as amended, is to determine and prorate or allocate the deficits in quotas established pursuant to the Act.

Section 204(a) of the Act provides that the Secretary shall, as often as facts are ascertainable by him but in any event not less frequently than each 60 days after the beginning of each calendar year, determine whether, any area or country will not market the quota for such area or country.

On the basis of information recently available to the Department, three Western Hemisphere countries (Peru, Venezuela, and Guatemala) and one Eastern Hemisphere country (India) will not be able to market their currently established 1972 sugar quotas. Accordingly, additional deficits are determined herein totalling 5,155 short tons, raw value, of sugar, consisting of 4,240 tons for Peru, 461 tons for Venezuela, 219 tons for Guatemala, and 235 tons for India.

The deficits herein determined for the Western Hemisphere countries of 4,920 short tons, raw value, have been prorated to other countries in the Western Hemisphere able to supply additional sugar. The deficit determined for India of 235 tons has been prorated to countries outside the Western Hemisphere

able to supply additional sugar which have quotas currently in effect with the exception of Ireland.

No allocations were made to the Republic of the Philippines since it had previously informed the Department that it would be unable to supply additional sugar in 1972.

On the basis of available information, it appears that the additional quota allocations determined herein can be filled with sugar currently held in bond awaiting quota or with sugar scheduled to arrive into the United States before the end of December.

It is hereby determined that the deficits declared herein and those previously declared constitute all known deficits on which data are currently ascertainable by the Department.

By virtue of the authority vested in the Secretary of Agriculture by the Act, Part 811 of this chapter is hereby amended by amending §§ 811.12 and 811.13 as follows:

1. Section 811.12 is amended by amending paragraph (a) to read as follows:

§ 811.12 Proration and allocation of deficits in quotas.

(a) The total deficits determined in quotas established under section 202 of the Act in short tons, raw value, are as follows: Domestic Beet Sugar Area 242,000; Hawaii 103,600; Puerto Rico 704,000; the West Indies, 3,751; Haiti, 4,721; Bahamas, 23,667; Bolivia, 5,659; and Uganda, 15,252. The deficits for the domestic areas and Western Hemisphere countries totaling 1,087,398 tons are reallocated by allocating 305,741 tons to the Republic of the Philippines (the maximum quantity which it can supply in 1972), providing a special allocation of 21,507, 17,950, and 4,415 tons to Costa Rica, Guatemala, and Honduras, respectively, and prorating the remainder to Western Hemisphere quota countries on the basis of quotas determined under section 202 of the Act, except such prorations to Peru, West Indies, Argentina, Guatemala, Venezuela, Panama, Haiti, Honduras, Bahamas, and Bolivia are limited so that total quotas for each country will not exceed 449,662, 177,288, 87,908, 85,707, 70,210, 41,933, 22,522, 17,495, 61, and 54 tons respectively. The deficit in the quota for Uganda of 15,252 tons is reallocated by allocating 30.08 percent to the Republic of the Philippines and prorating the remainder on the basis of quotas determined under section 202 of the Act to Eastern Hemisphere quota countries, other than Ireland, except such proration to India is limited to that its total quota will not exceed 84,168 tons.

* * * * * * *

2. Section 811.13 is amended by amending paragraph (c) to read as follows:

§ 811.13 Quotas for foreign countries.

* * * * * * *

(c) For the calendar year 1972, the prorations to individual foreign countries other than the Republic of the Philippines, pursuant to section 202 of the Act, are shown in columns (1) and (2) of the following table. Deficits and deficit prorations previously established in this Sugar Regulation 811 are shown in column (3). The deficit prorations established herein are shown in column (4). Total quotas and prorations are shown in column (5).

Countries	Basic quotas	Temporary quotas and prorations pursuant to Sec. 202(d)[1]	Previous deficits and deficit prorations	New deficit prorations	Total quotas and prorations
	(1)	(2)	(3)	(4)	(5)

* * * * * * *

(Secs. 204 and 403; 61 Stat. 925, as amended, and 932; and 7 U.S.C. 1114 and 1153)

Effective date. In order to promote orderly marketing, it is essential that this amendment be effective immediately so that all persons selling and purchasing sugar for consumption in the continental United States can promptly plan and market under the changed marketing opportunities. Therefore, it is hereby determined and found that compliance with the notice, procedure, and effective date requirements of 5 U.S.C. 553 is unnecessary, impracticable and contrary to the public interest and this amendment shall be effective when filed for public inspection in the Office of the Federal Register.

Signed at Washington, D.C., on December 29, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

[FR Doc.72-22458 Filed 12-29-72;4:12 pm]

PART 812—SUGAR REQUIREMENTS AND QUOTAS: HAWAII AND PUERTO RICO

Establishment of Quotas for Local Consumption in 1973

On page 25238 of the FEDERAL REGISTER of November 29, 1972, there was published a notice of proposed rule making to issue a regulation determining sugar requirements for 1973 and establishing quotas for Hawaii and Puerto Rico for the calendar year 1973. Interested persons were given until December 18, 1972, to submit written data, views, or arguments for consideration in connection with the proposed regulation.

No views or comments were received relative to the proposed regulation.

The proposed regulation is hereby adopted without change.

Effective date: January 1, 1973.

Signed at Washington, D.C., on December 29, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

Basis and purpose. The purpose of Sugar Regulation 812 is to determine pursuant to sections 201 and 203 of the Sugar Act of 1948, as amended (hereinafter referred to as the "Act"), the amount of sugar needed to meet the requirements of consumers in Hawaii and in Puerto Rico and to establish quotas for local consumption in such areas for the calendar year 1973. To the extent required by section 201 of the Act, this regulation establishes sugar requirements based on official estimates of the Department of Agriculture and on statistics published by other agencies of the Government.

V 38 I 3 JAN 5 73 XUM

Since the Act provides that the Secretary of Agriculture determine sugar requirements for local consumption in Hawaii and in Puerto Rico and establish local consumption quotas to be effective on January 1, 1973, it is found to be impracticable and not in the public interest to comply with the 30-day effective date requirements in 5 U.S.C. 553(d) (80 Stat. 378), and these regulations shall be effective January 1, 1973.

Sec.
812.1 Sugar requirements and quota—Hawaii.
812.2 Sugar requirements and quota—Puerto Rico.
812.3 Restrictions on marketing.

AUTHORITY: The provisions of these §§ 812.1 through 812.3 issued under sec. 403, 61 Stat. 932; 7 U.S.C. 1153, secs. 201, 203, 209, 211, 61 Stat. 923, as amended, 925, 928; 7 U.S.C. 1111, 1113, 1119, 1121.

§ 812.1 Sugar requirements and quota—Hawaii.

It is hereby determined, pursuant to section 203 of the Act, that the amount of sugar needed to meet the requirements of consumers in Hawaii for the calendar year 1973 is 50,000 short tons, raw value, and a quota of 50,000 short tons, raw value, is hereby established for Hawaii for local consumption for the calendar year 1973.

§ 812.2 Sugar requirements and quota—Puerto Rico.

It is hereby determined, pursuant to section 203 of the Act, that the amount of sugar needed to meet the requirements of consumers in Puerto Rico for the calendar year 1973 is 140,000 short tons, raw value, and a quota of 140,000 short tons, raw value, is hereby established for Puerto Rico for local consumption for the calendar year 1973.

§ 812.3 Restrictions on marketing.

Pursuant to section 209 of the Act, for the calendar year 1973 all persons are hereby prohibited from marketing, pursuant to Part 816 of this chapter (33 F.R. 8495), in Hawaii or in Puerto Rico, for consumption therein, any sugar or liquid sugar after the quota for the area for the calendar year 1973 has been filled. Pursuant to section 211(c) of the Act, the quota for each area may be filled only with sugar produced from sugarcane grown in the respective area, except as provided in section 204(c). Furthermore, pursuant to section 211(c) of the Act, sugar may be unladed from a carrier and brought into a foreign trade zone for manipulating therein or manufacturing therein another product for the subsequent entry into Hawaii or Puerto Rico for consumption only if such sugar is charged, pursuant to S.R. 816, to the applicable respective local quota.

Statement of bases and consideration. Pursuant to section 203 of the Act, the determination of the amounts of sugar needed to meet the requirements of consumers in Hawaii and in Puerto Rico relate to (1) the quantities of sugar distributed for local consumption in Hawaii and in Puerto Rico during the 12-month period ended September 30, 1972, (2) deficiencies or surpluses in inventories of sugar, and (3) changes in consumption because of changes in population and demand conditions.

The quantities of sugar distributed for consumption in Hawaii and in Puerto Rico, including that which was lost in refining after charge to the local quotas, during such 12-month period are estimated to have been approximately 38,000 short tons of sugar, raw value, and 125,000 short tons of sugar, raw value, respectively.

Based on the latest U.S. Census data available, the population of Hawaii as of July 1, 1972, was 809,000 and the population of Puerto Rico as of April 1, 1970, was 2,712,000.

In Hawaii industrial use accounts for a substantial portion of the total consumption of sugar and this demand is a significant factor in the total sugar requirements. During the period 1962 through 1972 the annual sugar consumption in this area has varied from approximately 92.3 to 130.0 pounds, raw value, per person. These wide year-to-year variations suggest the possibility that requirements could be higher in 1973 than in the 12 months ended September 30, 1972, when sugar marketings approximated 38,000 short tons, raw value.

In Puerto Rico during the 12 months ended September 30, 1972, marketings of sugar for local consumption totaled approximately 125,000 short tons, raw value. After making allowance for possible consumption increases in 1973 resulting from probable population increases, the total sugar needed to meet requirements for local consumption in Puerto Rico in 1973 may be approximately 140,000 short tons, raw value.

Circumstances prevailing in the utilization of quota for local consumption in Hawaii and Puerto Rico are such that no special problems arise nor are the objectives of the Act jeopardized if the 1973 local quotas are not completely filled. It is, therefore, desirable to establish the 1973 requirements and quotas sufficiently high initially so that later adjustments may be avoided.

In accordance with the above, the requirements for local consumption in Hawaii and Puerto Rico for 1973 have been determined to be 50,000 and 140,000 short tons, raw value, respectively.

[Sugar Reg. 814.10, Amdt. 1]

PART 814—ALLOTMENT OF SUGAR QUOTAS, MAINLAND CANE SUGAR AREA

1972 Quota

Basis and purpose. This amendment is issued under section 205(a) of the Sugar Act of 1948, as amended (61 Stat. 922), as amended, hereinafter called the "Act," for the purpose of amending Sugar Regulation 814.10 (37 FR 16471) which established allotments for the Mainland Cane Sugar Area for the calendar year 1972.

This amendment is necessary to revise allotments to determine and prorate deficits in allotments.

On the basis of written advice from individual allottees, it is herein determined that 16 allottees are unable to fully utilize 1972 allotments of the Mainland Cane Sugar Area in excess of stated maximum quantities, and that there is a deficit in the allotments of such allottees amounting to 40,059 short tons, raw value, as follows:

Processors	Short tons, raw value
Albania Sugar Co	4,500
Alma Plantation, Ltd	850
Billeaud Sugar Factory	2,759
Columbia Sugar Co	2,291
Duhe & Bourgeois Sugar Co	6,333
Frisco Cane Co., Inc	1,585
Levert-St. John, Inc	6,762
Louisa Sugar Coop., Inc	2,000
Louisiana State University	23
Milliken & Farwell, Inc	241
M. A. Patout & Son, Ltd	2,598
St. Mary Sugar Coop., Inc	1,366
South Coast Corp	700
Sterling Sugars, Inc	100
Vida Sugars, Inc	4,395
Talisman Sugar Corp	3,556
	40,059

Accordingly, a deficit of 40,059 short tons, raw value, is declared and is herein prorated to other allottees on the basis of 1972 allotments made effective by Sugar Regulation 814.10 (37 FR 16471).

It was found after notice and public hearing that this order shall be revised without further notice or hearing, for the purpose of allotting any quantity of an allotment to other allottees when written notification of release by an allottee of any part of an allotment becomes a part of the official records of the Department.

The allotments set forth herein have been established in accordance with findings heretofore made by the Secretary in the course of this proceeding (37 FR 16471).

Order. Pursuant to the authority vested in the Secretary of Agriculture by section 205(a) of the Act: *It is hereby ordered,* That paragraph (a) of § 814.10 be amended to read as follows:

§ 814.10 Allotment of the 1972 sugar quota for the Mainland Cane Sugar Area.

(a) *Allotments.* The 1972 sugar quota for the Mainland Cane Sugar Area of 1,643,000 short tons, raw value, is hereby allotted to the following processors in the quantities which appear opposite their respective names:

Processors	Allotments (Short tons, raw value)
Albania Sugar Co	10,090
Alma Plantation, Ltd	14,561
J. Aron & Co., Inc	23,349
Billeaud Sugar Factory	15,051
Breaux Bridge Sugar Co-op	14,993
Wm. T. Burton Industries, Inc	11,181
Caire & Graugnard	9,858
Cajun Sugar Co-op, Inc	32,432
Caldwell Sugars Co-op, Inc	25,919
Columbia Sugar Co	9,489
Cora-Texas Manufacturing Co., Inc	13,496

Processors	Allotments (Short tons, raw value)
Dugas & LeBlanc, Ltd	26,548
Duhe & Bourgeois Sugar Co	11,214
Evan Hall Sugar Co-op, Inc	37,185
Frisco Cane Co., Inc	1,800
Glenwood Co-op, Inc	26,905
Helvetia Sugar Co-op, Inc	20,711
Iberia Sugar Co-op, Inc	27,818
LaFourche Sugar Co	36,096
Harry L. Laws & Co., Inc	22,969
Levert-St. John, Inc	12,592
Louisa Sugar Co-op, Inc	13,559
Louisiana State Penitentiary	6,688
Louisiana State University	2
Meeker Sugar Co-op, Inc	14,822
Milliken & Farwell, Inc	14,891
M. A. Patout & Son, Ltd	24,955
Poplar Grove Planting & Refining Co	13,172
Savoie Industries	23,961
St. James Sugar Co-op, Inc	32,844
St. Mary Sugar Co-op, Inc	21,636
South Coast Corp., Inc	85,868
Southdown Sugars, Inc	59,870
Sterling Sugars, Inc	41,270
J. Supple's Sons Planting Co., Ltd	7,574
Valentine Sugars, Inc	19,880
Vida Sugars, Inc	4,411
A. Wilbert's Sons Lumber & Shingle Co	14,588
Louisiana subtotal	804,248
Atlantic Sugar Association, Inc	51,326
Glades County Sugar Growers Co-op, Association	60,090
Gulf & Western Food Products Co	109,597
Osceola Farms Co	76,888
Sugarcane Growers Co-op, of Florida	155,818
Talisman Sugar Corp	82,470
United States Sugar Corp	302,563
Florida subtotal	838,752
Total all mainland cane	1,643,000

(Secs. 205, 209, 403; 61 Stat. 926, as amended, 928, 932; 7 U.S.C. 1115, 1119, 1153)

Effective date. Because of the limited time remaining in the quota year to which the allotments apply, it is imperative that this amendment become effective at the earliest date in order to permit processors to fully utilize the entire quota for the area. Accordingly, it is hereby found that compliance with the 30-day effective date requirements in 5 U.S.C. 553 is impracticable and contrary to the public interest and consequently, this amendment shall be effective when filed for public inspection in the Office of the Federal Register.

Signed at Washington, D.C., on December 29, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lemon Regulation 567]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period January 7–13, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.867 Lemon Regulation 567.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) (i) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(ii) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is active this week. Average price is $4.88 per carton. Track and rolling supplies at 126 cars were down 15 cars from last week.

(iii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereon in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 2, 1973.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period January 7 through January 13, 1973, is hereby fixed at 175,000 cartons.

(2) As used in this section, "handled," and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 3, 1973.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Grapefruit Reg. 88]

PART 912—GRAPEFRUIT GROWN IN THE INDIAN RIVER DISTRICT IN FLORIDA

Limitation of Handling

This regulation fixes the quantity of Florida Indian River grapefruit that may

V 38 I 3 JAN 5 73 XUM

be shipped to fresh market during the weekly regulation period January 8, through 14, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 912. The quantity of grapefruit produced in the Indian River District in Florida so fixed was arrived at after consideration of the total available supply of Indian River grapefruit, the quantity currently available for market, the fresh market demand for Indian River grapefruit, Indian River grapefruit prices, and the relationship of season average returns to the parity price for Florida grapefruit.

§ 912.388 Grapefruit Regulation 88.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 912, as amended (7 CFR Part 912), regulating the handling of grapefruit grown in the Indian River District in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Indian River Grapefruit Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) (i) The need for this section to limit the quantity of Indian River grapefruit that may be marketed during the ensuing week stems from the production and marketing situation confronting the Indian River grapefruit industry.

(ii) The committee has submitted its recommendation with respect to the total quantity of grapefruit which it deems advisable to be handled during the next succeeding week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the market demand for Indian River grapefruit is slow. Prices, f.o.b. per four-fifths bushel carton, for the week ended December 31, 1972, averaged $2.50 for white seedless and $2.85 for pink seedless. Shipments for the week ended December 31, 1972, and for the previous week were 230 carlots and 435 carlots, respectively. On December 12, 1972, there were 11,415 carlots of Indian River grapefruit remaining for interstate shipments, while 4,085 carlots have been shipped to date.

(iii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of grapefruit which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Indian River grapefruit, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Indian River grapefruit; it is necessary, in order effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 3, 1973.

(b) *Order.* (1) The quantity of grapefruit grown in the Indian River District which may be handled, is hereby fixed at 200,000 standard packed boxes.

(2) As used in the section, "handled," "Indian River District," "grapefruit," and "standard packed box" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 4, 1973.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-390 Filed 1-4-73;11:22 am]

[Grapefruit Reg. 54]

PART 913—GRAPEFRUIT GROWN IN THE INTERIOR DISTRICT IN FLORIDA

Limitation of Handling

This regulation fixes the quantity of Florida Interior grapefruit that may be shipped to fresh market during the weekly regulation period January 8–14, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 913. The quantity of grapefruit produced in the Interior District in Florida so fixed was arrived at after consideration of the total available supply of Florida Interior grapefruit, the quantity currently available for market, the fresh market demand for Florida Interior grapefruit, Interior grapefruit prices, and the relationship of season average returns to the parity price for Florida grapefruit.

§ 913.354 Grapefruit Regulation 54.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 913, as amended (7 CFR Part 913), regulating the handling of grapefruit grown in the Interior District in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Interior Grapefruit Marketing Committee, established under said marketing agreement and order and upon other available information, it is hereby found that the limitation of handling of such grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) (i) The need for this section to limit the quantity of Interior District grapefruit that may be marketed during the ensuing week stems from the production and marketing situation confronting the Interior District grapefruit industry.

(ii) The committee has submitted its recommendation with respect to the total quantity of grapefruit which it deems advisable to be handled during the next succeeding week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the market demand for Florida Interior District grapefruit continues to be slow. Prices, f.o.b., 4/5 bushel carton, were $2.30 for white seedless and $2.60 for pink seedless for the week ended December 31, 1972. Shipments for the week ended December 31, and for the previous week were 190 carlots and 185 carlots, respectively. On December 31, 1972, 6,870 carlots of Interior District grapefruit were remaining for interstate shipments while 4,630 carlots had been shipped to that date.

(iii) Having considered the recommendation and information submitted by the committee, and other available information the Secretary finds that the quantity of grapefruit which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Interior grapefruit, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Interior grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 3, 1973.

(b) *Order.* (1) The quantity of grapefruit grown in the Interior District which may be handled is hereby fixed at 187,500 standard packed boxes during the period January 8 through January 14, 1973.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 4, 1973.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-391 Filed 1-4-73;11:23 am]

Chapter X—Agricultural Marketing Service (Marketing Agreements and Orders; Milk) Department of Agriculture

[Milk Order 50]

PART 1050—MILK IN THE CENTRAL ILLINOIS MARKETING AREA

Order Suspending Certain Provisions

This suspension order is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Central Illinois marketing area.

Notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 28096) concerning a proposed suspension of certain provisions of the order. Interested persons were afforded opportunity to file written data, views, and arguments thereon.

After consideration of all relevant material, including the proposal set forth in the aforesaid notice, data, views, and arguments filed thereon, and other available information, it is hereby found and determined that for the month of December 1972 the following provisions of the order do not tend to effectuate the declared policy of the Act:

1. In § 1050.14, paragraphs (c) (2) and (3).

STATEMENT OF CONSIDERATION

This suspension will remove for the month of December 1972 the limitations on the proportion of each producer's monthly milk production that may be diverted as producer milk from a pool plant to a nonpool plant. A similar suspension was in effect for the months of October and November 1972.

Associated Milk Producers, Inc., requests this suspension for another month in order to enable certain of its member producers to maintain producer status under the order for December and thereby continue receiving the uniform price for their milk, pursuant to the order.

On October 4, 1972, a large distributing plant to which many of this association's member producers shipped their milk ceased all receiving and processing operations. Since that time the cooperative association has been attempting to find alternative outlets for the milk of these producers.

The milk of a majority of these producers has been accommodated on other markets. More time, however, is needed to complete arrangements for satisfactory fluid market outlets for the remaining volume of milk.

While arrangements have been with other handlers in the market to receive this remaining volume of milk some of the time, such handlers cannot receive this milk on a regular basis.

This suspension of diversion limits will afford the cooperative an opportunity to divert the milk of these member producers, thereby maintaining their producer status under the order, and provide the association the needed time to complete other marketing arrangements with respect to the milk of these producers.

It is hereby found and determined that 30 days' notice of the effective date hereof is impractical, unnecessary, and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area in that it will provide a method for producers who have lost their pool plant outlet for milk to retain producer status under the order for an additional month while seeking other marketing arrangements.

(b) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Notice of proposed rule making was given interested parties and they were afforded opportunity to file written data, views, or arguments concerning this suspension. There were no views filed in opposition to the proposed suspension.

Therefore, good cause exists for making this order effective with respect to producer milk deliveries during December 1972.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for December 1972.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: January 5, 1973.

Signed at Washington, D.C., on January 2, 1973.

RICHARD E. LYNG,
Assistant Secretary.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Animal and Plant Health Inspection Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

[Docket No. 72-599]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Area Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

In § 76.2, in paragraph (e) (11) relating to the State of Pennsylvania, a new subdivision (iii) relating to Lehigh and Berks Counties is added to read:

(iii) The adjacent portions of Lehigh and Berks Counties bounded by a line beginning at the junction of U.S. Highway 222 and the northeast extension of the Pennsylvania Turnpike in Lehigh County; thence, following the northeast extension of the Pennsylvania Turnpike in a northwesterly direction to Legislative Road 39042; thence, following Legislative Road 39042 in a westerly direction to Legislative Road 39048; thence, following Legislative Road 39048 in a westerly direction to Township Road 593; thence, following Township Road 593 in a generally northwesterly direction to Legislative Road 39057; thence, following Legislative Road 39057 in a southwesterly direction to Legislative Road 39060; thence, following Legislative Road 39060 in a southwesterly, then northerly direction to Legislative Road 39059; thence, following Legislative Road 39059 in a southwesterly direction to U.S. Route 309; thence, following U.S. Route 309 in a generally northwesterly direction to Legislative Road 39072; thence, following

V38-3 JAN 5 73 XUM

Legislative Road 39072 in a westerly direction to Legislative Road 39063; thence, following Legislative Road 39063 in a southwesterly direction to Township Road 555; thence following Township Road 555 in a westerly direction to Township Road 625; thence, following Township Road 625 in a southwesterly direction to Township Road 619; thence, following Township Road 619 in a westerly direction to Township Road 638; thence, following Township Road 638 in a generally southeasterly direction to Township Road 623; thence, following Township Road 623 in a southwesterly direction to Township Road 828 in Berks County; thence, following Township Road 828 in a southwesterly direction to Township Road 801; thence, following Township Road 801 in a southeasterly direction to Township Road 975; thence, following Township Road 975 in an easterly direction to Township Road 977; thence, following Township Road 977 in a southerly direction to Township Road 801; thence, following Township Road 801 in a southerly direction to Township Road 555; thence, following Township Road 799 in a southeasterly direction to Legislative Road 06137; thence, following Legislative Road 06137 in a southwesterly direction to Legislative Road 06136; thence, following Legislative Road 06136 in a generally southeasterly direction to Legislative Road 05133; thence, following Legislative Road 06138 in a southeasterly direction to Township Road 827; thence, following Township Road 827 in a southeasterly direction to Township Road 864; thence, following Township Road 864 in a southeasterly direction to Township Road 921; thence, following Township Road 921 in a northeasterly direction to Township Road 612, thence, following Township Road 612 in a southeasterly direction to Legislative Road 06041; thence, following Legislative Road 06041 in a northerly direction to Legislative Road 06057; thence following Legislative Road 06057 in a generally northeasterly direction to Legislative Road 39023 in Lehigh County; thence, following Legislative Road 39023 in a generally northeasterly direction to Township Road 498; thence, following Township Road 498 in a northeasterly direction to U.S. Highway 222; thence, following U.S. Highway 222 in a northeasterly direction to its junction with the northeast extension of the Pennsylvania Turnpike in Lehigh County.

(Secs. 4–7, 23 Stat. 32 as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 37 FR 28464, 28477)

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment quarantines portions of Lehigh and Berks Counties in Pennsylvania because of the existence of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined area.

The amendment imposes certain further restrictions necessary to prevent the spread of hog cholera, and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rule making proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 29th day of December 1972.

E. E. SAULMON,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-310 Filed 1-4-73;8:45 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 72-CE-35-AD; Amdt. 39-1579]

PART 39—AIRWORTHINESS DIRECTIVES

Cessna Model 310N, P and Q Airplanes

There have been reports of ice accumulation in the engine air induction system and on the engine throttle plate of Cessna Model 310N, P and Q airplanes operating in precipitation at below freezing temperatures. This renders the alternate air valve inoperative and causes loss of engine power and throttle control on these aircraft. To correct this condition the manufacturer has issued Service Letter ME70-43 recommending installation of Service Kit SK310-82D which incorporates a deflector baffle over the alternate air inlet in the engine cooling air plenum and increases the size of the warm air opening in the induction air cannister.

Since the condition described herein is likely to exist or develop in other airplanes of the same or similar type design an airworthiness directive is being issued requiring mandatory compliance with the aforementioned service letter within 50 hours' time in service after the effective date of the AD.

Since a situation exists which requires expeditious adoption of the amendment, notice and public procedure hereon are impracticable and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator 14 CFR 11.89 (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new AD.

CESSNA. Applies to Model 310N (Serial Numbers 310N0001 through 310N0198), Model 310P (Serial Numbers 310P0001 through 310P0240), and Model 310Q (Serial Numbers 310Q0001 through 310Q0130) airplanes.

NOTE: This AD is not applicable to Model T310 airplanes which fall within these serial number ranges.

Compliance: Required as indicated, unless already accomplished.

To prevent moisture from possibly entering the alternate air system and freezing on powerplant induction system components when operating in below freezing temperatures, accomplish the following:

Within 50 hours' time in service after the effective date of this AD, install deflector baffles over the alternate air inlet in the vertical baffle and enlarge the warm air cut out in the induction air cannister in accordance with Cessna Service Letter ME70-43 and Service Kit SK310-82D, or any other method approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region.

This amendment becomes effective January 5, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Mo., on December 22, 1972.

CHESTER W. WELLS,
Acting Director, Central Region.

[FR Doc.73-340 Filed 1-4-73;8:45 am]

[Docket No. 72-EA-110; Amdt. 39-1580]

PART 39—AIRWORTHINESS DIRECTIVES

Air Cruiser Life Jackets

On page 24121 of the FEDERAL REGISTER for November 14, 1972, the Federal Aviation Administration published a proposed rule so as to issue an airworthiness directive applicable to Air Cruiser Co. Model AD-8 life jackets installed on civil aircraft.

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received. However ATA requested that, in view of a serious backlog of orders involving air carrier Northwest Airlines, the compliance time be extended to 120 days. A review of all the factors affecting this rule would indicate that air safety is not diminished by such an extension, and the rule will be so amended. Since the extension is less restrictive, notice and public procedure thereon are unnecessary, and the rule as modified may be made effective.

In view of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697), § 39.13 of the Federal Aviation Regulations is amended hereby and the airworthiness directive adopted as published, except as follows:

I. Delete in the compliance paragraph the figure "90" and insert in lieu thereof the figure "120".

This amendment is effective January 17, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on December 27, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

1. Amend § 39.13 of the Federal Aviation Regulations so as to add a new airworthiness directive described as follows:

AIR CRUISERS Co. Applies to all Model AD-8 life jackets manufactured on or before 15 October 1971.

Compliance required within 120 days after the effective date of this AD, unless already accomplished.

To preclude air chamber deflation from defective inflator manifold stem assemblies, accomplish alteration of the aforementioned life jackets in accordance with either:

a. Air Cruisers Co. Service Bulletin No. 112-72-1, dated 6 March 1972; or

b. Any other method approved as equivalent by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

Upon request submitted through a maintenance inspector, accompanied by substantiating data, the compliance time specified in the AD may be increased by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

[FR Doc.73-259 Filed 1-4-73;8:45 am]

[Docket No. 72-NE-24; Amdt. 39-1581]

PART 39—AIRWORTHINESS DIRECTIVES

Pratt and Whitney Aircraft Engines

Amendment 39-591 (33 FR 6286), AD 68-9-1 requires replacement or rework of the engine crankshaft flyweight liners on engines operated with Hartzell propeller models HC-93Z30, HC-B3Z30, or HC-B3W30, or combination thereof, before completion of 1000 hours time in service and thereafter at 1000 hour intervals. Due to service experience, the agency has determined that an increase in both the initial and recurrent compliance times is justified. Therefore the AD is being amended to increase the initial compliance time for engines with Hartzell propeller models HC-93Z30, HC-B3Z30, and HC-B3W30 from 950 hours to 1150 hours and the recurrent compliance time from 1000 hours to 1200 hours.

Since this amendment relieves a restriction and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13397), § 39.13 of the Federal Aviation Regulations, Amendment 39-591 (33 FR 6286), AD 68-9-1, is amended as follows:

1. By deleting the words "950 hours" wherever they appear in paragraphs (a)(1), (a)(2), and (b), and inserting the words "1150 hours" in lieu thereof.

2. By deleting the words "1000 hours" wherever they appear in paragraphs (a)(1) and (a)(2) and inserting the words "1200 hours" in lieu thereof.

This amendment becomes effective January 17, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Burlington, Massachusetts, on December 27, 1972.

FERRIS J. HOWLAND,
Director, New England Region.

[FR Doc.73-258 Filed 1-4-73;8:45 am]

[Airspace Docket No. 72-SO-124]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Control Zone

On December 1, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 25529), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Knoxville, Tenn. (Downtown Island Airport) control zone.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 29, 1973, as hereinafter set forth.

In § 71.171 (38 FR 351), the following control zone is added:

KNOXVILLE, TENN. (DOWNTOWN ISLAND AIRPORT)

Within a 3-mile radius of Downtown Island Airport (lat. 35°57'45" N., long. 83°52'30" W.). This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on December 21, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.73-263 Filed 1-4-73;8:45 am]

[Airspace Docket No. 72-SO-111]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On November 11, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 24047), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Jesup, Ga., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 1, 1973, as hereinafter set forth.

In § 71.181 (38 F.R. 435), the following transition area is added:

JESUP, GA.

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Jesup-Wayne County Airport (lat. 31°33'18" N., long. 81°52'54" W.); within 3 miles each side of the 286° bearing from Slover RBN (lat. 31°33'08" N., long. 81°52'48" W.), extending from the 6.5-mile radius area to 8.5 miles west of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on December 19, 1972.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.73-261 Filed 1-4-73;8:45 am]

[Airspace Docket No. 72-SW-73]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Temporary Transition Areas

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate temporary transition areas at Longhorn, Hico, Camp Bowie, and Lanham, Tex.

On November 14, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 24122) stating the Federal Aviation Administration proposed to designate temporary transition areas at Longhorn, Hico, Camp Bowie, and Lanham, Tex.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

V 38 - 3 JAN 5 73 XUM

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0601 G.m.t., January 15, 1973, to 0559 G.m.t., February 16, 1973, as hereinafter set forth.

In § 71.181 (38 FR 435), the following temporary transition areas are added:

LONGHORN, TEX.

That airspace extending upward from 700 feet above the surface within a 6-mile radius of the Longhorn temporary nondirectional radio beacon (latitude 31°22'20" N., longitude 97°40'00" W.).

HICO, TEX.

That airspace extending upward from 700 feet above the surface within a 6-mile radius of Hico temporary Army helipad (latitude 31°59'12" N., longitude 97°55'45" W.).

CAMP BOWIE, TEX.

That airspace extending upward from 700 feet above the surface within a 6-mile radius of Camp Bowie temporary Army helipad (latitude 31°33'37" N., longitude 98°46'15" W.).

LANHAM, TEX.

That airspace extending upward from 700 feet above the surface within a 6-mile radius of Lanham temporary Army helipad (latitude 31°46'10" N., longitude 97°56'12" W.).

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Fort Worth, Tex., on December 18, 1972.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.73-260 Filed 1-4-73;8:45 am]

[Airspace Docket No. 72-SO-115]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On November 23, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 24907), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Rome, Ga., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 1, 1973, as hereinafter set forth.

In § 71.181 (38 FR 435), the Rome, Ga., transition area is amended as follows:

"• • • 12-mile radius area to the VOR • • •" is deleted and "• • • 12-mile radius area of the VOR; within a 9.5-mile radius of Tom B. David Field, Calhoun, Ga. (lat. 34°27'18" N., long. 84°56'24" W.); excluding the portion within the Dalton, Ga. transition area • • •" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on December 26, 1972.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.73-262 Filed 1-4-73;8:45 am]

[Docket No. 11464, Amdt. 91-108]

PART 91—GENERAL OPERATING AND FLIGHT RULES

Aircraft Lease Agreements: Requirements for "Truth in Leasing" Clause

This amendment to Part 91 of the Federal Aviation Regulations further clarifies the applicability of § 91.54, which prescribes requirements for including a "truth in leasing" clause in certain leases and contracts of conditional sales involving United States registered large civil aircraft.

Section 91.54 was issued by the FAA on September 27, 1972, as Amendment 91-104, to become effective on January 3, 1973 (37 FR 20934). Section 91.54 is intended to apply to only leases and contracts of conditional sale entered into after January 2, 1973. This amendment revises paragraph (a) of § 91.54 to make the intent of the rule expressly clear.

In addition, to make the definition of a lease in paragraph (e) conform to the intent of the rule, this amendment revises the definition to make it clear that the term lease does not include an agreement for the sale of an aircraft, or a contract of conditional sale under section 101 of the Federal Aviation Act of 1958.

Since this amendment is clarifying in nature and imposes no additional burden on any person, I find that notice and public procedure are unnecessary and that good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, Part 91 of the Federal Aviation Regulations, as amended by Amendment 91-104, is further amended by amending § 91.54, effective January 3, 1973, as follows:

1. By amending the introductory sentence of paragraph (a) and by amending paragraph (e) to read as follows:

§ 91.54 Truth in leasing clause requirement in leases and conditional sales contracts.

(a) Except as provided in paragraph (b) of this section, the parties to a lease or contract of conditional sale involving a United States registered large civil aircraft and entered into after January 2, 1973, shall execute a written lease or contract and include therein a written truth in leasing clause as a concluding paragraph in large print, immediately preceding the space for the signature of the parties, which contains the following with respect to each such aircraft:

• • • • •

(e) For the purpose of this section, a lease means any agreement by a person to furnish an aircraft to another person for compensation or hire, whether with or without flight crewmembers, other than an agreement for the sale of an aircraft and a contract of conditional sale under section 101 of the Federal Aviation Act of 1958. The person furnishing the aircraft is referred to as the lessor and the person to whom it is furnished the lessee.

(Secs. 313(a), 601, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on December 22, 1972.

J. H. SHAFFER,
Administrator.

[FR Doc.73-264 Filed 1-4-73;8:45 am]

[Docket No. 12458, Amdt. 845]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAP's) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAP's for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAP's are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591. Copies of SIAP's adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAP's may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, DC 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtaind by subscription at an annual rate of $150 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAP's, effective February 15, 1973:

Albany, N.Y.—Albany County Airport; VOR Runway 1; Amdt. 11.
Albany, N.Y.—Albany County Airport; VOR Runway 19; Amdt. 11.
Albany, N.Y.—Albany County Airport; VOR/DME-1; Amdt. 2.
Anderson, S.C.—Anderson County Airport; VOR Runway 5; Amdt. 5.
Grand Forks, N. Dak.—Grand Forks International Airport; VOR Runway 17; Amdt. 5.
Grand Forks, N. Dak.—Grand Forks International Airport; VOR Runway 35; Amdt. 5.
Kinston, N.C.—Stallings Field; VOR Runway 22; Amdt. 7.
Kinston, N.C.—Stallings Fields; VOR/DME Runway 4; Amdt. 3.
La Crosse, Wis.—La Crosse Municipal Airport; VOR Runway 13; Amdt. 15.
La Crosse, Wis.—La Crosse Municipal Airport; VOR Runway 36; Amdt. 17.

• • • effective December 22, 1972:

Philadelphia, Pa.—Philadelphia International Airport; VOR/DME Runway 27R; Amdt. 1.

2. Section 97.25 is amnded by originating, amending, or canceling the following SDF-LOC-LDA SIAP's, effective February 15, 1973:

Albany, N.Y.—Albany County Airport; LOC (BC) Runway 1; Amdt. 3.
Grand Forks, N. Dak.—Grand Forks International Airport; LOC (BC) Runway 17; Amdt. 1.
La Crosse, Wis.—La Crosse Municipal Airport; LOC (BC) Runway 36; Amdt. 1.

• • • effective February 1, 1973:

Tacoma, Wash.—Tacoma Industrial Airport; LOC Runway 17; Amdt. 1; Canceled (Original remains in effect).

3. Section 97.27 is amended by originating, amending, or canceling the following NDB/ADF SIAP's, effective February 15, 1973:

Albany, N.Y.—Albany County Airport; NDB Runway 19; Amdt. 9.
Charles City, Iowa—Charles City Municipal Airport; NDB Runway 12; Amdt. 3.
La Crosse, Wis.—La Crosse Municipal Airport; NBD Runway 18; Amdt. 1.

• • • effective February 1, 1973:

Tacoma, Wash.—Tacoma Industrial Airport; NDB Runway 17; Amdt. 1; Canceled (Original remains in effect).
Tacoma, Wash.—Tacoma Industrial Airport; NDB Runway 35; Amdt. 2; Canceled (Amendment 1 remains in effect).

4. Section 97.29 is amended by originating, amending, or canceling the following ILS SIAP's, effective February 15, 1973:

Albany, N.Y.—Albany County Airport; ILS Runway 19; Amdt. 10.
Grand Forks, N. Dak.—Grand Forks International Airport; ILS Runway 35; Amdt. 1.
La Crosse, Wis.—La Crosse Municipal Airport; ILS Runway 18; Amdt. 1.

• • • effective December 22, 1972:

Philadelphia, Pa.—Philadelphia International Airport; ILS Runway 27R, Amdt. 2.

5. Section 97.31 is amended by originating, amending, or canceling the following Radar SIAP's effective February 15, 1973:

Albany, N.Y.—Albany County Airport; Radar-1; Amdt. 5.
Alexandria, La.—Alexandria-Pineville Airport; Radar-1; Amdt. 1; Canceled.

• • • effective February 1, 1973:

Tacoma, Wash.—Tacoma Industrial Airport; Radar-1; Amdt. 2; Canceled (Amendment 1 remains in effect).

6. Section 97.33 is amended by originating, amending, or canceling the following RNAV SIAP's effective February 15, 1973:

Anderson, S.C.—Anderson County Airport; RNAV Runway 23; Original.

• • • effective December 14, 1972:

Hutchinson, Kans.—Hutchinson Municipal Airport; RNAV Runway 31; Amdt. 1; Canceled.

(Secs. 307, 313, 601, 1110, Federal Aviation Act of 1958; 49 U.S.C. 1438, 1354, 1421, 1510; sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c), 5 U.S.C. 552(a)(1))

Issued in Washington, D.C., on December 27, 1972.

C. R. MELUGIN, JR.,
Acting Director,
Flight Standards Service.

NOTE: Incorporation by reference provisions in §§ 97.10 and 97.20 (35 FR 5610), approved by the Director of the Federal Register on May 12, 1969.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

PART 131—INTERPRETATIVE STATEMENTS RE WARNINGS ON DRUGS AND DEVICES FOR OVER-THE-COUNTER SALE

Use of Mercury in Cosmetics Including Use as Skin-Bleaching Agent in Cosmetic Preparations Also Regarded as Drugs

In the FEDERAL REGISTER of June 30, 1972 (37 FR 12967), the Commissioner of Food and Drugs proposed to eliminate mercury from skin-bleaching preparations and from cosmetics except as a preservative in certain eye-area cosmetics. Interested persons were invited to submit comments on the proposal within 60 days. Comments were received from 13 consumers, one medical school faculty member, the American Medical Association, and five manufacturers.

Supporting the proposal were the following: 11 of the 13 consumers, the American Medical Association, and the medical school faculty member.

The principal comments opposing the proposed statement of policy were as follows:

1. One manufacturer agreed with the principle of limiting mercury compounds in cosmetics to use as preservatives in eye-area cosmetics. However, he pointed out that the phenylmercuric salts generally used contain just under 60 to 65 percent of mercury and that concentrations of 0.01 percent would put them over the 50 p.p.m. limit. He suggested that the limit be changed to 65 p.p.m. This request is granted, because it will provide an increased margin of safety in preventing *Pseudomonas* contamination of cosmetics, without adding a safety hazard.

2. Two manufacturers suggested that the proposed statement of policy be revised to permit the use of 50-to-100 p.p.m. mercury as a preservative in shampoos. Because of the known hazard of mercury and the availability of effective less toxic preservatives, the Commissioner concludes that this use cannot be justified.

3. One manufacturer of an ammoniated mercury bleach cream stated that his firm has never seen a verified case of mercury poisoning or skin irritation resulting from use of its product. He referred to studies conducted by the External Products Research Institute which was formed in 1939 to investigate the toxicity and efficacy of topical ammoniated mercury. He reported that animal work sponsored by that organization showed the products to be safe and effective on lightening the skin. This commentator further pointed out that ammoniated mercury is less toxic than methyl mercury. The Commissioner's response to these comments is that there exists a wealth of published material which verifies that all forms of mercury, including metallic mercury, are sensitizers. There also exists a wealth of published material which shows that mercury is absorbed through the skin. While some of these works do refer to absorption through psoriatic or damaged skin, there is enough experimental work conducted outside the Food and Drug Administration to show that appreciable amounts of mercury are absorbed through the unbroken skin. There is also unequivocal evidence of human injury resulting from long-term use of ammoniated mercury bleaching creams.

4. Another manufacturer of an ammoniated mercury bleach cream criticized the work of Marzulli and Brown, which was cited as support for the proposed statement of policy. The commentator stated that the method used to measure skin penetration is not specified in sufficient detail, the cases of mercury poisoning reported are too few in number, and the symptoms ascribed to mercury poisoning are nonspecific and are also attributable to many other diseases. The Commissioner finds that the criticism of the Marzulli and Brown study is unjustified. It is impossible to give the exact method by which an experiment is carried out in every minute detail. The

V 38 - 3 JAN 5 73 XUM

results of the Marzulli and Brown study are in general agreement with observations from other studies. The listing of common symptoms might appear to indicate that mercury poisoning is identical to such diseases as diabetes and pernicious anemia; however, this is not the case. There are differences in the prominence and characteristics of these symptoms which make the differential diagnosis uncomplicated. All of the patients cited in the Marzulli and Brown study were hospitalized on various occasions and all other reasonable diagnoses were ruled out.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502 (a), (f), (j), 505, 601(a), 701(a); 52 Stat. 1050, 1051, 1052–1053 as amended, 1054, 1055; 21 U.S.C. 352 (a), (f), (j), 355, 361(a), 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 3 and 131 are amended as follows:

1. By revising Subpart A of Part 3 by adding a new statement of policy as follows:

§ 3.92 Use of mercury compounds in cosmetics including use as skin-bleaching agent in cosmetic preparations also regarded as drugs.

(a) Mercury-containing cosmetic preparations have been represented for many years as skin-bleaching agents or as preparations to remove or prevent freckles and/or brown spots (so-called age spots). Preparations intended for such use are regarded as drugs as well as cosmetics. In addition to such use as skin-bleaching agents, mercury compounds have also been widely used as preservatives in cosmetics such as hand and body creams and lotions; hair shampoos, hair sets and rinses, hair straighteners, hair coloring, and other preparations; bath oils, bubble bath, and other bath preparations; makeup; antiperspirants and deodorants; and eye-area cosmetics.

(b) The toxicity of mercury compounds is extensively documented in scientific literature. It is well-known that mercury compounds are readily absorbed through the unbroken skin as well as through the lungs by inhalation and by intestinal absorption after ingestion. Mercury is absorbed from topical application and is accumulated in the body, giving rise to numerous adverse effects. Mercury is a potent allergen and sensitizer, and skin irritation is common after topical application. Cosmetic preparations containing mercury compounds are often applied with regularity and frequency for prolonged periods. Such chronic use of mercury-containing skin-bleaching preparations has resulted in the accumulation of mercury in the body and the occurrence of severe reactions. Recently it has also been determined that microorganisms in the environment can convert various forms of mercury into highly toxic methyl mercury which has been found in the food supply and is now considered to be a serious environmental problem.

(c) The effectiveness of mercury-containing preparations as skin-bleaching agents is questionable. The Food and Drug Administration has not been provided with well-controlled studies to document the effectiveness of these preparations. Although mercurial preservatives are recognized as highly effective, less toxic and satisfactory substitutes are available except in the case of certain eye-area cosmetics.

(d) Because of the known hazards of mercury, its questionable efficacy as a skin-bleaching agent, and the availability of effective and less toxic nonmercurial preservatives, there is no justification for the use of mercury in skin-bleaching preparations or its use as a preservative in cosmetics, with the exception of eye-area cosmetics for which no other effective and safe nonmercurial preservative is available. The continued use of mercurial preservatives in such eye-area cosmetics is warranted because mercury compounds are exceptionally effective in preventing *Pseudomonas* contamination of cosmetics and *Pseudomonas* infection of the eye can cause serious injury, including blindness. Therefore:

(1) The Food and Drug Administration withdraws the opinion expressed in trade correspondence TC–9 (issued May 13, 1939) and concludes that any product containing mercury as a skin-bleaching agent and offered for sale as skin-bleaching, beauty, or facial preparation is misbranded within the meaning of sections 502(a), 502(f) (1) and (2), and 502(j), and may be a new drug without approval in violation of section 505 of the Federal Food, Drug, and Cosmetic Act. Any such preparation shipped within the jurisdiction of the Act after the date of publication in the FEDERAL REGISTER of this order (Jan. 5, 1973) will be the subject of regulatory action.

(2) The Food and Drug Administration withdraws the opinion expressed in trade correspondence TC–412 (issued Feb. 11, 1944) and will regard as adulterated within the meaning of section 601(a) of the Act any cosmetic containing mercury unless the cosmetic meets the conditions of paragraph (d)(1) (i) or (ii) of this section.

(i) It is a cosmetic containing no more than a trace amount of mercury and such trace amount is unavoidable under conditions of good manufacturing practice and is less than 1 part per million (0.0001 percent), calculated as the metal; or

(ii) It is a cosmetic intended for use only in the area of the eye, it contains no more than 65 parts per million (0.0065 percent) of mercury, calculated as the metal, as a preservative, and there is no effective and safe nonmercurial substitute preservative available for use in such cosmetic.

§ 131.15 [Amended]

2. By revising Part 131 in § 131.15 *Drugs for human use; recommended warning and caution statements* by deleting the warning concerning amoniated mercury bleach cream, since the above statement of policy makes this warning obsolete.

Effective date. The provisions of § 3.92(d)(1) and the amendment to § 131.15 above shall become effective on January 5, 1973. The provisions of § 3.92(d)(2) shall become effective on July 5, 1973.

(Secs. 502(a) (f), (j), 505, 601(a), 701(a); 52 Stat. 1050, 1051, 1052–1053 as amended, 1054, 1055; 21 U.S.C. 352(a), (f), (j), 355, 361(a), 371(a))

Dated: December 26, 1972.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

[FR Doc.73–159 Filed 1–4–73;8:45 am]

PART 128—HUMAN FOODS; CURRENT GOOD MANUFACTURING PRACTICE (SANITATION) IN MANUFACTURE, PROCESSING, PACKING, OR HOLDING

Natural or Unavoidable Defects in Food for Human Use that Present No Health Hazard

A notice of proposed rule making was published in the FEDERAL REGISTER of March 30, 1972 (37 FR 6497), to make publicly available the action levels of natural or unavoidable defects in foods for human use that present no health hazard. The defect levels, used in considering regulatory actions, were made available to the public on the date the notice was published. The notice provided for the filing of comments within 60 days after its publication.

More than 600 comments were received. About 98 percent of the comments were from consumers. The remainder were from consumer organizations, food processors and associations, a food industry consultant, a drug manufacturer and a State agency. Most of the comments referred not to the proposed regulation itself but to the defect action levels that were made public. These comments in general objected to the existence of any level of defects in food or maintained that the levels allow an excessive amount of defects in foods. The premise that defects in food should approach zero as nearly as possible is valid. However, the establishment of a zero defect action level in foods is not practicable in many cases because a zero defect action level cannot be realistically or routinely achieved for the reasons stated in the published proposal.

Few foods contain no natural or unavoidable defects. Even with modern technology, all defects in foods cannot be eliminated. Foreign material cannot be wholly processed out of foods, and many contaminants introduced into foods through the environment can be reduced only by reducing their occurrence in the environment. The food industry must, nevertheless, continually strive to minimize the presence of natural and unavoidable defects in foods, and defect action levels have been and will continue to be reduced as improvements are made. Many of the defect action levels have been in existence for many years and the levels are being reviewed to determine their current validity. The defect action levels do not represent the average levels found in any instance; the average levels are significantly lower than the action levels.

All comments to, and suggested changes of, the proposed regulation have been evaluated. The Commissioner's conclusions are as follows:

1. There were comments that all or some of the defects in foods covered by this regulation present a health hazard. Two comments discussed the close association of mold and mycotoxins in certain foods. One comment suggested that defects indicate the presence of pathogens in foods. The Commissioner is aware of the health hazard of mycotoxins and the toxic metabolites produced by certain types of mold, and regulatory programs have previously been established to monitor and control mycotoxin contamination of food. Pathogens may occur in the absence of other defects. Therefore, the Commissioner does not regard the defect level in food as a reliable indicator of the presence of pathogens. When pathogens are found in food, regulatory action is taken against the food regardless of whether or not it contains defects that present no health hazard.

2. Some commented that public availability of the defect action levels eliminates the incentive to further reduce the levels of defects in foods. It was suggested that only the defect and not the defect action level be made publicly available. The Commissioner believes that public awareness of both the kinds and levels of defects in foods will provide both the food industry and government the incentive to actively increase their efforts to reduce the levels in food.

3. One comment suggested that a statement be included in the order that regulatory action may be taken against imported food at lower defect levels since imported food processors are not subject to factory inspection. Defect action levels represent the maximum levels for natural or unavoidable defects in foods produced under good manufacturing and/or processing practices and are the levels used for recommending regulatory action. The Commissioner concludes that the defect action level for such defects should be the same for a food regardless of whether a food is of domestic or foreign origin.

4. It was suggested that all defect action levels be established on the basis of published scientific and technological studies. The Commissioner finds that sources of information other than published studies are adequate to support defect action levels and the adoption of this suggestion would cause unnecessary expense and delay in the establishment of defect action levels.

5. One suggested change was to add a statement that the level of defects in the finished product is reduced during the manufacturing process and add a list of procedures used to remove defects during the manufacturing process. There is no question that the amounts of defects in a finished food are often reduced by the procedures incorporated in the various manufacturing processes. This reduction is significant where the defect action levels are for unprocessed commodities. However, the many manufacturing procedures used in processing foods that reduce the defects in food are variable in type, complexity, and efficiency. Therefore, these procedures do not permit delineation for purposes of the list that was suggested by this comment. The Commissioner concludes that paragraph (c) of the proposal is adequately explicit concerning the reduction of defects during processing and that a list of quality control procedures used to remove defects during processing is not pertinent to the intent of the regulation.

6. One comment suggested that paragraph (d) be modified to restrict its application to intent. The provisions of paragraph (d) are intended to prohibit the mixing of a food containing defects in excess of the current defect action level with another lot of the food not containing defects in excess of the current defect action level. The Commissioner concludes that the suggested modification would impose restriction on the application of the provisions of this paragraph that would not be in the best interest of consumers. As proposed, paragraph (d) could be interpreted to apply only when two lots of the same type of food are mixed. The paragraph has been edited to reflect its intended application to any mixing of a food containing defects above the action levels listed with the same or other foods whether or not the intended purpose of such mixing is to make a food containing the defects at a lower level.

7. Finally, it has been suggested that all defect levels be published for comment in the FEDERAL REGISTER. The Commissioner concurs in this suggestion. The defect levels were not included in the proposal, and are not contained in the final order, because many are out of date and all should be subject to a thorough review and, where appropriate, revision before they are proposed as formal action levels in the FEDERAL REGISTER. That review and revision is now under way, prompted in large part by making the defect levels a matter of public knowledge, and some reduction of these levels has already been found to be appropriate. When this review and revision is completed to the extent that the Food and Drug Administration can propose these as formal action levels, justified by current technology and methodology, they will be published in the FEDERAL REGISTER for public comment. Current defect action levels will, in the meanwhile, be available through the Office of the Assistant Commissioner for Public Affairs, Food and Drug Administration, Room 15B–42, 5600 Fishers Lane, Rockville, MD 20852. Paragraph (e) has been revised to reflect the fact that these action levels will in the future be included in the regulation.

Based on consideration of the comments received and other relevant information the Commissioner concludes that the proposed regulation should be adopted as set forth below.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201 et seq., 52 Stat. 1040 et seq., as amended; 21 U.S.C. 321 et seq.) and under authority delegated to the Commissioner (21 CFR 2.120), Part 128 is amended by adding the following new section:

§ 128.10 Natural or unavoidable defects in food for human use that present no health hazard.

(a) Some foods, even when produced under current good manufacturing and/or processing practices, contain natural or unavoidable defects at lower levels that are not hazardous to health. The Food and Drug Administration establishes maximum levels for such defects in foods produced under good manufacturing and/or processing practices and uses these levels for recommending regulatory actions.

(b) Defect action levels are established for products whenever it is necessary and feasible. Such levels are subject to change upon the development of new technology or the availability of new information.

(c) Compliance with defect action levels does not excuse failure to observe either the requirement in section 402(a)(4) of the Federal Food, Drug, and Cosmetic Act that food may not be prepared, packed, or held under insanitary conditions or the other requirements in this part that food manufacturers must observe current good manufacturing practices. Evidence obtained through factory inspection indicating such a violation renders the food unlawful, even though the amounts of natural or unavoidable defects are lower than the currently established action levels. The manufacturer of food must at all times utilize quality control procedures which will reduce natural or unavoidable defects to the lowest level currently feasible.

(d) The mixing of a food containing defects above the current defect action level with another lot of food is not permitted and renders the final food unlawful regardless of the defect level of the final food.

(e) Current action levels for natural and unavoidable defects in food for human use that present no health hazard are as follows. (Levels that have been adopted on a temporary basis prior to publication as a regulation may be obtained upon request at the Office of the Assistant Commissioner for Public Affairs, Food and Drug Administration, Room 15B–42, 5600 Fishers Lane, Rockville, MD 20852.)

V 38 - 3 JAN 5 73 XUM

Effective date. This order shall be effective January 5, 1973.

Dated: December 22, 1972.

(Secs. 201 et seq., 52 Stat. 1040 et seq., as amended; 21 U.S.C. 321 et seq.)

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

[FR Doc.73-158 Filed 1-4-73;8:45 am]

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Thiabendazole

The Commissioner of Food and Drugs has evaluated supplemental new animal drug applications (30-103V and 14-350V) filed by Merck Sharp & Dohme Research Laboratories, Division of Merck and Co., Rahway, N.J. 07065, proposing the use of thiabendazole boluses for the control of the gastrointestinal roundworms *Nematodirus spp.* and *Oesophagostomum radiatum* in cattle. The supplemental applications are approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135c is amended in the table in § 135c.7(e)(2)(ii) by revising items 1 and 2 in the "Indications for use" column, as follows:

§ 135c.7 Thiabendazole.

* * * * * * *

(e) * * *

(ii) It is also used as follows:

(2) * * *

IN A BOLUS OR IN LIQUID FORM

	Amount	Limitations	Indications for use
1. Thiabendazole	* * *	* * *	Control of infections of gastrointestinal roundworms (genera *Trichostrongylus spp., Haemonchus spp., Nema todirus spp., Osteriagia spp.,* and *Oesophagostomum radiatum*).
2. Thiabendazole	* * *	* * *	Control of severe infections of gastrointestinal roundworms (genera *Trichostrongylus spp., Haemonchus spp., Nematodirus spp., Osteriagia spp.,* and *Oesophagostomum radiatum*). Control of infections with *Cooperia spp.*
* * *	* * *	* * *	* * *

Effective date. This order shall become effective January 5, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: December 21, 1972.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

[FR Doc.73-45 Filed 1-4-73;8:45 am]

Chapter II—Bureau of Narcotics and Dangerous Drugs, Department of Justice

PART 308—SCHEDULES OF CONTROLLED SUBSTANCES

Exempt Chemical Preparations

The Director of the Bureau of Narcotics and Dangerous Drugs has received applications pursuant to § 308.23 of Title 21 of the Code of Federal Regulations requesting that several chemical preparations containing controlled substances be granted the exemptions provided for in § 308.24 of Title 21 of the Code of Federal Regulations.

The Director hereby finds that each of the following chemical preparations and mixtures is intended for laboratory, industrial, educational, or special research purposes, is not intended for general administration to a human being or other animal, and either (a) contains no narcotic controlled substance and is packaged in such a form or concentration that the package quantity does not present any significant potential for abuse, or (b) contains either a narcotic or nonnarcotic controlled substance and one or more adulterating or denaturing agents in such a manner, combination, quantity, proportion or concentration, that the preparation or mixture does not present any potential for abuse. If the preparation or mixture contains a narcotic controlled substance, the preparation or mixture is formulated in such a manner that it incorporates methods of denaturing or other means so that the preparation or mixture is not liable to be abused, and so that the narcotic substance cannot in practice be removed. The Director further finds that exemption of the following chemical preparations and mixtures is consistent with the public health and safety as well as the needs of researchers, chemical analysis, and suppliers of these products.

Therefore, under the authority vested in the Attorney General by sections 301 and 501(b) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 821 and 871(b)) and redelegated to the Director of the Bureau of Narcotics and Dangerous Drugs by § 0.100 of Title 28 of the Code of Federal Regulations, the Director hereby orders that Part 308 of Title 21 of the Code of Federal Regulations be amended as follows:

a. By amending 308.24(i) by adding the following chemical preparations:

§ 308.24 Exempt chemical preparations.

JOHN E. INGERSOLL,
Director, Bureau of Narcotics and Dangerous Drugs.

[FR Doc.73-95 Filed 1-4-73;8:45 am]

PART 308—SCHEDULES OF CONTROLLED SUBSTANCES

Exempt Chemical Preparations

A notice was published in the FEDERAL REGISTER of November 4, 1972 (37 FR 23551) proposing that several chemical preparations containing controlled substances be granted the exemptions provided for in § 308.24 of Title 21 of the Code of Federal Regulations. All interested persons were invited to submit objections or comments on the proposal by November 30, 1972. No objections or comments have been received. However, one entry was erroneous and the supplier has notified the Bureau; this entry has been corrected.

The Director hereby finds that each of the following chemical preparations and mixtures is intended for laboratory, industrial, educational, or special research purposes, is not intended for general administration to a human being or other animal, and either (a) contains no narcotic controlled substance and is packaged in such a form or concentration that the package quantity does not present any significant potential for abuse, or (b) contains either a narcotic or nonnarcotic controlled substance and one or more adulterating or denaturing agents in such a manner, combination, quantity, proportion, or concentration, that the preparation or mixture does not present any potential for abuse. If the preparation or mixture contains a narcotic controlled substance, the preparation or mixture is formulated in such a manner that it incorporates methods of denaturing or other means so that the preparation or mixture is not liable to be abused or to have ill effects, if abused, and so that the narcotic substance cannot in practice be removed. The Director further finds that exemption of the following chemical preparations and mixtures is consistent with the public health and safety as well as the needs of researchers, chemical analysts, and suppliers of these products.

Therefore, under the authority vested in the Attorney General by sections 301 and 501(b) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 821 and 871(b)) and redelegated to the Director of the Bureau of Narcotics and Dangerous Drugs by § 0.100 of Title 28 of the Code of Federal Regulations, the Director hereby orders that Part 308 of Title 21 of the Code of Federal Regulations be amended as follows:

a. By amending § 308.24(i) by adding the following chemical preparations:

Manufacturer or supplier	Product name and supplier's catalog number	Form of product	Date of application
Abbott Laboratories	AUS-tect CEP Barbital Acetate Buffer, No. 9025-02.	Plastic bag 2½" x 3¼"	8-21-72

Title 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

SUBCHAPTER M—MISCELLANEOUS

PART 274—REGULATIONS GOVERNING COMPETITIVE BIDDING ON U.S. GOVERNMENT GUARANTEED MILITARY EXPORT LOAN AGREEMENTS

The Secretary of Defense approved the following on November 28, 1972:

Sec.
274.1 Purpose.
274.2 Definitions.
274.3 Public notice.
274.4 U.S. guaranty.
274.5 Notice of intent to bid.
274.6 Submission of bids.
274.7 Acceptance of bids.
274.8 Bids - revocations - rejections - postponements.
275.9 Delegation of authority to the Secretary of the Treasury.
274.10 Reservations.

AUTHORITY: The provisions of this Part 274 are published under authority of section 24 of the Foreign Military Sales Act (22 U.S.C. 2764) and Executive Order 11501 (34 FR 20169).

§ 274.1 Purpose.

The purpose of this memorandum is to prescribe regulations under which the Secretary of Defense or his designee may, from time to time, by public notice, offer financial institutions the opportunity to bid on the interest rates for the subject agreements. The bids made will be subject to the terms, conditions, and procedures herein set forth, except as they may be supplemented in the public notice or notices issued by the Secretary of Defense or his designee in connection with particular offerings.

§ 274.2 Definitions.

(a) The terms "public notice," "notices," or "announcement" mean the public notice of invitation to bid and any supplementary or amendatory notices or announcements with respect thereto, including, but not limited to, any statement released to the press by the Secretary of Defense or his designee and notices sent to those who have filed notices of intent to bid or who have filed bids.

(b) The term "Loan Agreement" means the proposed agreement between the foreign government and the private U.S. lender as described in the particular notice of Invitation to Bid.

§ 274.3 Public notice.

(a) Bids hereunder will be invited through a public notice issued by the Secretary of Defense or his designee which will prescribe the amount of the loan for which bids are invited, the repayment schedule, the conditions under which bidders may specify the rate of interest, and the date and closing hour for receipt of bids.

(b) Accompanying the notice will be the form of the Loan Agreement which the successful bidder must execute with the borrower, except for those terms which will be subject to bidding.

§ 274.4 U.S. guaranty.

Under section 24 of the Foreign Military Sales Act (22 U.S.C. 2764), any individual, corporation, partnership, or other juridical entity (excluding U.S. Government agencies) will be guaranteed against political and credit risks of nonpayment arising out of their financing of credit sales of defense articles and defense services to friendly countries and international organizations. Section 24 explicitly provides that guarantees thereunder are backed by the full faith and credit of the United States. Fees in the amount of one-fourth of 1 percent of the amount of credits agreed upon shall be charged for such guaranties.

§ 274.5 Notice of intent to bid.

Any individual or organization, syndicates, or other group which intends to submit a bid, must, when required by the notice, give written notice of such intent on the appropriate form at the place and within the time specified in the public notice. Such notice, which shall be given to the Federal Reserve Bank of New York, 33 Liberty Street, New York, NY 10045, will not constitute a commitment to bid.

§ 274.6 Submission of bids.

(a) *General.* Bids will be received only at the place specified and not later than the time designated in the public notice. Bids shall be irrevocable.

(b) *Interest rates.* Bids must be expressed in terms of rates of interest not to exceed three decimals, for example, 5.125 percent.

(c) *Group bids.* A syndicate or other group submitting a bid must act through a representative who must be a member of the group. The representative must warrant to the Secretary of Defense or his designee, that he has all necessary power and authority to act for each member and to bind the members jointly and severally. In addition to whatever other data may be required by the Secretary of Defense or his designee, in the case of a syndicate, the representative must file, within 1 hour after the time for opening bids, at the place specified in the public notice for receipt of bids a final statement of the composition of the syndicate membership and the amount of each member's underwriting participation.

§ 274.7 Acceptance of bids.

(a) *Opening bids.* Bids will be opened at the time and place specified in the public notice.

(b) *Acceptance of successful bid.* The Secretary of Defense or his designee will notify any successful bidder of acceptance in the manner and form specified in the public notice.

§ 274.8 Bids-revocations-rejections-postponements.

The Secretary of Defense or his designee in his discretion, may (a) revoke the public notice of invitation to bid at any time before opening bids, (b) return all bids unopened either at or prior to the time specified for their opening, (c) reject any or all bids, (d) postpone the time for presentation and opening of bids, and (e) waive any immaterial or obvious defect in any bid. Any action the Secretary of Defense or his designee may take in these respects shall be final. In the event of a postponement, known bidders will be advised thereof and their bids returned unopened.

§ 274.9 Delegation of authority to the Secretary of the Treasury.

There is hereby delegated to the Secretary or Acting Secretary of the Treasury the authority, in the name of and title of the Secretary of the Treasury, to invite bids under this memorandum, to issue, modify and revoke public notices, notices, and announcements concerning such bids, to prescribe additional terms and conditions with respect thereto, consistent with this memorandum, to receive, return, open, reject, and accept bids, and to take such other actions as may be necessary and proper to execute this delegation of authority to implement this memorandum, excluding, however, the issuance of guaranties under § 274.4.

§ 274.10 Reservations.

The Secretary of Defense reserves the right, at any time, or from time to time, to amend, repeal, supplement, revise or withdraw all or any of the provisions of this memorandum.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Comptroller).

Title 24—HOUSING AND URBAN DEVELOPMENT

Chapter X—Federal Insurance Administration, Department of Housing and Urban Development

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Map No.	State map repository	Local map repository	Effective date of authorization of sale of flood insurance for area
• • •	• • •	• • •	• • •	• • •	• • •	• • •
Connecticut	Hartford	East Hartford, Town of.				Dec. 29, 1972. Emergency.
Illinois	Du Page	Lombard, Village of.				Do.
Iowa	Delaware and Dubuque.	Dyersville, City of.				Do.
Massachusetts	Barnstable	Sandwich, Town of.				Do.
Do	Plymouth	Hull, Town of				Do.
Do	Suffolk	Revere, City of				Do.
Michigan	Monroe	Monroe, City of				Do.
Missouri	Barry	Cassville, City of				Do.

V38-3 JAN 5 73 XUM

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

SUBCHAPTER A—GENERAL

[CGD 72-234R]

PART 3—COAST GUARD AREAS, DISTRICTS, MARINE INSPECTION ZONES, AND CAPTAIN OF THE PORT AREAS

Subpart 3.15—Third Coast Guard District

CAPTAINS OF THE PORT AREAS

This amendment establishes a new Captain of the Port Area at New Haven, Conn., and revises the boundaries of Captains of the Port New York, N.Y. and New London, Conn. The reason for the establishment of the new Captain of the Port New Haven, Conn. and the revision of the Captain of the Port New York, N.Y. and New London, Conn. areas is to provide full coverage of the major industrial ports within the Third Coast Guard District for matters related to port safety and environmental protection.

Since this is a matter relating to agency organization, it is exempted from notice of proposed rule making and public notice and procedure thereon by 5 U.S.C. 553.

Accordingly, Part 3 is amended to read as follows:

3.15-55 New London Captain of the Port.

(a) The New London Captain of the Port Office is located in New London, Conn.

(b) The New London Captain of the Port comprises all navigable waters of the United States and contiguous land areas with the following boundaries: West of a line from Watch Hill Light Station, R.I., due south to 41-09-48N and 71-51-30W; thence due west to Orient Point Light; thence westward along the northern shoreline of Long Island, N.Y. to 72-38-00W; thence north to the southern shoreline of Connecticut; westward along the shoreline to 72-40-00W; thence due north to the Connecticut-Massachusetts boundary; thence eastward along this boundary to the Rhode Island boundary; thence southward along the Rhode Island boundary to Watch Hill Light Station.

§ 3.15-57 New Haven Captain of the Port.

(a) The New Haven Captain of the Port is located in New Haven, Conn.

(b) The New Haven Captain of the Port area comprises all the navigable waters of the United States and contiguous land areas within the following boundaries: From the Connecticut-Massachusetts boundary at 72-40-00W south to the Connecticut shoreline; thence east along the shoreline to 72-38-00W; thence due south to the Long Island-New York shoreline; thence west along the Long Island shoreline to 73-00-00W; thence due south to 40-49-30N; thence west by south to 40-41-20N and 73-39-00W; thence due north to 40-59-00N; thence west to 73-40-00W; thence north to the Connecticut-New York boundary at 41-01-30N; thence northerly along the western boundary of Connecticut to the Massachusetts boundary; thence eastward along this boundary to 72-40-00W.

§ 3.15-60 New York Captain of the Port.

(a) The New York Captain of the Port is located in New York, N.Y.

(b) The New York Captain of the Port area comprises all the navigable waters of the United States and contiguous land areas within the following boundaries: A line extending from Navesink South Tower through Ambrose Light Tower to 40-35-00N and 73-39-00W; thence due north to 40-59-00N; thence west to 74-10-00W; thence southwesterly to 40-30-00N and 74-30-00W; thence due south to 40-23-48N; thence east to Navesink South Tower.

(80 Stat. 383, as amended, 63 Stat. 545, sec. 6(b), 80 Stat. 937; 5 U.S.C. 552, 14 U.S.C. 633, 49 U.S.C. 1655(b); and 49 CFR 1.45 and 1.46)

Effective date. This amendment becomes effective on January 5, 1973.

Dated: December 27, 1972.

C. R. BENDER,
Admiral,
U.S. Coast Guard Commandant.

[FR Doc.73-183 Filed 1-4-73;8:45 am]

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER A—INCOME TAX

[T.D. 7248]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

PART 13—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1969

Termination of Private Foundation Status

On November 11, 1970, notice of proposed rule making with respect to the amendment of the Income Tax Regulations (26 CFR Part 1) under section 507(b)(1) of the Internal Revenue Code of 1954, as added by section 101(a) of the Tax Reform Act of 1969 (83 Stat. 492) was published in the FEDERAL REGISTER (35 FR 17336). After consideration of all such relevant matters as were presented by interested persons regarding the rules proposed, the amendments of the regulations as proposed is hereby adopted, subject to the changes set forth below.

Temporary Treasury Regulation § 13.-12, added by T.D. 7063 (35 FR 15913), as modified by T.D. 7085 (36 FR 7005) and T.D. 7108 (36 FR 7005), is hereby superseded.

Section 1.507-2 as set forth in the notice of proposed rule making dated November 11, 1970, is amended to read as set forth below.

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: December 29, 1972.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

Temporary Treasury Regulation § 13.12, added by T.D. 7063 (35 FR 15913), as modified by T.D. 7085 (36 FR 7005) and T.D. 7108 (36 FR 7005), is hereby superseded.

The following regulations relating to the termination of private foundation status by transfer to, or operation as, a public charity are prescribed under section 507 of the Internal Revenue Code of 1954, as added by section 101(a) of the Tax Reform Act of 1969 (83 Stat. 492).

PARAGRAPH 1. Immediately after § 1.504-1, insert the following sections:

EXEMPT ORGANIZATIONS

PRIVATE FOUNDATIONS

§ 1.507 Statutory provisions; termination of private foundation status; general rule.

SEC. 507. *Termination of private foundation status.*—(a) *General rule.* Except as provided in subsection (b), the status of any organization as a private foundation shall be terminated only if—

(1) Such organization notifies the Secretary or his delegate (at such time and in such manner as the Secretary or his delegate may by regulations prescribe) of its intent to accomplish such termination, or

(2) (A) With respect to such organization, there have been either willful repeated acts (or failures to act), or a willful and flagrant act (or failure to act), giving rise to liability for tax under chapter 42, and

(B) The Secretary or his delegate notifies such organization that, by reason of subparagraph (A), such organization is liable for the tax imposed by subsection (c),

and either such organization pays the tax imposed by subsection (c) (or any portion not abated under subsection (g)) or the entire amount of such tax is abated under subsection (g).

(b) *Special rules*—

(1) *Transfer to, or operation as, public charity.* The status as a private foundation of any organization, with respect to which there have not been either willful repeated acts (or failures to act) or a willful and flagrant act (or failure to act) giving rise to liability for tax under chapter 42, shall be terminated if—

(A) Such organization distributes all of its net assets to one or more organizations described in section 170(b)(1)(A) (other than in clauses (vii) and (viii)) each of which has been in existence and so described for a continuous period of at least 60 calendar months immediately preceding such distribution, or

(B) (i) Such organization meets the requirements of paragraph (1), (2), or (3) of section 509(a) by the end of the 12-month period beginning with its first taxable year which begins after December 31, 1969, or for a continuous period of 60 calendar months beginning with the first day of any taxable year which begins after December 31, 1969,

(ii) Such organization notifies the Secretary or his delegate (in such manner as the Secretary or his delegate may by regulations prescribe) before the commencement of such 12-month or 60-month period (or before the 90th day after the day on which regulations first prescribed under this subsection become final) that it is terminating its private foundation status, and

(iii) Such organization establishes to the satisfaction of the Secretary or his delegate (in such manner as the Secretary or his delegate may by regulations prescribe) immediately after the expiration of such 12-month or 60-month period that such organization has complied with clause (i).

If an organization gives notice under subparagraph (B)(ii) of the commencement of a 60-month period and such organization fails to meet the requirements of paragraph (1), (2), or (3) of section 509(a) for the entire 60-month period, this part and chapter 42 shall not apply to such organization for any taxable year within such 60-month period for which it does meet such requirements.

(2) *Transferee foundations.* For purposes of this part, in the case of a transfer of assets of any private foundation to another private foundation pursuant to any liquidation, merger, redemption, recapitalization, or other adjustment, organization, or reorganization, the transferee foundation shall not be treated as a newly created organization.

(c) *Imposition of tax.* There is hereby imposed on each organization which is referred to in subsection (a) a tax equal to the lower of—

(1) The amount which the private foundation substantiates by adequate records or other corroborating evidence as the aggregate tax benefit resulting from the section 501(c)(3) status of such foundation, or

(2) The value of the net assets of such foundation.

(d) *Aggregate tax benefit*—

(1) *In general.* For purposes of subsection (c), the aggregate tax benefit resulting from the section 501(c)(3) status of any private foundation is the sum of—

(A) The aggregate increases in tax under chapters 1, 11, and 12 (or the corresponding provisions of prior law) which would have been imposed with respect to all substantial contributors to the foundation if deductions for all contributions made by such contributors to the foundation after February 28, 1913, had been disallowed, and

(B) The aggregate increases in tax under chapter 1 (or the corresponding provisions of prior law) which would have been imposed with respect to the income of the private foundation for taxable years beginning after December 31, 1912, if (i) it had not been exempt from tax under section 501(a) (or the corresponding provisions of prior law), and (ii) in the case of a trust, deductions under section 642(c) (or the corresponding provisions of prior law) had been limited to 20 percent of the taxable income of the trust (computed without the benefit of section 642(c) but with the benefit of section 170(b)(1)(A)), and

(C) Interest on the increases in tax determined under subparagraphs (A) and (B) from the first date on which each such increase would have been due and payable to the date on which the organization ceases to be a private foundation.

(2) *Substantial contributor.*

(A) *Definition.* For purposes of paragraph (1), the term "substantial contributor" means any person who contributed or bequeathed an aggregate amount of more than $5,000 to the private foundation, if such amount is more than 2 percent of the total contributions and bequests received by the foundation before the close of the taxable year of the foundation in which the contribution or bequest is received by the foundation from such person. In the case of a trust, the term "substantial contributor" also means the creator of the trust.

(B) *Special rules.* For purposes of subparagraph (A)—

(i) Each contribution or bequest shall be valued at fair market value on the date it was received,

(ii) In the case of a foundation which is in existence on October 9, 1969, all contributions and bequests received on or before such date shall be treated (except for purposes of clause (i)) as if received on such date,

(iii) An individual shall be treated as making all contributions and bequests made by his spouse, and

(iv) Any person who is a substantial contributor on any date shall remain a substantial contributor for all subsequent periods.

(3) *Regulations.* For purposes of this section, the determination as to whether and to what extent there would have been any increase in tax shall be made in accordance with regulations prescribed by the Secretary or his delegate.

(e) *Value of assets.* For purposes of subsection (c), the value of the net assets shall be determined at whichever time such value is higher: (1) the first day on which action is taken by the organization which culminates in its ceasing to be a private foundation, or (2) the date on which it ceases to be a private foundation.

(f) *Liability in case of transfers of assets from private foundation.* For purposes of determining liability for the tax imposed by subsection (c) in the case of assets transferred by the private foundation, such tax shall be deemed to have been imposed on the first day on which action is taken by the organization which culminates in its ceasing to be a private foundation.

(g) *Abatement of taxes.* The Secretary or his delegate may abate the unpaid portion of the assessment of any tax imposed by subsection (c), or any liability in respect thereof, if—

(1) The private foundation distributes all of its net assets to one or more organizations described in section 170(b)(1)(A) (other than in clauses (vii) and (viii)) each of which has been in existence and so described for a continuous period of at least 60 calendar months, or

(2) Following the notification prescribed in section 6104(c) to the appropriate State officer, such State officer within 1 year notifies the Secretary or his delegate, in such manner as the Secretary or his delegate may by regulations prescribe, that corrective action has been initiated pursuant to State law to insure that the assets of such private foundation are preserved for such charitable or other purposes specified in section 501(c)(3) as may be ordered or approved by a court of competent jurisdiction, and upon completion of the corrective action, the Secretary or his delegate receives certification from the appropriate State officer that such action has resulted in such preservation of assets.

[Sec. 507, as added by sec. 101(a), Tax Reform Act 1969 (83 Stat. 492)]

PAR. 2. There is inserted immediately after § 1.507-1 the following section:

§ 1.507-2 Special rules; transfer to, or operation as, public charity.

(a) *Transfer to public charities*—(1) *General rule.* Under section 507(b)(1)(A) a private foundation, with respect to which there have not been either willful repeated acts (or failures to act) or a willful and flagrant act (or failure to act) giving rise to liability for tax under chapter 42, may terminate its private foundation status by distributing all of its net assets to one or more organizations described in section 170(b)(1)(A) (other than in clauses (vii) and (viii)) each of which has been in existence and so described for a continuous period of at least 60 calendar months immediately preceding such distribution. Since section 507(a) does not apply to such a termination, a private foundation which makes such a termination is not required to give the notification described in section 507(a)(1). A private foundation which terminates its private foundation status under section 507(b)(1)(A) does not incur tax under section 507(c) and, therefore, no abatement of such tax under section 507(g) is required.

(2) *Effect of current ruling*—(i) *Distributions before final regulations.* With respect to distributions made before (insert day after the date these regulations are filed by the Office of the Federal Register), an organization to which a distribution of net assets is made will qualify as an organization "described in section 170(b)(1)(A) (other than clauses (vii) and (viii))" for purposes of meeting the requirements of section 507(b)(1)(A) without a further showing if such distributee organization:

(A) Has been in existence for a continuous period of at least 60 calendar months preceding the distribution described in subparagraph (1) of this paragraph;

(B) Has received a ruling or determination letter that it is an organization described in clause (i), (ii), (iii), (iv), (v), or (vi) of section 170(b)(1)(A);

(C) The facts and circumstances forming the basis for the issuance of the ruling have not substantially changed during the 60-month period referred to in (A) of this subdivision; and

(D) The ruling or determination letter referred to in (B) of this subdivision has not been revoked expressly or by a subsequent change of the law or regulations under which the ruling was issued.

(ii) *Distributions after final regulations.* With respect to distributions made after December 29, 1972, a private foundation seeking to terminate its private foundation status pursuant to section 507(b)(1)(A) may rely on a ruling or determination letter issued to a potential distributee organization that such distributee organization is an organization described in clause (i), (ii), (iii), (iv), (v), or (vi) of section 170(b)(1)(A) in accordance with the provisions of § 1.509(a)-7.

V38-3 JAN 5 73 XUM

(3) *Organizations described in more than one clause of section 170(b)(1)(A).* For purposes of this paragraph and section 507(b)(1)(A), the parenthetical term "other than in clauses (vii) and (viii)" shall refer only to an organization which is described only in section 170(b)(1)(A) (vii) or (viii). Thus, an organization described in clause (i), (ii), (iii), (iv), (v), or (vi) of section 170(b)(1)(A) will not be precluded from being a distributee described in section 507(b)(1)(A) merely because it also appears to meet the description of an organization described in section 170(b)(1)(A) (vii) or (viii).

(4) *Applicability of chapter 42 to foundations terminating under section 507(b)(1)(A).* Except as provided in subparagraph (5) of this paragraph, an organization which terminates its private foundation status pursuant to section 507(b)(1)(A) will remain subject to the provisions of chapter 42 until the distribution of all of its net assets to distributee organizations described in section 507(b)(1)(A) has been completed.

(5) *Special transitional rule.* (i) Section 4940(a) imposes a tax upon private foundations with respect to the carrying on of activities for each taxable year. For purposes of section 4940, an organization which terminates its private foundation status under section 507(b)(1)(A) by the end of the period described in subdivision (ii) of this subparagraph will not be considered as carrying on activities within the meaning of section 4940 during such period. Such organization will therefore not be subject to the tax imposed under section 4940(a) for such period.

(ii) The period referred to in subdivision (i) of this subparagraph is the 12-month period beginning with the first day of the organization's first taxable year which begins after December 31, 1969, but such period shall not be treated as ending before February 20, 1973. In the case of a private foundation distributing assets pursuant to section 507(b)(1)(A) to a medical research organization or a community trust (or in the case of a private foundation seeking to terminate into such an organization or trust pursuant to section 507(b)(1)(B)), the period described in this subdivision shall not be treated as ending before the 45th day after the day on which regulations respectively designated as § 1.170A–9(b)(2) and (e)(10) et seq. become final.

(iii) If the period described in subdivision (ii) of this subparagraph has not expired prior to the due date for the organization's annual return required to be filed by section 6033 or 6012 (determined with regard to any extension of time for filing the return) for its first taxable year which begins after December 31, 1969 (or for any other taxable year ending before the expiration of the period referred to in subdivision (ii) of this subparagraph), and if the organization has not terminated its private foundation status under section 507(b)(1)(A) by such date, then notwithstanding the provisions of subdivision (ii) of this subparagraph, the organization must take either of the following courses of action:

(A) Complete and file its annual return, including the line entitled "Tax on investment income from Part III," by such date, and pay the tax on investment income imposed under section 4940 at the time it files its annual return. If such organization subsequently terminates its private foundation status under section 507(b)(1)(A) within the period specified in subdivision (ii) of this subparagraph, it may file a claim for refund of the tax paid under section 4940; or

(B) Complete and file its annual return, except for the line entitled "Tax on investment income from Part III", by such date, and, in lieu of paying the tax on investment income imposed under section 4940, file a statement with its annual return which establishes that the organization has taken affirmative action by such date to terminate its private foundation status under section 507(b)(1)(A). Such statement must indicate the type of affirmative action taken and explain how such action will result in the termination of its private foundation status under section 507(b)(1)(A). Such affirmative action may include making application to the appropriate State court for approval of the distribution of all net assets pursuant to section 507(b)(1)(A) in the case of a charitable trust, or the passage of a resolution by the organization's governing body directing the distribution of all net assets pursuant to section 507(b)(1)(A) in the case of a not-for-profit corporation. A written commitment or letter of agreement by the trustee or governing body to one or more section 509(a)(1) distributees indicating an intent to distribute all of the organization's net assets to such distributees will also constitute appropriate affirmative action for purposes of this subdivision. An organization may take such affirmative action and may terminate its private foundation status under section 507(b)(1)(A) in reliance upon 26 CFR 13.12 (rev. as of Jan. 1, 1972) and upon the provisions of the notices of proposed rule making under sections 170(b)(1)(A), 507(b)(1), and 509. Thus, if a distributee organization meets the requirements of the provisions of the notices of proposed rule making under sections 170(b)(1)(A), 507, or 509 as a distributee under section 507(b)(1)(A), the distributor organization may terminate its private foundation status under section 507(b)(1)(A) in reliance upon such provisions prior to the expiration of the period described in subdivision (ii) of this subparagraph. If such organization, however, fails to terminate its private foundation status under section 507(b)(1)(A) within the period specified in subdivision (ii) of this subparagraph by failing to meet the requirements of either the notices of proposed rule making under section 170(b)(1)(A), 507(b)(1), or 509 or the final regulations published under these Code sections, the tax imposed under section 4940 shall be treated as if due from the due date for its annual return (determined without regard to any extension of time for filing its return).

The provisions of this subdivision are applicable only to an organization terminating its private foundation status under section 507(b)(1)(A) and may not be relied upon by any other organization with respect to its own classification under section 509(a)(1) (except as to its liability as a transferee for the tax imposed by section 4940).

(6) *Return required from organizations terminating private foundation status under section 507(b)(1)(A).* (i) An organization which terminates its private foundation status under section 507(b)(1)(A) is required to file a return under the provisions of section 6043(b), rather than under the provisions of section 6050.

(ii) An organization which terminates its private foundation status under section 507(b)(1)(A) is not required to comply with section 6104(d) for the taxable year in which such termination occurs. For purposes of this subdivision, the term "taxable year" shall include the period described in subparagraph (5)(ii) of this paragraph.

(7) *Distribution of net assets.* A private foundation will meet the requirement that it "distribute all of its net assets" within the meaning of section 507(b)(1)(A) only if it transfers all of its right, title, and interest in and to all of its net assets to one or more organizations referred to in section 507(b)(1)(A).

(8) *Effect of restrictions and conditions upon distributions of net assets.* [Reserved]

(b) *Operation as a public charity—*(1) *In general.* Under section 507(b)(1)(B) an organization can terminate its private foundation status if the organization:

(i) Meets the requirements of section 509(a)(1), (2), or (3) by the end of the 12-month period (as extended by paragraph (c)(3)(i) of this section) beginning with its first taxable year which begins after December 31, 1969, or for a continuous period of 60 calendar months beginning with the first day of any taxable year which begins after December 31, 1969;

(ii) In compliance with section 507(b)(1)(B)(ii) and subparagraph (4) of this paragraph, properly notifies the district director before the commencement of such 12-month or 60-month period or before March 29, 1973 that it is terminating its private foundation status; and

(iii) Properly establishes immediately after the expiration of such 12-month or 60-month period that such organization has complied with the requirements of section 509(a)(1), (2), or (3) by the end of the 12-month period or during the 60-month period, as the case may be, in the manner described in subparagraph (4) of this paragraph.

(2) *Relationship of section 507(b)(1)(B) to section 507(a), (c), and (g).* Since section 507(a) does not apply to a termination described in section 507(b)(1)(B), a private foundation's notification that it is commencing a termination pursuant to section 507(b)(1)(B) will not be treated as a notification described in section 507(a) even if the private foundation does not successfully terminate its private foundation status pursuant to section 507(b)(1)(B). A private foundation which terminates its private foundation status under section 507(b)(1)(B) does not incur tax under section 507(c) and, therefore, no abatement of such tax under section 507(g) is required.

(3) *Notification of termination.* In order to comply with the requirements under section 507(b)(1)(B)(ii), an organization shall before the commencement of the 12-month or 60-month period under section 507(b)(1)(B)(i) (or before March 29, 1973) notify the district director of its intention to terminate its private foundation status. Such notification shall contain the following information:

(i) The name and address of the private foundation;

(ii) Its intention to terminate its private foundation status;

(iii) Whether the 12-month or 60-month period shall apply;

(iv) The Code section under which it seeks classification (section 509(a)(1), (2), or (3));

(v) If section 509(a)(1) is applicable, the clause of section 170(b)(1)(A) involved;

(vi) The date its regular taxable year begins; and

(vii) The date of commencement of the 12-month or 60-month period.

(4) *Establishment of termination.* In order to comply with the requirements under section 507(b)(1)(B)(iii), an organization shall within 90 days after the expiration of the 12-month or 60-month period, file such information with the district director as is necessary to make a determination as to the organization's status as an organization described under section 509(a)(1), (2), or (3) and the regulations thereunder. See paragraphs (c) and (d) of this section as to the information required to be submitted under this subparagraph.

(5) *Incomplete information; 12- and 60-month terminations.* The failure to supply, within the required time, all of the information required by subparagraph (3) or (4) of this paragraph is not alone sufficient to constitute a failure to satisfy the requirements of section 507(b)(1)(B). If the information which is submitted within the required time is incomplete and the organization supplies the necessary additional information at the request of the Commissioner within the additional time period allowed by him, the original submission will be considered timely.

(6) *Application of special rules and filing requirements.* An organization which has terminated its private foundation status under section 507(b)(1)(B) is not required to comply with the special rules set forth in section 508 (a) and (b). Such organization is also not required to file a return under the provisions of section 6043(b) or 6050 by reason of termination of its private foundation status under the provisions of section 507(b)(1)(B).

(7) *Extension of time to assess deficiencies.* If a private foundation files a notification (described in subparagraph (3) of this paragraph) that it intends to begin a 60-month termination pursuant to section 507(b)(1)(B) and does not file a request for an advance ruling pursuant to paragraph (e) of this section, such private foundation may file with the notification described in subparagraph (3) of this paragraph a consent under section 6501(c)(4) to the effect that the period of limitation upon assessment under section 4940 for any taxable year within the 60-month termination period shall not expire prior to 1 year after the date of the expiration of the time prescribed by law for the assessment of a deficiency for the last taxable year within the 60-month period. Such consents, if filed, will ordinarily be accepted by the Commissioner. See paragraph (f)(3) of this section for an illustration of the procedure required to obtain a refund of the tax imposed by section 4940 in a case where such a consent is not in effect.

(c) *Twelve-month terminations—*(1) *Method of determining normal sources of support—*(i) *In general.* The 12-month termination provisions of section 507(b)(1)(B) permit a private foundation to terminate its private foundation status by changing its organizational structure, its operations, the sources of its support, or any combination thereof, in order to conform to the requirements of section 509(a)(1), (2), or (3) by the end of the 12-month period.

(ii) *Support requirements for 12-month termination under section 170(b)(1)(A)(vi).* A private foundation attempting to meet the requirements of section 509(a)(1) as an organization described in section 170(b)(1)(A)(vi) will be considered "normally" to receive a substantial part of its support from governmental units or direct or indirect contributions from the general public if it can establish that it has changed the sources of its support before the close of the 12-month period to those of an organization described in section 170(b)(1)(A)(vi) and it can reasonably be expected to maintain its private foundation status for subsequent years. In order to establish these facts, an organization shall submit all information sufficient to make a determination under § 1.170A–9(e) as if such provisions applied, including a description of all organizational and operational changes which have occurred during the 12-month period. It shall also submit detailed information with respect to its sources of support for the 12-month period, as well as for the four taxable years immediately preceding the 12-month period. In applying the tests contained in § 1.170A–9(e), however, data from periods preceding the 12-month period shall be disregarded except for purposes of determining whether the organization has effectively changed its sources of support and whether it can reasonably be expected to maintain such publicly supported status for subsequent years. Thus, for example, in applying the mathematical tests of § 1.170A–9(e) only data for the 12-month period may enter into the computation.

(iii) *Support requirements for 12-month terminations under section 170(b)(1)(A)(iv).* Section 170(b)(1)(A)(iv) describes an organization which "normally" receives a substantial part of its support (exclusive of income from related activities) from the United States or any State or political subdivision thereof, or from the general public, and which is organized and operated exclusively to receive, hold, invest, and administer property and to make expenditures to or for the benefit of certain colleges or universities. For purposes of the 12-month termination period, the rule set forth in subdivision (ii) of this subparagraph with respect to section 170(b)(1)(A)(vi) organizations shall be applicable in determining whether an organization "normally" receives a substantial part of its support from the sources required under section 170(b)(1)(A)(iv).

(iv) *Support requirements for 12-month terminations under section 509(a)(2).* An organization attempting to terminate its private foundation status under section 507(b)(1)(B) by meeting the requirements of section 509(a)(2) by the end of the 12-month period will be considered as "normally" receiving its support in compliance with the one-third support requirements of section 509(a)(2) if:

(A) For the 12-month period under section 507(b)(1)(B), the organization receives more than one-third of its support from gifts, grants, contributions, membership fees, and gross receipts from related activities (as limited by section 509(a)(2)(A)(ii)) and not more than one-third of its support from gross investment income, and

(B) The organization can establish that it can reasonably be expected to maintain its continued public support for subsequent years. In order to establish a reasonable expectation of continued public support, an organization shall submit a detailed statement describing its past and current operations, any organizational or operational changes and when such changes have occurred, and any changes in its foundation managers (as defined in section 4946(b)(1)). Duplicate copies of its governing instrument and bylaws, with an indication of any amendments made, and detailed information with respect to its sources of support for the 4 taxable years immediately preceding the 12-month period shall also be submitted as part of the evidence that the organization can reasonably be expected to maintain its publicly supported status.

(2) *Organizational and operational tests—*(i) *Section 509(a)(3) organizations—*(A) *In general.* An organization

V 38 I 3 JAN 5 73 XUM

attempting to terminate its private foundation status under section 507(b)(1)(B) by meeting the requirements of section 509(a)(3) by the end of the 12-month period is required to meet the organizational and operational test of section 509(a)(3)(A), in addition to the requirements of section 509(a)(3)(B) and (C), by the end of the 12-month period beginning with its first taxable year which begins after December 31, 1969. An organization may qualify under section 509(a)(3)(A) even though its original governing instrument did not limit its purposes to those set forth in section 509(a)(3)(A) and even though it operated for some other purpose before the end of the 12-month period, if it has amended its governing instrument and changed its operations to conform to the requirements of section 509(a)(3) by the end of the 12-month period.

(B) *Proof of changed status.* In order to establish that an organization described in (A) of this subdivision will continue to be operated exclusively for the required purposes in years subsequent to the end of the 12-month period, such organization shall submit a detailed statement describing its past and current operations, any organizational or operational changes and when such changes have occurred, any changes in foundation managers (as defined in section 4946(b)(1)), and duplicate copies of its governing instrument and bylaws, with an indication of any amendments made. A detailed statement of the relationship between such organization and the specified organizations described in section 509(a)(1) or (2) (as required by section 509(a)(3)(A) and (B)) and all pertinent information to establish that the organization does not violate the control requirements of section 509(a)(3)(C) shall also be submitted.

(ii) *Section 509(a)(1) organizations other than those described in section 170(b)(1)(A)(vi)*—

(A) *In general.* An organization attempting to terminate its private foundation status under section 507(b)(1)(B) by meeting the requirements of section 170(b)(1)(A)(i), (ii), (iii), (iv), or (v) by the end of the 12-month period is required to be operated as an organization described in clauses (i), (ii), (iii), (iv), or (v) of section 170(b)(1)(A) by the end of the 12-month period beginning with its first taxable year which begins after December 31, 1969.

(B) *Proof of changed status.* In order to establish that it will continue to be operated as an organization described in section 509(a)(1) in years subsequent to the end of the 12-month period, the organization shall submit a detailed statement describing its past and current operations, any organizational or operational changes and when such changes have occurred, and any changes in its foundation managers (as defined in section 4946(b)(1)). Duplicate copies of its governing instrument and bylaws, with an indication of any amendments made, and its financial statements for the 4-taxable years immediately preceding the 12-month period shall also be submitted as evidence that the organization can reasonably be expected to maintain its status as an organization described in section 170(b)(1)(A)(i), (ii), (iii), (iv), or (v).

(3) *Extensions of the 12-month period.* (i) For purposes of this section, an organization may accomplish a 12-month termination if it meets the requirements of section 507(b)(1)(B) and this paragraph for such a termination with respect to any of the following periods:

(A) The 12-month period beginning with the organization's first taxable year which begins after December 31, 1969;

(B) The period described in paragraph (a)(5)(ii) of this section; or

(C) Any period consisting of two or more taxable years beginning with the organization's first taxable year beginning after December 31, 1969, and ending with any taxable year ending before the end of the period described in paragraph (a)(5)(ii) of this section.

(ii) An organization will be considered as "normally" meeting the requirements of section 170(b)(1)(A)(iv) or (vi) or 509(a)(2), as the case may be, if it meets the requirements of such provision with respect to any period described in subdivision (i)(A), (B), or (C) of this subparagraph. Thus, for example, an organization on a calendar year basis which seeks to convert to a section 509(a)(2) organization under section 507(b)(1)(B) may meet the one-third support requirement based on the aggregate support received during a period described in subdivision (i)(A), (B), or (C) of this subparagraph, for purposes of subparagraph (1)(iv) of this paragraph.

(4) *Status of organization subsequent to the 12-month period.* For purposes of sections 507 through 509, an organization, the status of which as a private foundation is terminated under section 507(b)(1), shall (except as provided in paragraph (b)(6) of this section) be treated as an organization created on the day after the date of such termination. However, termination of private foundation status under the provisions of section 507(b)(1)(B) is based upon an organization's submission of information establishing compliance by the end of the 12-month period with the requirements of subparagraph (1) or (2) of this paragraph. Therefore, if in the 4 taxable years immediately following the end of the 12-month period, the sources of support or the methods of operation of the organization are materially different from the facts and circumstances presented during the 12-month period upon which the determination under section 507(b)(1)(B)(iii) was made (and such material difference adversely affects such determination), the organization will be deemed not to have satisfied the requirements of section 507(b)(1)(B). Under such circumstances, section 509(c) will not apply and the organization will continue to remain subject to the provisions of section 507. However, the status of grants and contributions under sections 170, 4942, and 4945 will not be affected until the Internal Revenue Service makes notice to the public (such as by publication in the Internal Revenue Bulletin) that the organization has been deleted from classification as an organization described in section 509(a)(1), (2), or (3) unless the donor (1) was in part responsible for, or was aware of, the act or failure to act that resulted in the organization's inability to satisfy the requirements of section 507(b)(1)(B), or (2) had knowledge that such organization would be deleted from classification as an organization described in section 509(a)(1), (2), or (3). Prior to the making of any grant or contribution which allegedly will not result in the grantee's loss of classification under section 509(a)(1), (2), or (3), a potential grantee organization may request a ruling whether such grant or contribution may be made without such loss of classification. A request for such ruling may be filed by the grantee organization with the district director. The issuance of such ruling will be at the sole discretion of the Commissioner.

(d) *Sixty-month terminations*—(1) *Method of determining normal sources of support.* (i) In order to meet the requirement of section 507(b)(1)(B) for the 60-month termination period as a section 509(a)(1) or (2) organization, an organization must meet the requirements of section 509(a)(1) or (2), as the case may be, for a continuous period of at least 60 calendar months. In determining whether an organization seeking status under section 509(a)(1) as an organization described in section 170(b)(1)(A)(iv) or (vi) or under section 509(a)(2) "normally" meets the requirements set forth under such sections, support received in taxable years prior to the commencement of the 60-month period shall not be taken into consideration, except as otherwise provided in this section. Therefore, in such cases rules similar to the rules applicable to new organizations would apply.

(ii) For purposes of section 507(b)(1)(B), an organization will be considered to be a section 509(a)(1) organization described in section 170(b)(1)(A)(vi) for a continuous period of 60 calendar months only if the organization satisfies the provisions of § 1.170A–9(e) based upon aggregate data for such entire period, rather than for any shorter period set forth in § 1.170A–9(e). Except for the substitution of such 60-month period for the periods described in § 1.170A–9(e), all other provisions of such regulations pertinent to determining an organization's normal sources of support shall remain applicable.

(iii) For purposes of section 507(b)(1)(B), an organization will be considered to be a section 509(a)(2) organization only if such organization meets the support requirements set forth in section 509(a)(2)(A) and (B) for the continuous period of 60 calendar months prescribed under section 507(b)(1)(B), rather than for any shorter period set forth in the regulations under section 509(a)(2). Except for the substitution of such 60-month period for the periods

described in the regulations under section 509(a)(2), all other provisions of such regulations pertinent to determining an organization's normal sources of support shall remain applicable.

(2) *Organizational and operational tests.* In order to meet the requirements of section 507(b)(1)(B) for the 60-month termination period as an organization described in section 170(b)(1)(A)(i), (ii), (iii), (iv), or (v) or section 509(a)(3), as the case may be, an organization must meet the requirements of the applicable provision for a continuous period of at least 60 calendar months. For purposes of section 507(b)(1)(B), an organization will be considered to be such an organization only if it satisfies the requirements of the applicable provision (including with respect to section 509(a)(3), the organizational and operational test set forth in subparagraph (A) thereof) at the commencement of such 60-month period and continuously thereafter during such period.

(e) *Advance rulings for 60-month terminations*—(1) *In general.* An organization which files the notification required by section 507(b)(1)(B)(ii) that it is commencing a 60-month termination may obtain an advance ruling from the Commissioner that it can be expected to satisfy the requirements of section 507(b)(1)(B)(i) during the 60-month period. Such an advance ruling may be issued if the organization can reasonably be expected to meet the requirements of section 507(b)(1)(B)(i) during the 60-month period. The issuance of a ruling will be discretionary with the Commissioner.

(2) *Basic consideration.* In determining whether an organization can reasonably be expected (within the meaning of subparagraph (1) of this paragraph) to meet the requirements of section 507(b)(1)(B)(i) for the 60-month period, the basic consideration is whether its organizational structure (taking into account any revisions made prior to the beginning of the 60-month period), proposed programs or activities, intended method of operation, and projected sources of support are such as to indicate that the organization is likely to satisfy the requirements of section 509(a)(1), (2), or (3) and paragraph (d) of this section during the 60-month period. In making such a determination, all pertinent facts and circumstances shall be considered.

(3) *Reliance by grantors and contributors.* For purposes of sections 170, 545(b)(2), 556(b)(2), 642(c), 4942, 4945, 2055, 2106(a)(2), and 2522, grants or contributions to an organization which has obtained a ruling referred to in this paragraph will be treated as made to an organization described in section 509(a)(1), (2), or (3), as the case may be, until notice that such advance ruling is being revoked is made to the public (such as by publication in the Internal Revenue Bulletin). The preceding sentence shall not apply, however, if the grantor or contributor was responsible for, or aware of, the act or failure to act that resulted in the organization's failure to meet the requirements of section 509(a)(1), (2), or (3), or acquired knowledge that the Internal Revenue Service had given notice to such organization that its advance ruling would be revoked. Prior to the making of any grant or contribution which allegedly will not result in the grantee's failure to meet the requirements of section 509(a)(1), (2), or (3), a potential grantee organization may request a ruling whether such grant or contribution may be made without such failure. A request for such ruling may be filed by the grantee organization with the district director. The issuance of such ruling will be at the sole discretion of the Commissioner. The organization must submit all information necessary to make a determination on the factors referred to in subparagraph (2) of this paragraph. If a favorable ruling is issued, such ruling may be relied upon by the grantor or contributor of the particular contribution in question for purposes of sections 170, 507, 545(b)(2), 556(b)(2), 642(c), 4942, 4945, 2055, 2106(a)(2), and 2522.

(4) *Reliance by organization.* An organization obtaining an advance ruling pursuant to this paragraph cannot rely on such a ruling. Consequently, if the organization does not pay the tax imposed by section 4940 for any taxable year or years during the 60-month period, and it is subsequently determined that such tax is due for such year or years (because the organization did not in fact complete a successful termination pursuant to section 507(b)(1)(B) and was not treated as an organization described in section 509(a)(1), (2), or (3) for such year or years), the organization is liable for interest in accordance with section 6601 if any amount of tax under section 4940 has not been paid on or before the last date prescribed for payment. However, since any failure to pay such tax during the 60-month period (or prior to the revocation of such ruling) is due to reasonable cause, the penalty under section 6651 with respect to the tax imposed by section 4940 shall not apply.

(5) *Extension of time to assess deficiencies.* The advance ruling described in subparagraph (1) of this paragraph shall be issued only if such organization's request for an advance ruling is filed with a consent under section 6501(c)(4) to the effect that the period of limitation upon assessment under section 4940 for any taxable year within the advance ruling period shall not expire prior to 1 year after the date of the expiration of the time prescribed by law for the assessment of a deficiency for the last taxable year within the 60-month period.

(f) *Effect on grantors or contributors and on the organization itself*—(1) *Effect of satisfaction of requirements for termination*—(i) *Treatment during the termination period.* In the event that an organization satisfies the requirements of section 507(b)(1)(B) for termination of its private foundation status by the end of the 12-month period or during the continuous 60-month period, such entire 12-month or 60-month period in the same manner as an organization described in section 509(a)(1), (2), or (3).

(ii) *Twelve-month terminations by fiscal year organizations.* In the case of an organization which operates on a fiscal year basis and terminates its private foundation status by the end of the 12-month period beginning with its first taxable year which begins after December 31, 1969, such 12-month period shall, for purposes of this paragraph, be treated as including the period between January 1, 1970, and the last day of the taxable year immediately preceding its first taxable year which begins after December 31, 1969, so long as the requirements of section 507(b)(1)(B) and paragraph (c) of this section are met by the end of the 12-month period (including such additional period).

(2) *Failure to meet termination requirements*—(i) *In general.* Except as otherwise provided in subdivision (ii) of this subparagraph and paragraph (e) of this section, any organization which fails to satisfy the requirements of section 507(b)(1)(B) for termination of its private foundation status by the end of the 12-month period or during the continuous 60-month period shall be treated as a private foundation for the entire 12-month or 60-month period, for purposes of sections 507 through 509 and chapter 42, and grants or contributions to such an organization shall be treated as made to a private foundation for purposes of sections 170, 507(b)(1)(A), 4942, and 4945.

(ii) *Certain 60-month terminations.* Notwithstanding subdivision (i) of this subparagraph, if an organization fails to satisfy the requirements of section 509(a)(1), (2), or (3) for the continuous 60-month period but does satisfy the requirements of section 509(a)(1), (2), or (3), as the case may be, for any taxable year or years during such 60-month period, the organization shall be treated as a section 509(a)(1), (2), or (3) organization for such taxable year or years and grants or contributions made during such taxable year or years shall be treated as made to an organization described in section 509(a)(1), (2), or (3). In addition, sections 507 through 509 and chapter 42 shall not apply to such organization for any taxable year within such 60-month period for which it does meet such requirements. For purposes of determining whether an organization satisfies the requirements of section 509(a)(1), (2), or (3) for any taxable year in the 60-month period, the organization shall be treated as if it were a new organization with its first taxable year beginning on the date of the commencement of the 60-month period. Thus, for example, if an organization were attempting to terminate its private foundation status under section 507(b)(1)(B) by meeting the requirements of section 170(b)(1)(A)(vi), the rules under § 1.170A–9(e) relating to the initial determination of status of a new organization would apply.

(iii) *Aggregate tax benefit.* For purposes of section 507(d), the organization's aggregate tax benefit resulting

V 38 I 3 JAN 5 73 XUM

from the organization's section 501(c)(3) status shall continue to be computed from the date from which such computation would have been made, but for the notice filed under section 507(b)(1)(B)(ii), except that any taxable year within such 60-month period for which such organization meets the requirements of section 509(a)(1), (2), or (3) shall be excluded from such computations.

(iv) *Excess business holdings.* See section 4943 and the regulations thereunder for rules relating to decreases in a private foundation's holdings in a business enterprise which are caused by the foundation's failure to terminate its private foundation status after giving the notification for termination under section 507(b)(1)(B)(ii).

(3) *Example.* The provisions of this paragraph may be illustrated by the following example:

Example. Y, a calendar year private foundation, notifies the district director that it intends to terminate its private foundation status by converting into a publicly supported organization described in section 170(b)(1)(A)(vi) and that its 60-month termination period will commence on January 1, 1974. Y does not obtain a ruling described in paragraph (e) of this section. Based upon its support for 1974 Y does not qualify as a publicly supported organization within the meaning of § 1.170A-9(e) and this paragraph. Consequently, in order to avoid the risks of penalties and interest if Y fails to terminate within the 60-month period, Y files its return as a private foundation and pays the tax imposed by section 4940. Similarly, based upon its support for the period 1974 through 1975, fails to qualify as such a publicly supported organization and files its return and pays the tax imposed by section 4940 for both 1975 and 1976. Since a consent (described in paragraph (b)(7) of this section) which would prevent the period of limitation from expiring is not in effect, in order to be able to file a claim for refund, Y and the district director agree to extend the period of limitation for all taxes imposed under chapter 42. However, based upon its support for the period 1974 through 1976 Y does qualify as a publicly supported organization, and therefore shall not be treated as a private foundation for either 1977 or 1978 even if it fails to terminate within the 60-month period. However, based upon the aggregate data for the entire 60-month period (1974 through 1978), Y does qualify as an organization described in section 170(b)(1)(A)(vi). Consequently, pursuant to this paragraph, Y is treated as if it had been a publicly supported organization for the entire 60-month period. Y files claim for refund for the taxes paid under section 4940 for the years 1974, 1975, and 1976, and such taxes are refunded.

(g) *Special transitional rules for organizations operating as public charities.* Section 4940 imposes a tax upon private foundations with respect to the carrying on of activities for each taxable year. For purposes of section 4940, an organization which terminates its private foundation status under section 507(b)(1)(B) by the end of the period described in paragraph (a)(5)(ii) of this section will not be considered as carrying on activities within the meaning of section 4940 during such period. Such organization will therefore not be subject to the tax imposed under section 4940 for such period. Consequently, in the case of an organization seeking to terminate its private foundation status under section 507(b)(1)(B) if the period described in paragraph (a)(5)(ii) of this section has not expired prior to the due date for the organization's annual return required to be filed under section 6033 or 6012 (determined with regard to any extension of time for filing the return) for its first taxable year which begins after December 31, 1969 (or any other taxable year ending before the expiration of the period described in paragraph (a)(5)(ii) of this paragraph) and if the organization has not terminated its private foundation status under section 507(b)(1)(B) by such date, then notwithstanding the provisions of paragraph (f) of this section, the organization must take either of the following courses of action:

(1) Complete its annual return including the line entitled "Tax on investment income from Part III" by such date, and pay the tax on investment income imposed under section 4940 at the time it files its annual return. If such organization subsequently terminates its private foundation status under section 507(b)(1)(B) within a period specified in paragraph (c)(3)(i) of this section, it may file a claim for refund of the tax paid under section 4940; or

(2) Complete and file its annual return, except for the line entitled "Tax on investment income from Part III," by such date, and in lieu of paying the tax on investment income imposed under section 4940, file a statement with its annual return which establishes that the organization has taken affirmative action by such date to terminate its private foundation status under section 507(b)(1)(B). Such statement must indicate the type of affirmative action taken and explain how such action will result in the termination of its private foundation status under section 507(b)(1)(B). Such affirmative action may include making application to the appropriate State court for approval to amend the provisions of the organization's trust instrument to limit payments to specified section 509(a)(1) or (2) beneficiaries pursuant to section 509(a)(3) in the case of a charitable trust; commencing a fund-raising drive among the general public in the case of an organization seeking to become a section 170(b)(1)(A)(vi) or 509(a)(2) organization; or the passage of a resolution by the organization's governing body or the filing of an amendment to the organization's articles of incorporation permitting a change in the operations of the organization to enable it to conform to the provisions of section 509(a)(1), (2), or (3) in the case of a not-for-profit corporation. An organization may take such affirmative action and may terminate its private foundation status under section 507(b)(1)(B) in reliance upon 26 CFR 13.12 (rev. as of January 1, 1972) and upon the provisions of the notices of proposed rule making under sections 170(b)(1)(A), 507(b)(1), and 509. Thus, if an organization meets the requirements of the provisions of the notice of proposed rule making as a section 509(a)(3) organization, such organization may terminate its private foundation status under section 507(b)(1)(B) in reliance upon such provisions prior to the expiration of the period described in paragraph (a)(5)(ii) of this section. If such organization, however, fails to terminate its private foundation status under section 507(b)(1)(B) within the period specified in paragraph (a)(5)(ii) of this section by failing to meet the requirements of either the notices of proposed rule making under section 170(b)(1)(A), 507(b)(1), or 509 or the final regulations published under these code sections, the tax imposed under section 4940 shall be treated as if due from the due date for its annual return (determined without regard to any extension of time for filing its return).

While an organization can terminate its private foundation status under section 507(b)(1)(B) by operation as a section 509(a)(1), (2) or (3) organization in reliance upon the provisions of this paragraph, it will retain its status as a section 509(a)(1), (2) or (3) organization after the publication of final regulations under sections 170(b)(1)(A), 507, and 509 only if it meets the requirements of such final regulations.

SUBCHAPTER C—EMPLOYMENT TAXES

[T.D. 7251]

PART 31—EMPLOYMENT TAXES; APPLICABLE ON AND AFTER JANUARY 1, 1955

Withholding With Respect to Part-Year Employment

On June 23, 1972, notice of proposed rule making with respect to the amendment of the Employment Tax Regulations (26 CFR Part 31) in order to authorize the use of a new method of computing the amount of income tax to be deducted and withheld with respect to part-year employment was published in the FEDERAL REGISTER (37 FR 12394). After consideration of all relevant matter presented by interested persons regarding the proposed rules, § 31.3402(h)(4)-1 of the Employment Tax Regulations is amended by inserting headings in paragraphs (a) and (b) and by adding a new paragraph (c), to read as set forth below.

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: December 29, 1972.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

In order to authorize the use of a new method of computing the amount of income tax to be deducted and withheld with respect to part-year employment, § 31.3402(h)(4)-1 of the Employment Tax Regulations (26 CFR Part 31) is amended by inserting headings in paragraphs (a) and (b) and by adding a new paragraph (c) to read as follows:

§ 31.3402(h)(4)-1 Other methods.

(a) *Maximum permissible deviations.* • • •

(b) *Combined FICA and income tax withholding.* • • •

(c) *Part-year employment method of withholding*—(1) *In general.* In addition to the methods authorized by other paragraphs of this section, in the case of part-year employment (as defined in subparagraph (4) of this paragraph) of an employee who determines his liability for tax under subtitle A of the Code on a calendar-year basis and who has in effect a request that the amount of tax to be withheld from his wages be computed according to the part-year employment method described in this paragraph, the employer may determine the amount of tax to be deducted and withheld upon a payment of wages made to the employee on or after January 5, 1973, by taking the following steps:

Step 1. Add the amount of wages to be paid to the employee for the current payroll period to the total amount of wages paid by the employer to the employee for all preceding payroll periods included in the current term of continuous employment (as defined in subparagraph (3) of this paragraph) of the employee by the employer;

Step 2. Divide the aggregate amount of wages computed in Step 1 by the total of the number of payroll periods to which that amount relates plus the equivalent number of payroll periods (as defined in subparagraph (2) of this paragraph) in the employee's term of continuous unemployment immediately preceding the current term of continuous employment, such term of continuous unemployment to be exclusive of any days prior to the beginning of the current calendar year;

Step 3. Determine the total amount of tax that would have been required to be deducted and withheld under section 3402 if the average amount of wages (as computed in Step 2) had been paid to the employee for the number of payroll periods determined in Step 2 (including the equivalent number of payroll periods); and

Step 4. Determine the excess, if any, of the amount of tax computed in Step 3 over the total amount of tax already deducted and withheld by the employer from wages paid to the employee for all payroll periods during the current term of continuous employment.

The use of the method described in this paragraph does not preclude the employee from claiming additional withholding allowances for estimated itemized deductions pursuant to section 3402(m) or the standard deduction allowance pursuant to section 3402(f)(1)(G).

(2) *Equivalent number of payroll periods.* For purposes of this paragraph, the equivalent number of payroll periods shall be determined by dividing the number of calendar days contained in the current payroll period into the number of calendar days between the later of (i) the day certified by the employee as his last day of employment prior to his current term of continuous employment during the calendar year in which such term commenced, or (ii) the last day of the calendar year immediately preceding the current calendar year, and the first day of the current term of continuous employment. For purposes of the preceding sentence, the term "calendar days" includes holidays, Saturdays, and Sundays. In determining the equivalent number of payroll periods, any fraction obtained in the division described in the first sentence of this subparagraph shall be disregarded. An employee paid for a miscellaneous payroll period shall be considered to have a daily payroll period for purposes of this subparagraph. In a case in which an employee is paid for a daily or miscellaneous payroll period and the employer elects under paragraph (d)(2) of § 31.3402(h)-1 to compute the tax to be withheld as if the aggregate of the wages paid to the employee during the calendar week were paid for a weekly period, the employer shall determine the equivalent number of payroll periods for purposes of the computation of the tax to be withheld for the calendar week on the basis of a weekly payroll period (notwithstanding the fact that a determination of the equivalent number of payroll periods for purposes of the computation of the tax to be withheld upon wages paid for daily or miscellaneous payroll periods within such calendar week has been made on the basis of a daily or miscellaneous payroll period).

(3) *Term of continuous employment.* For purposes of this paragraph, a term of employment is continuous if it is either a single term of employment or two or more consecutive terms of employment with the same employer. A term of continuous employment begins on the first day on which any services are performed by the employee for the employer for which compensation is paid or payable. Such term ends on the earlier of (i) the last day during the current term of continuous employment on which any services are performed by the employee for the employer, or (ii) if the employee performs no services for the employer for a period of more than 30 calendar days, the last day preceding such period on which any services are performed by the employee for the employer. For example, a professional athlete who signs a contract on December 31, 1973, to perform services from July 1 through December 31 for the calendar years 1974, 1975, and 1976 has a new term of employment beginning each July 1 and accordingly may qualify for use of the part-year withholding method in each of such years. Likewise, a term of continuous employment is not broken by a temporary layoff of no more than 30 days. On the other hand, when an employment relationship is actually terminated the term of continuous employment is ended even though a new employment relationship is established with the same employer within 30 days. A "term of continuous employment" includes all days on which an employee performs any services for an employer and includes days on which services are not performed because of illness or vacation, or because such days are holidays or are regular days off (such as Saturdays and Sundays, or days off in lieu of Saturdays and Sundays), or other days for which the employee is not scheduled to work. For example, an employee who is employed 2 days a week for the same employer from March 1 through December 31 has a term of continuous employment of 306 days.

(4) *Part-year employment.* For purposes of this paragraph, the term "part-year employment" means a term of continuous employment (i) the total duration of which will not exceed 245 days, (ii) which, during the current calendar year, will not exceed 245 days, or (iii) which, during the calendar year will entitle the employee to wages of more than $30,000. For example, A graduates from college in June and accepts a permanent position with X Co., beginning July 1. Since the total duration of A's term of continuous employment will exceed 245 days it does not qualify as part-year employment for purposes of this section.

(5) *Employee's request.* (i) An employee's request that his employer withhold according to the part-year employment method shall be in writing and in such form as the employer may prescribe. Such request shall be made under the penalties of perjury and shall contain the following information—

(a) The last day of employment (if any) by any employer prior to the current term of continuous employment during the calendar year in which such term commenced.

(b) A statement that the employee reasonably anticipates that he will have no more than $30,000 in gross income from all sources for the calendar year and that he will have no more than 245 days of employment, either based upon all employment during the current calendar year or based upon the current term of continuous employment during the current calendar year and the following year (for this purpose days of employment shall include all days on which an employee performs any services for an employer,) and includes days on which services are not performed because of illness or vacation, or because such days are holidays or are regular days off (such as Saturdays and Sundays, or days off in lieu of Saturdays and Sunday or other days for which the employee is not scheduled to work), and

(c) The employee uses a calendar-year accounting period.

An employee's request furnished to his employer pursuant to this section shall be effective, and may be acted upon by his employer, with respect to wages paid after the furnishing of such request, and shall cease to be effective with respect to any wages paid on or after the beginning of the payroll period during which the current calendar year will end.

V 38 - 3 JAN 5 73 XUM

(ii) If, on any day during the calendar year, any of the anticipations stated by the employee in his statement provided pursuant to subdivision (i)(b) of this subparagraph becomes unreasonable, the employee shall revoke the request described in this subparagraph before the end of the payroll period during which it becomes unreasonable. The revocation shall be effective as of the beginning of the payroll period during which it is made.

(6) *Examples.* The application of this paragraph may be illustrated by the following examples:

Example (1). A, a calendar-year taxpayer, being unemployed for the period beginning on May 25, 1973, and ending on October 28, 1973, a period of 157 calendar days, is employed by X Co. X Co. anticipates that A's employment will last 8 calendar weeks, from October 29 to December 23, and A's wages therefor will not exceed $30,000. In the Form W-4 which A furnishes X Co. A claims four exemptions and married status. A makes a written request, incorporating the statements required under subparagraph (5)(i)(b), that X Co. withhold on the basis of the part-year employment method. A works for the period beginning October 29, 1973, and ending on November 11, 1973, and earns $1,800 in wages. Wages are paid on a biweekly basis. Using the part-year employment method, X Co. determines that $22.80 is required to be deducted and withheld from A's wages to be paid for his services from October 29 to November 11, 1973. The determination is made as follows:

Amount of wages to be paid for the payroll period (biweekly)	$1,800.00
Number of payroll periods:	
Payroll period—October 29 to November 11	1
The equivalent number of payroll periods for the period of unemployment, disregarding the fractional payroll period	11
	12
Average amount of wages per payroll period including equivalent number of payroll periods ($1,800÷12)	$150.00
Amount required to be withheld from a payment of $150 for a biweekly payroll period to a married person with 4 exemptions according to the wage bracket tables	1.90
Total amount required to be withheld under the wage bracket method with respect to all payroll periods (including equivalent number of payroll periods) ($1.90×12)	22.80
Amount already withheld by employer	0
Amount to be withheld under part-year employment method ($22.80−0 (the amount previously withheld))	22.80

Example (2). A works for X for another 2-week period beginning on November 12, 1973, and ending on November 25, 1973, for which he earns $2,100. X Co., using the part-year employment method, determines that $323 is required to be deducted and withheld with respect to the wages for the current payroll period, as follows:

Amount of wages to be paid for the payroll period (biweekly)	$2,100.00
Amount of wages previously paid by the employer	1,800.00
Sum of amount of wages to be paid with respect to current payroll period and amount of wages already paid	3,900.00
Number of payroll periods:	
Payroll periods—October 29 to November 11 and November 12 to November 25	2
The equivalent number of payroll periods for the period of unemployment	11
	13
Average amount of wages per payroll period ($3,900÷13)	$300.00
Amount required to be withheld according to wage bracket tables from a payment of $300 for a biweekly payroll period to a married person with 4 exemptions	26.60
Total amount required to be withheld under the wage bracket method with respect to all payroll periods (including equivalent number of payroll periods) ($26.60×13)	345.80
Amount already withheld by employer	22.80
Amount required to be withheld under the part-year employment method $345.80−$22.80)	323.00

[FR Doc.72-22465 Filed 12-29-72;5:08 pm]

SUBCHAPTER D—MISCELLANEOUS EXCISE TAXES

[T.D. 7250]

PART 53—FOUNDATION EXCISE TAXES

Subpart A—Taxes on Investment Income

On March 20, 1971, notice of proposed rule making was published with respect to promulgation of regulations under section 4940 of the Internal Revenue Code of 1954, as enacted by section 101(b) of the Tax Reform Act of 1969 (83 Stat. 498), relating to taxes on investment income. After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the Foundation Excise Tax Regulations are amended as follows: Except where otherwise specifically provided, these regulations are applicable to taxable years beginning after December 31, 1969.

§ 53.4940 Statutory provisions; imposition of excise tax on investment income.

Sec. 4940. *Excise tax based on investment income*—(a) *Tax-exempt foundations.* There is hereby imposed on each private foundation which is exempt from taxation under section 501(a) for the taxable year, with respect to the carrying on of its activities, a tax equal to 4 percent of the net investment income of such foundation for the taxable year.

(b) *Taxable foundations.* There is hereby imposed on each private foundation which is not exempt from taxation under section 501(a) for the taxable year, with respect to the carrying on of its activities, a tax equal to:

(1) The amount (if any) by which the sum of (A) the tax imposed under subsection (a) (computed as if such subsection applied to such private foundation for the taxable year), plus (B) the amount of the tax which would have been imposed under section 511 for the taxable year if such private foundation had been exempt from taxation under section 501(a), exceeds

(2) The tax imposed under subtitle A on such private foundation for the taxable year.

(c) *Net investment income defined*—(1) *In general.* For purposes of subsection (a), the net investment income is the amount by which (A) the sum of the gross investment income and the net capital gain exceeds (B) the deductions allowed by paragraph (3). Except to the extent inconsistent with the provisions of this section, net investment income shall be determined under the principles of subtitle A.

(2) *Gross investment income.* For purposes of paragraph (1), the term "gross investment income" means the gross amount of income from interest, dividends, rents, and royalties, but not including any such income to the extent included in computing the tax imposed by section 511.

(3) *Deductions*—(A) *In general.* For purposes of paragraph (1), there shall be allowed as a deduction all the ordinary and necessary expenses paid or incurred for the production or collection of gross investment income or for the management, conservation, or maintenance of property held for the production of such income, determined with the modifications set forth in subparagraph (B).

(B) *Modifications.* For purposes of subparagraph (A)—

(i) The deduction provided by section 167 shall be allowed, but only on the basis of the straight line method of depreciation.

(ii) The deduction for depletion provided by section 611 shall be allowed, but such deduction shall be determined without regard to section 613 (relating to percentage depletion).

(4) *Capital gains and losses.* For purposes of paragraph (1) in determining net capital gain—

(A) There shall be taken into account only gains and losses from the sale or other disposition of property used for the production of interest, dividends, rents, and royalties, and property used for the production of income included in computing the tax imposed by section 511 (except to the extent gain or loss from the sale or other disposition of such property is taken into account for purposes of such tax).

(B) The basis for determining gain in the case of property held by the private foundation on December 31, 1969, and continuously thereafter to the date of its disposition shall be deemed to be not less than the fair market value of such property on December 31, 1969.

(C) Losses from sales or other dispositions of property shall be allowed only to the extent of gains from such sales or other dispositions, and there shall be no capital loss carryovers.

(5) *Tax-exempt income.* For purposes of this section, net investment income shall be determined by applying section 103 (relating to interest on certain governmental obligations) and section 265 (relating to expenses and interest relating to tax-exempt income).

[Sec. 4940 as added by sec. 101(b), Tax Reform Act 1969 (83 Stat. 498)]

§ 53.4940–1 Excise tax on net investment income.

(a) *In general.* Section 4940 imposes an excise tax of 4 percent on the net investment income (as defined in section 4940(c) and paragraph (c) of this section) of a tax-exempt private foundation (as defined in section 509) for each taxable year beginning after December 31, 1969. This tax will be reported on the form the foundation is required to file

under section 6033 for the taxable year and will be paid annually at the time prescribed for filing such annual return (determined without regard to any extension of time for filing). In addition, an excise tax is imposed in the manner prescribed in paragraph (b) of this section on certain taxable private foundations. This tax is to be reported by means of a schedule attached to its income tax return and is to be paid annually at the time the organization is required to pay its income taxes imposed under subtitle A. Except as otherwise provided herein, no exclusions or deductions from gross investment income or credits against tax are allowable under this section.

(b) *Taxable foundations.* (1) The excise tax imposed under section 4940 on private foundations which are not exempt from taxation under section 501(a) is equal to:

(i) The amount (if any) by which the sum of

(A) The tax on net investment income imposed under section 4940(a), computed as if such private foundation were exempt from taxation under section 501(a) and described in section 501(c)(3) for the taxable year, plus

(B) The amount of the tax which would have been imposed under section 511 for such taxable year if such private foundation had been exempt from taxation under section 501(a), exceeds.

(ii) The tax imposed under subtitle A on such private foundation for the taxable year.

(2) The provisions of this paragraph may be illustrated by the following examples:

Example (1). Assume that the tax liability under subtitle A for private foundation X, which is not exempt from taxation under section 501(a) for 1970, is $10,000. Had X been exempt under section 501(a) for 1970, the tax imposed under section 4940(a) would have been $4,000 and the tax imposed under section 511 would have been $7,000. The excess of the sum of the taxes which would have been imposed under sections 4940(a) and 511 ($11,000) over the tax that was imposed under subtitle A ($10,000) is $1,000, the amount of the tax imposed on such organization under section 4940(b).

Example (2). Assume the facts stated in Example (1), except that the tax liability under subtitle A is $15,000 rather than $10,000. Because the sum of the taxes which would have been imposed under sections 4940(a) and 511 ($11,000) does not exceed the tax that was imposed under subtitle A ($15,000), there is no tax imposed under section 4940(b) with respect to such foundation.

(c) *Net investment income defined*—(1) *In general.* For purposes of section 4940(a), "net investment income" of a private foundation is the amount by which:

(i) The sum of the gross investment income (as defined in section 4940(c)(2) and paragraph (d) of this section) and the net capital gain (within the meaning of section 4940(c)(4) and paragraph (f) of this section) exceeds

(ii) The deductions allowed by section 4940(c)(3) and paragraph (e) of this section.

Except to the extent inconsistent with the provisions of this section, net investment income shall be determined under the principles of subtitle A.

(2) *Tax-exempt income.* For purposes of computing net investment income under section 4940, the provisions of section 103 (relating to interest on certain governmental obligations) and section 265 (relating to expenses and interest relating to tax-exempt income) and the regulations thereunder shall apply.

(d) *Gross investment income*—(1) *In general.* For purposes of paragraph (c) of this section, "gross investment income" means the gross amounts of income from interest, dividends, rents, and royalties (including overriding royalties) received by a private foundation from all sources, but does not include such income to the extent included in computing the tax imposed by section 511. Under this definition, interest, dividends, rents, and royalties derived from assets devoted to charitable activities are includible in gross investment income. Therefore, for example, interest received on a student loan would be includible in the gross investment income of a private foundation making such loan.

(2) *Certain estate and trust disbursements.* In the case of a distribution from an estate or a trust described in section 4947(a)(1) or (2), such distribution shall not retain its character in the hands of the distributee for purposes of computing the tax under section 4940; except that, in the case of a distribution from a trust described in section 4947(a)(2), the income of such trust attributable to transfers in trust after May 26, 1969, shall retain its character in the hands of a distributee private foundation for purposes of section 4940 (unless such income is taken into account because of the application of section 671).

(3) *Treatment of certain distributions in redemption of stock.* For purposes of applying section 302(b)(1), any distribution made to a private foundation by a disqualified person (as defined in section 4946(a)), in redemption of stock held by such private foundation in a business enterprise shall be treated as not essentially equivalent to a dividend if all of the following conditions are satisfied: (i) Such redemption is of stock which was owned by a private foundation on May 26, 1969 (or which is acquired by a private foundation under the terms of a trust which was irrevocable on May 26, 1969, or under the terms of a will executed on or before such date, which is in effect on such date and at all times thereafter, or would have passed under such a will but before that time actually passes under a trust which would have met the test of this subdivision but for the fact that the trust was revocable (but was not in fact revoked)); (ii) such foundation is required to dispose of such property in order not to be liable for tax under section 4943 (relating to taxes on excess business holdings); and (iii) such foundation receives in return an amount which equals or exceeds the fair market value of such property at the time of such disposition or at the time a contract for such disposition was previously executed in a transaction which would not constitute a prohibited transaction (within the meaning of section 503(b) or the corresponding provisions of prior law). In the case of a disposition before January 1, 1975, section 4943 shall be applied without taking section 4943(c)(4) into account. A distribution which otherwise qualifies under section 302 as a distribution in part or full payment in exchange for stock shall not be treated as essentially equivalent to a dividend because it does not meet the requirements of this subparagraph.

(e) *Deductions*—(1) *In general.* (i) For purposes of computing net investment income, there shall be allowed as a deduction from gross investment income all the ordinary and necessary expenses paid or incurred for the production or collection of gross investment income or for the management, conservation, or maintenance of property held for the production of such income, determined with the modifications set forth in subparagraph (2) of this paragraph. Such expenses include that portion of a private foundation's operating expenses which is paid or incurred for the production or collection of gross investment income. Taxes paid or incurred under this section are not paid or incurred for the production or collection of gross investment income. A private foundation's operating expenses include compensation of officers, other salaries and wages of employees, outside professional fees, interest, and rent and taxes upon property used in the foundation's operations. Where a private foundation's officers or employees engage in activities on behalf of the foundation for both investment purposes and for exempt purposes, compensation and salaries paid to such officers or employees must be allocated between the investment activities and the exempt activities. To the extent a private foundation's expenses are taken into account in computing the tax imposed by section 511, they shall not be deductible for purposes of computing the tax imposed by section 4940.

(ii) Where only a portion of property produces, or is held for the production of, income subject to the section 4940 excise tax, and the remainder of the property is used for exempt purposes, the deductions allowed by section 4940(c)(3) shall be apportioned between the exempt and non-exempt uses.

(iii) No amount is allowable as a deduction under this section to the extent it is paid or incurred for purposes other than those described in subdivision (i) of this subparagraph. Thus, for example, the deductions prescribed by the following sections are not allowable: (1) the charitable deduction prescribed under section 170 and 642(c); (2) the net operating loss deduction prescribed under section 172; and (3) the special deductions prescribed under Part VIII, Subchapter B, Chapter 1.

(2) *Deduction modifications.* The following modifications shall be made in

V 38 I 3 JAN 5 73 XUM

determining deductions otherwise allowable under this paragraph:

(i) The depreciation deduction shall be allowed, but only on the basis of the straight line method provided in section 167(b)(1).

(ii) The depletion deduction shall be allowed, but such deduction shall be determined without regard to section 613, relating to percentage depletion.

(iii) The basis to be used for purposes of the deduction allowed for depreciation or depletion shall be the basis determined under the rules of Part II of subchapter O of chapter 1, subject to the provisions of section 4940(c)(3)(B), and without regard to section 4940(c)(4)(B), relating to the basis for determining gain, or section 362(c). Thus, a private foundation must reduce the cost or other substituted or transferred basis by an amount equal to the straight line depreciation or cost depletion, without regard to whether the foundation deducted such depreciation or depletion during the period prior to its first taxable year beginning after December 31, 1969. However, where a private foundation has previously taken depreciation or depletion deductions in excess of the amount which would have been taken had the straight line or cost method been employed, such excess depreciation or depletion also shall be taken into account to reduce basis. If the facts necessary to determine the basis of property in the hands of the donor or the last preceding owner by whom it was not acquired by gift are unknown to a donee private foundation, then the original basis to such foundation of such property shall be determined under the rules of § 1.1015-1(a)(3).

(iv) The deduction for expenses paid or incurred in any taxable year for the production of gross investment income earned as an incident to a charitable function shall be no greater than the income earned from such function which is includible as gross investment income for such year. For example, where rental income is incidentally realized in 1971 from historic buildings held open to the public, deductions for amounts paid or incurred in 1971 for the production of such income shall be limited to the amount of rental income includible as gross investment income for 1972.

(f) *Capital gain and losses*—(1) *General rule.* In determining net capital gain for purposes of the tax imposed by section 4940, there shall be taken into account only capital gains and losses from the sale or other disposition of property held by a private foundation for investment purposes (other than program-related investments, as defined in section 4944(c)), and property used for the production of income included in computing the tax imposed by section 511 except to the extent gain or loss from the sale or other disposition of such property is taken into account for purposes of such tax. For taxable years beginning after December 31, 1972, property shall be treated as held for investment purposes even though such property is disposed of by the foundation immediately upon its receipt, if it is property of a type which generally produces interest, dividends, rents, royalties, or capital gains through appreciation (for example, rental real estate, stock, bonds, mineral interests, mortgages, and securities). Under this subparagraph, gains and losses from the sale or other disposition of property used for the exempt purposes of the private foundation are excluded. For example, gain or loss on the sale of the buildings used for the exempt activities of a private foundation would not be subject to the section 4940 tax. Where the foundation uses property for its exempt purposes, but also incidentally derives income from such property which is subject to the tax imposed by section 4940(a), any gain or loss resulting from the sale or other disposition of such property is not subject to the tax imposed by section 4940(a). For example, if a tax-exempt private foundation maintains buildings of a historical nature and keeps them open for public inspection, but requires a number of its employees to live in these buildings and charges the employees rent, the rent would be subject to the tax imposed by section 4940(a), but any gain or loss resulting from the sale of such property would not be subject to such tax. However, where the foundation uses property for both exempt purposes and (other than incidentally) for investment purposes (for example, a building in which the foundation's charitable and investment activities are carried on), that portion of any gain or loss from the sale or other disposition of such property which is allocable to the investment use of such property must be taken into account in computing net capital gain for such taxable year. For purposes of this paragraph, a distribution of property for purposes described in section 170(c)(1) or (2)(B) which is a qualifying distribution under section 4942 shall not be treated as a sale or other disposition of property.

(2) *Basis.* (i) The basis for purposes of determining gain from the sale or other disposition of property shall be the greater of:

(A) Fair market value on December 31, 1969, plus or minus all adjustments after December 31, 1969, and before the date of disposition under the rules of Part II of Subchapter O of Chapter 1, provided that the property was held by the private foundation on December 31, 1969, and continuously thereafter to the date of disposition, or

(B) Basis as determined under the rules of Part II of Subchapter O of Chapter 1,

subject to the provisions of section 4940(c)(3)(B) (and without regard to section 362(c)).

(ii) For purposes of determining loss from the sale or other disposition of property, basis as determined in subdivision (i)(B) of this subparagraph shall apply.

(3) *Losses.* Where the sale or other disposition of property referred to in section 4940(c)(4)(A) results in a capital loss, such loss may be subtracted from capital gains from the sale or other disposition of other such property during the same taxable year, but only to the extent of such gains. Should losses from the sale or other disposition of such property exceed gains from the sale or other disposition of such property during the same taxable year, such excess may not be deducted from gross investment income under section 4940(c)(3) in any taxable year, nor may such excess be used to reduce gains in either prior or future taxable years, regardless of whether the foundation is a corporation or a trust.

(4) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). A private foundation holds certain depreciable real property on December 31, 1969, having a basis of $102,000. The fair market value of such property on that date was $100,000. For its taxable year 1970 the foundation was allowed depreciation for such property of $5,100 on the straight line method, the allowable amount computed on the $102,000 basis. The property was sold on January 1, 1971, for $100,000. Because fair market value on December 31, 1969, less straight line depreciation of $5,100 ($94,900) is less than basis as determined by Part II of Subchapter O of Chapter 1, $96,900 ($102,000 less $5,100), a gain of $3,100 is recognized (i.e., sales price of $100,000 less the greater of the two possible bases).

Example (2). Assume the same facts in example 1, except that the sale price was $95,000. Because the sale price was $1,900 less than the basis for loss ($96,900 as determined by the application of subparagraph (2)(ii) of this paragraph), there is a capital loss of $1,900 which may be deducted against capital gains for 1971 (if any) in determining net capital gain.

Example (3). A private foundation holds certain depreciable real property on December 31, 1969, having a basis of $102,000. The fair market value of such property on that date was $110,000. For its taxable year 1970 the foundation was allowed depreciation for such property of $5,100 on the straight line method, the allowable amount computed on the $102,000 basis. The property was sold on January 1, 1971, for $100,000. Fair market value on December 31, 1969, less straight line depreciation of $5,100 ($104,900) exceeds basis as determined by Part II of Subchapter O of Chapter 1, $96,900 ($102,000 less $5,100), and will be used for purposes of determining gain. Because basis for purposes of determining gain exceeds sale price, there is no gain. There is no loss because basis for purposes of determining loss ($96,900) is less than sale price.

(Sec. 7805 of the Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

DEFINITIONS OF "WIFE," "WIDOW" AND "LEGALLY ADOPTED CHILD"

On page 24680 of the FEDERAL REGISTER of November 18, 1972, there was published a notice of proposed rule making to amend §§ 3.51, 3.57, 3.210, 3.315, 3.356, 3.403, and 3.503 to define "wife," "widow," and "legally adopted child." Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulations.

No written objections have been received and the proposed regulations are hereby adopted without change and are set forth below.

Effective date. These VA Regulations are effective October 24, 1972.

Approved: December 27, 1972.

By direction of the Administrator.

[SEAL] FRED B. RHODES,
Deputy Administrator.

1. Section 3.51 is revised to read as follows:

§ 3.51 Husband or widower.

(a) *General.* The term "wife" includes the husband of a female veteran and the term "widow" includes the widower of a female veteran.

(38 U.S.C. 102(b))

(b) *Entitlement.* A husband or widower is in the same status as a wife or widow of a male veteran and is eligible to receive the same benefits, if otherwise entitled, in a claim for pension, compensation, or dependency and indemnity compensation.

2. In § 3.57, paragraph (c) is amended to read as follows:

§ 3.57 Child.

• • • • • •

(c) *Legally adopted child.* The term means a child adopted pursuant to a final decree of adoption, a child adopted pursuant to an unrescinded interlocutory decree of adoption while remaining in the custody of the adopting parent (or parents) during the interlocutory period, and a child who has been placed for adoption under an agreement entered into by the adopting parent (or parents) with any agency authorized under law to so act, unless and until such agreement is terminated, while the child remains in the custody of the adopting parent (or parents) during the period of placement for adoption under such agreement. The term includes, as of the date of death of a veteran, such a child who

(1) Was under age 18 and living in the veteran's household at the time of his death, and

(2) Was adopted by the veteran's spouse under a decree issued within 2 years after August 25, 1959, or the veteran's death whichever is later, and

(3) Was not receiving from an individual other than the veteran or his spouse, or from a welfare organization which furnishes services or assistance for children, recurring contributions of sufficient size to constitute the major portion of the child's support.

3. In § 3.210, the introductory portion of paragraph (c) preceding subparagraph (1) is amended to read as follows:

§ 3.210 Child's relationship.

• • • • • •

(c) *Adopted child.* Except as provided in subparagraph (1) of this paragraph evidence of relationship will include a certified copy of the decree of adoption or a copy of the adoptive placement agreement and such other evidence as may be necessary.

• • • • • •

4. Section 3.315 is revised to read as follows:

§ 3.315 Basic eligibility determinations; dependents, loans, education.

(a) *Child over 18 years.* A child of a veteran may be considered a "child" after age 18 for purposes of benefits under title 38, United States Code (except ch. 19 and sec. 5202(b) of ch. 85), if found by a rating determination to have become, prior to age 18, permanently incapable of self-support.

(38 U.S.C. 101(4)(B))

(b) *Loans.* Where a World War II veteran or a Korean conflict veteran had less than 90 days' service, or a veteran who served on or after February 1, 1955, had less than 181 days' service on active duty as defined in §§ 36.4301(gg) and 36.4501(o) of this chapter, eligibility of the veteran for a home, farm, or business loan under 38 U.S.C. ch. 37 requires a determination that the veteran was discharged or released because of a service-connected disability or that the official service department records show that he had at the time of separation from service a service-connected disability which in medical judgment would have warranted a discharge for disability. These determinations are subject to the presumption of incurrence under § 3.304(b). Determinations based on World War II, Korean conflict and Vietnam era service are also subject to the presumption of aggravation under § 3.306(b) while determinations based on service on or after February 1, 1955, and before August 5, 1964 are subject to the presumption of aggravation under § 3.306(a) and (c). The provisions of this paragraph are also applicable, regardless of length of service, in determining eligibility to the maximum period of entitlement based on discharge or release for a service-connected disability.

(38 U.S.C. 1802, 1816)

(c) *Veterans' educational assistance.* Where a veteran who served on or after February 1, 1955, had less than 181 days service on active duty, as defined in § 21.1040 of this chapter, eligibility for educational assistance under 38 U.S.C. ch. 34 requires a determination that the veteran was discharged or released because of a service-connected disability or that the official service department records show that he had at the time of separation from service a service-connected disability which in medical judgment would have warranted a discharge for disability. These determinations are subject to the presumptions of incurrence under § 3.304(b) and aggravation under § 3.306(a) and (c), based on service rendered on or after February 1, 1955 and before August 5, 1964, and under § 3.306(b), based on service rendered during the Vietnam era.

(38 U.S.C. 1652(a))

5. In § 3.356, paragraph (a) and the introductory portion and subparagraphs (1) and (2) of paragraph (b) are amended to read as follows:

§ 3.356 Conditions which determine permanent incapacity for self-support.

(a) *Basic determinations.* A child must be shown to be permanently incapable of self-support by reason of mental or physical defect at the date of attaining the age of 18 years.

(b) *Rating criteria.* Rating determinations will be made solely on the basis of whether the child is permanently incapable of self-support through his own efforts by reason of physical or mental defects. The question of permanent incapacity for self-support is one of fact for determination by the rating agency on competent evidence of record in the individual case. Rating criteria applicable to disabled veterans are not controlling. Principal factors for consideration are:

(1) The fact that a claimant is earning his or her own support is prima facie evidence that he or she is not incapable of self-support. Incapacity for self-support will not be considered to exist when the child by his or her own efforts is provided with sufficient income for his or her reasonable support.

(2) A child shown by proper evidence to have been permanently incapable of self-support prior to the date of attaining the age of 18 years, may be so held at a later date even though there may have been a short intervening period or periods when his or her condition was such that he or she was employed, provided the cause of incapacity is the same as that upon which the original determination was made and there were no intervening diseases or injuries that could be considered as major factors. Employment which was only casual, intermittent, tryout, unsuccessful, or terminated after a short period by reason of disability, should not be considered as rebutting permanent incapability of self-support otherwise established.

• • • • • •

V38-3 JAN 5 73 XUM

6. In § 3.403, paragraph (f) is amended to read as follows:

§ 3.403 Children.

Awards of pension, compensation, or dependency and indemnity compensation, to or for a child, or to or for a veteran or widow on behalf of such child, will be effective as follows:

• • • • •

(f) *Adopted child.* Date of adoption either interlocutory or final or date of adoptive placement agreement, but not earlier than the date from which benefits are otherwise payable.

7. In § 3.503, paragraph (j) is amended to read as follows:

§ 3.503 Children.

The effective date of discontinuance of pension, compensation, or dependency and indemnity compensation to or for a child, or to or for a veteran or widow on behalf of such child, will be the earliest of the dates stated in this section. Where an award is reduced, the reduced rate will be payable the day following the date of discontinuance of the greater benefit.

• • • • •

(j) *Interlocutory adoption decree or adoptive placement agreement.* Date child left custody of adopting parent during the interlocutory period or during adoptive placement agreement, or date of rescission of the decree or date of termination of the adoptive placement agreement, whichever first occurs.

PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

SURVIVOR BENEFIT PLAN ANNUITIES

On page 24049 of the FEDERAL REGISTER of November 11, 1972, there was published a notice of proposed rule making to amend § 3.261 to provide that annuities under the Survivor Benefit Plan shall be considered income under laws administered by the Veterans' Administration. The table was corrected on page 25180 of the FEDERAL REGISTER of November 28, 1972. Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulations.

No written objections have been received and the proposed regulations are hereby adopted without change and are set forth below.

Effective date. These VA Regulations are effective September 21, 1972.

Approved: December 27, 1972.

By direction of the Administrator.

PART 13—DEPARTMENT OF VETERANS BENEFITS, CHIEF ATTORNEYS

Recovery of Payment of Indebtedness

On page 24198 of the FEDERAL REGISTER of November 15, 1972, there was published a notice of proposed rule making to amend §§ 13.205, 13.207, 13.208, 13.209, 13.210, 13.212, and 13.213 concerning recovery of payment of indebtedness. Interested persons were given 30 days in which to submit comments, suggestions or objections regarding the proposed regulations.

No written objections have been received and the proposed regulations are hereby adopted without change and are set forth below.

Effective date. These VA regulations are effective June 30, 1972.

Approved: December 27, 1972.

By direction of the Administrator.

[SEAL] FRED B. RHODES,
Deputy Administrator.

1. Section 13.205 is revised to read as follows:

§ 13.205 Legal and technical assistance.

Legal questions involving a determination under § 2.6(f)(4) of this chapter will be referred to the Chief Attorney for action in accordance with delegations of the General Counsel, unless there is in existence a General Counsel's opinion or an approved Chief Attorney's opinion dispositive of the controlling legal principle. As to matters not controlled by § 2.6(f)(4) of this chapter, the chairman of the field station Committee or at his instance, a member, may seek and obtain advice from the Chief Attorney on legal matters within his jurisdiction and from other division chiefs in their areas of responsibility, on any matter properly before the Committee. Guidance may also be requested from the Central Office Board.

2. Section 13.207 is revised to read as follows:

§ 13.207 Waiver of overpayments.

The term "overpayment" means payments made and determined to be erroneous, indebtedness resulting from services erroneously furnished, and indebtedness of a veteran-borrower or veteran-transferee under the loan guaranty program or the indebtedness of his spouse, under laws administered by the Veterans Administration.

(a) Benefits subject to waiver include indebtedness due the Veterans Administration because of or in connection with hospitalization, domiciliary care, or treatment of a veteran, a person who claimed he was a veteran, or a person to whom such benefits were granted on the assumption that he was an eligible veteran.

(b) In any case where there is an indication of fraud or misrepresentation of a material fact on the part of the debtor or any other party having an interest in the claim, action on a request for waiver will be deferred pending appropriate disposition of the matter. However, the existence of a prima facie case of fraud shall, nevertheless, entitle a claimant to an opportunity to make a rebuttal with countervailing evidence; similarly, the misrepresentation must be more than nonwillful or a mere inadvertence. The Committee may act on a request for waiver concerning such debts, after the Chief Attorney has determined that prosecution is not indicated, or the Department of Justice has notified the Veterans Administration that the alleged fraud or misrepresentation does not warrant action by that department, or the Department of Justice or the appropriate U.S. Attorney specifically authorized action on the request for waiver.

3. In § 13.208, paragraphs (a) and (b) are amended to read as follows:

§ 13.208 Waiver; other than loan guaranty.

(a) *General.* Recovery of overpayments of any benefits made under laws administered by the Veterans Administration shall be waived if recovery of the indebtedness from the payee who received such benefits would be against equity and good conscience.

(b) *Application.* Request for waiver of an overpayment will be considered only if received within 2 years following the date of notice to the payee.

• • • • •

4. In § 13.209, paragraphs (a), (c), and (e) are amended and paragraph (f) is added so that the amended and added material reads as follows:

§ 13.209 Waiver; loan guaranty.

(a) *General.* An indebtedness of a veteran or the indebtedness of his spouse may be waived only when both of the following factors are determined to exist:

(1) Following default there was a loss of the property which constituted security for the loan guaranteed, insured or made under chapter 37 of title 38, United States Code; and

(2) Collection of such indebtedness would be against equity and good conscience.

• • • • •

(c) *Widow or former spouse.* A widow of a veteran or the former spouse of a veteran may be granted a waiver of her indebtedness provided the requirements of paragraph (a) of this section are met.

• • • • •

(e) *Application.* There is no time limit for filing an application for waiver of indebtedness under this section.

(f) *Exclusion.* Except as otherwise provided in this section, the indebtedness of a nonveteran obligor under the loan program is excluded from waiver.

5. Section 13.210 is revised to read as follows:

§ 13.210 Application of standard.

(a) The standard "Equity and Good Conscience," will be applied when the facts and circumstances in a particular case indicate a need for reasonableness and moderation in the exercise of the Government's rights. The decision reached should not be unduly favorable or adverse to either side. The phrase "equity and good conscience" means arriving at a fair decision between the obligor and the Government. In making this determination, consideration will be given to the following elements, which are not intended to be all inclusive:

(1) Fault of debtor: Where actions of the debtor contribute to creation of the debt.

(2) Balancing of faults: Weighing fault of debtor against Veterans Administration fault.

(3) Undue hardship: Whether collection would deprive debtor or family of basic necessities.

(4) Defeat the purpose: Whether withholding of benefits or recovery would nullify the objective for which benefits were intended.

(5) Unjust enrichment: Failure to make restitution would result in unfair gain to the debtor.

(6) Changing position to one's detriment: Reliance on Veterans Administration benefits results in relinquishment of a valuable right or incurrence of a legal obligation.

(b) In applying this single standard for all areas of indebtedness, the following elements will be considered, anyone of which, if found, will preclude the granting of waiver:

(1) Fraud or misrepresentation of a material fact (see § 13.207(b)).

(2) Material fault: The inexcusable commission or omission of an act that directly results in the creation of a debt to the Government.

(3) Lack of good faith: Absence of an honest intention to abstain from taking unfair advantage of the holder and/or the Government.

§ 13.211 [Revoked]

6. Section 13.211 *Standards for waiver; loan guaranty* is revoked.

7. In § 13.212, paragraph (b)(2)(i) is amended to read as follows:

§ 13.212 Scope of waiver decisions.

• • • • •

(b) A field station committee or Central Office Board may:

• • • • •

(2) Waive or decline to waive recovery from specific benefits or sources, except that:

(i) There shall be no waiver of recovery out of insurance of an indebtedness secured thereby; i.e., an insurance overpayment to an insured. However, recovery may be waived of any or all of such indebtedness out of benefits other than insurance then or thereafter payable to the insured.

• • • • •

8. In § 13.213, paragraph (c) is amended to read as follows:

§ 13.213 Refunds.

• • • • •

(c) Amounts which have been recovered by the U.S. Government prior to the date of receipt by the Veterans Administration of a request for waiver, will not be refunded and will be excluded from waiver.

[FR Doc.73-307 Filed 1-4-73;8:45 am]

Title 49—TRANSPORTATION

Chapter II—Federal Railroad Administration, Department of Transportation

[Docket No. RST-1A]

PART 213—TRACK SAFETY STANDARDS

Miscellaneous Amendments

The purpose of this amendment is to modify a number of the standards for track and track inspection which were promulgated by the Administrator on October 15, 1971, as initial railroad safety standards under the Federal Railroad Safety Act of 1970. Most of the standards affected by this amendment became effective for track in the general railroad system of transportation on October 16, 1972.

On September 5, 1972, the Federal Railroad Administration (FRA) issued a notice of proposed rule making to amend the initial standards (37 FR 18397, 18634). Interested persons were invited to participate in the rule making by submitting written comments before September 30, 1972, and by presenting oral or written statements at a public hearing on September 22, 1972. In response to a request by the Association of American Railroads on behalf of its member railroads, the hearing was postponed, by notice issued September 20, 1972 (37 FR 20041), to October 6, 1972. The hearing was held and participants were given until close of business on October 9, 1972, to file rebuttal statements.

The information and views presented in the comments and at the public hearing have been fully considered and are reflected in the final rules as discussed hereinafter in the analysis of sections. Minor editorial modifications have been made to some sections contained in the notice. Many comments were beyond the scope of the notice of proposed rule making and may be considered for future rule making actions by the FRA.

Section 213.7. Paragraphs (a)(1) and (b)(1) of this section, which governs the qualifications of "qualified persons," are amended to provide an alternative to the requirement that individuals must have at least 1 year of field experience before they may qualify as track inspectors or supervisors for the purpose of Part 213.

It was proposed that in lieu of having 1 year of experience, an individual should be able to qualify after passing an FRA approved training course. However, the Congress of Railway Unions ("CRU") was strongly opposed to this proposal, stating that training alone would not be an adequate substitute for 1 year of practical experience. The FRA concurs with this criticism to the extent that a certain amount of track work is necessary before a person is entitled to be "qualified" as an inspector or supervisor. Consequently, paragraphs (a)(1) and (b)(1) have been revised to incorporate this viewpoint.

Furthermore, the proposal in the notice was made partly because of the many successful training courses presently conducted by rail carriers. At the same time, training from an educational program which is conducted by an institution outside the railroad industry also warrants consideration. For instance, a person who has completed requirements in a civil engineering curriculum at a college or university should be able to qualify as an inspector or supervisor after only a brief period of on the job experience. Therefore, under the final rule the required training may come from a course in track maintenance or inspection, or from a college level educational program related to track maintenance or inspection.

A person who does not have at least 1 year of experience may qualify under the revised requirements if instead he has a combination of some experience and training from an appropriate course or educational program. The amount of

V38-I-3 JAN 5 73 XUM

experience a person must have in conjunction with training will be determined by the track owner who designates a person as qualified. In each case a track owner will have to consider the other minimum requirements for a qualified person set forth in § 213.7(a)(2) and (b)(2) in determining the amount of experience a person must have.

Section 213.7 places the responsibility on each track owner to "designate qualified persons" to supervise track maintenance and inspect track. Each person designated must have demonstrated the qualifications set forth in § 213.7 (a)(2) and (b)(2), and the track owner must maintain a written record of the basis for each such designation. The FRA believes that proper track inspection will be accomplished through this designation procedure and through FRA examination of the track inspected by the persons designated.

The CRU also suggested that the FRA publish its requirements for an approved "training course." At present, the FRA prefers to allow carriers to designate persons as qualified who have training which is suited to the carriers' own situations, rather than prescribe a particular curriculum. Moreover, the proposal that each training course be approved by the FRA has been deleted from the final rule as unnecessary. Nevertheless, if experience demonstrates that persons who qualify on the basis of training from an appropriate course or educational program are not as capable as those with 1 full year's experience, the CRU recommendation will be considered for future rule making.

Section 213.9. This section has been amended to establish higher speed limits for passenger trains than freight trains operating over Classes 1 through 5 track. The higher speed limits are justified by a number of safety factors discussed in the notice. None of the commenters objected to the validity of the proposed increases.

However, at the hearing, the National Railroad Passenger Corporation (Amtrak) suggested that passenger trains be permitted a 20 m.p.h. differential over freight trains on Class 5 track, and that a 10 m.p.h. differential be established for Class 6 track. A 20 m.p.h. differential on Class 5 track would permit passenger trains to operate at 100 m.p.h. The FRA believes that this speed is too high for Class 5 track. Given the minimum standards for safe operations which underlie the track classifications, only Class 6 track can safely accommodate 100 m.p.h. speeds. The request for a 10 m.p.h. differential on Class 6 track is beyond the scope of the notice and cannot be considered at this time. Amtrak originally requested that the speed limit for passenger trains on Class 6 track be increased by 10 m.p.h. in its petition for rule making (Docket No. RST–1; Pet. No. 2). This portion of the petition was denied for failure to show a relationship between high speed specialized equipment and Class 6 track which would support a safe increase in the maximum allowable speed. The FRA is currently studying this relationship, and speed limits for passenger trains above 110 m.p.h. will be the subject of a future notice of proposed rule making.

Section 213.13. No comments were received on the proposed change in the language of this section. It provides that if track is measured when under load, the proper measurement is determined by taking into account any movement of the rails that occurs while the track is loaded.

Section 213.61. Paragraph (b) in this section has been revoked. This paragraph reqired curve markings at the maximum and minimum elevation transition points on Classes 4–6 track. The requirement was deemed unnecessary because the information required to be maintained by paragraph (a) is sufficient for adequate inspection of curve geometry. One commenter stated that efficient inspection would suffer if the markers were not in place. Although this may be true, the absence of curve markers does not constitute a safety hazard, and a Federal standard is unnecessary.

Section 213.109. Paragraph (c) has been amended by transferring the requirement for minimum number of nondefective ties under a rail joint to the new paragraph (d). In addition, the maximum center-to-center distance between nondefective ties for Classes 4–6 track has been increased from 45 to 48 inches to permit cross tie spacings of 23 inches.

The new paragraph (d) restates the requirement for the minimum number of nondefective ties under a joint and provides for the correct positioning of those ties under the joint. Some questions had arisen as to where under a joint a nondefective tie should be placed. Two types of joints are now illustrated (supported and suspended), and in conjunction with a chart, proper tie placement can be discerned. One commenter objected that the new provision still permits a defective tie under a joint. This point was argued when the track standards were originally proposed and was settled at that time. It is not an appropriate issue to raise in this proceeding because the proposed revision did not alter the minimum number of nondefective ties required under a rail joint.

Section 213.113. Paragraph (a) of this section has been revised to provide greater flexibility in operating over a defective rail until the rail is replaced. In general, more stringent corrective action is required as the size of a particular defect increases.

In response to comments, the final rule has been modified in a number of respects from the proposed one. First, operating speed over a transverse fissure or compound fissure has been limited to 10 m.p.h. in all cases where the failure is less than 100 percent. If there is a 100-percent failure, a qualified person must visually supervise each movement over the defective rail, although no speed limit is prescribed. Second, the threshold lengths for horizontal and vertical split heads have been increased because the proposed lengths were deemed too restrictive. Although it was recommended that the threshold lengths for split web, piped rail, and head web separation be likewise increased, no change from the proposed lengths could be justified in the interest of safety. Third, in the case of a bolt hole crack which is more than 1½ inches long, upon reconsideration of the seriousness of the defect, a speed limit of 10 m.p.h. is now imposed rather than requiring a qualified person to supervise each movement over the defect as proposed. The more stringent remedy of having a qualified person at the scene of the defect is now required only after a breakout in the rail head occurs. Finally, comments were directed toward the purpose of Note A. This note is intended to prescribe the most stringent corrective action short of replacing a defective rail. Because there was apparently some difficulty in interpreting what a qualified person is supposed to do at the site of a rail defect, the note has been rewritten to require him to visually supervise each operation over the defective rail. This means, in response to some queries, personal observation and supervision of each operation over every rail defect along a route.

The FRA did not agree with those commenters who suggested that when joint bars are applied to a broken base less than 6 inches long the defect may be considered equivalent to a rail joint and full speed resumed. Therefore, the remedy of a 30 m.p.h. speed limit after joint bars are applied has been adopted as provided in the notice.

Section 213.127. As proposed, paragraph (a) of this section now requires only two spikes instead of three spikes in Class 3 track on curves between 4° and 6°. Also, in Class 4 track on curves between 2° and 4°, only two spikes are required instead of the previous three spikes. Further, the number of spikes required in Class 6 track has been reduced from three to two. One commenter stated that any reduction in the number of spikes previously required could cause a safety hazard. The FRA is cognizant of the importance of proper spiking on curves because of the increased stresses at these locations. However, past industry practice has shown that some minor reductions in spiking on curves can be made without affecting safe operations.

Section 213.133. This section has been rewritten in performance terms to clarify the meaning of the previous requirement. It now provides that fastenings must be maintained so as to keep components in turnouts and track crossings securely in place.

Section 213.233. In paragraph (b), it was proposed to provide an alternative to the requirement that track structure be inspected visually by permitting the use of any mechnical or electrical inspection device which is approved by the Administrator. The purpose of the proposal was to encourage the development of instrumental inspection vehicles so that track inspectors would not be limited to the use of their eyesight in conducting an inspection. As pointed out by one commenter, if such a vehicle were used, it most likely could not detect defects in every component of the track

structure. Therefore, the amendment has been rewritten to provide that an approved device may be used, not in lieu of visual inspection, but as a supplement to visual inspection.

Section 213.237. The proposal to amend paragraph (a) in this section provided an initial 3-year deferment from the yearly inspection requirement for a new rail which has been inductively and ultrasonically inspected and all defects removed before it is installed. However, in consideration of the practice by many railroads, the final rule has been modified to allow a 3-year deferment for a new rail which is internally inspected and has all defects removed within 6 months after installation. The 3-year period between first and second inspections for a new rail is considered sufficient due to the improved metallurgical processes which are presently employed in manufacturing rails; and unlike a used rail which has been subjected to stresses, a new rail is not as likely to become defective.

Section 213.241. The amendments to this section are being adopted as proposed with one exception. It was proposed to add an alternative to the requirement that an inspection record indicate the remedial action taken upon discovery of a deviation. Under the alternative, it would have been permissible for the record to show what remedial action was "recommended" by the inspector. This was proposed because in many instances where an inspector does not actually take the remedial action himself, it is impossible for him to know what remedy was taken when he signs the record of inspection. The FRA now considers a record of "recommended" action to be unnecessary. However, in view of the rationale for the proposed modification, the final rule provides that the record must show the remedial action taken by the inspector. In other words, if an inspector does not actually take any remedial action himself after finding a defect, there would be no entry as to remedial action on the inspection record.

In consideration of the foregoing, Part 213 of Title 49 of the Code of Federal Regulations is amended as set forth below.

1. The table of sections is amended by revising the section heading of § 213.61 to read as follows:

Sec.
213.61 Curve data for Classes 4 through 6 track.

2. Paragraphs (a)(1) and (b)(1) in § 213.7 are amended to read as follows:

§ 213.7 Designation of qualified persons to supervise certain renewals and inspect track.

(a) • • •

(1) At least—

(i) One year of supervisory experience in railroad track maintenance; or

(ii) A combination of supervisory experience in track maintenance and training from a course in track maintenance or from a college level educational program related to track maintenance;

• • • • • •

(b) • • •

(1) At least—

(i) One year of experience in railroad track inspection; or

(ii) A combination of experience in track inspection and training from a course in track inspection or from a college level educational program related to track inspection;

• • • • • •

3. Paragraph (a) in § 213.9 is amended to read as follows:

§ 213.9 Classes of track: operating speed limits.

(a) Except as provided in paragraph (b) of this section and §§ 213.57(b), 213.59(a), 213.105, 213.113 (a) and (b), and 213.137 (b) and (c), the following maximum allowable operating speeds apply:

[In miles per hour]

Over track that meets all of the requirements prescribed in this part for—	The maximum allowable operating speed for freight trains is—	The maximum allowable operating speed for passenger trains is—
Class 1 track	10	15
Class 2 track	25	30
Class 3 track	40	60
Class 4 track	60	80
Class 5 track	80	90
Class 6 track	110	110

4. Section 213.13 is revised to read as follows:

§ 213.13 Measuring track not under load.

When unloaded track is measured to determine compliance with requirements of this part, the amount of rail movement, if any, that occurs while the track is loaded must be added to the measurement of the unloaded track.

5. In § 213.61 the heading is revised and paragraph (b) is revoked. As amended § 213.61 reads as follows:

§ 213.61 Curve data for Classes 4 through 6 track.

(a) Each owner of track to which this part applies shall maintain a record of each curve in its Classes 4 through 6 track. The record must contain the following information:

(1) Location;

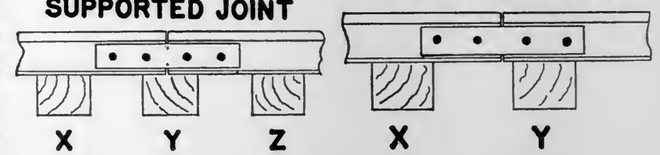
(2) Degree of curvature;

(3) Designated elevation;

(4) Designated length of elevation runoff; and

(5) Maximum allowable operating speed.

6. In § 213.109, the table in paragraph (c) is amended, a new paragraph (d) is added, and the previous paragraph (d) is redesignated as paragraph (e), as follows:



§ 213.109 Cross ties.

• • • • • •

(c) • • •

Class of track	Minimum number of nondefective ties per 39 feet of track	Maximum distance between nondefective ties (center to center) (inches)
1	5	100
2, 3	8	70
4, 5	12	48
6	14	48

(d) If timber ties are used, the minimum number of nondefective ties under a rail joint and their relative positions under the joint are described in the following chart. The letters in the chart correspond to letters underneath the ties for each type of joint depicted.

Class of track	Minimum number of nondefective ties under a joint	Required position of nondefective ties: Supported joint	Required position of nondefective ties: Suspended joint
1	1	X, Y, or Z	X or Y.
2, 3	1	Y	X or Y.
4, 5, 6	2	X and Y, or Y and Z.	X and Y.

(e) Except in an emergency or for a temporary installation of not more than 6-months duration, crossties may not be interlaced to take the place of switch ties.

7. Paragraph (a) in § 213.113 is revised to read as follows:

§ 213.113 Defective rails.

(a) When an owner of track to which this part applies learns, through inspection or otherwise, that a rail in that track contains any of the defects listed in the following table, a person designated under § 213.7 shall determine whether or not the track may continue in use. If he determines that the track may continue in use, operation over the defective rail is not permitted until—

(1) The rail is replaced; or

(2) The remedial action prescribed in the table is initiated:

V 38 I 3 JAN 5 73 XUM

Defect	Length of defect (inch) More than	But not more than	Percent of railhead cross-sectional area weakened by defect Less than	But not less than	If defective rail is not replaced, take the remedial action prescribed in note—
Transverse fissure			20		B.
			100	20	B.
				100	A.
Compound fissure			20		B.
			100	20	B.
				100	A.
Detail fracture			20		C.
Engine burn fracture			100	20	D.
Defective weld				100	A, or E and H.
Horizontal split head	0	2			H and F.
	2	4			I and G.
	4				B.
Vertical split head	(Break out in railhead)				A.
Split web	0	½			H and F.
Piped rail	½	3			I and G.
	3				B.
Head web separation	(Break out in railhead)				A.
	0	½			H and F.
Bolt hole crack	½	1½			I and G.
	1½				B.
	(Break out in railhead)				A.
Broken base	0	6			E and I.
	6				Replace rail.
Ordinary break					A or E.
Damaged rail					C.

REMEDIAL ACTION

Note:
A—Assign person designated under § 213.7 to visually supervise each operation over defective rail.
B—Limit operating speed to 10 m.p.h. over defective rail.
C—Apply joint bars bolted only through the outermost holes to defect within 20 days after it is determined to continue the track in use. In the case of classes 3 through 6 track, limit operating speed over defective rail to 30 m.p.h. until angle bars are applied; thereafter, limit speed to 50 m.p.h. or the maximum allowable speed under § 213.9 for the class of track concerned, whichever is lower.
D—Apply joint bars bolted only through the outermost holes to defect within 10 days after it is determined to continue the track in use. Limit operating speed over defective rail to 10 m.p.h. until angle bars are applied; thereafter, limit speed to 50 m.p.h. or the maximum allowable speed under § 213.9 for the class of track concerned, whichever is lower.
E—Apply joint bars to defect and bolt in accordance with § 213.121 (d) and (e).
F—Inspect rail 90 days after it is determined to continue the track in use.
G—Inspect rail 30 days after it is determined to continue the track in use.
H—Limit operating speed over defective rail to 50 m.p.h. or the maximum allowable speed under § 213.9 for the class of track concerned, whichever is lower.
I—Limit operating speed over defective rail to 30 m.p.h. or the maximum allowable speed under § 213.9 for the class of track concerned, whichever is lower.

* * * * * * * * * * * * *

8. In § 213.127, the table in paragraph (a) is amended to read as follows:

§ 213.127 Track spikes.

(a) * * *

MINIMUM NUMBER OF TRACK SPIKES PER RAIL PER TIE, INCLUDING PLATE-HOLDING SPIKES

Class of track	Tangent track and curved track with not more than 2° of curvature	Curved track with more than 2° but not more than 4° of curvature	Curved track with more than 4° but not more than 6° of curvature	Curved track with more than 6° of curvature
1	2	2	2	2
2	2	2	2	3
3	2	2	2	3
4	2	2	3	
5	2	3		
6	2			

* * * * * * * * * * * * *

9. Paragraph (a) in § 213.133 is amended to read as follows:

§ 213.133 Turnouts and track crossings generally.

(a) In turnouts and track crossings, the fastenings must be intact and maintained so as to keep the components securely in place. Also, each switch, frog, and guard rail must be kept free of obstructions that may interfere with the passage of wheels.

* * * * * * * * * * * * *

10. Paragraph (b) in § 213.233 is amended to read as follows:

§ 213.233 Track inspections.

* * * * * * * * * * * * *

(b) Each inspection must be made on foot or by riding over the track in a vehicle at a speed that allows the person making the inspection to visually inspect the track structure for compliance with this part. However, mechanical or electrical inspection devices approved by the Federal Railroad Administrator may be used to supplement visual inspection. If a vehicle is used for visual inspection, the speed of the vehicle may not be more than 5 miles per hour when passing over track crossings, highway crossings, or switches.

* * * * * * * * * * * * *

11. Paragraph (a) in § 213.237 is amended to read as follows:

§ 213.237 Inspection of rail.

(a) In addition to the track inspections required by § 213.233, at least once a year a continuous search for internal defects must be made of all jointed and welded rails in Classes 4 through 6 track, and Class 3 track over which passenger trains operate. However, in the case of a new rail, if before installation or within 6 months thereafter it is inductively or ultrasonically inspected over its entire length and all defects are removed, the next continuous search for internal defects need not be made until 3 years after that inspection.

* * * * * * * * * * * * *

12. Paragraphs (a), (b), and (c) in § 213.241 are amended to read as follows:

§ 213.241 Inspection records.

(a) Each owner of track to which this part applies shall keep a record of each inspection required to be performed on that track under this subpart.

(b) Each record of an inspection under §§ 213.233 and 213.235 shall be prepared on the day the inspection is made and signed by the person making the inspection. Records must specify the track inspected, date of inspection, location and nature of any deviation from the requirements of this part, and the remedial action taken by the person making the inspection. The owner shall retain each record at its division headquarters for at least 1 year after the inspection covered by the record.

(c) Rail inspection records must specify the date of inspection, the location, and nature of any internal rail defects found, and the remedial action taken and the date thereof. The owner shall retain a rail inspection record for at least 2 years after the inspection and for 1 year after remedial action is taken.

* * * * * * * * * * * * *

Effective dates. Because the rules affected by the amendments contained herein, except §§ 213.61 and 213.109, became effective for most of the Nation's railroad track on October 16, 1972, good cause exists for making the amendments to these rules effective upon publication in the FEDERAL REGISTER (1–5–73). The amendments to §§ 213.61 and 213.109 shall become effective February 5, 1973.

This amendment is issued under the authority of section 202, 84 Stat. 971, 45 U.S.C. 431; and section 1.49(n) of the regulations of the Office of the Secretary of Transportation, 49 CFR 1.49(n).

Issued in Washington, D.C. on December 22, 1972.

JOHN W. INGRAM,
Administrator.

Chapter X—Interstate Commerce Commission

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1083, Amdt. 3]

PART 1033—CAR SERVICE

Southern Pacific Transportation Co.; Authorization To Operate Over Tracks of the Texas and Pacific Railway Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 22d day of December 1972.

Upon further consideration of Service Order No. 1083 (36 FR 21203, 23803; 37 FR 12726), and good cause appearing therefor:

It is ordered, That: § 1033.1083 *Service Order No. 1083* (Southern Pacific Transportation Co. authorized to operate over tracks of the Texas and Pacific Railway Co.) be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* This order shall expire at 11:59 p.m., July 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., December 31, 1972.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

SUBCHAPTER B—HUNTING AND POSSESSION OF WILDLIFE

PART 10—MIGRATORY BIRDS

Open Seasons, Bag Limits, and Possession of Certain Migratory Game Birds

Section 10.105(e) published in the FEDERAL REGISTER on September 1, 1972 (37 FR 17841), established open hunting season for waterfowl in the Atlantic, Mississippi, and central flyways.

Quotas are established annually to control the harvest of Mississippi Valley population Canada geese at their major concentration points in Wisconsin (Horicon Zone) and Illinois (Southern Illinois Zone). The quotas are established cooperatively by Wisconsin and Illinois with the concurrence of the Mississippi Flyway Council and are designed to achieve a postseason level of 300,000 birds in the Mississippi Valley population.

The season in the Southern Illinois Quota Zone, consisting of Alexander, Jackson, Union, and Williamson Counties, is scheduled to close January 5, 1973. Illinois has asked that the season be extended 5 days to January 10 because of the unusually low harvest of geese in the quota zone. The State of Illinois anticipates that less than two-thirds of the 24,000 bird quota will be taken by the scheduled season closure date of January 5.

An aerial inventory on December 29 recorded 320,000 birds in the vicinity. This exceeds by 20,000 the planned postseason population of 300,000 birds. This management objective is largely achieved through quota harvest controls.

Both the State of Wisconsin and the Mississippi Flyway Council support the State of Illinois in its request for a 5-day extension. The Bureau of Sport Fisheries and Wildlife has reviewed the request and determined that it is in the public interest to grant the extension. The total length of season in the Southern Illinois Quota Zone including the 5-day extension will not exceed the framework originally offered.

Accordingly, § 10.105(e) is amended by deleting "January 5" and inserting "January 10" in the column of dates under geese in the table of seasons for the Illinois Counties of Alexander, Jackson, Union, and Williamson.

Notice and public procedure under 5 U.S.C. 553(d) is dispensed with for good cause as described above and this amendment is effective on January 5, 1973.

(16 U.S.C. 704)

SPENCER H. SMITH, *Director.*

MONOMOY NATIONAL WILDLIFE REFUGE

Sport fishing in tidal waters is permitted from the shores of Monomoy National Wildlife Refuge, Chatham, Mass.

A map of the refuge is available from the Refuge Manager, Great Meadows National Wildlife Refuge, 191 Sudbury Road, Concord, MA 01742, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Mass. 02109. Sport fishing shall be in accordance with all applicable State regulations. Boats may be beached on the refuge and wilderness areas.

The provisions of this special regulation supplement the regulations which govern sport fishing on wildlife areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

WILLARD M. SPAULDING, JR.,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

DECEMBER 29, 1972.

PART 33—SPORT FISHING

Parker River National Wildlife Refuge, Mass.

The following special regulation is issued and is effective on January 5, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife areas.

MASSACHUSETTS

PARKER RIVER NATIONAL WILDLIFE REFUGE

Sport fishing on the Parker River National Wildlife Refuge, Mass., is permitted from May 1 through October 15, 1973, and at other times during daylight hours only, in the public use area on the ocean side of Plum Island consisting of 218 acres extending from the south boundary of the swimming and bathing area to the south boundary of the refuge. This area is delineated on maps available at refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Mass. 02109. Sport fishing shall be in accordance with all applicable State and town regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33 and are effective through December 31, 1973.

WILLARD M. SPAULDING, JR.,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

DECEMBER 29, 1972.

[FR Doc.73-248 Filed 1-4-73;8:45 am]

PART 33—SPORT FISHING

Brigantine National Wildlife Refuge, N.J.

The following special regulation is issued and is effective on January 5, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NEW JERSEY

BRIGANTINE NATIONAL WILDLIFE REFUGE

Saltwater sport fishing is permitted from the sand beach on Holgate Peninsula and Little Beach Island on the Brigantine National Wildlife Refuge through December 31, 1973, except from those areas posted as closed.

Freshwater sport fishing from the south dike of the west pool is permitted during daylight hours from July 20 through September 21, 1973. The possession of fish or minows for use as bait is prohibited. Parking by freshwater fishermen is permitted at the headquarters and south tower parking areas.

Sport fishing shall be in accordance with all applicable State regulations.

Areas open to sport fishing, comprising 7.5 miles of tidal shoreline and 1 mile of freshwater shoreline, are delineated on maps available at refuge headquarters, Oceanville, N.J., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Mass. 02109.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally, as set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

WILLARD M. SPAULDING, JR.,
Acting Regional Director, Bureau of Sport Fisheries & Wildlife.

DECEMBER 29, 1972.

PART 33—SPORT FISHING

Iroquois National Wildlife Refuge, N.Y.

The following special regulation is issued and is effective on January 5, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NEW YORK

IROQUOIS NATIONAL WILDLIFE REFUGE

Sport fishing on the Iroquois National Wildlife Refuge, Basom, N.Y., is permitted on the areas designated by signs as open to fishing. These open areas comprising 26 acres during spring, summer, and fall, and 172 acres during the winter, are delineated on maps available at refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Mass. 02109. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions.

(1) The use of boats with motors is not permitted.

(2) The use of boats after October 1 is not permitted.

(3) Fishing through the ice is permitted only on Ringneck Marsh from January 1 to March 1 and November 15 to December 31, ice conditions permitting.

(4) Leaving boats, structures, or other equipment overnight is not permitted.

The provisions of this special regulation supplement the regulations governing fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

WILLARD M. SPAULDING, JR.,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

DECEMBER 29, 1972.

PART 33—SPORT FISHING

Montezuma National Wildlife Refuge, N.Y.

The following special regulation is issued and is effective on January 5, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NEW YORK

MONTEZUMA NATIONAL WILDLIFE REFUGE

Sport fishing in State waters in compliance with State regulations is permitted from refuge lands from January 1 to December 31, 1973. The three areas open to access to fishing are designated by signs and delineated on maps available at refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Mass. 02109.

The provisions of this special regulation supplement the regulations governing fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

WILLARD M. SPAULDING, JR.,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

DECEMBER 27, 1972.

PART 33—SPORT FISHING

Oyster Bay National Wildlife Refuge, N.Y.

The following special regulation is issued and is effective January 5, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NEW YORK

OYSTER BAY NATIONAL WILDLIFE REFUGE

Sport fishing from the shore of the Oyster Bay Mill Pond and access thereto by walking is permitted on the Oyster Bay National Wildlife Refuge, Oyster Bay, N.Y., during daylight hours through December 31, 1973. The refuge is delineated on a map available at the Target Rock National Wildlife Refuge headquarters, Target Rock Road, Lloyd Neck, Huntington, N.Y. 11743, and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Massfi 02109. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

WILLARD M. SPAULDING, JR.,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

DECEMBER 27, 1972.

PART 33—SPORT FISHING

Erie National Wildlife Refuge, Pa.

The following special regulation is issued and is effective on January 5, 1973.

V38-3 JAN 5 73 XUM

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

PENNSYLVANIA

ERIE NATIONAL WILDLIFE REFUGE

Sport fishing on the Erie National Wildlife Refuge, Pa., is permitted on areas designated by signs as open to fishing. Boats are permitted in Lake Creek above Sugar Lake where designated by signs. These open areas are delineated on maps available at refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Mass. 02109. Fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

Chapter II—National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce

PART 240—GROUNDFISH FISHERIES

Miscellaneous Amendments

At its 22d annual meeting held in Washington, D.C., May 25 through June 2, 1972, the International Commission for the Northwest Atlantic Fisheries recommended that member governments adopt a system of national allocation of those species that are presently being harvested and several other technical changes to be implemented in 1973.

A complete revised regulation will be published in January 1973 as proposed rule making, which will set forth annual catch quotas allocated to the United States for haddock, cod, yellowtail flounder, silver hake, and red hake for 1973. Interested persons will be provided sufficient time to submit their comments and views.

However, since time is of the essence in regard to some ICNAF recommendations, it has been decided to amend certain portions of Part 240, as it appeared in the January 6, 1971 publication (36 FR 158), and amended on January 19, 1972 (37 FR 786).

Effective date: Date of publication, (1-5-73).

Accordingly, Part 240 is amended as follows:

1. In § 240.1 *Meaning of Terms*, subparagraph (5) of § 240.1(c) is amended by adding two new subdivisions (iv) and (v) to read as follows:

§ 240.1 Meaning of Terms.

• • • • • •

(c) • • •

(5) • • •

(iv) Silver hake (*Merluccius bilinearis* (MITCH.))

(v) Red hake (*Urophycis chuss* (WALB.))

§ 240.8 [Amended]

2. Paragraph (c) of § 240.8 is changed by deleting the words "period January 1 to March 31, 1971, and 1972" in the fifth and sixth lines and inserting the words, "month of April, 1973."

Issued at Washington, D.C., and dated January 2, 1973.

PHILIP M. ROEDEL,
Director.

[FR Doc.73-276 Filed 1-2-73;2:35 pm]

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

INCOME TAX

Domestic International Sales Corporations

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by February 5, 1973. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his requ set,Inwriing,t to should submit his request, in writing, to the Commissioner by February 5, 1973. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their request for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to conform the Income Tax Regulations (26 CFR Part 1) to section 246(d) of the Internal Revenue Code of 1954 (as added by section 502(a) of the Revenue Act of 1971 (85 Stat. 549)), to section 901(d) of such Code (as amended by section 502(b)(1) of such Revenue Act), to section 922 of such Code (as amended by section 502(c) of such Revenue Act), to section 931(a) of such Code (as amended by section 502(d) of such Revenue Act), to section 1014(d) of such Code (as added by section 502(f) of such Revenue Act), and to certain provisions of section 501 of such Revenue Act, such regulations are amended, effective for taxable years ending after December 31, 1971, as follows:

PARAGRAPH 1. Section 1.246 is amended by revising section 246(b)(1), by adding a new section 246 (d) and (e), and by adding a historical note. The revised and added provisions read as follows:

§ 1.246 Statutory provisions; rules applying to deductions for dividends received.

SEC. 246. *Rules applying to deductions for dividends received.* • • •

(b) *Limitation on aggregate amount of deductions*—(1) *General rule.* Except as provided in paragraph (2), the aggregate amount of the deductions allowed by sections 243 (a)(1), 244(a), and 245 shall not exceed 85 percent of the taxable income computed without regard to the deductions allowed by sections 172, 243(a)(1), 244(a), 245, and 247, and without regard to any capital loss carryback to the taxable year under section 1212 (a)(1).

• • • • • •

(d) *Dividends from a DISC or former DISC.* No deduction shall be allowed under section 243 in respect of a dividend from a corporation which is a DISC or former DISC (as defined in section 992(a)) to the extent such dividend is paid out of the corporations accumulated DISC income or previously taxed income, or is a deemed distribution pursuant to section 995(b)(1).

(e) *Cross reference.* For special rule relating to mutual savings banks, etc., to which section 593 applies, see section 596.

[Sec. 246 as amended by secs. 434(b) and 512 (f), Tax Reform Act 1969 (83 Stat. 625, 641) sec. 502(a), Rev. Act 1971 (85 Stat. 549)]

PAR. 2. Section 1.246–4, reading as follows, is added immediately after § 1.246–3:

§ 1.246–4 Dividends from a DISC or former DISC.

The deduction provided in section 243 (relating to dividends received by corporations) is not allowable with respect to any dividend (whether in the form of a deemed or actual distribution or an amount treated as a dividend pursuant to section 995(c)) from a corporation which is a DISC or former DISC (as defined in section 992(a) (1) or (3) as the case may be) to the extent such dividend is from the corporation's accumulated DISC income (as defined in section 996(f)(1)) or previously taxed income (as defined in section 996(f)(2)) or is a deemed distribution pursuant to section 995(b)(1) in a taxable year for which the corporation qualifies (or is treated) as a DISC. To the extent that a dividend is paid out of earnings and profits which are not made up of accumulated DISC income or previously taxed income, the corporate recipient is entitled to the deduction provided in section 243 in the same manner and to the same extent as a dividend from a domestic corporation which is not a DISC or former DISC.

PAR. 3. Section 1.301–1 is amended by redesignating paragraph (o) as paragraph (p) and by adding a new paragraph (o), reading as follows:

§ 1.301–1 Rules applicable with respect to distribution of money and other property.

• • • • • •

(o) *Distributions of certain property by DISC's to corporate shareholders.* See § 1.997–1 for the rule that if a corporation which is a DISC or former DISC (as defined in section 992(a) (1) or (3) as the case may be) makes a distribution of property (other than money and other than the obligations of the DISC or former DISC) out of accumulated DISC income (as defined in section 996(f)(1)) or previously taxed income (as defined in section 996(f)(2)), such distribution of property shall be treated as if made to an individual and that the basis of the property distributed, in the hands of the recipient corporation, shall be determined as if such property were distributed to an individual.

• • • • • •

PAR. 4. Section 1.901–1 is amended by adding a new paragraph (i), reading as follows:

§ 1.901–1 Allowance of credit for taxes.

• • • • • •

(i) *Dividends from a DISC treated as foreign.* For purposes of Subpart A, Part III, Subchapter N, Chapter 1, Subtitle A of the Code (sections 991 through 997) and the regulations thereunder, any amount treated as a dividend from a corporation which is a DISC or former DISC (as defined in section 992(a) (1) or (3) as the case may be) will be treated as a dividend from a foreign corporation to the extent such dividend is treated as income from sources without the United States. See section 861(a)(2)(D).

PAR. 5. Section 1.902–3 is amended by adding a sentence at the end of paragraph (a)(1), reading as follows:

§ 1.902–3 Credit for domestic corporate shareholder of a foreign corporation (after amendment by Revenue Act of 1962).

(a) *Domestic shareholder owning stock in a first-tier corporation*—(1) *In general.* • • • For purposes of this section and § 1.902–5, a DISC or former DISC shall be treated as if it were a foreign corporation, but only with respect to dividends from the DISC or former DISC to the extent such dividends are treated as gross income from sources without the United States as determined under section 861(a)(2)(D).

• • • • • •

PAR. 6. Section 1.902–4 is amended by adding a sentence at the end of paragraph (a), reading as follows:

§ 1.902–4 Definition of less developed country corporation for purposes of section 902.

(a) *In general.* • • • A DISC or former DISC is not a less developed

V 38 - 3 JAN 5 73 XUM

country corporation for purposes of section 902.

* * * * *

PAR. 7. Section 1.922 is amended by revising section 922 and by adding a historical note, as follows:

§ 1.922 Statutory provisions; special deduction.

SEC. 922. *Special deduction.* In the case of a Western Hemisphere trade corporation there shall be allowed as a deduction in computing taxable income an amount computed as follows—

(1) First determine the taxable income of such corporation computed without regard to this section.

(2) Then multiply the amount determined under paragraph (1) by the fraction—

(A) The numerator of which is 14 percent, and

(B) The denominator of which is that percentage which equals the sum of the normal tax rate and the surtax rate for the taxable year prescribed by section 11.

No deduction shall be allowed under this section to a corporation for a taxable year for which it is a DISC or in which it owns at any time stock in a DISC or former DISC (as defined in section 992(a)).

(Sec. 922 as amended by sec. 502(c), Rev. Act 1971 (85 Stat. 550))

PAR. 8. Section 1.922–1 is amended by adding a new paragraph (c), reading as follows:

§ 1.922–1 Special deduction of Western Hemisphere trade corporation.

* * * * *

(c) *Denial of deduction for a DISC or shareholder thereof.* The special deduction provided by section 922 is not allowed to a corporation for a taxable year (1) for which it qualifies (or is treated) as a DISC or (2) during which it owns directly or indirectly at any time stock in a corporation which, at such time, is (or is treated as) a DISC or former DISC. (See section 922(a) (1) and (3), respectively, for the definitions of the terms "DISC" and "former DISC".) For example, assume X and Y corporations have the same taxable years. On the first day of its taxable year X corporation owns and sells all of the stock in Y corporation, Y corporation on such day owns and sells all of the stock in Z corporation, and Z corporation qualifies as a DISC as of such day. Neither X nor Y corporations will be eligible for the special deduction provided by section 922 for their taxable years. Z corporation will likewise not be eligible for the special deduction for the taxable year for which it qualifies as a DISC.

PAR. 9. Section 1.931 is amended by revising so much of section 931(a)(2) as follows section 931(a)(2)(A), by revising section 931(d), and by adding a historical note. The revised and added provisions read as follows:

§ 1.931 Statutory provisions; income from sources within possessions of the United States.

SEC. 931. *Income from sources within possessions of the United States*—(a) *General rule.* * * *

(2) *Trade or business.* * * *

(B) In the case of such citizen, 50 percent or more of his gross income (computed without the benefit of this section) for such period or such part thereof was derived from the active conduct of a trade or business within a possession of the United States either on his own account or as an employee or agent of another.

This section shall not apply in the case of a corporation for a taxable year for which it is a DISC or in which it owns at any time stock in a DISC or former DISC (as defined in section 992(a)).

* * * * *

(d) *Deductions*—(1) *General rule.* Except as otherwise provided in this subsection and subsection (e), in the case of persons entitled to the benefits of this section the deductions shall be allowed only if and to the extent that they are connected with income from sources within the United States; and the proper apportionment and allocation of the deductions with respect to sources of income within and without the United States shall be determined as provided in part I, under regulations prescribed by the Secretary or his delegate.

(2) *Exceptions.* The following deductions shall be allowed whether or not they are connected with income from sources within the United States:

(A) The deduction, for losses not connected with the trade or business if incurred in transactions entered into for profit, allowed by section 165(c)(2), but only if the profit, if such transaction had resulted in a profit, would be taxable under this subtitle.

(B) The deduction, for losses of property not connected with the trade or business if arising from certain casualties or theft, allowed by section 165(c)(3), but only if the loss is of property within the United States.

(C) The deduction for charitable contributions and gifts allowed by section 170.

(3) *Deduction disallowed.* For disallowance of standard deduction, see section 142 (b)(2).

* * * * *

[Sec. 931 as amended by sec. 107, Foreign Investors Tax Act 1966 (80 Stat. 1571); sec. 502(d), Rev. Act 1971 (85 Stat. 550)]

PAR. 10. Section 1.931–1 is amended by adding a new paragraph (j), reading as follows:

§ 1.931–1 Citizens of the United States and domestic corporations deriving income from sources within a certain possession of the United States.

* * * * *

(j) *Nonapplication to a DISC or shareholder thereof.* Section 931 does not apply to a corporation for a taxable year (1) for which it qualifies (or is treated) as a DISC or (2) during which it owns directly or indirectly at any time stock in a corporation which, at such time, is (or is treated as) a DISC or former DISC. (See section 992(a) (1) and (3), respectively, for the definitions of the terms "DISC" and "former DISC".) For example, assume X and Y corporations have the same taxable years. On the first day of its taxable year, X corporation owns and sells all of the stock in Y corporation, Y corporation on such day owns and sells all of the stock in Z corporation, and Z corporation qualifies as a DISC as of such day. Section 931 will not apply to X and Y corporations for their taxable years. Section 931 will likewise not apply to Z corporation for the taxable year for which it qualifies as a DISC.

PAR. 11. Section 1.1014 is amended by adding a new section 1014(d) and by revising the historical note, as follows:

§ 1.1014 Statutory provisions; basis of property acquired from a decedent.

SEC. 1014. *Basis of property acquired from a decedent.* * * *

(d) *Special rule with respect to DISC stock.* If stock owned by a decedent in a DISC or former DISC (as defined in section 992(a)) acquires a new basis under subsection (a), such basis (determined before the application of this subsection) shall be reduced by the amount (if any) which would have been included in gross income under section 995(c) as a dividend if the decedent had lived and sold the stock at its fair market value on the estate tax valuation date. In computing the gain the decedent would have had if he had lived and sold the stock, his basis shall be determined without regard to the last sentence of section 996(e)(2) (relating to reductions of basis of DISC stock). For purposes of this subsection, the estate tax valuation date is the date of the decedent's death or, in the case of an election under section 2032, the applicable valuation date prescribed by that section.

(Sec. 1014 as amended by sec. 2, Act of February 11, 1958 (Public Law 85–320, 72 Stat. 5); sec. 502(f), Rev. Act 1971 (85 Stat. 550))

PAR. 12. Section 1.1014–1 is amended by deleting the first sentence of paragraph (b) and replacing the deleted sentence with the two sentences reading as follows:

§ 1.1014–1 Basis of property acquired from a decedent.

* * * * *

(b) *Scope and application.* With certain limitations, the general rule described in paragraph (a) of this section is applicable to the classes of property described in paragraphs (a) and (b) of § 1.1014–2, including stock in a DISC or former DISC. In the case of stock in a DISC or former DISC, the provisions of this section and §§ 1.1014–2 through 1.1014–8 are applicable, except as provided in § 1.1014–9. * * *

* * * * *

PAR. 13. Section 1.1014–9, reading as follows, is added immediately after § 1.1014–8:

§ 1.1014–9 Special rule with respect to DISC stock.

(a) *In general.* If property consisting of stock of a DISC or former DISC (as defined in section 992(a) (1) or (3) as the case may be) is considered to have been acquired from a decedent (within the meaning of paragraph (a) or (b) of § 1.1014–2), the uniform basis of such stock under section 1014, as determined pursuant to §§ 1.1014–1 through 1.1014–8 shall be reduced as provided in this section. Such uniform basis shall be reduced by the amount (hereinafter referred to in this section as the amount of reduction), if any, which the decedent would have included in his gross income under section 995(c) as a dividend if the decedent had lived and sold such stock at its fair market value on the estate tax valuation date. If the alternate valuation date for Federal estate tax purposes is elected under section 2032, in computing the gain which the decedent would have had if he had lived and sold the stock on the alternate valuation date, the decedent's basis shall be determined with reduction for any distributions with respect to the stock which may have been made, after the date of the decedent's death and on or before the alternate valuation date, from the DISC's previously taxed income (as defined in section 996(f)(2)). For purposes of this section, if the corporation is not a DISC or former DISC at the date of the decedent's death but is a DISC for a taxable year which begins after such date and on or before the alternate valuation date, the corporation will be considered to be a DISC or former DISC only if the alternate valuation date is elected. For purposes of section 1014(d) and this section, in computing the gain which the decedent would have had if he had lived and sold the stock, the decedent's basis shall be determined without regard to the last sentence of section 996(e)(2) (relating to reductions of basis of DISC stock). The provisions of this paragraph apply with respect to stock of a DISC or former DISC which is included in the gross estate of the decedent, including but not limited to property which—

(1) Is acquired from the decedent before his death, and the entire property is subsequently included in the decedent's gross estate for estate tax purposes, or

(2) Is acquired property described in paragraph (d) of § 1.1014–3.

(b) *Portion of property acquired from decedent before his death included in decedent's gross estate.* In cases where, due to the operation of the estate tax, only a portion of property which consists of stock of a DISC or former DISC and which is acquired from a decedent before his death is included in the decedent's gross estate, the uniform basis of such stock under section 1014, as determined pursuant to § 1.1014–1 through § 1.1014–8, shall be reduced by an amount which bears the same ratio to the amount of reduction which would have been determined under paragraph (a) of this section if the entire property consisting of such stock were included in the decedent's gross estate as the value of such property included in the decedent's gross estate bears to the value of the entire property. For example, assume that the decedent creates a trust to pay the income to A for life, remainder to B or his estate. The trust instrument further provides that if the decedent should survive A, the income shall be paid to the decedent for life. Assume that the decedent predeceases A, so that, due to the operation of the estate tax, only the present value of the remainder interest is included in the decedent's gross estate. The trust consists of 100 shares of the stock of X corporation (which is a DISC at the time the shares are transferred to the trust and at the time of the decedent's death) with an adjusted basis immediately prior to the decedent's death of $10,000 (as determined under section 1015). At the time of the decedent's death the value of the stock is $20,000, and the value of the remainder interest in the hands of B is $8,000. Applying the principles of paragraph (b)(3)(i) of § 1.1014–6, the uniform basis of the entire property following the decedent's death, prior to reduction pursuant to this paragraph, is $14,000. Assume further that the amount of reduction which would have been determined under paragraph (a) of this section if the entire property consisting of such stock of X corporation were included in the decedent's gross estate is $5,000 The uniform basis of the entire property following the decedent's death, as reduced pursuant to this paragraph, is $12,000, computed as follows:

Uniform basis under section 1014(a), prior to reduction pursuant to this paragraph	$14,000
Less decrease in uniform basis (determined by the following formula)	2,000

Reduction in uniform basis (to be determined) = $5,000 (amount of reduction in paragraph (a) applied) / $8,000 (value of property included in gross estate) × $20,000 (value of entire property)

Uniform basis under section 1014(a) reduced pursuant to this paragraph	12,000

(c) *Estate tax valuation date.* For purposes of section 1014(d) and this section, the estate tax valuation date is the date of the decedent's death or, in the case of an election under section 2032, the applicable valuation date prescribed by that section.

(d) *Examples.* The following examples illustrates the application of section 1014 (d) and this section:

Example (1). If at the date of A's death his DISC stock has a fair market value of $100, the estate does not elect the alternate valuation allowed by section 2032, and A's basis in such stock is $60 at the date of his death, the person who acquires such stock from the decedent will take as a basis for such stock its fair market value at A's death ($100), reduced by the amount which would have been included in A's gross income under section 995(c) as a dividend if A had sold stock on the date he died. Thus, if the amount that would have been treated as a dividend under section 995(c) were $30, such person will take a basis of $70 for such stock ($100, reduced by $30). If such person were immediately to sell the DISC stock so received for $100, $30 of the proceeds from the sale would be treated as a dividend by such person under section 995(c).

Example (2). Assume the same facts as in example (1) except that the estate elects the alternate valuation allowed by section 2032, the DISC stock has a fair market value of $140 on the alternate valuation date, the amount that would have been treated as a dividend under section 995(c) in the event of a sale on such date is $50 and the DISC has $20 of previously taxed income which accrued after the date of the decedent's death and before the alternate valuation date. The basis of the person who acquires such stock will be $90 determined as follows:

(1) Fair market value of DISC stock at alternative valuation date	$140
(2) Less: Amount which would have been treated as a dividend under section 995(c)	50
(3) Basis of person who acquires DISC stock	90

If a distribution of $20 attributable to such previously taxed income had been made by the DISC on or before the alternate valuation date (with the DISC stock having a fair market value of $120 after such distribution), the person who acquires such stock will take a basis of $70 for such stock.

PROCEDURES FOR DETERMINING NET WEIGHT OF FOOD PRODUCTS

Extension of Time for Filing Written Data, Views and Arguments

A proposal for Procedures for Determining Net Weight of Food Products was published in the FEDERAL REGISTER of December 18, 1971 (FR Doc. 71–18499; 36 FR 24069).

In consideration of comments and suggestions received indicating a need for further study by the industries affected, notice is hereby given that the time for receiving written data, views or arguments from interested parties in connection with the proposed Procedures for Determining Net Weight of Food Products has been extended to April 15, 1973.

All persons who wish to submit written data, views or arguments within the additional time for consideration in connection with the proposal should file the same—in duplicate—with the Hearing Clerk, Room 112–A, U.S. Department of Agriculture, Washington, DC 20250, on or before April 15, 1973. All written submittals made pursuant to this notice will be available for public review at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

Food and Drug Administration

[21 CFR Part 130]

NEW PRESCRIPTION DRUGS

Proposed Bioavailability Requirements

It has long been recognized that the release of active drug from a drug product may be greatly influenced by physicochemical factors in the product and by

V 38 I 3 JAN 5 73 XUM

the method of formulation. Thus, a tablet may fail to release its specified content of active drug because the tablet dissolves slowly or because the active drug is bound tightly to other ingredients. Until recently, it was believed that in vitro testing of drug products for potency, content uniformity, disintegration time, and dissolution rate was sufficient to ensure a uniform quality for all formulations of the same drug. However, it has now been established that different formulations of the same drug may produce differing concentrations of drug in body tissues or fluids when tested under standardized conditions even though the formulations may meet current standards for in vitro testing.

The Food and Drug Administration (FDA) recognizes that exact equality among drug products cannot be expected and, indeed, differences in pharmaceutical composition are sometimes designed to achieve such desirable goals as improved shelf life or improved patient acceptability. There is no intent to limit innovation in this important area, but such innovation must not alter the fundamental effectiveness or safety of the drug. Good patient care requires that all formulations of the same drug meet identical standards.

It is not possible to specify at the present time the frequency with which lack of equivalence in bioavailability of chemically equivalent formulations may occur. However, the parameters associated with defining the bioavailability of a drug have been identified and the factors for assessing a drug's bioavailability in most instances are known or can be determined.

It is the responsibility of the manufacturer to assure by acceptable scientific evidence that each dosage form of each drug product is formulated so as to meet appropriate standards, is safe, and has the effectiveness claimed in its labeling. For some drugs a necessary part of this assurance is evidence that the active drug in a drug product is biologically available to a uniform and acceptable degree.

Suitable methodology for accurately measuring the bioavailability of a drug in humans is not currently available for many drug products. Practical limitations on the number of investigators and clinical research facilities available for such work also precludes the possibility of testing in the near future every formulation of every drug currently on the market. There is no reason to believe that a rigid across-the-board requirement for bioavailability testing of every marketed drug product would, on a benefit/risk ratio basis, improve the quality of drug products commensurate with the expenditure of human and technical resources. Thus, it is necessary to set priorities in the categories of drugs selected for bioavailability testing, with primary attention directed toward those in which a defect in bioavailability would be most detrimental to patient care.

In view of the above, the FDA will publish, from time to time, lists of drugs for which bioavailability data will be required on the basis of medical importance and/or indications that problems of bioavailability have been suggested or suspected. The proposed regulation set forth below regarding bioavailability will supersede all previous requests for bioavailability data published in the FEDERAL REGISTER prior to April 21, 1972, through the Drug Efficacy Study Implementation (DESI) announcements. Since April 21, 1972, the FDA conclusions published in DESI announcements have used the criteria and principles for requiring bioavailability as set forth in this proposed regulation.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 507, 701(a), 52 Stat. 1050–1053 as amended, 1055; 21 U.S.C. 352, 355, 357, 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that Part 130 be amended as follows:

1. By adding the following new section:

§ 130.____ Bioavailability requirements for prescription drugs.

(a) *Definition.* The bioavailability of an active ingredient(s) from a drug product is defined as the rate and extent to which the ingredient(s) is absorbed from the drug product into the body or to the site of action.

(b) *Methods for establishing bioavailability of a drug.* (1) Bioavailability may be established by tests in which the blood levels and/or urinary excretion rates of the drug and/or of its metabolites are measured after administration of the product, according to the general standards outlined in paragraph (c) of this section.

(2) Where it is not technically possible to ascertain blood levels or urinary excretion rates, bioavailability may also be established by clinical trials which measure the therapeutic effect or an acute pharmacological effect; in such trials, the test formulation is compared for an appropriate indication with a reference product and/or a placebo if appropriate. Clinical trials conducted for the purpose of establishing bioavailability shall adhere rigorously to high standards of quality in design and technical execution; the results of such trials shall be subjected to proper statistical evaluation. Clinical trials which have established effectiveness of the drug may also serve to establish the bioavailability of the drug if such trials are conducted with the marketed formulation.

(c) *General requirements for establishing bioavailability.* (1) Requirements for the filing of a "Notice of Claimed Investigational Exemption for a New Drug" (IND).

(i) Where a drug is currently commercially available for an approved indication, an IND is not required for single dose studies in normal individuals where the dose does not exceed that specified in the labeling or single dose or steady state studies in patients.

(ii) An IND may be requnired when steady state studies are to be conducted in normal subjects or when single dose studies in normal individuals or patients call for doses which exceed that specified in the labeling. The Food and Drug Administration will determine on an individual basis whether an IND is required in these situations.

(iii) In all cases the physician-investigator shall abide by the same ethical standards that apply to all human research and testing, and written consent (21 CFR 130.37) and institutional review of the protocol (21 CFR 130.3) are required. Bioavailability testing shall not be performed on critically ill patients.

(2) It is advisable to review proposed bioavailability tests or clinical trials with the Food and Drug Administration to determine that the design of the study is appropriate, that an appropriate reference product is used, and that methods are adequate. Such tests or trials should be reviewed with the Food and Drug Administration prior to initiation to avoid an unacceptable design or other deficiency.

(3) Formulations of a given drug product shall in most instances be tested in comparison with an appropriate reference preparation. For bioavailability tests, the reference preparation shall ordinarily contain the same drug in the same amount and in the same dosage form as the test product and shall ordinarily be a product currently produced by a manufacturer holding an original NDA. In selected cases (*e.g.*, a new chemical entity) the reference preparation may be the drug substance in an appropriate standard system (e.g., solution). For some clinical trials a placebo may serve as an appropriate reference product. Both the test product and reference product shall be shown to meet compendial standards, including potency, content uniformity, and, where applicable, disintegration times and dissolution rates; however, if the drug is not recognized in an official compendium, it shall meet adequate specifications to assure its identity, strength, quality, purity, content uniformity, and, where applicable, disintegration times and dissolution rates. In the case of combination drug products, the bioavailability of each active ingredient shall be established. Attention shall be given to potential interaction from active ingredients which would provide a change in the bioavailability characteristics in the combination product.

(4) Bioavailability testing and clinical assays shall ordinarily be conducted in man, but if an appropriate animal model exists its use is acceptable. Bioavailability testing shall ordinarily be done in normal adults who are given single doses of the test product and/or the reference product under standardized conditions. In selected cases it may be necessary to conduct multiple-dose tests. The guiding principle is that no unnecessary human research should be done.

(5) The data from either bioavailability tests or clinical assays shall demonstrate a lack of substantial inequality between the test product and the reference product and need not demonstrate equality between the two. Criteria for a lack of substantial inequality vary from drug to drug and take into consideration both the statistical significance and the possible medical importance of differences in bioavailability found among the drugs.

(6) Any lot of a drug product encountered which fails to meet appropriate standards of bioavailability but does meet compendial standards for in vitro testing is valuable for further study. Samples of such lots are requested to be sent to the Food and Drug Administration to the attention of the Division of Clinical Research, BD–220, Office of Scientific Coordination, Bureau of Drugs, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852. Such samples will be made available to qualified investigators as part of the Food and Drug Administration's intramural and extramural research effort to develop improved methods of in vitro testing.

(d) *Drugs for which evidence of bioavailability is required.* (1) Notices will be published periodically in the FEDERAL REGISTER listing specific drugs for which the Commissioner concludes bioavailability testing is required. Such notices will be published on a public health priority basis, taking into account the benefit/risk ratio, evidence of a lack of bioavailability, and other relevant factors. Drug Efficacy Study Implementation (DESI) announcements published since April 21, 1972, have used the criteria and principles for requiring bioavailability that are set forth in this regulation and therefore also constitute such notice. Bioavailability requirements set forth in DESI announcements published prior to April 21, 1972, are revoked and superseded by this proposed regulation.

(2) For all drugs subject to approved new drug applications (including abbreviated new drug applications), evidence of bioavailability shall be submitted to the Food and Drug Administration within 180 days after publication of a notice of such requirement unless a time extension is granted .

(3) Any new drug application for a given drug that is under consideration at the time of or after publication of a notice of such bioavailability requirement for that drug shall include evidence of bioavailability. In these cases, inclusion of such evidence is requisite for approval of the new drug application.

(4) Any original new drug application for a new chemical entity that either is pending or is submitted after (insert the effective date of this regulation) shall contain the results of a bioavailability study performed under standardized conditions defining the bioavailability parameters of the drug. In addition the product formulation intended for marketing shall be compared with an appropriate reference preparation (e.g., the pure drug in solution). Waiver or deferral of this requirement may be granted if adequate analytical methodology is unavailable and the applicant demonstrates the drug possesses a negligible potential for bioavailability problems. In original new drug applications studies shall be included which correlate blood or tissue levels with degree of efficacy.

(5) For marketed drugs that are subject to approved new drug applications and that are reformulated after a requirement of bioavailability has been satisfied pursuant to subparagraphs (2), (3), or (4) of this paragraph, bioavailability data shall accompany the required supplement unless waived or deferred. Advice as to the reference product and the need for such data in light of the significance of the formulation change may be obtained from the Food and Drug Administration.

(6) When the Food and Drug Administration finds that different batches (lots) of the same product are chemically equivalent with reference to the active ingredients but fail to produce uniform blood levels, batch to batch (lot to lot) testing of such drug products may be required in accordance with specified or approved procedures or protocols. Such specified or approved procedures or protocols may include physical tests to the extent they are reliable and accurate, such as dissolution and disintegration rates, as well as blood and urine analyses.

(7) Where questions of safety and/or effectiveness are raised for marketed drugs not subject to the new drug provisions of the act, a notice will be published advising interested persons that the Food and Drug Administration considers such products to be in violation of the act unless bioavailability has been established. Drug monographs under which drugs may be marketed as generally recognized as safe and effective and not misbranded and thus without an approved new drug application may include a bioavailability requirement. The failure to comply with such requirement will result in the drug being adulterated and/or misbranded.

(e) Drugs for which bioavailability is not required. Bioavailability evidence will not be required where the rate and amount of the drug going into systemic circulation is directly controlled (e.g., solution intended for intravenous administration) or where bioavailability is not germane to its intended purpose (e.g., urologic irrigating fluids) or where the Commissioner concludes on the basis of other adequate data or information that such evidence is unnecessary to assure reasonably uniform quality and therapeutic performance.

(f) Inquiries related to the bioavailability of drug products should be submitted to the Office of Scientific Coordination, BD–200, Bureau of Drugs, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852.

2. In § 130.4 by adding a new subitem h. to item 12 in Form FD–356H in paragraph (c)(2), and by revising paragraph (f)(3), as follows:

§ 130.4 Applications.

• • • • • •

(c) • • •

(2) • • •

FD–356H • • •

12. • • •

h. Biological availability data in accord with § 130.—— (*Bioavailability requirements for prescription drugs*), for a drug which is a new chemical entity or for which a notice of such requirement has been published pursuant to § 130.—— (*Bioavailability requirements for prescription drugs*).

• • • • • •

(f) • • •

(3) Data showing biological availability of the drug in accord with § 130.—— *Bioavailability requirements for prescription drugs*, if a notice for such requirement for the drug has been published pursuant to § 130.—— *Bioavailability requirements for prescription drugs*. For preparations claiming sustained action, timed-release, or other delayed or prolonged effect, such data should show that the drug is available at a rate of release that will be safe and effective. Original versions of sustained action or timed release preparations must show evidence of efficacy on the basis of clinical trials as compared with short-acting preparations and placebo.

• • • • • •

Interested persons may, by March 6, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: December 22, 1972.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

[FR Doc.73-93 Filed 1-4-73;8:45 am]

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 175]

[CGD 72–120PH]

EQUIPMENT REQUIREMENTS

Personal Flotation Devices

In the Friday, October 6, 1972, issue of the FEDERAL REGISTER (37 FR 21262), the Coast Guard published a notice (CGD 72–120PH) proposing certain requirements for the carriage of lifesaving equipment.

This document is a supplement to the original notice and is being issued to clarify the carriage requirements and extend the proposed requirements for one throwable device to all boats.

V 38 - 3 JAN 5 73 XUM

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the U.S. Coast Guard (GCMC/82), Room 8234, 400 Seventh Street SW., Washington, DC 20590. Each person submitting comments should include his name and address, identifying the notice (CGD 72–120PH), and give reasons for any recommendations. Comments received will be available for examination by interested persons in Room 8234. The Commandant will evaluate all comments received before January 30, 1973, and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

The notice (CGD 72–120PH) stated that on boats 26 feet in length and longer man overboard protection should be provided. Based upon several comments received to date, the Coast Guard now feels that man overboard protection is also needed on boats less than 26 feet in length. Therefore, it is proposed to require at least one Type IV PFD, which is a throwable device, on all recreational boats with two exceptions. The first exception would be that of the boat being used by only one person. The second exception would be for the case where all occupants are wearing personal flotation devices.

In consideration of the foregoing, § 175.15 in the notice CGD 72–120PH is changed to read as follows:

§ 175.15 Personal flotation devices required.

• • • • •

(c) No person may use a recreational boat without at least one Type IV PFD or its equivalent listed in Table 175.23 on board unless that person is—

(1) The sole occupant of the boat; or

(2) Wearing a PFD that meets the requirements of this section for the boat.

Dated: December 27, 1972.

A. C. WAGNER,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Boating Safety.

[FR Doc.73–274 Filed 1–4–73;8:45 am]

Federal Aviation Administration

[14 CFR Part 39]

[Airworthiness Docket No. 72–WE–20–AD]

McDONNELL DOUGLAS MODEL DC–8 SERIES AIRPLANES

Proposed Airworthiness Directives

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to McDonnell Douglas Model DC–8 series airplanes. There has been a failure of the control column casting on a Model DC–8 and one other column has been found with several cracks. The failure resulted from a fatigue crack. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require an inspection of the affected area of all Model DC–8 control columns within 1,000 hours' time in service.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Western Region, Attention: Regional Counsel, Airworthiness Rules Docket, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received on or before February 1, 1973, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Airworthiness Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

McDONNELL DOUGLAS. Applies to all Model DC–8 series airplanes.

Compliance required within the next 1000 hours' time in service after the effective date of this AD, unless already accomplished.

To detect cracks and prevent failure of the control column, conduct a dye penetrant inspection of the control columns in accordance with the instructions in McDonnell Douglas All Operators Letter 8–632 issued October 11, 1972, or later FAA-approved revisions, or equivalent inspection technique approved by the Chief, Aircraft Engineering Division, FAA Western Region.

NOTE: The agency is examining the possibility of incorporating a repetitive inspection program into this AD. The manufacturer is now performing tests for this purpose. The AD may be amended based on data obtained.

Issued in Los Angeles, Calif. on December 18, 1972.

ARVIN O. BASNIGHT,
Director, FAA Western Region.

[FR Doc.73–271 Filed 1–4–73; 8:45 am]

[14 CFR Part 39]

[Airworthiness Docket No. 72–WE–22–AD]

McDONNELL DOUGLAS MODEL DC–9–10 SERIES AIRPLANES

Proposed Airworthiness Directives

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive (AD) applicable to McDonnell Douglas Aircraft Co., Model DC–9–10 series airplanes.

There has been a report of a fatigue crack in a fuselage frame lower end fitting on a DC–9–10 series airplane. This condition, if undetected, may jeopardize safe operation of the airplane. Since this condition is likely to exist in other airplanes of the same design, the proposed airworthiness directive would require initial and repetitive inspections, and replacement or repair of the fuselage frame fittings in accordance with instructions specified in the AD.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments, as they may desire. Communications should identify the docket number and be submitted in duplicate to the Department of Transportation, Federal Aviation Administration, Western Region, Attention: Regional Counsel, Airworthiness Rule Docket, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received on or before February 1, 1973, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in the notice may be changed in light of comments received. All comments will be available, both before and after the closing date for comments, in the rule docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive.

McDONNELL DOUGLAS. Applies to Model DC–9–10 series airplanes certificated in all categories.

Compliance required as indicated:

To detect fatigue cracks in the fuselage frame lower end fittings (P/N's 9958198, 9958200 and 9958202) at fuselage stations 503, 525, or 544 accomplish the following:

A. 1. For airplanes with 10,000 hours or more time in service on the effective date of this A.D., unless already accomplished within the last 500 hours time in service prior to the effective date of this A.D., within the next 1,000 hours time in service and thereafter at intervals not to exceed 1,500 hours time in service from the last inspection, inspect the fuselage frame left and right hand lower end fittings P/N 9958198, 9958200, and 9958202, in accordance with the instructions and procedures of paragraph B, below.

2. For airplanes with less than 10,000 hours time in service on the effective date of this A.D., comply with paragraph (B) before the accumulation of 11,000 hours time in service.

B. 1. Statically ground the aircraft. Observe all precautionary measures as outlined in Douglas DC–9 Maintenance Manual, Chapter 12–13–0.

2. Remove and retain passenger compartment lower side panels (below the windows) and attaching parts between stations 465 and 566 in accordance with the instructions outlined in Douglas Maintenance Manual, Chapter 25–21–0.

Optional: For additional access, remove and retain the air-conditioning exhaust grill and attaching parts in accordance with the instructions outlined in Douglas Maintenance Manual, Chapter 25–27–0.

3. Accomplishment of paragraph B.2, above, will expose the horizontal shear web which has "taped-over" cutouts for the fuselage frames. Remove the tape, and

4. Visually inspect for evidence of cracking, using positive inspection aids, the areas between and surrounding (including the frame fitting inboard flange) the two upper bolts which attach the rear face of the lower end of the fuselage frame fittings (P/N 9958198, 9949200 and 9958202) to the transverse floor beam members at fuselage stations 503, 525, and 544, both left and right hand sides.

5. If cracks are found replace with a new part of the same design, or repair in a manner approved by the Chief, Aircraft Engineering Division, FAA Western Region.

6. Upon accomplishment of paragraph B.5, the inspection periods outlined in paragraph A. may be discontinued, for that part only, until the new or repaired part has accumulated an additional 10,000 hours time in service, at which time the inspections and corrective actions prescribed in paragraph B will be repeated.

7. Report the findings of the inspections performed in compliance with this A.D. to the Chief, Aircraft Engineering Division, FAA Western Region, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. (Reporting approved by the Bureau of the Budget under BOB No. 04–R0174).

C. Equivalent inspections and replacements or repairs may be approved by the Chief, Aircraft Engineering Division, FAA Western Region.

Issued in Los Angeles, Calif., on December 18, 1972.

ARVIN O. BASNIGHT,
Director, FAA Western Region.

[FR Doc.73–272 Filed 1–4–73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 72–NE–25]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of the Federal Aviation Regulations so as to alter the Presque Isle, Maine, control zone (37 FR 2121) and transition area (37 FR 2269).

A new instrument landing system and associated standard instrument approach procedure will be established at the Presque Isle, Maine, airport. This will require alteration of the Presque Isle, Maine, control zone and 700-foot transition area to provide controlled airspace for aircraft executing the procedure for this new approach.

Interested persons may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, New England Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, 154 Middlesex Street, Burlington, MA 01803. All communications received within thirty (30) days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Operations, Procedures and Airspace Branch, New England Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of Regional Counsel, Federal Aviation Administration, 154 Middlesex Street, Burlington, MA.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Presque Isle, Maine, proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Presque Isle, Maine, control zone in its entirety and insert the following in lieu thereof:

Within a 5-mile radius of Presque Isle, Maine, Municipal Airport (lat. 46°41'30" N., long. 68°02'30" W.); within 3.5 miles each side of the Presque Isle localizer course extending from the 5-mile-radius zone to 10 miles south of the LOM; within 2 miles each side of the Presque Isle VORTAC 158° radial extending from the 5-mile-radius zone to the Presque Isle VORTAC. This control zone is effective from 0800 to 2000 hours, local time, Sunday through Friday; 0800 to 1730 hours, local time, Saturday or during the specific dates and times established in advance by a Notice to Airmen which thereafter will be continuously published in the Airman's Information Manual.

2. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Presque Isle, Maine, 700-foot transition area in its entirety and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 13-mile radius of Presque Isle, Maine, Municipal Airport (lat. 46°41'30" N., long. 68°02'30" W.); within 3.5 miles east and 8 miles west of the Presque Isle localizer course extending from the 13-mile radius area to 11.5 miles south of the LOM; within 3.5 miles east and 8 miles west of the Presque Isle VORTAC 338° radial extending from the 13-mile radius area to 11.5 miles north of the VORTAC; within an 8.5 mile radius of Caribou, Maine, Municipal Airport (lat. 46°52'20" N., long. 68°01'10" W.); within a 10-mile radius of Loring AFB (lat. 46°57'05" N., long. 67°53'10" W.); Limestone, Maine; excluding that portion outside of the United States.

That airspace extending upward from 1200 feet above the surface within a 40-mile radius of Loring AFB (lat. 46°57'05" N., long. 67° 53'10" W.) Limestone, Maine, excluding that portion outside of the United States.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Burlington, Mass., on December 18, 1972.

FERRIS J. HOWLAND,
Director, New England Region.

[FR Doc.73–168 Filed 1–4–73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 72–NE–26]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Administration Regulations so as to designate a Biddeford, Maine, transition area.

The Standard Instrument Approach Procedure for Biddeford Airport, Biddeford, Maine, has been revised in accordance with the U.S. Standard for Terminal Instrument Procedures. This revised procedure will require the designation of a Biddeford, Maine, 700-foot transition area in order to provide controlled airspace protection for aircraft executing this procedure.

Interested persons may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, New England Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, 154 Middlesex Street, Burlington, MA 01803. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Operations, Procedures and Airspace Branch, New England Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of Regional Counsel, Federal Aviation Administration, 154 Middlesex Street, Burlington, MA.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Biddeford, Maine, proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Biddeford, Maine, 700-foot transition area described as follows:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Biddeford, Maine, Airport (lat. 43°27'55" N., long. 70°28'25" W.) extending clockwise from the 270° bearing to the 180° bearing; within a 10-mile radius extending from the 180° bearing clockwise to the 270° bearing excluding that airspace previously

V 38 - 3 JAN 5 73 XUM

designated as the Sanford, Maine, 700-foot transition area.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Burlington, Mass., on December 20, 1972.

JACK ORMSBEE,
Acting Director,
New England Region.

[FR Doc.73-267 Filed 1-4-73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 72-SO-132]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Muscle Shoals, Ala., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, Post Office Box 20636, Atlanta, GA 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 724, 3400 Whippie Street, East Point, GA.

The Muscle Shoals transition area described in § 71.181 (37 FR 2143) would be amended as follows:

"• • • longitude 87°36'39" W.) • • •" would be deleted and "• • • longitude 87°36'39" W.); within 3 miles each side of Muscle Shoals VOR 114° radial, extending from the 11-mile radius area to 8.5 miles east of the VOR • • •" would be substituted therefor.

The proposed alteration is required to provide controlled airspace protection for the new ILS RWY 29 Instrument Approach Procedure.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on December 20, 1972.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.73-266 Filed 1-4-73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 72-WA-31]

CHICAGO, ILL., TERMINAL CONTROL AREA

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Chicago, Ill., terminal control area (TCA) by expanding the area from 20 to 25 miles; eliminating Area D in the vicinity of Meigs Airport; reducing the size of Area D in the vicinity of Northbrook VORTAC; and redefining certain TCA boundaries by the use of VORTAC radials and DME arcs.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments, as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon, Des Plaines, IL 60018. All communication received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The Chicago TCA has been in effect more than 2 years and has been generally successful. However, experience in traffic handling capability gained during that period indicates that the area is not large enough to contain all turbojet arrivals executing parallel ILS approaches to O'Hare Airport. During busy periods, and depending on the landing runways in use, up to 23 percent of turbine-powered aircraft being vectored for parallel approaches exit the TCA at the 20-mile boundary then reenter the airspace as they approach the airport. Efforts to contain the aircraft within established boundaries have been unsuccessful due to operational requirements associated with parallel approach procedures and the heavy volume of traffic at O'Hare. It is expected that by expanding the TCA to a 25-mile radius of the airport, all routine vector operations will be kept within the confines of the airspace. Therefore, it is proposed herein to extend the outer boundary of the Chicago TCA to 25 miles with a floor of 4,000 feet MSL.

The current 4,000-foot MSL floor area in the vicinity of Meigs Airport has been unduly restrictive to O'Hare departures. Runway 22L/04R was added to the O'Hare configuration subsequent to the designation of Chicago TCA. Aircraft departing Runway 22L and proceeding eastbound must be restricted in their initial climbs due to arrivals, then vectored clear of the airspace overlying Meigs Airport until passing through 4,000 feet. The 4,000-foot floor area has the effect of extending the departure flight path southeastward towards Midway Airport, imposing restrictions on that airport's traffic. Additionally, the Meigs 4,000-foot exclusion area of questionable value to the VFR user. General aviation aircraft operating in that vicinity are either arriving/departing Meigs Airport at altitudes substantially below 4,000 feet or underflying the TCA along the lakeshore below 3,000 feet MSL. Therefore, the FAA proposes to lower the floor of TCA airspace in the Meigs vicinity from 4,000 feet MSL to 3,000 feet MSL.

There is a need to reduce the size of existing Area D north of O'Hare Airport to permit earlier descent of arrivals from the northwest and northeast. The proposed reduction would also provide additional airspace for slow-climbing turbojets and would allow such aircraft to reach or exceed 4,000 feet prior to crossing the southern boundary of Area D. It is therefore proposed herein to alter the boundaries of Area D by moving the south boundary northward 2 miles to coincide with the relocated position of Northbrook VORTAC and to redefine the east and west boundaries respectively as the 017° and 335° radials of Chicago VORTAC.

Finally, it is proposed herein to define certain other boundaries of the TCA and its subareas by use of radials and DME arcs based on the Chicago O'Hare VORTAC to provide pilots with an additional means of identifying the TCA airspace.

If these proposed actions are taken, the Chicago, Ill., TCA would be amended as follows:

CHICAGO, ILL., TERMINAL CONTROL AREA

A. PRIMARY AIRPORT

(1) Chicago-O'Hare International Airport (lat. 41°58'57"N., long. 87°54'25"W.).
(2) Chicago-O'Hare VORTAC (lat. 41°59'16"N., long. 87°54'17"W.).

B. BOUNDARIES

(1) *Area A.* That airspace extending upward from the surface to and including 7,000 feet MSL within the Chicago, Ill. (O'Hare International Airport), control zone and including that airspace within 2 statute miles northwest of the centerline extended of Runway 4L, and 2 statute miles southeast of the centerline extended of Runway 4R, extending from the 5-statute mile radius control zone to 2 statute miles southwest of the Pine Outer Marker.

(2) *Area B.* That airspace extending upward from 1,900 feet MSL to and including 7,000 feet MSL within a 10.5-mile radius of Chicago-O'Hare (ORD) VORTAC, excluding Area A and that area bounded on the southeast by a line 2 miles northwest of and parallel to the centerline extended of Runway 22R, on the south and southwest by the southwest boundary of Glenview, Ill., control zone, on the north by a 10.5 north M. radius arc of the ORD VORTAC, and excluding Area E described hereinafter.

(3) *Area C.* That airspace extending upward from 3,000 feet MSL to and including 7,000 feet MSL within a 20-mile radius of ORD VORTAC, excluding Areas A and B, previously described, Area E described hereinafter, and excluding that airspace bounded on the west by the ORD VORTAC 336° T (335° M) radial, on the south by the Northbrook VORTAC 269° T (268° M) and 094° T (093° M) radials, on the east by the ORD VORTAC 018° T (017° M) radial and on the north by a 20-mile radius arc of ORD VORTAC.

(4) *Area D.* That airspace extending upward from 4,000 feet MSL to and including 7,000 feet MSL between the 20- and 25-mile radii of the ORD VORTAC and that airspace bounded on the west by the ORD VORTAC 336° T (335° M) radial, on the south by the Northbrook VORTAC 269° T (268° M) and 094° T (093° M) radials, on the east by the ORD VORTAC 018° T (017° M) radial and on the north by a 20-mile radius arc of ORD VORTAC.

(5) *Area E.* That airspace northeast of Chicago extending upward from 2,500 feet MSL to and including 7,000 feet MSL bounded on the northeast by a 10.5-mile radius arc of ORD VORTAC, on the south by the extended centerline of Runway 9/27 at NAS Glenview and on the northwest by a line 2 miles northwest of and parallel to the extended centerline of Runway 22R.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on December 26, 1972.

H. B. HELSTROM,
Chief, Airspace and Air
Traffic Rules Division.

[FR Doc.73-270 Filed 1-4-73;8:45 am]

[14 CFR Parts 71, 73]

[Airspace Docket No. 71-AL-25]

RESTRICTED AREA AND CONTINENTAL CONTROL AREA

Supplemental Proposed Designation and Alteration

On April 18, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 7637) stating that the Federal Aviation Administration was considering amendments to Parts 71 and 73 of the Federal Aviation Regulations that would designate a new joint-use restricted area near Blair Lakes, Alaska, and include it in the continental control area.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. Additionally, two informal airspace meetings were held in Fairbanks, Alaska, on May 17, 1972.

Considerable opposition was manifested by the public at the meetings and through formal comments. In general, those persons objecting from an aeronautical standpoint felt they were being deprived of their public right of transit through the navigable airspace. They also expressed concern that adequate safety and separation could not be assured.

In consideration of the formal comments received and the objections voiced at the informal airspace meetings, the description published in the April 18, 1972 notice is deleted and the following is substituted therefor:

1. BLAIR LAKES, ALASKA, RESTRICTED AREA

Boundaries.

Beginning at lat. 64°33'00" N., long. 147°-45'00" W.; to lat. 64°04'00" N., long. 146°49'-00" W.; thence along the east bank of the Little Delta River to lat. 63°50'50" N., long. 146°47'30" W.; to lat. 63°56'00" N., long. 147°02'00" W.; to lat. 64°25'00" N., long. 147°54'45" W.; to point of beginning.

Time of designation. Monday through Friday at the following local times:

a. April through September 0900–1100; 1400–1700.

b. October through March 0900–1200; 1400–1700.

Designated altitudes.

a. North of an east/west line at lat. 64°20'-00" N., surface to 18,000 feet MSL.

b. South of an east/west line at lat. 64°20'-00" N., 1,000 feet AGL to 7,500 feet MSL.

Controlling agency. Federal Aviation Administration, Elelson RAPCON.

Using agency. Alaskan Air Command.

2. The description of the continental control area would be altered to include the Blair Lakes, Alaska, Restricted Area.

This proposal would provide a local site which is needed for Alaskan-based military aircrews to practice tactical air-to-ground ordnance delivery techniques. However, in contrast to the April 18, 1972, notice it would reduce not only the amount of airspace but also the hours of operation proposed for the restricted area. When the area is active its reduced size would permit nonparticipating aircraft to bypass most of it without difficulty. Sufficient airspace would be designated to contain the military operations and to provide a buffer zone for safe separation from nonparticipating aircraft. Blue Airway 26 would be realigned a few degrees to the west, a DME fix would be established at Fairbanks International Airport, and radar control as well as Standard Instrument Departure Procedures would be routinely used at Fairbanks to further ensure that nonparticipating aircraft operated by instrument flight rules safely avoid the restricted area. Activation and deactivation of the restricted area would be precisely controlled and during inactive periods its joint-use designation would assure its release for other users at their request.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Alaskan Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, AK 99501. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket wil be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on December 19, 1972.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air
Traffic Rules Division.

[FR Doc.73-269 Filed 1-4-73;8:45 am]

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 545]

[No. 72-1555]

FEDERAL SAVINGS AND LOAN SYSTEM

Preapproval of Additional Activities for Service Corporations

The Federal Home Loan Bank Board considers it advisable to amend § 545.9-1 of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.9-1) for the purpose of preapproving certain new activities for service corporations. The proposed amendments would permit all service corporations to act as trustees under deeds of trust and as escrow agents, and to offer title insurance as agent for a title insurance company. All service corporations would also be permitted to invest in a savings account or accounts in FSLIC-insured institutions which own stock in such corporations. Service corporations meeting the requirements of paragraph (a) of § 545.9-1 would also be permitted to own title insurance companies. Accordingly, the Federal Home Loan Bank Board proposes to amend said § 545.9-1 by revising present subdivisions (iii) and (xi) of subparagraph (4) of paragraph (a) thereof, by redesignating subdivisions (xii) and (xiii) of said subparagraph as subdivisions (xiv) and (xv) of said subparagraph, and by adding two new subdivisions designated as subdivisions (xii) and (xiii) to said subparagraph, and by revising subparagraph (2) of paragraph (b) thereof, to read as set forth below.

V 38 - 3 JAN 5 73 XUM

Interested persons are invited to submit written data, views, and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 101 Indiana Avenue NW., Washington, DC 20552, by January 31, 1973, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the general regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

§ 545.9–1 Service corporations.

(a) *General service corporations.* Subject to the provisions of this section, a Federal association which has a charter in the form of Charter N or Charter K (rev.) may invest in the capital stock, obligations, or other securities of any service corporation organized under the laws of the State, District, Commonwealth, territory, or possession in which the home office of such association is located if:

. . . . . .

(4) Substantially all of the activities of such service corporation, performed directly or through one or more wholly owned subsidiaries, consist of one or more of the following:

. . . . . .

(iii) Making any of the following kinds of investments:

(*a*) An investment of the type specified in § 545.9 or § 545.9–3; or

(*b*) An investment in a savings account or accounts in any insured institution (as defined in § 561.1 of this chapter) which is a stockholder in such service corporation, if such service corporation does not receive any consideration, other than interest at the current market rate, in connection with opening or maintaining any savings account in such insured institution;

. . . . . .

(xi) Serving as insurance broker or agent, primarily dealing in policies for savings and loan associations, their borrowers, and their accountholders, which provide protection such as homeowners', fire, theft, automobile, life, health, and accident, but excluding private mortgage insurance;

(xii) Serving in any of the capacities hereinafter listed, if any such business activity is either established as a de novo organization or acquired as a going business for no consideration:

(*a*) Trustee under deeds of trust;

(*b*) Escrow agent;

(*c*) Insurance broker or agent, primarily dealing in title insurance policies for savings and loan associations, their borrowers, and their accountholders, but only if a copy of the agreement under which the service corporation, or a wholly owned subsidiary thereof, purports to act as a title insurance broker or agent is first filed with the Supervisory Agent;

(xiii) Ownership of a title insurance company;

(xiv) Activities reasonably incidental to the activities described in the foregoing subdivisions of this subparagraph (4); and

(xv) Such other activities, including a joint venture in any other activity or in any activity specified in this subparagraph (4), as the Board may approve upon application therefor by any such service corporation or otherwise.

(b) *Other service corporations.* In addition to investment in a service corporation which meets the requirements of paragraph (a) of this section, a Federal association which has a charter in the form of Charter N or Charter K (rev.) may invest in the capital stock, obligations, or other securities of any service corporation organized under the laws of the State, District, Commonwealth, territory, or possession in which the home office of the association is located if:

. . . . . .

(2) The activities of such corporation, performed directly or through one or more wholly owned subsidiaries, consist solely of (i) one or more of the activities specified in subdivisions (i) through (xiv) of paragraph (a)(4) of this section (but excluding the activity specified in subdivision (xiii) thereof) and (ii) such other activities, including joint ventures thereon or in any activity specified in subdivision (i) of this subparagraph, as the Board may approve upon application therefor by such corporation or otherwise; and

. . . . . .

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] JACK CARTER, *Secretary.*

FEDERAL TRADE COMMISSION

[16 CFR Part 433]

PRESERVATION OF CONSUMERS' CLAIMS AND DEFENSES

Notice of Public Hearing and Opportunity To Submit Data, Views or Arguments

The Federal Trade Commission, pursuant to the Federal Trade Commission Act, as amended, 15 U.S.C. 41, et seq., and the provisions of Part 1, Subpart B of the Commission's procedures and rules of practice, 16 CFR 1.11, et seq., issued on January 26, 1971, a proposed trade regulation rule concerning preservation of buyers' claims and defenses in consumer installment sales (36 FR 1211). Written comments thereon by interested parties were received and public hearings were held in New York, N.Y. (June 7 to 9, 1971), Chicago, Ill. (July 12 to 14, 1971) and Washington, D.C. (September 20 to 23, 1971). See 36 FR 6592; 36 FR 7865.

Notice is hereby given that the Federal Trade Commission, having considered the record produced thereby, issues the following revised proposed rule pursuant to the above-cited authority and under section 553 of Subchapter II, Chapter 5, title 5, United States Code, and invites interested parties to submit data, views, or arguments.

PART 433—PRESERVATION OF CONSUMERS' CLAIMS AND DEFENSES

Sec.

433.1 Definitions.
433.2 Prohibited acts and practices: Seller.
433.3 Consumer notice required: Consumer notes.
433.4 Consumer notice required: Related creditors.

AUTHORITY: The provisions of this Part 433 issued under 38 Stat. 717, as amended; 15 U.S.C. 41–58.

§ 433.1 Definitions.

For purposes of this part, the following definitions shall apply:

(a) *Consumer goods or services.* Goods or services purchased or leased primarily for personal, family, or household purposes, including courses of instruction or training regardless of the purpose for which they are taken.

(b) *Seller.* Any person, partnership, corporation, or association, engaged in the retail sale or lease of consumer goods or services to a consumer.

(c) *Consumer.* Any buyer or lessee of consumer goods or services.

(d) *Consumer transaction.* Any sale or lease of consumer goods or services by a seller to a consumer.

(e) *Consumer note.* Any negotiable promissory note or other negotiable instrument of indebtedness, or any retail installment contract whether negotiable or nonnegotiable, executed by a consumer in connection with a consumer transaction. "Consumer note" shall not include a check given in current payment of a presently due consumer obligation, if the check is dated at or before the date of its issuance, or at the time of its issuance is postdated not more than 10 days, and collection thereof through banking channels is initiated by the payee within 7 days of the date of the check.

(f) *Credit card issuer.* Any person, partnership, corporation, or association, including a bank, which by agreement extends to a cardholder the right to use a credit card in connection with a consumer transaction.

(g) *Cardholder.* Any consumer who enters into an agreement with a credit card issuer extending to such consumer the right to use a credit card in connection with a consumer transaction.

(h) *Related creditor.* Any person, partnership, corporation, or association, which is engaged in making loans to consumers to enable payment to be made for consumer goods or services and which either participates in or is directly connected with the consumer transaction. Without limiting the scope of the immediately preceding language, there shall be a rebuttable presumption that a creditor is a related creditor under any one of the following circumstances:

(1) The creditor is a person related by blood or marriage to the seller or to the seller's spouse.

(2) The creditor prepared, supplied or furnished the seller with the forms or documents used to evidence or secure the consumer loan.

(3) The seller prepared, supplied or furnished the creditor with the forms or documents used to evidence or secure the consumer loan.

(4) The creditor is directly or indirectly controlled by, under common control of, or is otherwise affiliated with the seller.

(5) The creditor and the seller are engaged in a joint venture to produce consumer obligations payable either directly or by transfer to the creditor.

(6) The creditor directly or indirectly pays the seller any consideration for the referral of consumer borrowers.

(7) The seller guaranteed the consumer loan or otherwise assumed the risk of loss by the creditor upon the loan.

(8) The creditor made five or more loans within a 1-year period the proceeds of which are used in transactions with the same seller following referral of the consumer to the creditor by the seller.

(9) (i) The creditor knew or had reason to know that the loan proceeds would be used in whole or in substantial part to pay the seller for an obligation of the consumer, and (ii) the creditor had notice that the seller failed or refused to perform contracts with the consumers, or failed to remedy complaints within a reasonable time.

§ 433.2 Prohibited acts and practices: Sellers.

In any consumer transaction it constitutes an unfair and deceptive act or practice for a seller to:

(a) Obtain a consumer note and fail to have inscribed upon the face of such note, in 10 point bold face type the following statement:

NOTICE

CONSUMER NOTE

It is agreed that any holder of this instrument takes this instrument subject to all claims and defenses which would be available to the maker in an action arising out of the contract which gave rise to the execution of this instrument, notwithstanding any agreement to the contrary. Recovery by the maker under this provision shall not exceed the full amount of this instrument.

(b) Take or receive from a consumer any agreement, contract or other obligation which contains:

(1) Any waiver of rights or remedies with respect to any assignee of such agreement, contract, or other obligation, which would accord to such assignee rights and remedies superior to those possessed by the seller with whom the consumer dealt.

(2) Any provision by which the consumer agrees not to assert against any assignee of the seller a claim or defense arising out of the consumer transaction, which claim or defense could be asserted against the seller.

(c) Engage in such a transaction financed by a related creditor unless the financing arrangements between the consumer and the related creditor conform to § 433.2(e) and permit the consumer to maintain against the related creditor any claim or defense arising out of the consumer transaction up to the full amount financed.

(d) Enter into any agreement, contract, or other obligation, for participation in a credit card plan with any credit card issuer who:

(1) Takes or receives from a cardholder any agreement, contract, or other obligation, except one conforming to paragraph (b) of this section, which contains any provision whereby the cardholder agrees not to assert against the issuer claims or defenses arising out of consumer transactions arranged with the issuer's credit card, up to the full amount financed with the credit card in that transaction.

(2) Places any time limitation on the rights of a credit card holder to assert claims or defenses arising out of a consumer transaction which is shorter than the period in which payments are to be made for the sale or lease or the date of final delivery of the goods or the completion of the furnishing of the services, whichever is longest.

(e) Place any time limitation on the rights of a consumer to assert claims or defenses arising out of a consumer transaction which is shorter than the period in which payments are to be made for the sale or lease or the date of final delivery of the goods or the completion of the furnishing of the services, whichever is longest; or to engage in a consumer transaction financed by a related creditor where the financing arrangements specify a shorter period of time within which the consumer may raise a claim or defense.

§ 433.3 Consumer notice required: Consumer notes.

If any consumer transaction requires or involves the execution of a consumer note it constitutes an unfair and deceptive act or practice for a seller to fail to attach to the consumer's receipt or copy of the contract a note in the same language (e.g., Spanish) as that principally used in the consumer transaction containing the following information and statements:

KEEP THIS NOTICE OF YOUR RIGHTS

You have just signed a Consumer Note. It may be sold to a bank or finance company. If so, you will make payments to that bank or finance company, not to the seller. Keep your copy of the Consumer Note with this Notice.

You have the right to expect:

To receive the goods or services promised.

That the seller will fix any defects he promised to fix.

Service on the product if promised by the seller.

That the seller will come through on his part of the bargain.

If you can prove your rights were violated, you have the right:

To refuse payment.

To sue for money already paid.

To tell your side of the story in court if you are sued for nonpayment.

It will be easier to prove your rights were violated if:

You complain to the seller as soon as possible after you find fault with the goods or services. Keep a copy of your letter, or take a friend if you complain in person.

You ask the seller to make good on his promise and he does not. Keep a copy of your letter, or take a friend if you complain in person.

You can show the seller has gone out of business or cannot be located.

You keep all receipts, repair bills, and other papers.

If you have any questions about your rights, get in touch with:

A lawyer.

Your local legal aid society.

Your local or State Consumer Protection Office.

Your neighborhood legal services office.

Your small claims court.

The law stands behind you. Nothing you sign will cause you to lose these rights.

The Federal Trade Commission requires that this notice be given to you. This notice applies only to the goods or services you bought when you got this notice.

§ 433.4 Consumer notice required: Related creditors.

If any consumer transaction is financed by a related creditor it constitutes an unfair and deceptive act or practice for a seller to fail to attach to the consumer's receipt or copy of the contract a notice in the same language (e.g., Spanish) as that principally used in the

V 38 - 3 JAN 5 73 XUM

consumer transaction containing the following information and statements:

KEEP THIS NOTICE OF YOUR RIGHTS

You have just borrowed money to make this purchase from a bank or finance company. You will make payments to the bank or finance company, not to the seller.

You Have the Right to Expect:

To receive the goods or services promised.

That the seller will fix any defects he promised to fix.

Service on the product if promised by the seller.

That the seller will come through on his part of the bargain.

If You Can Prove Your Rights Were Violated, You Have the Right:

To refuse payment.

To sue for money already paid.

To tell your side of the story in court if you are sued for nonpayment.

It Will Be Easier To Prove Your Rights Were Violated If:

You complain to the seller as soon as possible after you find fault with the goods or services. Keep a copy of your letter, or take a friend if you complain in person.

You ask the seller to make good on his promise and he does not. Keep a copy of your letter, or take a friend if you complain in person.

You can show the seller has gone out of business or cannot be located.

You keep all receipts, repair bills, and other papers.

If You Have Any Questions About Your Rights, Get In Touch With:

A lawyer.

Your local legal aid society.

Your local or State Consumer Protection Office.

Your neighborhood legal services office.

Your small claims court.

The Law Stands Behind You. Nothing You Sign Will Cause You To Lose These Rights.

The Federal Trade Commission requires that this notice be given to you. This notice applies only to the goods or services you bought when you got this notice.

NOTE: Commission Interpretation:

(a) "Seller": The Commission deems the definition of "Seller" in § 433.1(b) to include any person engaged in consumer sales in commerce, whether at a permanent place of business, door-to-door, or otherwise.

(b) "Inscribed": The Commission deems the requirement in § 433.2(a) that the seller have the notice "inscribed" on the face of consumer notes, to include legible conspicuous stamping, overprinting or overstamping of forms on hand, where necessary to comply with the provisions of this part.

(c) "Full Amount": The Commission interprets the words "full amount" to include all finance charges, interest, prepaid interest, charges for life insurance, and any other fees, charges or costs imposed upon the consumer in connection with the financing of the consumer transaction.

Interested persons are hereby invited to file written data, views, and arguments concerning the revised proposed rule, addressed to: Assistant Director, Division of Rules and Guides, Bureau of Consumer Protection, Federal Trade Commission, Pennsylvania Avenue and Sixth Street NW., Washington, D.C. 20580, on or before March 5, 1973. Such persons are urged to express approval or disapproval of the revised proposed rule or to recommend further modification, and to make statements as full as they wish. To the extent possible, persons wishing to file written presentations in excess of two pages should submit 20 copies.

All interested persons are also given notice of opportunity to orally present data, views or arguments with respect to the revised proposed rule at a public hearing to be held commencing at 10 a.m., e.s.t., each day, March 12 through March 16, 1973, in Room 532 of the Federal Trade Commission Building, Pennsylvania Avenue at Sixth Street NW., Washington, D.C.

Any person desiring to orally present his views at the hearing should so inform the Assistant Director for Rules and Guides not later than March 5, 1973, and state the estimated time required for his oral presentation. Reasonable limitations upon the length of time allotted to any person may be imposed. Additionally, any party planning to deliver a prepared statement at the hearing should file such statement with the Assistant Director for Rules and Guides on or before March 5, 1973.

The data, views, arguments, and comments received concerning the revised proposed rule, together with the transcript of hearings, will be available for examination during regular business hours in the Division of Legal and Public Records, Room 130, Federal Trade Commission, Washington, D.C. All such statements will be considered by the Commission before final action is taken in this matter.

Comments are invited with respect to any aspect of this revised proposed rule, but the Commission invites comment particularly with respect to the following:

1. Waivers of claims and defenses in credit card contracts (§ 433.2(d)).

2. Interlocking sales-loans transactions, or "related creditors" (§§ 433.1(h) and 433.2(c)).

3. Scope of the term "full amount."

Issued: January 5, 1973.

By the Commission.

[SEAL] CHARLES A. TOBIN, *Secretary.*

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

[Release No. 34-9920; File No. S7-468]

SOLICITATION PRACTICES BY TENDER AND EXCHANGE OFFERORS

Notice of Proposed Rule Making

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to amend Rule 10b-13 (17 CFR 240.10b-13) under the Securities Exchange Act of 1934 ("the Act"), governing solicitation practices by tender and exchange offerors. The purpose of the proposed amendment is to insure that certain tendering shareholders, by virtue of their economic position, special relationship or otherwise, are not induced to tender their shares on the basis of offers of more favorable treatment than other persons who tender their shares pursuant to the tender or exchange offer.

In pertinent part, Rule 10b-13 currently requires that a person who makes a cash tender offer or exchange offer for any equity security may not purchase or make an arrangement to purchase any such security "otherwise than pursuant to such tender offer or exchange offer" until the expiration of the period during which securities tendered pursuant to such tender offer or exchange offer may be accepted or rejected.[1] The Commission proposes to amend Rule 10b-13 to indicate clearly that it is considered "otherwise than pursuant to such tender offer or exchange offer," and thus in violation of Rule 10b-13, for a tender or exchange offeror to offer to pay or to pay, directly or indirectly, in whole or in part, any consideration beyond the specific tender or exchange price to any tendering shareholder or to extend or offer to extend special treatment to any such tendering shareholder. The Commission views the payment by a tender offeror of a soliciting dealer's fee,[2] directly or indirectly, in part or in whole, to a tendering shareholder, as compensation "otherwise than pursuant to such tender or exchange offer." As amended, the rule would require that all persons making tender or exchange offers must receive reasonable assurance from soliciting dealers that the soliciting dealer fees paid to such dealers will not directly or indirectly be paid back to any tendering shareholder or its affiliate. The Commission further proposes to provide by amendment to Rule 10b-13 that payment of consideration or the extension of special treatment, directly or indirectly, in whole or in part, to an affiliate of a tendering shareholder will be deemed payment to

[1] Rule 10b-13 provides, in pertinent part: "No person who makes a cash tender offer or exchange offer for any equity security shall, directly or indirectly, purchase, or make any arrangement to purchase, any such security (or any other security which is immediately convertible into or exchangeable for such security), otherwise than pursuant to such tender offer or exchange offer, from the time such tender offer or exchange offer is publicly announced or otherwise made known by such person to holders of the security to be acquired until the expiration of the period, including any extensions thereof, during which securities tendered pursuant to such tender offer or exchange offer may by the terms of such offer be accepted or rejected • • •."

[2] The soliciting dealer's fee is compensation paid by the tender offeror to the soliciting dealer to encourage the solicitation of shareholders to tender pursuant to the terms of the tender offer or exchange offer. Traditionally, this fee has been paid to qualified brokers or dealers (and occasionally, banks) who have been designated by the tendering shareholder and whose names appear on letters of transmittal accompanying tendered securities indicating that the tender was "solicited" by them.

or special treatment to the tendering shareholder. For purposes of this proposed rule, "affiliated person" of a tendering shareholder shall include: (A) Any person directly or indirectly owning, controlling or holding with power to vote, 5 percent or more of the outstanding voting securities of such tendering shareholder; (B) any person 5 percent or more of whose outstanding securities are, directly or indirectly owned, controlled or held with power to vote, by such tendering shareholder; (C) any person directly or indirectly controlling, controlled by or under common control with, such tendering shareholder; (D) any officer, director, partner, co-partner or employee of such tendering shareholder; and (E) any investment adviser to any investment company. For these purposes, a person shall be presumed to control another person if such person has the power to influence the management or policies of such other person or any person who has a right to participate to the extent of more than 25 percent in the profits of such other person.

The Commission is aware that soliciting dealer fees have been treated in varying ways in the past. Thus, for example, some mutual funds have designated a broker-dealer subsidiary as the soliciting dealer and the fee received was credited against the management fee charged the fund. Some mutual fund management may have designated as soliciting dealer persons who sell fund shares in order to provide them with extra sales compensation.[3] In many instances these practices are undertaken with the consent or acquiescence of the tender offeror or exchange offeror, and the existence of the soliciting dealer's fee is used by the offeror to induce larger investors to tender their shares. In view of the uncertainty and existing diversity in the treatment of soliciting dealer fees and the fact that Rule 10b-13 does not expressly address itself to the treatment of such fees,[4] the Commission believes it is appropriate, in the public interest and for the protection of investors, to amend Rule 10b-13.

The Commission believes that certain inequities and hardships result to tendering public shareholders if some shareholders, by virtue of special position or economic power, are able to receive, directly or indirectly, compensation beyond the tendering price generally offered to shareholders. In making any determination as to whether to tender their shares, every effort must be made to insure that the investing public is not deceived as to the terms of the tender offer or exchange offer, the fair market value of the securities and the prospects for a successful exchange offer or tender offer. It is inconsistent with these goals to permit tender offerors or exchange offerors to compensate certain shareholders with consideration greater than or different from that generally being offered other shareholders.[5]

TEXT OF PROPOSED RULE

The Securities and Exchange Commission, acting pursuant to the provisions of the Securities Exchange Act of 1934, and particular sections 10(b), 13(e), 14(e), and 23(a) thereof, hereby proposes to amend Part 240 of Title 17 of the Code of Federal Regulations by amending § 240.10b-13 as follows:

Paragraph (d) of § 240.10b-13 would be designated paragraph (e) and a new paragraph (d) would be adopted as follows:

§ 240.10b-13 Prohibiting other purchases during tender offer or exchange offer.

• • • • •

(d) For purposes of this section, it shall be considered otherwise than pursuant to such tender offer or exchange offer for any person who makes such cash tender offer or exchange offer to pay or offer to pay, directly or indirectly, in whole or in part, any consideration beyond the specific tender price or exchange consideration to any tendering shareholder or to extend special treatment to such tendering shareholder. Payment of consideration or the extension of special treatment, directly or indirectly, in whole or in part, to an affiliate of a tendering shareholder will be deemed payment to or special treatment to the tendering shareholder.

(1) For purposes of this section, all persons making a cash tender offer or exchange offer must receive reasonable assurance from soliciting dealers that fees or consideration paid to such dealers will not directly or indirectly be paid to any tendering shareholder.

(2) For purposes of this section, an "affiliated person" of a tendering shareholder means (i) any person directly or indirectly owning, controlling or holding with power to vote, 5 percent or more of the outstanding voting securities of such tendering shareholder; (ii) any person 5 percent or more of whose outstanding securities are directly or indirectly owned, controlled, or held with power to vote, by such tendering shareholder; (iii) any person directly or indirectly controlling, controlled by, or under common control with such tendering shareholder; (iv) any officer, director, partner, co-partner or employee of such tendering shareholder; and (v) any investment adviser to an investment company. For purposes of this section, "control" means the power to influence the management or policies of such other person, or any person who has a right to participate to the extent of more than 25 percent in the profits of such other person.

• • • • •

All interested persons are invited to submit their views and comments on this proposal in writing to the Securities and Exchange Commission, Washington, D.C. 20549, on or before February 28, 1973. All such communications should refer to File No. S7-468 and will be available for public inspection.

(Secs. 10(b), 13(e), 14(e), 23(a), 48 Stat. 891, 894, 895, 901; as amended, 82 Stat. 454, 84 Stat. 1497, sec. 2, 49 Stat. 1379, sec. 2; 15 U.S.C. 78j(b), 78m(e), 78n(e), 78w(a))

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

DECEMBER 27, 1972.

[FR Doc.73-252 Filed 1-4-73;8:45 am]

[3] Some funds have acted on the assumption that the solicitation fees should not be given to anyone, including their own subsidiaries, and, as a result, have not designated anyone as the soliciting agent.

[4] Neither the releases proposing Rule 10b-13 (Securities Exchange Act Release No. 8391, Aug. 30, 1968, and in the FEDERAL REGISTER for Sept. 14, 1968, at 33 FR 13036 and No. 8595, May 5, 1969, and in the FEDERAL REGISTER for May 9, 1969, at 34 FR 7547) or adopting that Rule (Securities Exchange Act Release No. 8712, Oct. 8, 1969, and in the FEDERAL REGISTER for Oct. 15, 1969, at 34 FR 15838) comment upon the treatment of solicitation fees.

[5] The Commission has recognized an exception to this general principle. In responding to a question whether an arbitrageur, who purchases securities which are the subject of a tender offer in the open market and subsequently tenders such shares, may sign a soliciting dealer's agreement and receive a soliciting dealer's fee, the Commission stated that an arbitrageur may receive such a fee for the tender of its shares, emphasizing the beneficial market function performed by the arbitrageur (Securities Exchange Act Release No. 9395, Nov. 24, 1971 and in the FEDERAL REGISTER for Dec. 9, 1971 at 36 FR 23359). Implicit in the release is a recognition of the fact that a broker-dealer, when not performing a market function, such as that of an arbitrageur, should not receive a soliciting dealer's fee for shares tendered for its own account.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

NATIONAL ADVISORY BOARD ON WILD FREE-ROAMING HORSES AND BURROS

Notice of Meeting

JANUARY 3, 1973.

Notice is hereby given that the National Advisory Board for Wild Free-Roaming Horses and Burros will hold its first meeting January 12-13, 1973, at the Royal Inn, 206 South West Temple, Salt Lake City, UT. The agenda for the meeting will include consideration of Advisory Board administrative procedures, proposed regulations and draft environmental impact statements for the management of wild free-roaming horses and burros, and planning for the work of the Board.

The meeting will be open to the public. Seating will be available for about 20 observers. Time will be available for a limited number of brief statements by members of the public. Those wishing to make an oral statement must inform the Advisory Board Chairman in writing prior to the meeting of the Board. Any interested person may file a written statement with the Board for its consideration. The Advisory Board Chairman is Dr. C. Wayne Cook, 4800 Venturi Lane, Fort Collins, CO 80521. Written statements should be submitted to Dr. Cook, % the Director (330), Bureau of Land Management, Washington, D.C. 20240.

[Montana 23776]

MONTANA

Notice of Proposed Withdrawal and Reservation of Lands

DECEMBER 21, 1972.

The Department of Transportation, on behalf of the Montana Highway Commission, has filed application M 23776, for the withdrawal of the lands described below, from location and entry under the mining laws, subject to existing valid claims.

The applicant desires the land for proposed highway construction.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 316 North 26th Street, Billings, MT 59101.

The Department's regulations (43 CFR 2351.4(c)) provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

PRINCIPAL MERIDIAN, MONTANA

DEER LODGE NATIONAL FOREST

T. 6 N., R. 6 W.,
Sec. 13, lots 5, 6, 7, 13, 14, and 15.

The area contains 54.34 acres in Jefferson County, Mont.

ROLAND F. LEE,
Chief, Branch of Lands and Minerals Operations.

[Bureau Order 701, Amdt. 16]

LANDS AND RESOURCES

Redelegation of Authority

Bureau Order No. 701, dated July 23, 1964, is further amended as follows:

1. Subparagraph 2 of paragraph (d), subparagraph 1 of paragraph (h), and paragraph (1) of section 1.2 are amended to read as follows:

SECTION 1.2 *General and miscellaneous matters.*

* * * * *

(d) *Gifts.*

* * * * *

(2) Accept on behalf of the United States any lands or interest in lands where such action will promote the purpose of the Wild and Scenic Rivers Act (82 Stat. 906), the National Trails System Act (82 Stat. 919), and the King Range National Conservation Area Act (84 Stat. 1067).

* * * * *

(h) *Cooperative agreements.* (1) Enter into cooperative agreements involving the improvement, management, use, and protection of the public lands and their resources under his jurisdiction as provided in the Public Land Administration Act (43 U.S.C. 1363). Enter into cooperative agreements under sections 2, 9, and 12 of the Act of June 28, 1934 (43 U.S.C. 315 et seq.) and under the Act of March 29, 1928 (45 Stat. 380). Enter into cooperative agreements for the acquisition of lands or interest in lands under section 10(e) of the Wild and Scenic Rivers Act (82 Stat. 906), under section 7(d) of the National Trails System Act (82 Stat. 919) and the King Range National Conservation Area Act (84 Stat. 1067).

* * * * *

(1) *Acquisition of lands or interest in lands.* Act on matters involving the acquisition of lands or interest in lands under the Federal Highway Act of 1962 (76 Stat. 1145), the Act of July 26, 1955 (69 Stat. 374), the Wild and Scenic Rivers Act (82 Stat. 906), the National Trails System Act (82 Stat. 919), the King Range National Conservation Area Act (84 Stat. 1067), and the Uniform Relocation Assistance and Land Acquisition Policies Act (84 Stat. 1894), including purchases, but not including recommendations to the Attorney General for condemnation proceedings; also the approval of projects for the construction of roads to provide access to public lands subject to above acts.

2. Subparagraph 3 of paragraph (b) of section 1.3 is amended to read:

SEC. 1.3 *Fiscal affairs.*

* * * * *

(b) *Contributions, donations and refunds.*

* * * * *

(3) Accept contributions for use in connection with the administration of the national wild and scenic rivers system pursuant to section 6(f) of the Act of October 2, 1968 (82 Stat. 906), for the purchase of lands or interest in lands pursuant to section 7(d) of the National Trails System Act of October 2, 1968 (82 Stat. 919), and for the purchase of lands or interest in lands pursuant to section 5(2) of the King Range National Conservation Area Act (84 Stat. 1067).

3. The existing Part IV is revoked and a new Part IV is added as follows:

PART IV—REDELEGATION TO DIRECTOR, EASTERN STATES OFFICE

SECTION 4.0 The Director, Eastern States Office may take all actions on matters listed in Part I of this order together with those specific matters listed below:

(a) *Drainage entries.* Take all actions on Arkansas drainage entries in accordance with 43 CFR Subpart 2784.

(b) *Cash and credit system.* Take all actions on cash and credit system and preemption entries when full payment has been made.

(c) *Private land claims.* Take all actions on confirmed private land claims.

(d) *Railroad grants.* Approve the validity of the grant rights in regard to railroad grants and claims within such grants pursuant to 43 CFR Subpart 2631.

(e) *Certificates, scrip, and lieu selections.* Approve the validity of scrip or other rights pursuant to 43 CFR Part 2610.

4. A new Part IV-A is added as follows:

PART IV-A—REDELEGATION TO CHIEF, DIVISION OF LANDS AND MINERALS OPERATIONS, EASTERN STATES OFFICE

SECTION 4.0-1 The Chief, Division of Lands and Minerals Operations is authorized to take action on the matters listed in section 2.6 of this order.

5. A new Part IV-B is added as follows:

PART IV-B—REDELEGATION TO MANAGER, OUTER CONTINENTAL SHELF OFFICE

SECTION 4.1 The Manager, Outer Continental Shelf Office, New Orleans, La., is authorized to take all actions on the following matters as listed in Part 1 of this order:

SEC. 4.2 *General and miscellaneous matters.*

(a) Oaths.

(b) Cancellations or surrenders of contracts, leases, and permits.

(c) Copies of records.

SEC. 4.3 *Fiscal affairs.*

(a) (1) Bonds and forfeitures.

(b) Repayments.

(c) Trespass.

SEC. 4.6 *Outer Continental Shelf Leasing.* The Manager, Outer Continental Shelf Office, New Orleans, La., is authorized to take all actions in connection with the following:[1]

(a) The making of determinations respecting the compliance or noncompliance of mineral leases issued by a State with the requirement of section 6 of the Outer Continental Shelf Lands Act (67 Stat. 462; 43 U.S.C. 1331 et seq.), provided that such determination shall be submitted to the Solicitor for concurrence.

(b) Mineral leases pursuant to the Act of August 7, 1953 (67 Stat. 462; 43 U.S.C. 1331 et seq.), and the regulations under 43 CFR Part 3300 except the issuance of calls for the submission of requests for oil and gas or other mineral lease offerings pursuant to 43 CFR 3301.3 and the publication of notices of the offer of lands for lease pursuant to 43 CFR 3301.5.

SEC. 4.10 *Designation of Acting Officials.* (a) The Manager, Outer Continental Shelf Office, New Orleans, La., may by written order, designate any qualified employee of the office to perform the functions of the manager in his absence.

(b) Each employee who serves in such capacity shall prepare a memorandum to be kept in the office showing the date and hour of the commencement and termination of each period of his service in that capacity.

GEORGE L. TURCOTT,
Associate Director.

INDIANA DUNES NATIONAL LAKESHORE ADVISORY COMMISSION

Notice of Meeting

Notice is hereby given in accordance with "Public Law 92-463" that a meeting of the Indiana Dunes National Lakeshore Advisory Commission will be held at 10 a.m. e.s.t., on Friday, January 19, 1973, at the State Office Building, Room 602, Indianapolis, Ind.

[1] The New Orleans Outer Continental Shelf Office has responsibility for the Gulf of Mexico and the Atlantic and Pacific coasts.

V 38 - 3 JAN 5 73 XUM

The purpose of the Indiana Dunes National Lakeshore Advisory Commission, which was established by Public Law 89–761, is to meet and consult with the Secretary of the Interior on general policies and specific matters related to the administration and development of the Indiana Dunes National Lakeshore.

The members of the advisory board are as follows:

Mr. William L. Lieber (Chairman), Indianapolis, Ind.
Mr. Harry W. Frey, Michigan City, Ind.
Mrs. Ione F. Harrington, Chesterton, Ind.
Mr. John A. Hillenbrand II, Batesville, Ind.
Mr. Ed Masiulis, Beverly Shores, Ind.
Mr. Harold G. Rudd, Portage (Ogden Dunes), Ind.
Mr. John R. Schnurlein, Kouts, Ind.

The matters to be discussed at this meeting include:

1. Discussion of Public Law 92–436 concerning Advisory Committee meetings.
2. Superintendent's report on matters relevant to Indiana Dunes National Lakeshore since the last meeting.
3. Land Acquisition Officer's report on matters relevant to Indiana Dunes National Lakeshore since the last meeting.
4. Discussion of the Leviton and Associates Beach Erosion Study report.
5. Review of the West Beach Comprehensive Development plans.

Facilities and space for accommodating members of the public are limited to approximately 25 persons.

Further information concerning this meeting may be obtained from James R. Whitehouse, Superintendent of the Indiana Dunes National Lakeshore at 219–926–7561.

Minutes of the meeting will be available for public inspection 3 weeks after the meeting at the Superintendent's Office of the Indiana Dunes National Lakeshore located at the intersection of State Park Road and U.S. Highway 12, Chesterton, Ind.

Dated: December 27, 1972.

STANLEY W. HULETT,
Acting Director,
National Park Service.

[DES 72-119]

FORT MOHAVE AREA, NEVADA

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Bureau of Land Management, Department of the Interior, has prepared a draft environmental statement for a proposed transfer of 9,000 acres from the public domain to the Colorado River Commission of Nevada, representing the State of Nevada. The lands are located in Clark County, Nev.

The environmental statement considers the impact of transfer of these Federal lands to the State of Nevada and their subsequent development.

Copies are available for inspection at the following locations:

Nevada State Office, Bureau of Land Management, 300 Booth Street, Reno, NV; Las Vegas District Office, 301 East Stewart, Las Vegas, NV; Director, Bureau of Land Management, Interior Building, Washington, D.C. Comments concerning the environmental impact of the proposed transfer should be addressed to State Director, Bureau of Land Management, 300 Booth Street, Reno, NV. These comments must be within 45 days of the date of publication of this notice to be considered in the preparation of the final environmental statement.

Dated: December 27, 1972.

WILLIAM W. LYONS,
Deputy Assistant
Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

RICE

Notice of Marketing Quota Referendum for 1973 Crop

Marketing quotas for the crop of rice to be produced in 1973 have been duly proclaimed pursuant to provisions of the Agricultural Adjustment Act of 1938, as amended. Said act requires a referendum to be conducted within 30 days after the date of the issuance of said proclamation of farmers who were engaged in the production of rice in 1972 to determine whether such farmers are in favor of or opposed to such quotas. Prior to establishing the date for the referendum on the 1973 crop rice, public notice (37 FR 21173) was given in accordance with 5 U.S.C. 553. Data, views, and recommendations were submitted pursuant to such notice. They have been considered to the extent permitted by law. It is hereby determined that the rice marketing quota referendum under said act for the 1973 crop of rice shall be held during the period January 22 to 26, 1973, each inclusive by mail ballot in accordance with Part 717 of this chapter (33 FR 18345, 34 FR 12940, 36 FR 12730).

Signed at Washington, D.C., on December 27, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

Office of the Secretary

MEAT IMPORT LIMITATIONS

First Quarterly Estimates

Public Law 88–482, approved August 22, 1964 (hereinafter referred to as the Act), provides for limiting the quantity of fresh, chilled, or frozen cattle meat (TSUS 106.10) and fresh, chilled, or frozen meat of goats and sheep, except lamb (TSUS 106.20), which may be imported into the United States in any calendar year. Such limitations are to be imposed when it is estimated by the Secretary of Agriculture that imports of such articles, in the absence of limitations during such calendar year, would equal or exceed 110 percent of the estimated quantity of such articles, prescribed by section 2(a) of the Act.

In accordance with the requirements of the Act, the following first quarterly estimates for 1973 are published:

1. The estimated aggregate quantity of such articles which would, in the absence of limitations under the Act, be imported during calendar year 1973 is 1,450 million pounds.

2. The estimated quantity of such articles prescribed by section 2(a) of the Act during the calendar year is 1,046.8 million pounds.

Since the estimated quantity of imports exceeds 110 percent of the estimated quantity prescribed by section 2(a) of the Act, under the Act limitations for the calendar year 1973 on the importation of fresh, chilled, or frozen cattle meat (TSUS 106.10) and fresh, chilled, or frozen meat of goats and sheep (TSUS 106.20), are required to be imposed unless suspended by the President pursuant to section 2(d) of Public Law 88–482.

Done at Washington, D.C., this 29th day of December 1972.

EARL L. BUTZ,
Secretary of Agriculture.

Soil Conservation Service

CHIPPEWA CREEK WATERSHED PROJECT, OHIO

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for the Chippewa Creek Watershed Project, Wayne, Medina, Stark, and Summit Counties, Ohio, USDA–SCS–ES–WS–(ADM)–73–38(D).

The environmental statement concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment, supplemented by 33.2 miles of channel alteration, and three floodwater retarding reservoirs.

This draft environmental statement was transmitted to CEQ on December 22, 1972.

Copies are available during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue SW., Washington, D.C. 20250
Soil Conservation Service, USDA, 311 Old Federal Building, Columbus, Ohio 43215

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please use name and number of statement above when ordering. The estimated cost is $3.90.

Copies of the draft environmental statement have been sent for comment to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Robert E. Quilliam, State Conservationist, Soil Conservation Service, 311 Old Federal Building, Columbus, Ohio 43215.

Comments must be received within 60 days of the date the statement was transmitted to CEQ in order to be considered in the preparation of the final environmental statement.

W. B. DAVEY,
Deputy Administrator for Watersheds, Soil Conservation Service.

DECEMBER 27, 1972.

[FR Doc.73-219 Filed 1-4-73;8:45 am]

SIMON RUN WATERSHED PROJECT, IOWA

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a final environmental statement for the Simon Run Watershed Project, Pottawattamie County, Iowa, USDA–SCS–ES–WS–(ADM)–73–12(F).

The environmental statement concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment measures, supplemented by eight grade stabilization structures for flood damage reduction and the prevention of gully erosion.

The final environmental statement was transmitted to CEQ on December 7, 1972.

Copies are available for inspection during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue SW., Washington, D.C. 20250.
Soil Conservation Service, USDA, 823 Federal Building, 210 Walnut Street, Des Moines, IA 50309.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please order by name and number of statement. The estimated cost is $3.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

W. B. DAVEY,
Deputy Administrator for Watersheds, Soil Conservation Service.

DECEMBER 20, 1972.

[FR Doc.73-221 Filed 1-4-73;8:45 am]

SOUTH FORK WATERSHED PROJECT, NEBRASKA

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for the South Fork Watershed Project, Pawnee and Richardson Counties, Nebr., USDA–SCS–ES–WS–(ADM)–73–18(D).

The environmental statement concerns a plan for watershed protection, flood prevention and public recreational development. The planned works of improvement include conservation land treatment supplemented by 14 grade stabilization structures, two floodwater retarding and one multiple-purpose reservoir with storage capacity for floodwater and recreation. It also includes basic recreation facilities in association with the multiple-purpose reservoir.

This draft environmental statement was transmitted to CEQ on December 21, 1972.

Copies are available during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue SW., Washington, D.C. 20250.
Soil Conservation Service, USDA, Room 804, 134 South 12th Street, Lincoln, NE 68508.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please use name and number of statement above when ordering. The estimated cost is $3.

Copies of the draft environmental statement have been sent for comment to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Keith F. Myers, State Conservationist, Soil Conservation Service, Room 604, 134 South 12th Street, Lincoln, NE 68508.

Comments must be received within 60 days of the date the statement was transmitted to CEQ in order to be considered in the preparation of the final environmental statement.

W. B. DAVEY,
Deputy Administrator for Watersheds, Soil Conservation Service.

DECEMBER 27, 1972.

DEPARTMENT OF COMMERCE

Maritime Administration

[Docket No. S–320]

AMERICAN EAGLE TANKER CORP. ET AL.

Applications for Operating-Differential Subsidy Contracts

Notice is hereby given that the following corporations have filed application for an operating-differential subsidy contract to carry bulk cargoes to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). The bulk cargo carrying vessels proposed to be subsidized and the trades in which each proposes to engage are presented also.

Applicant's name and address	Type of ship	Name of ship
American Eagle Tanker Corp., 80 Broad St., New York, N 10004.	Tanker	SS American Eagle.
Cities Service Tankers Corp., 60 Wall St., New York, NY 10005.	do	SS Cantigny.
Do	do	SS Cities Service Baltimore.
Do	do	SS Bradford Island.
Do	do	SS Fort Hoskins.
Do	do	SS Cities Service Norfolk.
Sea Tankers, Inc., 511 5th Ave., New York, NY 10017.	do	SS Alpha Reserve (to be renamed Overseas Rose).
Do	do	SS Gamma Reserve (to be renamed Overseas Evelyn).

The foregoing applications may be inspected in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, U.S. Department of Commerce, Washington, D.C. during regular working hours.

These vessels are to engage in the carriage of export bulk raw and processed agricultural commodities in the foreign commerce of the United States (U.S.) from ports in the United States to ports in the Union of Soviet Socialist Republics (U.S.S.R.), or other permissible ports of discharge. Liquid and dry bulk cargoes may be carried from U.S.S.R. and other foreign ports inbound to U.S. ports during voyages subsidized for carriage of export bulk raw and processed agricultural commodities to the U.S.S.R.

Full details concerning the U.S.-U.S.S.R. export bulk raw and processed agricultural commodities subsidy program, including terms, conditions and restrictions upon both the subsidized operators and vessels, appear in the reg-

V 38 - 3 JAN 5 73 XUM

ulations published in the FEDERAL REGISTER on November 16, 1972 (37 FR 24349).

For purposes of section 605(c), Merchant Marine Act, 1936, as amended (Act), it should be assumed that each vessel named will engage in the trades described on a full-time basis through June 30, 1973 (with extension to termination of approved subsidized voyages in progress on that date). Each voyage must be approved for subsidy before commencement of the voyage. The Maritime Subsidy Board (Board) will act on each request for a subsidized voyage as an administrative matter under the terms of the individual operating-differential subsidy contract for which there is no requirement for further notices under section 605(c) of the Act.

Any person having an interest in the granting of one or any of such applications and who would contest a finding of the Board that the service now provided by vessels of U.S. registry for the carriage of cargoes as previously specified is inadequate, must, on or before January 11, 1973, notify the Board's Secretary, in writing, of his interest and of his position, and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Act and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing. Further, each such statement shall identify the applicant or applicants against which the intervention is lodged.

In the event a hearing under section 605(c) of the Act is ordered to be held with respect to any application(s), the purpose of such hearing will be to receive evidence relevant to (1) whether the application(s) hereinabove described is one with respect to vessels to be operated in an essential service, served by citizens of the United States which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of U.S. registry is inadequate and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Board will take such action as may be deemed appropriate.

Dated: January 3, 1973.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, JR.,
Secretary.

[FR Doc.73-355 Filed 1-4-73;8:45 am]

National Oceanic and Atmospheric Administration

[Docket No. G-542]

BUSTER HARRIS

Notice of Loan Application

DECEMBER 29, 1972.

Buster Harris, Route 1, Box 635, Brownsville, TX 78520, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a used wood vessel, about 73 feet in length, to engage in the fishery for shrimp and oysters.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above-entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, within 30 days from the date of publication of this notice. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

ROBERT W. SCHONING,
Acting Director.

[FR Doc.73-229 Filed 1-4-73;8:45 am]

Office of Import Programs

NORTH CAROLINA STATE UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00383-01-28200. Applicant: North Carolina State University, Purchasing Department, Post Office Box 5935, Raleigh, NC 27607. Article: Electron resonance spectrometer, Model JES-ME-IX. Manufacturer: JEOL, Japan. Intended use of article: The article is intended to be used for research centered around the free radicals produced by the high energy and ultraviolet irradiation of high polymers and monomer-polymer systems. Specific systems to be studied are as follows:

1. The radiation initiated polymerization of vinyl chloride in bulk and in precipitating media;

2. The identity, role, and fate of trapped radicals in radiation initiated graft polymerization systems;

3. The yield of free radicals from ultraviolet irradiated lignin and lignocellulose (wood pulp) fibers; and

4. The identity and yield of the active intermediate formed by the high energy irradiation of polyvinyl chloride under super-dry conditions.

In addition the article will be used by M.S. and Ph. D. candidates in chemistry, forestry, and textiles for research programs. Simple studies with E.S.R. measurements will be incorporated with the course Ch.E. 671.

Comments: No comments have been received with respect to this application. A letter dated June 2, 1972, from Varian Associates (Varian) is treated as an offer to provide additional information according to section 701.10(a).

Decision: Application denied. An instrument of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: In reply to Question 8 the applicant alleges that the following are the pertinent specifications of the foreign article:

(1) Magnetic field sweep rates of 1, 2.5, 5, 10, and 25 seconds (sec.).

(2) 100 percent effective ultraviolet irradiation of samples in the standard cavity by means of [a] window that permits direct focusing on to the sample.

(3) All sweep widths, sweep times, field modulation and filter modulation and filter adjustments which are utilized for recording on the chart are synchronized with the oscilloscope presentation.

(4) Copper standard cavity with a gold-plated interior (permits use at high temperatures, and ready cleaning when contaminated).

(5) The sample marker, which allows a reference sample Mn^{++} in MgO, for calibration of both g and hyperfine splitting to be inserted simultaneously with the sample to be measured in the standard cavity (avoids contamination of the sample).

(6) Standard low frequency modulation unit (allows second derivative presentation).

The National Bureau of Standards (NBS) advises in its memorandum dated June 27, 1972, that the Varian E-Line E.S.R. spectrometers, comparable to the foreign article for the purposes of evaluation, satisfy all the specifications listed by the applicant in the reply to Question 8. NBS advises as follows with respect to each of the above-alleged pertinent specifications: (1) Varian provides a rapid scan accessory capable of sweep rates from 0.025 to 100 seconds. (2) Varian provides optical transmission cavity accessories. (3) Varian provides for oscilloscope presentation. (4) Varian cavities may be used in excess of 700° C. and are easily cleaned. The gold plating is a design feature. (5) Varian offers a dual cavity accessory as well as their standard cavity permitting simultaneous insertion of a reference sample and the sample to be measured. Contamination can be prevented by appropriate choice of a capsule material such as quartz. Varian permits second derivation presentation with their low frequency modulation unit. Thus NBS advises that the Varian E-Line spectrometers are scientifically equivalent to the foreign article for the applicant's intended uses.

For the foregoing reasons, we find that an instrument of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

B. BLANKENHEIMER,
Acting Director,
Office of Import Programs.

[FR Doc.73-226 Filed 1-4-73;8:45 am]

PURDUE UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00016-65-46070. Applicant: Purdue University, West Lafayette, Ind. 47907. Article: Scanning electron microscope, Model JSM-U3. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used in experiments to determine how the structure of various materials (minerals, cements, woods, oxides, metals, and alloys, semiconductors, meteorites, and polymers) can be modified by various treatments to improve properties. Typical experiments include:

(I) Measuring charge distribution on thin film semiconducting devices.

(II) Aging of alloys to produce strengthening due to fine particles.

(iii) Determination of how micromorphology of cement pastes affects final properties.

(IV) Characterization of number, size, and shape of bubbles of inert gas which are generated and lead to failure in nuclear reactor materials.

(V) Identification, analysis, and determination of the distribution of phases on polished and lapped surfaces of alloys and minerals.

The article will be used for graduate thesis studies in science and engineering and undergraduate laboratory studies in the School of Materials Science and Metallurgical Engineering to teach and develop the concept that properties of materials depend upon structure.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States at the time the article was ordered, January 26, 1971.

Reasons: The foreign article has a guaranteed resolving power of 100 Angstroms (Å). The National Bureau of Standards (NBS) in its memorandum dated November 22, 1972, advised that the best resolution available is pertinent to the purposes for which the article is intended to be used. NBS further advised that it knew of no domestic instrument which matched the resolving power of the foreign article at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

B. BLANKENHEIMER,
Acting Director,
Office of Import Programs.

Office of Textiles

IMPORTERS' TEXTILE ADVISORY COMMITTEE

Notice of Public Meeting

JANUARY 3, 1973.

A. Importers' Textile Advisory Committee (the Committee).

B. The meeting is scheduled for January 11, 1973, at 2 p.m.

The purpose of the meeting is to advise Government officials of the effects on import markets of wool and man-made fiber textile agreements negotiated under the Agricultural Act of 1956, as amended, and of the cotton textile agreements negotiated under the Long-Term Arrangement Regarding International Trade in Cotton Textiles and the Agricultural Act of 1956, as amended.

The agenda for the meeting is:

1. Review of import trends.

2. Report on conditions in the domestic market.

3. Implementation of textile agreements.

4. Report on Study of the GATT All-Fiber Textile Working Party.

5. Other business.

C. The meeting will be open to public observation. Public participation will be in accordance with established committee procedures.

D. The meeting will be held in Room 4833, Main Commerce Building, U.S. Department of Commerce, Washington, D.C. 20230.

E. Further information concerning the Committee may be obtained from Arthur Garel, Director, Office of Textiles, Main Commerce Building, U.S. Department of Commerce, Washington, D.C. 20230.

APPENDIX "A"

[AEC Docket Nos. 50-373A, 50-374A; Department of Justice File No. 60-415-41]

COMMONWEALTH EDISON CO.

La Salle County Units 1 and 2

DECEMBER 20, 1972.

You have requested our advice pursuant to the provisions of section 105 of the Atomic Energy Act of 1954, 68 Stat. 919, 42 U.S.C. 2011-2296 as recently amended by Public Law 91-560, 84 Stat. 1472 (December 19, 1970), in regard to the above-cited application. This supplements our letter of December 27, 1971.

Introduction. This is an application to construct two nuclear electric generating units with capacity in excess of 1 million kilowatts each, at a proposed La Salle County nuclear generating station near Seneca, Ill. The units are to be integrated with applicant's electric bulk power supply system which is described below and the power marketed as a portion of its system output.

Applicant. Applicant is one of the largest electric utilities in the United States. Its 1970 peak load was 10,027 mw; its generating capacity at that time was 11,321 mw, consisting of 10,580 mw of installed capacity and 741 mw of purchases. It serves nearly two-thirds of the entire Illinois market. It is more than five times as large as the Illinois Power Co., its largest competitor in Illinois whose load is less than 2,000 mw. Union Electric Co., which is somewhat larger than Illinois Power Co., serves principally in Missouri although it has substantial Illinois loads in East St. Louis and adjacent areas. In 1965 applicant acquired Central Illinois Electric & Gas Co., which served Rockford, Ill.'s, second largest city and a few other small areas. There are seven small municipal systems serving in northern Illinois; two of these, Rochelle and Winnetka generate as well as distribute power.

Applicant's load is expected to double in the next 10 years, and it has planned or under construction additional generating capacity (largely nuclear) to increase its dependable system capacity to 20,348 mw by 1980. La Salle County Units 1 and 2 are a part of this increase in system capacity, estimated to come on line in 1975 and 1976, respectively.

In 1970 applicant's total assets, including a net plant of $3,045 million, were $3,374,996,000. Its 13 major generating stations are integrated into a single bulk power supply system by 3,407 circuit miles of high voltage and extra high voltage (EHV) transmission lines including 2,149 circuit miles of 138 kv. and 1,039 circuit miles of 345 kv. It is vertically integrated, marketing its bulk power supply at retail through 35,786 pole miles of overhead lines and 9,540 cable miles of underground.

It has high voltage or EHV interconnections to a number of major systems adjacent to it. These include EHV interconnections to the American Electric Power System (AEP), through the latter's operating subsidiary, Indiana & Michigan Electric Co., to Illinois Power Co., Wisconsin Electric Power Co., and Iowa-Illinois Gas & Electric. It is also interconnected with Central Illinois Light Co., Central Illinois Public Service Co., Northern Indiana Public Service Co., Interstate Power Co. and it participates in the Mid-America Interpool Network (MAIN). Through AEP, it interconnects with the Consumers Power Co. of Michigan and it is participating with the latter in a coordinated hydroelectric development at Ludington, Mich.

Applicant's load is estimated to grow 1,000 to 1,400 mw per year through 1980 and from 1,400 to 2,500 mw per year through 1990. These large annual increments of load growth over a large load area, the risk-spreading effect of its integrated transmission system, and the support which it can receive from interconnections and emergency power exchange agreements with other adjacent systems, permit it to use some of the largest sized generating units now being installed by electric utilities. Applicant is among the leaders in the installation of nuclear generating units.

Our investigation indicated a number of practices which may raise questions under the antitrust laws.

(1) Several of the municipal systems which purchase all their bulk power supply at wholesale from applicant have complained to the Federal Power Commission of a "price squeeze" in competing with applicant to attract large industrial customers to locate in their service area. The wholesale customers contend that the wholesale rate has not permitted them to match applicant's retail large industrial rate (Rate 6) and thus has made it difficult or impossible to attract industry to their cities. Price squeezes similar to that alleged here have been found in some cases to represent the unlawful exercise of monopoly power; e.g., Aluminum Co. of America v. United States, 148 F. 2d 416 (2nd Cir. 1945). The complaint in this regard is presently being tried before the FPC.[1] We note that although applicant is claiming in that proceeding that "discriminations" between wholesale rates (regulated by the FPC) and retail rates (regulated by State Commission) are not within the jurisdiction of the FPC to remedy, it has also submitted evidence going to the merits of the price squeeze contention. The FPC has made no final ruling on the issue as of this time, but an Administrative Law Judge has found that there are remedies for "price squeeze" under section 205 of the Federal Power Act.

(2) Applicant has included in its tariff a provision which limits sales at wholesale (a) to customers presently being served by it, and (b) at their present premises. Applicant refers to this as a "wholesale freeze" and states that it does not hold itself out generally to offer wholesale service. State law permits a municipality to issue limited-term franchises and to oust a private utility at the termination of its franchise and thereupon to establish a municipal distribution system.[2] Without access to wholesale power purchased from applicant, however, any municipality desiring to enter the electric distribution business in applicant's general area could find it impossible or very difficult to obtain the necessary bulk power supply. See United States v. Otter Tail Power Co., 330 F. Supp. 54 (D. Minn.) prob. juris. noted 406 U.S. 944. We have discovered little evidence to suggest, however, that applicant's "wholesale freeze" policy has in fact served to impede or prevent the establishment of any municipal distribution system. In the present circumstances the "wholesale freeze" policy seems to amount to little more than applicant's assertion of the legal position that it is not required to render wholesale service to any new customer. Applicant appears to recognize that the District Court's Otter Tail decision is inconsistent with that position, and it has argued that Otter Tail was wrongly decided. It thus seems likely that applicant's future position with regard to its obligation to serve at wholesale will largely be governed by the Supreme Court's decision on appeal in Otter Tail.[3]

The provision in Applicant's wholesale tariffs and contracts limiting the purchasers to resale of the power "at their present premises" has been used by Applicant to restrict the wholesale customers' competition with Applicant for retail loads located outside the boundaries of the municipality. Illinois law does not prohibit a municipal system from marketing power at retail outside the municipal boundaries. It requires only that the majority of the municipal system's total service be provided within the corporate limits.[4]

The "at their present premises" provision thus amounts to an end-use restriction imposed by Applicant; as such, it is inconsistent with antitrust principles. See United States v. Arnold, Schwinn & Co., 388 U.S. 365. Applicant has indicated to us, however, that it is willing to eliminate this provision and to substitute only a requirement that municipal wholesale customers annually report to Applicant regarding the amount of power sold outside of the municipal boundaries. This would enable Applicant to determine whether the applicable provision of Illinois law is being observed.

(3) Some question has been raised regarding the terms of interconnection agreements which Applicant has entered into with two municipal systems (Rochelle and Winnetka) which generate some of their own power. When these systems initially sought interconnection agreements with Applicant, they were offered reserve-sharing arrangement for the interchange of emergency power, some other limited coordination, and the sale of deficiency power—all on the condition that they not install any new generating capacity after completing any expansions in progress. The two cities objected to the total ban and in each case a compromise was reached under which the cities' credit for generating capacity (used in computing demand charges) is limited to capacity in service at the time when the interconnection contracts became effective. This has the practical consequence of requiring Applicant's consent before new generation can be installed. One of the cities, Rochelle, must now plan its expansion program and is seriously concerned about whether credit for additional generating facilities will be available. Applicant has now informed us, however, that it is willing to modify these interconnection agreements in order to recognize the principle that the cities are entitled to appropriate credit for new generating capacity added. The provision of such a credit would be subject only to the condition that the cities give sufficient notice to the Company of their expansion plans to allow for coordination between them with resepct to the time and type of capacity additions.

(4) The form of Applicant's contracts with its five full-requirements municipal customers prohibits them from operating their own power-production equipment in parallel with the Company's without its consent. The effect of this is to preclude them from installing their own generating facilities to supplement their purchases from Applicant without Applicant's consent. The contracts also place an upper limit on the amount of power which Applicant commits itself to supply. Although the evidence available to us indicates that Applicant has willingly supplied the increased power requirements occasioned by its wholesale customers' growing demand, the uncertainty created by the contract limitation could in some circumstances be an inhibiting factor in their competition with Applicant for large retail loads. When these matters were raised with Applicant, it agreed to modify these two provisions in order to eliminate any risk that they would have the effect of precluding bulk power supply alternatives or inhibiting retail competition. First, Applicant would commit itself to consent to the parallel operation of its customers' generating facilities with its own if the customers provide adequate protection against damage to the Company facilities or interference with Company operations. Secondly, the Company would modify the provision requiring a specification of maximum demand to state that "upon reasonable advance notice in writing to the Company of proposed increases in such maximum demand, the Company will arrange to supply the increased demand."

(5) In November 1971, six of the municipal systems in Applicant's area indicated to it a possible interest in acquiring bulk power supply from the proposed LaSalle units. The Company, in response, indicated that it was willing to explore the possibility of bulk power supply to the cities from the proposed LaSalle units, and a meeting was held shortly thereafter. The municipal systems requested Applicant to submit a proposal for sales to them of unit power from LaSalle comparable to the arrangements worked out to allow municipal systems participation in the Vermont Yankee and Maine Yankee nuclear units. Applicant restated its doubts that such arrangements would provide any financial advantage to the Illinois municipal systems over wholesale purchases. It indicated, however, that it would pursue the matter further if the municipals were seriously interested in unit power from capacity costing in the range of $300 per kilowatt and if they were legally free to make the long term commitments which would be required. The municipal systems have restated their interest, and further discussions with Applicant are planned.

Conclusion. As we have noted above, Applicant has made commitments to modify a number of contract and rate schedule provisions which could impede its wholesale customers' development of alternative bulk power supplies or which could restrain their retail competition with Applicant. The commitments offered by Applicant do not extend to two of the areas where our investigation revealed possible questions of competitive importance—the allegations of "price squeeze" and Applicant's announced "wholesale freeze." We do not believe that either of these questions would warrant an antitrust hearing at this time. The facts relevant to the "price squeeze" allegation have been put before the Federal Power Commission, and it is at least arguable that the Commission has sufficient authority to remedy any demonstrated injury resulting from a price squeeze. The Applicant's announced policy of not taking on additional wholesale customers does not appear to have had any practical impact, and its continuation will likely be governed by the forthcoming Supreme Court decision in the Otter Tail case.

We also do not believe that it is necessary to have an antitrust hearing with respect to the municipal systems' expression of interest in participation in the LaSalle units. The municipal systems, whose interest in purchasing capacity in the LaSalle units developed only a fairly short time ago, are still attempting to determine whether such unit power purchases would provide any significant advantage over continued wholesale purchases from Applicant. We are reasonably satisfied from the evidence to date that Applicant will cooperate with the municipal systems by providing the cost data necessary to make that determination. While Applicant has not made any commitment to sell unit power to the municipal systems, it has represented to us that it will negotiate in good faith with the municipal systems with respect to LaSalle unit power. As the Commission is aware, Applicant is very heavily committed to nuclear generation and will be frequently before this Commission seeking licenses for further nuclear generation units. In the event that the discussions and negotiations between Applicant and the municipal systems should take a different course from the one which Applicant's responses to date have led us to expect, we will be able to consider the possible antitrust significance in subsequent antitrust review proceedings.

In light of the foregoing, we conclude that if the commitments set forth in the attached letter from Applicant of October 6, 1972, were to be imposed as license conditions by the Commission, the question of accommodating antitrust policies with the power needs in this case would be satisfactorily resolved. Accordingly, we recommend that these commitments be imposed by the Commission as license conditions, as agreed to by the Applicant. If this were done, there would be no need for an antitrust hearing in this matter.

COMMONWEALTH EDISON COMPANY

JOSEPH J. SAUNDERS, Esq.,
Chief, Public Counsel and Legislative Section, Antitrust Division,
U.S. Department of Justice,
Washington, D.C. 20530.

OCTOBER 6, 1972.

DEAR MR. SAUNDERS: This is to confirm our previous conversations, and to restate in one letter proposed commitments and interpretations heretofore made, in the form finally agreed upon.

We believe that the administration of our rate and service policies which we have discussed with you has been entirely in accordance with law and should raise no question under the antitrust laws. Nevertheless, to avoid the delay which might occur were the Department of Justice to take the position that a hearing on antitrust issues was necessary in the LaSalle County case, we are prepared to confirm the commitments made heretofore, and, in addition, to file the changes in our FPC electric tariff marked on the attached pages of that tariff and described below. We further agree not to reinstate any of the contractual restrictions eliminated by this agreement, during the term of the LaSalle County license.

(1) The deletion of the words "at their present premises" from 3d Revised Sheet No. 1, as shown on Exhibit A,[1] would eliminate any rate restriction on the territory in which customers served under the rate might provide electricity to others. In addition, each of the cities of Batavia, Geneva, Naperville, Rock Falls, and St. Charles, have entered into a letter agreement in the form of Original Sheets Nos. 41 and 42, attached as Exhibit B.[1] We would propose, by agreement with each of the cities, to substitute for that letter a letter in the form attached as Exhibit C.[1]

(2) For Rochelle and Winnetka, a provision corresponding to the letter referred to above appears on Original Sheet No. 105 in the Rochelle Service Contract (Exhibit D attached[1]) and is duplicated in Original Sheets Nos. 115 and 116 of the Winnetka contract. Subject to the necessary agreements by the customers, we would substitute for this provision the following:

The customer and the company agree that the customer will report to the company within 15 days of the close of each calendar year, its total kilowatt-hour sales within the city limits during such calendar year and the revenue therefrom, and its total kilowatt-hour sales outside the city limits in such calendar year and the revenues therefrom.

(3) The proposed change in Original Sheet No. 1B (the underlined language in Exhibit E[1]) adopts the substance of the language proposed to us by your office by telephone, modified only to make it fit into the structure of our rate filings. Language essentially identical with Original Sheet 1B is contained in our electric service contracts with Rochelle and Winnetka and, subject to their agreement, the same change would be made in those service contracts.

(4) The language proposed to be added to Original Sheet No. 5, as shown by Exhibit F,[1] is designed to make clear that the purpose of the "parallel operation" clause is physical protection, and that the consent of the company to parallel operation will not be withheld for economic reasons.

(5) The first page of the form of electric service contract (1st Revised Sheet No. 51, Exhibit G attached[1]) will be revised as shown to make clear that the company will impose only such limits on the customer's maximum demand as are required to give the company an opportunity to arrange its service facilities to meet increases in the customer's requirements.

In addition, we restate our views concerning certain of our outstanding contracts:

(A) Edison does not maintain that it has a right to serve customers within the Rock Falls territory with connected loads of 75 kilowatts or more or to control the prices at which Rock Falls sells electricity. We regard any such rights as having been extinguished in 1955 and interpret our agreement with Rock Falls as permitting us to serve only those customers the city does not want to serve and Russell, Burdsell and Ward Co. (the latter not to the exclusion of the city). International Harvester, also referred to in this connection, is no longer served by the company in Rock Falls.

(B) With regard to the 1968 ordinances agreed upon in connection with the company's reduction of its Rate 78, the company construes these ordinances strictly in accordance with their terms and regards them as giving the company no rights it did not have prior to their enactment, except the

[1] Exhibits A-G filed as part of the original document.

[1] Commonwealth Edison Co., FPC Docket No. 3-7678; City of Geneva v. Commonwealth Edison Co., FPC Docket No. IN-989; City of Batavia v. Commonwealth Edison Co., FPC Docket No. IN-991; Initial Decision, Nov. 29, 1972.

[2] City of Geneseo v. Illinois Northern Utilities Co., 378 Ill. 506, 39 N.E. 2nd 26 (1941), cert. denied 316 U.S. 670; Springfield Gas & Electric Co. v. City of Springfield, 292 Ill. 236, 126 N.E. 739 (1920), aff'd 257 U.S. 66; Central Illinois Public Service Co. v. City of Bushnell, 109 F. 2d 26 (CA 7, 1940).

[3] It may also be that the Federal Power Commission would have some authority to remedy problems raised by the "wholesale freeze" policy. We note that the Commission under Part II of the Federal Power Act appears to have no general authority to require the provision of bulk power supply service at wholesale for resale. Its authority under section 202(b) to require interconnection and the sale or exchange of power is limited to cases which would not require the "public utility" described in section 201(a) to increase its generating capacity. Extension of service to any full requirements customers would ultimately require an increase in capacity for the "public utility." Moreover, section 202(b) relief may not be available to municipalities desiring to enter the electric power business who are not yet engaged in such business. Under section 205, however, the Commission has jurisdiction to remedy discrimination in rates or service. If a utility provides wholesale service to one or more wholesale customers, the Federal Power Commission may be able to require extension of such service to all who apply.

V 38 - 3 JAN 5 73 XUM

right to maintain its facilities to serve customers in newly annexed territories that the cities have not yet determined to serve and also to maintain lines passing through the cities' territory to serve other customers.

We will proceed promptly to secure agreement from the wholesale customers involved and to make the filings outlined above upon notice from you that you will advise the Atomic Energy Commission that no hearing need be held on antitrust issues in the LaSalle County application, and that the construction permit for LaSalle County station need not have antitrust conditions in it or, alternatively, need be conditioned only on our performance of the undertakings in this letter.

Very truly yours,

HUBERT H. NEXON,
Vice-President.

[FR Doc.73-141 Filed 1-4-73;8:45 am]

[Docket No. 50-346]

TOLEDO EDISON CO. AND CLEVELAND ELECTRIC ILLUMINATING CO.

Notice of Hearing

The Toledo Edison Co., and The Cleveland Electric Illuminating Co. (the licensees), are the holders of Construction Permit No. CPPR-80 (the Construction Permit), issued by the Atomic Energy Commission on March 24, 1971. The Construction Permit authorizes the licensees to construct a pressurized-water nuclear reactor, designated as the Davis-Besse Nuclear Power Station, at the licensees' site on the southwestern shore of Lake Erie in Ottawa County, Ohio. The reactor is designed for initial operation at approximately 2,633 megawatts (thermal).

The facility is subject to the provisions of section B of Appendix D to 10 CFR Part 50, which sets forth procedures applicable to review of environmental considerations for production and utilization facilities for which construction permits or operating licenses were issued in the period January 1, 1970–September 9, 1971. Notice is hereby given, pursuant to the Atomic Energy Act of 1954, as amended, and the regulations in 10 CFR Part 2, rules of practice, and Appendix D to 10 CFR Part 50, "Implementation of the National Environmental Policy Act of 1969," that a hearing will be held in the captioned proceeding by an Atomic Safety and Licensing Board (Board) at a time and place to be fixed by subsequent order of the Board to consider and make determinations on the matters set forth below:

1. In the event that this proceeding is not a contested proceeding as defined by 10 CFR 2.4(n) of the Commission's rules of practice, the Board will without conducting a de novo evaluation of the application determine whether the environmental review conducted by the Commission's regulatory staff pursuant to Appendix D of 10 CFR Part 50 has been adequate.

2. In the event that this proceeding is a contested proceeding, the Board will decide any matters in controversy among the parties within the scope of Appendix D to 10 CFR Part 50, with regard to whether, in accordance with the requirements of Appendix D to 10 CFR Part 50, the construction permit should be continued, modified, terminated, or appropriately conditioned to protect environmental values.

3. Regardless of whether the proceeding is contested or uncontested, the Board will, in accordance with section A.11 of Appendix D of 10 CFR Part 50: (a) Determine whether the requirements of section 102(2) (C) and (D) of NEPA and Appendix D to 10 CFR Part 50 of the Commission's regulations have been complied with in this proceeding; (b) independently consider the final balance among conflicting factors contained in the record of the proceeding with a view toward determining the appropriate action to be taken; and (c) determine, after weighing the environmental, economic, technical, and other benefits against environmental costs and considering available alternatives, whether the construction permit should be continued, modified, terminated, or appropriately conditioned to protect environmental values.

The Board will be designated by the Atomic Energy Commission. Notice as to its membership will be published in the FEDERAL REGISTER. Within thirty (30) days from the date of publication of this present notice in the FEDERAL REGISTER, any person whose interest may be affected by this proceeding may file a petition for leave to intervene with respect to whether, considering those matters covered by Appendix D to 10 CFR Part 50, the construction permit should be continued, modified, terminated, or appropriately conditioned to protect environmental values. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's rules of practice in 10 CFR Part 2.

A petition for leave to intervene must be filed under oath or affirmation in accordance with the provisions of 10 CFR 2.714. As required by 10 CFR 2.714, a petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A request for a hearing or a petition for leave to intervene must be filed with the Office of the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, or may be delivered to the Commission's Public Document Room, 1717 H Street NW., Washington, DC, not later than thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER. A petition for leave to intervene which is not timely will not be granted unless the Commission determines that the petitioner has made a substantial showing of good cause for failure to file on time and after the Commission has considered those factors specified in 10 CFR 2.714(a).

Any person who does not wish to, or is not qualified to become a party to this proceeding concerning continuation, modification, termination, or conditioning the construction permit may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715. A person making a limited appearance may only make an oral or written statement on the record, and may not participate in the proceeding in any other way. Limited appearances will be permitted at the time of the hearing in the discretion of the Board, within such limits and on such conditions as may be fixed by the Board. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, not later than thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER.

A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing as specified in the issues set out above.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705, must be filed by the licensees not later than twenty (20) days from the date of publication of this notice in the FEDERAL REGISTER.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, DC.

In the event that this proceeding is not contested, the Board will convene a prehearing conference of the parties within sixty (60) days after this notice of hearing or such other time as may be appropriate, at a time and place to be set by the Board. It will also set the schedule for the evidentiary hearing. Notice of the prehearing conference and the hearing will be published in the FEDERAL REGISTER.

In the event that this proceeding becomes a contested proceeding, the Board will convene a special prehearing conference of the parties to the proceeding and persons who have filed petitions for leave to intervene, or their counsel, to be held within sixty (60) days from the date of publication of this notice in the FEDERAL REGISTER, or within such other time as may be appropriate, at a place to be set by the Board for the purpose of dealing with the matters specified in 10 CFR 2.751a.

The Board will convene a prehearing conference of the parties, or their counsel, to be held subsequent to any special prehearing conference and within sixty (60) days after discovery has been completed, or within such other time as may be appropriate, at a place to be set by the Board for the purpose of dealing with the matters specified in 10 CFR 2.752.

Notices of the dates and places of the special prehearing conference, the prehearing conference and the hearing will be published in the FEDERAL REGISTER.

For further details pertinent to the matters under consideration, see the licensees' environmental report dated August 3, 1970, as supplemented July 6, 1972, which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, between the hours of 8:30 a.m. and 5 p.m. Monday through Friday and at the Ida Rupp Public Library, Port Clinton, Ohio, between the hours of 10 a.m. to 8 p.m. Monday through Saturday. As they become available, the following documents also will be available at the above locations:

(1) The Commission's draft detailed statement on environmental considerations pursuant to 10 CFR Part 50, Appendix D; and (2) the Commission's final detailed statement on environmental considerations. Copies of item (2), when available, may be obtained by request to Deputy Director for Reactor Projects, Directorate of Licensing, U.S. Atomic Energy Commission, Washington D.C. 20545.

With respect to this proceeding, pursuant to 10 CFR 2.785 an Atomic Safety and Licensing Appeal Board will exercise the authority and the review function which would otherwise be exercised and performed by the Commission. Notice as to the membership of the Appeal Board will be published in the FEDERAL REGISTER.

Dated at Germantown, Md., this 19th day of December 1972.

UNITED STATES ATOMIC ENERGY COMMISSION,
PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.73-2 Filed 1-4-73;8:45 am]

[Docket No. 50-366A]

GEORGIA POWER CO.

Order Amending Notice and Order for Prehearing Conference

In the matter of Georgia Power Co. (Edwin I. Hatch Nuclear Plant 2); Docket No. 50-366A.

On application of all the parties speaking through the staff attorney for the Atomic Energy Commission: *It is ordered*, That the order of this Board dated December 6, 1972 is amended so that the prehearing conference to be held January 9, 1973, will consider only oral argument on the petitions to intervene and the motion of the Department of Justice to consolidate this proceeding with the Alabama Power Co. matter—Docket 50-348A.

It is further ordered that all papers required by said order will be exchanged on or before January 19, 1973, and that a second prehearing conference be held January 30, 1973, at 9:30 a.m. in room 111, Veterans Administration Building, 811 Vermont Avenue NW., Washington DC 20420.

Issued at Washington, D.C., this 29th day of December 1972.

By order of the Atomic Safety and Licensing Board.

CARL W. SCHWARZ,
Acting Chairman.

[FR Doc.73-223 Filed 1-4-73;8:45 am]

[Docket No. 50-366]

GEORGIA POWER CO.

Notice of Issuance of Construction Permit

Notice is hereby given that, pursuant to the initial decision of the Atomic Safety and Licensing Board, dated December 22, 1972, the Deputy Director for Reactor Projects has issued Construction Permit No. CPPR-90 to the Georgia Power Co., for construction of a boiling water nuclear reactor at the Georgia Power Co.'s site near the south bank of the Altamaha River in Appling County, Ga., approximately 11 miles north of the town of Baxley, Ga. The proposed reactor, known as the Edwin I. Hatch Nuclear Plant, Unit 2, is designed for a rated power of approximately 2,436 megawatts thermal with a net electrical output of approximately 795 megawatts.

A copy of the initial decision and of the construction permit are on file in the Commission's Public Document Room, 1717 H Street NW., Washington, DC 20545, and at the Appling County Public Library, Parker Street, Baxley, Ga. 31513.

Dated at Bethesda, Md., this 27th day of December, 1972.

For the Atomic Energy Commission.

ROBERT A. CLARK,
Acting Assistant Director for Boiling Water Reactors Directorate of Licensing.

[FR Doc.73-224 Filed 1-4-73;8:45 am]

[Dockets Nos. 50-390, 50-391]

TENNESSEE VALLEY AUTHORITY

Determination To Grant Exemption From Licensing for Certain Construction Activities

Pursuant to the provisions of 10 CFR 50.12 of the Atomic Energy Commission's (Commission) regulations, the Commission has granted an exemption from the requirements of 10 CFR 50.10 (b) to the Tennessee Valley Authority (the applicant) for certain construction activities involving the Watts Bar Nuclear Plant Units 1 and 2 prior to a decision regarding the issuance of a construction permit.

In an application dated May 18, 1971, the applicant requested permits to construct two pressurized water nuclear power reactors, designated as the Watts Bar Nuclear Plant, Units 1 and 2, at the applicant's site on the Tennessee River in Rhea County, Tenn. In accordance with the Atomic Energy Act and the Commission's regulations in 10 CFR Chapter 1, public hearings have been held in the captioned matter concerning radiological health and safety and environmental aspects of the proposed facilities. These hearings have been completed and the presiding Atomic Safety and Licensing Board has issued its initial decision dated December 19, 1972, which, on the basis of its consideration of such aspects, authorizes the issuance of construction permits for these facilities. However, the time periods associated with certain procedural aspects of the Commission's antitrust review have not yet elapsed, although notice of receipt of Attorney General's advise has been published in the FEDERAL REGISTER on December 19, 1972 (37 FR 27676), reflecting that the Attorney General found no antitrust problems which would require an antitrust hearing.

By letter dated September 18, 1972, the applicant requested an exemption from the provisions of 10 CFR 50.10(b) for certain construction activities at the proposed site prior to a decision regarding the issuance of a construction permit and provided the Commission with supporting information, including information on the environmental impact of the activities to be conducted under the exemption, if granted.

After consideration and balancing of the factors specified in 10 CFR 50.12 of the Commission's regulations, it has been determined that the work requested in the exemption is authorized by law and will not endanger life or property or the common defense and security and is otherwise in the public interest and should be authorized. The granted exemption limits the work to be performed to general site clearing and grading, excavation of the powerhouse building foundation, the intake channel and the pumping station, erection of temporary construction facilities, construction of a railroad spur, construction of holding pond dikes, upgrading of the existing dock facility, and certain cooling tower foundation tests.

The basis for granting this exemption is set forth in a document entitled "Discussion and Findings by the Directorate of Licensing, U.S. Atomic Energy Commission, Relating to a Request for an Exemption From Licensing for Certain Construction Activities at the Watts Bar Nuclear Plant, Units 1 and 2, AEC Docket Nos. 50-390/391," dated December 22, 1972. The applicant's letter of September 18, 1972, and referenced supporting in-

formation, relating to this request for an exemption, a letter from the Deputy Director for Reactor Projects, Directorate of Licensing, to the applicant dated December 22, 1972, granting the exemption, and the discussion and findings referred to above are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, and the Dayton Public Library, First Avenue, Dayton, Tenn. 37321. Copies of the discussion and findings document may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Md., this 22d day of December, 1972.

For the Atomic Energy Commission.

A. GIAMBUSSO,
Deputy Director for Reactor Projects, Directorate of Licensing.

ENVIRONMENTAL PROTECTION AGENCY

NOR-AM AGRICULTURAL PRODUCTS, INC.

Notice of Establishment of Temporary Tolerance

NOR-AM Agricultural Products, Inc., 11710 Lake Avenue, Woodstock, IL 60098, submitted a petition (PP 2G1262) requesting establishment of a temporary tolerance for negligible residues of the herbicide ethyl *m*-hydroxycarbanilate carbanilate in or on the raw agricultural commodities sugar beet roots and tops at 0.2 part per million.

It has been determined that a temporary tolerance for negligible residues in or on sugar beet roots and tops at 0.2 part per million is safe and will protect the public health.

It is therefore established as requested on condition that the herbicide be used in accordance with the temporary permits being issued concurrently and which provide for distribution under the NOR-AM Agricultural Products, Inc., name.

This temporary tolerance expires December 22, 1973.

This action is being taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for pesticides programs (36 FR 9038).

Dated: December 22, 1972.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticides Programs.

FEDERAL MARITIME COMMISSION

[Docket No. 72-64]

AMERICAN EXPORT LINE, INC. ET AL.

Order of Investigation and Hearing

American Export Line, Inc. (AEL), Sea-Land Service, Inc. (Sea-Land), and United States Lines, Inc. (USL) are all common carriers by water operating inter alia between the east coast of the United States and the United Kingdom and Europe. These carriers submit bids for the carriage of military cargo pursuant to the negotiated competitive procurement system administered by the Military Sealift Command (MSC).

In response to the latest Request for Proposal (RFP)—700, Second Cycle, issued by the MSC, AEL, Sea-Land, and USL submitted bids in the amounts of $12.75M, $13.00M, and $13.15M respectively for Cargo N.O.S.; $25.25M, $28.30M, and $29.27M respectively for carriage of vehicles; and $29.50M, $28.75M, and $24.53M respectively for carriage of refrigerated cargo from U.S. east coast ports to the United Kingdom and Europe on MSC Route Index 4 and 5, to be effective during the period January 1, 1973–June 30, 1973. In most instances these bids are below the rate levels in effect in connection with the previous RFP 700, First Cycle. (See Attachments A and B).[1]

The Commission has for some time been seriously concerned with the apparent precariously low level of rates on military cargo bid pursuant to the MSC procurement system. Section 18(b)(5) of the Shipping Act, 1916 (46 U.S.C. 817 (b)) authorizes the Commission to disapprove any rate or charge which it finds to be so unreasonably high or low as to be detrimental to the commerce of the United States. Because of our concern and responsibility in this regard the Commission has, among other things, instituted an investigation into the lawfulness of certain rates previously submitted in the subject trade area,[2] issued a number of section 21 orders against American-flag carriers participating in the MSC procurement system, and established by rule making a minimum standard in order to determine whether military rates meet the requirements of section 18(b)(5) of the Act (F.M.C. General Order 29).

As the Commission recently had occasion to state in connection with the promulgation of General Order 29, rates on military cargo may fall to such a low level that either the continuation of adequate service is jeopardized or upward pressure is exerted on rates paid by commercial shippers. Both of these contingencies, we believe, result in a situation which is detrimental to the commerce of the United States.

Comparing the bids presently submitted with those submitted under the previous RFP Cycle, which were themselves suspect, and considering the rising costs of operation in the industry, the Commission is of the opinion that the reasonableness of the present level of bids submitted by the subject carriers pursuant to RFP 700, Second Cycle, is in serious doubt. Therefore, the Commission is of the opinion that an investigation should be undertaken in order to determine whether such bid rates are in fact so unreasonably low as to be detrimental to the commerce of the United States, hence warranting disapproval by the Commission. Since the subject rates are effective for only a 6-month period, and because the Commission wants the issue seasonably resolved, we are directing expedition of the proceeding as ordered below.

Now therefore, it is ordered, That, pursuant to section 22 of the Shipping Act, 1916, as amended, an investigation and hearing is hereby instituted to determine the lawfulness of AEL's, Sea-Land's, and USL's RFP–700 Second Cycle bid rates for carriage of Cargo N.O.S., vehicles, and refrigerated cargo under section 18(b)(5) of the Act; and

It is further ordered, That AEL, Sea-Land and USL be made respondents in this proceeding; and

It is further ordered, That this proceeding be referred for public hearing before an administrative law judge of the Commission's Office of Administrative Law Judges with directions that the proceeding be expedited to the fullest extent possible, and that upon completion of the hearing the record developed therein be certified to the Commission; and that the hearing be held at a date and place to be determined and announced by the presiding administrative law judge; and

It is further ordered, That notice of this order be published in the FEDERAL REGISTER and a copy thereof and notice of hearing be served upon respondents; and

It is further ordered, That any person other than respondents who desires to become a party to this proceeding and to participate therein shall file a petition to intervene with the Secretary, Federal Maritime Commission, Washington, D.C. 20573, promptly with copies to parties; and

Finally, it is further ordered, That all future notices issued by or on behalf of the Commission in this proceeding, including notice of time and place of hearing or prehearing conference, shall be mailed directly to all parties of record.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[2] Sea-Land Service, Inc.—Possible Violations of section 18(b)(5), Shipping Act, 1916, F.M.C. Docket No. 71-98. In view of the institution of this proceeding and for other reasons, we are by separate order discontinuing that proceeding.

[Docket No. 72-65]

AMERICAN MAIL LINE, INC., ET AL.

Order of Investigation and Hearing

American Mail Line, Inc. (AML), American President Lines, Inc. (APL) and Sea-Land Service, Inc. (Sea-Land) are all common carriers by water operating inter alia between the west coast of the United States and Japan. These carriers submit bids for the carriage of military cargo pursuant to the negotiated competitive procurement system administered by the Military Sealift Command (MSC).

In response to the latest Request for Proposal (RFP)—700, Second Cycle, issued by the MSC, Sea-Land, APL, and AML submitted bids in the amount of $11.00M, $14.83M, and $14.95M respectively for carriage of Cargo N.O.S.; $23.00M, $55.20M, and $29.90M respectively for carriage of vehicles; and $39.65M, $38.00M, and $40.00M respectively for carriage of refrigerated cargo from U.S. west coast ports to Japan, to be effective during the period January 1, 1973–June 30, 1973. In some instances these bids are below the rate levels in effect in connection with the previous RFP 700 First Cycle. (See Attachment A.)[1]

The Commission has for some time been seriously concerned with the apparent precariously low level of rates on military cargo bid pursuant to the MSC procurement system. Section 18(b)(5) of the Shipping Act, 1916 (46 U.S.C. 817 (b)) authorizes the Commission to disapprove any rate or charge which it finds to be so unreasonably high or low as to be detrimental to the commerce of the United States. Because of our concern and responsibility in this regard the Commission has, among other things, initiated an investigation into the lawfulness of the rates previously submitted in the subject trade area,[2] issued a number of section 21 orders against American-flag carriers participating in the MSC procurement system, and established by rule making a minimum standard in order to determine whether military rates meet the requirements of section 18(b)(5) of the Act (F.M.C. General Order 29).

As the Commission recently had occasion to state in connection with the promulgation of General Order 29, rates on military cargo may fall to such a low level that either the continuation of adequate service is jeopardized or upward pressure is exerted on rates paid by commercial shippers. Both of these contingencies, we believe, result in a situation which is detrimental to the commerce of the United States.

Comparing the bids presently submitted with those submitted under the previous RFP Cycle, which were themselves suspect, and considering the rising costs of operation in the industry, the Commission is of the opinion that the reasonableness of the present level of bids submitted by the subject carriers pursuant to RFP 700, Second Cycle, is in serious doubt. Therefore, the Commission is of the opinion that an investigation should be undertaken in order to determine whether such bid rates are in fact so unreasonably low as to be detrimental to the commerce of the United States, hence warranting disapproval by the Commission. Since the subject rates are effective for only a 6-month period, and because the Commission wants the issue seasonably resolved, we are directing expedition of the proceeding as ordered below.

Now, therefore, it is ordered, That, pursuant to section 22 of the Shipping Act, 1916, as amended, an investigation and hearing is hereby instituted to determine the lawfulness of Sea-Land's, APL's, and AML's RFP–700 Second Cycle bid rates for carriage of Cargo N.O.S., vehicles, and refrigerated cargo under section 18(b)(5) of the Act; and

[2] American President Lines, Inc., American Mail Line, Inc., Sea-Land Service, Inc., and United States Lines, Inc.; Possible Violations of Section 18(b)(5) of the Shipping Act, 1916, F.M.C. Docket No. 72-23. In view of the institution of this proceeding and for other reasons, we are by separate order discontinuing that proceeding.

[Docket No. 72-23]

AMERICAN PRESIDENT LINES, INC., ET AL.

Order of Discontinuance

By order of investigation and hearing served June 13, 1972, the Commission instituted the above proceeding to determine the lawfulness of American President Lines' (APL), American Mail Lines' (AML), Sea-Land Service, Inc. (Sea-Land) and United States Lines' (USL) RFP–700 Military Cargo N.O.S. bid rate of $10.66M, $11.90M, $11.51M, and $12.94M respectively for the carriage of military cargo on Military Sealift Command (MSC) Route Index 1–E under section 18(b)(5) of the Shipping Act, 1916 (Act); and also the lawfulness of the above-mentioned carriers' rates for transportation of privately owned vehicles (P.O.V.) under RFP–700.

Simultaneously with the issuance of the Order of Investigation and Hearing in this proceeding, section 21 orders were issued to the respondents in this proceeding as well as to other carriers in the relevant trade asking for detailed information relating to the cost of carrying military cargo on this MSC Route Index 1–E. The information furnished was then analyzed by the Commission's Office of Transportation Economics in an effort to determine the cost of carrying military cargo on MSC Route Index 1–E, with a view toward using the analysis in Docket No. 72–23.

Since the issuance of the order of investigation and hearing, the Commission has issued General Order 29, which sets forth the standards for determining the lawfulness of a bid submitted by a common carrier by water for carriage of military cargo under the RFP system of competitive bidding. In addition, the rates which are the subject of Docket No. 72–23 will pass out of effect on December 31, 1972.

By order of investigation and hearing, issued this day, thee Commission is undertaking an investigation of certain bid rates submitted pursuant to RFP–700, Second Cycle, for carriage of military cargo on MSC Route Index 1–E. The Commission believes that this new investigation undertaken after the issuance of General Order 29 will result in a much more productive examination of the entire issue of military rates on MSC Route

V38-3 JAN 5 73 XUM

Index 1–E than would a continuation of Docket No. 72–23.

Now, therefore it is ordered, That the proceedings in Docket No. 72–23 are hereby discontinued.

It is further ordered, That notice of this order be published in the FEDERAL REGISTER and a copy thereof served upon respondents.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

CITY OF LOS ANGELES AND OVERSEAS SHIPPING CO.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Roger Arnebergh, City Attorney, City of Los Angeles, Post Office Box 151, San Pedro, CA 90733.

Agreement No. T–2588–1, between the City of Los Angeles (City) and Overseas Shipping Co. (Overseas), modifies the basic agreement which provides for the 5-year nonexclusive preferential assignment to Overseas of Berths 228D, 228E, 229, and 230 plus 24 acres of adjacent land area for operation as a marine terminal. The purpose of the modification is to incorporate into the assigned premises offices, a gear corral, shops, and locker. Compensation for the use of the improvements is pursuant to the Port of Los Angeles Tariff No. 3.

Dated: December 29, 1972.

By order of the Federal Maritime Commission.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Edward D. Ransom, Esq., Lillick, McHose, Wheat, Adams & Charles, 311 California Street, San Francisco, CA 94104.

Agreement No. T–2635–2, between the members of the Pacific Maritime Association (PMA), represents the final agreement between members of the PMA for funding the PMA-International Longshoremen's and Warehousemen's Union (ILWU) Longshore Pay Guarantee Plan (Plan). The purpose of Agreement No. T–2635 is to fund PMA members' contingent liability created by the Plan. Contributions to the Plan will be determined by: (a) The number of revenue tons of cargo handled by each member employing longshoremen; and (b) the number of manhours of marine clerks employed by each member. The formula for the contributions is, in essence, the same as that used by the PMA membership in meeting their obligations under the PMA–ILWU Modernization and Mechanization Fund as provided for in FMC Agreement No. T–2210. Contributions per revenue ton and contributions per manhours are to be uniform between all participants with the following exceptions: (a) Bulk cargo shall contribute one-seventh of the contributions per revenue ton applicable to general cargo; (b) automobiles and trucks, exclusive of truck trailers, shall be one-fifth of the amount of assessment per revenue ton applicable to general cargo; (c) cargo in containers shall contribute seven-tenths of the amount per revenue ton applicable to general cargo. Agreement No. T–2635 (as amended by T–2635–1) represents PMA's interim arrangement for meeting members' obligations to the Plan; Agreement No. T–2635–2 amends T–2635 (as amended) by eliminating reference to and provisions relating to the "interim" period. Thus, the final Plan funding formula for the PMA will be identical to that used over the interim period.

Dated: December 27, 1972.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.73–209 Filed 1–4–73;8:45 am]

[Docket No. 71–54]

PACIFIC WESTBOUND CONFERENCE

Application To Extend Exclusive Patronage (Dual Rate) Contract System; Order of Remand

The Commission instituted this proceeding on May 12, 1971, to determine whether the application of the Pacific Westbound Conference (PWC) to expand the scope of its approved form of exclusive patronage contract to include the Conference's Overland Common Point (OCP) territory should be approved, disapproved, or modified pursuant to section 14b of the Shipping Act, 1916. Minnesota Mining and Manufacturing (3M), Orient Overseas Container Lines (OOCL) and the American Cotton Shippers Association (ACSA) intervened and remain as parties in the proceeding.[1]

The proceeding is now before us on appeals from the administrative law judge's rulings on legal issues wherein he held that the PWC proposal to extend its dual rate contract to include the overland territory was per se unlawful, concluded that the need for any further hearing was obviated, and accordingly ordered the proceeding discontinued.

PWC and hearing counsel maintain on appeal[2] that the administrative law judge erred in deciding that there are fundamental legal impediments to PWC's proposed Overland/OCP dual rate system and that the proper resolution of the issues set forth in the Commission's order of investigation in this proceeding requires an evidentiary hearing. In their replies to the appeals from the administrative law judge's rulings, 3M, ACSA and OOCL support the Judge's rulings and his legal basis therefor and conclude that the PWC proposal was properly disapproved.

Also before the Commission at this time are motions to strike filed by PWC and hearing counsel. These parties have moved the Commission to strike those portions of 3M's reply to their appeals which discuss the Commission's authority to approve a dual rate system which, inter alia, encompasses movements from Canada to foreign ports. PWC and hearing counsel argue that since the Canadian issue was ignored by the administrative law judge in his rulings, although argued before him as a legal issue, and thus ignored by them in their appeals from those rulings, the discussion of that issue is improper and should be stricken.

The Commission believes that the issues raised in the order of investigation initiating this proceeding can only be resolved on the basis of a full evidentiary

[1] There were several other interveners and Commission designated petitioners who withdrew following clarification by PWC of the scope of its proposed amendment.

[2] In granting PWC an enlargement of time to file exceptions, the Secretary of the Commission rightly construed the administrative law judge's rulings as a dismissal of the proceeding, appeal from which is governed by § 502.153 of the Commission's rules of practice and procedure.

V 38-3 JAN 5 73 XUM

hearing. We are not convinced by the arguments presented that there are fundamental legal impediments to the approval of the PWC proposal. Accordingly, we are remanding the proceeding for a full evidentiary hearing in accordance with the Commission's own order of investigation, said hearing to encompass, inter alia, the issues of the inclusion of Canadian ports within PWC's organic agreement and the applicability of section 5 of the Federal Trade Commission Act to the proposed amendment of the Conference's dual rate system.

In light of our disposition of the appeals from the rulings on legal issues in the manner set forth above, we believe that the motions to strike now before us have been mooted and accordingly, we see no necessity to pass upon them.

Therefore it is ordered, That this proceeding be remanded to the Office of Administrative Law Judges for a full evidentiary hearing in accordance with the present order and our order of investigation and hearing served May 12, 1971.

By the Commission.

[SEAL] FRANCIS C. HURNEY,

PHILIPPINES-NORTH AMERICA CONFERENCE

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Elkan Turk, Jr., Esq., Burlingham Underwood & Lord, 25 Broadway, New York, NY 10004.

Agreement No. 5600-30 is a modification of the Philippines-North America Conference's basic agreement which has been filed in an effort to comply with the Federal Maritime Commission's requirements concerning Self-Policing Systems, General Order 7 (revised) as published in the FEDERAL REGISTER of October 28, 1970 (35 FR 16679).

Dated: December 27, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

PORT OF HOUSTON AUTHORITY AND LOUIS DREYFUS CORP.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Milton K. Eckert, Esq., Port of Houston Authority, Box 2562, Houston, TX 77001.

Agreement No. T-2719, between the Port of Houston Authority (Port) and Louis Dreyfus Corporation (Dreyfus), provides for the 10-year lease to Dreyfus of the Houston Public Elevator which is to be used as an agricultural bulk commodity elevator in connection with the movement of such commodities through the Port of Houston. To the extent, in Dreyfus' sole discretion, capacity in the facility is not needed to serve Dreyfus and Dreyfus' affiliates, Dreyfus may operate the facility to serve others desiring to use it. Dreyfus has the prior right to use the berths adjacent to the facility (wharves 14 and 15). The Port may use the berths at any time when not needed by Dreyfus, provided, however, that should Dreyfus in its sole discretion need all or any part of the berthing facilities the Port, at its expense, shall cause the berths to be vacated within 8 hours of telephonic or other notice by Dreyfus. Dreyfus will have the right to establish tariffs, rules, and regulations governing the facility. Dockage fees are to be paid to the Port and are not to be increased above the dockage fees assessed at other Port facilities. As compensation, the Port is to receive $1,006,000 annually as rental.

Dated: December 29, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

PORT OF OAKLAND AND HARRY H. BLANCO CO.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

J. Kerwin Rooney, Esq., Port of Oakland, 66 Jack London Square, Post Office Box 2064, Oakland, CA 94607.

Agreement No. T-2722, between the Port of Oakland (Port) and Harry H. Blanco Company, doing business as Mid-Pacific Freight Forwarders (Blanco), is a license and concession agreement providing for the occupancy by Blanco of certain office space, U.S. Customs area, covered dock space, maintenance shop area, and paved open area at the Port of Oakland, Calif., for use as a container freight station and other uses incidental thereto. As compensation, the Port is to receive $3,845.75 per month. The agreement provides that Blanco shall not act as a terminal operator nor conduct or operate a public utility wharfinger business upon the premises. The agreement also stipulates that 90 percent of Blanco's operations are to be concerned with the movement of goods through the Port's marine terminals.

Dated: December 27, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Howard A. Levy, Esq., Suite 631, 17 Battery Place, New York, NY 10004.

Agreement No. 9982-2 among the members of the above named conference modifies the basic agreement to provide that the word "Secretary" is to be deleted from the Agreement and the word "Chairman" is to be substituted in lieu thereof in each instance. It defines the word "Chairman" as used in this agreement to include the Chairman and any duly authorized member of his staff.

Dated: December 29, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.73-212 Filed 1-4-73;8:45 am]

[Docket No. 71-98]

SEA-LAND SERVICE, INC.

Order of Discontinuance

On December 28, 1971, the Commission issued an order requiring Sea-Land Service, Inc. (Sea-Land) to show cause why its bid of $11.69M on Cargo, N.O.S., submitted to the Military Sealift Command (MSC) pursuant to RFP-600, Second Cycle, should not be found unreasonably preferential to shippers of military cargo and unreasonably prejudicial or disadvantageous to commercial shippers in violation of section 16, First of the Shipping Act, 1916 (Act); unjustly discriminatory between shippers and ports in violation of section 17 of the Act; and so unreasonably low as to be detrimental to the commerce of the United States in contravention of section 18(b)(5) of the Act.

Because the memorandum of law and affidavits of facts filed in response to the Commission's order raised certain factual disputes, the Commission on March 16 1972, issued an order of investigation and hearing referring the proceeding to an examiner for a full evidentiary investigation and hearing within the confines of the specific issues set forth in its original order to show cause.

In response to MSC's RFP-700, First Cycle (July 1, 1972 to Dec. 31, 1972), Sea-Land rebid the $11.69M military cargo rate and was again first on the MSC "pecking order" for the carriage of military cargo on the North Atlantic. The Commission, therefore, on June 13, 1972, issued an "Order Dismissing Proceeding in Part and Expanding Investigation" in this proceeding which provided that:

(1) The proceeding would be continued and expanded to include the issue of the lawfulness of Sea-Land's RFP-700, First Cycle, bid of $11.69M for military cargo N.O.S. in the North Atlantic under section 18(b)(5) of the Shipping Act, 1916;

(2) Those portions of the two previous orders dealing with sections 16, First, and 17 of the Act would be discontinued.

(3) Various motions of Sea-Land and of intervenor American Export Lines (AEL) would be denied.

On the same day the Commission issued section 21 orders to Sea-Land, AEL, United States Lines (USL) and Seatrain Lines, directing those carriers to furnish to the Commission detailed information regarding the cost of carrying military cargo from U.S. east coast ports to Europe. Sea-Land however remained the only respondent in Docket No. 71-98.

During the time that the responses of the above-mentioned carriers to the section 21 orders were being analyzed by the Commission staff, the Commission issued General Order 29, which sets forth the standards for determining the lawfulness of bids submitted by common carriers by water for the carriage of military cargo under the RFP system of competitive bidding. In addition the rates which are the subject of Docket No. 71-98 will pass out of effect on December 31, 1972.

By order of investigation and hearing issued this day the Commission is undertaking an investigation of bid rates submitted by Sea-Land, AEL and USL pursuant to RFP 700, Second Cycle for carriage of military cargo between ports on the U.S. east coast and ports in Europe. The Commission believes that this new investigation undertaken after the issuance of General Order 29, and with all the U.S. flag containership operators on the North Atlantic as respondents, will result in a much more productive examination of the entire issue of military rates on the North Atlantic than would a continuation of Docket No. 71-98.

Now, therefore it is ordered, That the proceedings in Docket No. 71-98 are hereby discontinued.

It is further ordered, That notice of this order be published in the FEDERAL REGISTER and a copy thereof served upon respondent.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

NATIONAL GAS SURVEY SUPPLY-TECHNICAL ADVISORY TASK FORCE-NATURAL GAS TECHNOLOGY

Notice of Meeting and Agenda

Agenda, meeting, Supply-Technical Advisory Task Force-Natural Gas Technology, to be held in Conference Room 4454–A of the Federal Power Commission, 441 G Street NW., Washington, DC, January 9 and 10, 1973—9 a.m.

Presiding: Dr. Paul J. Root, TF FPC Survey Coordinating Representative and Secretary.

1. Call to order and introductory remarks—Dr. Root.

2. Objectives and purpose of meeting—

A. Review of Developments Since the Last Meeting—Mr. Lloyd E. Elkins, Director, Supply-Technical Advisory Task Force-Natural Gas Technology.

B. Review of Individual Assignments for Drafting Sections of the Final Report—Mr. Elkins.

C. Discussion of Coverage of Environmental Aspects of Task Force Work Programs—Mr. Elkins.

D. Status of Assigned Work Programs and Estimated Date for Completion—Mr. Elkins.

E. Other Business.

3. Adjournment—Dr. Root.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the Task Force, which statements, if in written form, may be filed before or after the meeting, or if oral, at the time and in the manner permitted by the Task Force.

KENNETH F. PLUMB,
Secretary.

NATIONAL POWER SURVEY TECHNICAL ADVISORY COMMITTEE ON POWER SUPPLY; TASK FORCE ON FORECAST REVIEW

Notice of Meeting and Agenda

Agenda for a meeting of the Technical Advisory Committee on Power Supply, Task Force on Forecast Review, to be held at the Federal Power Commission Offices, 441 G Street NW., Washington, DC, 9:30 a.m., January 12, 1973, Room 2043.

1. Meeting opened by FPC Coordinating Representative.

2. Objectives and purposes of meeting—

A. Discussion of total energy requirement forecasts and relationship between requirements for total energy, and the electric energy portion.

B. Discussion of population and labor force projections.

C. Discussion of projected fuel sources and availability as related to need for electric energy.

D. Develop plan for task force activities.

E. Other business.

F. Set date for next meeting.

3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee, which statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–353 Filed 1–4–73;8:45 am]

[Docket No. CI73–429]

AMOCO PRODUCTION CO.

Notice of Application

DECEMBER 29, 1972.

Take notice that on December 20, 1972, Amoco Production Co. (Applicant), Post Office Box 3092, Houston, TX 77001, filed in Docket No. CI73–429 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transcontinental Gas and Pipe Line Corp. from the La Sal Vieja Field Area, Willacy County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 3,000 Mcf of gas per day at 35 cents per Mcf at 14.65 p.s.i.a. for 3 years or until 7,500,000 Mcf of gas have been delivered, whichever occurs first within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before January 15, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73–282 Filed 1–4–73;8:45 am]

[Docket Nos., RI73–152, etc.]

AMOCO PRODUCTION CO. ET AL.

Order Providing for Hearing On and Suspension of Proposed Changes in Rates, and Allowing Rate Changes to Become Effective Subject to Refund [1]

DECEMBER 22, 1972.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto [18 CFR, Chapter I], and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the respondent or by the Commission. Each respondent shall comply with the refunding procedure required by the Natural Gas Act and section 154.102 of the Regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[1] Does not consolidate for hearing or dispose of the several matters herein.

* Unless otherwise stated, the pressure base is 14.65 p.s.i.a.
1 Includes quality adjustments.
2 Subject to Btu adjustment.
3 Includes letter from buyer agreeing to increase.
4 Corrected filing submitted Dec. 13, 1972.
5 Applicable only to "new gas" as defined by and sold under Supp. No. 13.
6 Hamon Field.
7 Halley Field.
8 Commodity Index adjustment as provided by contract.
9 Converted from filed rate of 17.1409 cents at 15.025 p.s.i.a.
10 Converted from filed rate of 16.951 cents at 15.025 p.s.i.a.
11 Amends pricing provisions.
12 Includes quality adjustment.
13 Succession by Oil Resources, Inc. to FPC Gas Rate Schedule No. 2 of Pacific Lighting Exploration Co. et al. was filed Nov. 22, 1972, and is being reported separately.
14 Renegotiated contract dated Nov. 7, 1972. Providing for a 19.0 cents base rate with 1.0 cents escalation every 5 years.
15 Contract base rate of 19.0 cents less a 2.0 cents compression charge and 0.855 cent/Mcf downward Btu adjustment.
16 Applicable to gas from wells completed on or after June 1, 1970.
17 Filing also covers the interest of Texas Pacific Oil Co. Inc.
18 No production at present.
19 Includes a double amount of contractually due tax remburesement to recover taxes on past sales.
20 Accepted, for filing to be effective on the date shown in the "Effective Date" column.
21 The pressure base is 15.025 p.s.i.a.

The proposed increases of Amoco Production Co., Skelly Oil Co. under its FPC Gas Rate Schedule No. 159, Gulf Oil Corp., Mobil Oil Corp., Perry R. Bass under his FPC Gas Rate Schedule No. 6, and under Supplement No. 8 to its FPC Gas Rate Schedule No. 17 only insofar as it pertains to the 22.6125-cents proposed rate, Union Oil Company of California under Supplement No. 8 to its FPC Gas Rate Schedule No. 118, Union Texas Petroleum and Champlin Petroleum Co., exceed the rate limit for a 1-day suspension, and, therefore, are suspended for 5 months from the expiration of the statutory notice period or the contractual effective date, whichever is later.

The proposed increase of Texaco Inc. under its FPC Gas Rate Schedule No. 409 includes a double amount of the contractually due tax reimbursement for taxes applicable to future production as well as reimbursement for taxes applicable to past production. After tax reimbursement applicable to past production has been recovered, Texaco Inc. shall file a rate decrease reducing the proposed rate so as to provide for tax reimbursement for future production only. Texaco's proposed increase is suspended for 1 day from the proposed effective date consistent with prior Commission action in similar cases.

The other proposed increases involved here do not exceed the corresponding rate filing limitation imposed in Southern Louisiana and therefore are suspended for 1 day from the expiration of the 60-day notice period or the contractual effective date, whichever is later.

Perry R. Bass requests waiver of the 30-day notice requirement. Good cause has not been shown and his request is denied.

The producers' proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR 2.56).

CERTIFICATION OF ABBREVIATED SUSPENSION

Pursuant to § 309.16(1)(3) of the Price Commission rules and regulations, 6 CFR Part 300 (1972), the Federal Power Commission certifies as to the abbreviated suspension period in this order as follows:

(1) This proceeding involves producer rates which are established on an area rather than company basis. This practice was established by Area Rate Proceeding, Docket No. AR61-1, et al., Opinion No. 468, 34 FPC 159 (1965), and affirmed by the Supreme Court in Permian Basin Area Rate Case, 390 U.S. 747 (1968). In such cases as this, producer rates are approved by this Commission if such rates are contractually authorized and are at or below the are ceiling.

(2) In the instant case, the requested increases do not exceed the ceiling rate for a 1-day suspension.

(3) By Order No. 423 (36 FR 3464) issued February 18, 1971, this Commission determined as a matter of general policy that it would suspend for only 1 day a change in rate filed by an independent producer under section 4(d) of the Natural Gas Act (15 U.S.C. 717c(d)) in a situation where the proposed rate exceeds the increased rate ceiling, but does not exceed the ceiling for a 1-day suspension.

(4) In the discharge of our responsibilities under the Natural Gas Act, this Commission has been confronted with conclusive evidence demonstrating a natural gas shortage (See Opinions Nos. 595, 598, and 607, and Order No. 435). In these circumstances and for the reasons set forth in Order No. 423 the Commission is of the opinion in this case that the abbreviated suspension authorized herein will be consistent with the letter and intent of the Economic Stabilization Act of 1970, as amended, as well as the rules and regulations of the Price Commission, 6 CFR 300 (1972). Specifically, this Commission is of the opinion that the authorized suspension is required to assure continued, adequate and safe service and will assist in providing for necessary expansion to meet present and future requirements of natural gas.

INDIANA AND MICHIGAN ELECTRIC CO.

Extension of Time

DECEMBER 22, 1972.

On December 13, 1972, Commission Staff Counsel filed a motion for an extension of time from December 14, 1972, to January 22, 1973, to serve its prepared testimony and exhibits in accordance with the notice issued November 28, 1972, in the above-designated matter. The motion also requests that the other procedural dates be modified accordingly. On December 20, 1972, Staff Counsel filed an addendum to the motion filed on December 13, 1972, advising that Indiana and Michigan Electric Co., City of Anderson, Ind., Indiana Statewide Rural Electric Cooperatives, Inc., Richmond Power & Light, Indiana and Michigan Municipal Distributors Association, City of Fort Wayne, Ind., have no objection to the requested extension.

Upon consideration, notice is hereby given that the procedural dates fixed by the notice issued November 28, 1972 (37 FR 25789), in the above matter are further amended as follows:

Staff serve testimony, January 22, 1973.
Prehearing conference, February 12, 1973.
Intervenor Service date, February 26, 1973.
I&M Rebuttal Service date, March 27, 1973.
Hearing date, April 17, 1973.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73-63 Filed 1-4-73;8:45 am]

[Docket No. ID-1679]

R. DOUGLAS ZIEGLER

Notice of Application

DECEMBER 29, 1972.

Take notice that on October 18, 1972, R. Douglas Ziegler (Applicant), filed an application pursuant to section 305(b) of the Federal Power Act seeking authority to hold interlocking directorate positions.

Applicant is director of the Wisconsin Electric Power Co., a public utility principally engaged in the generation, transmission, and distribution of electricity in southeastern Wisconsin. Applicant has held this position since his initial election on May 5, 1971.

On October 2, 1972, Applicant was elected director of B. C. Ziegler & Co. Applicant expects to be elected president of B. C. Ziegler & Co. during 1973. B. C. Ziegler & Co., with its principal business office at West Bend, Wis., is the Nation's largest broker-dealer specializing in underwriting and distributing debt securities of hospitals, schools, and other nonprofit organizations. It is also a distributor of short term paper and material funds and operates a general insurance agency.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 10, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

MARY B. KIDD,
Acting Secretary.

FEDERAL RESERVE SYSTEM

ALABAMA FINANCIAL GROUP, INC.

Acquisition of Bank

The Alabama Financial Group, Inc., Birmingham, Ala., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of the successor by merger to Marion County Banking Co., Guin, Ala. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than January 18, 1973.

Board of Governors of the Federal Reserve System, December 22, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.73-147 Filed 1-4-73;8:45 am]

CITIBANC GROUP, INC.

Order Approving Formation of Bank Holding Company

Citibanc Group, Inc., Alexander City, Ala., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of five banks in Alabama as follows:

(1) 64 percent or more of the voting shares of Covington County Bank, Andalusia ("Covington Bank");

(2) 90 percent or more of the voting shares of City Bank of Goodwater, Goodwater ("Goodwater Bank");

(3) 74 percent or more of the voting shares of City Bank of Tuskegee, Tuskegee ("Tuskegee Bank");

(4) 80 percent or more of the voting shares of City Bank of Lineville, Lineville ("Lineville Bank"); and

(5) 90 percent or more of the voting shares of City Bank of Roanoke, Roanoke ("Roanoke Bank"), all in Alabama.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, a newly formed corporation with no operating history, was organized by principals of a partnership for the purpose of acquiring the five banks which are the subjects of this application. The partnership acquired control of these five banks from 1955 to 1969 and became a registered bank holding company as a result of the 1970 Amendments to the Bank Holding Company Act. The proposed transaction represents a restructuring of an existing bank holding company from a partnership into a corporate form. Upon consummation of the proposal herein, Applicant would control five banks with aggregate deposits of $40.5 million, representing 0.70 percent of total deposits of commercial banks in the State. (All banking data are as of Dec. 31, 1971.)

The banks proposed to be acquired from the existing partnership are located in separate, predominantly rural, counties situated in the eastern half of Alabama and operate in separate markets. Covington Bank ($15.2 million of deposits) operates one office in Andalusia, Covington County; Goodwater Bank ($6.1 million of deposits) operates three offices located in the cities of Goodwater, Rockford, and Kellyton, in Coosa County; Tuskegee Bank ($7.3 million of deposits) operates two offices in Tuskegee, Macon County; Lineville Bank ($5.8 million of deposits) operates one office in Lineville, Clay County; and Roanoke Bank ($6.1 million of deposits) operates two banking offices located in Roanoke and Rock Mills, Randolph County. It appears that no meaningful competition exists among these banks at the present time. Since Alabama banking law permits branching within the county in which a bank's main office is located and three of the banks proposed to be acquired are located in adjacent counties, some potential for competition developing in the future among these banks does exist. However, in view of the present small size of the banks, the limited market areas served by them and the probability of the continuation of their present common owner relationship, the prospect for meaningful competition developing in the future among these banks appears remote. It is the Board's judgment that approval of the proposed formation would have no adverse effects on competition in any area of the State.

The financial condition and managerial resources of the proposed subsidiary banks are generally satisfactory and consistent with approval of the application. The financial condition of the partnership which presently controls these banks is adversely affected by a high degree of debt which was incurred in the purchase of the shares of these banks. Although the proposed transaction would result in the assumption of this debt individually by the principal partner of the present holding company rather than Applicant, the Board views the proposal herein as if the debt would in fact be assumed directly by Applicant since the funds required to service this debt would be derived primarily from Applicant. Principals of Applicant have assured the Board that upon approval of this application, specific steps will be initiated to generate additional funds which would be used to reduce significantly the present excessive debt position. The Board's action herein is taken in the light of these assurances. Moreover, the partners who will be assuming this debt individually have committed themselves to a debt retirement schedule which would eliminate the remaining debt within 10 years. The future prospects for profitable operation of Applicant and its subsidiary banks appear satisfactory and should provide adequate income for Applicant's principal shareholders to service and retire the remaining debt according to the proposed schedule.

No immediate benefits to convenience and needs of the communities to be served by Applicant will result from consummation of Applicant's proposal. However, the improved financial condition of Applicant which is projected after completion of steps to reduce the present holding company's debt position should improve the potential of the subsidiary

V38-3 JAN 5 73 XUM

banks to serve better the banking needs of their banking customers. Considerations relating to convenience and needs are regarded as consistent with approval of the application. It is the Board's judgment that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order, or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] effective December 22, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-148 Filed 1-4-73;8:45 am]

DOMINION BANKSHARES CORP.

Proposed Acquisition of The Fitton Co. and Fitton Insurance Agency

Dominion Bankshares Corp., Roanoke, Va., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of The Fitton Co. and of Fitton Insurance Agency, both of Alexandria, Va. The Fitton Co. holds shares of Metropolitan Mortgage Fund, Inc., Metropolitan Data Services, Inc., both of Alexandria, Va. Notice of the application was published on November 24, 1972, in the Washington Post, a newspaper circulated in Washington, D.C., and vicinity.

Applicant states that the proposed subsidiaries would engage in the activities of originating residential, commercial, and industrial mortgage loans for its own account but principally for sale to others, and servicing such loans for others; providing accounting and bookkeeping services principally for Metroloplitan Mortgage Fund, Inc.; providing such accounting and bookkeeping services for other mortgage banking companies, and preparation of mailings and billings for other businesses; and acting as insurance agents for The Fitton Co. and its subsidiary companies upon approval of the pending application for it to become an affiliate of Dominion Bankshares Corp. and act de novo as insurance agent for Dominion Bankshares Corp. and any of its other subsidiaries with respect to (a) their purchase of fire, automobile, and any other insurance they may require for their protection as the named insured; (b) policies of fire insurance, with extended coverage, credit life and mortgage redemption insurance, and surety bonds in connection with extending, protection and further securing the repayment of mortgage loan credit; and (c) policies of health and accident, life, fire with extended coverage, and casualty insurance and miscellaneous bonds, in limited amounts and principally as a convenience to customers of Metropolitan Mortgage Fund, Inc. Activities of this nature have been specified by the Board in § 225.4(a) of Regulation Y as generally permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than January 22, 1973.

Board of Governors of the Federal Reserve System, December 26, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.73-153 Filed 1-4-73;8:45 am]

FIRST ARKANSAS BANKSTOCK CORP.

Order Approving Acquisition of L. E. Lay & Co., Inc.

First Arkansas Bankstock Corp., Little Rock, Ark., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and section 225.4(b)(2) of the Board's Regulation Y, to acquire voting shares of L. E. Lay & Co., Inc., Little Rock, Ark. (Company), a company that engages in the activities of: (1) making or acquiring for its own account or for the account of others, real estate mortgage loans and servicing such loans; and (2) acting as an insurance agent or broker with respect to insurance that is directly related to an extension of credit or provision of other financial services by Company. Such activities have been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a) (1), (3), and (9)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors was published (37 FR 18496). Subsequently, Applicant amended its application so that the Board could consider the mortgage banking and insurance agency activities of Company separately. Notice of the amended application was published (37 FR 2439). The time for filing comments and views on both the original and amended application has expired, and the Board has considered all comments received with respect to the mortgage banking activities of Company in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)) and finds that:

Applicant, the largest banking organization in Arkansas, controls three nonbanking subsidiaries which engage in equipment leasing, owning and operating Applicant's business offices, and travel agency services.[1] Applicant controls three banks with aggregate deposits of $305 million, representing 8.1 percent of the total deposits in commercial banks in the State.[2] Applicant's lead bank, Worthen Bank & Trust Co., Little Rock, Ark. (Bank), with deposits of $239.8 million, is the largest bank in the Little Rock banking market[3] and in Arkansas, controlling 30.1 percent of commercial bank deposits in the Little Rock banking market. Bank is engaged in extending credit secured by real property through (1) permanent mortgage loans on one-four family residential properties, (2) permanent mortgage loans on income producing properties, and (3) construction loans.

Company engages in extending credit secured by real property through (1) permanent mortgage loans on one-four family residential properties, (2) permanent mortgage loans on income producing properties, and (3) construction loans. Company also engages in mortgage servicing. Company is the 238th largest mortgage company in the Nation and has six offices, three in Illinois, one in Texas, one in Louisiana, and one in Arkansas. Bank and Company compete for mortgage loan business only in Pulaski County. Bank is the largest mortgage lender in Pulaski County, with a mortgage loan volume of $25.6 million, accounting for 8.7 percent of mortgages recorded in that county in 1971. Of Company's total mortgage servicing portfolio of $82.1 million, only $11.1 million is derived from Pulaski County, where it is the third largest mortgage banking company accounting for 3.8 percent of the mortgages recorded in the county in 1971. Consummation of the proposal will eliminate some existing competition between Bank and Company in the mortgage banking business in Pulaski County; however, neither Bank nor Company have a dominant position in

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, and Sheehan. Absent and not voting: Governor Bucher.

[1] Applicant acquired its travel agency business prior to June 30, 1971 (see § 225.4(e) of Regulation Y).

[2] Banking deposit and market data are as of June 30, 1972.

[3] The Little Rock banking market is approximated by the Little Rock SMSA, which includes Saline and Pulaski Counties. Pulaski County has approximately 90 percent of the population in the Little Rock SMSA.

that county. There are 60 mortgage lending and servicing competitors in the county including the second, third, and fourth largest banks in Arkansas. Also present in the county are offices of the country's largest mortgage company, and offices of three other mortgage companies ranking in the Nation's top 100, which companies have aggregate annual mortgage servicing volumes in excess of $4.2 billion.

While some competition would be eliminated between Bank and Company in all areas of mortgage banking, the only significant amount of competition that would be eliminated is in the market for permanent one-four family residential mortgages. In this market Bank presently holds 2 percent of mortgages originated in Pulaski County and Company originates 4.5 percent of such mortgages. Twenty-eight of the 60 mortgage banking competitors in the market also originate permanent one-four family residential mortgages. Due to the large number of competitors in Pulaski County and the regional nature of Company's business, it is concluded that no significant existing competition would be eliminated upon consummation of the proposed transaction.[4] Further no significant potential competition would be foreclosed upon approval of the proposed transaction since it appears Company would have difficulty competing with other mortgage banking companies in the County without the infusion of additional capital and greater access to financial markets.

Moreover, whatever slight anticompetitive effects might result from approval of this proposal are outweighed in the public interest by other considerations. Upon approval of this application. Applicant states that it will purchase $250 thousand of Company's securities prior to December 31, 1972, thereby significantly improving Company's capital structure. Acquisition of Company by Applicant will also likely provide greater access to financial markets for Company and thereby increase its amount of available funds to meet the growing credit demands for housing and other construction in the Little Rock area. Accordingly, consummation of this proposal should enable Company to offer increased and improved services to its customers and increase its competitive effectiveness.

Company has been selling title insurance through Mortgage Title Agency, Inc., and has engaged in land development through World Wide Land Co. The Board has determined that land development is not a permissible activity for bank holding companies.[5] The Board has not yet determined whether the operation of a title insurance agency is a permissible activity for bank holding companies. Applicant has, however, agreed to immediately divest both Mortgage Title Agency, Inc., and World Wide Land Company, upon consummation of this transaction.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application to engage solely in Company's mortgage banking business is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[6] effective December 26, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-150 Filed 1-4-73;8:45 am]

FIRST PENNSYLVANIA CORP.

Order Approving Acquisition of Great Acceptance Corp. and Pearce Colvin Finance Co.

First Pennsylvania Corp., Philadelphia, Pa., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire the assets of Great Acceptance Corp. ("Great Acceptance"), Houma, La., and Pearce Colvin Finance Co. "Pearce Colvin"), Ruston, La., companies which engage in the activities of making, acquiring, and servicing loans or other extensions of credit for personal, family, or household purposes and acting as agent in the sale of credit life, accident, and health and disability insurance in connection with such loans. Such activities have been determined by the Board to be closely related to the business of banking (12 C.F.R. 225.4(a)(1), (3) and (9)(ii)(a).

Notice of the applications, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (37 FR 16997-16998). The time for filing comments and views has expired, and none has been timely received.

Applicant's banking subsidiary, First Pennsylvania Banking and Trust Co. ("Bank"), is the second largest bank in Pennsylvania and the largest in the Philadelphia market area, with total deposits of $2.6 billion as of June 30, 1972. Applicant also has nonbanking subsidiaries engaged principally in mortgage banking, consumer financing, data processing, personal property, and equipment leasing and in providing investment advisory services.

Great Acceptance is engaged in the consumer finance business with three offices in the Houma, La., market, which includes Terrebonne Parish and parts of Lafourche Parish. It competes for personal loans in the Houma market with eight commercial banks and approximately 25 other consumer finance companies, including a wholly owned indirect subsidiary of Applicant, Termplan of Houma, Inc. ("Termplan"). Estimates of the market shares held by Great Acceptance and Termplan reflect control of less than 6 percent and 4 percent respectively of personal loans outstanding—the combined figure amounting to less than 9 percent of the market share held by all consumer finance companies. Consummation of this proposed transaction would therefore eliminate some existing competition. However, neither Great Acceptance nor Termplan controls a significant share of the consumer finance business in the relevant geographic market. Moreover, because of the large number of remaining competitors, the many potential entrants and the relative ease of entry into the consumer finance business, the adverse effect upon competition is considered slight. Since Applicant is already operating in the Houma market, it is not a potential entrant. The prospects of Great Acceptance establishing additional offices in other markets served by Applicant is considered remote. Therefore, consummation of the proposed transaction would have no adverse effect on potential competition.

Pearce Colvin, also engaged in the consumer finance business, began operations during August 1970, and had total loans outstanding of approximately $440,000 as of March 31, 1972. It operates one office in the Ruston, La., market, in which there are eight other finance companies and three commercial banks. Applicant does not operate a consumer finance subsidiary in the Ruston market, its closest consumer finance subsidiary being located 30 miles east at Monroe, La. Applicant does have the financial and managerial resources to enter this market de novo.

[4] In the matter of the applications of First Tulsa Bancorporation, Inc., Tulsa, Oklahoma, to acquire Hall Investment Co., Tulsa, Okla. (37 FR 3210); and First Railroad & Banking Company of Georgia, Augusta, Ga. to acquire Southern Finance Corp., Augusta, Ga. (37 FR 26472), neither mortgage company had significant operations outside the area of competitive overlap, more existing mortgage competition would have been foreclosed, and there were significantly fewer mortgage servicing and lending competitors in the relevant areas.

[5] See application of UB Financial Corp., Phoenix, Ariz., to retain H. S. Pickrell Co., Phoenix, Ariz. (37 FR 6794).

[6] Voting for this action: Chairman Burns and Governors Mitchell, Sheehan, and Bucher. Voting against this action: Governor Robertson. Absent and not voting: Governors Daane and Brimmer. Dissenting statement of Governor Robertson filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System or to the Federal Reserve Bank of St. Louis.

V38-3 JAN 5 73 XUM

However, the effect upon potential competition is considered slight because of the many potential entrants and the ease of entry into the relevant product market. Pearce Colvin is not considered a likely entrant into other markets served by Applicant because of its limited resources and experience. It is the Board's conclusion that approval of this proposed transaction would have no adverse effect on existing competition and only a slightly adverse effect on potential competition.

There is no evidence in the record indicating that consummation of either of the proposed transactions would result in any undue concentration of resources, unfair competition, unsound banking practices, or other adverse effects in the public interest. Approval of the acquisitions will make available to Great Acceptance and Pearce Colvin the financial and managerial resources of Applicant and enable them to better compete in their respective markets and to provide improved lending services.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the applications are hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[1] effective December 22, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-151 Filed 1-4-73;8:45 am]

FIRST STATE BANCSHARES CORP.

Order Approving Formation of Bank Holding Company

First State Bancshares Corp., Wellston, Mo., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 100 percent of the voting shares (less directors' qualifying shares) of First State Bank & Trust Co., Wellston, Mo. ("First State"), First North County Bank and Trust Co., Jennings, Mo. ("First North County"), and First Northwest Bank, St. Ann, Mo. ("First Northwest").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant was organized in 1970 for the purpose of becoming a multibank bank holding company with respect to the three proposed subsidiary banks. Consummation of the proposal herein would result in Applicant controlling approximately $193.7 million in deposits, representing 1.5 percent of total commercial bank deposits in the State, and Applicant would thereby become the 10th largest banking organization in Missouri.[1]

All three proposed subsidiary banks are located in the St. Louis banking market and the distance separating any two of them ranges between 4¾ and 11 miles. First State ($80.8 million in deposits) controls 1.42 percent of market deposits and ranks as the 12th largest of the 111 banks in the market; it is located on the fringe of the city limits of St. Louis in an area which has shown some economic decline in recent years. First North County ($81.1 million in deposits) controls 1.42 percent of market deposits, ranks as the 11th largest bank in the market, and is located in an area which has experienced considerable expansion in the past several years. First Northwest ($31.8 million in deposits) controls 0.56 percent of market deposits, ranks as the 53d largest bank in the market, and is also located in an area characterized by significant growth.

As indicated in the record, there is no significant existing competition between the three proposed subsidiary banks due, in part, to common shareholder control.[2] There is some overlap of service area among the subsidiary banks; however, because of the many alternative sources of banking services existing in the relevant market and in view of the long-standing affiliation between the banks, the effects of consummation of the proposal on existing competition will be insignificant. Further, in view of the strong affiliations, it appears unlikely that any substantial amount of future competition will develop. The Board concludes that consummation of this proposal would not have an adverse effect on competition between competing banks in the market nor on the concentration of banking resources.

The financial condition and managerial resources of Applicant and its proposed subsidiaries are generally satisfactory although the capital positions of the banks are somewhat low. Prospects of all are favorable in view of Applicant's proposal to add up to $4 million in equity capital to the subsidiaries and these consideraitons therefore lend weight toward approval. Considerations relating to the convenience and needs of the communities to be served are consistent with approval. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of St. Louis pursuant to delegated authority.

By order of the Board of Governors,[3] effective December 21, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

FLORIDA NATIONAL BANKS OF FLORIDA, INC.

Acquisition of Bank

DECEMBER 26, 1972.

Florida National Banks of Florida, Inc., Jacksonville, Fla., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 90 percent or more of the voting shares of Bank of Commerce of Florida, Fort Lauderdale, Fla. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than January 22, 1973.

Board of Governors of the Federal Reserve System, December 26, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

FRANK P. DOYLE TRUST ET AL.

Denial of Grandfather Privileges

Section 4 of the Bank Holding Company Act (12 U.S.C. 1843) provides certain privileges (grandfather privileges) with respect to nonbanking activities of a company that, by virtue of the 1970 Amendments to the Bank Holding Company Act, became subject to the Bank Holding Company Act. Pursuant to section 4(a)(2) of the Act, a "company covered in 1970" may continue to engage, either directly or through a subsidiary, in nonbanking activities that such a company was lawfully engaged in on June 30, 1968 (or on a date subsequent to June 30, 1968, in the case of activities carried on as a result of the acquisition by such company or subsidiary, pursuant to a binding written contract entered into on or before June 30, 1968, of another company engaged in such activities at the time of the acquisition), and has been continuously engaged in since June 30, 1968 (or such subsequent date).

Section 4(a)(2) of the Act provides, inter alia, that the Board of Governors of the Federal Reserve System may terminate such grandfather privileges if, having due regard to the purposes of the Act, the Board determines that such action is necessary to prevent undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices. With respect to a company that controls a bank with assets in excess of $60 million on or after December 31, 1970, the Board is required to make such a determination within a 2-year period.

Notice of the Board's review of nonbank activities and grandfather privileges of the companies listed below and opportunity for interested persons to submit comments and views or request a hearing, has been given.

Frank P. Doyle Trust, Article IX, Santa Rosa, Calif. (37 FR 21382).
Potomac Securities Corp., Silver Spring, Md. (37 FR 21382).
International Equities, Inc., New York, N.Y. (37 FR 21382).
Alexandria Shares Corp., Alexandria, Va. (37 FR 21382).
Virginia Bankshares, Inc., Richmond, Va. (37 FR 21382).
Marine Bancorporation, Seattle, Wash. (37 FR 21382).
The Hong Kong and Shanghai Banking Corp-Hong Kong (37 FR 22414).
First Bancorporation, Reno, Nev. (37 FR 22414).
Amalgamated Associates Co., Chicago, Ill. (37 FR 22414).
Amalgamated Investments Co., Chicago, Ill. (37 FR 22414).
First Highland Corp., Highland Park, Ill. (37 FR 22414).
Financial Network Corp., Milwaukee, Wis. (37 FR 22414).

The time for filing comments and views and requests has expired and all those received have been considered by the Board in the light of the factors set forth in section 4(a)(2) of the Act.

On the basis of the evidence before it, the Board finds that none of the companies named hereinabove, directly or indirectly, engaged on or before June 30, 1968, in nonbanking activities within the meaning of section 4 of the Bank Holding Company Act, other than nonbanking activities that appear to be exempt uder the provisions of section 4(c) of the Act. On this basis, no grandfather privileges under the proviso in section 4(a)(2) of the Act accrue to any of these companies.

Board of Governors of the Federal Reserve System, December 26, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-155 Filed 1-4-73;8:45 am]

MANUFACTURERS NATIONAL CORP.

Formation of Bank Holding Company

Manufacturers National Corp., Detroit, Mich., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Manufacturers National Bank of Detroit, Detroit, Mich. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than January 23, 1973.

Board of Governors of the Federal Reserve System, December 27, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.73-152 Filed 1-4-73;8:45 am]

SOUTHWEST BANCSHARES, INC.

Order Approving Acquisition of Bank

Southwest Bancshares, Inc., Houston, Tex., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Gulf Coast National Bank, Houston, Tex. (Bank). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the fifth largest banking organization and third largest multibank holding company in Texas, controls 10 banks with aggregate deposits of $1,188.4 million, representing approximately 4 percent of the total deposits of commercial banks in Texas. (All banking data are as of December 31, 1971, and reflect bank holding company acquisitions approved through November 1, 1972.) Applicant is the third largest banking organization in the Houston market with five subsidiary banks holding 11.2 percent of total deposits of commercial banks in that market. Applicant presently holds approximately 19 percent of the outstanding voting shares of Bank and the proposal herein to acquire virtually all of the remaining outstanding shares of Bank would increase applicant's control of commercial bank deposits in the Houston area by 0.2 percentage points and its ranking among commercial banks in that market and in the State would be unchanged.[1]

Bank ($12.4 million of deposits) ranks 81st in deposits among 149 commercial banks in the Houston market. Bank is located in a primarily residential area approximately 10 miles southwest of applicant's lead bank which is located in downtown Houston. Individuals closely associated with applicant's lead bank were instrumental in organizing Bank in 1959 and since its formation one or more officers or directors of applicant or its lead bank have served as a director of bank. Since Bank's formation, approximately 19 percent of the voting shares of Bank have been held by applicant or its trusted affiliate. In addition to applicant's direct share ownership, shareholders common to applicant and Bank hold approximately 35 percent of the outstanding voting shares of Bank. The proposal herein represents a strengthening of existing interests rather than the acquisition of an independent competing bank. In view of applicant's significant holdings, the substantial common shareholder ties and the continued close relationship between applicant and Bank, the prospect of disaffiliation appears remote. Moreover, in view of the relatively small size of Bank, its localized service area, and the presence of a number of intervening banks, it appears that consummation of applicant's proposal would not eliminate any meaningful existing or future competition between Bank and any of applicant's subsidiary banks. Nor would consummation of this proposal raise barriers to entry by other bank holding companies into the expanding Houston market because of the large number of unaffiliated banks which will remain in this area after this transaction.

---

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, and Sheehan. Absent and not voting: Governor Bucher.

[1] Bank deposit data are as of June 30, 1972.

[2] For several years, the three subsidiary banks have advertised and operated as a group known as the "First Family of Banks." Since 1961, stockholders owning a majority of the common stock of First State also own a majority of the common stock of First North County. In 1965, First State acquired 50 percent ownership of the outstanding shares of First Northwest at the time of the formation of that bank. (First State is a nonmember bank.) Affiliation of the three banks is expected to continue regardless of Board action on this application.

[3] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, Sheehan, and Bucher.

[1] In addition to its 10 subsidiary banks and its share ownership of Bank, applicant holds approximately 20 percent of the outstanding voting shares of Commerce State Bank, Houston, Tex. ($20 million of deposits). Applicant's minority interest of 24.7 percent of the voting shares of Kilgore National Bank, Kilgore, Tex., has recently been liquidated. Applicant has also filed for the Board's approval of an application to acquire Houston Intercontinental National Bank, Houston, Tex.

V38-3 JAN 5 73 XUM

On the record before it, the Board concludes that consummation of applicant's proposal would not result in a monopoly nor be in furtherance of any combination, conspiracy, or attempt to monopolize the business of banking in any area, nor have any substantially anticompetitive effect.

The financial condition and managerial resources of applicant and its subsidiaries appear satisfactory and future prospects of all seem favorable. The financial condition, management resources and prospects of Bank, as a subsidiary of applicant, appear consistent with approval of this application. Soon after acquisition, applicant has agreed to strengthen the somewhat low capital position of Bank through the immediate addition of capital funds. Although the banking needs of residents of Bank's service area are adequately served by existing institutions operating in that market, provision of the varied range of banking services available through applicant in Bank's service area should contribute positively to the convenience and needs of the communities served by Bank and, therefore, these considerations are consistent with approval of this application.

It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this Order or (b) later than 3 months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[2] effective December 21, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-154 Filed 1-4-73;8:45 am]

SUMITOMO BANK, LTD. ET AL.

Entitlement to Grandfather Privileges

Section 4 of the Bank Holding Company Act (12 U.S.C. 1843) provides certain privileges (grandfather privileges) with respect to nonbanking activities of a company that, by virtue of the 1970 Amendments to the Bank Holding Company Act, became subject to the Bank Holding Company Act. Pursuant to section 4(a)(2) of the Act, a "company covered in 1970" may continue to engage, either directly or through a subsidiary, in nonbanking activities that such a company was lawfully engaged in on June 30, 1968 (or on a date subsequent to June 30, 1968, in the case of activities carried on as a result of the acquisition by such company or subsidiary, pursuant to a binding written contract entered into on or before June 30, 1968, of another company engaged in such activities at the time of the acquisition), and has been continuously engaged in since June 30, 1968 (or such subsequent date).

Section 4(a)(2) of the Act provides, inter alia, that the Board of Governors of the Federal Reserve System may terminate such grandfather privileges if, having due regard to the purposes of the Act, the Board determines that such action is necessary to prevent undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices. With respect to a company that controls a bank with assets in excess of $60 million on or after December 31, 1970, the Board is required to make such a determination within a 2-year period.

Notice of the Board's review of nonbank activities and the grandfather privileges of the companies listed below and opportunity for interested persons to submit comments and views or request a hearing has been given.

Sumitomo Bank, Ltd., Osaka, Japan (37 FR 21382).
Hopeton Holding Corp., Wilmington, Del. (37 FR 21382).

SECURITIES AND EXCHANGE COMMISSION

AFFILIATED FUND, INC.

[812-3332]

Notice of Filing of Application for Order Exempting Sale of Shares at Other Than Public Offering Price

DECEMBER 27, 1972.

Notice is hereby given that Affiliated Fund, Inc., 63 Wall Street, New York, NY 10005 (Applicant), a Delaware corporation, registered under the Investment Company Act of 1940 (Act) as an open-end diversified management investment company, has filed an application pursuant to section 6(c) of the Act requesting an order of the Commission exempting from the provisions of section 22(d) of the Act a transaction in which Applicant's redeemable securities will be issued at a price other than the current public offering price described in the prospectus in exchange for substantially all of the assets of the Carlou Company ("Carlou"). All interested persons are referred to the application on file with the Commission for a statement of Applicant's representations, which are summarized below.

Carlou, a Delaware corporation, is a private investment company all of the outstanding stock of which is beneficially owned by 82 persons and is exempt son of the provisions of section 3(c)(1) thereof. Carlou was incorporated in September 1940 as an investment company and has, at all times, been engaged primarily in the business of investing and reinvesting its funds. Pursuant to an Agreement entered into between Applicant and Carlou on October 27, 1972, substantially all of the cash and securities owned by Carlou, with a market value of approximately $2,296,000 as of October 19, 1972, will be transferred to Applicant in exchange for shares of its capital stock. The number of shares of Applicant's capital stock to be issued is to be determined by dividing the aggregate market value (with certain adjustments as set forth in detail in the application) of the assets of Carlou to be transferred to Applicant by the net asset value (with certain adjustments as set forth in detail in the application) of the assets of Carlou to be transferred to Applicant by the net asset value per share of Applicant both to be determined as of a valuation time, as defined in the Agreement. Applicant intends to sell, after acquisition thereof, securities of Carlou having a market value on October 19, 1972, of $389,943, which represented approximately 17 percent of the total market value of Carlou's assets on that date. The remainder of the assets of Carlou will be retained in Applicant's portfolio.

When received by Carlou, the shares of Applicant, which are registered under the Securities Act of 1933, are to be distributed to Carlou's stockholders on the liquidation of Carlou. Since the exchange is expected, to be tax-free for Carlou and its stockholders, Affiliated's cost-basis for tax purposes for the assets acquired from Carlou will be the same as Carlou's cost-basis, rather than the price actually paid by Affiliated for the assets. Each stockholder of Carlou will represent that he has no present intention of redeeming or transferring any of the Applicant's shares following the proposed transaction.

If applicable, an adjustment to the aggregate market value of the assets of Carlou to be acquired will be made on the following basis: (i) An amount equal to the difference between the net unrealized taxable capital gain on those securities of Carlou which Affiliated shall have advised Carlou that it is Affiliated's intention to sell after the acquisition in order to realign its investment portfolio and the portion of the realized but undistributed taxable long term capital gain of Affiliated allocable to the aggregate shares of Affiliated to be issued to Carlou shall be determined: (ii) an amount equal to the difference between the net unrealized taxable capital gain on those securities of Carlou to be acquired and held by Affiliated and the portion of the net unrealized taxable capital gain of Affiliated determined on a pro forma basis given effect to the acquisition of the assets of Carlou allocable to the aggregate shares of Affiliated to be issued to Carlou shall be determined: and (iii) the amount computed under (i) above shall be increased by the amount, if positive, or decreased by 50 percent of the amount, if negative, computed under (ii) above and 10 percent of the resulting amount, if positive, shall be applied to reduce the value of the assets of Carlou to be acquired. If the valuation under the Agreement had taken place on October 19, 1972, when the net asset value of Applicant's stock was $6.97 per share, Carlou would have received 309,611.361 shares of Applicant's stock.

There is no affiliation between Applicant and Carlou. Carlou is not an affiliated person of any affiliated person of Applicant, and the agreement was negotiated at arm's length by the two companies. Applicant's Board of Directors approved the agreement as being in the best interests of its shareholders, taking all revelant considerations into account including, among others, that Applicant will be able to acquire at one time additions to its portfolio securities without affecting the market in those securities and without incurring brokerage commissions and that the resulting net increase in assets will tend to reduce per share expenses.

The exchange contemplated by the agreement would be prohibited by section 22(d) because it would constitute a sale of a redeemable security by a registered investment company at a price other than a current offering price described in the prospectus, unless exempted by an order under section 6(c) of the Act.

Section 22(d) of the Act provides that registered investment companies issuing redeemable securities may sell their shares only at the current public offering price as described in the prospectus. Section 6(c) of the Act permits the Commission, upon application, to exempt such a transaction if it finds that such an exemption is necessary or appropriate in public interest and consistent with protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than January 12, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or, in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing, if ordered, and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

JOHN HANCOCK MUTUAL LIFE INSURANCE CO. AND JOHN HANCOCK VARIABLE ACCOUNT C

Application for Exemption

DECEMBER 29, 1972.

Notice is hereby given that John Hancock Variable Account C (Account C), a diversified, open end management investment company registered under the Investment Company Act of 1940, as amended (Act), and John Hancock Mutual Life Insurance Co. (John Hancock), Hancock Place, Boston, Mass. 02117, a mutual life insurance company incorporated under the laws of the State of Massachusetts (hereinafter collectively called "Applicants"), have filed an application pursuant to section 6(c) of the Act for an order of the Commission exempting applicants, to the extent noted below, from the provisions of sections 22(d), 27(c)(2), 17(f), and Rule 17f-2 thereunder. John Hancock established Account C pursuant to section 132G of Chapter 175 of the Massachusetts General Laws, as amended, to afford a medium for equity investments for certain variable annuity contracts to be issued by John Hancock. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Variable annuity contracts (the Contracts) offered for sale by John Hancock, as principal underwriter of Account C, may be Single Payment Immediate or Deferred Contracts (hereinafter collectively called "Single Payment Contracts") or Periodic Payment Deferred Contracts (Periodic Payment Contracts). In the case of all Contracts, John Hancock will make deductions from purchase payments for sales and administrative expenses based on the amount of the purchase payment and, in the case of Deferred Contracts, there will also be a charge for the minimum death benefit. Under Single Payment Contracts the maximum deduction from the purchase payments for sales expenses will be 5 percent, the administrative expense deduction will be $75 plus a maximum of 2 percent of the purchase payment, and with respect to the Single Payment Deferred Contract, there will be a deduction of 0.5 percent of the purchase payment for the minimum death benefit. The sales expense under the Periodic Payment Contracts will equal 12.5 percent for every purchase payment during the first contract year, 4.5 percent of the purchase payment made during the second through 10th years, and 3.5 percent of the purchase payment made with respect to the 11th and following years. Administrative expenses and minimum death benefit deductions, respectively, will be 2 percent and 0.5 percent of every purchase payment no matter when made.

Applicants request exemptions from the following provisions of the Act to the extent set forth below:

Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter shall sell any redeemable security to the public except at a current offering price described in the prospectus. This section has been construed to prohibit variations in the sales load except as permitted by rule or order.

Exemption is requested from the provisions of section 22(d) of the Act to enable John Hancock to afford beneficiaries designated under Deferred Contracts the right, without the imposition of any sales load or other charge, to elect an Annuity Option, in lieu of receiving a single sum with respect to the minimum death benefit. Exemption is further requested to enable John Hancock to permit holders of fixed-dollar insurance policies and annuity contracts issued by John Hancock (hereinafter collectively called "fixed dollar policies") to apply amounts payable under such fixed dollar policies (in the form of maturity benefits, cash surrender values, sums due under optional methods of settlement and the like) to the purchase of Single Payment Contracts with a deduction for sales expenses of one-half the normal deduction and the regular deduction for administrative expenses and for the minimum death benefit, but without the fixed $75 administrative expense charge.

Applicants assert that in affording beneficiaries of minimum death benefits the opportunity to elect an Annuity Option from the proceeds of such benefits, there is no significant selling expense incurred by John Hancock. Applicants also assert that persons who purchase contracts with insurance or annuity proceeds of fixed dollar policies will have already incurred a charge for sales expenses in connection with such fixed dollar policies that is larger than the sales expense deduction applicable to purchase payments under the Single Payment Contracts. It is also represented that a deduction of only one-half of the normal charge more appropriately reflects the selling effort and expense involved in these circumstances.

Section 27(c)(2) of the Act prohibits a registered investment company or a depositor or underwriter for such company from selling periodic payment plan certificates unless the proceeds of all payments, other than the sales load, are deposited with a bank as trustee or custodian and held under an indenture or agreement containing, in substance, the provisions required by sections 26(a)(2) and (3) for trust indentures of a unit investment trust.

Applicants assert that all purchase payments received under the Contracts, after deductions for sales and administrative expenses, are to be applied or held for later application to the purchase of investments for Account C, of which John Hancock will have custody as owner and not as trustee. Exemption is requested from section 27(c)(2) to permit all purchase payments received under the Contracts to be held and applied by John Hancock in the manner set forth in its Management Agreement which requires, in part, that moneys received for the account be deposited in one or more cash accounts identified as assets of the account maintained in one or more banks which will have the qualifications prescribed in paragraph (1) of section 26(a) of the Act for trustees of unit investment trusts, but which banks will not act as trustee or custodian, or under an indenture or agreement meeting the requirements in sections 26(a)(2) and (3).

Section 17(f) of the Act provides, in pertinent part, that every registered

management company shall place and maintain its securities and similar investments in the custody of: (1) A bank having the qualifications prescribed in paragraph 1 of section 26(a) for trustees of unit investment trusts; (2) a company which is a member of a national securities exchange as defined in the Securities Exchange Act of 1934; or (3) such registered company, but only in accordance with such rules and regulations or orders as the Commission may from time to time prescribe for the protection of investors. Rule 17f-2 provides, among other things, that such assets be placed in a bank subject to the requirements of the rule, one of which limits the persons who shall have access to such assets to only certain specific individuals.

Applicants request an exemption from the provisions of section 17(f) and Rule 17f-2 to the extent necessary to permit the securities and similar investments of Account C to be placed and maintained in the custody of John Hancock in its vault located at its home office in Boston, Mass.

In support of their requested exemptions from section 27(c)(2), section 17(f) and Rule 17f-2 thereunder, Applicants state that John Hancock is subject to extensive supervision and regulation by the Commissioner of Insurance of Massachusetts, and to the applicable insurance laws in the other jurisdictions in which John Hancock does an insurance business. In addition, under Massachusetts law, John Hancock cannot abandon its obligations to Contract owners or annuitants until they have been fully discharged, and the assets of Account C, equal to the reserves and other liabilities under the Contracts, are not chargeable with liabilities arising out of any other business that John Hancock may conduct. It is also represented that John Hancock's vault is similar or superior in every respect to the vaults of most banks and that John Hancock maintains within it securities and other investments having a value in excess of $4 billion. In addition, the supervisory functions of the Massachusetts Commissioner of Insurance include periodic inspections of John Hancock's vault and examination of every aspect of John Hancock's operations. Applicants further state that Account C's investments will be physically segregated at all times from the other assets of John Hancock, that its securities may be withdrawn only for certain purposes, that its investments will at all times be subject to inspection by the Commission, that each person depositing or withdrawing investments will sign a notation in respect thereof, and that only certain designated persons will have access to the securities and other investments in Account C as follows: (1) Two or more jointly of the not more than 10 officers or responsible employees of Account C or of John Hancock designated pursuant to a resolution of the Board of Managers of Account C; (2) properly authorized officers and employees of John Hancock; (3) for the purposes of verification, audit, and examination, independent public accountants jointly with any of the persons designated above; and (4) authorized employees or agents of the State insurance regulatory authorities.

Section 6(c) authorizes the Commission upon application to conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from the provisions of the Act or the rules and regulations promulgated thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants have consented that any order granting the requested exemption from section 27(c)(2) may be made subject to the conditions: (1) That the charges under the Contracts for administrative services shall not exceed such reasonable amounts as the Commission shall prescribe, jurisdiction being reserved to the Commission for such purpose, and (2) that the payment of sums and charges out of the assets of Account C shall not be deemed to be exempted from regulation by the Commission by reason of the requested order: *Provided*, That the Applicants' consent to this condition shall not be deemed to be a concession to the Commission of authority to regulate the payments of sums and charges out of such assets other than charges for administrative services, and Applicants reserve the right in any proceeding before the Commission or in any suit or action in any court to assert that the Commission has no authority to regulate the payment of such other sums or charges.

Notice is hereby given that any interested person may not later than January 23, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted; or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[812-2815]

TINTIC STANDARD MINING CO.

Filing of Application

DECEMBER 29, 1972.

Notice is hereby given that Tintic Standard Mining Co. (Applicant), 1112 Walker Bank Building, Salt Lake City, Utah, 84111, organized under the laws of the State of Utah, has filed an application for an order of the Commission, pursuant to section 3(b)(2) of the Investment Company Act of 1940 (Act), declaring that it is primarily engaged in a business other than that of investing, reinvesting, owning, holding, or trading in securities, either directly or through majority owned subsidiaries or through controlled companies conducting similar types of businesses. In the alternative, Applicant requests an order pursuant to section 6(c) exempting it and its affiliates from all provisions of the Act. All interested persons are referred to the application and amendments thereto on file with the Commission for a statement of the representations set forth therein which are summarized below.

Applicant was organized in 1907 to develop mining properties in Utah. Since then it has been primarily engaged in the mining business and, since 1953, to a lesser degree, it has also been engaged in the business of acquiring interests in oil and gas properties and their exploration and development. In 1913, it discovered several large silver and lead ore bodies in the East Tintic area of Utah. There were other companies owning mining claims adjacent or near to its properties and it acquired a majority stock interest in those companies to control as much of the potential ore bodies as possible and it still owns a majority of the stock of those companies. From 1913 to 1950, approximately $80 million in value of silver and lead ores were mined and marketed from the East Tintic area by Applicant. Other potential ore bodies exist in the same area but because of the large amount of capital required to further explore and develop them, Applicant and all of the companies owning properties in the area, including Applicant's subsidiaries, entered into a lease with Bear Creek Mining Co., now Kennecott Copper Corp. (Kennecott), for the further exploration and development of the area and Kennecott is now operating the properties under that lease.

In 1953, after Banner Mining Co., a Nevada corporation (Banner), had made what appeared to be a substantial copper ore discovery near Tucson, Ariz., Applicant, in order to participate in the development and operations of Banner, purchased approximately 12 percent of the Banner stock and to aid in its participation in Banner, it caused its affiliate, U-Tex Oil Company, a Utah corporation controlled by Applicant's president ("U-Tex"), to acquire a substantial block of the Banner stock.

Total adjusted assets of Applicant on December 31, 1971, were $12,132,738, of which $11,830,000 consisted of Banner stock, or approximately 97 percent of total adjusted assets. Since the value of the Banner stock exceeds 40 percent of the value of Applicant's total assets, Applicant concedes that it is within the provisions of section 3(a)(3) of the Act which defines investment company status.

Applicant represents that it exercises control over the operations and management of Banner and in support of that contention, states that: it is the owner of 788,664 shares or 11.33 percent of Banner's stock; its directors own an aggregate of 716,315 shares or 10.29 percent; and U-Tex, the said affiliate of Applicant, owns 568,785 shares or 8.7 percent, making an aggregate ownership by Applicant, its directors and its affiliate of 29.79 percent of the outstanding shares of Banner. To further substantiate its claim of control of Banner, Applicant states that: it is the largest single shareholder of Banner; five of its directors serve on the present nine-man Banner Board; three of Applicant's directors are members of Banner's present four-man executive committee; the president of Banner is a member of Applicant's Board; and Applicant's president and the members of its board who are on the Banner Board actively participate in all of the significant decisions and important policies with respect to the operations of Banner. Applicant states that the only other shareholder owning more than 10 percent of the outstanding stock of Banner is Rico Argentine Mining Co., which owns approximately 10.51 percent of the total outstanding stock.

Applicant states that it now is and has been since its organization engaged primarily in the mining business through its direct participation in such business, through its majority controlled subsidiaries and through its control of Banner. Applicant claims that it does not now and has never been engaged in the business of investing, reinvesting or trading in securities. It claims that it has never held itself out to be engaged in the investment business and its directors and officers are not qualified to nor do they act or purport to act as investment advisers. During the past 20 years it has participated in only 45 transactions involving the purchase or sale of stock in other companies, including Banner.

Applicant also states that a proposed plan of reorganization and merger (filed as exhibits to the application) has been agreed upon, in principle, between it and American Climax, Inc., a New York corporation (Amax), for the merger of Applicant into Amax Cooper Mines, Inc. (ACM), a wholly owned subsidiary of Amax, whereby each share of Applicant will be exchanged for and converted into 0.1236 of a share of Amax Series B Convertible Preferred Stock and that if the merger is consummated, Applicant's corporate existence will end.

Section 3(a)(3) of the Act defines as an investment company any issuer which is engaged, or proposes to engage, in the business of investing, reinvesting, owning, holding, or trading in securities, and owns or proposes to acquire investment securities having a value exceeding 40 percent of the value of such issuer's total assets (exclusive of Government securities and cash items) on an unconsolidated basis.

Section 3(b)(2) of the Act, among other things, excepts from the definition of an investment company in section 3(a)(3), any issuer which the Commission finds and by order declares to be primarily engaged in a business other than that of investing, reinvesting, owning, holding or trading in securities, either directly through majority owned subsidiaries, or through controlled companies conducting similar types of businesses.

Section 6(c) of the Act provides that the Commission may conditionally or unconditionally exempt any person or transaction from any provisions of the Act if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than January 19, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

CALIFORNIA DEVELOPMENTAL PLAN

Notice of Submission of Plan and Availability for Public Comment

1. *Submission and description of plan.* Pursuant to section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) and 29 CFR 1902.11 setting forth the method whereby States may assume responsibility for the development and enforcement therein of occupational safety and health standards, notice is hereby given that a developmental occupational safety and health plan has been submitted by the State of California and that on the basis of a preliminary review of the plan the issue of its approval is now under consideration.

The plan involves making those changes in the attributes of the State's current occupational safety and health program that appear necessary to bring it into full conformity with the requirements of section 18(c) of the Act and 29 CFR Part 1902.

The State's program would be enforced by the Division of Industrial Safety of the Department of Industrial Relations of the California Agriculture and Service Agency. Current safety and health standards would be continued unless amended by the State's Occupational Safety and Health Standards Board. Appeals from the granting or denial of requests for variances will also come within the jurisdiction of this Board. Administrative adjudications will be the responsibility of a newly created Occupational Safety and Health Appeals Board.

It is contemplated that enabling legislation will be passed during 1973 and that within 1 year thereafter the plan will be administratively implemented and necessary changes in standards will be effected making it fully operational.

The State program is expected to extend its protection to all employees in the State except those employed by Federal agencies, maritime workers, household domestic service workers, and railroad workers not employed in railroad shops.

2. *Location of plan for inspection and copying.* A copy of the plan may be inspected and copied during normal business hours at the following locations: Office of Federal and State Operations, OSHA, Room 305, 400 First Street NW., Washington, DC 20210; Regional Office, OSHA, Room 9470, Federal Office Building, 450 Golden Gate Avenue, San Francisco, CA 94102; Agriculture and Services Agency, 1220 N Street, Room 114, Sacramento, CA 95814; Department of Industrial Relations, 455 Golden Gate Avenue, Room 999, San Francisco, CA 94102; and Division of Industrial Safety, 3460 Wilshire Boulevard, Room 916, Los Angeles, CA 90010.

3. *Public participation.* Interested persons are hereby given until February 5, 1973, in which to submit written data, views, and arguments concerning the plan. Such requests or submissions are to be addressed to the Director of Federal and State Operations, Room 408, 400 First Street NW., Washington, DC 20210. The written comments will be available for public inspection and copying at this address.

Copies of pages from the plan or of written comments received with respect thereto will be provided in accordance with the general Department of Labor fee schedule (29 CFR 70.62(a)).

Any interested person may request a hearing concerning the proposed plan, or any part thereof, whenever particularized written objections thereto are filed within the time allowed for comments specified above. If it is found that substantial objections are filed, a formal or informal hearing on the subjects and issues involved shall be held.

After consideration has been given to all material submitted a final decision

V 38 - 3 JAN 5 73 XUM

as to the approval or disapproval of the plan will be issued.

Signed at Washington, D.C., this 31st day of December 1972.

CHAINN ROBBINS,
Acting Assistant Secretary of Labor.

[FR Doc.73-284 Filed 1-4-73;8:45 am]

Office of the Secretary

HAWAII

Notice of Termination of Extended Unemployment Compensation

The Federal-State Extended Unemployment Compensation Act of 1970, Title II of Public Law 91-373, establishes a program of payment to unemployed workers who have received all of the regular compensation to which they are entitled, commencing when unemployment is high (according to indicators set forth in the law) and terminating when unemployment ceases to be high (according to indicators set forth in the law). Pursuant to section 203(b)(2) of the Act, notice is hereby given that Robert K. Hasegawa, Director, Labor and Industrial Relations, State of Hawaii, has determined that there was a State "off" indicator in Hawaii for the week ending November 11, 1972 and that an extended benefit period terminated in the State with the week ending December 2, 1972.

Signed at Washington, D.C., this 29th day of December, 1972.

J. D. HODGSON,
Secretary of Labor.

Wage and Hour Division

CERTIFICATES AUTHORIZING THE EMPLOYMENT OF FULL-TIME STUDENTS WORKING OUTSIDE OF SCHOOL HOURS AT SPECIAL MINIMUM WAGES IN RETAIL OR SERVICE ESTABLISHMENTS OR IN AGRICULTURE

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulation on employment of full-time students (29 CFR, Part 519), and Administrative Order No. 621 (36 FR 12819), the establishments listed in this notice have been issued special certificates authorizing the employment of full-time students working outside of school hours at hourly rates lower than the minimum wage rates otherwise applicable under section 6 of the act. While effective and expiration dates are shown for those certificates issued for less than a year, only the expiration dates are shown for certificates issued for a year. The minimum certificate rates are not less than 85 percent of the applicable statutory minimum.

The following certificates provide for an allowance not to exceed the proportion of the total hours worked by full-time students at rates below $1 an hour to the total number of hours worked by all employees in the establishment during the base period in occupations of the same general classes in which the establishment employed full-time students at wages below $1 an hour in the base year; or provide the same standards authorized in certificates previously issued to the establishment.

Each certificate has been issued upon the representations of the employer which, among other things, were that employment of full-time students at special minimum rates is necessary to prevent curtailment of opportunities for employment, and the hiring of full-time students at special minimum rates will not create a substantial probability of reducing the full-time employment opportunities of persons other than those employed under a certificate. The certificate may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may

V38-3 JAN 5 73 3 XUM

seek a review or reconsideration thereof within 30 days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 519.9.

Signed at Washington, D.C., this 21st day of December 1972.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 2, 1973.

The following are notices of filing of applications[1], for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

[1] Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MOTOR CARRIERS OF PROPERTY

No. MC 107064 (Sub-No. 91 TA), filed December 19, 1972. Applicant: STEERE TANK LINES, INC., Post Office Box 2998, 2808 Fairmount Street, 75201, Dallas, TX 75221. Applicant's representative: Hugh T. Matthews, 630 Fidelity Union Tower, Dallas, TX 75201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fuel oil*, from Wynnewood, Okla., to points in Texas, for 180 days. NOTE: Carrier does not intend to tack authority. Supporting shipper: Lone Star Producing Co., 301 South Harwood Street, Dallas, TX 75201. Send protests to: District Supervisor E. K. Willis, Jr., Bureau of Operations, Interstate Commerce Commission, 1100 Commerce Street, Room 13C12, Dallas, TX 75202.

No. MC 110420 (Sub-No. 670 TA), filed December 14, 1972. Applicant: QUALITY CARRIERS, INC., Pleasant Prairie, Wis., Mail: Post Office Box 186, 53158, Office: I-94 County Highway C, Bristol Kenosha County, WI 53104. Applicant's representative: Fred H. Figge (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Antibiotic residues*, liquid, in bulk, in tank vehicles, from Terre Haute, Ind., to St. Paul, Minn., for 180 days. Supporting shipper: Knappen Molasses, 13550 Indiana, Riverdale, IL (Joseph B. Decker III, Traffic Manager). Send protests to: District Supervisor John E. Ryden, Bureau of Operations, Interstate Commerce Commission, 135 West Wells Street, Room 807, Milwaukee, WI 53203.

No. MC 110563 (Sub-No. 96 TA), filed December 12, 1972. Applicant: COLDWAY FOOD EXPRESS, INC., 113 North Ohio Avenue, Ohio Building, Sidney, OH 45365. Applicant's representative: John L. Maurer (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cheese and dairy products*, from Newman Grove, Nebr., to points in Michigan, Ohio, Indiana, Pennsylvania, New Jersey, and New York, for 180 days. Supporting shipper: Mid-West Producers' Creameries, Inc., 224 West Jefferson Boulevard, South Bend, IN 46601. Send protests to: Keith D. Warner, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 313 Federal Office Building, 234 Summit Street, Toledo, OH 43604.

No. MC 111170 (Sub-No. 198 TA), filed December 18, 1972. Applicant: WHEELING PIPE LINE, INC., Post Office Box 1718, 2811 North West Avenue, El Dorado, AR 71730. Applicant's representative: Tom Moore (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Weed killing compound*, in bulk, from Jacksonville, Ark., to Grand Fork, N. Dak., for 180 days. Supporting shipper: Transvaal, Inc., Post Office Box 69, Jacksonville, AR 72076. Send protests to: District Supervisor William H. Land, Jr., Bureau of Operations, Interstate Commerce Commission, 2519 Federal Office Building, 700 West Capitol, Little Rock, AR 72201.

No. MC 125168 (Sub-No. 26 TA), filed December 19, 1972. Applicant: OIL TANK LINES, INC., Hook Road and Darby Creek, Post Office Box 190, Darby, PA 19023. Applicant's representative: R. H. Davis (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products* (excluding petrochemicals), in bulk, in tank vehicles, from Bayonne and Bayway, N.J., to Falling Rock, W. Va., and between Pittsburgh, Pa., and Falling Rock, W. Va., for 180 days. Supporting shipper: Pennzoil Co., Drake Building, Oil City, Pa. 16301. Send protests to: Peter R. Guman, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 1600, 1518 Walnut Street, Philadelphia, PA 19102.

No. MC 125996 (Sub-No. 31 TA), filed December 18, 1972. Applicant: ROAD RUNNER TRUCKING, INC., 7728 F Street, Post Office Box 37491, Omaha, NE 68137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Onion rings, chopped onions, egg plant*, breaded, precooked, frozen, from Grand Island and York, Nebr., to points in Arizona, California, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia, for 180 days. Supporting shipper: Delicious Foods Co., Grand Island, Nebr. Send protests to: Carroll Russell, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 711 Federal Office Building, Omaha, Nebr. 68102.

No. MC 127100 (Sub-No. 10 TA), filed December 13, 1972. Applicant: B & B MOTOR LINES, INC., 911 Summit Street, Toledo, OH 43604. Applicant's representative: Earl F. Boxell, 9th Floor, Toledo Building, Toledo, Ohio 43604. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages* (beer and ale) in containers, from Chicago, Ill., to Toledo, Ohio; and *empty containers on return trip*, from Toledo, Ohio, to Chicago, Ill., for 90 days. Supporting shipper: Metropolitan Distributing Co., Toledo, Ohio. Send protests to: Keith D. Warner, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 313 Federal Office Building, 234 Summit Street, Toledo, OH 43604.

No. MC 129870 (Sub-No. 9 TA), filed December 18, 1972. Applicant: GAS INCORPORATED, 95 East Merrimack Street, Lowell, MA 01853. Applicant's representative: John Pacinda (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Liquid methane*, in bulk, in tank vehicles, from Carlstadt, N.J., to Holbrook, N.Y., for 180 days. Supporting shipper: Long Island Lighting Co., 250 Old Country Road, Mineola, NY 11501. Send protests to: G. Warren Flynn, Transportation Specialist, Bureau of Operations, Interstate Commerce Commission, Analex Building, Fifth Floor, 150 Causeway Street, Boston, MA 02114.

No. MC 136956 (Sub-No. 3 TA), filed December 18, 1972. Applicant: ROYAL TRANSPORTS, INC., Post Office Box 1451, Kansas City, KS 66117. Applicant's representative: J. Max Harding, Post Office Box 82028, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fuel oil*, in bulk, in tank vehicles, from the refinery and distribution facilities of Phillips Petroleum Co., at Kansas City, Kans., to points in Jackson, Clay and Buchanan Counties, Mo., under continuing contract or contracts with Consolidated Fuel Oil Co., Inc., Kansas City, Kans., for 180 days. Supporting shipper: Consolidated Fuel Oil Co., Inc., 462 East Donovan Road, Kansas City, KS. Send protests to: Vernon V. Coble, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 600 Federal Building, 911 Walnut Street, Kansas City, MO 64106.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[Notice 190]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73954. By order of December 13, 1972, the Motor Carrier Board on reconsideration approved the transfer to W. A. Barnes Trucking Co., Inc., Stoney Creek, Va., of the operating rights in Permit No. MC-29748 (Sub-No. 3) issued October 15, 1971, to Direct Transport, Inc., Richmond, Va., authorizing the transportation of lumber, from Richmond, Va., and points in Virginia within 60 miles of Richmond, to points in Maryland, Delaware, New Jersey, and that part of Pennsylvania within 90 miles of Reading, Pa., including Reading, and the District of Columbia. T. Taylor Cralle, 220 North Sycamore, Petersburg, VA 23803, Attorney for applicants.

No. MC-FC-73982. By order of November 30, 1972, the Motor Carrier Board approved the transfer to Vatter Trucking Co., a corporation, Cincinnati, Ohio, of the operating rights in Certificate No. MC-106438 and Permit No. MC-133134 issued September 1, 1964, and April 1, 1969, respectively, to Walter E. Vatter, doing business as Vatter Trucking Co., Cincinnati, Ohio, authorizing transportation (a) as a motor common carrier, of household appliances, air conditioning and refrigeration units, and materials and supplies used in the installation thereof, between Cincinnati, Ohio, and points in Indiana, Kentucky, and Ohio within 25 miles of Cincinnati, Ohio; and (b) as a motor contract carrier, of such merchandise as is dealt in by retail department stores, and materials, equipment, and supplies used in the conduct of such business, for McAlpin Co., of Cincinnati, Ohio, between Middletown and Cincinnati, Ohio, and points in Union Township, Clermont County, Ohio, on the one hand, and, on the other, points in Boone County, Ky., and Lexington, Ky. *Dual operations were approved.* James W. Muldoon, 50 West Broad Street, Columbus, OH 43215, Attorney for applicants.

No. MC-FC-73989. By order of December 4, 1972, the Motor Carrier Board approved the transfer to Custom Motor Freight, Inc., Columbus, Ohio, of the operating rights in Certificate No. MC-14552 (Sub-No. 35) issued July 16, 1970, to J. V. McNicholas Transfer Co., a corporation, Youngstown, Ohio, authorizing the transportation of prefabricated steel, from Bellefontaine, Ohio, to points in Illinois (except points on and south of U.S. Highway 36), Indiana, Kentucky, Michigan (except points on and south of U.S. Highway 21), Pennsylvania (except points in the Sharon, Pa., Commercial Zone as defined by the Commission), and West Virginia. The operations authorized herein are restricted to the transportation of traffic originating at the plant site and warehouse facilities of Carter Steel and Fabricating Co. at Bellefontaine, Ohio. Paul F. Berry, Suite 1660, 88 East Broad Street, Columbus, OH 43215, Attorney for applicants.

No. MC-FC-74041. By order of December 15, 1972, the Motor Carrier Board approved the transfer to B & L Trucking, Inc., Minneapolis, Minn., of Certificates No. MC-45134 and MC-45134 Subs 3, 4, and 7, issued September 12, 1957, March 12, 1959, August 29, 1963, and January

V 38 - 3 JAN 5 73 XUM

28, 1972, respectively, to Collins Truck Line, Inc., Minneapolis, Minn., authorizing the transportation of: general commodities from St. Paul, Minn., to Grand Forks, N. Dak.; manufactured fertilizer, dry, in bags, serving Pine Bend, Minn., and Valley Park, Minn., as offroute points in connection with carrier's authorized regular-route general commodity operation from Minneapolis and St. Paul, Minn., and petroleum and petroleum products, gasoline additives, antifreeze, in containers, and tires, batteries, and service station accessories and supplies, except in bulk, from the plant site and storage facilities of Mobile Oil Corp. in the St. Paul-Minneapolis, Minn., Commercial Zone, as defined, to points in Montana. James S. Holmes, 2014 IDS Center, 80 South Eighth Street, Minneapolis, MN, Applicants' representative.

No. MC–FC–74057. By order of December 11, 1972, the Motor Carrier Board approved the transfer to Vern Rowley, Inc., doing business as Vern's Conoco, Lehi, Utah, of the operating rights in Certificate No. MC–123605 issued November 28, 1961, to Jack H. Christensen, doing business as Jack's 24 Hour Wrecker Service, Spanish Fork, Utah, authorizing the transportation of wrecked or disabled motor vehicles, except passenger automobiles, in truck-away service by means of heavy duty wrecker equipment only, between points in Davis, Salt Lake, and Weber Counties, Utah, on the one hand, and, on the other, points in Arizona, Colorado, Idaho, Montana, Nevada, Utah, and Wyoming. Irene Warr, 430 Judge Building, Salt Lake City, Utah 84111, Attorney for applicants.

No. MC–FC–74083. By order of December 1, 1972, the Motor Carrier Board approved the transfer to H. E. Rohrer, Inc., doing business as Rohrer Bus Service, Duncannon, Pa., of Certificate No. MC–111749 issued February 8, 1967, to Howard E. Rohrer, Jr., doing business as H. E. Rohrer, Jr., Duncannon, Pa., authorizing the transportation of: passengers and their baggage, in the same vehicle with passengers, in round trip charter operation, beginning and ending at Millerstown, Pa., and points within 10 miles thereof and extending to points in New York, New Jersey, Maryland, Virginia, and the District of Columbia. Christian V. Graf, 407 North Front Street, Harrisburg, PA 17101, Applicants' representative.

No. MC–FC–74086. By order of December 4, 1972, the Motor Carrier Board approved the transfer to Trans Valley Transport, a California corporation, Gilroy, Calif., of the operating rights in Certificate No. MC–10278 issued May 7, 1969, to Donald J. Triolo, doing business as Tony Victorine Transporation, Gilroy, Calif., authorizing the transportation of various commodities from and to specified points and areas in California. Marvin Handler, 405 Montgomery Street, San Francisco, CA 94104, Attorney for applicants.

No. MC–FC–74088. By order of December 1, 1972, the Motor Carrier Board approved the transfer to Allen D. Taylor, doing business as Allen Taylor Truck Line, Yates Center, Kans. of the operating rights in Certificate No. MC–1808 issued April 1, 1965, to Cecil T. Weide, Yates Center, Kans., authorizing the transportation of various commodities between specified points and areas in Kansas and Missouri.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Minimum Wages for Federal and Federally Assisted Construction

Area Wage Determination Decisions, Modifications, and Supersedeas Decisions

No. 3—Pt. II——1

V 38 - 3 JAN 5 73 XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Area Wage Determination Decisions, Modifications, and Supersedeas Decisions

Area wage determination decisions. Area Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing dates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a), and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

Area Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to area wage determination decisions. Modifications and Supersedeas Decisions to Area Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing Area Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule making procedures prescribed in 5 U.S.C. 553 has been set forth in the original Area Wage Determination Decision.

Set forth below in this document are the following: Modifications to Area Wage Determinations Decisions for the following States (the numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State):

California	AP–245; AP–248, Oct. 13, 1972.
Louisiana	AP–366; AP–367, Dec. 8, 1972.
Michigan	AP–78, Dec. 22, 1972.
Ohio	AP–34; AP–35; AP–36; AP–37; AP–38; AP–39; AP–40; AP–41; AP–42; AP–43; AP–44; AP–45; AP–46, Nov. 17, 1972.
Tennessee	AM–504, Aug. 20, 1971.
Texas	AP–344, Sept. 29, 1972.
Utah	AP–254, Dec. 8, 1972.
Virginia	AP–440; AP–441, Nov. 3, 1972.
Wyoming	AP–250, Nov. 10, 1972.

Supersedeas Decision number AP–454 for Pennsylvania which supersedes Decision No. AM–5,968—published in the FEDERAL REGISTER on December 17, 1971.

Signed at Washington, D.C., this 29th day of December 1972.

BEN P. ROBERTSON,
Acting Administrator,
Wage and Hour Division.

V38-3 JAN 5 73 XUM

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

$3.00 per copy.

federal register

MONDAY, JANUARY 8, 1973

WASHINGTON, D.C.

Volume 38 ■ Number 4

Pages 947–1107

PART I

(Part II begins on page 1103)

NOTICE TO AGENCIES

Agencies preparing documents for publication in the FEDERAL REGISTER are reminded that the revised rules of the Administrative Committee of the Federal Register are in effect as of January 3, 1973. (1 CFR Chapter I, 37 F.R. 23602, November 4, 1972.)

These revised rules include the following significant changes:

1. Requirement for a preamble in each proposed rule making and final rule making document that describes the contents of the document in a manner sufficient to apprise a reader who is not an expert in the subject area of the general subject matter of the document.

2. Requirement for setting forth specific effective dates and action dates.

3. Change in publication dates of the daily FEDERAL REGISTER (Monday through Friday instead of Tuesday through Saturday). See 1 CFR 17.2, 18.12, and 18.17.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

ANTIDUMPING—
Customs Bur. rules Michelin radial tires from Canada subject to bounties or grants 1018
Customs Bur. notice of withholding of appraisement of stainless steel wire rods from France; comments in 30 days 1066

CHICKENS AND TURKEYS—Cost of Living Council modifies "first sale" definition 962

POULTRY—USDA proposals on Nat'l Poultry and Turkey Improvement Plan and Auxiliary Provisions; comments by 2–7–73 1103

(Continued inside)

No. 4—Pt. I——1

30-year Reference Volumes
Consolidated Indexes and Tables

Presidential Proclamations and Executive Orders

Consolidated subject indexes and tabular finding aids to Presidential proclamations, Executive orders, and certain other Presidential documents promulgated during a 30-year period (1936–1965) are now available in two separately bound volumes, published under Title 3 of the Code of Federal Regulations, priced as follows:

Title 3, 1936–1965 Consolidated Indexes **$3.50**

Title 3, 1936–1965 Consolidated Tables **$5.25**

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office
Washington, D.C. 20402

FEDERAL REGISTER
Area Code 202 Phone 962–8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for filing, publishing, and making available to the public, regulations and legal notices issued by the Executive Branch of the Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

EDUCATION—Proposed HEW rules on grant assistance made by the National Institute of Education; comment period ends 2–7–73 1020

EQUAL EMPLOYMENT OPPORTUNITY—HEW procedural rules for the enforcement of Executive Order 11246 997

BOTTLED WATER—Proposed FDA quality standards; comments in 60 days 1019

MOHAIR—USDA announces standards for grades of top mohair; effective 1–1–73 964

ELS COTTON—ASCS proposed rules on determinations regarding 1973 crop, and results of national marketing quota referendum (2 documents) 967, 1054

RICE AND FLAXSEED—Proposed rules for 1973 Commodity Credit Corp. Loan and Purchase Programs (2 documents); comments within 30 days 1054

FREEDOM OF INFORMATION—USDA and FCC regulations for declassification and public availability of classified material; effective 6–1–72 and 1–5–73 respectively (2 documents) 963, 998

AIR FARES—CAB sets 1–19–73 as cutoff date for petitions on orders setting increases based on security costs 1072

CAR TIRES—DoT withdraws proposed new criteria for determining tire strength 1055

SMALL PASSENGER VESSELS—Coast Guard extends compliance date for intensity standards of navigational lights until 1–1–74 1000

VA CLAIMS—Proposed revision of regulations on litigation and administrative claims; comments in 30 days 1058

AIR FORCE—DoD amends miscellaneous regulations (10 documents) 973–991

NAT'L FLOOD INSURANCE PROGRAM—HUD amends land use and control measures, revises certain procedures, and list of special hazard areas 1001

FPC—Notice of establishment of advisory and interagency committees; effective 1–5–73 1083

PROCUREMENT—GSA amends regulations on transportation contracts; effective 1–29–73 991

MEETINGS—
- NASA: Ad Hoc Panel on Advanced Reactor Space Power Technology, 1–9–73 1098
- Obstetrics and Gynecology Advisory Committee, 1–26–73 1071
- Nat'l Advisory Council on Vocational Education, 1–12 and 1–13–73 1071
- HEW: Nat'l. Advisory Comm. on the Education of Spanish and Mexican Americans, 1–9 and 1–10–73 1071
- FPC: Conference on Natural Gas Companies Annual Report of Gas Supply, 1–10–73 1055

CANCELED MEETING—
- Interior Dept. Technical Subcommittee of the Nat'l Petroleum Council Committee on Petroleum Resources, 1–9–73 1066

Contents

AGRICULTURAL MARKETING SERVICE

Rules and Regulations
Mohair top; standards for grades 964

AGRICULTURAL RESEARCH SERVICE

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Title 21—FOOD AND DRUGS

Chapter II—Bureau of Narcotics and Dangerous Drugs, Department of Justice

PART 308—SCHEDULES OF CONTROLLED SUBSTANCES

Schedules; Excluded Nonnarcotic Substances; Exempt Chemical Preparations; Excepted Stimulant or Depressant Compounds

The Comprehensive Drug Abuse Prevention and Control Act of 1970, in section 202(a) (21 U.S.C. 812(a)), requires that the schedules of controlled substances established by that Act be updated and republished on a semiannual basis during the 2-year period beginning 1 year after the effective date of that Act. The effective date of that Act was October 27, 1970. Pursuant to the mandate of section 202(a), therefore, the Director hereby orders the publication of the schedules of controlled substances as of October 27, 1972.

Dated: December 22, 1972.

JOHN E. INGERSOLL,
Director, Bureau of Narcotics and Dangerous Drugs.

SCHEDULES

§ 308.11 Schedule I.

(a) Schedule I shall consist of the drugs and other substances, by whatever official name, common or usual name, chemical name, or brand name designated, listed in this section. Each drug or substance has been assigned the Bureau Controlled Substances Code Number set forth opposite it.

(b) *Opiates.* Unless specifically excepted or unless listed in another schedule, any of the following opiates, including its isomers, esters, ethers, salts, and salts of isomers, esters, and ethers whenever the existence of such isomers, esters, ethers, and salts is possible within the specific chemical designation:

(1) Acetylmethadol	9601
(2) Allylprodine	9602
(3) Alphacetylmethadol	9603
(4) Alphameprodine	9604
(5) Alphamethadol	9605
(6) Benzethidine	9606
(7) Betacetylmethadol	9607
(8) Betameprodine	9608
(9) Betamethadol	9609
(10) Betaprodine	9611
(11) Clonitazene	9612
(12) Dextromoramide	9613
(13) Dextrorphan	9614
(14) Diampromide	9615
(15) Diethylthiambutene	9616
(16) Dimenoxadol	9617
(17) Dimepheptanol	9618
(18) Dimethylthiambutene	9619
(19) Dioxaphetyl butyrate	9621
(20) Dipipanone	9622
(21) Ethylmethylthiambutene	9623
(22) Etonitazene	9624
(23) Etoxeridine	9625
(24) Furethidine	9626
(25) Hydroxypethidine	9627
(26) Ketobemidone	9628
(27) Levomoramide	9629
(28) Levophenacylmorphan	9631
(29) Morpheridine	9632
(30) Noracymethadol	9633
(31) Norlevorphanol	9634
(32) Normethadone	9635
(33) Norpipanone	9636
(34) Phenadoxone	9637
(35) Phenampromide	9638
(36) Phenomorphan	9647
(37) Phenoperidine	9641
(38) Piritramide	9642
(39) Proheptazine	9643
(40) Properidine	9644
(41) Propiram	9649
(42) Racemoramide	9645
(43) Trimeperidine	9646

(c) *Opium derivatives.* Unless specifically excepted or unless listed in another schedule, any of the following opium derivatives, its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) Acetorphine	9319
(2) Acetyldihydrocodeine	9051
(3) Benzylmorphine	9052
(4) Codeine methylbromide	9070
(5) Codeine-N-Oxide	9053
(6) Cyprenorphine	9054
(7) Desomorphine	9055
(8) Dihydromorphine	9145
(9) Etorphine	9056
(10) Heroin	9200
(11) Hydromorphinol	9301
(12) Methyldesorphine	9302
(13) Methyldihydromorphine	9304
(14) Morphine methylbromide	9305
(15) Morphine methylsulfonate	9306
(16) Morphine-N-Oxide	9307
(17) Myrophine	9308
(18) Nicocodeine	9309
(19) Nicomorphine	9312
(20) Normorphine	9313
(21) Pholcodine	9314
(22) Thebacon	9315

(d) *Hallucinogenic substances.* Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation, which contains any quantity of the following hallucinogenic substances, or which contains any of its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation (for purposes of this paragraph only, the term "isomer" includes the optical, position, and geometric isomers):

(1) 3,4-methylenedioxy amphetamine	7400
(2) 5-methoxy-3,4-methylenedioxy amphetamine	7401
(3) 3,4,5-trimethoxy amphetamine	7390
(4) Bufotenine Some trade and other names: 3-(β-Dimethylaminoethyl)-5-hydroxyindole; 3-(2-dimethylaminoethyl)-5-indolol; *N,N*-dimethylserotonin; 5-hydroxy-*N*-dimethyltryptamine; mappine.	7433
(5) Diethyltryptamine Some trade and other names: *N,N*-Diethyltryptamine; DET.	7434
(6) Dimethyltryptamine Some trade or other names: DMT	7435
(7) 4-methyl-2,5-dimethoxyamphetamine Some trade and other names: 4-methyl-2,5-dimethoxy-α-methylphenethylamine; "DOM"; and "STP".	7395
(8) Ibogaine Some trade and other names: 7-Ethyl-6,6α,7,8,9,10,12,13-octahydro-2-methoxy-6,9-methano-5H-pyrido (1',2':1,2 azepino 4,5-b) indole; tabernanthe iboga.	7260
(9) Lysergic acid diethylamide	7315
(10) Marihuana	7360
(11) Mescaline	7381
(12) Peyote	7415
(13) N-ethyl-3-piperidyl benzilate	7482
(14) N-methyl-3-piperidyl benzilate	7484
(15) Psilocybin	7437
(16) Psilocyn	7438

V 38 - 4 JAN 8 73 XUM

(17) Tetrahydrocannabinols ---------- 7370
Synthetic equivalents of the substances contained in the plant, or in the resinous extractives of Cannabis, sp. and/or synthetic substances, derivatives, and their isomers with similar chemical structure and pharmacological activity such as the following:
Δ^1 cis or trans tetrahydrocannabinol, and their optical isomers.
Δ^6 cis or trans tetrahydrocannabinol, and their optical isomers.
$\Delta^{3,4}$ cis or trans tetrahydrocannabinol, and its optical isomers.
(Since nomenclature of these substances is not internationally standardized, compounds of these structures, regardless of numerical designation of atomic positions are covered.)

§ 308.12 Schedule II.

(a) Schedule II shall consist of the drugs and other substances, by whatever official name, common or usual name, chemical name, or brand name designated, listed in this section. Each drug or substance has been assigned the Controlled Substances Code Number set forth opposite it.

(b) *Substances, vegetable origin or chemical synthesis.* Unless specifically excepted or unless listed in another schedule, any of the following substances whether produced directly or indirectly by extraction from substances of vegetable origin, or independently by means of chemical synthesis, or by a combination of extraction and chemical synthesis:

(1) Opium and opiate, and any salt, compound, derivative, or preparation of opium or opiate, excluding naloxone hydrochloride, but including the following:

(i) Raw opium	9600
(ii) Opium extracts	9610
(iii) Opium fluid extracts	9620
(iv) Powered opium	9639
(v) Granulated opium	9640
(vi) Tincture of opium	9630
(vii) Apomorphine	9035
(viii) Codeine	9050
(ix) Ethylmorphine	9190
(x) Hydrocodone	9193
(xi) Hydromorphone	9194
(xii) Metopon	9260
(xiii) Morphine	9300
(xiv) Oxycodone	9143
(xv) Oxymorphone	9652
(xvi) Thebaine	9333

(2) Any salt, compound, derivative, or preparation thereof which is chemically equivalent or identical with any of the substances referred to in subparagraph (1) of this paragraph, except that these substances shall not include the isoquinoline alkaloids of opium.

(3) Opium poppy and poppy straw.

(4) Coca leaves (9040) and any salt, compound, derivative, or preparation of coca leaves, and any salt, compound, derivative, or preparation thereof which is chemically equivalent or identical with any of these substances, except that the substances shall not include decocainized coca leaves or extraction of coca leaves, which extractions do not contain cocaine (9041) or ecgonine (9180).

(c) *Opiates.* Unless specifically excepted or unless in another schedule any of the following opiates, including its isomers, esters, ethers, salts and salts of isomers, esters and ethers whenever the existence of such isomers, esters, ethers, and salts is possible within the specific chemical designation:

(1) Alphaprodine	9010
(2) Anileridine	9020
(3) Bezitramide	9800
(4) Dihydrocodeine	9120
(5) Diphenoxylate	9170
(6) Fentanyl	9801
(7) Isomethadone	9226
(8) Levomethorphan	9210
(9) Levorphanol	9220
(10) Metazocine	9240
(11) Methadone	9250
(12) Methadone-Intermediate, 4-cyano-2-dimethylamino-4,4-diphenyl butane	9254
(13) Morpamide-Intermediate, 2-methyl-3-morpholino-1, 1-diphenyl-propane-carboxylic acid	9802
(14) Pethidine	9230
(15) Pethidine-Intermediate-A, 4-cyano-1-methyl-4-phenylpiperidine	9232
(16) Pethidine-Intermediate-B, ethyl-4-phenylpiperidine-4-carboxylate	9233
(17) Pethidine-Intermediate-C, 1-methyl-4-phenylpiperidine-4-carboxylic acid	9234
(18) Phenazocine	9715
(19) Piminodine	9730
(20) Racemethorphan	9732
(21) Racemorphan	9733

(d) *Stimulants.* Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system:

(1) Amphetamine, its salts, optical isomers, and salts of its optical isomers	1100
(2) Methamphetamine, its salts, isomers, and salts of its isomers	1105
(3) Phenmetrazine and its salts	1630
(4) Methylphenidate	1726

§ 308.13 Schedule III.

(a) Schedule III shall consist of the drugs and other substances, by whatever official name, common or usual name, chemical name, or brand name designated, listed in this section. Each drug or substance has been assigned the Bureau Controlled Substances Code Number set forth opposite it.

(b) *Stimulants.* Unless specifically excepted or unless listed in another schedule any material, compound, mixture, or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system:

(1) Those compounds, mixtures, or preparations in dosage unit form containing any stimulant substances which compounds, mixtures, or preparations were listed on August 25, 1971, as excepted compounds under §308.32, and any other drug of the quantitative composition shown in that list for those drugs or which is the same except that it contains a lesser quantity of controlled substances.

(c) *Depressants.* Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a depressant effect on the central nervous system:

(1) Any substance which contains any quantity of a derivative of barbituric acid, or any salt of a derivative of barbituric acid	2100
(2) Chlorhexadol	2510
(3) Glutethimide	2550
(4) Lysergic acid	7300
(5) Lysergic acid amide	7310
(6) Methyprylon	2575
(7) Phencyclidine	7471
(8) Sulfondiethylmethane	2600
(9) Sulfonethylmethane	2605
(10) Sulfonmethane	2610
(d) *Nalorphine*	9400
(e) *Narcotics drugs.* Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation containing limited quantities of any of the following narcotic drugs, or any salts thereof:	
(1) Not more than 1.8 grams of codeine per 100 milliliters or not more than 90 milligrams per dosage unit, with an equal or greater quantity of an isoquinoline alkaloid of opium	9803
(2) Not more than 1.8 grams of codeine per 100 milliliters or not more than 90 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts	9804
(3) Not more than 300 milligrams of dihydrocodeinone per 100 milliliters or not more than 15 milligrams per dosage unit, with a fourfold or greater quantity of an isoquinoline alkaloid of opium	9805
(4) Not more than 300 milligrams of dihydrocodeinone per 100 milliliters or not more than 15 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts	9806
(5) Not more than 1.8 grams of dihydrocodeine per 100 milliliters or not more than 90 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts	9807
(6) Not more than 300 milligrams of ethylmorphine per 100 milliliters or not more than 15 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts	9808
(7) Not more than 500 milligrams of opium per 100 milliliters or per 100 grams or not more than 25 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts	9809
(8) Not more than 50 milligrams of morphine per 100 milliliters or per 100 grams, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts	9810

§ 308.14 Schedule IV.

(a) Schedule IV shall consist of the drugs and other substances, by whatever official name, common or usual name, chemical name, or brand name designated, listed in this section. Each drug or substance has been assigned the Bureau Controlled Substances Code Number set forth opposite it.

(b) *Depressants.* Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) Barbital	2145
(2) Chloral betaine	2460
(3) Chloral hydrate	2465
(4) Ethchlorvynol	2540
(5) Ethinamate	2545
(6) Methohexital	2264
(7) Meprobamate	2820
(8) Methylphenobarbital	2250
(9) Paraldehyde	2585
(10) Petrichloral	2591
(11) Phenobarbital	2285

§ 308.15 Schedule V.

(a) Schedule V shall consist of the drugs and other substances, by whatever official name, common or usual name, chemical name, or brand name designated, listed in this section.

(b) *Narcotic drugs containing noncarcotic active medicinal ingredients.* Any compound, mixture, or preparation containing any of the following limited quantities of narcotic drugs or salts thereof, which shall include one or more nonnarcotic active medicinal ingredients in sufficient proportion to confer upon the compound, mixture, or preparation valuable medicinal qualities other than those possessed by the narcotic drug alone:

(1) Not more than 200 milligrams of codeine per 100 milliliters or per 100 grams.

(2) Nor more than 100 milligrams of dihydrocodeine per 100 milliliters or per 100 grams.

(3) Not more than 100 milligrams of ethylmorphine per 100 milliliters or per 100 grams.

(4) Not more than 2.5 milligrams of diphenoxylate and not less than 25 micrograms of atropine sulfate per dosage unit.

(5) Not more than 100 milligrams of opium per 100 milliliters or per 100 grams.

§ 308.22 Excluded substances.

The following nonnarcotic substances which may, under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301), be lawfully sold over the counter without a prescription, are excluded from all schedules pursuant to section 201(g)(1) of the Act (21 U.S.C. 811(g)(1)):

EXCLUDED OVER-THE-COUNTER DRUGS

Trade name or other designation	Composition	Manufacturer or supplier
Amodrine	Tablet: Phenobarbital, 8 mg.; aminophylline, 100 mg.; racephedrine hydrochloride, 25 mg.	G. D. Searle & Co.
Bronkaid	Tablet: Phenobarbital, 8 mg.; ephedrine sulfate, 24 mg.; glyceryl guaiacolate, 100 mg.; theophylline, 100 mg.; thenyldiamine, 10 mg.	Drew Pharmacal Co., Inc.
Bronkolixir	Elixir (5 cc): Phenobarbital, 4 mg.; ephedrine sulfate, 12 mg.; glyceryl guaiacolate, 50 mg.; theophylline, 15 mg.; chlorpheniramine maleate, 1 mg.	Breon Laboratories Inc.
Bronkotabs	Tablet: Phenobarbital, 8 mg.; ephedrine sulfate, 24 mg.; glyceryl guaiacolate, 100 mg.; theophylline, 100 mg.; thenyldiamine, 10 mg.	Do.
Primatene	Tablet: Phenobarbital, ¾ gr.; ephedrine, ½ gr.	Whitehall Laboratories.
Tedral	Tablet: Phenobarbital, 8 mg.; theophylline, 130 mg.; ephedrine hydrochloride, 24 mg.	Warner-Chilcott Laboratories.
Tedral Anti-H	Tablet: Phenobarbital, 8 mg.; chlorpheniramine maleate, 2 mg.; theophylline, 130 mg.; ephedrine hydrochloride, 24 mg.	Do.
Tedral one-half strength	Tablet: Phenobarbital, 4 mg.; theophylline, 65 mg.; ephedrine hydrochloride, 12 mg.	Do.
Tedral Pediatric Suspension	Suspension (5 cc): Phenobarbital, 4 mg.; ephedrine hydrochloride, 12 mg.; theophylline, 68 mg.	Do.
Tedral suppositories double strength	Suppository: Phenobarbital, 16 mg.; theophylline, 260 mg.; ephedrine hydrochloride, 48 mg.	Do.
Tedral suppositories regular strength	Suppository: Phenobarbital, 8 mg.; theophylline, 130 mg.; ephedrine hydrochloride, 24 mg.	Do.
Verequad	Tablet: Phenobarbital, 8 mg.; theophylline calcium salicylate, 130 mg.; ephedrine hydrochloride, 24 mg.; glyceryl guaiacolate, 100 mg.	Knoll Pharmaceutical Co.
Verequad	Suspension (5 cc): Phenobarbital, 4 mg.; theophylline calcium salicylate, 65 mg.; ephedrine hydrochloride, 12 mg.; glyceryl guaiacolate, 50 mg.	Do.

§ 308.24 Exempt chemical preparations.

(a) The chemical preparations and mixtures set forth in paragraph (i) of this section have been exempted by the Director from application of sections 302, 303, 305, 306, 307, 308, 309, 1002, 1003, and 1004 of the Act (21 U.S.C. 822–3, 825–9, 952–4) and § 301.74 of this chapter, to the extent described in paragraphs (b) to (h) of this section.

(b) Registration and security: Any person who manufactures an exempt chemical preparation or mixture must be registered under the Act and comply with all relevant security requirements regarding controlled substances being used in the manufacturing process until the preparation or mixture is in the form described in paragraph (i) of this section. Any other person who handles an exempt chemical preparation after it is in the form described in paragraph (i) of this section is not required to be registered under the Act to handle that preparation, and the preparation is not required to be stored in accordance with security requirements regarding controlled substances.

(c) Labeling: In lieu of the requirements set forth in Part 302 of this chapter, the label and the labeling of an exempt chemical preparation must be prominently marked with its full trade name or other description and the name of the manufacturer or supplier as set forth in paragraph (i) of this section, in such a way that the product can be readily identified as an exempt chemical preparation. The label and labeling must also include in a prominent manner the statement "For industrial use only" or "For chemical use only" or "For in vitro use only—not for human or animal use" or "Diagnostic reagent— for professional use only" or a comparable statement warning the person reading it that human or animal use is not intended. The symbol designating the schedule of the controlled substance is not required on either the label or the labeling of the exempt chemical preparation, nor is it necessary to list all ingredients of the preparation.

(d) Records and reports: Any person who manufactures an exempt chemical preparation or mixture must keep complete and accurate records and file all reports required under Part 304 of this chapter regarding all controlled substances being used in the manufacturing process until the preparation or mixture is in the form described in paragraph (i) of this section. In lieu of records and reports required under Part 304 of this chapter regarding exempt chemical preparations, the manufacturer need only record the name, address, and registration number, if any, of each person to whom the manufacturer distributes any exempt chemical preparation. Each importer or exporter of an exempt narcotic chemical preparation must submit a semiannual report of the total quantity of each substance imported or exported in each calendar half-year within 30 days of the close of the period to the Distribution Audit Branch, Bureau of Narcotics and Dangerous Drugs, Department of Justice, Washington, D.C. 20537. Any other person who handles an exempt chemical preparation after it is in the form described in paragraph (i) of this section is not required to maintain records or file reports.

(e) Quotas, order forms, prescriptions, import, export, and transshipment requirements: Once an export chemical preparation is in the form described in paragraph (i) of this section, the requirements regarding quotas, order forms, prescriptions, import permits and declarations, export permit and declarations, and transshipment and intransit permits and declarations do not apply. These requirements do apply, however, to any controlled substances used in manufacturing the exempt chemical preparation before it is in the form described in paragraph (i) of this section.

(f) Criminal penalties: No exemption granted pursuant to § 308.23 affects the criminal liability for illegal manufacture, distribution, or possession of controlled substances contained in the exempt chemical preparation. Distribution, possession, and use of an exempt chemical preparation are lawful for registrants and nonregistrants only as long as such

V 38 - 4 JAN 8 73 XUM

distribution, possession, or use is intended for laboratory, industrial, or educational purposes and not for immediate or subsequent administration to a human being or other animal.

(g) Bulk materials: For materials exempted in bulk quantities, the Director may prescribe requirements other than those set forth in paragraphs (b) through (e) of this section on a case-by-case basis.

(h) Changes in chemical preparations: Any change in the quantitative or qualitative composition of the preparation or mixture after the date of application, or change in the trade name or other designation of the preparation or mixture, set forth in paragraph (i) of this section, requires a new application for exemption.

(i) The following preparations and mixtures, in the form and quantity listed in the application submitted (indicated as the "date of application") are designated as exempt chemical preparations for the purposes set forth in this section:

Manufacturer or supplier	Product name and supplier's catalog number	Form of product	Date of application
American Hospital Supply Corp. (Scientific Products Division).	Scientific Products Buffer, Salt Mixture B-2, No. 93953.	Vial: 18.18 grams per 10 dram vial.	9-15-71
American Hospital Supply Corp. (Dade Division).	Adsorbed Plasma Reagent No. B4233-1 and No. B4233-2.	Bottle: 1 ml	8-16-71
Do	Owren's Veronal Buffer No. B4234-25.	Bottle: 15 ml	8-16-71
Do	Phosphatase Substrate No. B5312-1 and No. B5312-5.	Bottle: 73 mg. dry powder	8-16-71
Do	Serum Reagent No. B4238-1 and No. B4253-2.	Bottle: 1 ml	8-16-71
Do	Thrombin Reagent (Bovine) No. B4233-15.	Bottle: 1 ml	8-16-71
Do	Thyroxine Buffer No. B5630-1	Bottle: 5 ml	8-16-71
American Hospital Supply Corp. (Harleco Division).	Barbital Buffer B-1 No. 96772	Vial: 12.12 grams per 7 dram vial.	9-15-71
Do	Barbiturate Standards Set. No. 64898.	Vial: 9 x 3 ml. of 8 single and 1 mixed at 15 mg per dl.	10-22-71
Do	Barringer & Woodard Buffered Substrate No. 23695.	Vial: 0.73 grams per 15 x 45 mm. vial.	9-15-71
Do	Buchler Instrument Buffer B-2 Double Strength, pH 8.6, 0.075m No. 93834.	Vial: 36.36 grams	9-15-71
Do	Buffer Barbital, pH 8.6, No. 96804	Vial: 1.82 grams per 15 x 45 mm. vial.	9-15-71
Do	Buffer Barbital, pH 8.8, No. 7691	Vial: 11.76 grams per 10 dram vial.	9-15-71
Do	Buffer Salt-Barbital Acetate Mixture, pH 8.6, No. 3787.	Vial: 14.7 grams per 29.5 x 80 mm. vial.	9-15-71
Do	Buffer Salt Mixture, pH 8.8, No. 7644.	Vial: 17.85 grams per 29.5 x 80 mm. vial.	9-15-71
Do	Buffer Salt Mixture Spinco B-1, pH 8.6, 0.05 Ionic Strength, No. 3947.	Vial: 12.12 grams per 29.5 x 80 mm. vial.	9-15-71
Do	Buffer Salt Mixture Spinco B-2, pH 8.6, 0.075 Ionic Strength, No. 3948.	Vial: 18.18 grams per 29.5 x 80 mm. vial.	9-15-71
Do	Buffered Barbital Sodium Chloride, pH 7.5, No. 64647.	Vial: 14.7 grams per vial	9-15-71
Do	Buffered Substrate Glycerophosphate Bodansky, No. 23681.	Vial: 0.924 grams per 15 x 45 mm. vial.	9-15-71
Do	Buffered Veronal, pH 7.5, No. 64322.	Vial: 16.48 grams per vial	9-15-71
Do	Gilereas & Davis Buffered Substrate, No. 23701.	Vial: 1.228 grams per 15 x 45 mm. vial.	9-15-71
Do	King & Armstrong Buffered Substrate, No. 23721.	Vial: 1.14 grams per 15 x 45 mm. vial.	9-15-71
Do	Roe & Whitmore Buffered Substrate, No. 23086.	Vial: 0.854 grams per 15 x 45 mm. vial.	9-15-71
Do	Scientific Products Buffer Salt Mixture B-2, No. 93953.	Vial: 18.18 grams per 10 dram vial.	9-15-71
Do	Shinowara, Jones & Reinhart Buffered Substrate, No. 23738.	Vial: 0.945 grams per 15 x 45 mm. vial.	9-15-71
Do	Thymol Barbital Buffer, McLagan Modified, pH 7.8, No. 29944.	Vial: 1.256 grams per 15 x 45 mm. vial.	9-15-71
Do	Thymol Buffer 100 ml 100 mg., Huergs & Popper, No. 29959.	Vial: 0.964 grams per 15 x 45 mm. vial.	9-15-71
Do	Thymol Buffer, pH 7.8, MacLagan, No. 29949.	Vial: 1.02 grams per vial	9-15-71
Do	Thymol Buffer, pH 7.55 Mateer, No. 29951.	Vial: 0.96 grams per 15 x 45 mm. vial.	9-15-71
Do	Zinc Sulfate, pH 7.5 (Kunkel), No. 64050.	Vial: 0.514 grams per vial	9-15-71
Amersham/Searle	Codeine (N-methyl-C14) Hydrochloride No. CFA-421.	Ampule: 10 cc	3-27-72

§ 308.32 Excepted compounds.

(a) Until criteria are adopted by the Bureau by which the Director may determine whether to except any compound, mixture, or preparation containing any depressant or stimulant substance listed in § 308.13 (b) or (c), or in § 308.14, or in § 308.15, from the application of all or any part of the Act pursuant to section 202(d) of the Act (21 U.S.C. 812(d)), the drugs set forth in paragraph (b) of this section have been excepted by the Director from application of the sections 305, 307, 308, 309, 1002, 1003, and 1004 of the Act (21 U.S.C. 825, 827–9, 952–4) and of § 301.74(d) of this chapter for administrative purposes only. The excepting of these drugs by the Director should not be construed as an adoption or rejection of the criteria by which these drugs were originally excepted. Any deviation from the quantitative composition of any of the listed drugs shall require a petition for exception in order for that drug to be excepted.

(b) The following drugs in dosage unit form, and any other drug of the quantitative composition shown below for one of the following drugs or which is the same except that it contains a lesser quantity of controlled substances or other substances which do not have a stimulant, depressant, or hallucinogenic effect, and which are restricted by law to dispensing on prescription, are excepted from the application of sections 305, 307, 308, 309, 1002, 1003, and 1004 of the Act (21 U.S.C. 825, 827–9, 952–4) and of § 301.74(d) of this chapter:

EXCEPTED PRESCRIPTION DRUGS

Trade name or other designation	Composition	Manufacturer or supplier
A.E.A	Tablet: Amobarbital, 25 mg.; aminophylline, 120 mg.; ephedrine hydrochloride, 25 mg.	Haack Laboratories, Inc.
Alased	Tablet: Phenobarbital, 16.2 mg.; homatropine methylbromide, 3.6 mg.; aluminum hydroxide gel, dried, 7½ gr.; magnesium trisilicate, 2½ gr.	Norgine Laboratories, Inc.
Alcitex	Tablet: Phenobarbital, ¼ gr.; atropine sulfate, 1/200 gr.; calcium carbonate, 3½ gr.; magnesium carbonate, 2½ gr.; cerium oxalate, ½ gr.	Paul B. Elder Co., Inc.
Algoson	Tablet: Butabarbital sodium, 7.5 mg.; acetaminophen, 300 mg.	McNeil Laboratories Inc.
Alhydrox	Tablet: Phenobarbital, ¼ gr.; aluminum hydroxide, 5 gr.; atropine sulfate, 1/300 gr.	Physicians Supply.
Alkasans	Tablet: Phenobarbital, 8.0 mg.; atropine sulfate, 0.06 mg.; kaolin-alumina gel, 300 mg.	P. J. Noyes Co.
Alsical	Powder (60 gr.): Phenobarbital, ¼ gr.; belladonna extract, ⅓ gr.; calcium carbonate, 24 gr.; magnesium trisilicate, 15 gr.; magnesium oxide, 10 gr.; aluminum hydroxide gel, dried, 10 gr.	Dorsey Laboratories.
Alubelap	Tablet: Phenobarbital, 8 mg.; aluminum hydroxide gel, dried, 300 mg.; belladonna extract, 4 mg.	Haack Laboratories, Inc.
Aludrox SA Suspension	Suspension (5 cc.): Butabarbital, 5 mg.; ambutonium bromide, 2.5 mg.	Wyeth Laboratories.
